VOL. VII—NO. 13. RED LAKE FALLS, MINNESO [illegible] Y 5, 1905.

COUNTY LEGISLATURE MEETS

Ole J. Johnson Elected Chairman of the County Board for the Ensuing Year.

The county commissioners held their first meeting of the year this week, beginning Tuesday and ending Friday. W. C. L. Demann, re-elected from the Second district, and Daniel Shaw, the new member from the Fourth, were sworn in and the board proceeded to an informal ballot for the election of a chairman. Ole J. Johnson received three votes, Louis Falardeau one and W. C. L. Demann one. The ballot was made formal and Mr. Johnson declared elected. Mr. Johnson evidently had not anticipated the honor and at first blush was tempted to refuse on the grounds that he could not spare the time to attend to the extra duties imposed on the chairman. However, he was finally persuaded that he ought to accept. Mr. Johnson has been a member of the board for six years, and is held in high esteem by the people of his district and his fellow board members. James Sutor of the First district was chosen vice chairman.

The bonds of the various county officials were approved. The bond of Karl M. Hansen, county treasurer, is in the sum of $70,000, and is furnished by the United States Fidelity & Guaranty company of Baltimore. There is considerable sentiment in favor of the county paying the premuim for the treasurer's bond, for the reason that the office pays only a modest salary, and it is hardly equitable that the incumbent should be asked to pay $200 of this in order to secure the county protection.

The matter of salaries of county officials was taken up, and after careful consideration it was decided to make no changes. Most of the salaries are fixed by law, and only the county attorney and superintendent of schools are subject to the pleasure of the board.

The annual financial statement was scrutinized and Auditor Ford complimented highly upon the concise and intelligent manner in which the affairs of the county are detailed. This statement will be printed as soon as it can be put in type.

The board of audit reported that the cash in the office of the county treasurer was correct and the board approved the report and complimented the retiring treasurer, O. T. Tandberg, on the efficiency with which the affairs of the office has been conducted.

Auctioneer's licenses were issued to Dan Patterson, Thos. Moreau and R. J. McKircher.

The more important actions of the board will be found under separate headings in this issue. There is an unusually large grist of bills to allow, as there has been no meeting of the board since September.

NOTABLE BUSINESS CHANG [illegible]

Samuel Gibeau Buys Interest in the Sortedahl Land, Loan and Abstract Company.

Samuel Gibeau, who retired Tuesday from the office of register of deeds after a six years' incumbency, has purchased an interest in the Sortedahl Land, Loan and Abstract company, and at the annual meeting of the company will be elected to the position of treasurer of that corporation. This office heretofore has been held by A. G. Bjorneby, who has been compelled to seek a milder climate by the reason of his wife's poor health.

Aside from his duties as treasurer of the company, Mr. Gibeau will have charge of the abstract department, a position he is well qualified to fill by reason of his long experience as register of deeds. It is also said that he is slated for the position of vice president of the Bank of Red Lake Falls.

Mr. Gibeau is an old resident of Red Lake county, and was a member of the first board of county commissioners. While living at Lambert he filled many positions of trust, and by his fair and upright dealings has won the esteem and confidence of all who know him. The people of Red Lake county will be glad to know that Mr. Gibeau is to remain with us, and that he will be actively identified with the business interests of the county-seat.

Button's Business College, Crookston, Minn., has more graduates working in that city as stenographers and book-keepers at a good salary than all other business colleges combined and offers $100 to anyone who will prove the contrary.

"I never expect the time to come when I shall regret my connection with the Modern Woodmen [illegible]—Richard Yates, Governor of Illinois.

[illegible]

He [illegible]

The Thief River [illegible] ys that Oliver Mattson [illegible] resident of that city, wa [illegible] instantly killed at Green [illegible] day night by Henry McGra [illegible] carpenter in the employ of the Great Northern. The affair happened about 10:15 p. m. Mattson was connected with a house of ill fame at Greenbush and on the day he met his death was crazy drunk. He went to the resort and had considerable trouble with the girls, who became frightened and left the place, going to the Great Northern carpenter car, where they were admitted. Mattson fol [illegible] and was also admitted [illegible] never be able to convict him of murder.

A coroner's inquest was held Tuesday night. The verdict rendered was to the effect that Oliver Mattson died as a result of the bullet fired by Henry McGrath.

PLUMMER WILL INCORPORATE.

County Commissioners Granted Required Permission.

H. H. Finrow, H. J. Enderle, W. G. Brown, Erick Iverson and other prominent residents of the embryo city of Plummer-on-the-Soo, were in town this week to urge upon the members of the board of county commissioners the necessity of incorporating the townsite under the laws of the state.

The board decided that the place had the required number of residents, and that in all respects the petitioners had conformed to the law in such cases made and provided. They granted the application, and a vote on the proposition by the resident of the townsites will be taken as soon as the legal formalities can be arranged.

Knights Install Officers.

The new officers of the local lodge of Knights of Pythias were installed at the meeting Tuesday evening, the work being in charge of District Deputy Peter B. Gaass. The new officials for 1905 are as follows: Chancellor commander, Samuel E. Hunt; vice chancellor, S. L. Lewis; prelate, Rev. H. W. Knox; master of work, Henry W. Anderson, keeper of records and seal, Thomas Germo; master of finance, Dr. F. F. Fletcher; master of exchequer, J. B. Armstroug; master at arms, George F. Hennings, trustee. W. A. McIntyre inner guard, P. B. Gaass; outer guard, W. A. McIntyre.

New Great Northern Bridge.

The Great Northern will build a new overhead bridge over the Red Lake river to replace the old bridge at the Red Lake Falls Milling company's dam. This will be an iron bridge and first-class in every respect. The Great Northern is spending a lot of money on this branch, which indicates that they intend it to be an important feeder for the system in the near future.

COURIER IS OFFICIAL PAPER

[illegible] of County Commissioners [illegible] wards Printing Contract Monday Evening.

At the session of the board of county commissioners Monday evening the contract for doing the official printing for the ensuing year was awarded to the RED LAKE COURIER, and that paper was designated as the official newspaper of Red Lake county. The vote to award the printing to THE COURIER was unanimous.

Three bids for the printing were submitted, as follows:

RED LAKE COURIER—For the delinquent tax list 3 cents per description; for the financial state [illegible] dings and other notices [illegible] ption, for the financial state and other notices, 35 cents per [illegible] or the first insertion and 20 [illegible] for each subsequent insertion.

[illegible] e motion was made by Com [illegible] oner Shaw and seconded by [illegible] missioner Falardeau that the [illegible] act be awarded to the RED [illegible] COURIER. Every commission [illegible] ed in favor of the motion.

[illegible] e rate contracted for the county [illegible] ng is the lowest ever paid in [illegible] ake county, and it is likely [illegible] o county in the state gets a [illegible] price. It is not claimed that [illegible] uccessful bidder can make a [illegible] at the price at which the [illegible] obliged to print the county news in order to give its readers good service, and when newspaper men "fall out" the dear tax payer gets the benefit.

Under the terms of the bid all of the official publications will be made in the RED LAKE COURIER, the Thief River Press, the Thief River News and the St. Hilaire Spectator. This will give the people of the county good service.

Has the Brain Reached Its Limit?

One of the leading magazines recently published an article to the effect that the human brain has reached the limit of its development; that is, that the bodily tissue in the brain is under as much strain as it can stand. This hardly seems lsgical, as the development along every line is simplifying methods, rather than confusing them and we are learning to think more clearly, live better and work harder with less effort. Golden grain belt beer thus has a definate use—to rest the mind and body and make their work lighter. That it does this hundreds will testify. Order of your nearest dealer or be supplied by Alex. Thompson, Crookston.

Courier's New Manager.

Ed. H. Chase is expected here this week from Forest City, Iowa, to enter the employ of THE COURIER. During the editor's absence at St. Paul Mr. Chase will have full charge of the paper. He has been in country newspaper work for more than twenty years and knows the business from a to izzard. He is also a fine young man and will be an enterprising and valuable citizen for Red Lake Falls. The editor feels highly gratified that he is enabled to leave the business in such competent hands.

Garnes—The official vote gave Moreau 9, Hansen 43 and Finke 7. There was no change on the recount, but 15 illegal votes were discovered, leaving the percentage of loss as follows: Moreau 2.24, Hansen 11.06.

Equality—The official vote stood: Moreau 14, Hansen 39, Finke 17. Ten illegal votes were discovered, leaving the loss to the leading candidates as follows: Moreau 2; Hansen 5.57.

Emardville—The official returns were: Moreau 18; Hansen 16; Finke 24. Nine illegal votes were discovered, but the percentage of loss was so nearly the same that it was not taken into account.

Louisville—The official returns gave Moreau 48; Hansen 12 and Finke 2. The recount gave no change from these figures.

Lake Pleasant—The official vote stood: Moreau 40, Hansen 11. The recount showed a net gain of one for Hansen.

Red Lake Falls city, First ward—The official returns gave Moreau 28, Hansen 62 and Finke 5. Nine votes counted for Moreau were thrown out, it being shown that these ballots were marked both Moreau and Finke. Fifteen illegal votes were found, and the pro rata proportion gave Moreau a loss of 3.27 and Hansen 11.

Terrebonne—The official returns gave Moreau 78, Hansen 7 and Finke 3. Of these 37 votes were declared illegal, giving a loss to Moreau of 31.91 and Hansen 2.85.

Poplar River—The result of the canvassing board gave Moreau 67 and Hansen 7. The recount gave Moreau a net gain of one.

The summary gives a total of 851.41 legal votes for Hansen and 823.82 for Moreau. Besides the election to the office of county treasurer Mr. Hansen was awarded judgment for the costs and expenditures of the contest proceedings.

The result is not a surprise, as practically every attorney familiar with contest proceedings recognized the fact that Hansen had the best of the argument all the way through. It is asserted that Judge Montague, attorney for the defendant, told various persons about town soon after the contest commenced that Mr. Moreau had no show to win.

The people of Red Lake Falls were about evenly divided on the proposition, both of the candidates having many warm personal friends here.

MAN IS SHOT AT GREENBUSH

Oliver Mattson, a Thief River Falls Resident, Instantly Killed by Henry McGrath.

The Thief River Falls News says that Oliver Mattson, a former resident of that city, was shot and instantly killed at Greenbush Sunday night by Henry McGrath, a carpenter in the employ of the Great Northern. The affair happened about 10:15 p. m. Mattson was connected with a house of ill fame at Greenbush and on the day he met his death was crazy drunk. He went to the resort and had considerable trouble with the girls, who became frightened and left the place, going to the Great Northern carpenter car, where they were admitted. Mattson followed and was also admitted to the car. He demanded that he be given his money, and Foreman Vining told him he did not have any money belonging to him and if the girls had money of his they would probably return it in the morning. Mattson at once hauled out a revolver, which he flourished around and told everybody in the car to look out or he would shoot. Henry McGrath then drew his revolver and fired two shots at Mattson. The first shot went wide of the mark, but the second hit Mattson just over the eye and killed him instantly. McGrath at once gave himself up to the authorities and the coroner of Roseau county was notified.

Mattson lived in Thief River for some time and is quite well known here. His parents reside about five miles southeast of town and a brother now lives there.

McGrath was taken to Roseau, the county seat of Roseau county and he will remain in jail until the grand jury meets unless he is able to furnish bonds. The general impression seems to be that they will never be able to convict him of murder.

A coroner's inquest was held Tuesday night. The verdict rendered was to the effect that Oliver Mattson died as a result of the bullet fired by Henry McGrath.

PLUMMER WILL INCORPORATE.

County Commissioners Granted Required Permission.

H. H. Finrow, H. J. Enderle, W. G. Brown, Erick Iverson and other prominent residents of the embryo city of Plummer-on-the-Soo, were in town this week to urge upon the members of the board of county commissioners the necessity of incorporating the townsite under the laws of the state.

The board decided that the place had the required number of residents, and that in all respects the petitioners had conformed to the law in such cases made and provided. They granted the application, and a vote on the proposition by the resident of the townsites will be taken as soon as the legal formalities can be arranged.

Knights Install Officers.

The new officers of the local lodge of Knights of Pythias were installed at the meeting Tuesday evening, the work being in charge of District Deputy Peter B. Gaass. The new officials for 1905 are as follows: Chancellor commander, Samuel E. Hunt; vice chancellor, S. L. Lewis; prelate, Rev. H. W. Knox; master of work, Henry W. Anderson, keeper of records and seal, Thomas Germo; master of finance, Dr. F. F. Fletcher; master of exchequer, J. B. Armstroug; master at arms, George F. Hennings, trustee. W. A. McIntyre inner guard, P. B. Gaass; outer guard, W. A. McIntyre.

New Great Northern Bridge.

The Great Northern will build a new overhead bridge over the Red Lake river to replace the old bridge at the Red Lake Falls Milling company's dam. This will be an iron bridge and first-class in every respect. The Great Northern is spending a lot of money on this branch, which indicates that they intend it to be an important feeder for the system in the near future.

COURIER IS OFFICIAL PAPER

Board of County Commissioners Awards Printing Contract Monday Evening.

At the session of the board of county commissioners Monday evening the contract for doing the official printing for the ensuing year was awarded to the RED LAKE COURIER, and that paper was designated as the official newspaper of Red Lake county. The vote to award the printing to THE COURIER was unanimous.

Three bids for the printing were submitted, as follows:

RED LAKE COURIER—For the delinquent tax list 3 cents per description; for the financial statement, proceedings and other notices 12½ cents per folio for the first insertion and 6¼ cents for subsequent insertions.

Thief River Falls Review—For the delinquent tax list, 6 cents per description; for the financial statement, proceedings and other notices, 30 cents per folio for the first insertion and 15 cents per folio for each subsequent insertion.

Red Lake Falls Gazette—For the delinquent tax list, 10 cents per description; for the financial statement and other notices, 35 cents per folio for the first insertion and 20 cents for each subsequent insertion.

The motion was made by Commissioner Shaw and seconded by Commissioner Falardeau that the contract be awarded to the RED LAKE COURIER. Every commissioner voted in favor of the motion.

The rate contracted for the county printing is the lowest ever paid in Red Lake county, and it is likely that no county in the state gets a lower price. It is not claimed that the successful bidder can make a profit at the price at which the work was taken. A newspaper is obliged to print the county news in order to give its readers good service, and when newspaper men "fall out" the dear tax payer gets the benefit.

Under the terms of the bid all of the official publications will be made in the RED LAKE COURIER, the Thief River Press, the Thief River News and the St. Hilaire Spectator. This will give the people of the county good service.

Has the Brain Reached its Limit?

One of the leading magazines recently published an article to the effect that the human brain has reached the limit of its development; that is, that the bodily tissue in the brain is under as much strain as it can stand. KARL HANSEN IS TREASURER

Judge Grindeland Decides Contest Case in Favor of the Democratic Candidate.

Karl M. Hansen, the Democratic nominee for the office of county treasurer, who was defeated by the narrow margin of seven votes on the face of the official returns, has been declared elected to the position by Judge Grindeland of the district court, his vote being 851.41 to 823.82 for Ovide Moreau, the Republican candidate, leaving Hansen's plurality at 27.59. The decision was handed down Morning morning.

It will be remembered that Mr. Hansen instituted a contest soon after election, alleging that he believed a large number of illegal votes had been cast for Moreau in certain specified townships. The findings of Judge Grindeland bears out practically every contention made on behalf of Mr. Hansen.

In the summary of the various towns and precincts wherein the vote was questioned and recounted Judge Grindeland reaches the following conclusions:

Lambert—The vote showed 34 for Moreau, 15 for Hansen and one for Finke. No change was found on the recount, but 15 illegal votes were discovered, As there was no way to determine for whom these illegal votes were cast the Judge decided to apportion them pro rata according to the vote returned for the several candidates for treasurer. On this basis Hansen lost 2.10 votes and Moreau 11.76.

Red Lake Falls city, Second ward—The returning board gave Moreau 51, Hansen 42 and Finke 3. The recount showed the vote to stand: Moreau 47, Hansen 42 and Finke 2. As four votes were thrown out this left a net gain of five for Hansen.

Garnes—The official vote gave Moreau 9, Hansen 43 and Finke 7. There was no change on the recount, but 15 illegal votes were discovered, leaving the percentage of loss as follows: Moreau 2.24, Hansen 11.06.

Equality—The official vote stood: Moreau 14, Hansen 39, Finke 17. Ten illegal votes were discovered, leaving the loss to the leading candidates as follows: Moreau 2; Hansen 5.57.

Emardville—The official returns were: Moreau 18; Hansen 16; Finke 24. Nine illegal votes were discovered, but the percentage of loss was so nearly the same that it was not taken into account.

Louisville—The official returns gave Moreau 48; Hansen. 12 and Finke 2. The recount gave no change from these figures.

Lake Pleasant—The official vote stood: Moreau 40, Hansen 11. The recount showed a net gain of one for Hansen.

Red Lake Falls city, First ward—The official returns gave Moreau 28, Hansen 62 and Finke 5. Nine votes counted for Moreau were thrown out, it being shown that these ballots were marked both Moreau and Finke. Fifteen illegal votes were found, and the pro rata proportion gave Moreau a loss of 3.27 and Hansen 11.

Terrebonne—The official returns gave Moreau 78, Hansen 7 and Finke 3. Of these 37 votes were declared illegal, giving a loss to Moreau of 31.91 and Hansen 2.85.

Poplar River—The result of the canvassing board gave Moreau 67 and Hansen 7. The recount gave Moreau a net gain of one.

The summary gives a total of 851.41 legal votes for Hansen and 823.82 for Moreau. Besides the election to the office of county treasurer Mr. Hansen was awarded judgment for the costs and expenditures of the contest proceedings.

The result is not a surprise, as practically every attorney familiar with contest proceedings recognized the fact that Hansen had the best of the argument all the way through. It is asserted that Judge Montague, attorney for the defendant, told various persons about town soon after the contest commenced that Mr. Moreau had no show to win.

PORT ARTHUR FALLS AT LAST.

GEN. STOESSEL, RUSSIAN COMMANDER NEGOTIATES FOR THE SURRENDER.

Gen. Negi Reports to Tokio that He Has Arranged for the Capitulation of the City, and Troops Will Enter at Once.

Tokio, Jan. 3.—The Russian and Japanese commissioners appointed to arrange the terms of the capitulation of the Russian forces at Port Arthur signed the compact of surrender at 9:45 last night.

The text of General Nogi's telegram announcing the capitulation of the Russian forces at Port Arthur, is as follows:

"The plenipotentiaries of both parties concluded their negotiations Monday at 4:30 o'clock. The Russian commissioners accepted on the whole the conditions stipulated by us and consented to capitulate.

"The document has been prepared and signatures are now being affixed. Simultaneously with the conclusion of negotiations both armies suspended all hostilties. It is expected the Japanese army will enter Port Arthur to-day."

The authorities in St. Petersburg, in the absence of direct official news from Gen. Stoessel that Port Arthur has surrendered, have not permitted the news to become public. Emperor Nicholas is in the south of Russia, and his ministers are for the time being in the dark as to what dispatches have been sent to him from the front.

The conditions of the surrender are not yet known, but in all quarters it is anticipated that they are such as an honorable soldier may accept from a brave and victorious army.

The spirit of the Russians may be judged by the statement that the campaign will be newed with vigor in the spring.

Possibly some of the hesitation of the authorities at St. Petersburg to make the announcement of the fall of Port Arthur is due to threats and rumors of radical demonstrations coupled with the absence of the emperor; but it is certain that no demonstration is likely which could assume serious proportions, and the radical leaders would be sure to alianate the sympathy of many of even of the more liberal Russians if they choose such a moment for a revolutionary demonstration.

Both in Paris and London the opinion is that the squadron under Vice Admiral Rojestvensky, which started from Liban for the Far East three months ago will have to retrace its way home, as adherance to the original plans would invite disaster without probability of effecting a junction with the warships at present in the harbor of Vladivostok.

Mukden, Jan. 2.—A heavy cannonade and rifle fire commenced on the Russian center early this morning and continued during the day. It is reported that the Japanese attacked in effort to break center, but were driven back.

Berlin, Jan. 2.—A dispatch to the Lokal Anzeiger from Tokio says: An official bulletin has been posted announcing that Port Arthur has capitulated under conditions honorable to the garrison.

Tokio, Jan. 2.—2 p. m.—Gen. Stoessel's letter to Gen. Nogi says that further resistance is useless. The emperor has telegraphed to Gen. Nogi, commending Gen. Stoessel and directing that full military honor be shown him.

The chiefs of staff met at noon to discuss terms of surrender. Capt. Ijichi, representing Gen. Nogi, has plenary power.

The siege began almost with the first gun of the war, now nearly eleven months ago, and when perhaps the greatest stronghold in the world was garrisoned by 40,000 Russian soldiers, supported by a formidable squadron of modern battleships, cruisers and torpedo boats.

These warships have been destroyed or dispersed until but a few torpedo boats remain in the harbor. The garrison, at latest accounts, has been reduced to about 15,000 men.

On Dec. 4, High (203) Meter hill, one of the most commanding positions held by the Russians, was captured by the Japanese after a severe fight, the loss on both sides being enormous. It was from this hill that the death blows were struck.

Indicted.

Portland, Ore., Jan. 2.—United States Senator John H. Mitchell, Representative in Congress Binger Hermann, and George Sorrenson, formerly a deputy sheriff of Multnomah county, were jointly indicted by the federal grand jury.

The indictment alleges that John H. Mitchell and Binger Hermann did in January, 1902, unlawfully and feloniously conspire together with S. A. D. Puter, Horace G. McKinley, N. W. Tarpley, Emma L. Watson, Salmon B. Ormsby, Clark E. Loomis, William H. Davis and others, to defraud the government of the United States out of a portion of its public lands situated in township 11 south of range 7 east, by means of forged and false affidavits and fictitious persons, and that in the furtherance of such conspiracy S. A. D. Puter did on March 9, 1902, pay to John H. Mitchell the sum of $2,000 to secure his influence with Binger Hermann, then commissioner of the general land office at Washington.

MINNESOTA NEWS.

Hotel Burns.

For the eighth time in twenty-three years, the old St. James hotel at Duluth was swept by fire. Sixty-five guests were sleeping in the hotel at 33:0 in the morning, when the fire was discovered. The firemen and police saved many persons who otherwise would have been cremated.

Among the guests that had narrow escapes was J. A. Odell and wife of Philadelphia. He is a cousin of Gov. Odell of New York.

There were two theatrical companies in the house—"The Sign of the Cross" and "The Curse of Drink." The theatrical people made merry over the loss of clothing and other articles of value.

Everyone of the guests got down the fire escapes, with the aid of the police and firemen, but none of them had time to dress. Some of the actresses in the theatrical companies carried their outer clothing to the street before donning it, and using a plate store window for a mirror.

In the Capitol.

Gov. S. R. Van Sant has the honor of being the first governor to occupy the governor's office in the new capitol. In one of the private rooms some of the governor's admirers placed a bouquet of American Beauty roses. The governor received many callers during the forenoon. The large reception room of the suite will not be ready for some time.

In spite of the storm, State Treasurer Block and state Auditor Iverson removed nearly all of their property to the new capitol. The only officers that will be left in the old capitol are the clerk of the supreme court, the public examiner, the superintendent of public instruction and the supreme court justices.

Gov. Van Sant's first act on assuming his desk at the new capitol was to write a letter to his aged mother at Le Claire, Iowa.

High Priced Beef.

When Clear Lake Jute 2d, Minnesota's wonderful steer, was proclaimed by experts at the International Live Stock Exposition at Chicago, to be the grand champion steer of the world, the animal which has been the pet and glory of the agricultural experiment station brought much fame to the state, but news of additional fame came in a telegram from New York announcing that the carcass of the perfect steer had been sold for 50 cents a pound, the highest price ever paid for dressed beef.

It was said, too, that the beef would be divided among all of the prominent hotels in the metropolis and that each would call attention on their menu cards to the presence in their kitchens of portions of the most famous steer in the world, a product of the state of Minnesota.

Killed the Deer.

A tame deer belonging to an Itasca county homesteader who lives about twenty-five miles east of Blackduck was driven by wolves from the yard where it usually stayed to the dense woods surrounding the cabin of the homesteader and it is supposed that the animal was devoured by the hungry beasts, as it has not returned to the cabin. The wolves entered the yard late in the afternoon and the pack was composed of about twenty. After surrounding the deer they attacked it, forcing it to leave the yard and run to the woods, the beasts running after it at the top of their speed.

Health Report.

Reports from the St. Paul health department for the eleven months ending Nov. 30 show that of the 1,569 deaths almost 9 per cent were from unnatural causes. There were 136 deaths in this class, 83 being caused by accidents, 40 suicides, 6 homicides and seven by poison.

For the same length of time last year there were 1,489 deaths and 126 of these were due to unnatural causes, the same number by poison as this year and five more from accidents, the suicides falling off 12 and the homicides 1.

Finds a Pearl.

At a family reunion held at LeSueur at the home of George M. Tousley, a part of the dinner bill of fare was oysters, and in these C. D. Tousley, who lives at Mitchell, South Dakota, found two pearls, one small, but the other of true pear shape, and for which he was immediately offered $350 by one of the guests present. Mr. Tousley, however, refused the offer and presented the pearl to his wife.

News Notes.

While coupling cars at Kasota, C. Roy Horton, a freight conductor on the Omaha road, was caught between the cars and crushed to death.

Indications point to a resumption of operations at several idle mines on the Mesaba and Vermillion ranges.

Channing Seabury says the capitol commission will have a surplus of $100,000 after completing the new building.

A committee of the State Educational association recommends stricter child labor laws.

It is proposed to have specially constructed street cars to transport fire engines between the Twin Cities in case of need.

The St. Paul police arrested a man who is suspected of complicity in the murder of John McGrath in a cattle car in Little Falls, Minn., August 28, 1901.

Charles L. Bassett, a Minneapolis detective, had his watch and Masonic charm snatched from his vest as he stood at a bar in a saloon. The thief made for the door and escaped before any of the occupants could capture the man.

PLUMMER.

(From the Pioneer.)

Sheriff Linnihan was out from Red Lake Falls on Thursday night on official business.

J. E. Buskirk returned on Monday after a ten-day's visit with his family at Red Lake Falls.

The Misses Maggie and Aggie and Master Willie Reed arrived here on Christmas eve from Grand Forks to spend the holidays with their father, J. M. Reed. They will return next week corrying with them the good wishes of all who met them during their visit.

Attorney Chas. E. Boughton and Adam Zeh were here today from Red Lake Falls on business.

Mabel, the 3-year-old daughter of Mr. and Mrs. Audrew Steen, died early on Sunday morning. Mrs. Steen and her three children were here from Park River, N. D., and little Mabel was taken ill on Saturday. Her father was wired for but she died before he arrived here on Sunday. The funeral occurred on Friday afternoon.

The greatest system renovator. Restores vitality, regulates the kidneys, liver and stomach. If Hollister's Rocky Mountain Tea fails to cure get your money back. That's fair. 35 cents, Tea or Tablets. A. L. Reichert.

A. J. Riebe, of Hewitt, Todd county, was here on Wednesday looking over the town for a suitable location in which to start a harness shop. He returned home that evening but said he would return next week. Before leaving he authorized the Pioneer to announce that he will start a shop here, equipped in a thoroughly up-to-date manner. He will have it ready before spring and is certain to do a good business from the start as he will guarantee all of his work to be strictly first class.

I'll brave the storms of Chilkoot Pass,
I'll cross the plains of frozen glass,
I'd leave my wife with and cross the sea,
Rather than be without Rocky Mountain Tea. A. L. Reichert.

O. Winseth, a prominent merchant of Ulen, was here yesterday looking the town over and he liked it well enough to decide to locate here and engage in business. He perchased lots 4 and 5 of block 10, just west of J. M. Reed's, and will shortly commence the erection of a fine store building. He will put in a big stock of general merchandise with clothing and dry goods for his leading lines.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of Kidney trouble, hoping it would wear away, he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys and was cured by Foley's Kidney Cure. Sold by A. L. Reichert.

Brain Leaks.

Trying and failing is better than never trying.

Things that come easy are usually the hardest to keep.

Money builds the house, but it is love that makes the home.

It is better to resolve and fail than never to resolve at all.

You get closer to God by drawing nearer to your neighbor.

There is a vast differents between "swearing off" and remaining off.

If good resolutions were bread and butter there would be an end to hunger.

The man with the least money can usually see the best places to make an investment.

There is one good thing about building air castles—it keeps the builder looking up instead of down.

Somehow or other the sermonette smothered in a concert never appealed to us on a Sunday morning.

Some people spend so much time telling how good they are that they have no time to show how good they are.

Some people who hasten to "lay their burdens on the Lord" are awfully slow in giving Him credit for their joys.

It is hard to make the average housewife believe that there is any greater business calamity than a cake falling.

A man begins to get some idea of how his wife works when he undertakes to dress the children in the morning.

Was there ever play so enjoyable as the hard work done while preparing the presents for the little ones on Christmas morning?

We hope to live long enough to see the day when the amateur elocutionists will no longer recite "How Ruby played." It's a worse chestnut than "Curfew shall not ring tonight."

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and to-day she is well and strong." It kills the germs and of all diseases. One dose relieves. Guaranteed at 50c and $1.00 by All Druggists. Trial bottle free.

New line of correspondence full stationery just received at THE COURIER stationery store.

To Amend Primary Law.

Warren Register: Representative Wells, of Wilkin county, has prepared a bill extending the primary law to all state officers, and changing the date of the primary election from September to June, and will introduce it at the next session of the legislature. Some people have expressed the opinion that primary election laws are the interest of nobody but the publishers of newspapers and that the editors are back of all schemes for its extension; but Mr. Wells is a lawyer and politician and believes that the present law has stood the tests given it so well that its scope should be so broadened as to take in state officers as well as those now included.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is atleast one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strenght by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

Reflections of a Bachelor.

New York Press: It is the loose change that slips through our fingers.

It is better to have been a son-in-law than never to have wed at all.

For some time after a girl wears her hair on top of her head she wears nothing inside of it.

A woman likes to wake up in the night and begin to cry just to be able to get mad over the comfortable way her husband can sleep through it.

If wives sent advance notices the way insurance companies do when a premium is to be paid, their husbands could remember their wedding day.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in Pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. S. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Sold by A. L. Reichert.

What the Man Finds.

Milwaukee Journal: Man's reason is seldom equal to woman's wit. few are the times when a man gets the better of a woman in a war of words or of purposes. He may go away calling himself victor only to find himself vanquished.

80 Years Old.

Mrs. Sina W. Platt, of Unity, Wis., a lady of 80 years, was recently cure of rheumatism by Gloria Tonic after many well-known remedies were previously used. This happy result ought to be a great encouragement to many of our readers. Sold by W. A. Schrieter.

Wrongs Have to Skulk Now.

Saturday Evening Post: Wrongs that once strutted as rights are losing their brazen front of impudence: they still roam the land, but they skulk. If it be true that men do not go voluntarily to be preached at as they once did, it is also true that they preach at themselve a great deal more.

Four Hundred Babies.

St. Vincent's Infant Asylum, Chicago, shelters homeless waifs awaiting adoption, and there are nearly 400 babies there. Sister Julia writes: "I cannot say too much in praise of Foley's Honey and Tar for coughs, colds, croup and whooping cough." Contains no opiates and is safe and sure. Ask for Foley's Honey and Tar and insist upon having it, as it is a safe remedy and certain in results. Refuse substitutes. Sold by A. L. Reichert.

Traveling Today.

Traveling nowadays is a pleasure. We loll back in fortable seats of luxuriously appointed cars, resplendent in mahogany, mirrors and dainty furnishings; dine from a menu the acme of culinary art and receive every attention from courteous attendants;—Buffet Cars with comforts of the Club, Cosy Compartment Cars, which the ladies especially appreciate and the finest of Pullman Sleeping Cars are all to be found on the famous North-Western Limited—every night—Minneapolis and St. Paul to Chicago.

Notice of Application for Liquor License.

STATE OF MINNESOTA, COUNTY OF RED Lake, City of Red Lake Falls, ss.

Notice is Hereby Given, That application has been made in writing to the City Council of said City of Red Lake Falls, and filed in my office praying for License to Sell Intoxicating Liquors for the term commencing on January 7th 1905, and terminating on January 6, 1906, by the following person, and at the following place, as stated in said application, to-wit:

JOE MORINVILLE,

in that certain frame building situated on lot 15 of block 7 in Champagne & Dow's addition to Red Lake Falls, Minn. Said application will be heard and determined by said City Council of the City of Red Lake Falls at the City Hall in the city of Red Lake Falls in Red Lake County, and State of Minnesota, on Thursday the 19th day of January A. D. 1905, at 8 o'clock P. M.

Witness my hand and seal of the City of Red Lake Falls this 3rd day of January, A. D. 1905.

j5-12 A. P. TOUPIN, City Clerk.

Order for Hearing Application for Appointment of Administrator.

STATE OF MINNESOTA, COUNTY OF Red Lake, ss:

In Probate Court.

Special Term, December 21st 1904.

In the matter of the Estate of Carl Dahl, deceased:

On receiving and filing the petition of Mrs. Mina Dahl of the County of Red Lake representing among other things, that Carl Dahl, late of the County of Red Lake, State of Minnesota, on the 2nd day of December A. D. 1904, at the County of Red Lake died intestate and being an inhabitant of this County at the time of his death, leaving goods, chattels and estate within this County, and that the said petitioner is the widow of said deceased, and praying that administration of said estate be to S. E. Lewis granted;

It is ordered, That said petition be heard before said Court, on Saturday the 14th day of January A. D. 1905 at one o'clock p. m., at the Probate office, in the Court House in Red Lake Falls in said county.

Ordered Further, That notice thereof be given to the heirs of said deceased and all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in the Red Lake Courier a weekly newspaper printed and published at Red Lake Falls in said county.

Dated at Red Lake Falls the 21st day of December A. D. 1904.

By the Court,
N. W. TARRANT,
(Seal) Judge of Probate. d22j5

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 12, 1903, executed and delivered by Ben Gullick and Delia C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given, that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 307, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93 and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902; $12.00 on May 1, 1903, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $120.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903 at 2 o'clock p. m. in Book 15 of Mortgages, page 78.

And Whereas, The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained; and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on Page 61, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th 1903; and recorded in the said Register's office, on the 20th day of November 1903, at 2 o'clock p. m., in Book 15 of Mortgages, page 78.

And Whereas, The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of said notice, under the terms and conditions of this mortgage, and the power of sale therein contained; and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-One and 71-100 ($1461.71) Dollars; and whereas, the power of sale has become operative, and no action or proceedings, at law or otherwise, has been instituted to recover the debt secured by said mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to wit:

The Northwest quarter (nw¼) of Section Four (4) in Township One Hundred Fifty-three (153) Range Forty Five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County at the front door of the Court House in the City of Red Lake Falls in said County and State, on the 17th day of February 1905 at 1 o'clock p. m. of that day, at public vendue, to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty One and 71-100 Dollars, and interest and taxes, if any, on said premises, and Fifty Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

DEFECTIVE PAGE

BATTLE TO DEATH IN WEST VIRGINIA

FATHER OBJECTS TO DAUGHTER'S LOVER AND YOUNG MAN OPENS FIRE ON HIM.

Bullet Strikes, Instead, His Sweetheart—General Fight Follows in Which Lover and His Brother Are Killed and a Friend Wounded.

Huntington, W. Va., Dec. 28.—Lucian and Ira Lucas, brothers, were killed, and Octavo Adkins, a friend, and a young lady were wounded, in a fight which occurred Sunday night near Midkiff, Lincoln county. The Lucas boys and Octavo Adkins were returning from church, accompanied by Martha Williams and Miss Adkins, daughter of William Adkins. The party stopped at the residence of the latter. Adkins was opposed to his daughter keeping company with Ira Lucas, and ordered the young man to leave his house. This so enraged Lucas that he drew a revolver and fired at William Adkins. The bullet missed him, but struck his daughter, the sweetheart of the shooter, in the side, inflicting a dangerous wound. Firing then became general and when the battle was over it was found that both of the Lucas boys were dead and Octavo Adkins probably fatally wounded. William Adkins escaped being shot, but there were several bullet holes in his clothing. He gave himself up when the officers arrived.

CZAR SUGGESTS REFORMS.

Liberal Promises Are Made in an Imperial Ukase Just Issued.

St. Petersburg, Dec. 27.—Emperor Nicholas' long expected reform ukase was issued Monday night. The document deals, under eight heads, with practically all the subjects brought to the emperor's attention by the memorial of the congress of zemstvos presidents held here last month, and, while not specifically pledging the government to carry out the various reforms in their entirety, as demanded by the memorial, promises that each shall be referred to the council of ministers, with orders to report promptly on the fullest measures of relief which can be accorded on the various subjects.

One question not touched by the ukase is that of the constitutional assembly. Neither is the Jewish religion specifically mentioned, though freedom for all creeds or sects, whether Christian or otherwise, is among the subjects which will be dealt with.

The czar ignores the appeal for a constitution and an elective assembly. He makes it clear that the principle of autocracy will be upheld, but he promises that the excesses of bureaucratic chiefs shall be curbed; that the peasants will be made equal before the law with all other classes; that the courts will be made independent; that every accused person shall have a fair trial; that press censorship will be made less rigorous; that there shall be more freedom of religion and speech.

AGREED ON SUICIDE.

Two Men Form Death Compact and Take Poison—One of Them Is Dead.

New York, Dec. 29.—Benjamin J. Riley, of Brookline, Mass., on Wednesday night declared that he and Crestes A. Weed, of Boston, came to this city with the intention of committing suicide together. The two men were taken from the Grand Union hotel here early in the day suffering from morphine poisoning, and Weed died at the hospital after the physicians had tried for hours to save him. Riley was revived and was transferred to the prison ward of Bellevue hospital, where he is held on a charge of attempted suicide. It is thought that he will recover. Despondency over continued ill-luck, he says, was the trouble.

BURN SURPLUS COTTON.

Bonfire Is Made in Streets of Town in Georgia—Movement of Farmers.

Fort Gaines, Ga., Dec. 29.—The farmers and merchants of Clay county met at Fort Gaines and decided to burn their share of 2,000,000 bales of surplus cotton. A starter was made Wednesday, when a bonfire was made of cotton on the streets of Fort Gaines. It is not yet determined where it will stop. The farmers have decided to set the pace, and are moving determinedly. A large crowd paraded with much spectacular ceremony. The object is to show that the farmers are ready to sacrifice a few bales for the benefit of the masses.

Two Burned to Death.

Bloomfield, Ind., Dec. 29.—Tuesday night the home of Nathan O'Neall, five miles west of here, was burned to the ground and O'Neall and his daughter Nora were burned to death.

Penalty for Stolen Kiss.

Mobile, Ala., Dec. 29.—James Robinson was sent to jail for 30 days for an assault. The offense for which he was committed was kissing a young lady against her will.

Centenarian Dead.

Denver, Col., Dec. 29.—Dr. Johann Jacob Eisenhut, 104 years old, the oldest person in Colorado, died Wednesday at St. Anthony's hospital in this city.

DEPEW WINS.

Opposition in New York to His Return to the United States Senate Withdrawn.

New York, Dec. 30.—Chauncey Mitchell Depew, of New York, will succeed himself for a term of six years as United State senator from the state of New York, continuing as the colleague of Senior Senator Thomas C. Platt, who has four years to serve. The formal announcement of this conclusion was made late Thursday afternoon at the Fifth Avenue hotel by Gov. Odell, as chairman of the republican state committee. Gov. Odell's formal announcement, which is regarded as closing the controversy on the subject, gives it as his conclusion that "party harmony will be best subserved by the reelection of Senator Depew," concedes that the sentiment favoring his selection is very strong throughout the state, and declares that "it would have been the worst kind of party generalship to have run counter to this expressed public opinion." Former Gov. Black, who was the leading candidate against Senator Depew, has withdrawn his name.

WILL INVESTIGATE FRAUDS.

Sweeping Inquiry to Be Made Into Colorado Election by Order of Supreme Court.

Denver, Col., Dec. 31.—Stretching its hand so as to cast a shadow on every man and woman in any way implicated in electin frauds of the city and county of Denver on or before, or after November 8, the supreme court Friday ordered an investigation so sweeping in its scope that every phase of the election may be scrutinized and everything that bears in any way upon the election may be made known by judicial inquiry.

Alva Adams, democratic candidate for governor, who appeared from the returns to have been elected, but who has declared that he does not want the office tainted with fraud, asked the court to open every Denver ballot box, but the order of the court goes beyond the mere examination of the ballots and provides for an investigation of the registration lists, the campaign expenditures and in brief all election matters.

MUTINY IN PRISON.

Convicts Make Break for Liberty at Folsom, Cal.—Three of Them Are Shot Dead.

Folsom, Cal., Dec. 30.—Seven of nine convicts at the state prison who made a break for liberty Thursday were almost riddled with bullets, three being now dead and three in a critical condition. Capt. R. J. Murphy, a prison official, is wounded by a shot in the leg and two slight knife wounds.

The following convicts were killed: H. G. Hill, under sentence of 36 years for robbery J. Quinlan, serving 12 years for robbery; W. Morales, under sentence for robbery.

The following wounded will probably die: D. Kelly, serving a sentence of eight years for robbery; E. Queyada, serving a life sentence for murder; W. P. Enley, serving a life sentence for murder.

Slightly wounded: Charles Carson, serving life sentence for robbery.

WOULD DISSOLVE COMBINE.

Attorney General Moody Strikes a Severe Blow at the Paper Trust.

St. Paul, Minn., Dec. 28.—Attorney General Moody late Tuesday afternoon began a suit by petition in the United States district court here on behalf of the United States against the General Paper company and other paper and pulp companies comprising what is known as the paper trust, under an act of congress approved July 2, 1890, entitled an act to protect trade and commerce against unlawful restraints and monopolies. The petition asks that the defendants be enjoined from continuing the trust. The General Paper company is made the principal defendant, and party defendants are made of 24 companies.

Justice Moves Rapidly.

Port Huron, Mich., Dec. 28.—George Bearss, who murdered Mrs. Abel Brown at her home on a farm near Berville last Friday, Tuesday pleaded guilty to the charge and was sentenced by Judge Law to life imprisonment in Marquette prison. The murder was committed Friday afternoon. Bearss was arrested Sunday at Flint, brought here Monday and before noon Tuesday had appeared in both the justice court and circuit court and had been sentenced to life imprisonment.

Death of an Inventor.

Salina, Kan., Dec. 31.—Capt. Hamilton Ezra Smith, inventor of laundry machinery, in general use, and of the first round-bale cotton binding appliace, and who was a member of the citizens' committee of New York that overthrew the Tweed ring, died here Friday, aged 85 years.

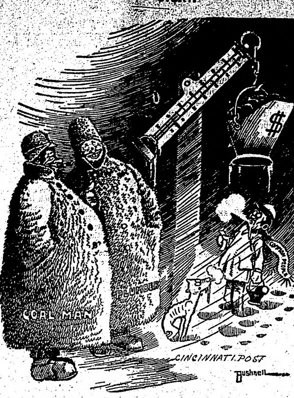
Two Firemen Killed.

Chicago, Dec. 31.—Two firemen lost their lives and two more were badly hurt Friday night while working at a fire that destroyed the Union Traction repair shop at Washington boulevard and Fortieth avenue. A spectator also was injured. The money loss was $50,000.

Indicted for Land Frauds.

Portland, Ore., Dec. 28.—The federal grand jury has indicted S. P. Ormsby, William H. Davis, mayor of Albany, Oregon; C. E. Loomis, Henry E. Young, George Sorenson, and John Doe and Richard Roe, in connection with the land frauds in this state.

THE OLD STORY.



JAPANESE TAKE RIHLUNG FORT

IMPORTANT POSITION BEFORE PORT ARTHUR CAPTURED AFTER FIERCE BATTLE.

Victorious Army Loses 1,000 Men in the Assault—Breaches Made in Wall of Fort by Explosion of Seven Dynamite Mines.

Headquarters of the Japanese Army Before Port Arthur, via Fusan, Dec. 30.—Rihlung fort was captured at three o'clock Thursday morning with 1,000 Japanese casualties. Seven dynamite mines exploded at ten o'clock Wednesday made breaches in the front wall through which a large body of Japanese troops charged under cover of a tremendous bombardment and captured the first line of light guns. A bitter fight resulted in the capture of the fort. A majority of the garrison, numbering 500 men, were killed. Nearly 50 guns were captured.

Rihlung fort, situated on Rihlung mountain, formed a part of the inner circle of the chain of forts defending Port Arthur. Rihlung is situated about two miles from the outskirts of the town of Port Arthur, from which it bears due northeast. The fort just captured is a mile and a half southeast of Keekwan fort, recently captured by the Japanese. The possession of these two forts should make a most important breach in the fortifications of Port Arthur and cut off communication between the Golden hill forts and the forts of the western section of the inner circle of fortifications.

Returning Sea Heroes Cheered.

Tokio, Dec. 31.—Admiral Togo and Vice Admiral Kamimura, with their staffs, arrived at the Shampassi station at 9:20 o'clock Friday. Their journey from Kure to Tokio was a continuous ovation. At an early hour the streets were filled and the city was gayly decorated with flags, lanterns and New Year's decorations. Representatives of the emperor and empress, Prince Fushimi, Jr., elder statesmen, ministers, prominent Japanese and thousands of school children greeted the arrival of the naval heroes at the station. The presidents of both houses of the diet presented them with the resolutions of commendation passed by their respective branches of parliament. Togo and Kamimura then proceeded to the palace to report to the emperor. They will probably remain in Tokio about one week for the purpose of consulting with the general staff and perfecting plans for future operations.

To Abolish Grand Jury System.

St. Paul, Minn., Dec. 28.—Minnesota, by a vote of more than 121,000, abolishes the grand jury system on the ground that it is unfair, expensive and antiquated. The legislature asked for the vote, after examining the legal machinery of Wisconsin and North Dakota, which have eliminated the system.

Rich Haul of Robbers.

Chicago, Dec. 29.—After binding the engineer and the watchman employed in the Garden City Brewing company's plant, Albany avenue and Twenty-first place, early Wednesday, four cracksmen blew open the safe and escaped with $2,500.

Noted Feudist Killed.

Bluefield, W. Va., Dec. 31.—Elias Hatfield, noted for his connection with one of the bitterest of the mountain feuds, was killed in a tunnel near here. He was walking through the tunnel when overtaken by a train. His body was horribly mangled.

Federal Judge Quits.

Cleveland, O., Dec. 28.—Judge Francis J. Wing stated Tuesday that he had forwarded to the president his resignation for the northern district of Ohio, and that he had been assured that it would take effect on the first day of February next.

PRELATE UNDER FIRE.

Serious Charges Against Bishop Talbot—Some of Signers Later Repudiate Document.

New York, Dec. 28.—The presentment in the case of Bishop Talbot, of Pennsylvania, has been made public. Immorality, lying and criminal libel are among the specifications on which trial of the prelate will be sought by prominent Episcopal clergymen and laymen.

Philadelphia, Dec. 30.—Dispatches from Huntingdon, Pa., state that some of the Huntingdon signers to the presentment have repudiated the document, and say that it was never their intention to sign a paper of the character that has appeared in the press. If this be true the proceedings must be dropped, as a presentment of the character made against the bishop must contain the names of at least three persons from the diocese in which the accused bishop lives.

It is stated that the paper was signed by the Huntingdon men under a misapprehension, they believing that they were assisting in closing a long controversy and not one in which their bishop was to be brought to trial. It is declared by two of the signers that they signed a paper of this character, and were also asked to put their names on a blank sheet of paper, as it was desired to make the letter out in duplicate.

The names of six vestrymen of St. John's church, Huntingdon, are attached to the presentment. They are John Langdon and James Denithorne, coal operators; [illegible] S. Jackson, a clerk; A. T. Jackson, a clothing salesman; W. F. Hillier, a pressman, and W. G. Miller, who conducts a tobacco store and pool parlor.

OPERATIONS OF TREASURY.

Review for Year 1904 Made Public —Deficit of $22,000,000 Is Shown.

Washington, Dec. 31.—The treasury department Friday issued a review of treasury operations for the calender year 1904. Te treasury receipts for the calender year 1904 were $540,000,000, and the expenditures (including the Panama payment) $562,000,000—a deficit for the year of $22,000,000. As compared with the previous calendar year, the receipts show a falling off of $8,000,000, and the expenditures an increase of $50,000,000. The decrease in customs receipts was $9,000,000. Civil and miscellaneous expenditures increased $15,000,000; war department, $9,000,000; navy department, $23,000,000; pensions, $2,000,000, and interest, $1,000,000.

Watson to Publish Magazine.

Albany, N. Y., Dec. 28.—Thomas E. Watson, of Thomson, Ga., the candidate of the people's party for president in the last election, incorporated with the secretary of state a stock company called Tom Watson's Magazine, for the purpose of publishing and circulating a monthly literary periodical of that name. The corporation is capitalized at $125,000, divided into 12,500 shares.

An Enormous Christmas Tree.

Cincinanti, Dec. 30.—The Cincinnati Traction company Thursday night treated its employes, numbering several thousand, their wives, children and other relatives, to a fine Christmas entertainment. From a Christmas tree, 25 feet high and 100 feet in circumference, over 3,000 toys were distributed to the children. The entertainment is an annual affair.

Is Pardoned.

St. Paul, Minn., Dec. 29.—Norman King, formerly a Minneapolis city detective under Mayor Ames, and who was convicted and sentenced to a term in state's prison on a charge of complicity in a diamond robbery, was granted a full pardon by the state pardon board.

Business District Burned.

Sioux City, Ia., Dec. 28.—Fire in the business district of Ogden, a town of 1,000 inhabitants in Boone county, has caused a loss of $30,000.

H. W. ANDERSON JEWELER & OPTICIAN..

Red Lake Courier.

Printed Every Thursday Evening at Red Lake Falls, Minnesota.

By JOHN E. KING.

$1.00 Per Year, in Advance.

THE election seems to be over everywhere except in Colorado.

THE Warren Sheaf is again in the hands of John P. Mattson, the former editor, Elbert Bede, retiring the first of the year.

DAVID B. HILL formally retired from politics with the dawn of the new year. And yet, somehow, there is not much of a hole in the political ocean.

BEMIDJI must be a fruitful field for news or else the Daily Pioneer man is an exceptionally good news gatherer. Perhaps both are combined.

NOBODY is talking of removing from Minnesota because we have a Democratic governor. And, by the way, the banks and business houses are not alarmed at the outlook for 1905.

IT is asserted in some quarters that the Republican county organization was back of Mr. Moreau in the late ill-starred treasurership contest. Perhaps this explains the result.

A YEAR brings many transformations. Perhaps a year ago Governor Johnson, least of all, imagined that within a year he would be chief executive of the great commonwealth of Minnesota.

WILLIAM J. BRYAN has again undertaken the task of reorganizing the Democratic party, and it would seem that the majority of the members believe he is the Moses to get it out of the mire of Eastern conservatism.

SPEAKER CLAGUE announce that there will be no grafts or sinecures permitted while he is speaker of the house. This is a big promise to make, but if he fulfills it he will have won the everlasting gratitude of the people of the state.

HERE is one of Mary McFadden's philosophic deductions: "Only an honest man may have a just estimate of his own character—a man who is honest enough to know his own limitations and possibilities. Others overestimate him or underrate him quite."

SENATOR CLAPP was re-nominated at the Republican caucus Tuesday night. Only one vote was cast against him, this one going to J. B. Gilfillan. At one time it looked as though the opposition to Clapp was serious, but it seems at the crucial moment the support of the other candidates melted away.

GOVERNOR JOHNSON will deliver an address at the Jackson club banquet at Chicago Saturday evening of this week. The Governor has already attained a national reputation because of his victory in the face of overwhelming odds, and his public utterances will not disappoint the expectations of the people of Minnesota.

THE Hutchinson Leader says: "Fred Ames was fortunate in one thing, and that was in the choice of a wife. To the devoted, unwavering zeal of his wife he owes his liberation from the state penitentiary, and there is no one so heartless as to find fault with his pardon, be he innocent or guilty of the charge on which he was convicted."

E. J. LYNCH, editor of the St. James Journal, has been named as assistant labor commissioner by Governor Johnson. The appointment will meet hearty approval all over the state. Thera are fewer men in the Democratic party more deserving than Bro. Lynch, and we are glad to see him recognized by a call to this important stations.

W. H. WILLIAMS, the leader of the Hearst propoganda at Minneapolis, has been named as labor commissioner by Governor Johnson. Mr. Williams is a union printer and for many years has been prominent in labor circles. Then, too, he is a bright, energetic man, who will give the state efficient service in the bureau of which he is to be the head.

FRANK EDDY has formed a newspaper trust down at Sauk Center by buying out the opposition paper, the Avalanche, and consolidating it with the Herald. It is not likely that Frank will use his newly acquired power to the detriment of the people, however. There seems to be growing tendency toward the consolidation of newspapers in the smaller towns of the state—an idea good enough to push along.

THE Crookston Journal has been sold by the Journal Printing company to Messrs. Arch Crawford and A. L. Berkland, two well-known printers of that city. The Journal has for the past eight months been a great paper for a city the size of Crookston, but it is alleged that the pace was too strenuous for the pocket-books of the stockholders and that retrenchment is necessary to put the paper on a paying basis. The new managers have our best wishes for success!

THE Thief River News was mistaken last week in asserting that the business men of Red Lake Lalls had raised a fund to assist Ovide Moreau in defending the treasurership. This was a pipe dream pure and simple. As a matter of fact the business men were not interested in the contest, save by excusable curiosity. Mr. Hansen probably has as many personal friends in Red Lake Falls as Mr. Moreau and we have heard of no one who bears a grudge against Mr. Hansen because he hails from Thief River Falls. The handsome vote the Democratic candidate received here on election day proves that he is popular with our people.

HON. FENDALL G. WINSTON, late Democratic candidate for lieutenant governor, who ran some 50,000 ahead of his ticket, has been appointed surveyor general of logs in the Minneapolis district. This is a deserved compliment to a splendid Democrat and a splendid citizen. Mr. Winston was in no sense a candidate, but his acceptance offered Governor Johnson a solution of a difficult problem. Mr. Winston had endorsed Michael Breslauer for this place, while Congressman Lind was back of Elijah Barton. As both Mr. Winston and Mr. Lind deserved well at the hands of the Governor it was difficult to choose between them. Mr. Winston's appointment will be satisfactory to all factions of the party.

GOVERNOR Johnson was formally inducted into office yesterday at a joint session of the house and senate. The Governor's message deals with some new and important questions. Matters of particular interest to this part of the state consist of recommendations for increased drainage appropriations, a taxation amendment to the constitution, joint legislative resolution asking congress to pass the Quarles-Cooper railroad bill, creation of county boards of education with power to elect county superintendents, larger salaries for county superintendents, state aid for township road work, creation of bureau of immigration, separate spring elections for judicial officers, state supervision of accounts of all city officers, and further pure food legislation.

RAILROAD rates are, of course, the main topic of the interstate commerce commission's report, which was transmitted to congress before the holiday adjournment. An extension of powers is asked, since at present the commission can merely condemn an unreasonable and unjust rate, without prescribing the rate that should be. There is no wish for the privilege of "arbitrarily initiating or fixing rates," but merely an amendment authorizing the commission to prescribe reasonable rates "upon complaint and after hearing." The subject is very complex; a thousand conflicting or partly conflicting interests are concerned in every adjustment; so it is a matter of justice and reason that the commission should do no more than act as arbiter.

IN his "Letters from a Self-Made Merchant to his Son," George Horace Lorimer, the author, says: "Trading on margins is a good deal like paddling around the edge of the old swimming hole—it seems safe and easy at first, but before a fellow knows it he has stepped off the edge into deep water. The wheat pit is only thirty feet across, but it reaches clear down to hell. And trading on margins means trading on the ragged edge of nothing. When a man buys, he's buying something that the other fellow hasn't got. When a man sells, he's selling something he hasn't got. And it's been my experience that the net profit of nothing is nit. When a speculator wins he doesn't stop till he loses, and when he loses he can't stop till he wins. You have been in the packing business long enough to know that it takes a bull thirty seconds to lose his hide; and if you'll believe me when I tell you that they can skin a bear just as quick on 'change, you won't have a board of trade Indian using your pelt for a rug during the long winter months."

REWARD FOR FAITHFULNESS.

The Youth's Companion in a recent issue published a short article setting forth the contrast, especially in after life, between boys who are full of a hopeful and humble spirit and those who seek only their own gratification and selfish ends. To give force to the article the following illustration was used which, if we mistake not, had its origin—in part—in Minnesota:

A widowed mother who took boarders to support her family found some years ago that her eldest son, as soon as he was able to pay for his board, went to a more fashionable part of the city "in order to get into society." His name need not be mentioned, because nobody has ever heard of it. About the same time, but hundreds of miles away, there was another family thrown into strained circumstances by the worthlessness of the father. The mother took in washing, and the boy, at the age of ten, left school to go to work to help her. An employer gave him his first overcoat, and he still has it. Time has brought some changes. He was recently elected governor of a great state, in circumstances which constitute it an exceptional compliment. The feelings of this mother who is still living, may well be imagined.

[illegible]

PLANTS HAVE HYSTERIA.

Certain Species Have Nerves That Are as Sensitive as Those of Human Beings.

Science claims to have discovered that plants have nerves, and that some species are irritable and nervous to a marked degree. The peculiar phenomena are not new, for the poets have sung of the sensitive plant's plaintive actions when played upon by the rough wind and of the mimosa's fright when crushed or broken by some strange foot; but these were supposed to be merely figures of speech, and no one believed that the song makers had such insight as to discover that plant organisms were gifted with nerve centers and brain cells. Science has worked out the fact, however, says the New York Times, that the poets were nearer the truth than we gave them credit for, and that certain species of our common woodland growths possess nerves that can be played upon by the east wind as readily as those which afflict mankind. The sensitive plant leads all others in this respect. But what we considered innate modesty at being handled is nothing more than irritable nerves. The genus Mimosa comprises about 200 species, and most of these exhibit peculiarly irritable natures if touched or handled in the wrong way. The Mimosa pudica, the botanical name for the sensitive plant, is so highly organized that it is kept in a state of neurasthenia most of the time. A puff of wind, the tramping of heavy feet near it, or the rude touch of the hand, will cause this plant to go off into nervous hysterics. The exciting noise or commotion strikes the nerves of the plant and causes it to close up or droop its leaves. Hundreds of sensitive plants have been diagnosed in the modern biological laboratories, and the observers of the plants have traced the nerve centers to their foundation.

In some of the plants the ends of the nerves have been located. Thus if Mimosa pudica is touched with ever so fine a point at the base of a pinna or along its axis, the most remote pair of leaves will shiver and begin to close. Finally, when all the leaves have closed, the pinna which has been touched will droop. The shock has been so great that the whole nervous system has been temporarily disarranged. However, like all nervous, irritable people, there is a point beyond which fright reacts and a control of the system begins to manifest itself. If the sensitive plant is shaken for some time it gets over its attack of neurasthenia and some of the leaves will begin to open again.

The most sensitive place of the plant is at the base of the secondary leaf stalks, where an immense number of nervous corpuscles or delicate tissues are located.

WHEN PEACE COMES IN ASIA

Neither Russia Nor Japan May Be Allowed to Dictate What Terms Shall Be.

"There is little doubt that the present struggle, if other nations do not interfere, will be a bitter one," says Gen. Francis Vinton Greene in the war number of the World's Work, "but should Russia gain a really decisive victory, as she did over Turkey in 1878, she would seek to make Japan a mere Russian province, filled with splendid harbors and forming a magnificent outpost for the coast of the orient. Should Japan gain such a victory over Russia, she would wish to drive Russia entirely away from the Pacific coast, establish herself on the mainland and put herself at the head of the far eastern races.

"Neither will be allowed to do what it wishes. Wars are not ended in that way in these days, but in such a way as the great nations think proper. In her last war Russia had Turkey at her mercy, but she was obliged to tear up the treaty she had made at San Stefano and to submit to such terms as the noncombatant nations saw fit to allow at Berlin. And in her last war Japan inflicted a signal defeat upon China and dictated the terms of peace in the treaty of Shimonoseki, which was ratified on May 8, 1895. But only two days later, at the dictation of Russia, Germany and France, the Japanese emperor signed a document in which he renounced and gave up the chief advantages he had gained by that treaty. Similarly now, it is quite certain that Japan will not become a Russian province, nor will there be any 'yellow peril' under the leadership of Japan, for, no matter which side wins, the treaty of peace will be made, not by the two combatants, but by a congress of all the great powers, including ourselves—so far have unforeseen events carried us away from the traditions of Washington. The terms of that treaty will be such as the great nations think best for the interests of the whole world, and not alone of the two nations who carried on the war."

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate person. Sold by A. L. Reichert.

Traveling nowadays is a pleasure. We loll back in comfortable seats of luxuriously appointed cars, resplendent in mahogany, mirrors and dainty furnishings; dine from a menu the [illegible] and receive every attention from courteous [illegible] Buffet Cars, with [illegible]

DR. FENNER'S Kidney AND Backache Cure

ALSO PURIFIES THE BLOOD.

All Diseases of the kidneys, bladder, and urinary organs. Also heart disease, rheumatism, backache, gravel, dropsy, female troubles.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations are FREE.

"This is to certify that I was laid up with Sciatic Rheumatism 16 months, being unable during that time to perform any labor and had paid out $480 to physicians without benefit. Being advised by a friend to try Dr. Fenner's Kidney and Backache Cure I did so and 4 bottles cured me. Since then I have recommended it to hundreds suffering with kidney troubles and the result has been a cure in every case. O. S. SPRAY, Bloomington, Ill."

Sold by Druggists, 50c. and $1. Ask for Dr. Fenner's Almanac or Cook Book—Free.

ST. VITUS' DANCE. We have sold many dozens of Dr. Fenner's St. Vitus' Dance Specific and every case has been cured by it. It is a blessing. ALLEN-CLARK DRUG CO., Akron, O.

A VENERABLE PASTOR CURED BY PE-RU-NA.

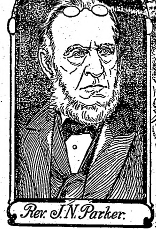
Pe-ru-na Is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Peruna corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Peruna becomes a life-long stand-by with old and young.



Rev. J. N. Parker.

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Utica, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much effected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with rheumatic pains in my limbs. I commenced taking Peruna and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peruna, and now when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."—Rev. J. N. Parker.

A Bishop's Letter.

T. H. Lomax, D. D., Bishop 2nd Dist. A. M. E., of Charlotte, N. C., writes: "I recommend your Peruna to all who want a strengthening tonic and a very effective remedy for all catarrhal complaints."—T. H. Lomax.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Ask Your Druggist for Free PERUNA ALMANAC for 1905.

Change in Register's Office.

Frank Jeffers succeeded Samuel Gibeau as register of deeds Tuesday afternoon, and is now doing business as if "to the manor born." Misses Alvina Lizotte and Laura Lizee have been retained as assistants in the office. Both are splendid copyists and accomplished young ladies.

Treasurer Tandberg Retires.

O. T. Tandberg retired from the office of county treasurer Wednesday morning after an incumbency of six years. No county ever had a more competent official, and it is with regret that the people of Red Lake Falls hear of his contemplated removal from the city. Mr. Tandberg goes to Thief River in a few days to accept the position of cashier of the First National Bank.

Millinery—Everything at cost from now until January 1, at Mrs. I. Lemieux's millinery store.

The local lodge of Foresters will install its new officers at the meeting Friday evening of this week.

J. K. Wood, the newly-elected surveyor, was down Tuesday to file his bond and take the oath of office.

Edward Lanctot, the oldest resident in the Red River valley, died last Friday at his home in Crookston.

Con. Kehoe returned Saturday from a ten day's visit with friends and relatives at Emerson and St. Vincent.

Frank E. Packard, managing editor of the Crookston Times, was a business visitor to Red Lake Falls Tuesday.

Did you ever try to find out the secret of the miraculous growth of Button's Business College, Crookston, Minn?

Mrs. C. C. Jackson returned to her home at Thief River Falls Saturday after a visit at the home of Mrs. E. F. Marshall.

B. Sivigney and wife returned Saturday from Crookston, where they were witnesses at the Guilmette murder trial.

William Ittner, who has been spending the holidays at home left Monday for Minneapolis to resume his work at the university.

Attorney William Michelet was down from Thief River Tuesday looking after matters before the board of county commissioners.

If you want a short course (usually 3 mos.) in bookkeeping the Crookston College will give you the same, including books, for $25. tf

Lost--a dark grey woolen shawl, on Main street, between postoffice and high school building, last week. Finder will please advise this office.

Enter Button's Business College, Crookston, Minn., during January and take advantage of the low rates of tuition, free books and free railroad fare.

The dance given by the Woodmen Friday evening was well attended, over seventy couple being present. It was one of the most pleasant dancing parties of the year.

A. R. Jorris of Thief River has been visiting during the past week at the home of John Flanigan, north of town. He was present at the Woodman installation last night.

Miss Carrie Pirath, who has been visiting at the home of her parents during the holidays, left Saturday for Hallock, where she is employed as an operator at the telephone exchange.

Tuesday was editors' day in Red Lake Falls. Those from the outside present were J. W. Eastman, S. W. Bagley and D. A. McDonald of Thief River and Harry E. Ives of St. Hilaire.

Arthur Ittner, who has been ill for the past couple of weeks with typhoid fever at his home in this city, left Monday for St. Hilaire to resume his work as foreman of the Spectator.

Samuel E. Hunt entertained a party of his young lady friends at an oyster supper at the residence of L. A. Dautremont last evening. The affair was given in honor of Mr. Hunt's birthday.

Henry Theilen and wife of Minneapolis, were guests at the home of Theo. LaBissoniere over Sunday. Mrs. Theilen was formerly Miss Janet Martin and is a sister of Mrs. LaBissoniere.

W. H. Blunt, manager of the Thief River Falls creamery, was in the city Saturday calling [illegible]

for a position in the dairy and food commission.

The office of county superintendent of schools has been moved to the rooms upstairs in the court house, and H. T. McAnulty is now in charge, having assumed the reins of office Tuesday afternoon.

Dr. F. F. Fletcher announces that commencing with this month he will make regular visits to Plummer and Brooks. On the third Monday of each month he will be at Plummer, and on the third Tuesday at Brooks.

A voting place has been established on the Red Lake reservation in the vicinity of High Landing. It is probable that some of the townships on the reservation will be organized during the coming spring and summer.

L. E. Metzgar returned Saturday from his visit to the home folks at Hastings, Minn. He says the people of the central part of the state enjoyed the manifold pleasures of a genuine Dakota blizzard the fore part of last week.

Miss Ella Krueger will leave tomorrow for Bemidji, where she will make her future home with her sister, Mrs. Joseph Hayton, during the winter. A farewell party was given last evening at the home of Miss Iza Tibbetts for Miss Krueger.

Deputy Sheriff Jarman was down from Thief River Falls Tuesday on business. Mr. Jarman has been reappointed by Sheriff Linnihan for the next two years. He makes a competent and obliging official and his many friends are glad to see him retain the job.

Dr. J. C. Wilkinson and wife are still in bed with typhoid fever. Mrs. Wilkinson is improving rapidly and will soon be entirely recovered, but in the Doctor's case the crisis has not yet been reached. He is doing nicely and there is little danger of serious consequences.

S. J. Swanson, who has been buying wheat at Wylie for the Red Lake Falls Milling company for the past several years, has been transferred to Thief River, where he will work for the same company. Mr. Swanson's many friends here will wish him success in his new location.

Miss Stella Lasha who has been living in St. Paul with her aunt, Mrs. R. J. Lizeé, for the past year and a half, arrived in Red Lake Falls Saturday morning to visit her father, Eli Lasha, and family. They were all pleasantly surprised at her arrival and are making it very enjoyable for her.

County Superintendent H. T. McAnulty returned Saturday from St. Paul, where he was in attendance at the annual meeting of the Minnesota Educational association. Mr. McAnulty says the meeting was one of the most successful ever held and that the attendance was larger that ever before.

Frank E. Hunt left Monday evening for Talapoosa, Georgia, where he expects to remain during the winter season. This is said to be a favorite resort for persons afflicted with rheumatism, and Mr. Hunt expects to receive much benefit for his malady. He will be accompanied from Minneapolis by James I. Wyer.

Light bread is digestible.

Sweet bread is nutritious.

Wonderful bread—light and sweet, is made with

YEAST FOAM

Yeast Foam is *the wonderful yeast* that took the First Grand Prize at the St. Louis Exposition and is sold by all grocers at 5c. a package—enough to make 40 loaves. Send a postal card for our new illustrated book "Good Bread: How to Make It."

NORTHWESTERN YEAST CO., CHICAGO, ILL.

Nels Benoit came over from Grand Forks last week to spend the holiday at home. Mr. Benoit has been in the employ of the St. Hilaire Lumber company for a good many years, but has resigned to move to Washington, for which state he will leave in a few days. The best wishes of Nels' many friends go with him.

Ovide Emard returned last week from Granite Falls, where he has been assisting Mr. Rodgers in the store of Bangs & Co. for the past six weeks. Mr. Rodgers sends his regards to the Red Lake Falls people and says he is doing well in his new home. Mr. Emard intends to return to Granite Falls in a few days.

Mr. and Mrs. H. N. Johnson are expected here tomorrow for a visit at the home of Mrs. Johnson's parents, Mr. and Mrs. A. P. Toupin. Mr. Johnson is manager of the Roberston yard at Park River, N. D., and has worked his way to the front in the lumber business, being one of the highest-salaried agents of the Robertson company.

L. C. Simons was up from St. Paul for a day or two last week, leaving again Friday evening. He expected to go to Granite Falls to spend Sunday with J. W. Rodgers and family. Mrs. Simons has been confined to the house with a sore throat for several weeks, and the health authorities pronounced it diphtheria in a mild form and enforced the quarantine regulations.

That Hollow Cough

can easily be cured by using Gloria Lung Balsam. It is sweet, pleasant and soothing preparation and even the worst cases can be relieved at once. It is made of healing and soothing balms and is best for children. Sold by W. A. Schreiter.

Judge Was Snowbound.

Judge N. W. Tarrant is expected home from Fox Lake, Wis., tomorrow. The Judge was called there to attend the funeral of his brother, Samuel, but when he reached Portage, Wis., was detained by a snowstorm, and although only twenty miles from Fox Lake could not get a train in time for the funeral and the telegraph and telephone wires had been blown down by the storm. The Judge reached Fox Lake Saturday and visited over Sunday with the folks. He expected to get back to St. Paul in time to witness the inauguration of Governor Johnson. The Judge says it isn't every day he can see a Democrat installed as chief executive of Minnesota and he did not want to miss this opportunity.

New Face on County Board.

The only new face on the county board is that of Daniel Shaw, who succeeds Louis Hanson in the Thief River district. Mr. Shaw is one of the brightest business men and keenest tacticians in the Northwest, and best of all, he has a long and honorable record as a public-spirited citizen. The board certainly loses nothing of its strength by the addition of so good a man as Mr. Shaw. Notwithstanding the cordial welcome Mr. Shaw will receive as a member of the board, the people generally, however, will miss his predecessor, Louis Hanson, who has been a faithful and competent official.

A Narrow Escape.

Mr. Henry St. George, of Elm Grove, Wis., thought that he was permanently crippled. Sciatica rheumatism had such an iron grip on him that he thought that he would never be able to walk again, but through the aid of Gloria Tonic he was completely cured, after high priced Doctors failed. Sold by W. A. Schreiter.

New High School Principal.

Miss Carrie E. Tambling of Minneapolis has been engaged by the board of education as principal of the high school to succeed Miss Francis Tobin, who resigned a few weeks ago to accept a position as teacher of English in the high school of Salt Lake City, Utah. Miss Tambling is a graduate of the Oberlin high school, Oberlin college and the New York normal and has had ten years' experience in teaching. She is certainly well qualified for the work and the school board is to be congratulated upon securing her services.

Constipation and piles are twins. They kill people inch by inch, sap life [illegible] Hollister's Rocky [illegible]

Daily at Thief River.

The Crookston Journal announces that two prominent Crookston young men are behind a proposition for the establishment of a daily paper at Thief River Falls and from present indications the deal will go through. It is understood that a plant and equipment has been purchased and that an option on suitable quarters at the Falls has been secured. Thief River Falls now has three weekly papers and the advent of a daily will make things rather interesting for the newspaper men of that place.

"Fan Tan" Party.

Mr. and Mrs. W. A. McIntyre entertained a large party of young people at a "fan tan" party Saturday evening. This is a new and interesting society game and created much amusement. Elaborate refreshments were served and the merry party watched the old year out and the new one in. Miss Etta Zaiser and Harry Healy were awarded the prizes.

Hansen Assumes Control.

Karl M. Hansen is now county treasurer, having taken possession of the office Wednesday morning, upon the approval of his bond by the county board. Mr. Hansen has had long experience it clerical work and will make a competent and popular official, He expects to move his family here in a few months, and the Red Lake Falls people will give cordial welcome to them.

The Best Service.

Thief River News: The county commissioners yesterday awarded the county printing to the Red Lake Falls COURIER, St. Hilaire Spectator, Thief River News and Press. These papers had in the lowest bid and can give by far the best service.

New Pool Room.

The J. B. Cigar company wishes to announce that a pool table will be installed in its retail department early next week, and the public is invited to patronize it. No doubt this addition will make this place a more popular resort than ever.

Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or Eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at all druggists.

SKIN DISEASES

Altoona, Pa., June 20, 1903.

I was afflicted with Tetter in bad shape. It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and shin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

125 East Fifth Ave. JOHN F. LEAR.

While washes, soaps, salves and powders relieve temporarily, they do not reach the real cause of the disease. The blood must be purified before the cure is permanent. S.S.S. contains no potash, arsenic or mineral of any description, but is guaranteed purely vegetable. Send for our book on the skin and its diseases, which is mailed free. Our physicians will cheerfully advise without charge any who write us about their case.

SSS

The Swift Specific Company, Atlanta, Ga.

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Educational Department.

An interesting feature of the COURIER to be commenced next week is an educational column, to be conducted under the supervision of Prof. E. W. Chamberlain, superintendent of the Red Lake Falls schools. There are few educators better equipped for this work, and we are sure the department will prove popular with all of our readers.

Brooks is Prosperous.

Rufus Poirier was in from Brooks over Sunday to visit his family. Mr. Poirier is the agent for the Bovey-Shute Lumber company at that place. He reports that a new hardware store will be located there at once and there is every indication that several other lines of business will be represented in the early spring.

New Woodman Officers.

The new officers of the Woodmen lodge were installed last night by W. T. Spillaine, past consul. The new officials are: William Schwalen, venerable consul; Frank Brouillet, worthy advisor; Joseph Tschirhart, banker; D. J. Doran, clerk; Thomas Crompe, manager; Fred Burgdorf, escort; Alex Rose, watchman.

Janitor's Salary Raised.

J. O. Gjerberg, the efficient janitor at the court house, received a handsome New Year's gift from the board of county commissioners in the shape of a re-appointment and an advance in his salary from $40 to $50 per month. Few janitors give better service or are more popular with the officials he serves.

Influence for Good.

I am of the opinion that it is the duty of every good citizen to support societies like the Modern Woodmen of America. They are "a very present help in time of need," and in every community in which a Camp is in operation it is powerful influence for good.—Hon. A. F. Bliss, Gov. of Michigan.

Begin the New Year Aright......

by opening a Bank Account with the

First State Bank of Red Lake Falls

We wish you all a Happy and Prosperous New Year.

SUCCESSFUL BUSINESS MEN.

Some of the Qualifications Necessary for the Highest Success

1. A good business education.
2. A good moral character.
3. Energy and self reliance.
4. Good judgment.

Persons seeking a practical business education in a very short time should attend some business college.

There is no college in the United States that places so large a percentage of its pupils in good paying positions as Button's Business College, Crookston, Minnesota. It positively guarantees situations to all graduates and asks no pay until it has fulfilled its agreement.

The college that offers the most gets the business.

Pupils take the time to investigate before entering a college these days.

They want to learn only by the best and quickest methods.

And they will go where they can get the most for their money.

Ninety-five per cent of the busines men of Crookston will advise you to go to **Button's Business College.** Ask them and see.

Pedicuring an Elephant.

The tools for trimming elephants' feet are a carpenter's drawknife and a rasp for the soles and a horseshoer's knife and sandpaper for the toe nails. The operator places a beer keg or a strong box behind one huge hind foot, lightly prods the thick ankle with his elephant hook and commands the beast to "Hold up!" Up comes the mighty foot, slowly and heavily, but obediently as the velvety paw of a kitten. The foot is rested on the box or the keg, where it remains while the expert works on it much as a horseshoer pares the hoof of a horse. Great slivers of the horny sole are sliced off until it is cut nearly to proper thickness, when the rasp is used to smooth off. Similarly the toe nails are treated with the knife and the sandpaper, while the big patient stands with swinging trunk and an occasional wag of an ear, too full of satisfaction for utterance. When the turn of the forefoot comes, the great beast is made to lie down on its side and the hoofs are propped up and treated.—McClure's.

A Bird That Is Feared.

The elster (Pica candata) is a bird that is respected and feared throughout south Germany. It belongs to the raven tribe and is about the size of a dove, with black and white feathers and long, pointed tail. It builds its nest in orchards, and its life is sacred. If it is seen three times in succession on the same house top in a place remote from its home it is believed to be a sure sign of death in that house. If it flies and gives its peculiar cry the sick person is sure to die, but if it does not scream the patient may recover. It is better for the sick person if the bird does not come near. No one could be hired to bother these birds for fear they might seek revenge, and if by chance one of them should die it is a sign of bad luck to the owner of the property where it is found. The bird is a valuable insect destroyer and in this way probably more than compensates for the fear it occasions among the farmers.

Animals Become Insane.

Insanity in the human subject is supposed by some to have no analogue in the lower animals. Yet many cases, according to Dr. Snellson, will lead to the permanent loss of self control. Cattle driven from the country through a crowded town will often work themselves into a frenzy. Horses have gone mad on the battlefield. At Balaklava an Arabian horse turned on its attendant, threw him down and, kneeling on him, attacked him like an infuriated dog. An instance is related of a docile horse suddenly going mad on a hot day. Everything that came in its way it seized in its teeth and shook as a terrier does a rat. A scientist of authority even goes so far as to prove by what appears to be incontestable evidence that cats, dogs and monkeys have been observed to have delusions very similar to those of insane people.—London Globe.

Dividing the Sexes.

While worshiping in a little chapel-of-ease a few miles from Ruthin, on the Wrexham road, the sexes are so strictly divided that they cannot even see one another. The building forms a right angle, in one arm of which the men sit and the women in the other. It was built and endowed by a misogynist of the Stuart period who objected to having his devotions distracted by the sight of the hated sex and, sympathizing with male posterity, stipulated expressly for this division in his deed of endowment.—London Standard.

The Cuban Workman.

The Cuban workman is a kind husband and a fond father of a family usually of patriarchal size. He lives simply. At the bedega he buys his tasajo (jerked beef), rice, vegetables and cheap wine, and very savory are the stews his meek little wife prepares at the one hearty meal of the day, about 5:30 p. m. The Cuban eats but twice daily. He is underfed and overstimulated. He has coffee at 7 a. m., a light breakfast at 11 a. m and eats his chief meal at twilight.—Southern Workman.

Rapid Typewriting.

An official stenographer, Deming, at Albany, years ago reported court proceedings on a typewriter at the rate of 150 and 170 words a minute. He eliminated the vowels, using consonants only, with a dot to separate words. His typewriter was incased in glass to deaden the noise. The paper was run into the machine from a roll. Lawyers could read the notes.

Happiness.

"I am sometimes accused," writes Sir John Lubbock, "of being too optimistic. But I have never ignored nor denied the troubles and sorrows of life. I have never said that men are happy, but only that they might be; that if they are not so the fault is generally their own; that most of us throw away more happiness than we enjoy."

Too Deserving.

A young village maiden had obtained the modesty prize. "I suppose then, my child," said a Parisian lady addressing her, "you are the most modest girl in the parish?"

"There is not the slightest doubt about that, ma'am, and it's a downright shame I didn't get all the other prizes!"—Paris Journal.

A Hard Proposition.

One of the hardest things for a man to do when he has come home late from the club and tried to go to bed without taking off his collar is to explain to his wife he heard it was a good cure for sore throat.—New York Press.

The man that makes character makes foes.—Young.

SEES A GERMAN REPUBLIC.

Seer Consulted by Emperor William Says New Government Is Due in 1913.

King William, grandfather of the present German emperor, was told a few months before his accession to the throne of Prussia by a Berlin prophetess the year when he would become emperor, and also the year of his death. The king, she said, would become emperor in 1871, because this was the date obtained by adding to 1849 the year in which he had come to the throne, the numerals (22) of which 1849 was composed. She then said that he would certainly die in 1888, since this was the date obtained by adding to 1871, the year in which he would become emperor, the numerals (17) of which 1871 was composed.

The present emperor has pondered at times over this prophecy, and recently he consulted a seer, who arrived at results in the same manner and who assured him that if he desired to know the year in which Germany would become a republic all that he need do was to add to 1888, the year of his grandfather's death, the numerals of which 1888 was composed.

The numerals of 1888 added together (1 plus 8 plus 8 plus 8) are equal to 25, and the emperor, by adding this 25 to 1888, learned that 1913 was the year in which, according to the seer, the empire would be overthrown in Germany and a republic established in its stead.

AMERICAN ENGINEER ALERT.

In South Africa He Has Diverted Much Business from British Factories.

Many of the large mines in South Africa derive their supplies of plant and machinery from America and this largely through the efforts of the American engineer. In consequence the British manufacturer is placed at a disadvantage.

The sympathies of the American engineer are with American manufacturers; his taste for American machinery is as pronounced as his success in installing it upon the mines under his charge. Assistant engineers and staff are quickly Americanized; and so far as the machinery and equipment are concerned, particularly where it is electrical, this section of the market is dead to the British manufacturer. In the early days of mining on the Rand excuse was not wanting for such a procedure, for England could supply neither the men nor the plant.

To-day matters have entirely changed, but the result remains the same, and while British engineers and British mining and electrical plants are second to none, the American engineer is often given the preference, and, under his guidance, American machinery installed. In this manner hundreds of thousands sterling of plants have been diverted from English into American channels.

LESS BEER IN GERMAN ARMY

Captain at Nuremburg Seeks to Reduce Consumption of Intoxicants Among Soldiers.

Capt. Schutz, of the Fourteenth Bavarian infantry at Nuremberg, is trying to reduce the consumption of beer and spirits among his men and with some success.

Capt. Schutz obtained the necessary permission from his colonel, and installed near the canteen a small but completely-equipped apparatus for the manufacture of soda water, lemonade and other temperance beverages which were sold at a halfpenny and a penny a bottle.

During the first year the soldiers consumed over 30,000 bottles of these harmless drinks, and for the first month of the second year the sales showed an increase of 800 bottles on the corresponding period of the preceding 12 months, thanks to a reduction of nearly 50 per cent. in the price.

Not only have the financial results been admirable, but the soldiers in Capt. Schutz's regiment are noticeably fresher and more attentive at the instruction classes than they were formerly when they drank beer at midday. It is instructive to note that the consumption of beer during the first year of the temperance bar fell off by 1,000 gallons.

TOO POOR TO BUY CROWN.

Coronation of New King of Servia Canceled Because of Lack of Funds.

The coronation of King Peter of Servia, which has been fixed for June 15, which is the anniversary of his proclamation as sovereign, has been canceled.

For a curious reason there will be no crown for the ceremony ready for that time. His majesty, who is poor, asked his ministers to arrange for the public exchequer to bear the cost, but the skupshtina refused to vote funds.

The king then sent agents throughout Europe, with instructions to raise a personal loan for him, so that he could buy a crown from a leading firm of Paris jewelers, but when the emissaries returned to Belgrade they reported that their mission had been unsuccessful.

A religious service will now be held on June 15, and the king will be merely anointed in the old Servian monastery of Tsicsa. It is stated however, that his majesty is having a crown of brass fashioned from a cannon which is kept as a relic from the time of his grandfather, Kara George, and that the coronation will take place later, with great ceremony, at his capital.

Your Heart.

When Your Heart Fails to Pump Your Blood, Trouble Results.

Have you heart trouble?

You have, if you find it hard to breathe after walking up stairs, exercising, etc. If you have pain in your left side, in chest, back or shoulder. If you suffer from cold extremities, pale face, blue lips, dry cough, swollen ankles.

If you have fainting spells, breast pang, palpitation, redness of the face, discomfort in sleeping on one side.

The only scientific treatment for this whole train of troubles is Dr. Miles' New Heart Cure.

Dr. Miles' New Heart Cure is the prescription of a famous specialist, whose great success in treating obstinate nervous heart disease has made his name pre-eminent in the medical and scientific world.

The medicine will cure you. We know it. We want you to prove it. If first bottle does not benefit, your druggist will give you back your money.

"I have for several years suffered at times with heart trouble. I got so bad I could not sleep half the night, and had to sit up on the side of the bed lots of times to get breath. Three of my brothers have died of heart trouble, and I thought I was going the same way, but about two and a half years ago I got a pamphlet about Dr. Miles' New Heart Cure and thought I would try a few bottles. After using them I recovered, and have had better health since then than before for several years. I can heartily recommend them for heart trouble."—REV. JERRY HURT, Pastor Baptist Church, Hurt, Kans.

FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank. Our Specialist will diagnose your case, tell you what is wrong, and how to right it, Free. DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

DOOMED MAN NEVER BLINKS

Joseph Guilmette Sentenced to Life Imprisonment for Murder of Mongeon.

Hardly a score of people were in the big court room at Crookston Monday afternoon when Joseph Guilmette, pale and emaciated from his close confinement in the county cell house was brought in by Deputy Sheriff Daniels to receive his sentence. Some of those in the room did not realize what was to occur, did not realize that at precisely 2:15 the fate of the convicted man was in the hands of Judge Watts and that either to death or life imprisonment must the principal in one of the most celebrated murder cases in northern Minnesota be sentenced. Judge Watts' appearance as he asked the prisoner "if there is anything you wish to say before sentence is pronounced?" was that of a man who was called upon to perform a most disagreeable task.

"I am innocent," said Guilmette, as he arose and faced the court, and the three words were the only remarks made by him during the ordeal.

"The attorneys for the prosecution," said Judge Watts, "have stated that the ends of justice would undoubtedly be served if you were given a life sentence. The fact also that you have before this time, however, been connected with the criminal classes also has considerable bearing in the matter. In view of these facts your sentence will be that of imprisonment for the remainder of your natural life at Stillwater at hard labor."

Guilmette did not move a muscle, not a tear moistened his eye. He was as unmoved, unperturbed, as unfeeling of emotion, as he had beed during the progress of the trial.

"What trade have you worked at or learned, other than that of a weaver?" asked Judge Watts.

"Have worked in machine shops," said Guillmete, as he was led from the court room and back to jail.

Attorney Brochu, before Guilmette was returned to his cell, shook hands with his client for whom he has made a futile but gallant effort. Attorney Brochu departed Monday evening for his home at Woonsocket and his farewell with Guilmette in the court house corridor was the last between the two men. Brochu feels well pleased with the treatment which has been accorded him during his stay in Crookston and says that considering the case he had to work with he got on very well. James Kennedy of the Woonsocket Reporter, who has assisted the defense, also departed for his eastern home and also feels pleased with the treatment accorded him by Crookston people and particularly Crookston attorneys during his stay here. Mr. Kennedy secured the greater portion of all the evidence used in the defense of Guilmette and toured the prairies for days on behalf of the accused. He would not publicly make a statement as to the guilt or innocence of Guilmette but it is quite certain from his actions that he does not have the same opinion of the convicted murderer that he had when first arriving in the city.

The mysterious manner in which Guilmete secured his ticket at Fertile, it is believed, caused more than one point in his story to fall to pieces. He told his attorneys point blank that he had bought his ticket at Fertile and during the progress of the trial the ticket agent, when placed on the stand, swore positively that no such ticket had been sold on the night of the 17th of October.

Guilmette at Stillwater will undoubtedly be given a position in one of the engine rooms or in the twine plant. His knowledge of woolen making machinery will undoubtedly stand him in hand in the twine room.

Sickening Shivering Fits

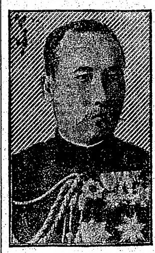
of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists, price 50c, guaranteed.

Some colleges offer a life scholarship and a situation at the end of that time. Button's Business College, Crookston, Minn., guarantees a good paying position in from three to four months or you pay nothing for your tuition.

JAPAN AND RUSSIA

A COMPARISON of the fighting qualities of the men who compose the respective armies of Russia and Japan is of peculiar interest just now, when relations between the two nations are strained almost to the breaking point and both are busy with preparations for war.

To begin, it would appear at first glance that little Japan is courting defeat in throwing down the gauntlet to the Russian bear when the military establishments of the rivals are considered. The whole Japanese army, officers and men, on a war footing figures up only 600,000, while the war strength of Russia is 5,617,703 officers and men.



GENERAL FUKUSHIMA, HERO OF THE RELIEF OF PEKING.

But it is not sheer weight of numbers that always wins victories, and some military authorities believe that the Jap would beat the bear in an armed clash, as he did China in the war of 1894. They recognize that the army of the island empire is a compact and homogeneous whole, organized in accordance with the best western methods, commanded by officers trained in the best schools of the occident.

It has often been affirmed by those conversant with the facts that the morale of the Japanese army is second to none in the world. Another point to be noted, notwithstanding the generally accepted idea to the contrary, is that the Jap is not inferior physically to the best soldiers in the world today. In the crack Japanese regiments five feet seven, eight and nine inches are common heights, and, what is more important than height, the Jap sailor or soldier impresses the observer as of sturdier build than even the Englishman or American.

It has been said that, though the Japanese army and navy might be expected to fight well if successful from the start, a few reverses in the beginning would induce a panic. History disproves this theory.

One of Japan's greatest military geniuses is General Yasumasa Fukushima, who during the early operations for the relief of Peking in the Boxer uprising of 1900 led the Japanese troops and later in the campaign commanded one brigade of 6,000 men, while the second brigade, containing the same number of men, was led by General Yamaguchi. General Fukushima's troops did more than any other to bring about the capture of Tientsin, and his infantry charge upon the Tientsin arsenal, carried out under cover of his own guns, is described as "a marvel to the military men of other nations." A few days later General Fukushima was a potent factor in the capture of Tientsin, and his men, despite great loss, blew up one of the gates and were the first to enter the city. In the march on Peking both Fukushima and Yamaguchi took orders from a Russian, General Linevich, who was the senior officer of the allies.

THE VARIAG, RUSSIAN CRUISER BUILT IN PHILADELPHIA.

The New Twin-Screw Steamship "Minnesota."

The "Minnesota," which sails from Seattle on Saturday, January 21, her initial trip in the trans-Pacific trade with the Orient, typifies the highest achievements in American shipbuilding. She is the heaviest cargo-carrying vessel in the world, and her passenger accomodations are unequalled on the Pacific and take first rank with the great Atlantic liners. Broad decks and large cabins, superior service and every convenience know to modern shipbuilding, ensure the full enjoyment of a Pacific voyage. 2,000 people, including 250 cabin passengers, 68 intermediate and 1,500 troops, or Asiatic steerage passengers, may be accommodated on this great vessel, which is 630 feet in length; 73 feet 6 inches bean, and 56 in depth from keel to upper deck amidships, the total depth from the upper navigating bridge to the keel being 88 feet 4 inches. All first-cabin passengers are berthed amidships, the intermediate are on the main deck forward, and the steerage are berthed on the same deck aft. Nine decks serve to meet the requirements of passengers, crew and cargo. The ship has 32 watertigtt compartments and is fitted with bilge keels to insure steadiness from the sea. The public rooms, cabins and hallways are all mechanically ventilated with filtered hot and cold air. The appointments of this vessel throughout are such as to fully provide for the comfort, safety and health of passenger under all conditions.

The Great Northern Steamship Company, with its direct railroad connection in the great northern railways of the United States of America, has an unrivalled geographical position, which fact, taken in connection with the splendidly equipped and palatially appointed steamers, should decide the route of trans-Pacific travelers. The track followed by the Company's vessels isthe shortest to the Orient. As will be seen by reference to the track chart, the distance from Puget Sound to Yokohama being 4,260 milies.

A Well Known Man.

One of the best known men in Minneaoolis writes:

"Last night I came from Chicago on the North-Western Limited. I though I knew what a fine train was, but after riding on any other, this train is really a new revelation. I am not "jollying" when I say that a finer train would be beyond human ingenuity to conceive and the human intellect to appreciate."

This refers to the famous 12 hour train every night Minneapolis and St. Paul to Chicago.

School tablets of all kinds at the Courier stationery store.

Go To Sunny California

Far from the chills of wintry blasts. Boating, bathing and outdoor pleasures may be enjoyed during the winter months in California. Through tourist cars via the North-Western Line from Minneapolis and St. Paul on two days of each week make the journey comfortable and at a minimum of expense. For rates, literature on California or any information desired write T. W. Teasdale, G. P. A., St. Paul, Minn.

The Main Traveled Line.

During the past fiscal year the famous North-Western Line carried 22,731,023 passengers. Standing shoulder to shouder this would make a line of humanity more than one-third the distance around the world. This is evidencee of the spendid service on this famous road.

Legal Blanks.

THE COURIER job department is printing a complete line of the standard forms in legal blanks, and has now in stock the following:

Warranty deeds,
Contract for deed,
Mortgage deed,
Quit-claim deed,
Tenement lease,
Chattel mortgage,
Chattel mortgage, (crop clause),
Satisfaction of real estate mortgage,
Farm contract, (on shares),
Chattel mortgage foreclosure sale,
Garnishee summons, (with notice to defendant),
Bill of sale,
Transcript of judgment,
Justice summons,
Certificate of judgment,
Notice of protest,
Notes, receipts, etc.

Any form not in stock will be printed to order, provided a reasonable number are taken.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 75,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market towns, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house, 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.
Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.
Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers, R. R. fare refunded to purchaser of land. For maps and further particulars address UECKE'S LAND AGENCY, Cumberland, Wis.

FOLEY'S HONEY AND TAR
Prevents Serious Results From a Cold.
Remember the name Foley's Honey and Tar. Insist upon having the genuine.
Three sizes 25c, 50c, $1.00
Prepared only by Foley & Company, Chicago.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

AT THE TOP.

Perhaps you sometimes think that life is
    one almighty squeeze.
You're jammed up on the pushing throng
    too tightly for your ease.
Your ribs seem near collapsing and you
    cannot draw a breath;
Your tender feet are trodden till you almost
    long for death.
But you must keep on climbing,
  For it never does to stop.
They say there's lots of elbow room
  When once you've reached the top.

A rocky road to travel and a steeply graded
    track!
It's slow work getting forward and it's
    easy sliding back,
The jolting and the bumping are not pleasant,
    I admit,
To reach that distant summit takes an
    awful lot of grit.
Perhaps you'll never reach it;
  By the wayside you may drop.
It's rubber tires and asphalt, though,
  When once you've reached the top.

There's little time for resting and you
    either lie awake
Or sleep with one eye open when your brief
    repose you take.
Your bed is hard and lumpy—not conducive
    to repose,
And even when you get there it is hardly
    safe to doze,
That is the worst part of it—
  You must keep on the hop.
You can't lie down and sleep and keep
  Securely on the top.
—Chicago Daily News.

A CASE OF MOON-BLINK

By WM. PERRY BROWN

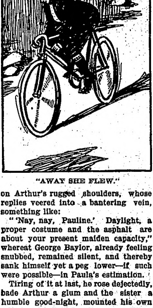
(Copyright, 1904, by Daily Story Pub. Co.)

"WHAT a night for wheeling," thought Paula, glancing across the portico at George Baylor, who sat near her brother on the top step, where the haze of moonlight rested softly.

Paula was an enthusiast on cycling; so was her brother and his friend.

They were discussing the latest of club runs into the country, that had lasted several days. Paula always wanted to go; but was usually frozen out with brotherly freedom of comment by Arthur, to whose sage delivery George Baylor nodded gentle approval, and all on the ground of Mrs. Grundy and the proprieties.

George, having designs of his own on Paula's heart as well as hand, realized that he was taking desperate chances; had it confirmed by the young lady's coldness for the rest of the evening, while pouring the vials of her contempt on Arthur's rugged shoulders, whose replies veered into a bantering vein, something like:



"AWAY SHE FLEW."

"'Nay, nay, Pauline.' Daylight, a proper costume and the asphalt are about your present maiden capacity," whereat George Baylor, already feeling snubbed, remained silent, and thereby sank himself yet a peg lower—if such were possible—in Paula's estimation.

Tiring of it at last, he rose dejectedly, bade Arthur a glum and the sister a humble good-night, mounted his own wheel and pedalled sadly away. When Paula went to her room the first thing she saw was her brother's new cycling suit, left there in the afternoon so that she might change some buttons.

"What a heavenly night," vaguely went her thoughts again; then, after a pause, "for wheeling." She passed her mental Rubicon almost aloud, and still gazed out of her window, while beginning to disrobe.

"How nonchalently George rode off, as a matter of course. Being a man, he can go anywhere at any time, and all by himself. Had I done the like—" She sat down by the window.

"They say too long looking at the moon causes moon-blink," she at length said, then gazed defiantly upward. "I suppose when the man in the moon winks, the blink addles one for the time being." The sneer gradually widened into a smile which added sauciness to its charm, as Paula held up Arthur's knee pants measuringly. "I surely am addled."

Perhaps she was. Certainly the sight of George Baylor—otherwise her slave—calmly doing the very thing he, all through Arty's tirade, tacitly disapproved of, had fired her veins (or brains) with something akin to lunacy. Surely! How was it otherwise, that instead of donning her usual night gear, she began trying on Arthur's new suit, crowding her too-abundant hair under a golf cap, before a cheval glass so ample as to reveal, even in the moonlight, that Paula was at present more of a misnomer than Paula as a surname.

"I am glad they are not noticeably too large," she concluded, rolling out Arty's wheel from the closet under the stairs, where her own and his were kept. "It matches better with a man's suit than mine," she added.

Then her hair wanted to come down. While tucking it under the cap again, the wheel fell down the rear steps, making a horrible crash in the late silence and haze of the night. Shivering a little, either from fear or "moon-blink," she carried it along the gravel, recalling that only her own and Arthur's windows fronted on that side of the house.

"Being a bear, he sleeps like a bear," was her next thought, or hope, when once outside the gate.

Then she sprang on—like a man. No uneasy balancing into a proper skirt divided seat. Away she flew, irrepressible in proportion as she had been repressed—surely it must have been the moon! She could have shouted in sheer exuberance of spirits—not nerves. A sleeping, silvery world was inviting her as it had never invited mere men. Only straight-laced convention can so thrill a poor human soul on the verge of the improper. The vague charm of the landscape, with dim white roads branching here and there, inviting her to "scorch" out their forbidden intricacies, flitted by like a succession of dreams. Tiring at length, she pedalled slowly; when a consciousness of being followed grew upon her awfully.

Pursued? Like a flash the long dominance of nature, sex and years reasserted their sway. Paula—not Paul now! The sweet security of skirts, a chaperon, and—why not own it to herself?—a protector, even a man—so he were the right man; all these grew upon her longing. Arthur himself—did he always sleep very sound? As for George Baylor, she would probably have jumped at him; out of fear, of course; yet until the scrape and jingle of wheels disclosed two riders bending over their handlebars, the idea of being discovered by a sweetheart, curdled hotly in her veins, so that George himself might have drawn hope therefrom.

But with her male protectors sleeping the "sleep of bears," Paula's strength and courage went lower and lower.

"Close in on your side," some one called. "Don't let him leave the main road." The muffled tones acted like a cold water douche. She spurted.

"Hey, you! Stop, thief!" Though the voice seemed further off, the words were terrible. Taken by some one for a midnight thief?

Failing to drop dead at the idea, Paula spurted once more, until, but for a long descending grade, she would have fallen from the wheel. She could not shake them off. Nearer they crept in the dim lunar light, until, nearly wild with apprehension, she dashed wildly down the grade.

Then a scream, a glare and an oncoming roar announced the night express that stopped nowhere, seemingly this side of doom—to Paula. Yet she kept on, on; dreading the vague horror of disgrace behind even more than the shrieking peril before.

The wheel bounced, zigzagged, reeled across the track—was it by a hairsbreadth or a rod? Paula only knew that the intervention of a long, crashing serpent had given her a moment's respite. It's earth-shaking convolutions passed, and there came her nemesis; yes, the pair of them. Gasping, exhausted, she turned into a footpath towards the lights and noise of an all-night factory twinkling through a strip of woods. Bump! Bump! Bump!

The going was worse than snaggy; then—bzzzt—bzt—bzsss—

Paula knew that Arthur's wheel could assist her no longer. She fell rather than dropped from the machine, and was striving weakly to regain her feet, when her relentless pursuers came up. Too far gone physically to care much, she hid her face, but it was roughly uncovered. It was darker amid the trees than in the open.

"Nabbed at last!" shouted someone, seizing the punctured bike in his other hand. "Next time you steal a wheel, don't make so much fuss getting out of the house. Hello! No, you don't—why, Paula—"

As the boy-girl looked up meekly, the golf cap fell off, and her hair came down. The speaker was Arthur, her brother, who could only stare and ejaculate. As the other man pushed his wheel through the shubbery, Paula screamed, and might have fallen again, but he boldly held her up; boldly, yet tenderly.

"Arthur came by on your wheel," he explained. "Said a bike thief had—"

Another faint scream, as Paula tried to hide behind her hands.

Oh, these blundering elder brothers!

"Dear Miss Paula," murmured the other man, and somehow the feminine naturalness of the words restored her like old wine. "May I, just—once?"

The other man was George Baylor.

IT PUZZLED THE EXPERT.

Customs Official Knits Brow and Frowns Darkly Over Classification of Three-Legged Stool.

The customs official was greatly puzzled. He knitted his brow and frowned darkly. He even tapped his foot nervously on the polished floor, says the Cleveland Plain Dealer.

"What seems to be the difficulty?" inquired a sympathetic subordinate.

The chief turned to him with a troubled stare.

"I'm bothered," he growled. "I'm badly stumped. And yet I am the very man who classified frogs' legs as 'dressed poultry,' and admitted a colt from Canada as 'household furniture.'"

"And what's the question now?" the subordinate respectfully asked.

The chief ran his hand through his matted hair.

"I'm worried to death," he cried, "over the proper classification for a three-legged stool! It isn't a biped and it isn't a quadruped—and there you are!"

The Russian troops now have beans issued to them as daily rations. This is believed to be a desperate bid for the moral support of Boston.

Lovers Twain

By BELLE MANIATES

(Copyright, 1904, by Daily Story Pub. Co.)

TALL and admirably proportioned, with a most distinguished air, modest in bearing, straightforward in manner and frank of countenance and possessed of a captivating personality, Philip Hathcourt was well equipped to win favor in the eyes of women. But Leigh Cornell, the one woman to whom his heart inclined, was still fancy free.

Though they were the best of friends he shrewdly divined that he would be forcing an issue if he told her of his love.

"I hear you are going to sing a solo at St. Luke's next Sunday," he said, as they sat in the box at the theater one night.

Yes; I am to sing 'Angels Ever Bright and Fair.'"

"I shall come to hear you. By the way, we shall have a guest at that time—a friend of my younger brother. He is quite music mad, I believe."

"Who is he?" she asked, carelessly.

"An Englishman—though he spent his boyhood in America. His name is Reginald Derybshire."

"Oh!" she cried, her eyes full of interest. "Did he live here in this city years ago, and did he fall heir to a title and estates in England?"

"Yes," he repdied. "Did you know him?"

"When we were children we sang in a a vested choir. We were given the duets, more because I was so fair and he so dark than from any blending of voices. They thought we made a tableau, I suppose. It was like a romance, his becoming Lord Somebody and crossing the seas to his estates, and I! Well, my lines were cast in far different places."

Sunday morning found him in the Hathcourt pew, his brother and their guest, Reginald Derbyshire, also present.

Young Derbyshire had gone to England full of American ideas and with a stolid determination not to become "English," but it was only natural that an impressionable boy should insensibly and by degrees receive the imprint of English sentiments. Gradually he became molded in the character of the country which had been his birthplace, and at last England claimed him for her own. Soon after attaining his majority he again visited his old home. He had an eager interest in everything pertaining to his old life and hunted up his former friends with enthusiasm. He had ever cherished most tender recollections of the little pansy-eyed girl who had sung and played with him. It was of her, in fact, he was now thinking as he appeared to listen to the sermon.

He had scarcely glanced at the members of the vested choir until now, when the organ pealed forth at the close of the sermon, a young girl rose and faced the congregation. She looked as tender and pure as an archangel in her white robes, with eyes uplifted to the oaken rafters of the little chapel.

"One of Raphael's Sistine Cherubs!" thought Reginald.

At the rising cadence of the song and the exquisite play of the silvery timber of her voice his memory awoke.

"Leigh!" he gasped, as the old, familiar air and words rang out. How they took him back to the Sundays of his boyhood!

"And I taught her that song!" was his triumphant thought.

She finished. There was a momentary silence like that solemn pause which follows a benediction. Then, with a tremor in his low, gentle voice, the old pastor offered a heartfelt prayer. Outside the church Reginald waited for her. When she came he rushed forward with impetuous and outstretched hand.

"Leigh!" he cried, eagerly.

A bright, glorious flush rose to her cheeks and a happy light shone in her eyes as she grasped his hand, while Philip, standing by, felt like kicking this newcomer to the ends of the earth.

"I knew you as soon as you began to sing—our old song!" he exclaimed.

She wondered, with a sudden divining, of the reason that Philip had not told him of her. Reginald accompanied her to her home and they talked of other days—the days when she had sung in the choir and the unhappy days that had followed, when her father had died so suddenly, and to support her invalid mother the little Leigh had sung in dance halls and on pleasure boats. At her mother's death, just before he had come into his possessions, she had been adopted by some wealthy people.

"There have been changes indeed in your life since the day I taught you the song you sang to-day," he observed.

"No greater changes than came into your life, my lord," she retorted.

Early in June they were invited to a house party at Roselawn, the country home of the Hathcourts. One afternoon, as Reginald sat beside Leigh on the piano bench watching the slender fingers that glided so softly over the keys, he was struck by a new expression in her eyes. The dazzling brightness of her face had given way to a strange, sweet quiet. Hitherto he had regarded her as a gay little playmate. It occurred to him now that she was a woman.

"Leigh!" he half whispered, "do you remember that when we were children I was your little lover?"

She looked at him with startled eyes. Something in his tone and eyes warned her whither his thoughts were turning. He noted her changing color and pulled himself together. It was not right to flirt with this girl. He was about to turn the conversation into safer channels when, with some hurried excuse, she rose and left the room.

While he was reflecting on girls in general and Leigh in particular Mrs. Wendell, one of the very few who knew Leigh's history, entered.

"You look as conscious, Reggy, as Leigh did just now. It would be a pretty romance if your boyish attachment for Leigh should end in your carrying her to your ancestral halls!"

"Oh, Mrs. Wendell, you know that as lovable as Leigh is, a fellow in my position couldn't overlook the days she was nothing less than a street singer. It wouldn't do in England, you know!"

Leigh, returning to the music room, heard the speech. Her eyes, usually so bright and tender, flashed with spirit as she quietly and unobserved left the room.

There was a grand ball at Roselawn that night and Reginald was one of the first to enter the ball room. Mrs. Wendell hurried to him.

"Oh, Reginald; I've something awful to tell you! Leigh overheard what you said about her having been a street singer. She just told me she heard you!"

He gave a cry of dismay.

"No, not really, Mrs. Wendell! That is awful! Believe me, I shall make amends. I shall ask her to marry me."

Just then a beautiful vision swept past him. Could this figure so slender and stately in trailing gown be that of little Leigh? As she passed through the long room at the side of her adopted father Philip Hathcourt did not remove his eyes from her.

"Leigh," he murmured, as they stood apart for a moment, "may I have the first dance?"

She turned slightly pale, hearing the intensity of his voice, but quietly gave him the promise of the dance. Then Reginald came hurrying toward them.

"Leigh, you were so late in coming!" he cried. "May I tell you how gloriously beautiful you are to-night?"

She glanced at him carelessly with a cold, little ghost of a smile.

"I want the first dance," he continued.

"You are too late! I have promised it to Philip."

The first dance ended Reginald hastened to claim her for the next one. It had semed to him that his code of honor demanded by way of apology nothing short of a proposal. But tonight her heightened beauty and the intoxicating delight he felt when dancing with her made him forget any motive but love. His wooing was audacious, passionate and importunate. Her refusal, calm, undaunted and unalterable.

Surprised, yet not baffled, he continued to plead beseechingly.

"I don't understand such inconsistency, Reginald," she replied. "To-day you were proclaiming that you could not marry a street singer!"

"Spare me, Leigh!" he pleaded. "I didn't love you then. You are prejudiced now by reason of that unfortunate and careless remark. Take time, and let your heart soften towards me."

She laughed tantalizingly.

"I don't love you, Reginald! And I never will."

"You did, or were on the verge of it," he protested.

"When?"

"This afternoon before you left the music room so suddenly. I saw it in your eyes."

"You may have seen love there," she said, slowly, "but not for you."

A quick passion seized him.

"I know for whom! Someone whose feeling for you isn't equal to mine—someone who will not—"

"Stop!" she commanded. "My answer is final. Take me back to the ball room."

She was experiencing a slight exultation in the realization of the power a woman can wield over man. This feeling made her eyes more luminous and her face more radiant. They passed Philip in the doorway of the pavilion. He drew back out of view, all the wounds in his heart beginning to ache at the sight of the proud, happy bearing of the girl, whose countenance was glowing and flashing with excitement. He came up to her quickly.

"Will you dance this with me?"

"Certainly," she replied.

"I don't want to dance now," he said, when Reginald had withdrawn. "Let us go to the house, but not to the ball room."

They went into a deserted room, dimly lighted by candles, to a deep window embrasure which looked out on the garden at the back of the house. The moon flying swiftly through great floating masses of clouds sent a silvery beam upon the gold of her shining hair. Her eyes were full of depth and color.

A little French clock chimed out 12 strokes.

"This is the noon of night," said Leigh, trying to speak lightly.

"Leigh, I have no right to ask—but, did Reginald propose to you to-night?"

"I have no right to tell, perhaps, but I will. He did."

"And you accepted him?" he asked, tensely.

"No, I refused him."

His arms were about her. "Then, Leigh, let me tell you, I—"

"Wait!" she cried.

Her voice was sharp and strained. She drew away from him.

"I want to tell you something—something about my early life. You do not know that when I was a little girl—"

"You sang on the boats and in dance halls," he interrupted, "to support your sick mother. I heard it before I met you. I think it was that which first made me love you!"

She turned soft, wet eyes to his.

"Oh," she said, with a little gasp of joy. "And to think all this time I've been dreading to tell you!"

WHY ICE DOES NOT SINK.

Magazine Writer in Explanation Says That Water Alone Is Expanded by Cold.

It is one of the most extraordinary things in this extraordinary world, writes Henry Martyn Hart in a magazine, that water should be the sole exception to the otherwise universal law that all cooling bodies contract and therefore increase in density.

Water contracts as its temperature falls and therefore becomes heavier, and sinks until it reaches 39 degrees. At this temperature water is the heaviest, this is the point of its maximum density. From this point it begins to expand. Therefore in winter, although the surface may be freezing at a temperature of 32 degrees, the water at the bottom of the pool is six or seven degrees warmer.

Suppose that water, like everything else, had gone on contracting as it cooled until it reached the freezing point; the heaviest water would have sunk to the lowest place and there become ice. Although it is true that eight pints of water become nine pints of ice, therefore icebergs float, showing above the surface an eighth of their bulk, still, had the water when at the bottom turned into ice, the stones would have locked it in their interstices and held it there, and before winter was over the whole pool would become solid ice and all the poor fish would be entombed in clear, beautiful crystal.

COAL MINER INVENTS GUN.

Worker in Prussian Shaft Has Been Offered $9,000 for Rights to Construct New Weapon.

Albert Ludwig, a coal miner in the provinces of Germany, the other day applied for leave of absence, saying he had been summoned to Berlin by the ministry of war.

The mine overseer thought the man was joking, but he found, to his surprise, that Ludwig had in his leisure hours invented a new kind of machine gun and two rifles of original construction. He sent drawings of these to the ministry of war, and received from headquarters the order to present himself in Berlin. Ludwig, who is only 20 years old, says he has been offered $9,000 for his inventions.

Nice Wad for Somebody.

A Pennsylvania woman who died the other day left $500 for a pet dog. The Chicago Record-Herald says it ought to be easy enough for some sharp lawyer to get that.

Sleep.

Blessings on him who invented sleep, the mantle that covers all human thoughts, the food that appeases hunger, the drink that quenches thirst, the fire that warms, the cold that moderates heat, and lastly, the general coin that purchases all things, the balance and weight that equals the shepherd with the king, and the simple with the wise.—Cervantes.

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and to-day she is well and strong." It kills the germs and of all diseases. One dose relieves. Guaranteed at 50c and $1.00 by All Druggists. Trial bottle free.

Reflections of a Bachelor.

New York Press: It is the loose change that slips through our fingers.

It is better to have been a son-in-law than never to have wed at all.

For some time after a girl wears her hair on top of her head she wears nothing inside of it.

A woman likes to wake up in the night and begin to cry just to be able to get mad over the comfortable way her husband can sleep through it.

If wives sent advance notices the way insurance companies do when a premium is to be paid, their husbands could remember their wedding day.

Greatly in Demand.

Nothing is more in demand than a medicine which meets modern requirements for a blood and system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach and liver troubles. Try them. At all druggists, 25c., guaranteed.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in Pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. S. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Sold by A. L. Reichert.

Stone Wanted.

The undersigned will contract for stone to be delivered during winter at mill. Red Lake Falls Milling Co. tf

Wine of Cardui Cured Her.

213 South Prior Street,
ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

JOEL WINKJER LANDS.

St. Hilaire Man on the Dairy and Food Commission.

Governor Johnson on Monday announced the appointment of Joel G. Winkjer, manager of the St. Hilaire creamery, as an inspector of the dairy and food department to succeed Prof. J. A. Wilson of Thief River. Mr. Winkjer is a graduate of the state agricultural college and has had much special training in dairy and creamery work, besides having the practical experience of creamery management for nearly ten years, and in this work he has been eminently successful, every creamery under his charge being a financial success. The St. Hilaire creamery is paying good profits to the stockholders, and Mr. Winkjer has taken a number of prizes at state butter contests.

The new appointee is familiar with the needs and conditions of the dairy industry in the Red River valley, and his work will be largely in this section. That he will a valuable member of the dairy and food staff goes without saying.

In the appointment of Mr. Winkjer the Governor has acted wisely. Mr. Winkjer is a representative Scandinavian, and a radical Democrat. He is also as well qualified for the work as any other man in the state, and his nomination is a concession to the demands of the Red River valley.

RUSTED WHEAT MAY GROW.

Professor Thomas Shaw Says Rust Doesn't Ruin The Seed.

Two well-known authorities, Professor Thomas Shaw of the Minnesota Agricultural college, and Professor H. L. Bolley of the North Dakota Agricultural college, are on record as stating that the use of seed wheat from the rusted wheat crop of last year will not transmit rust to the next crop, and as agitation [illegible] free admission of Canadian seed wheat, which is based upon the contention that the farmers must have it to tide over.

While the statement that rusted wheat may be used without danger of transmission of rust, is not new, and is generally accepted by agriculturalists, the opinions of Professor Shaw and Bolley are timely. The agitation for good seed has gone slightly beyond the point of solicitude for the northwest, and borders upon the assumption that there is a scarcity of wheat available for seed. The application of Congressman Steenerson of Crookston for a treasury department decision upon the matter of admitting Canadian wheat, imported for seed, without payment of duty, has increased the feeling. Apparently there is no occasion for alarm.

The Soo road has already sent out a seed train, for the purpose of educating the farmers in its territory to the necessity for using good seed, and the North-Western has arranged an itinerary for a seed train to cover the southwestern part of Minnesota and South Dakota. Meanwhile it is announced that Secretary Shaw will send a message to congress recommending a law admitting Canadian wheat for seed free of duty in times of need.

From all this the impression has grown that the northwest is short of seed wheat, but this is not really the case.

Precautions are necessary in the use of seed wheat from a rusted crop, but this is due rather to the fact that there are likely to be small, shriveled, or prematurely ripened, half-developed grains in the wheat which would not be good seed in any case. The statement is confirmed however, that the fact that rust was prevalent in a field does not preclude the use of wheat from that field for seed, and that such use will not produce rust in the next crop. Smut is more an internal affection, and the use of smutty seed, according to Professor Conway MacMillian is almost sure to show up deleteriously in a new crop, but rust is an external affection and is not transmitted thru the seed.

That Hollow Cough

can easily be cured by using Gloria Lung Balsam. it is sweet, pleasant and soothing preparation and even the worst cases can be relieved at once. It is made of healing and soothing balms and is best for children. Sold by W. A. Schreiter.

EMARDVILLE CREAMERY.

New Officers Elected at Annual Meeting Last Week.

At the annual meeting of the Emardville creamery association held last week a resolution was adopted that after March 1 the shares of stock should be increased in price to $15 each. If any of the farmers intend to become a member of the association they should buy their shares of stock before the raise goes into effect.

The association is now moving its creamery building to Plummer, and will be ready to commence business in the early spring. Manager Lauritzen says he expects a good patronage and is prepared to handle a large amount of cream in a first-class manner.

The new officers elected last week are as follows: President, P. S. Medchill; vice president, H. H. Finrow; secretary, A. J. Hemstad; treasurer, A. F. Anderson; directors, P. S. Medchill, H. H. Finrow, Andrew Johnson, Olaf Tande and E. K. Gjernes.

What Is Gambling?

The editor of the Fairmont News ask some questions which we pass along, hoping that some one may figure out the correct answers. He says: What is gambling? This question has bothered us for years and we have never received a satisfactory answer. Two boys were caught playing marbles for keeps, and the pious church member holds up his hands in holy horror, and tells them they must not gamble. Across the street a church fair is going on and there are grab bags, lotteries and fishing schemes that the wicked call gambling, but the church member thinks they are all right. One man buys land for the raise in value, but if it fails he has lost his money. Another bets that a certain card will turn up. Each is staking his money on his judgment and either may lose or may win. Which is gambling? One man shakes dices for dollars and another puts his dollars on the price of wheat. What is the difference and which is gambling? It seems to us that all these things are about an even thing and that in each case men are risking their money in the hope of gain with about equal chance of losing. Please tell us what gambling is.

A Home Endorsement.

Armstrong [Iowa] Journal: Ed. H. Chase, editor and publisher of the Journal the past two years, left this morning for Red Lake Falls, Minn., to take charge of the Red Lake Courier. Mr. King, the proprietor of the paper, has been appointed State Librarian by Gov. Johnson and will move to St. Paul. After looking around for a suitable person to publish and edit THE COURIER he finally selected Mr. Chase, and we can assure he made no mistake. Mr. Chase has been in the newspaper business all his life and knows it from A to Z. He will keep THE COURIER up toits present high standard. We congratulate Mr. King and the readers of THE COURIER.

Persons Who Bark.

If you are coughing your head off, have visions of asthma, try Gloria Lung Balsam. Made of honey, wild cherry and other healing balsam. Best for children. Sold by W. A. Schreiter.

ONE APPOINTMENT HELD UP

St. Paul, Minn., Jan. 12—All of the nominations sent in by Governor Johnson were confirmed this afternoon, with the exception of John E. King of Red Lake Falls, named as state librarian. On motion of a senator from the northern part of the state, action on this nomination was deferred until next Tuesday.

It is alleged by some of the senators that this appointee severely criticized the business record of Lieutenant-Governor Jones in his newspaper, the Red Lake Falls COURIER, and on the stump during the campaign last fall. The general impression is that the appointment will be confirmed without serious opposition.

Small Box Cars to Go.

Fergus Falls Journal: In all the yards of the Great Northern roads is being collected a great number of small box cars. This is the result of an order which went into effect January 1 to cut out all 28- and 30-foot freight cars, and no more of these small cars will be handled by the road. The 28-foot cars have a capacity of only 28,000 pounds, and the Great Northern after years of experience has learned that they are both dangerous and expensive. They are built light and when there is trouble these cars are always in the center of the mixup. The freight cars now used are all 40 feet long, [illegible] a carrying capacity of 80,000 pounds. The expense of hauling freight in these cars is much less than the same quantity in two or three smaller cars and there is much less danger of wrecks and smashups. Just what will be done with the discarded cars is not known, but they will probably be sold to small roads and branch lines.

The State Census.

Princeton Union: There is a lot of newspaper talk about what the next State census will be and how it will be taken. That will all depend, as there will be a group of legislators in the senate and also a group in the house who will have something to say about it and the legislature will have to pass on the actions of these two committees before any census can be taken. Some may be misled by newspaper references to the law that was enated ten years ago for the State census at that time. The law provided for the taking of the census of 1895 and does not apply in any way to the taking of the census the coming year. A new law will have to be enacted for this purpose.

80 Years Old.

Mrs. Sina W. Platt, of Unity, Wis., a lady of 80 years, was recently cure of rheumatism by Gloria Tonic after many well-known remedies were previously used. This happy result ought to be a great encouragement to many of our readers. Sold by W. A. Schrieter.

CALUMET

Baking Powder

A perfectly healthful powder made by improved chemical methods and of accurately proportioned materials.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exorbitant price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

PRESIDENT ROOSEVELT SEEMS TO BE DETERMINED ON SUCH A COURSE.

Holds Conference with Party Leaders in Congress—Tariff Revision and Railway Legislation the Chief Topics of Discussion.

Chicago, Jan. 9.—The Chronicle's Washington special says: President Roosevelt Saturday afternoon submitted to a joint committee, composed of leading republican senators and representatives what amounted to an ultimatum on the subjects of tariff revision and railway legislation. He announced his purpose to call a special session of the Fifty-ninth congress in the early fall of the present year to revise the Dingley schedules. He indicated that he would prefer that congress shall dispose of interstate commerce legislation at the present session, but if for any reason it fails to do so, he will ask the Fifty-ninth congress to consider it in special session. Other important subjects of legislation were discussed, including the naval appropriation bill, which is so close to the president's heart. The president expressed complete sympathy with those members of congress who are seeking to introduce economy in the great supply bills of the government, but he insisted that there should be no cut in the naval appropriation bill; that the department's programme of construction ought to be ratified and that the total of the bill ought to be about $115,000,000. Rivers and harbors and public building legislation were also discussed.

Congress was represented at the conference by Senators Allison, of Iowa, Aldrich, of Rhode Island; Spooner, of Wisconsin, and Platt, of Connecticut; Speaker Cannon, Representatives Sereno E. Payne, of New York; John Dalzell, of Pennsylvania; Gen. Grosvenor, of Ohio, and James A. Tawney, of Minnesota. Owing to an agreement entered into by the president and conferees no information concerning what happened during the conference is obtainable with the exception of a perfunctory statement issued by Secretary Loeb, in which he says that tariff, railway rates and other subjects were discussed, that no agreement was reached and that the conference will be resumed at some date in the future which remains to be fixed.

A SUDDEN CALL.

Heart Failure Causes Death of Former Governor Lowndes, of Maryland.

Cumberland, Md., Jan. 9.—The sudden death at his home in this city Sunday of former Gov. Lloyd Lowndes cast a pall of gloom over the community. There had been no indications of illness, and Mr. Lowndes appeared to be in his usual good health and spirits when he arose in the morning. He arose at 8:30, took a bath and began to dress preparatory to attending church services. A sudden fall attracted the attention of Mrs. Lowndes, who was in the room. She summoned assistance, and the unconscious form was placed upon the bed. Physicians were hastily summoned and were quickly at the bedside, but death had ensued before their arrival. Death was due to heart failure.

Presentment Withdrawn.

Philadelphia, Jan. 9.—The presenters of Bishop Ethelbert Talbot, of the Central Pennsylvania diocese of the Protestant Episcopal church, who have not repudiated the paper filed against him, formally withdraw the "charges in writing" made against the bishop by friends of Rev. Dr. I. N. W. Irvine, the deposed priest. They reserve the right to present new "charges in writing."

Iowa Bank Dynamited.

[illegible], Ia., Jan. 9.—The savings [illegible] of this town was dynamited Friday night and the building was badly [illegible]. It is not known if any money was secured by the robbers.

GILLESPIE CONVICTED.

Found Guilty of Murder of Twin Sister—Sentenced to Life Imprisonment.

Rising Sun, Ind., Jan. 6.—James Gillespie, who with his sister, Mrs. Belle Seward and Mr. and Mrs. Myron Barbour was indicted for the murder of his twin sister, Miss Elizabeth Gillespie, on the night of December 8, 1903, was found guilty Thursday night and sentenced to life imprisonment. The other three defendants will be tried separately later. This was the second trial of James Gillespie. At the former trial a year ago the four defendants were tried together, but the jury failed to agree and was dismissed.

Rising Sun, Ind., Jan. 7.—Judge Cornet overruled a motion for a new trial for James Gillespie, convicted of the murder of his twin sister, Elizabeth. Gillespie then prayed for an appeal to the supreme court, which was granted, and 60 days were given in which to file his bill of exceptions. Judge Cornet then sentenced Gillespie to imprisonment in the penitentiary for life. The cases of Myron Barbour, Belle Seward and Carrie Barbour were continued until the March term of the Ohio county court.

Miss Elizabeth Gillespie was shot on the night of December 8, 1903, while in the parlor of her home preparing to entertain the Woman's Literary club of Rising Sun. The assassin fired through a front window with a double-barreled shotgun, inflicting wounds on the head of the woman which resulted in her death several hours later. The only person in the house at the time was the aged mother of the victim. Several witnesses testified that James and Elizabeth had many quarrels previous to the murder and that James left home to board with another sister after one of these quarrels. Experts claimed that the wounds were inflicted with a 16-gauge shotgun and the prosecution brought forward witnesses who testified that James Gillespie was the owner of the only 16-gauge shotgun in Rising Sun.

THEODORE THOMAS DEAD.

Well-Known Leader of Chicago Orchestra Passes Away After a Short Illness.

Chicago, Jan. 5.—Theodore Thomas, creator and director of the Chicago orchestra, and one of the world's greatest and best musicians, is dead. He died at ten minutes before six o'clock Wednesday morning at the family home in this city, after a brave battle of less than two weeks against a severe attack of pneumonia.

Theodore Thomas was born at Essen, Germany, October 11, 1835, and made his debut as a violinist in Germany at the age of ten years. The same year, 1845, he came to America and gained a reputation as a solo violinist at great New York concerts and in a tour of the south. He inaugurated orchestral concerts in 1864 and three years later, in 1867, he founded the Thomas orchestra, maintaining the organization until 1888. Previously, in 1862, he had been elected leader of the Brooklyn Philharmonic society, and, in 1877, of the New York Philharmonic society, and he held these posts, too, until 1891 almost continuously. From 1885 to 1887 he was conductor of the American Opera company, and from 1873 to 1898 conducted the biennial Cincinnati musical festivals. He was musical director of the world's fair in 1893.

Penalty for "Tipping."

Jefferson City, Mo., Jan. 7.—In the state legislature Representative Tubbs, of Osage, introduced a bill to prohibit the practice of tipping waiters at hotels and restaurants under a penalty of $500.

Assignment for Mutes.

Washington, Jan. 9.—The war department Saturday assigned Lieut. Gen. Nelson A. Miles, U. S. A., retired, as a member of the staff of Gov. Douglas, of Massachusetts.

City Hall Burned.

Springfield, Mass., Jan. 7.—The city hall, valued at more than $50,000, was completely destroyed by fire in less than an hour Friday.

Niedringhaus for Senator.

Jefferson City, Mo., Jan. 6.—The republican caucus nominated Niedringhaus for senator, insuring his election.

PLUMMER.

(From the Pioneer.)

Milton Converse and Willie Hunt were out from Red Lake Falls yesterday on business.

Mrs. Chas. W. Latta and children arrived from Crookston on Tuesday and ye editor's family circle is now complete.

S. A. Swanson was over from Red Lake Falls on Monday. He was wisned to set a good example to others and start the New Year right by coming to Plummer to transact business.

H. H. Finrow and W. G. Brown were at Red Lake Falls on Tuesday to seek financial aid from the county board to build the new bridge across the Clearwater north of here.

The many friends of Otto Claas in this vicinity will regret to learn that he quite ill with appendictis at his home in Red Lake Falls. The physicians in attendance upon him fear that he may have to undergo an operation.

A portion of the creamery buildings have been moved onto the new site here in town and the remainder will follow next week. The machinery is also ready for transportation and all will soon be ready for business in the new location.

Ralph Green is making his headquarters in town at present while engaged as camp deputy in hustling new members for Plummer Camp of the M. W. A. If he keeps up the gait at which he has started Plummer will soon have one of the best camps in the state.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is atleast one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strenght by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo O. Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

Reflections of a Bachelor.

New York Press: School boys and married men are always planning for vacations.

A woman thinks another is a mighty poor housekeeper to have her cook get pneumonia.

When two people are intent on fooling each other, somebody else comes along and fools them both.

The average idiot would be considered a genius if his particular form of idiocy happened to be the fashion.

You can never make a woman believe it is dangerous for her to go on thin ice if some man admires her for being there.

The greatest system renovator. Restores vitality, regulates the kidneys, liver and stomach. If Hollister's Rocky Mountain Tea fails to cure get your money back. That's fair. 35 cents, Tea or Tablets. A. L. Reichert.

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free.
Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

BADGER.

Miss Zelia Quesnell spend last week visiting friends and relatives in Crookston she returned home Saturday.

Mrs. Sam Dainard of North Dakota and her children visited friends and relative here last week.

The Misses Alyce, Anna, and Mr. Louis Quesnell, accompanied by Miss Jennie LaBissionere left Monday morning for a visit at McIntosh and Fosston. They will be absent for several days. No doubt they will enjoy their visit as it is several years since they have not seen their friend there.

Mr. and Mrs. O. Robillard and family also Mr. D. Robillard were guests at Mr. Moses Ducharme of Perrault Station Friday.

Mr. D. Robillard is visiting friends at Grand Forks this week.

Master Peter Lachance is reported quite ill this week with lagripe his friends expect a soon recovery.

Mr. and Mrs. Louis St. Yves and family spent Wednesday evening at the home of Mitchel Quesnell.

Mr. Thomas Borsvert and wife of Lambert are visiting friends and relatives here since last week.

Mr. Roy Walker was a business caller at the Falls Saturday.

Mr. and Mrs. Robert Quesnell of Mentor were visitors here last week.

Mrs. J. Remick of Red Red Falls, and children visited here last week.

Mr. and Mrs. Alcide Perrus of Terrebonne visit at A. Laurent and M. Quesnell last week.

Mr. E. Quesnell drove to the Falls Saturday and was accompanied home by his daughter Zelia who arrived that day from Crookston.

Master Joseph Quesnell spent last week in Red Lake Falls visiting his uncle, Paul Berthon, and also at his Grandfather Frank LaBissionere he reports a good time.

Mr. and Mrs. Remeo St. Marie of Cass Lake visited at the home of Adelard Laurent last week.

Mr. and Mrs. William St Yves of Crookston visited around here for the last two weeks, returned home last Monday accompanied by Chas. Bourcier who spent the holidays here also.

Mr. Fred Hudson returned home from his visit at Crookston Saturday. Fred has been absent for a week.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of Kidney trouble, hoping it would wear away, he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys and was cured by Foley's Kidney Cure. Sold by A. L. Reichert.

Brain Leaks.

In the real home Christmas comes every day.

Some people work hard to make an easy living.

Some men mistake moral dyspepsia for complete sanctification.

The man who never forgets that he was a boy is not very apt to forget his manhood.

The man who is honest simply because it is the best policy will bear watching.

Some people experience no difficulty in keeping their left hand from knowing what their right doeth.

The foolish man carries his business cares to his fireside and leaves all of his good nature at the office.

The man who is always waiting for something to turn up is forever complaining about being turned down.

A man never realizes how foolish he once was until he run across some of the letter he wrote to his wife before he married her.

This is the season of the year when the man who owns a horse and does not warm the bridlebits should be made to stand in the stall while the horse loafs by the radiator.

☐ While we are mourning the fact that the young girls of today are not learning to be housekeepers, let us not forget that the young men are not altogether successful as house providers.

New Fast Time To Southern California.

The NORTH-WESTERN Line, in connection with lines from Kansas City now offered better and more frequent service to Los Angeles for travelers from the Twin Cities than ever before, with through time as follows:

Night Trains: Leave Minneapolis 7:30 P. M., St. Paul 8:00 p. m. Arrive Omaha 7:05 a. m. and Kansas City 4:00 p. m.

Leave Kansas City 8:40 p. m. Arrive Los Angeles 6:30 a. m. the third day.

Day Train: Leave Minneapolis 9:10 a. m., St. Paul 9:40 a. m. Arrive Council Bluffs 9:45 a. m. and Kansas City 7:10 a. m.

Leave Kansas City 10:40 a. m. Arrive Los Angeles 2:45 p. m. the third day.

Cafe and Parlor Car on day train, Twin Cities to Omaha. Buffet Sleeping Car on night train to Kansas City and dining car on both trains from there to Los Angeles.

D. 1905, at 8 o'clock P. M.

Witness my hand and seal of the City of Red Lake Falls this 3rd day of January, A. D. 1905.

j5-12 A. P. TOUPIN, City Clerk.

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 12, 1903, executed and delivered by Ben Gullick and Delia C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage,

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 507, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93, and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902; $12.00 on May 1, 1903, and a like amout annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $122.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903, at 2 o'clock p. m., in Book 15 of Mortgages, page 78.

And Whereas, The said assignee of Mortgage and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained; and whereas there is actually due and claimed to be due and payable at the [illegible]

date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof;

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on Page 61, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office, on the 20th day of November 1903, at 2 o'clock p. m., in Book 15 of Mortgages page 78.

And Whereas, The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of said notice, under the terms and conditions of this mortgage, and the power of sale therein contained; and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-One and 71-100 ($1461.71) Dollars; and whereas, the power of sale has become operative, and no action or proceedings, at law or otherwise, has been instituted to recover the debt secured by said mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Northwest Quarter (nw¼) of Section Four (4) in Township One Hundred Fifty-three (153) Range Forty-Five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the City of Red Lake Falls in said County and State, on the 17th day of February 1905 at 1 o'clock p. m. of that day, at public vendue, to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-One and 71-100 Dollars, and interest and taxes, if any, on said premises, and Fifty Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law, subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

MILES J. SCANDRETT,
Assignee of Mortgagee.

Grant Van Sant,
Attorney for Mortgagee,
901 Pioneer Press Building,
d29-f9 St. Paul, Minn.

COMMISSIONERS IN SESSION

Proceedings of the County Board at the Regular January Session—More Next Week.

Red Lake Falls, Minn., Jan. 3, 1905.

The Board of County Commissioners of Red Lake County, Minnesota, met in regular session at the court house at one o'clock p. m.

Present—Commissioners Sutor, Demann, Johnson, Shaw and Falardeau.

The Board proceeded to ballot for chairman for the ensuing year, resulting as follows:

Johnson, 3 votes; Demann, 1 vote; Falardeau, 1 vote.

Commissioner Johnson, having received a majority of the votes cast on the first ballot, was declared elected chairman of the Board for the ensuing year.

The Board proceeded to ballot for vice chairman for the ensuing year, resulting as follows:

Sutor, 3; Shaw, 1; Demann, 1.

Commissioner Sutor, having received a majority of the votes cast on the first ballot, was declared elected vice chairman for the ensuing year.

On motion duly carried the following county officers' bonds were approved:

D. Linnihan, sheriff, $5,000;
Frank Jeffers, register of deeds, $5,000;
Thomas Germo, county attorney, $2,000.

In the matter of the petition of E. L. Quist and others, residents and legal voters in Red Lake county, and not residing within ten miles of any established election district, praying for the establishment of an election district consisting of that part of the county of Red Lake, Minnesota, known as the Red Lake Indian Reservation, no part of which territory is now included in any existing election district, on motion made by Commissioner Shaw and carried unanimously the following order establishing an election district was made:

State of Minnesota }
County of Red Lake } ss.

The petition of E. L. Quist and others, petitioners and legal voters of Red Lake county, Minnesota, not residing within ten miles of any established election district, praying for the establishment of an election district within said county of Red Lake, state of Minnesota, to consist of that part of Red Lake county, Minnesota, known as the "Red Lake Indian Reservation," and which was thrown open for sale and settlement by an Act of Congress, approved February 20, 1904, and no part of which territory is now included in any election district, having been presented to the Board of County Commissioners of said Red Lake county, Minnesota, and said petition having been publicly read at a meeting of said Board of County Commissioners held on the third day of January, 1905, and it having been duly considered by said Board,

It is by said Board ordered, That an election district be and the same is hereby formed within the County of Red Lake, bounded and described as follows, towit:

All that part of Red Lake county, Minnesota, known as the "Red Lake Indian Reservation," and which was thrown open for sale and settlement by an Act of Congress approved February 20, 1904.

It is further ordered, That all elections in said election district be held at Kratka post office in said county of Red Lake, state of Minnesota, and that Corgan Eide, Ole Wiseth and Gunder Steenerson be and are hereby appointed as Judges of Election in said election district.

By order of the Board of County Commissioners of Red Lake county, Minnesota, at a meeting held January 3, A. D. 1905.

[Seal] O. J. JOHNSON,
Chairman Board of County Commissioners.
Attest:
JAMES E. FORD,
County Auditor,
Red Lake County, Minn.,

The following report was submitted by the Board of Audit:

To the Honorable Board of County Commissioners, Red Lake County, Minnesota:

Gentlemen—

We, the undersigned, Board of Audit of said Red Lake county, convened at the office of the County Treasurer of said county on the 30th day of December, A. D. 1904, for the purpose of auditing and examining the accounts, books and vouchers of O. T. Tandberg, County Treasurer of said county, and to count and ascertain the kind, description and amount of funds in the treasury and belonging thereto.

We respectfully report that we found the said Treasurer indebted to the several funds at the beginning of business on December 30, 1904, in the aggregate sum of $24,909.38, and we find the Treasurer in the possession of funds covering said indebtedness in kind and amounts as follows, towit:

Cash in safe	$ 24.42
Cash items, money orders and checks	18.59
Deposit in First State Bank, Red Lake Falls	4,675.61
Deposit in Merchants State Bank, Red Lake Falls	3,541.43
Deposit in Bank of Red Lake Falls, Red Lake Falls	2,177.16
Deposit in First State Bank, Thief River Falls	2,339.10
Deposit in First National Bank, Thief River Falls	2,312.90
Deposit in Citizens State Bank, Thief River Falls	4,000.00
Deposit in First State Bank, St. Hilaire	1,744.40
Deposit in Merchants State Bank, St. Hilaire	4,073.77
Total funds on hand, December 30, 1904	$24,909.38

Respectfully submitted,
JAMES E. FORD,
County Auditor;
JOSEPH PERRAULT,
Clerk District Court;
WM. C. L. DEMANN,
Chm. Bd. Co. Commissioners;
Board of Audit,
Red Lake County.

On motion carried unanimously the foregoing report of the Board of Audit was approved.

The following resolution offered by Commissioner Sutor was adopted by unanimous vote:

Whereas, This Board did heretofore, and on the 12th day of March, 1904, make its order establishing School District No. 272 in Polk county, Minnesota, from part of the territory comprising School District No. 36, in Red Lake and Polk counties, which order was concurred in by the Board of County Commissioners of Polk county, Minnesota, and

Whereas, It appears to this Board that at the time of the formation of said School District No. 272, there were funds in the treasuries of Polk and Red Lake counties to the credit of said School District No. 36, and

Whereas, the Board of County Commissioners of Polk county, Minnesota, did on the 21st day of December, 1904, pass a resolution dividing the assets of said School District No. 36 at the time of the formation of the said School District No. 272;

Be it resolved, That said resolution passed by the Board of County Commissioners of said Polk county, Minnesota, be and is hereby concurred in by this Board, and that the funds to the credit of School District No. 36 in Polk and Red Lake counties at the time of the formation of School District No. 272, be divided between the two districts as follows, towit:

To School District No. 272, 30 per cent., or $220.95, of the funds owned by School District No. 36 at the time of the formation of said School District No. 272, of which amount the sum of $95.00 is to be paid out of the funds to the credit of School District No. 36 in Red Lake county, and the sum of $127.95 to be paid out of funds to the credit of School District No. 36 in Polk county, Minnesota, and the County Auditors of the respective counties are hereby authorized and directed to transfer the above-named sums from School District No. 36 to School District No. 272 as soon as the condition of the funds of School District No. 36 will permit.

The following resolution was offered by Commissioner Sutor, and adopted by unanimous vote:

Whereas, in pursuance of, and in full compliance with, the provisions of chapter 258 of the General Laws of Minnesota for the year 1901, and the acts amendatory thereof and supplemental thereto, the District Court of the Fourteenth Judicial District upon appeal being duly taken to said court, from the order of this Board of County Commissioners, did heretofore duly locate, fully establish and order the construction of a certain public ditch situate wholly within said County of Red Lake, Minnesota, known and designated as Red Lake County Ditch No. 21; and

Whereas, it has been definitely ascertained and determined that the aggregate expense of locating, contracting and establishing said public ditch may be at least the sum of $6,500 and that it is necessary to issue and sell the negotiable coupon bonds of said Red Lake County, to provide $6,000 in amount of such expense;

Now, Therefore, Be It Resolved by the Board of County Commissioners of Red Lake County, Minnesota, that the negotiable coupon bonds of said County be, the same are hereby authorized and directed to be issued in the aggregate amount of $6,000, for the purpose of providing a portion of the funds necessary to defer the expense incurred and to be incurred in locating, constructing and establishing the said public ditch No. 21, situated wholly within the limits of said County, mentioned in the preamble hereof.

Said bonds to be six in number, numbered from 1 to 6, inclusive, each of the denomination of $1,000, and bearing date the 2nd day of January, 1905, and due January 1st, 1915, with interest at the rate of five and one-half per cent per annum, payable semi-annually, on the first day of January and July of each year; which interest payments shall be evidenced by interest coupons to be attached to each bond; both principal and interest payable at the banking house of the National Bank of Commerce of Minneapolis in Minneapolis, Minnesota.

Be it further resolved that each of said bonds, and the interest coupons attached thereto, shall be in substantially the following forms respectively, to-wit:

UNITED STATES OF AMERICA,
No....... STATE OF MINNESOTA, $1,000
COUNTY OF RED LAKE.

PUBLIC DITCH BOND.

Know all men by these presents, that the county of Red Lake, in the state of Minnesota, acknowledges itself to owe and for value received hereby promises to pay to bearer the sum of

ONE THOUSAND DOLLARS ($1,000)

in lawful money of the United States of America, together with interest thereon from the date hereof until paid at the rate of five and one-half per cent (5½) per annum, payable semi-annually on January 1st and July 1st in each year, on presentation and surrender of the interest coupons hereto attached as they respectively mature. Both principal and interest payable at the banking house of the National Bank of Commerce of Minneapolis, in Minneapolis, Minnesota.

And for the prompt payment of this bond, both principal and interest at maturity, the full faith, credit and resources of said county are hereby irrevocably pledged.

This bond is issued by said county for the purpose of providing the necessary funds to defray the expense incurred, and to be incurred, in locating, constructing and establishing a public ditch situate wholly within the limits of said county, and issued by authority of, and in strict accordance with, the provisions of an act of the legislature of the State of Minnesota, entitled:

"An Act providing for the drainage of lands in certain cases, prescribing the powers and duties of County Commissioners and other officers in the premises, and appropriating funds for the payment of assessments against state lands affected thereby, and prescribing penalties for the violation thereof, and repealing certain acts therein mentioned and referred to," approved April 11th, 1901, and all acts amendatory thereof and supplemental thereto.

And it is hereby certified and recited that all acts, conditions and things required by the laws and constitution of the state of Minnesota to be done precedent to and in the issuance of this bond, have been properly done, have happened and been performed in regular and due form and time as required by law; that the ditch on account of which this bond is issued is a public ditch duly established for the promotion of the health, convenience and general welfare of the public, and that the total indebtedness of said county, including this bond, does not exceed any statutory or constitutional limitation.

In testimony whereof, the said county of Red Lake by its Board of County Commissioners has caused this bond to be signed by the Chairman of said Board and countersigned, sealed and recorded by its County Auditor this 2d day of January A. D. 1905.

....
Chairman Board of County Commissioners.
Countersigned and recorded:
....
County Auditor.

(Form of Coupon.)

No. $27.50
On.................19....

The county of Red Lake, Minnesota, will pay to bearer the sum of Twenty-seven and 50-100 dollars, lawful money of the United States of America, at the banking house of the National Bank of Commerce at Minneapolis, Minnesota, for semi-annual interest on its Public Ditch Bond dated January 2d, 1905, No........

....
Chairman Board of County Commissioners.
Countersigned:
....
County Auditor.

Be it further resolved that each of said bonds and each of the interest coupons attached thereto shall be signed by the Chairman of this Board and countersigned by the County Auditor, and each of said bonds shall be sealed by the County Auditor, who shall keep a record of same, and when so executed and recorded said bonds shall be delivered to the purchasers thereof, U. M. Stoddard & Company, upon their paying into the county treasury the amount of their bid therefor, which is not less than par.

Be it further resolved that the full faith, credit and resources of Red Lake county, and of its Board of County Commissioners, be and the same are hereby pledged to provide money for the payment of the principal and interest of said bonds when and as the same become due.

On motion carried unanimously, J. O. Gjerberg was appointed court house janitor for the ensuing year at a salary of $50.00 per month, and the County Auditor was authorized to issue his warrant monthly in favor of said J. O. Gjerberg for that amount.

On motion carried unanimously, the applications of D. Patterson, Thomas Moreau and R. J. McKircher for auctioneers' licenses were granted and licenses ordered issued.

Bids for doing the official county printing for the ensuing year were opened and read, and on motion carried unanimously the bid of John E. King for publishing the delinquent tax list at three cents per description, and for publishing the financial statement, commissioners' proceedings and other official notices in the RED LAKE COURIER at 12½ cents per folio for the first insertion and 6¼ cents per folio for each subsequent insertion was accepted, and his bond fixed at the sum of $3,000.

The following resolution offered by Commissioner Sutor was carried unanimously:

Resolved, That the RED LAKE COURIER, a weekly newspaper printed and published at Red Lake Falls, Minnesota, be and the same is hereby designated by the Board of County Commissioners of Red Lake county, Minnesota, as the newspaper in which the notice and list of real estate taxes in said county remaining delinquent on the first Monday in January, 1005, shall be published, and that the said newspaper be and the same is hereby designated as the official newspaper of said county for the year A. D. 1905.

On motion duly carried a recess was taken till 9 o'clock a. m. January 4.

January 4, 1905, the Board reconvened at 9 o'clock a. m.

All members present.

On motion duly carried the County Auditor and County Treasurer were authorized to transfer $150.00 from the County Revenue fund to the Incidental Expense fund.

On motion duly carried the application of Thos. Kinslea for correction of assessment and abatement of taxes on Lot 6, Block 26, Red Lake Rapids, for the year 1903, was recommended for approval.

On motion carried unanimously the bond of K. M. Hansen as County Treasurer in the sum of $70,000, with the United States Fidelity and Guaranty Co. as surety, was approved.

Engineers' estimates on ditch contracts were allowed as follows:

E. A. Moran, final estimate Lambert Ditch No. 1	$ 27 64
Theo. Halvorson, partial estimate Ditch No. 21	2,000 00

The Board proceeded to examine the books, accounts and vouchers of the County Treasurer, and filed a certified report of the condition of said office with the County Auditor.

On motion carried unanimously the salaries of county officers were fixed as follows:

County Auditor, $1,200;
County Treasurer, $1,200;
Judge of Probate, $825;
County Superintendent of Schools, $1,050;
County Attorney, $1,200.

The Board proceeded to select lists of seventy-two names for grand jurors and seventy-two names for petit jurors to serve for the ensuing year, which lists were duly certified and filed with the Clerk of the District Court.

The following resolution was offered by Commissioner Demann, who moved its adoption:

Whereas, the Board of County Commissioners of Red Lake county, Minnesota, did, on the 21st day of May, 1904, adopt a certain resolution providing for the construction of a steel bridge across the Red Lake River in the city of Red Lake Falls in said county, said resolution providing, among other things, the amount of the second payment for said bridge, which said provision is contained in paragraph two of said resolution;

Be it resolved, That said paragraph two of said resolution be in all things adopted as fully as if said resolution was made at this time, and said paragraph two is made as much a part of this resolution as if the same were herein fully written.

Which resolution was seconded by Commissioner Sutor and adopted by unanimous vote.

The petition of Henry J. Enderle and others praying for the incorporation of certain lands in the Town of Emardville in Red Lake county as the Village of Plummer was presented to the Board, and the same being publicly read, and after due consideration by the Board, Commissioner Falardeau offered the following resolution and moved its adoption. Motion seconded by Commissioner Demann and resolution adopted by unanimous vote:

RESOLUTION.

Whereas, There has been presented and filed with this Board the petition of Henry J. Enderle and others, setting forth that the residents upon certain lands in the county of Red Lake desire to incorporate said lands as a village, and setting forth the boundaries of such territory, with their courses and distances, the quantity of land therein embraced, the number of persons actually residing in such territory (which was ascertained by a census taken in the month of December, 1904, as appears from said petition), and that the name of said proposed village is to be Plummer, and praying that this Board appoint a time and place when and where the electors actually residing upon said lands may vote for or against such incorporation;

Which said petition is signed by more than twenty-five of the electors then resident upon the lands so to be incorporated; and is duly verified under oath by three of said petitioners;

Now therefore, be it resolved, that an election be and the same is hereby called and ordered to be held within the territory of said proposed village of Plummer on Tuesday, the 7th day of February, A. D. 1905, in the front room of the building known as the barber shop of Adolph Nelson, on lot 5 of block 9 of the original townsite of said Plummer, same being situate on Central Avenue on section 9 in town of Emardville in said county, for the purpose of voting for or against the incorporation of said proposed village; said election to be held between the hours of 9 a. m. and 5 p. m. of said day, and the following persons, who are residents and electors of said proposed village, are hereby appointed as inspectors of said election, to-wit: Chas. W. Latta, E. B. Lanager, Adolph Nelson, and

Be it further resolved, that notices of said election, together with copies of said petition, shall be posted in said proposed village as provided by law, at least thirty days prior to the time of holding same, three copies of said petition with notices attached thereto, to be posted in five of the most public places within the limits of said proposed village, and that said petition, its verification and notice of said election be published in the Plummer Pioneer, a newspaper published in said village, for three successive weeks prior to the date of such election.

A recess was taken to 9 o'clock a. m. January 5.

Jan. 5, 1905, Board reconvened at 9 o'clock a. m. with all members present.

In the matter of the petition of Marie Boucher to be set off with her lands from school district No. 76 to school district No. 9 in Red Lake county, the petition having been publicly read and no one appearing to be heard for or against the granting of the same, on motion carried unanimously the following order was made:

Whereas, the petition of Marie Boucher, a legal voter, freeholder and resident of school district No. 76 in this county, representing that she is the owner of the lands hereinafter described, which are situate in said school district and adjoin school district No. 9, and asking that she with her said lands may be set off from said school district No. 76 to said adjoining school district No. 9 for the following reasons:

That the distance from her place of residence on said lands to the school house in school district No. 76 is about two and one-fourth miles, while the distance from her said residence to the school house in school district No. 9 is but a little more than one-half mile, was presented to the Board of County Commissioners of this county at a session of said Board held on the 30th day of September, A. D. 1904, for the action of the said Board thereon; and

Whereas, It was thereupon ordered by said Board that a hearing should be had on said petition at a session of the said Board held on the 5th day of January, A. D. 1905, at the County Auditor's office in Red Lake Falls in said county; and

Whereas, It was further ordered in and by said order that notice of the time and place of such hearing be given by posting a copy of said order in one public place in each of the school districts to be affected by said petition, and by handing to and leaving with the Clerk of each of said school districts, personally, a copy of said order, at least ten days before the time appointed for such hearing; and

Whereas, At the session of the said Board of County Commissioners on said 5th day of January, A. D. 1905, due proof of the posting and service of said order of hearing as therein directed and required, more than ten days prior to said last named date, having been made and filed, said petition was publicly read and considered by the Board with everything which was said by interested parties for or against granting the prayer of the petitioner, and said Board being of the opinion that said petition should be granted, it is hereby ordered and determined, that the said petitioner and the following described lands owned by her, to-wit:

The South-east quarter of Section Fourteen (14) in Township One Hundred Fifty (150), Range Forty-one (41) be and the same are hereby set off from said school district No. 76 to said adjoining school district No. 9 and said lands are hereby made a part of said last named school district for all purposes whatsoever.

By order of the Board of County Commissioners.

Dated the 5th day of January, A. D. 1905.

O. J. JOHNSON,
(Seal) Chairman of the Board of County Commissioners, of Red Lake county, Minn.
Attest: JAMES E. FORD,
County Auditor and Exofficio Clerk of Board.

In the matter of the petition of Adelor Boucher to be set off with his lands from School District No. 76 to School District No. 9 in Red Lake County, no one appearing to be heard for or against the granting of the same, on motion carried unanimously, the following order was made:

Whereas, The petition of Adelor Boucher, a legal voter, free-holder and resident of School District No. 76 in this county, representing that he is the owner of the lands hereinafter described which are situate in said School District, and adjoin School District No. 9, and asking that he with his lands be set off from said School District No. 76 to said adjoining School District No. 9, for the following reasons:

That the distance from his residence on said land to the school house in School District No. 76 is two and one half miles, and that the distance from his residence to the school house in School District No. 9 is one mile, was presented to the Board of County Commissioners of this county at a session of said Board held on the 30th day of September, A. D. 1904, for the action of said Board thereon; and, whereas, it was thereupon ordered by said Board that a hearing should be had on said petition at a session of said Board on the 5th day of January, A. D. 1905, at the County Auditor's office in Red Lake Falls, in said county, and, whereas, it was further ordered in and by said order that notice of the time and place of such hearing be given by posting a copy of said order in one public place in each of the School Districts to be affected by said petition, and by handing to and leaving with the clerk of each of School Districts, personally, a copy of said order at least ten days before the time appointed for such hearing; and, whereas, at the last session of the said Board of County Commissioners, held on said 5th day of January, A. D. 1905, due proof of the posting and service of said order of hearing as therein directed and required, more than ten days prior to said last named date, having been made and filed, said petition was publicly read and considered by said Board, with everything which was said by said interested parties for or against granting the prayer of the petitioner, and said Board being of the opinion that said petition should be granted, it is hereby ordered and determined that the said petitioner and the following described lands owned by him, towit:

The west half of the southwest quarter of Section Thirteen (13), in Township One Hundred Fifty (150), Range Forty-one (41) be and the same are hereby set off from said School District

In the matter of the petition of George Charest to be set off with his lands from school district No. 76 to school district No. 9 in Red Lake county, no one appearing to be heard in the matter on motion carried unanimously the following order was made:

Whereas, the petition of George Chareat, a legal voter, freeholder and resident of school district No. 76 in this county, representing that he is the owner of the lands hereinafter described, which are situate in said school district, and adjoin school district No. 9, and asking that he, with his said lands, may be set off from said school district No. 76 to said adjoining school district No. 9 for the following reasons:

That the distance from his residence on said lands to the school house in school district No. 76 is three miles and the distance from his said residence to the school house in school district No. 9 is but one and one-half miles, was presented to the Board of County Commissioners of this county at a session of said Board held on the 30th day of September, A. D. 1904, for the action of said Board thereon; and whereas, it was thereupon ordered by said Board that a hearing should be had on said petition at a session of said Board on the 5th day of January, A. D. 1905, at the County Auditor's office in Red Lake Falls in said county, and whereas, it was further ordered in and by said order that notice of the time and place of such hearing be given by posting a copy of said order in one public place in each of the school districts to be affected by said petition, and by handing to and leaving with the Clerk of each of said school districts, personally, a copy of said order at least ten days before the time appointed for such hearing; and, whereas, at the said session of the said Board of County Commissioners held on said 5th day of January, A. D. 1905, due proof of the posting and service of said order of hearing as therein directed and required, more than ten days prior to said last named date, having been made and filed, said petition was publicly read and considered by the Board, with everything which was said by said interested parties for or against granting the prayer of the petitioner, and said Board being of opinion that said petition should be granted, it is hereby ordered and determined that the said petitioner and the following described lands owned by him, to-wit:

The East one-half of the South-west quarter of Section Thirteen (13), in Township One Hundred Fifty (150), Range Forty-one (41), be and the same are hereby set off from said school district No. 76 to said adjoining school district No. 9 and said lands are hereby made a part of said last named school district for all purposes whatever.

By order of the Board of County Commissioners.

Dated the 5th day of January, A. D. 1905.

O. J. JOHNSON,
(Seal) Chairman of the Board of County Commissioners.
Attest: JAMES E. FORD,
County Auditor and ex-officio Clerk of Board.

Chairman Johnson announced the appointment of the following committees for the ensuing year:

Finance—Commissioners Shaw, Demann and Sutor.

Road and Bridge—Commissioners Sutor, Demann and Shaw.

Ditch—Commissioners Demann, Sutor and Shaw.

Court House and Jail—Commissioners Demann, Sutor and Falardeau.

Bonds—Commissioners Falardeau, Shaw and Sutor.

Printing—Commissioners Sutor, Falardeau and Shaw.

Engineer's estimates on ditch contracts were allowed as follows:

Gjernes & Hakenson, partial estimate, Garnes & Emardville ditch No. 1	$1500 00
A. F. Anderson, final estimate, Gervais ditch No. 1	535 00
Wm. Eickhoff, partial estimate, Rocksbury & North ditch No. 1	300 00
Wm. Eickhoff, final estimate, Wyandotte & River Falls ditch No. 2	100 27

On motion, carried unanimously, the bond of James E. Ford as County Auditor in the sum of $5,000 was approved.

The following resolution offered by Commissioner Falardeau was adopted by unanimous vote:

Resolved, That Adam Zeh of Red Lake Falls, Minnesota, be and hereby is appointed by this this Board as Appraiser of State Lands in the county of Red Lake in compliance with the provisions of Sec. 6, Chap. 163 of the laws of 1895.

Commissioner Shaw offered the following resolution and moved its adoption:

Whereas, A petition signed by a majority of the legal voters who are residents of Township One Hundred Fifty-three (153), Range Forty-two (42) of Red Lake county, Minnesota, a township containing more than twenty-five legal voters, has been filed in the office of the County Auditor of this county, which petition asks for the organization of said Township as a Town, and

Whereas, It appears to the satisfaction of this Board that all of the requirements of Sec. 914-916, General Statutes of 1894, and acts amendatory thereof and supplemental thereto, have been fulfilled by said petitioners, therefore

Be it resolved, That Township One Hundred Fifty-three (153) North of Range Forty-two (42) West, containing thirty-six sections, according to the Government survey thereof, be and the same is hereby organized as a Town, under the name of BIG BEND, and is hereby fully vested with all the powers, rights and duties by law conferred upon organized towns in the State of Minnesota.

Be it further resolved, That this Board give notice that the first town meeting in the Town of Big Bend be held at the residence of D. J. McNiven on Government Lot 9 of Section Six [6] in said Township 153, Range 42, on Tuesday, the 24th day of January, A. D. 1905, for the purpose of electing one chairman of the board of supervisors, two supervisors, one town clerk, one assessor, one treasurer, two justices of the peace, and two constables, to serve until the next annual town meeting, and that W. E. Wood, D. J. McNiven and W. J. Potts be and the same are hereby appointed as judges of election in and for said Town.

The foregoing resolution was adopted by unanimous vote.

The following resolution was offered by Commissioner Shaw, who moved its adoption:

Whereas, All the territory hereinafter described and being within the limits of Red Lake county, Minnesota, having no Township organization;

Be it resolved, That all that portion of the recently ceded Red Lake Indian Reservation lying south of the Red Lake River, be and the same is hereby designated as Assessment District No. 3, in Red Lake county, Minnesota, and that W. E. Wood be and is hereby appointed Assessor for said District for the year 1905, and that J. K. Wood be and is hereby appointed Road Overseer of said District for the year 1905.

That all that portion of the said recently ceded Red Lake Indian Reservation lying north of said Red Lake River and [illegible] of the Range line between Ranges 41 and 42, and the same is hereby designated as Assessment District No. 4, and that D. J. McNiven [illegible] hereby appointed Assessor for said District for the year 1905, and thet Martin Morl[illegible] hereby appointed Road Overseer of said District for the year 1905.

That all that portion of the said recently ceded Red Lake Indian Reservation lying north of the said Red Lake River and east of the Range line between Ranges 41 and 42, be and the same is hereby designated as Assessment District No. 5, and that Peter Wold be and is hereby appointed Assessor for said District for the year 1905, and that Morgan Vaughan be and is hereby appointed as Road Overseer for said District for the year 1605.

Motion carried unanimously that the foregoing resolution be declared adopted.

A recess was taken to January 6 at 9 a. m.

(Concluded next week.)

Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or Eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at all druggists.

Ayer's

Don't try cheap cough medicines. Get the best, Ayer's Cherry Pectoral. What a record it has, sixty years of

Cherry Pectoral

cures! Ask your doctor if he doesn't use it for coughs, colds, bronchitis, and all throat and lung troubles.

"I have found that Ayer's Cherry Pectoral is the best medicine I can prescribe for bronchitis, influenza, coughs, and hard colds."
M. LODEMAN, M.D., Ithaca, N. Y.

25c., 50c., $1.00. All druggists. J. C. AYER CO., Lowell, Mass.

for Bronchitis

Correct any tendency to constipation with small doses of Ayer's Pills.

INHERITED SCROFULA

When a child I had a very severe attack of Diphtheria, which came near proving fatal. Upon recovery the glands of the neck were very much enlarged, and after the free use of iodine, the right one was reduced to its normal size, but the left one continued to grow—very slowly at first, until it was about the size of a goose egg, which began to press on the windpipe, causing difficult breathing, and became very painful. An incision was made and a large quantity of pus discharged. The gland was removed, or as much as could with safety be taken out. For ten years I wore a little piece of cloth about an inch long in my neck to keep the place open. During this time I had to have it cut open by the doctor every time I took cold or the opening clogged. In the Spring or early Summer of 1884 I was persuaded by my wife to use S. S. S., which I did, strictly in accordance with directions. I took twenty-six large bottles, and was entirely cured, for I have not suffered since that time. B. S. RAGLAND,
Royal Bag Mfg. Co., Charleston, S. C.

Only a constitutional remedy can reach an hereditary disease like Scrofula. When the blood is restored to a normal condition and the scrofulous deposits are carried off there is a gradual return to health. S.S.S. is well known as a blood purifier and tonic. It is the only guaranteed, strictly vegetable remedy sold. If you have any signs of Scrofula, write us and our physicians will advise you free.

H. W. ANDERSON JEWELER & OPTICIAN..

Red Lake Courier.

Printed Every Thursday Evening at Red Lake Falls, Minnesota.

By JOHN E. KING.

$1.00 Per Year, in Advance.

The legislature has run amuck, and only the report of the code revision committee can set the wheels in motion.

It is exceedingly lamentable that some questions have only two sides. This fact limits the straddling agility of the esteemed Gazette.

Here's hoping the paper trust is busted. And there are enough other octupuses to keep the attorney general busy for several days.

After each frightful reverse to Russian arms some awful stories are sent out from St. Petersburg as to what Russia is going to do to Japan.

Burning cotton down south may not be a wise thing to do, but in any event it is better than burning negroes. It seems that the old-line southerner must burn something or other.

With the exception of Colonel Neff of the Lake Crystal Union the newspaper boys seem to have recovered from the effects of the late political unpleasantness. The Colonel refuses to be comforted.

It is said that after the surrender of Port Arthur the Russian prisoners were enabled to quell their appetites. Undoubtedly an appetite that hadn't been satisfied within six months needed quelling.

The Princeton Union contains the following timely editorial: "If a whole lot of people would only resolve to cultivate more brain and less booze capacity during the coming year, what a step toward reform there would be."

The state game and fish commission estimates that between 6,300 and 7,000 deer and moose were killed in Minnesota during the open season for big game, which closed Dec. 20. As far as can be ascertained only two caribou were killed.

The United States supreme court holds in a recent decision that an obligation to pay alimony and allowance to a wife and children is not in the nature of an ordinary debt and, therefore cannot be discharged in bankruptcy. This decision is certainly a just one.

Abbott Blunt, formerly of the Minneapolis Times staff, is now editor-in-chief of the Duluth News-Tribune. With two such bright paragraphers as Mr. Blunt and Mary McFadden, the editorial page of that paper will fairly scintillate with brilliancy.

Four more editors landed jobs at the hands of Governor Johnson the other day. Milton Trenham of Alexandria and W. G. Graham of Long Prairie get in the dairy and food department, Alvah Eastman of St. Cloud is re-appointed on the normal board, while C. F. McDonald of St. Cloud is made a director of the Soldiers' home.

Alva Adams, the Democratic candidate for governor of Colorado, who was declared elected by a plurality of 10,000, has at last been given his seat by the Republican legislature. There is no assurance, however, that he will hold it, as a contest is to be brought by ex-Governor Peabody, and the merits of the case will be decided by a legislature that is decidedly unfriendly to Adams.

The Koch murder case is still in progress at New Ulm, and affords the most important topic of the day for the newspaper. The attorneys for the state seem to be weaving a strong chain of circumstantial evidence about the accused. There is little likelihood, however, of Dr. Koch being convicted in his home county and a disagreement of the jury is anticipated. This will mean a new trial in some other county of the state, and a big bill of expense.

The present year falls behind the last in railway building by 25 per cent. New lines contructed during the year amount to 4,168 miles, against 5,786 a year ago. Minnesota shares in the increased trackage by extensions and building on ten lines, aggregating 271,33 miles. The heaviest building has been in the Southwestern states this year. According to the last edition of Poor's Manual, the railway mileage of the United States at the close of 1903 was 207,784 miles. The addition of the track laid during the past year makes the total main line mileage of the country in round numbers 212,000 miles.

FIGHTING THE TRUSTS.

St. Cloud Times: The governorment is after the paper trust, and all of the newspapers will back the administration, for all are affected. Here is an instance of how it works: Formerly we bought our paper direct from the superintendent of the mill at Little Falls. Now we have to procure it from the General Paper Co., at Chicago; or, if from second hands, the order goes to the G. P. Co. It is stated from Washington that the Tobacco Trust, another gigantic combination in restraint of trade, is to be proceeded against.

President Roosevelt will not be a candidate for re-election. He is in the position of a free lance. His friends say that he is independent, determined and honest in his endeavors. If he wages war on the trusts to the bitter end, he will win the thanks of the whole people—except the few trust nabobs.

NEWSPAPER ADVERTISING.

A merchant in a neighboring town states that his advertising last year cost him forty cents on every hundred dollars worth of merchandise sold. He used a half page together with a good showing of local liners and was represented in every issue of the leading paper. This year he has contracted for a full page and declares that he shall continue to advertise as long as people continue to read newspapers. The biggest and best merchants in the world believe in newspaper advertising. The man who ignores it may succeed for a time, but he will have to give way to the competitor who makes better use of his opportunities. When you find a merchant who does not advertise, you will find one who cheats the Lord by failing to contribute to the support of his church, or if holds anything it is not half as much as a laboring man's donation.

THE WORLD NOT SO BAD.

The St. Paul Globe contains the following item, which proves that this old world of ours is not altogether bad, and that the hearts of many good people beat in sympathy with the poor and unfortunate:

Three miles through the blustering storm, wading through drifts up to her waist, and almost knocked flat by the icy wind, little Ruth Puffman, eight years old, made her way from her home, 285 Colborne street, to the Relief society yesterday, all for the sake of a new pair of shoes.

Through some mistake the little girl did not get a ticket to the different entertainments for children on Christmas and received no clothing of any kind. But her faith in the Relief society was strong, and yesterday she borrowed her mother's shoes and started on a trip of three miles through the raging storm.

The little one was nearly exhausted when she reached the Relief society, and was faint from the cold. She was immediately provided with a good pair of shoes and rubbers. Giving the plucky child enough money to pay her street car fare, Secretary Hutchins started her for home, after loading her down with oranges and candy.

THE RURAL SCRIBE.

Minneapolis Journal: The country newspaper man seems to be coming into his inheritance. There is a newspaper administration at work over in the new capitol, and the way it is passing around the good things to the brethren of the fourth estate is warming to the heart.

First, John A. Johnson of the St. Peter Herald, the country newspaper man who now sits in the governor's chair, named Frank A. Day of the Fairmont Sentinel as his private secretary. The only thing against Colonel Day is that he publishes a daily paper, but he is doing it in a town of 3,500 people, so his fall must be laid to his own indiscretion and not to any discreditable hankering for city life.

Then the governor and his new managing editor began to pass out the plums to their old associates in the editorial association. With a fine disregard for the feelings of Dan Shell, they made John E. King of the Red Lake Falls Courier state librarian. Then followed E. J. Lynch of the St. James Journal, deputy labor commissioner. Yesterday Milton Trenham of the Alexandria Citizen and William Graham of the Long Prairie Democrat were placed on the staff of the dairy and food department. The rival St. Cloud editors were placated at the same instant, Alvah Eastman of the Journal Press being reappointed on the normal board, and C. F. McDonald of the Times being placed on the board of trustees of the Soldiers' home.

W. H. Williams, the new labor commissioner, is a veteran newspaper man, with the instincts of a country editor, but fate unhappily cast him adrift in a large city.

The Republican legislature is almost as liberal as the Democratic gvoernor in its treatment of the editorial craft There are half a dozen newspaper men in the house membership to start with, including Elmer Adams of the Fergus Falls Journal, P. E. Dowling of the Eveleth Star, and O. E. Hogue of the Benson Review. That worthy wight, Julius Schmahl of the Redwood Gazette, once more calls the roll like a past master, and Knute O. Sandum of the Bricelyn Sentinel sits at his elbow. Over in the senate chamber the desk force is guided as of old by S. A. Langum of the Preston Times and G. B. Wollan of the Glenwood Gopher helps him to keep the books. The city newspaper man, with envious eye, looks down from his coign of disadvantage on all their magnificence, and makes figures on his cuff relative to the cost of a Washington press and a handful of type.

Soon there will be a meeting of the editorial association, and the scattering editors who are not officeholders will come in and shake hands with the members of the permanent colony in St. Paul. Their turn may come some day.

"Flinch," "Somerset," and all the new card games at The Courier stationery store.

Educational Column.

Conducted by E. W. Chamberlain, Superintendent Red Lake Falls Schools.

To the teachers of Red Lake county, and all interested in the advancement of our schools:

It is with much hesitation that I untertake the responsibility of conducting an educational department in our local papers. And did I not feel certain that the educators of the county, and all interested in education, would rally to my support, I would not have consented even to attempt such a thing.

If I were to name the three institutions in our midst that are most proficient in shaping public opinion, and furthering civic improvement, the local papers would surely be in the list. Nor have they yet approached to the position they might occupy in this shaping of opinion. Yet they are not at fault.

In few places have I found the local papers indifferent to any attitude of civic reform. In many places have I found them begging for some one to aid them in arousing the community to united action along some definite line.

As a test of this attitude of our local papers, witness this opening of their columns to us and the desire that we use them to promote the cause of education in our county. It will not be their fault if we fail to make them a power for good to the cause of education in Red Lake county.

In undertaking the direction of this department I do not promise to become responsible for a column of matter each week in each local paper. I only promise to become what the name implies, a director or supervisor of the work. If the department becomes a successful and continuing department it will be because the educators of Red Lake county rise to the dignity of the opportunity offered to them, and furnish the necessary material for the department.

But that you may be prepared to aid in the work I will give a general outline of the manner in which I intend to conduct the department.

At present I think it best to devote one week to the discussion of one subject, or one division of school work, and will now announce that next week we will take up language in the grades. The next week will be devoted to history below the High School. I will endeavor to announce two weeks in advance what subject we will take np. I shall not hesitate to clip desirable articles from the educational publications that find their way to my desk.

Teachers and all interested in educational work, rally to the support of this most worthy cause. Do not force us to fill the column with long discussions or long articles. Send us a good clear statement of any little device you have found helpful in teaching language in your school. Rural teachers, do not let the department become a city and village school department. Become helpful to one another by telling thru the department how you met and overcame the trials common to us all. Do not think that because you have only fifteen or twenty pupils in some out-of-the-way place that no one cares to hear from you. There are many others in just such places who are daily groping among just such difficulties as you have successfully solved, and they would be pleased to receive the aid.

Sickening Shivering Fits

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists, price 50c, guaranteed.

Railroad Construction.

St. Paul Pioneer Press: The year just closed proved to be a distinctly poor one in the matter of railway building, as every one expected it would be as a result of business conditions during the first half of the year. According to the Railway Age only 4,168 miles were added to the railway mileage of the country against 5,786 miles in 1903 and 5,684 miles in 1902. Not since 1898, when only 3,083 miles were built, has there been less activity.

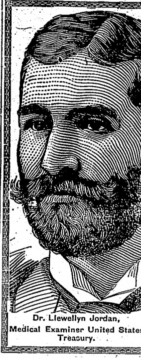
The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Eichert.

MEDICAL EXAMINER

Of the United States Treasury Recommends Pe-ru-na.

Other Prominent Physicians Use and Endorse Pe-ru-na.



Dr. Llewellyn Jordan, Medical Examiner United States Treasury.

Dr. Llewellyn Jordan, Medical Examiner of the U. S. Treasury Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Fellow sufferers, Peruna will cure you."

A constantly increasing number of physicians prescribe Peruna in their practice. It has proven its merits so thoroughly that even the doctors have overcome their prejudice against so-called patent medicines and recommend it to their patients.

Peruna occupies a unique position in medical science. It is the only internal systemic catarrh remedy known to the medical profession to-day. Catarrh, as everyone will admit, is the cause of one-half the disease which afflicts mankind. Catarrh and catarrhal diseases afflict one-half of the people of United States.

Robert R. Roberts, M. D., Washington, D. C., writes:

"Through my own experience as well as that of many of my friends and acquaintances who have been cured or relieved of catarrh by the use of Hartman's Peruna, I can confidently recommend it to those suffering from such disorders, and have no hesitation in prescribing it to my patients."—Robert R. Roberts.

Dr. R. Robbins, Muskogee, I. T., writes:

"Peruna is the best medicine I know of for coughs and to strengthen a weak stomach and to give appetite. Besides prescribing it for catarrh, I have ordered it for weak and debilitated people, and have not had a patient but said it helped him. It is an excellent medicine and it fits so many cases.

"I have a large practice, and have a chance to prescribe your Peruna. I hope you may live long to do good to the sick and the suffering."

Dr. M. C. Gee, writes from 513 Jones St., San Francisco, Cal.:

"Peruna has performed so many wonderful cures in San Francisco that I am convinced that it is a valuable remedy. I have frequently advised its use for women, as I find it insures regular and painless menstruation, cures leucorrhœa and ovarian troubles, and builds up the entire system. I also consider it one of the finest catarrh remedies I know of."—M. C. Gee, M. D.

Catarrh is a systemic disease curable only by systemic treatment. A remedy that cures catarrh must aim directly at the depressed nerve centers. This is what Peruna does.

Peruna immediately invigorates the nerve-centers which give vitality to the mucous membranes. Then catarrh disappears. Then catarrh is permanently cured.

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Ask Your Druggist for Free PERUNA ALMANAC for 1905.

The Psychology of Names.

The first and most far-reaching advertisement for a book or product of any kind is its name. A successful name rests on the simple principle that underlies all advertising; it should awaken interest, stick in the memory and truthfully express the significance of the article itself. We believe the name of golden grain belt beer fulfills these three purposes. Especially does it signify the rich, pure golden quality of the beverage itself. It's as fresh as the golden grain from which it gets its strength and delicacy of flavor. Order of your nearest dealer or be supplied by Alex- Thompson, Crookston.

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and to-day she is well and strong." It kills the germs and of all diseases. One dose relieves. Guaranteed at 50c and $1.00 by All Druggists. Trial bottle free.

The ladies' aid society of the Presbyterian church will meet with Mrs. Henry Hennemuth next Wednesday afternoon, January 18, from 4 to 6. A ten cent lunch will be served and all of the ladies are invited to be present.

The Minnesota Immigration society is in session at St. Paul this week. Auditor Ford is the vicepresident for Red Lake county, but owing to a rush of county business is unable to be in attendance at the meeting.

Billy Krueger's bus line has been handicapped this week by the fact that one of his horses has been sick. A veterinary from Crookston was sent for Tuesday, but the animal passed peacefully to horse heaven yesterday.

Dr. J. C. Wilkinson is on the way to recovery from the attack of typhoid fever. The fever has about disappeared, and his strength is returning rapidly. Mrs. Wilkinson is much better, being able to be around the house again.

"Queen quality" reigns only as a shoe for particular women—for women who wish that certain gracefulness in walking which can only be attained by a perfect-fitting shoe. Prices very moderate—$3 and $3.50. For sale by Garceau & Zaiser.

The Crookston Journal is still putting on metropolitan airs. The latest is a walk-out of the printers. Crookston has a typographical union, and it seems this organization has been making rules not relished by the printing offices.

Parents should be careful that their children's feet do not become flat-footed or deformed by wearing poorly-made shoes. "Red School House" shoes are made correctly. School bags free with every pair of shoes sold.—Garceau & Zaiser.

Miss Dora Eikhoff, an employee of the Crookston Journal, was an over-Sunday guest at the home of Mrs. B. Zaiser. Miss Eikhoff was formerly an employee of THE COURIER and has many friends in Red Lake Falls who were glad to see her again.

Mr. and Mrs. S. L. Lewis observed the first anniversary of their marriage by giving a large dinner party last Sunday to the parents, brothers and sisters of Mrs. Lewis and their families. It was a most delightful occasion for all of the guests.

Mrs. H. N. Johnson arrived Friday evening for an extended visit with her parent, Mr. and Mrs. A. P. Toupin. Mr. Johnson came Saturday night for a stay of a few days. The Red Lake Falls people were all glad to receive a from the Johnson.

Rev. Father Fayolle and Paul Berthon will leave next Monday for Pass Christian, Miss., where they will spend a month or six weeks of the winter season. This is one of the popular winter resorts of the South, and no doubt these gentlemen will enjoy their outing.

NORTHWESTERN YEAST CO.
CHICAGO, ILL.

Representative Simons fared well at the hands of Speaker Clague. He is given the chairmanship of the committee on banks, one of the most important assignments on the list. He is also a member of the committee on drainage, besides several other minor assignments.

Treasurer Hansen visited over Sunday with his family at Thief River Falls. He expects to move the folks down here as soon as the weather moderates. The Red Lake Falls people will give cordial welcome to them as they will be valuable additions to the social life of the city.

F. C. Lang, traveling passenger and freight agent of the Omaha railway, was up from St. Paul this week in the interest of his road. Mr. Lang represents one of the best railroads in the country, and the lines between St. Paul, Chicago and Omaha receive a generous patronage from this end of the state.

County Attorney Germo was called to Thief River Falls Tuesday to prosecute an alleged criminal case. A farmer living near town was accused of stealing a neighbor's hay, but the facts developed that he had simply made a mistake in taking more of the hay than entitled to. Mr. Germo moved to dismiss the action, which was done.

John Kotschever is again employed at Joseph Helm's machinery emporium after a year's absence, during which time he has been the manager of Matt Skala's big farm north of town. Mrs. Kotschever and the children are residing on their claim in Polk county. John's many friends will be glad to see him back at his old stand.

A preliminary meeting for the organization of a choral union was held yesterday. The enterprise is under direction of Prof. Andrew Onstad, director of the Red Lake Falls band, which insures a musical success. Our people remember with pleasure the cantata given last year, and will give generous patronage to the event this year.

Ed. H. Chase, the new manager of THE COURIER arrived last Friday from Armstrong, Iowa, and is already engaged in his new work. Mrs. Chase and son will come up in the early spring, when the family will go housekeeping. Mr. Chase is a competent newspaper man, and we are satisfied he will prove a valuable citizen of Red Lake Falls.

Berthon & Armstrong are advertising a big reduction on men's suits and overcoats. Every suit ranging from $7 to $9 will go at $6; all suits ranging from $10 to $15 are priced at $8.50; and all suits ranging from $18 to $22 will go at $15. Boys' clothing is marked down 33⅓ per cent. For further particulars look up their big advertisement on the first page.

Ralph Converse, who has been an employee of THE COURIER office for the past month, left Monday evening for Crookston, where he will enter the Crookston college to complete a course in type-writing and stenography. Ralph has already had several months' schooling in this line at Fergus Falls and expects to complete his education in about two months.

We wish to announce to the ladies of Red Lake Falls and vicinity that we have secured the exclusive agency for the sale of "Queen Quality" shoes, a line which you are no doubt acquainted with by reason of merit and extensive advertising in the women's magazines. In buying our initial stock in assorted widths and exclusive styles we shall aim to fit the feet properly.—Garceau & Zaiser.

The farm residence of Mrs. Anna M. Childs, in Poplar River township, was totally destroyed by fire last Friday. All the members of the family were away from home on a visit at the time and nothing was saved from the flames. The loss is quit serious one, coming at this season of the year, and considering that all of the family clothing and supplies were destroyed. There was no insurance on either the house or contests.

Button's Business College, Crookston, Minn., has more graduates working in that city as stenographers and book-keepers at a good salary than all other business colleges combined and offers $100 to any one who will prove the contrary.

The Busy Store's
Stock-Taking Sale

After taking inventory we find many odds and ends accumulated from the tremedous volume of business done in the economical supply-center during the last four months; we have decided to sell these goods at a deep cut in price.

This Sale is a great money-saving opportunity.

Careful, economical buyers will instantly realize the advantage of these unparalled offerings.

Garceau & Zaiser.

Last week a rumor was published in a local paper that C. F. Johnson had retired from the Northern Minnesota Milling company. Mr. Johnson states that there is no truth in the rumor and that he still retains all his interest in the company, although there has been some talk of a dissolution.

Last Friday the board of county commissioners passed a resolution in favor of the county paying the expense of the Treasurer Hansen's bond. Mr. Hansen is required to furnish a fidelity bond in the sum of $70,000, and the cost of the same is $387.50 for the two years. As the people of the county are the ones most vitally interested it is no more than fair that they should stand the expense. The action of the board will be generally approved.

"Big Bend" is the name of the newest township on the map of Red Lake county. It was created Friday by the board of county commissioners and embraces Township 153, Range 42—just east of Rocksbury and north of Wyandotte. An election is to be held January 24 by the residents of this territory to choose township officers. There is much good land in this township and is quite well settled. Doubtless four or five more towns will be organized during the present year.

Fake chart agent are reported to be "doing" the county. District school boards are warned to have nothing to do with them. If you desire to have these charts, write to our county superintendent and he will refer you to reliable houses where fair treatment can be depended upon. As far as this chart propositionis concerned, however, there is much nonsense connected with it, very few of these combinations, claimed by the agents to be indispensable in the school room, ever proving to be of any real, practical value to instructor or scholars.

The board of county commissioners last Friday decided to buy the building used as a court house, and the offer of $4,000 for the property was accepted by the owner, Ernest Buse. It seems that it was up to the commissioners to do something, as the owner of the building demanded an increase of rental from $480 to $700 per annum, and it was decided that it would be much cheaper to buy the property. A payment of $2,400 on the property will be made at once, and the remainder is in the shape of a mortgage which will necessarily have to be cared for by the board.

M. O. Sortedahl is at Bemidji this week on a business mission.

O. T. Tandberg and family left Tuesday for Thief River Falls, where they will make their future home. Mr. Tandberg will assume his new duties as cashier of the First National Bank at once.

Joseph Lizotte mourns the loss of $15 in cash, a gun and a razor, carried away by a Swiss that has been working for him for the past three weeks. The fellow was caught and Mr. Lizotte is in town today to procure a warrant for his arrest.

At a meeting held last evening to organize a choral union Mrs. E. F. Marshall was elected president, Leland Healy treasurer and Prof. A. Onstad director. Another meeting will be held next Wednesday night at the K. of P. hall, and all are invited to attend and join the union.

The Thief River Press has been sold to Frank E. Packard, formerly managing editor of the Crookston Times. Mr. Packard is one of the ablest and best-known newspaper men in the valley, and is sure to set a new pace for Thief River journalism. He gives out that a daily will be established after a while. S. W. Bagley, the retiring editor has been in charge of the Press for nearly four years, and has made a success of the paper. THE COURIER sincerely hopes that his retirement form newspaper work will not mean his removal from the county. We cannot afford to lose him.

A Narrow Escape.

Mr. Henry St. George, of Elm Grove, Wis., thought that he was permanently crippled. Sciatica rheumatism had such an iron grip on him that he thought that he would never be able to walk again, but through the aid of Gloria Tonic he was completely cured, after high priced Doctors failed. Sold by W. A. Schreiter.

Influence for Good.

I am of the opinion that it is the duty of every good citizen to support societies like the Modern Woodmen of America. They are "a very present help in time of need," and in every community in which a Camp is in operation it is powerful influence for good.—Hon. A. F. Bliss, Gov. of Michigan.

Four Hundred Babies.

St. Vincent's Infant Asylum, Chicago, shelters homeless waifs awaiting adoption, and there are nearly 400 babies there. Sister Julia writes: "I cannot say too much in praise of Foley's Honey and Tar for coughs, colds, croup and whooping cough." Contains no opiates and is safe and sure. Ask for Foley's Honey and Tar and insist upon having it, as it is a safe remedy and certain in results Refuse substitutes. Sold by A. L. Reichert.

A Convenience.

A checking account with a bank is a great convenience—not only to the business and professional man—but to the farmer as well. More people would keep such an account if they knew just how to go about it. We gladly assist those who need help in getting started, even tho the account be small.

LITTLE PROSPECT FOR EARLY PEACE

BOTH RUSSIA AND JAPAN APPARENTLY DETERMINED TO PRESS THE WAR.

The Delivery of Russian Prisoners at Port Arthur Is Completed—Total Number Is Over 24,000—Gens. Fock and Smirnoff Not Killed.

London, Jan. 8.—A dispatch to the Daily Express from St. Petersburg says that at a meeting of the council yesterday, presided over by the czar, it was decided to continue the war with renewed energy. Gen. Kuropatkin is to be reinforced by 200,000 men before the end of February. The transport capacities of the transsiberian railway are to be increased by the use of a new type of car. It also was decided to recall Admiral Rojestvensky immediately. The czar and the council were unanimous in declaring, it is said, that the closing of the war now would be incompatible with Russia's dignity. Determination was expressed to continue hostilities until Russian arms had achieved a decisive victory.

Japan's Attitude.

Washington, Jan. 7.—Japan has made no overtures for peace to Russia, directly or indirectly, through the United States or any other power and contemplates no such action, and now that Port Arthur has fallen proposes to press the war in the north all the more vigorously by reenforcing the Japanese armies at Liaoyang with the greater part of the troops which have been besieging Port Arthur. This in brief represents the views of Mr. Kogoro Takahira, the Japanese minister.

"The fall of Port Arthur," said the minister, "is but a step in the war which Japan is waging for a principle. Certainly it is an important step, but nothing could be further from the truth than the assumption that because Japan has captured a stronghold, the fall of which has long been expected, the Japanese government will now make overtures for peace. Japan is too busy fighting. We are as much in earnest to-day as we were at the outset of the war. We have made no overtures for peace either directly or indirectly nor have the powers approached us with any idea of intervention."

Order Prevails.

Tokio, Jan. 5.—The following report was received from Gen. Nogi at three o'clock Wednesday afternoon: "Order is maintained at Port Arthur by the officers. The people are quiet. Our minute investigation was not finished until Tuesday night. The total number of inhabitants is about 35,000, of whom 25,000 are soldiers or sailors. The total number of sick or wounded is 20,000. Common provisions and bread are plentiful, but there is a scarcity of meat and vegetables. There are no medical supplies at Port Arthur. The Japanese are strenuously succoring the people. The capitulation committees are pushing their respective works."

Delivery of Prisoners Completed.

Washington, Jan. 9.—The Japanese legation received the following cablegram from the foreign office at Tokio under date of Sunday: "Gen. Nogi on Sunday reports delivery of Russian prisoners under capitulation was completed on Saturday. The total of the prisoners were 878 officers and 23,491 men, whereof 441 officers and 229 orderlies gave parole so far. Gen. Smirnoff, Gen. Fock, Gen. Gorbatvosky and Admiral Willmann referred to be sent to Japan as prisoners."

Will Go to Japan.

Headquarters Japanese Army at Port Arthur, via Fusan, Jan. 9.—Lieut. Gens. Fock and Smirnoff have decided to go to Japan as prisoners of war. Gen. Smirnoff was in command of the forts at Port Arthur and Gen. Fock commanded the fourth division of the army there. Gen. Fock says he will drill his men in Japan. Fifty per cent. of the Russian officers will go to Japan and share with their men the fate of prisoners of war.

Reports previously received were to the effect that both Lieut. Gens. Fock and Smirnoff had been killed at Port Arthur. The reports prove to be untrue. Gen. Fock, however, was wounded.

Celebrate with Bombardment.

Gen. Oku's Headquarters, via Fusan, Jan. 9.—The Russians, in celebrating their Christmas eve, began a heavy rifle fire at ten o'clock Friday evening opposite Linihimpu. Their artillery joined in at 11 o'clock, and kept up two hours of the hardest firing known since the Shahke river was reached, spreading along the whole front of Gen. Oku's army. The Japanese sustained no damage and refused to reply. They simply moved into their trenches, preparing to repulse an expected attack, which was not attempted. There were no casualties among the Japanese troops.

Tragedy in Minnesota.

Virginia, Minn., Jan. 9.—John Phillips, aged 33, shot and killed Ruth Phillips, aged 16, of this city, at nine o'clock Sunday morning. The murderer and his victim were distantly related. Phillips was in love with the girl, but she did not respond to his love-making.

Crime of an Illinois Farmer.

Joliet, Ill., Jan. 9.—William Rapson, after a family quarrel at the Higginbotham farm, Saturday fatally shot his son Herbert, after which the old man called Herbert's wife out to the barn, shot and killed her, and then shot and fatally wounded himself.

Mayor Drops Dead.

Nebraska City, Neb., Jan. 9.—Mayor H. H. Bartling dropped dead because of heart failure. He was at the head of the Bartling Grain company and a pioneer of the city and state.

THE KOCH TRIAL.

Doctor in an Adjoining Office Tel of Missing Strychnine Tablets.

New Ulm, Minn., Jan. 10.—Should Dr. G. R. Koch be convicted of the murder of Dr. L. A. Gebhardt, the verdict of the jury will be based as much as anything on the testimony of Dr. O. C. Strickler, offered yesterday afternoon. The physician evidently was an unwilling witness, but his conduct on the stand was everything that could be desired of a straightforward man.

Dr. Strickler is a close friend of Dr. Koch, occupying adjoining offices with the dentist and with Dr. Vogel, another physician. They used the same reception room. They saw much of each other both during and outside office hours, Dr. Strickler for three years having been like an older brother of Dr. Koch.

The physician was called by the state to testify as to 85 or 90 sulphate of strychnine tablets which he missed from his instrument case nearly a month before the murder, and about five weeks after the bottle of poison was sent to Dr. Gebhardt. He was requested also to testify as to Dr. Koch's manner after the murder, the injuries to Dr. Koch's hands, and conversation which the physician had with the accused man relative to the murder.

Dr. Strickler's testimony did not directly connect Dr. Koch either with the murder or the sending of the poison, but it was developed that the strychnine tablets were available to Dr. Koch.

The cross-examination of Dr. Strickler was conducted by Mr. Abbott and lasted for half an hour. He brought out that Dr. Koch was in his ordinary spirits after the murder until he learned that he was suspected; that he attended to his patients up to that time, and that nothing out of the ordinary was noticeable.

The second feature of the day was the attempt of the state to prove that the typewritten address on the poison package was written on a certain make of machine in the insurance office across the hall from Dr. Koch's office.

Two expert witnesses were brought on from St. Paul who testified that a typewriting machine with letters out of alignment has an individuality which cannot be duplicated on another machine.

Fatalities at Port Arthur.

Tokio, Jan. 10.—In well-informed circles it is estimated that the original garrison of Port Arthur numbered 38,000 to 40,000 men, including sailors. The killed, those who died of sickness and those who are missing are placed at about 10,000.

It is believed that the Russian casualties will total about 25,000.

The Japanese, who express great admiration for Gen. Fock and other officers for refusing parole and standing by the men of their army, are busily preparing to receive the Russian prisoners from Port Arthur. The first batch of 10,000 are expected to arrive at Nagasaki and Shemonoseki shortly.

Free Seed Wheat.

Washington, Jan. 10.—Secretary of the Treasury Shaw will send a request to congress recommending free seed wheat from Canada.

Speaking of the recent request in behalf of Minnesota farmers, who want seed wheat this spring from Manitoba, Secretary Shaw said yesterday:

"There is a provision of the law whereby grass seeds are imported free of duty, but nothing providing for the free admission of grain. I shall soon send a communication to Speaker Cannon and the president of the senate recommending a provision, authorizing the department to refund the duty on imported wheat used for seeding."

More Land Frauds.

Washington, Jan. 10.—Alleged land frauds have developed in South Dakota, in addition to California, Oregon, Idaho and Montana, and the department of the interior has begun to investigate.

The conditions alleged to exist in south Dakota have been called to the attention of the department by several members of congress, and it is said at the department that congress may start an investigation of its own.

Convicts Killed.

San Francisco, Jan. 10.—News from Manila received tells of an attempt of about 500 convicts at Bilibid prison to attempt to break from jail. It occurred on the afternoon of Dec. 9 and resulted in the killing of sixteen of the prisoners and the wounding of forty others.

Six of the wounded were not expected to live and twenty-six were in a critical condition.

Injured While Coasting.

Dubuque, Iowa, Jan. 9.—A bobsled bearing a party of fifteen crashed into a fire engine, fatally injuring five.

They are W. C. Reynolds, Horace Willmers, Iva Collinson, Grace Schwind and Mildred Frudden.

One of the horses suffered a broken leg, and the engine, which was on the way to a fire, was overturned.

TWIN CITY MARKETS.

Minneapolis, Jan. 9.

Wheat—No. 1 northern, $1.17½; No. 3 northern, $1.15; May, $1.18½. Oats—No. 3 white, 28c. Corn—No. 3, 39c. Rye—No. 2, 71c. Barley—No. 3, 40c. Flax—$1.23. BISHOP SPALDING IS SERIOUSLY ILL

WELL-KNOWN PRELATE IS SUFFERING FROM STROKE OF PARALYSIS.

Attacked by the Disease in His Residence at Peoria, Ill.—His Condition, While Serious, Is Not Considered to Be Dangerous.

Peoria, Ill., Jan. 7.—Bishop John L. Spalding is at his residence on North Madison avenue, this city, suffering from a severe paralytic stroke which attacked him about four o'clock Friday afternoon. While his condition is said not to be dangerous, it is serious enough to keep his brother, Dr. Leonard H. Spalding, by his side continually. The entire left side of the bishop's body is affected, and for several hours after the stroke he was unable to speak. Leeches applied to his head resulted in bringing back in a measure his speech, and in the evening he was able to converse with those who were with him. The bishop is 65 years old, and while he has been in fair health practically all his life, his age tends to add to the fear of his friends for another and more serious attack. He complained Friday morning to Father J. F. O'Reilly that he was suffering with a slight attack of neuralgia, but thought nothing more about it. Shortly before four o'clock his housekeeper was startled by the sound of something falling in the bishop's room. She ran hastily to the place, and found him lying on the floor partially unconscious and unable to rise.

BISHOP SPALDING.

Shows Improvement.

Peoria, Ill., Jan. 9.—There is a noticeable improvement in the condition of Bishop John L. Spalding, the Catholic prelate who was suddenly stricken with paralysis at his residence Friday afternoon. He has regained somewhat the use of his left arm and speaks with more freedom. The remainder of the left side of his body, however, he is unable to use at all.

PEABODY LOSES.

Alva Adams Is Seated as Governor by the Legislature of Colorado.

Denver, Col., Jan. 9.—Alva Adams is the choice of the people of Colorado for governor, and he will be inaugurated. This was announced shortly before midnight Saturday night, at the conclusion of the canvass of the vote of the last election by the legislature in joint session. The returns showed that Adams had a majority over Peabody of 9,774. A whirlwind of cheers greeted the decision that brought to an end the bitter contest that has lasted almost two months. The announcement that all the other republican candidates for state offices had been elected caused no excitement, for the fact was known before. Under the terms of the compromise agreement reached by the various factions in the legislature earlier in the day, Gov. Peabody is to file no notice of contest with the legislature until after Mr. Adams is inaugurated. There is some doubt, indeed, whether Gov. Peabody will undertake a contest.

Takes His Medicine.

Savannah, Ill., Jan. 7.—William Myers, awaiting a second trial here for the murder of Wayland F. Bennett, of Thomson, in September, appeared before Judge Heard and withdrew his plea of not guilty, entered at the trial in November. He then plead guilty to the charge of murder and was sentenced to the penitentiary for life at hard labor.

Taylor Appointed Judge.

Washington, Jan. 6.—President Roosevelt has appointed Robert W. Taylor, formerly a representative in the house from the old McKinley district, as United States district judge of the northern district of Ohio to succeed Francis J. Wing, resigned.

Killed by Penknife Stab.

Des Moines, Ia., Jan. 7.—Tom Bradley, of Marquisville, died at the Mercy hospital of a severe abdominal wound inflicted by a penknife, and Beverly Walker, his assailant, is held in the county jail on the charge of murder.

Six Injured.

Ashland, Wis., Jan. 9.—While the fire department was fighting a fire in the barn of George Wilkinson, Sunday, a quantity of dynamite exploded in the burning building, seriously injuring four firemen and two spectators.

Wants Envoy to Morocco.

Washington, Jan. 6.—Secretary Hay, through the secretary of the treasury, has asked congress to appropriate $7,500 annually to provide for an envoy extraordinary and minister plenipotentiary to Morocco.

MINNESOTA NEWS.

Street Car Panic.

A panic was created in a Seventh street car at Seventh and Franklin streets, St. Paul, by the burning of the motor underneath the car. About ninety persons were in the car at the time and several were badly bruised and cut about the arms and hands.

Jacob Pinger, aged seventeen years, was taken to the city hospital suffering from loss of blood from cuts on the hands. Later he went to his home, 681 Randolph street. Mrs. Geo. Dupree was also cut about the arms and hands while climbing through a window. She was not seriously injured and was taken to her home on Danforth street. The names of the other injured persons could not be learned as they hurried from the scene shortly after the occurrence.

The panic started when flames burst from underneath the car at Seventh and Franklin streets. Immediately after this there was a rumbling noise beneath the car and all the wires about spurted thousands of sparks.

A Close Call.

The family of Leon Lillie, who resides near Chatfield, had a narrow escape from being burned in their home. Mr. Lillie was awakened about four o'clock by the cracking of flames and rushing up stairs found the entire second story on fire. His wife and two little daughters already were unconscious from the smoke. He succeeded in carrying them outside but the were unable to save anything except the clothes in which they had retired for the night. Mr. and Mrs. Lillie both had their feet badly frozen before they were able to reach the house of the nearest neigbor. The Lillie home was a total loss, amounting to about $1,500. There was some insurance.

Vacancy Waiting.

Congressman James A. Tawney states that no applications yet have been received for the vacancy at West Point which is to be filled by the First district, although the announcement of this vacancy was made last fall. The examination is to be held at Fort Snelling in February. Under the present law any young man who can present a certificate from a high school principal showing that he is properly qualified can be admitted without examination. Mr. Tawney is at a loss to know the cause for the apparent lack of interest, as there are usually a number of applicants for appointment at West Point.

Loving Cup.

A loving cup two feet in height and handsomely engraved and inscribed, the gift of Governor Van Sant to the State dairy and food commission's buttermaking contest, was received at the commissioner's offices and placed on exhibition in the old capitol.

The exceptionally beautiful trophy will decorate the home of Alfred Schroeder of Lafayette, Nicollet county, who proved in the contest, which continued for twelve months, the average score of all products of the dairies being taken, that he could make better butter than any competitor in the bread and butter state.

Dropped Dead.

William Smith, 767 Jackson street, stepfather of Ald. Brennan of the 9th ward, dropped dead at Iglehart and Wabasha streets, St. Paul.

He was going home from religious services at the Cathedral in company with John McNulty. The conversation drifted to the number of recent sudden deaths in the city. Mr. Smith remarked to his companion: "I shall die in that manner very soon."

As he uttered the words he said to Mr. McNulty, "I feel a pain in my side," and then he fell to the sidewalk.

Fire at Duluth.

Fire which broke out in the engine house of the No. 1 Northwestern coal dock at Duluth, threatened for a time to destroy the entire season's supply of coal, amounting to over 50,000 tons, and occasioned a loss of $8,000.

The engine house containing a twenty-horsepower upright engine and boiler was destroyed, and part of the dock superstructure will have to be rebuilt.

No insurance was carried on the property by the coal company.

Appointed.

Gov. Van Sant has appointed S. G. Comstock of Moorhead as a member of the board of regents of the state university. Mr. Comstock succeeds Elmer E. Adams of Fergus Falls, who has been elected as a member of the legislature, when necessiated his resignation from the board of regents.

Mr. Comstock is at present a member of the state normal school board. His term as a member of the board of regents will expire in 1909.

News Notes.

The St. Paul curlers make preparations for the Northwestern bonspiel to begin at the Nushka rink on Jan. 23.

The associated school boards section of the Minnesota Educational association condemns football.

K. T. Quale, a prominent merchant of Pelican Rapids, dropped dead at his home.

Joseph Guilmette was sentenced at Crookston to life imprisonment at hard labor, on recommendation of the attorneys for the state and the foreman of the jury. He said nothing but "I'm innocent." The sentence seemed to relieve him.

A petition to Gov.-Elect Johnson for the appointment of Capt. John F. Snow, of Company C, First regiment, Minnesota National Guard, as military storekeeper, has now been signed by most of the officers of the Second and Third regiments and several of the artillery officers, besides all of the officers of the First regiment.

The New Twin-Screw Steamship "Minnesota."

The "Minnesota," which sails from Seattle on Saturday, January 21, her initial trip in the trans-Pacific trade with the Orient, typifies the highest achievments in American shipbuilding. She is the heaviest cargo-carrying vessel in the world, and her passenger accomodations are unequalled on the Pacific and take first rank with the great Atlantic liners. Broad decks and large cabins, superior service and every convenience know to modern shipbuilding, ensure the full enjoyment of a Pacific voyage. 2,000 people, including 250 cabin passengers, 68 intermediate and 1,500 troops, or Asiatic steerage passengers, may be accommodated on this great vessel, which is 630 feet in length; 73 feet 6 inches bean, and 56 in depth from keel to upper deck amidships, the total depth from the upper navigating bridge to the keel being 88 feet 4 inches. All first-cabin passengers are berthed amidships, the intermediate are on the main deck forward, and the steerage are berthed on the same deck aft. Nine decks serve to meet the requirements of passengers, crew and cargo. The ship has 32 water-tight compartments and is fitted with bilge keels to insure steadiness from the sea. The public rooms, cabins and hallways are all mechanically ventilated with filtered hot and cold air. The appointments of this vessel throughout are such as to fully provide for the comfort, safety and health of passenger under all conditions.

The Great Northern Steamship Company, with its direct railroad connection in the great northern railways of the United States of America, has an unrivalled geographical position, which fact, taken in connection with the splendidly equipped and palatially appointed steamers, should decide the route of trans-Pacific travelers. The track followed by the Company's vessels isthe shortest to the Orient. As will be seen by reference to the track chart, the distance from Puget Sound to Yokohama being 4,260 milies.

A Well Known Man.

One of the best known men in Minneaolis writes:

"Last night I came from Chicago on the North-Western Limited. I though I knew what a fine train was, but after riding on any other, this train is really a new revelation. I am not "jollying" when I say that a finer train would be beyond human ingenuity to conceive and the human intellect to appreciate."

This refers to the famous 12 hour train every night Minneapolis and St. Paul to Chicago.

School tablets of all kinds at the Courier stationery store.

Go To Sunny California

Far from the chills of wintry blasts. Boating, bathing and outdoor pleasures may be enjoyed during the winter months in California. Through tourist cars via the North-Western Line from Minneapolis and St. Paul on two days of each week make the journey comfortable and at a minimum of expense. For rates, literature on California or any information desired write T. W. Teasdale, G. P. A., St. Paul, Minn.

The Main Traveled Line.

During the past fiscal year the famous North-Western Line carried 22,731,023 passengers. Standing shoulder to shouder this would make a line of humanity more than one-third the distance around the world. This is evidencee of the spendid service on this famous road.

Legal Blanks.

THE COURIER job department is printing a complete line of the standard forms in legal blanks, and has now in stock the following:

- Warranty deeds,
- Contract for deed,
- Mortgage deed,
- Quit-claim deed,
- Tenement lease,
- Chattel mortgage,
- Chattel mortgage, (crop clause),
- Satisfaction of real estate mortgage,
- Farm contract, (on shares),
- Chattel mortgage foreclosure sale,
- Garnishee summons, (with notice to defendant),
- Bill of sale,
- Transcript of judgment,
- Justice summons,
- Certificate of judgment,
- Notice of protest,
- Notes, receipts, etc.

Any form not in stock will be printed to order, provided a reasonable number are taken.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.
Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.

Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers, R. R. fare refunded to purchaser of land. For maps and further particulars address UECKE'S LAND AGENCY, Cumberland, Wis.

Boys and Opportunity.

Governor Johnson's message to the legislature was on the whole a well-written document. The Journal has commented upon a number of its recommendations heretofore, but now wishes not to call attention of the rising youth of Minnesota to this document as a whole and to the man who produced it.

The facts surrounding the life of John A. Johnson are full of encouragement to poor boys in Minnesota. He was the son of poor parents, he never had more regular schooling than could be crowded into the first ten years of his life. After that he was always busy with the struggle of existence. Beginning as a helper in a grocery store at a few cents a day, proceeding from that to a more important position in a drug store, and finally finding his life work in the ownership of a vigorous country paper, he is at length honored by his state with the governorship, and is able to produce out of his own experience and observation a state paper that men of all parties unite in praising.

The suggestion of Governor Johnson's career to young men is that hard work and ambition will cure many of the defects of opportunity. There are just as many chances for boys in Minnesota today as there were thirty years ago, they do not come to the boys who have learned only to play cards or shove a pool cue. These things are not necessarily evil in themselves, but they are almost universally taken as the evidence of departing ambition.

A good many young men do not know what their elders mean by hard work. The phrase is hard to define. But it may be illustrated. Recently J. P. Morgan sent for one of the managers of his banking house, and said he wanted a certain young man in the bank to take the management of an outside enterprise he was starting. The manager demurred. "That young man can't very well be spared," he said. "Well," replied Mr. Morgan, "I didn't want a man that could very well be spared." The young man imbued with the spirit of work will soon, without realizing it, find himself one of those who cannot well be spared and then if he does not change his habits his future is well assured.

The true value to the young man of being in this class is not, however, in his worth to his employer but in his value to himself. It is the consciousness of power, of competency, of adaptability, which makes the man, not the fact that he knows his present employer cannot very well dispense with him. It is this which gives the American youth that flexibility which enables him to change his employment and make a success of an entirely new line. It is all dependent on learning to do and to be.

In one of the large factories of the country, one in which the proprietors take great care of the employees, giving them a dining hall, a gymnasium, a library and an amusement hall entirely free, there is a postbox put into which employees may drop written suggestions on how to improve the business. The proprietors have testified that some of the most valuable improvements in their methods were obtained thru following these suggestions, and some of the employees, thru taking an interest in the postbox, have risen from messengers to managers. This is a phase of the adaptability and willingness which was spoken of above. It is still characteristic of American life and should always remain so.

John A. Johnson might have remained in the grocery store, made an honest living and become a substantial business man in his town, but he had ambitions, and by watchfulness over his opportunities he achieved much. The door is still open. No boy in Minnesota who is in good health need despair of his future, however meager may be his present.—Minneapolis Journal.

TWO LONG-LIVED WAITERS.

Living Contradiction of a Theory That Is Entertained by Some People.

One of New York's oldest waiters does much to contradict the theory that waiters are short lived, says the Sun.

A recent change in the management of a Broadway hotel has brought him to the Tenderloin, where for the first time he serves the patrons of a cafe. He has passed the greater part of the 30 years that he has worked here in the hotels on upper Fifth avenue.

Twenty-five years ago he was in the old Windsor, and used to look after the Columbia college men who frequented the hotel then. He was known to many classes of students, and his acquaintance made in the other hotels to which he afterward wandered is comprehensive.

There is scarcely an uptown hotel in which he has not been employed, and he was just as gray 20 years ago as he is to-day. He is quite as active now, too, as he ever was, and few younger men are able to get about so spryly as he.

One of the most popular waiters in a cafe on Broadway is the oldest man in the place. He was for many years in Delmonico's, an establishment which parts with its men more rarely than any other. But for some reason he did not get along with Phillippe, and took a place in the new French restaurant when it was opened two years ago.

Many men have come and gone in that time, but Paul finds his services always in demand. His clients wait until one of his tables is vacant in order that they may have his attention and skill in mixing a salad.

Both of these men are long past the age at which they might be thought to be most efficient. But they are able to earn more than their youthful colleagues.

Old waiters are not as a rule so capable, however, as younger men, mainly because they are likely to be bad tempered.

German Military Expert Finds That Russia Has Most Men While Japan Is Strongest in Artillery.

After a careful compilation and close investigation by German army experts, the Militar Wochenblatt, of Berlin, gives what is probably the nearest estimate yet printed of the strength of the Russian and Japanese land forces.

On the Russian side it is calculated that the active field army at the present moment consists of 154,850 men and 386 guns; en route from Siberia, 35,700 men and 64 guns; being mobilized in Europe, 57,900 men and 188 guns; total, 248,450 men and 638 guns.

On the Japanese side the active army in the field is given as 152,500 men and 702 guns; in reserve, 74,000 men and 78 guns; total, 226,500 men and 780 guns.

PUSH CART TRUST FORMED.

Vehicles in New York City Are Loaned to Peddlers and a Handsome Profit Is Derived.

Officials of New York city have discovered the existence of one of the most interesting of trusts—a combination among holders of push cart licenses over on the east side of Manhattan, which controls, it is believed, almost exclusively the push cart trade and is extorting unreasonable rates from peddlers for the use of its carts. One of the heads of departments under Mayor McClellan has been investigating the process by which the combination manages to control the push cart trade and the matter has been brought to the attention of the mayor. The investigation is being continued and before long some interesting disclosures in connection with the operations of the push cart trust are expected.

It is not known whether or not there is any combination of the kind controlling the push cart trade in Brooklyn, because the city official who has had the matter under investigation has confined himself altogether to the east side of that borough. Inasmuch as the push cart business done in Brooklyn is small compared with that in Manhattan, however, it is not believed that the same condition of affairs exists in Brooklyn.

According to the city official who has had the matter under investigation there appears to be a padrone system on the east side which has managed somehow to obtain licenses for push carts at two and four dollars a year. Instead of using the push carts themselves those behind the system let them out to peddlers at the rate of 15 cents a day. On this basis one push cart alone would bring in a profit of over $50 a year, and as the number of carts controlled by the syndicate is large it can readily be seen that the push cart trust derives a handsome profit from its scheme.

THE GREAT FAMILY MEDICINE

Thedford's Black-Draught comes nearer regulating the entire system and keeping the body in health than any other medicine made. It is always ready in any emergency to treat ailments that are frequent in any family, such as indigestion, biliousness, colds, diarrhœa, and stomach aches.

Thedford's Black-Draught is the standard, never-failing remedy for stomach, bowel, liver and kidney troubles. It is a cure for the domestic ills which so frequently summon the doctor. It is as good for children as it is for grown persons. A dose of this medicine every day will soon cure the most obstinate case of dyspepsia or constipation, and when taken as directed brings quick relief.

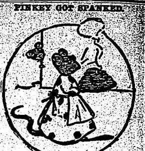
DANVILLE, ILL., Dec. 23, 1902.

Thedford's Black-Draught has been our family doctor for five years and we want no other. When any of us feel badly we take a dose and are all right in twelve hours. We have spent lots of money for doctor bills, but get along just as well with Black-Draught. IRA H. BADER.

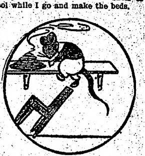
Ask your dealer for a package of Thedford's Black-Draught and if he does not keep it send 25c. to The Chattanooga Medicine Co., Chattanooga, Tenn., and a package will be mailed to you.

THEDFORD'S BLACK DRAUGHT

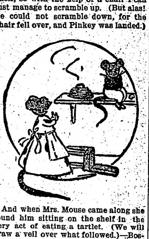
PINKEY GOT SPANKED.



Mrs. Mouse—Now, I'll just put these best jam-tarts onto the larder shelf to cool while I go and make the beds.



Pinkey—Pip-pip! Ma's safely upstairs, and those tarts are safely on the shelf, so with the help of a chair I can just manage to scramble up. (But alas! he could not scramble down, for the chair fell over, and Pinkey was landed.)



And when Mrs. Mouse came along she found him sitting on the shelf in the very act of eating a tartlet. (We will draw a veil over what followed.)—Boston Globe.

ENGLAND'S DEATH WARRANT

Not Always Carried Into Effect, But Serves as a Deterrent of Crime.

The present agitation in England to abolish the pronouncing of the death sentence in cases where it is patent that capital punishment will not follow will probably meet with the approval of most people who desire that the law should lose nothing of its dignity, and at the same time have nothing of unnecessary horror added, says St. James' Gazette. The lord chancellor pleads for the retention of the form, saying that the passing of the death sentence will act as a deterrent. James I. juggled with death sentences in this manner, and got himself rather badly disliked for it. Over the plot in which Raleigh, Cobham, Grey and others were implicated, he had the less puissant ones put to death and "very bloodily handled." Cobham's brother was beheaded "like a gentleman." The bishop of Chichester, with the blood of the latter still upon him, went then to Lord Cobham. Him the bishop exhorted to confession. Other prelates were similarly engaged with Sir Walter Raleigh and Lord Grey. Meantime Markham, another of the conspirators, had been placed upon the scaffold and was about to bow his head to the ax, when the sheriff was called away by a Scotch hireling, and the prisoner left to contemplate the ax for an hour. Then he was led away and told to prepare for death at the end of a further two hours. Grey's turn was next. He prayed half an hour before the block, then raised himself to die—and was led away, the king sending word that the order of execution had been changed. So forth came Cobham, and, having made his last declaration, prepared to take farewell of the world, when the sheriff stayed the execution, and brought forth Markham and Grey, all three thinking that the other two had been executed. They were told, after having suffered the agony of all but death itself, that their lives would be spared. Raleigh's experience was similar. That was how they used to make death sentences act as "a deterrent" in the good old days. There would be danger for those who tried a repetition to-day.

She and Shakespeare.

Herbert Spencer tells this story of a woman of his acquaintance: Vain as well as vulgar, she professed to have a high admiration of Shakespeare, and was partial to reading his plays aloud, and considered that she declaimed the speeches extremely well. On one occasion, after enlarging upon her reverence for him, she ended by saying: "Ah, I often wish that he were alive, and that I had him here. How we would enjoy one another's conversation."

Uncle Joe's Strenuous Ruse.

A submarine torpedo boat off Newport remained below for 12 hours at a stretch. There is a suspicion, remarks the New York Telegram, that "Uncle Joe" Cannon was aboard, dodging the vice presidential nomination.

No Refuge Left.

The Russians are certainly having a rush of very bad luck, remarks the Brooklyn Eagle. Their timber rights along the Yalu have now been annulled by the Korean government—and just at the time, too, when they have most need to taking to the tall timber.

THE CITY COUNCIL.

Proceedings of the Regular Meeting, January 5, 1905.

Regular meeting of the City Council held at the city hall, January 5, 1905.

Meeting called to order by Fred Borchers, President.

Roll called: Aldermen all present.

Minutes of previous meeting read and approved.

On motion, duly carried, bills were allowed as follows:

John Deforge, street work	9 90
Sam Allard, tending to fire engine	3 00
A. L. Riechert, stationery	2 35
Fred Borchers, committee work	30 00
N. P. Express Co., express	85
Red Lake Courier, city printing	43 10
O'Brien Bros., hardware acct	73 34
Frank E. Hunt, hardware acct	80 70
Paul Prouex, street work	4 50
O. Lacoursiere, street work	3 00
I. Lemieux, street work	4 50
John Drier, service as fire warden	19 50
A. P. Toupin, Justice fees	10 85
Chatel Bros., cord wood	2 25
Ernest Buse, rent	6 00
Joseph Lachance, rent	14 00

The bill of Red Lake Falls Electric Light Company was ordered returned for correction.

The amendment to the original ordinance granting to the St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, the right and franchise to lay, maintain and operate railway tracks over and across certain streets and alleys in the city of Red Lake Falls, Minnesota, was on motion duly adopted; and said ordinance, as amended, passed its second reading.

The following resolution was offered by Hennemuth, which was seconded by Crompe:

Resolved, That the petition of the St. Paul, Minneapolis & Manitoba Railway Company, asking the City Council to proceed towards vacating the following streets and alleys in the city of Red Lake Falls, to-wit:

All that part of Second street extending easterly from the easterly line of the alley in block two (2) of Champagne & Dows addition to Red Lake Falls to the Clear Water river in said city.

All that part of Third street extending easterly from a line parallel with and twenty-five feet easterly from the easterly line o the alley running north and south in block eight (8) in said Champagne & Dow's addition to said Clear Water river in said city.

All that part of the alley in block nine (9) of said Champagne & Dow's addition easterly of the easterly line of lot nineteen (19) in said block.

All of the alley running east and west in the east half of block eight (8) of said Champagne & Dow's addition.

All that part of Saint John Annex extending from the southerly line of First street to the northerly line of Fourth street in said city.

All that part of Fourth street extending easterly from the easterly line of St. John Avenue to said Clear Water river.

All that part of the alley between block seventeen (17) of said Champagne & Dow's addition and block four (4) of Champagne, Dow & Gieriet's addition extending from the northerly line of lot one [1] in said block four [4] southerly to the northerly line of Fifth street in said city.

All that part of Fifth street extending from the westerly line of block three [3] in said Champagne, Dow & Gieriet's addition easterly to the easterly line of Dow Avenue.

All that part of Dow Avenue in said city extending from the southerly line of Fifth street to the northerly line of Sixth street in said city.

All that part of Sixth street extending from the easterly line of Dow Avenue to the westerly line of the alley in block seven [7] of Champagne, Dow & Gieriet's addition.

All of the alley in block seven (7) in Champagne, Dow & Gieriet's addition.

All that part of Gieriet Avenue extending from the southerly line of Seventh street to the northerly line of Hamilton street.

All that part of Sibley Avenue extending from the southerly line of Hamilton street to the northerly line of Harrison street was filed of record with the City Clerk, and ordered that the Council meet at the city hall of said city of Red Lake Falls, on the 16th day of February, 1905, at 8 o'clock p. m., to hear and consider said petition, and that the City Clerk cause notice of the filing of said petition and the said time and place of hearing be published in the official paper of the city for four weeks at least once each week, the first publication to be January 19th, 1905.

Upon roll call the following Aldermen voted aye:

Hennemuth, Crompe, Hatten, Brady and Borchers.

Noys, none.

whereupon the resolution was declared adopted.

On motion meeting adjourned.

FRED BORCHERS, Pres.

Approved this 11th day of January, A. D. 1905.

J. A. DUFFY, Mayor.

Attest: A. P. TOUPIN,
City Clerk.

Agents for Red Lake Falls Milling Co's
MASCOT FLOUR.
PLUMMER, MINN.

ST. HILAIRE.

[From the Spectator.]

Dr. N. N. Watson, the well known politician, was a caller here yesterday.

The St. Hilaire hotel and bar was opened last Monday by K. R. Killand.

Dr. J. E. Argue, of Red Lake Falls was here several days the first of the week.

R. H. Duntley came back on Monday from Fertile where he has visiting relatives.

Frank Jeffers, the newly elected register of deed, was here from Red Lake Falls last Saturday calling on friends.

A crew of men started at work the first of the week putting the planing mill in order. It is the intention of the lumber company to start the planer at work about the 20th of this month. A large number of orders are on hand and it will be busy all winter.

Sheriff Dan Linnihan in company with Andrew Erickson, P. E. Dainsrd, Andrew Letvig and Chas. Krohn went out to Wyandotte yesterday to evict Mrs. Hanum from a piece of land which had been under dispute.

The county printing was awarded last Tuesday to the Red Lake Falls COURIER at the lowest rate ever made in Red Lake county. The tax list, commissioners' proceedings and financial statement will be published in the Thief River News and Press and in the Spectator.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in Pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. S. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Sold by A. L. Reichert.

Stone Wanted.

The undersigned will contract for stone to be delivered during winter at mill. Red Lake Falls Milling Co. tf

An Apt Description.

An old colored man who addressed a temperance meeting at Welden, N. C. says: When I see a man going home wid a gallon of whisky and a half pound of meat, dat's temp'rance lecture nuff for me and I see it ebery day, I knows dat eberthing in his house is on the same scale—gallon of misery to every half pound of comfort.

Greatly in Demand.

Nothing is more in demand than a medicine which meets modern requirements for a blood and system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach and liver troubles. Try them. At all druggists, 25c., guaranteed.

The Catholic Order of Foresters elected officers as follows at the meeting last Friday evening: Chief ranger, A. P. Toupin; vice ranger, Eus Normandeau; past ranger, L. A. Kaufer; recording secretary, J. R. Fortier: financial secretary, J. P. Harren; treasurer, Oliver Caron; senior conductor, T. A. Crompe; junior conductor, John Alstadt; medical examiner, Dr. I Lemieux; trustees, Theo. LaBissoniere, T. A. Crompe and A. Robillard; inside sentry, I. Bsril. outside sentry, John Schmitz spiritual directors, Revs. Father Fayolle and Ansgar.

MINNESOTA HISTORICAL SOCIETY.

RED LAKE COURIER.

VOL. VII—NO. 15. RED LAKE FALLS, MINNESOTA, THURSDAY, JANUARY 19, 1905. WHOLE NO. 327.

FAST TRAIN TO WINNIPEG.

Northern Pacific to Compete With Soo and Great Northern.

It is rumored in railroad circles that the Northern Pacific railway will shortly put on a "flyer" between St. Paul and Winnipeg. If such a train is put on it will make the time between Winnipeg Junction and Pembina in five hours and twenty minutes, equal to a sustained speed of forty miles an hour including stops. This is supposed to be a much faster speed than possible on the Great Northern or Soo roads on account of the superiority of the Northern Pacific roadbed and rails. The train will be similar in style and conveniences to the "North Coast Limited" which runs to Portland.

Agent Mizen when seen regarding the matter stated he had received no official confirmation of the report that the new equipment is to be added. The matter has been under discussion among railroad men for some time, however, and the installation of the new train would not be a surprise to the employers along the line. The new time of five hours and twenty minutes would be considerable faster than that now made by the Great Northern and Soo over the same stretch of territory, and the conveniences at the north terminal for transfer to the C. P. R. are a considerable factor in the matter.

Constipation and piles are twins. They kill people inch by inch, sap life away every day. Hollister's Rocky Mountain Tea will positively cure you. No cure no pay. 35cents, Tea or tablets. A. L. Reichert.

Calumet Baking Powder

A wonderful powder of rare merit and unrivaled strength.

Surety Bonds for County Officers.

The suggestion of Public Examiner Johnson that county officers be required to furnish surety bonds, at the expense of the county, is one that should meet general approval. A bond given by any of the well-known companies is absolutely good, in the first instance and in the second the man under such a bond knows that if he goes wrong he will be prosecuted. Surety bonds aid as a moral tonic, and if there is a defalcation the loss is made good without trouble or expense. Personal bonds may be good today and in six months absolutely worthless. The experience of the state, where money was deposited in banks that later went into the hands of receivers, shows the folly of accepting personal bonds. It is also something of a hardship on the officials and an imposition on their friends to give an individual bond of many thousand dollars. The county officers are entitled to every cent they receive by way of salary, and the expense of bonds to protect the taxpayers is one that should be shared by all the property owners. It is in a way insurance against loss, just as county buildings are insured, and there is no more reason why the county officers should be required to stand the expense of one more than the other.—St. Cloud Journal Press.

January Bargains.

The Big Store offers the following "snaps" during this week:

25 per cent. off on clothing;
Best prints, 5c.
12½c and 15c waistings, 8c;
Thread, 4c;
Silkolein, 3½c;
Tomatoes, 9c;
Oat meal, 30 pounds for $1.00;
Good soap, 40 bars for $1.00;
Good rice, 25 pounds for $1.00;
Egg-o-see, 8c;
Syrup, per gallon, 33c;
Eagle smoking, 12c;

These prices will make dull January a lively month.—THEO. LABISSONIERE.

DAIRYMEN TO MEET.

Annual Meeting of Red River Valley Dairymen's Association.

Joel G. Winkjer, of St. Hilaire, secretary of the Red River Valley Dairymen's association, announces that the annual convention will be held at Crookston, Friday, Feb. 3.

An interesting and instructive program has been arranged, and timely subjects will be discussed by men of authority on these matters. The meeting is an important one and all who are interested in the dairy and its improvement should make an effort to attend.

Following is the program:

MORNING.

A. J. McGuire—First Steps towords Successful Dairying.
L. Thompson—Grading of Cream.
A. H. Gerber—Buttermaker's relation to patron.
Blunt—Care of the Hand Separator and Cream.

AFTERNOON.

E. K. Slater—Patron's relation to the Creamery
T. L. Haecker—Care of the cow.
J. A. Wilson—Present condition of dairying in the Red River Valley.
Dr. V. Pleth—Tubercolosis in cattle and its relation to man.
Vrooman—Cheese Making in the Valley.
State Dairyman—Special purpose cow.

EVENING.

Music.
Col, Wilkinson—Progressive agriculture.
Prof. J. H. Worst—Agricultural education.
Prof. F. S. Haecker—Future dairying in Northern Minnesota.
State Dairyman—Feed for the dairy cow.

There will be a business meeting Saturday when several interesting subjects will be discussed.

The Reward of Industry.

When we read the message of Governor Johnson, concluding with that splendid exhortation and pledge to a high standard of official service, and when you enjoyed the admirable style in which it was expressed, did you recall the fact that the man who wrote it was once the little chap who quit school in St. Peter at the age of 11 years to help his mother support the family of younger brothers and sister? When you are looking for a good example of a self-made man, where the job has been done, you need not go further than the statehouse in St. Paul.—Minneapolis Journal.

Notice of Teachers' Examinations.

The semi-annual teachers' examination for Red Lake County will be held at Red Lake Falls, Thief River Falls and St. Hilaire in accordance with the following program:

THURSDAY, FEB. 2ND.
(First grade studies)
A. M.—8:30 Enrollment.
9:00 Physics.
10:30 Algebra.
P. M.—1:30 Geometry.

Co. Supt.

Rural Delivery and Better Roads.

The extension of the rural free delivery service is proving to be the greatest inducement to the building of better roads for it has been found not only expensive but nearly impossible to deliver the mails over some of our country roads. The automobile, the bicycle and now the United States mails have all come at an opportune time for the good roads people, just as golden grain belt beer has been perfected just when we need it the most. It is the great opponent of fatigue and over exertion, bringing rest and quiet to those who use it regularly in their homes. Order of your nearest dealer or be supplied by Alex. Thompson Crookston.

And Her Name Was Rose.

"One of Bill Nye's old stories has been going the rounds of late," said a man who admired the late humorist, "and it is, in my judgement, one of the cleverest bits of wit circulated in connection with Nye's life. Nye owned a cow which he wanted to sell, and put an advertisement in a newspaper, which read like this:

"Owing to ill health, I will sell at my residence, in township 19, range 18, according to the government survey thereof, one plush raspberry cow, aged eight years. She is of undoubted courage and gives milk frequently. To a man who does not fear death in any form she would be a great boon. She is very much attached to her present home with a stay chain, but she will be sold to anyone who will agree to treat her right. She is one-fourth Shorthorn and three-fourths hyena. I will also throw in a double-barrel shotgun, which goes with her. In May she usually goes away for a week or two and returns with a tall red calf on wobby legs. Her name is Rose. I would rather sell her to a non-resident."—Ex.

Pointed Paragraphs.

There is no one so hopeless as those who do not make mistakes.

No man can do anything against the grain. Woman can do it, but man can't.

A great deal of the friendship others have for you is like the come-any-time invitation.

A man can get sick now almost as easy as he can sin, and you all know how easy that is.

If a man can get into a bank after banking hours he considers himself a prominent citizen.

There is something fine in the bravery of a new father who carries a baby through the streets in his arms.

The first thing a girl does to a man after they are married is to get out his middle name, dust it off and use it as common as his first name.—Atchison Globe.

For a Non-Political Tariff.

It is manifest that the Republican party must soon make some move in the direction of more reasonable tariff schedules if not to be convicted of self-stultification. It could do much to promote popular confidence just now by establishing a non-political tariff commission with instructions to go into the tariff question as a problem in pure economies and to deal with it practically and scientifically. This the party seems unlikely to do. Many of its leaders are disposed to let matters drift as they are. If they are to continue in this attitude, with what grace do they expect to be able to repeat their shibboleth about letting the tariff be revised "by its friends" when again they seek the favor of the voters?—Chicago News.

Where Corn is King.

One hundred ears of corn selling at over $1 an ear is the record of the Iowa seed corn school at Ames, Iowa. The ears which commanded so fancy prices were the winners in the corn contest. They were bought by experts who wanted to use them for seed.

The craze for improved corn and improved methods of handling it in cultivation has become remarkable. The railroads all over Iowa, Nebraska, Minnesota and South Dakota have been running special "seed corn" trains all winter, carrying expert lecturers who "tail-end" the country districts and lecture farmer audiences on how to select the best corn, how to test it, plant it and cultivate it. Farmers crowd to the country towns and listen by thousands to the advice. Last years corn crop in Iowa, as a result of such a campaign, showed an increase of about 20 per cent, and the whole West, led by the railroads, is taking up the movement. The roads run free trains, and the corn experts give their time.

Persons Who Bark.

If you are coughing your head off, have visions of asthma, try Gloria Lung Balsam. Made of honey, wild cherry and other healing balsam. Best for children. Sold by W. A. Schreiner.

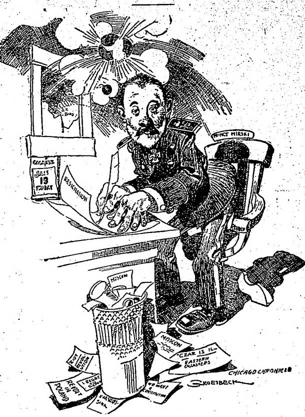
SEEMS AN OPPORTUNE TIME TO QUIT.



FACING DISGRACE HE CHOOSES DEATH

INDIANA LODGE OFFICIAL UNABLE TO ADJUST SHORTAGE IN HIS ACCOUNTS.

Kills Man Who Persisted in Uncovering His Irregularities, and Then Takes His Own Life—Tragedy Occurs in Barber Shop.

Veedersburg, Ind., Jan. 16.—John Brant, of the Veedersburg News, and Charles Eckburg, a barber, were found dead Sunday afternoon in a barber shop where they had gone to balance the books of the odd fellows' lodge, in which both held official positions. At a late hour they had not appeared and citizens began an investigation which resulted in their finding Brant in a barber's chair, shot through the head, and Eckburg lying on another chair, shot through the temple. A revolver was found in a cuspidore near Eckburg's body. On Eckburg's body were found three letters. One was addressed to the public and was dated January 1. In it Eckburg declared his intention of killing himself because of his financial troubles. He admitted that he could not adjust the shortage. The second letter was written to Harry Wertz, the dead man's best frend. In it he said that he had determined to take his life, and that he would "take Brant with him." To Wertz he admitted his troubles and asked Wertz to settle up his affairs and do the best he could for his family. The third letter was addressed to his wife and was not made public. The coroner's verdict charges that Eckburg shot and killed Brant and later killed himself. Eckburg was financial secretary of the local odd fellows' lodge for several years. About January 1 an auditing committee, composed of Brant, John Labaw and Charles Pugh, was appointed to audit the books, and in this Brant took the initiative. He has since been persistent in trying to discover the alleged irregularities.

FAMILY PERISHES.

Man, His Wife, Two Children and Servant Lose Their Lives in Burning Home.

New York, Jan. 16.—William T. Mason, a lawyer, and his family, consisting of wife and two children, Ellen, four years old, and Marion, six months, with a servant, Annie Wells, lost their lives in a fire which partially destroyed the brown stone dwelling occupied by them at No. 133 West One Hundred and Thirtieth street early Sunday morning. Although neighbors say they heard cries of "murder" and "burglars" the police found nothing to indicate that the fire was not accidental. The whole family appears to have been suffocated. The bodies of the father and youngest child were untouched by the flames, and those of the others were probably burned after they had died. A policeman and a neighbor who heard the cries attempted to get into the house by breaking windows of the parlor floor, but were driven back by the smoke. The firemen were unable to enter until after the lower part of the house and the halls had been burned out. The charred bodies of Mrs. Mason, the servant and four-year-old child were found in a closet under the roof scuttle, through which they are supposed to have been attempting to escape. The bodies of Mr. Mason and the younger child were in a bedroom.

Stolen Jewels Unearthed

New York, Jan. 13.—Detectives, after eight months' search, found jewels valued at $30,000 stolen from the wife of Bishop Potter. The gems were found in a vacant lot in this city, hidden beneath a rock, and William Coleman, well-known to the police, was arrested as the thief.

IN CONGRESS.

A Brief Resume of Proceedings in the Senate and House of Representatives.

Washington, Jan. 12.—An amendment to the army appropriation bill providing that retired officers above the grade of major should not receive the full pay of their grade when assigned to duty with the militia of the several states brought on a discussion in the house Wednesday of the appointment of Lieut. Gen. Nelson A. Miles as inspector general of the state of Massachusetts. Several members declared that the amendment was directed especially at Gen. Miles, but Mr. Hull, who introduced it, insisted that he had no such thought in mind. The amendment was adopted.

The attention of the senate was divided between the statehood question and governmental regulation of railroads. All amendments to the statehood bill, except that relating to liquor traffic in Indian territory, were agreed to.

Washington, Jan. 13.—The legislative, executive and judicial appropriation bill was on Thursday read at length in the senate, and there was considerable discussion of the civil service question and the provision for an investigation of foreign trade conditions by the department of commerce. The bill for the encouragement of the mercant marine was reported.

The house of representatives devoted its entire session to discussion of the impeachment charges against Judge Charles Swayne, of the Northern district of Florida.

Washington, Jan. 14.—Upon convening Friday the house of representatives nonconcurred in the senate amendments to the Philippine government bill, and sent the bill to conference. Further consideration was given to the impeachment charges against Judge Charles Swayne.

The senate passed the legislative, executive and judicial appropriation bill, and also a number of private pension bills.

Washington, Jan. 16.—In the senate Saturday there was some discussion of a bill permitting American women who have married foreigners to retain citizenship in the United States, but it did not reach a vote. Among other bills passed was one protecting the great seal of the United States against counterfeiting.

Pension legislation at the rate of passage of 459 bills in 108 minutes was indulged in by the house, the result being the smashing of all previous records of the house as to legislative nimbleness.

OUTLOOK IS BRIGHT.

Weekly Review Shows Trade Conditions Continue to Be Quite Satisfactory.

New York, Jan. 14.—R. G. Dun & Co.'s Weekly Review of Trade says: "Erratic weather produces irregularity in retail distribution of merchandise at many points, and southern business is quiet because of the depression in cotton, but the general outlook is considered very bright. Manufacturers report that confidence is warranted by the number of new orders, while deliveries on old contracts are of satisfactory volume. The best news comes from the iron and steel industry, while footwear factories are busy, woolen mills in exceptionally good condition and activity is assured among cotton spinners as soon as the raw material market becomes settled.

Failures this week numbered 324 in the United States, against 324 last year, and 28 in Canada, compared with 24 a year ago.

Feud Causes Three Deaths.

Whitesburg, Ky., Jan. 16.—At Holman, this county, the feud factions, led respectively by W. Roarck and Henry Holcomb, met, and those two and Joseph Holcomb were killed and Buford Roarck probably mortally wounded. The trouble originated in the murder of one of the Roarcks years ago, the Holcombs being suspected. The two factions have been armed and ready for a meeting for several weeks.

Reflections of a Bachelor.

New York Press: There is considerable pain in having other people very happy.

A girl has an idea everybody would rave over her beauty if her hair had more curl to it.

In a flirtation a woman is never in earnest till the man thinks it is time for it to be over.

When a woman takes somebody into her love affairs it is a sign she hasn't any.

A man always has a lot more income ahead when he is trying to borrow than the man he wants to lend to him.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of Kidney trouble, hoping it would wear away, he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys and was cured by Foley's Kidney Cure Sold by A. L. Reichert.

Brain Leaks.

A wife's religion is not a husband's passport.

Men who wait for reforms never lead processions.

Stygian contractors are never short on paving material.

We wish we were young enough to wish we were older.

Good ideas and envy do not sprout from the same soil.

Scandal's tongue will wither when ears are turned away.

The older a man gets the better he could skate when a boy.

The man who is afaird of falling never climbs very high.

The man who hunts for trouble never has to follow a long trail.

Too many people blame heredity for their personal acquisitions.

The best way to solve the labor problem is to do your whole duty.

It is a golden rule that works both ways with satisfactory results.

When a man is starving it is a poor time to talk to him about his soul.

The work done tomorrow does not pay the grocery bills of yesterday.

The cloak of religion is transparent when used by a sinner as a disguise.

The dollar you give does more good than the millions you wish you could give.

Some men who would not steal a pocketbook do not hesitate to steal a state.

A great many things prejudicial to the people are done in the name of party harmony.

Those who boast much of their ancestry are not keeping up the average of posterity.

There are Christians who think they have done their full duty when they pay the preacher.

The man who does his whole duty has precious little time to criticise the work others are doing.

We have our doubts about the Christianity that has to get into a man's heart through a bullethole.

Billiard players put chalk on the cue to keep it from slipping. Some men need chalk on their consciences.

A great many people have a habit of expressing surprise at the exposure of corruption that they were cognizant of all the time.

Some men drop a dime in the contribution box on Sunday and imagine they have bought enough Christianity to last them the rest of the week.

The greatest system renovator. Restores vitality, regulates the kidneys, liver and stomach. If Hollister's Rocky Mountain Tea fails to cure get your money back. That's fair. 35 cents, Tea or Tablets. A. L. Reichert.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SCOTT & BOWNE
Chemists
409 Pearl St., N. Y.
50c. and $1; all druggists.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is atleast one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strenght by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

D. 1905, at 8 o'clock P. M.

Witness my hand and seal of the City of Red Lake Falls this 16th day of February A. D. 1905.

j18 A. P. TOUPIN, City Clerk

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 12. 1903, executed and delivered by Ben Gullick and Delia C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage,

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE.
Attorney for Mortgagee.
409 & 410 Court Block,

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 507, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93, and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902; $12.00 on May 1, 1903, and a like amout annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $122.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903, at 2 o'clock p. m. in Book 15 of Mortgages, page 78.

And Whereas, The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained; and whereas, there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

MILES J. SCANDRETT,

COMMISSIONERS IN SESSION

Proceedings of the County Board at the regular January Session.

(Continued from last week.)

Jan. 6, 1905, Board reconvened at 9 a. m. with all members present.

The following resolution offered by Commissioner Demann was adopted by unanimous vote:

Resolved, That the chairman of this board of county commissioners, the County Auditor and the County Attorney be and are hereby designated to be and act as a purchasing and auditing committee for the purpose of purchasing all stationery, blanks, blank books and supplies of whatsoever kind necessary for the county offices and jail during the year 1905, and that no bills for any such supplies shall be allowed by this Board unless the same are ordered or purchased by said committee.

The following resolution was offered by Commissioner Shaw and adopted by unanimous vote:

Whereas, the recently ceded Red Lake Indian Reservation lying and being within Red Lake county, Minnesota, the same being unorganized, is not attached to any Commissioner District in said county,

Now, therefore be it resolved, That all that portion of the said Red Lake Indian Reservation lying and being within the county of Red Lake aforesaid, and lying north of the Red Lake river, be and the same is hereby attached to Commissioner District No. 4 in said county, and that all that part of said territory lying and being within said Red Lake county and lying south of Red Lake river, be and the same is hereby attached to Commissioner District No. 3 in said county.

The financial statement of the county for the year 1904, as prepared by County Auditor Ford, was examined, and on motion same was approved and ordered published.

It was moved and carried that the premium, amounting to $387.50, on the surety bond of the County Treasurer be paid by Red Lake county.

The following proposition was submitted by Ernest Buse for consideration by the Board:

"Ernest Buse offers to sell and convey, or cause to be conveyed, unto the county of Red Lake, lots 9, 10, 11 and 12 of block 3 in Champagne and Dow's addition to Red Lake Falls, Minnesota, with all buildings thereon, by good and sufficient warranty deed, subject to two mortgages upon said property, one of $1,000 and one of $600, interest on both paid to date, for the sum of $2,370.00 to be paid to him, he also assigning all insurance and paying all taxes."

ERNEST BUSE.

After due consideration of the foregoing proposal by the Board, Commissioner Demann offered the following resolution and moved its adoption:

Whereas, A demand has been made by Mr. Ernest Buse, owner of lots 9, 10, 11 and 12, of block 3 of Champagne & Dow's Addition to Red Lake Falls, Minnesota, for increased rent for the use and occupation of the above described premises as a court house for Red Lake county, Minnesota, and

Whereas, Said Ernest Buse has made an offer of sale to this Board of the above described premises to the said county for the sum of $2,370.00, subject to one mortgage of $1,000 and one other mortgage of $600.00, and to furnish a good and sufficient warranty deed for same, and

Whereas, After due consideration, this Board is of the opinion that said increased charge of rent is unreasonable and exorbitant.

Therefore be it resolved, That said offer of said Ernest Buse, be and the same is hereby accepted, and that the sum of $2,370.00 be and the same is hereby appropriated out of the funds available for such purposes, and that a warrant be drawn by the County Auditor and Chairman of this Board for the said amount to be paid to said Ernest Buse on presentation by him of a good and sufficient warranty deed of said premises and an abstract of title of said premises, showing good and sufficient title thereto, but subject to the said mortgages; and the County Auditor and Chairman of this Board are hereby authorized to sign and execute forthwith with the said Ernest Buse a contract for deed on said premises, said deed to be delivered on January 26th, 1905, and that said offer is accepted and said appropriation is made and directed to be paid to the said Ernest Buse, only on condition that he deliver to the said Board of County Commissioners a warranty deed as aforesaid, and an abstract of title showing good, valid and marketable title, and that the County Attorney, County Auditor and the Chairman of this Board of County Commissioners be and are hereby appointed as a committee to pass upon the title to said premises.

The motion to adopt the foregoing resolution was seconded by Commissioner Falardeau and declared adopted upon the following vote:

Aye, Commissioners Sutor, Demann and Falardeau.

No, Commissioners Shaw and Johnson.

Resolution declared adopted.

Motion made by Commissioner Sutor and seconded by Commissioner Demann, that the bill of Ernest Buse in the sum of $2,370.00, being the purchase price to be paid said Ernest Buse for lots 9, 10, 11 and 12 in block 3 of Champagne & Dow's Addition to Red Lake Falls and the buildings thereon, the same to be used for court house purposes for the county of Red Lake, Minnesota, be allowed in full and a warrant be drawn by the Chairman of the Board of County Commissioners and the County Auditor for the amount, provided that said Ernest Buse fulfills his part of the contract made with him for the purchase of said premises.

Commissioners Falardeau, Sutor and Demann voted aye.

Commissioners Shaw and Johnson voted no.

Chairman declared the motion carried.

O. J. JOHNSON,
(Seal) Chairman Board of County Commissioners.

Attest: JAMES E. FORD,
County Auditor.

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and to-day she is well and strong." It kills the germs and of all diseases. One dose relieves. Guaranteed at 50c and $1.00 by All Druggists. Trial bottle free.

Button's Business College, Crookston, Minn., has more graduates working in that city as stenographers and book-keepers at a good salary than all other business colleges combined and offers $100 to anyone who will prove the contrary.

PLANTS HAVE HYSTERIA.

Certain Species Have Nerves That Are as Sensitive as Those of Human Beings.

Science claims to have discovered that plants have nerves, and that some species are irritable and nervous to a marked degree. The peculiar phenomena are not new, for the poets have sung of the sensitive plant's plaintive actions when played upon by the rough wind and of the mimosa's fright when crushed or broken by some strange foot; but these were supposed to be merely figures of speech, and no one believed that the song makers had such insight as to discover that plant organisms were gifted with nerve centers and brain cells. Science has worked out the fact, however, says the New York Times, that the poets were nearer the truth than we gave them credit for, and that certain species of our common woodland growths possess nerves that can be played upon by the east wind as readily as those which afflict mankind. The sensitive plant leads all others in this respect. But what we considered innate modesty at being handled is nothing more than irritable nerves. The genus Mimosa comprises about 200 species, and most of these exhibit peculiarly irritable natures if touched or handled in the wrong way. The Mimosa pudica, the botanical name for the sensitive plant, is so highly organized that it is kept in a state of neurasthenia most of the time. A puff of wind, the tramping of heavy feet near it, or the rude touch of the hand, will cause this plant to go off into nervous hysterics. The exciting noise or commotion strikes the nerves of the plant and causes it to close up or droop its leaves. Hundreds of sensitive plants have been diagnosed in the modern biological laboratories, and the observers of the plants have traced the nerve centers to their foundation.

In some of the plants the ends of the nerves have been located. Thus if Mimosa pudica is touched with ever so fine a point at the base of a pinna or along its axis, the most remote pair of leaves will shiver and begin to close. Finally, when all the leaves have closed, the pinna which has been touched will droop. The shock has been so great that the whole nervous system has been temporarily disarranged. However, like all nervous, irritable people, there is a point beyond which fright reacts and a control of the system begins to manifest itself. If the sensitive plant is shaken for some time it gets over its attack of neurasthenia and some of the leaves will begin to open again.

The most sensitive place of the plant is at the base of the secondary leaf stalks, where an immense number of nervous corpuscles or delicate tissues are located.

WHEN PEACE COMES IN ASIA

Neither Russia Nor Japan May Be Allowed to Dictate What Terms Shall Be.

"There is little doubt that the present struggle, if other nations do not interfere, will be a bitter one," says Gen. Francis Vinton Greene in the war number of the World's Work, "but should Russia gain a really decisive victory, as she did over Turkey in 1878, she would seek to make Japan a mere Russian province, filled with splendid harbors and forming a magnificent outpost for the coast of the orient. Should Japan gain such a victory over Russia, she would wish to drive Russia entirely away from the Pacific coast, establish herself on the mainland and put herself at the head of the far eastern races.

"Neither will be allowed to do what it wishes. Wars are not ended in that way in these days, but in such a way as the great nations think proper. In her last war Russia had Turkey at her mercy, but she was obliged to tear up the treaty she had made at San Stefano and to submit to such terms as the noncombatant nations saw fit to allow at Berlin. And in her last war Japan inflicted a signal defeat upon China and dictated the terms of peace in the treaty of Shimonoseki, which was ratified on May 8, 1895. But only two days later, at the dictation of Russia, Germany and France, the Japanese emperor signed a document in which he renounced and gave up the chief advantages he had gained by that treaty. Similarly now, it is quite certain that Japan will not become a Russian province, nor will there be any 'yellow peril' under the leadership of Japan, for, no matter which side wins, the treaty of peace will be made, not by the two combatants, but by a congress of all the great powers, including ourselves—so far have unforeseen events carried us away from the traditions of Washington. The terms of that treaty will be such as the great nations think best for the interests of the whole world, and not alone of the two nations who carried on the war."

ORIGIN OF NUMERAL SYSTEM

Paper Read Before Philological Society Comments on Forerunners of Present Method.

In a paper read before the Philological society of the University of Michigan, recently, Prof. George Hempl commented upon the forerunners of our present system of numeration. Some two years ago, in seeking the origin of the Runic letters (the first letters used by the Germanic races), Prof. Hempl discovered the primitive Germanic numeral notations. This threw new light upon the early Germanic numerical system, as well as upon the primitive Indo-European numerical system, and upon the development of the Greek alphabet and the Greek numerical notation. The primitive Indo-European numerical system was a mixture of the decimal and the sexagesimal. The first large number was the "shock," that is, 60, and the next large number was the "hund," or "hundred," that is, 120. Between 60 and 120 there were no numbers like our 70, etc., 70 being "a shock and 10," and 80 being "a shock and 20." The introduction of our present numbers between 60 and 120 arose out of the introduction of the decimal hund or hundred, that is, 100, in distinction from which the old hundred (120) was called the duodecimal hundred, or the "great hundred," which is still used in Iceland and parts of England.

BOSTON GOT ITS BEANS.

Absence of Favorite Dish Once Threatened City, But Striking Bakers Took Pity.

It has never been successfully disputed, says the Boston Watchman, that Bostonians are extremely addicted to baked beans (with their orthodox and inseparable companion, brown bread) and to pie. But no one has hitherto settled which of the two held the higher place, or, in other words, which is more necessary to the maintenance of truly Boston life at the proper point of culture and coldness. The decision of this delicate and difficult yet delightfully interesting question, which has successfully defied in the past both the literary skill and intellectual powers of the city, has been left for solution to the exigencies of the modern industrial problem. In the recent strike of 1,400 bakers Boston was compelled to go pie hungry for days. But when Saturday night approached and the dreadful possibility appeared of Boston being compelled to face a Sunday morning without baked beans, the hearts and consciences of the bakers were stirred, and they made a special and extraordinary effort to supply the city with its habitual Sunday morning breakfast, while no such emotion was elicited by the sufferings incident to the lack of pie.

PENNSYLVANIA'S BIG TREE.

Largest Chestnut in Keystone State Is More Than Two Hundred and Twenty Years Old.

On the farm of Irwin H. Schantz, who lives near Spinnerstown, Bucks county, Pa., stands a mammoth chestnut tree, one that eclipses all the rest of the giant chestnut trees in the Keystone state. Two feet above the ground the circumference of the trunk of this tree measures exactly 36 feet. The tree's height is 60 feet, and ten feet from the ground are two branches, one to the left and the other to the right, and the circumference of the former is eight feet, the latter nine feet two inches. Ten feet above the ground its great branches extend, one of them six feet four inches in circumference, each of the others a few inches less. Its boughs spread nearly 60 feet.

The age of the tree, says the Philadelphia Record, is known to be at least 221 years, from tales told by ancestors of the proprietors of the property on which the tree stands. No one ever thought of cutting this giant down, except in 1876, at the time of the Centennial in Philadelphia, when the exposition commission offered the proprietors $100 for an unbroken section of the trunk one foot from the ground. What saved the mammoth from destruction was the fact that no saw long enough to cut it could be procured.

With luxuriant foliage like that of a young tree, the monster chestnut still bears abundant crops.

Four Hundred Babies.

St. Vincent's Infant Asylum, Chicago, shelters homeless waifs awaiting adoption, and there are nearly 400 babies there. Sister Julia writes: "I cannot say too much in praise of Foley's Honey and Tar for coughs, colds, croup and whooping cough." Contains no opiates and is safe and sure. Ask for Foley's Honey and Tar and insist upon having it, as it is a safe remedy and certain in results Refuse substitutes. Sold by A. L. Reichert.

TAINTED BLOOD

Columbus, Ohio, May 19, 1903.

Some four years ago I was suffering from impure blood and a general rundown condition of the system. I had no appetite, was losing flesh, and had an all-gone tired feeling that made me miserable. I began the use of S. S. S., and after taking seven or eight bottles my skin was cleared of all eruptions and took on a ruddy, healthy glow that assured me that my blood had been restored to its normal, healthy condition. My appetite was restored, as I could eat anything put before me, and as I regained my appetite I increased in weight, and that "tired feeling" which worried me so much disappeared, and I was once again my old self.

I heartily recommend S. S. S. as the best blood purifier and tonic made, and strongly advise its use to all those in need of such medicine. VICTOR STUBBINS.
Cor. Barthman and Washington Aves.

Wheeling, W. V., May 28, 1903.

My system was run down and my joints ached and pained me considerably. I had used S. S. S. before and knew what it was, so I purchased a bottle of it and have taken several bottles and the aches and pains are gone, my blood has been cleased and my general health built up. I can testify to it as a blood purifier and tonic.

OF CLOTHING

As I want more room for my other lines of goods, my entire line of Clothing will be closed out at cost. A good-siged stock of Friend Bros. clothing for men, youths and boys is carried and you can get some splendid values in good goods at actual cost. Call soon, as the goods will go rapidly.

M. SKALA

Northside, Red Lake Falls.

Red Lake Courier.

Printed Every Thursday Evening at Red Lake Falls, Minnesota.

By JOHN E. KING.

$1.00 Per Year, in Advance.

THE Windom Reporter remarks that it is hard on a man to have to be able to support an automobile as well as a woman before he can get married.

W. C. WHITEMAN, the affable Ortonville editor, seems to have the call on the presidency of the Minnesota editorial association at the meeting in St. Paul next month.

THE Duluth News-Tribune observes: "Speaker Clague has tasted the bitterness of success. His committee appointments have failed to make a unanimous hit. It was ever thus."

How generous! The Thief River people really figured on allowing us to keep the court house for three or four years had the commissioners been good and not bought property in Red Lake Falls.

PRESIDENT ROOSEVELT seems to be developing some radical convictions which were not mentioned in the convention platforms. As long as they are on the side of the people there will be no objection.

THE new state capitol is being severely criticized by the newspapers of the state. However, there seems to be no difficulty on the part of Governor Johnson in finding people willing to live in it for a couple of years.

SENATOR GEORGE SOMERVILLE is making a new record as a criminal lawyer in defending Dr. Koch, charged with murder at New Ulm. Whether the Doctor is declared innocent or guilty, he can be assured that his lawyer left no stone unturned that would aid in his defense.

JIM MARTIN's arduous political efforts have been rewarded by his appointment as postmaster of St. Cloud. Well, Jim worked hard enough for the place, and we trust he will remember that a postmaster is not supposed to be offensively partisan.

SENATOR MOSES E. CLAPP was reelected Tuesday by the Minnesota legislature for the term of six years commencing March 4 next. There were only 13 votes against Mr. Clapp. Twelve of these were cast by the Democrats for Hon. Robert A. Smith, mayor of St. Paul, and one by Representative Ware of Northfield for Frank Clague, speaker of the house. Seven Democrats voted for Senator Clapp.

GEORGE W. PETERSON, of Long Prairie, has gone to Washington, where it is his mission to deliver to the president of the United States Senate, the vote of the Minnesota presidential electors. The electors met at St. Paul last week, formally cast the vote of the state for Theodore Roosevelt, and selected Mr. Peterson to carry the vote to the national capital. He is entitled to three dollars a day and fifteen cents a mile for the trip, which will mean a total remuneration of approximately $450.

DR. H. M. BRACKEN, in his annual report as secretary of the state board of health, gives a chapter on leprosy in which the following paragraph occurs: "It has been the general belief that there were no American-born lepers in the northwestern states, where the population is made up largely of Scandinavians and their descendants, but this statement can no longer be maintained, for now I have knowledge of three American-born, who contracted leprosy in Minnesota."

LAST week the Thief River newspapers come out in double-column broadsides announces the opening of a county-seat war. This week they will draw in their horns. There will be no county-seat war. Thief River Falls doesn't want one, and to all intents and purposes the seat of county government is irrevocably fixed at Red Lake Falls for all time and then some. The newspapers of the up-river city were a little hasty. If they had consulted the proper persons they would have known last week that there would be no contest.

THERE is a great deal of criticism of the Horton capitol commission bill, which passed the senate Monday evening. This bill gives entire control of the now capitol to a commission, and a $3.000 official is to be the general overseer of the work. Heretofore the capitol has been in charge of a custodian appointed by the governor, and it is the general feeling that the Republican legislature is attempting to take out of Governor Johnson's hands the appointment of the cutodians and workmen necessary to employ in taking care of the building. The fact that the life of the commission is to be but two years looks on the face to be a direct slap at the Democratic governor.

A NATION'S TRUE GLORY.

At this time, when many people seem disposed to measure a nation's greatness by the size of its army and its navy, and its future by its wealth, it will not be out of place to recall the words of Bishop Whipple, which present a higher national ideal. The words are worth remembering, Bishop Whipple says:

"The true glory of a nation is an intelligent, honest, industrious Christian people. The civilization of a people depends on their individual characters; and the constitution which is not the outgrowth of this character is not worth the parchment on which it is written. You look in vain in the past for a single instance where the people have preserved their liberties after their individual character was lost. It is not in the magnificence of its palaces, not in the beautiful creations of art lavished on its public edifices, not in costly libraries and galleries of pictures, not in the number or wealth of its cities, that we find a nation's glory. The ruler may gather around him the treasurer of the world, amid a brutalized people; the senate chamber may retain its faultless proportions long after the voice of patriotism is hushed within its walls, the monumental marble may commemorate a glory which has forever departed. Art and letters may bring no lessons to a people whose heart is dead. The true glory of a nation is the living temple of a loyal, industrious, upright people. The busy click of machinery, the merry ring of the anvil, the lowing of the peaceful herds, and the song of the harvesthome, are sweeter music than the paeans of departed glory, or the songs of triumph in war. The wineclad cottage of the hillside, the cabin of the woodsman, and the rural home of the farmer are the true citadels of any country. There is a dignity in honest toil which belongs not to the display of wealth or the luxury of fashion. The man who drives the plow, or swings his axe in the the forest, or with cunning fingers plies the tools of his craft, is as truly the servant of his country as the statesman in the senate, or the soldier in battle. The safely of a nation depends not alone on the wisdom of the statesman, or the bravery of its generals. The tongue of the statesman never saved a nation tottering to its fall; the sword of a warrior never stayed its destruction. Would you see the image of true national glory, I would show you villages where the crown and glory of the people are in common schools, where the voice of prayer goes heavenward, where the people have that most priceless gift, faith in God."

"I never expect the time to come when I shall regret my connection with the Modern Woodmen."—Hon. Richard Yates, Governor of Illinois.

DR. FENNER'S
Kidney AND Backache Cure

ALSO PURIFIES THE BLOOD.

All Diseases of the kidneys, bladder, and urinary organs.
Also heart disease, rheumatism, backache, gravel, dropsy, female troubles.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations are FREE.

"This is to certify that I was laid up with Sciatic Rheumatism 16 months, being unable during that time to perform any labor and had paid out $490 to physicians without benefit. Being advised by a friend to try Dr. Fenner's Kidney and Backache Cure I did so and 4 bottles cured me. Since then I have recommended it to hundreds suffering with kidney troubles and the result has been a cure in every case. O. S. SPRAY, Bloomington, Ill."

Sold by Druggists, 50c. and $1. Ask for Dr. Fenner's Almanac or Cook Book—free.

ST. VITUS' DANCE. "We have sold many dozens of Dr. Fenner's St. Vitus Dance Specific and every case has been cured by it. It is a blessing. ALLEN-CLARK DRUG CO., Akron, O."

Sold by A. L. REICHERT, Red Lake Falls.

Educational Column.

Conducted by E. W. Chamberlain, Superintendent Red Lake Falls Schools.

If all the teachers in the county were to be asked, "what do you consider the hardest subject you have to teach?" I doubt not that most of them would say at once, Language.

Should this be so; yes and no. If they try to make a separate subject of it and try to spend as much time on it as a special subject, then they may well say "yes," for handled that way it is the hardest subject in the curriculum to interest a pupil in. But if it is used as a medium by which all other subjects are handled, as instrument for expressing ones thots about his lessons, then it may be called the easiest subject to teach.

What is Language? By Language in our schools of course we mean English Language. It is simply the instrument that the English people use to express their thots to one another. Using correct Language simply means using that instrument correctly or as the best writers and speakers use it. The laws of our language are not a set of arbitrary laws created by a few men, telling us how to use that instrument, but they are a set of laws carefully compiled telling us how the majority of those best fitted to know actually have used this instrument.

How then is the best way to teach our children to use that Language correctly? A careful study of the question will convince us that we must proceed along two lines. It must be treated; first, as a science and then; as an art. The science will teach the child how others use it, and the art will lead them to put into practice what they have been taught.

When can they be taught how others use Language to better advantage in the lower grades than in connection with the reading lesson? Did you ever stop to think how carefully our lower grade readers are thot out, and how well fitted they are to use as examples of correct Language?

"But," I hear some of you say, "how shall I use them to teach the correct use of Language?" Simply by teaching them how the author used the different words, phrases, and clauses. No, I would not teach the technical terms, noun, verb, phrase and clause, etc., etc.,

But I would have them all become familiar with words, use in the sentence, and lead them to know with conscious knowledge, the many different that authors use words for. To illustrate: Take the following page from one of our first readers.

The ducks like the rain.

They cannot fly like larks, but they can swim.

The little ducks are as yellow as buttercups.

They like to swim in the brook.

The old duck swims with them sometimes. Sometimes she waits for them on the land.

To carry this work out successfully requires much thot and study on the part of the teacher, much tact, and a large knowledge of the mental status of the pupil.

It would hardly do to ask a first reader pupil at the outset what the author used the word "the" for in the first sentence or the word like in the second sentence. But should you ask what he used the word ducks for, and should you rightly direct your question you would soon get the answer, the author used the word ducks to name the things that like the rain.

What did the author use the word like for in the first sentence? The author used the word like to tell what the ducks did; what did he use the word rain for? The author used the word rain to name the thing the ducks like; what did the author use the word "they" for in second sentence? The author used the word they instead of ducks. Now just a few answers I should expect to get. The author used the word little to tell how big the ducks were. He used the word young to tell how old the ducks were or are. He used the word yellow to show what color the ducks were or are. He used the words "to swim" to show what the ducks like to do.

The author used the words "in the brook" to show where the ducks like to swim. He used the words "for them" to tell why the old duck waits, or what the old duck waits for.

He used the words "on the land" to tell where the old duck waits for them. He used the word "sometimes" to show when she waits for them. He used the word "waits" to show what the old duck does.

Surely when your children have gone thro the whole list of uses of words in this simple way they know much of the science of Language altho they know on tichnical term. And is not every answer teaching them the art of using correct language? But none of the art in the future.

Teachers, try this combining of Language with your Reading and see if you do not find better results and less worry.

THE St. Paul Dispatch says the members of the legislature with "customary complacency with railway passes in their wallets, on which they rode cost free from their domiciles to St. Paul, went down to the state treaurer's office and drew the mileage whose sole purpose is to reimburse them for their expenditure for railway transportation." And the Albert Lea Standard adds that yet they but followed a practice which has prevailed since ever there has been a railroad in the state. It is nevertheless pernicious, an imposition on the railroads, a graft at the expense of the taxpayers, and it ought to be abolished by law. Gov. Lind recommended the passage of an act to stop it, and now Governor Johnson has repeated the evident need of the reform. It next remains to be seen whether the legislature has a sufficient sense of public duty and civic decency to abolish the corrupting and demoralizing "habit."

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate person. Sold by A. L. Reichert.

Railroad Construction.

St. Paul Pioneer Press: The year just closed proved to be a distinctly poor one in the matter of railway building, as every one expected it would be as a result of business conditions during the first half of the year. According to the Railway Age only 4,168 miles were added to the railway mileage of the country against 5,786 miles in 1903 and 5,684 miles in 1902. Not since 1898, when only 3,083 miles were built, has there been less activity.

A Narrow Escape.

Mr. Henry St. George, of Elm Grove, Wis., thought that he was permanently crippled. Sciatica rheumatism had such an iron grip on him that he thought that he would never be able to walk again, but through the aid of Gloria Tonic he was completely cured after high priced Doctors failed. Sold by W. A. Schreiter.

Sickening Shivering Fits

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists, price 50c, guaranteed.

"Flinch," "Somerset, and all the new card games at THE COURIER stationery store.

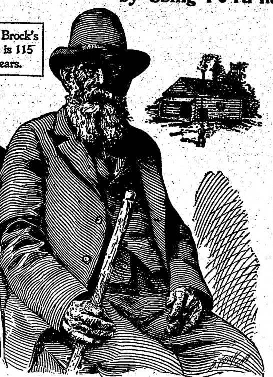
THE OLDEST MAN IN AMERICA

Tells How He Escaped the Terrors of Many Winters by Using Pe-ru-na.

Mr. Brock's Age is 115 Years.



MR. ISAAC BROCK, BORN IN BUNCOMBE CO., N. C., MARCH 1, 1788.

His age is 115 years, vouched for by authentic record. He says: "I attribute my extreme old age to the use of Peruna."

Born before the United States was formed.
Saw 22 Presidents elected.
Pe-ru-na has protected him from all sudden changes.
Veteran of four wars.
Shod a horse when 99 years old.
Always conquered the grip with Peruna.
Witness in a land suit at the age of 110 years.
Believes Peruna the greatest remedy of the age for catarrhal diseases.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 115 years. For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

A short time ago, by request, Uncle Isaac came to Waco and sat for his picture. In his hand he held a stick cut from the grave of General Andrew Jackson, which has been carried by him ever since. Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 115 years ago.

Surely a few words from this remarkable old gentleman, who has had 115 years of experience to draw from, would be interesting as well as profitable. A lengthy biographical sketch is given of this remarkable old man in the Waco Times-Herald, December 4, 1898. A still more pretentious biography of this, the oldest living man, illustrated with a double column portrait, was given the readers of the Dallas Morning News, dated December 11, 1898, and also the Chicago-Times Herald of same date. This centenarian is an ardent friend of Peruna, having used it many years.

In speaking of his good health and extreme old age, Mr. Brock says:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so.

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 115 years I have withstood the changeable climate of the United States.

"I have always been a very healthy man, but of course subject to the little affections which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds and diarrhœa.

"As for Dr. Hartman's remedy Peruna, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe and found it to be just the thing."

In a later letter dated January 31, 1903, Mr. Brock writes:

"I am well and feeling as well as I have for years. The only thing that bothers me is my sight. If I could see better I could walk all over the farm and it would do me good. I would not be without Peruna."

Yours truly,

Isaac Brock,

For a free book on catarrh, address The Peruna Medicine Co., Columbus, O.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

One of Billy Krueger's bus horses died last Saturday. Billy promptly went out in the country and secured another one.

James Powers, of Crookston, spent several days at this place the past week in the interest of the Singer Sewing Machine Co.

If you want a short course (usually 3 mos.) in bookkeeping the Crookston College will give you the same, including books, for $25. tf

The following letters remain unclaimed in the postoffice: Bena Shun, A. S. Fitch, Ernie Howard, Anthony Raiche–2, J. Tyson and Wm. Schumaker.

Deputy Sheriff Geo. Jarman, of Thief River Falls, has been at this place most of the time the past week attending to official duties during Sheriff Linnihan's absence.

E. L. Slater, the new state dairy and food commissioner, has announced assignments for his staff. J. G. Winkjer, of St. Hilaire, is to be one of the creamery and dairy inspectors.

Archbishop Ireland has been in the east and says every where he was asked questions in regard to the New Ulm murder, and he says the case is attracting attention the country over.

The Knights of Pythias gave a very enjoyable card party last Friday evening at their lodge rooms in honor of Mr. and Mrs. H. M. Johnson. Those present report a most enjoyable time.

An Auditor of the Soo Ry. while in Thief River Falls recently said that a $30,000 or $40,000 hotel was a possibility at that place the coming year. He says the project will be backed by his road.

Hon. Ole Peterson, of Brighton, was the guest of Mr. and Mrs. L. E. Erickson several days last week. Mr. Peterson is a member of the legislature and is serving his second term as representative from Nicollet county.

While blasting on the Great Northern right-of-way yesterday a large chunk of frozen earth was thrown through a window in A. L. Reichert's residence. Fortunately the velocity of the projectile had been spent and no damage was done save the breaking of a couple of window panes

Seven candidates were initiated into the mysteries of the Modern Brotherhood of America Monday evening. This lodge is growing rapidly, and gives promise of soon being the largest lodge in Red Lake county.

Mr. and Mrs. H. M. Johnson returned to their home at Park River, N. D., Monday, after a week's visit here with relatives and friends. The couple have hosts of friends at this place who will always be glad to welcome them.

Patrick King, an old settler of Red Lake county, died Monday morning at his home in St. Hilaire at the advanced age of 85, of senility. The funeral was held Tuesday morning from St. Mary's church in Red Lake Falls.

Some colleges offer a life scholar ship and a situation at the end of that time. Button's Business College, Crookston, Minn., guarantees a good paying position in from three to four months or you pay nothing for your tuition.

James Cunningham, a young man who was employed here on the steam shovel, was taken sick last week and confined to his room at Paul's hotel. He has been on the mend this week and expects to leave tomorrow for his home at Marion, Ohio.

One of the Red Lake Falls Milling Co.'s teams indulged in a runaway Monday morning, and barely missed being struck by the Great Northern morning passenger train. However they got over the track safely, and no serious damage was done.

"Queen quality" reigns only as a shoe for particular women—for women who wish that certain gracefulness in walking which can only be attained by a perfect-fitting shoe. Prices very moderate—$3 and $3.50. For sale by Garceau & Zaiser.

There will be four eclipses during the year 1905. A partial eclipse of the moon will occur on February 19–20 but it will not be visible in this country. The annual eclipse will occur on August 14–15 and will be visible throughout the Western hemisphere.

Parents should be careful that their children's feet do not become flat-footed or deformed by wearing poorly-made shoes. "Red School House" shoes are made correctly. School bags free with every pair of shoes sold.—Garceau & Zaiser.

The ladies' aid society of the Presbyterian church will be entertained next Wednesday afternoon, January 25, at the home of Mrs. C. E. Boughton. A ten cent lunch will be served from 4 to 6 p. m. A cordial invitation to attend is extended to everybody.

Representative Simons of Red Lake Falls was treated very liberally by Speaker Clague in the matter of committee assignments. He is chairman of the committee on banks and banking, one of the most important in the house, and besides has five or six minor assignments.

You Must use YEAST FOAM

The Wonderful Yeast

If you want to make **Bread** that is **Bread**

Yeast Foam is the yeast that took the First Grand Prize at the St. Louis Exposition. Sold by all grocers at 5 cts. a package—enough for 40 loaves. Send a postal card for our new illustrated book "Good Bread: How to Make It."

NORTHWESTERN YEAST CO.
CHICAGO, ILL.

Attorney Grady went to St. Paul the fore part of the week to argue the Kratka-Richardson mayoralty case before the supreme court. It seems that Mr. Kratka will get little glory or salary out of the position even though he should win, as the term of office will expire with the current year.

A basket supper will be served by the Modern Woodmen of America at their hall next Monday evening, January 23. A cordial invitation to attend is extended to everybody, whether or not they are members of the lodge. A good time is assured, and it is hoped that a large crowd will be present.

Naniel Breeneau brought an action against Emory Dion in Justice Toupin's court last Saturday, claiming money due for drilling a well. The case was continued until Wednesday, Jan. 25. Atty. Grady appeared for the plaintiff while the defendant's interests were looked after by County Attorney Germo.

Miss Rosanna Grenier, the eleven-year-old daughter of Frank Grenier, died yesterday after a short illness with rheumatism of the heart. The funeral will be held tomorrow from St. Mary's church. Miss Rosanna was an unusually bright and attractive child, and the family has the sympathy of all in their great affliction.

A man in Indiana in returning home from hunting the other day found his neighbor just leaving the house, and being of a jealous nature, drew his gun and filled the man's legs with fine shot. A law suit followed and it was learned that the man was there to borrow the local paper. The law suit cost $75 and the doctor bill was $25 and $1 would have saved the trouble.

The business outlook over the country is much brighter than it has appeared for two or three years past, the city merchants especially apparently realizing and giving forth information leading to this conclusion. The condition of the soil for crops is much improved and farmers feel much encouraged over the prospects for a good crop. They expect it and deserve it.

When County Treasurer Hansen returned from Thief River Falls Monday morning wearing a smile from here to yonder we were a little nervous, thinking perhaps the town to the north of us had sneaked off with the court house while we were asleep Sunday morning. Karl soon relieved our mind by telling us the cause of his smile was the arrival of a bouncing baby girl at his home last Thursday.

Thief River News: County superintendant of schools McAnulty was in the city last week giving a number of settlers on the eleven towns pointers as to how to form new school districts. The organizing of these new districts will envolve a great deal of work and the county superintendent has shown a disposition to aid the settlers in every way possible. A number of new school districts will be organized at the next meeting of the board of county commissioners.

Thief River Review: The annual meeting of the National Bank was held last Tuesday afternoon in the director's room. There was no change made in the board of directors and old official were all re-elected. O. T. Tandberg, the retiring county treasurer, was elected as assistant cashier, as was also Mr. Baker. The business for the past year shows a healthy increase in all departments. A satisfactory dividend was declared and a substatial addition made to the surplus fund.

The man who kindles the fire with the catalogues from the department stores, and gives all his trade to his home merchants, is the man who helps to put a better value on his property. The more a town grows and the more business it does, the greater the increase in the value of property—both city and farm. The man who patronizes the city department store in preference to his home merchants, thinking that he might thereby save a few paltry pennies, is detracting from the wealth of his own community.—Adrian Democrat.

A minister's wife, a doctor's and a traveling man's wife met one day recently and were talking about the forgetfulness of their husbands. The minister's wife thought her husband was the most forgetful man living because he would go to church and forget his notes and no one could make out what he was trying to preach about. The doctor's wife thought her husband had a poorer memory still, for he would often start out to see a patient and forget his medicine case, and travel nine to ten miles for nothing. "Well," said the traveling man's wife," my husband beats that. He came home the other day and patted me on the cheek and said, "I believe I have seen you before—what is your name."—Ex.

The Busy Store's Stock-Taking Sale

After taking inventory we find many odds and ends accumulated from the tremedous volume of business done in the economical supply-center during the last four months; we have decided to sell these goods at a deep cut in price.

This Sale is a great money-saving opportunity.

Careful, economical buyers will instantly realize the advantage of these unparalled offerings.

Garceau & Zaiser.

The steam shovel, which has been used by the Great Northern contractors here during the past several months, will be shipped this week to Idaho, where the company has several cuts to make in the mountains. The connection at this point will be finished in about ten day, and it is altogether likely that the trains will run via Tilden after February 1. It is thought the new time-table will be promulgated next week, and the northbound train is expected to reach Red Lake Falls about 9:15 a. m., returning about 6 p. m.

Nels Helland, of Emardville township, will hold a public sale at his farm on Monday, January 30. Mr. Helland is figuring on moving to North Dakota in the spring. He is sadly afflicted, being totally blind. About two years ago Mr. Helland was injured in the back while working in the lumber camps, and the affection gradually spread to the eyes. There is now little hope that he will ever recover his sight. Bills will be printed this week detailing the property to be offered for sale, and doubtless the friends and neighbors of the unfortunate gentleman will attend the sale and offer a fair price for the goods.

"The Heart of a Hero" is the title of a pretty little drama to be presented at the opera house Friday evening, January 27 by the Spartan literary society of the high school. The proceeds will be applied toward buying books for the school library. The drama is especially suited for amateur players, and there is every assurance that it will be well rendered. It sparkles with fun from first to last, and is full of pathetic and exciting situations. It is expected that the orchestra will furnish music, and this in itself will be a drawing card. New athletic specialties are being prepared, and Harry Healy will swing Indian clubs with torches. This is a beautiful sight and well worth your money. The prices of admission will be 15c, 25c and 30c.

Stone Wanted.

The undersigned will contract for stone to be delivered during winter at mill. Red Lake Falls Milling Co. tf

Lent Begins Late.

The season of lent begins unusually late this year as Ash Wednesday comes on March 8. Easter Sunday, which marks the close of lent, will therefore fall on April 23.

Real Estate Transfers.

SUCCESSFUL BUSINESS MEN.

Some of the Qualifications Necessary for the Highest Success

1. A good business education.
2. A good moral character.
3. Energy and self reliance.
4. Good judgment.

Persons seeking a practical business education in a very short time should attend some business college.

There is no college in the United States that places so large a percentage of its pupils in good paying positions as Button's Business College, Crookston, Minnesota. It positively guarantees situations to all graduates and asks no pay until it has fulfilled its agreement.

The college that offers the most gets the business.

Pupils take the time to investigate before entering a college these days.

They want to learn only by the best and quickest methods.

And they will go where they can get the most for their money.

Ninety-five per cent of the busines men of Crookston will advise you to go to **Button's Business College.** Ask them and see.

10 cts. per copy $1.00 per year

McCLURE'S MAGAZINE

is "the cleanest, most stimulating, meatiest, general magazine for the family," says one of the million who read it every month. It is without question

"The Best at any Price"

HIGH HONOR FOR AN ILLINOIS MAN

CONGRESSMAN WARNER PLACED AT HEAD OF PENSION DEPARTMENT.

Bristow Quits Postal Service to Accept Commission to Make Investigation of Trade Conditions and Freight Rates.

Washington, Jan. 14.—The president Friday appointed Vespasian Warner to be commissioner of pensions. Mr. Warner is now a member of congress from Illinois. Mr. Warner is from the Nineteenth district of Illinois and was reelected last November for the fifth term and was strongly indorsed by the state delegation and by prominent members of the G. A. R. and other organizations of ex-soldiers.

New Position for Bristow.

Washington, Jan. 14.—Joseph L. Bristow, fourth assistant postmaster general, on Friday tendered to the president his resignation as an officer of the postal service to take effect on the 20th instant. By an executive order issued late in the afternoon President Roosevelt designated Mr. Bristow as a special commissioner to make an investigation into the present trade conditions and freight rates between the Atlantic and Pacific coasts and between the west coast of South America and the east coast of the United States, and Europe, to determine the best policy of managing the Panama railroad. The announcement came at the conclusion of an extended conference between the president, Secretary Taft, Mr. Bristow and Senator Long, of Kansas. After the conference at the white house, Senator Long said that the transfer of Mr. Bristow from the post office department to work in connection with the proposed isthmian canal had been under consideration for a long time. Mr. Bristow has had interviews with the president and Secretary Taft regarding the matter, but his final determination was not reached until Friday. His decision to accept the special commissionership was hastened, it is understood, by the transfer Thursday of the division of post office inspectors from the bureau of the fourth assistant postmaster general to the direct control of the postmaster general himself. Mr. Bristow regarded the issuance of the order of transfer of the division as a reflection upon him. That the order as to the inspectors' division was not issued with the idea of humiliating Mr. Bristow is evidenced by the president's action on Friday.

WILL QUIT OFFICE.

Premier Combes and His Colleagues in the French Cabinet Decide to Resign.

Paris, Jan. 16.—The ministry of M. Combes, after emerging successfully from its bitter midnight struggle in the chamber of deputies, has decided to abandon the field while some portion of its prestige still remains, and has signified its intention of resigning. Official announcement of the resignations has not yet been made, but M. Combes has definitely stated the intention of himself and his colleagues, and the termination of the ministry after a tempestuous career of three years only awaits the formal submission of the letters of retirement. These have not yet been forwarded to President Loubet because of the death of the latter's mother, which occurred Sunday.

The effect of the change upon the government's policies is not considered to be great. The new ministry will have the same majority as that supporting Premier Combes, and so there cannot be a radical change. This majority has repeatedly upheld M. Combes' project tending toward separation of church and state. It is expected, therefore, that the programme relating to separation will be carried out, although M. Combes' retirement probably will exercise a moderating tendency.

The issue which proved most decisive in hastening the resignations of the ministers was a popular outcry against secret reports on the lives of army officers. The change will undoubtedly insure the abandonment of the last vestige of this system. The enactment of an income tax and other important measures will not be materially affected.

Would Give Taft More Power.

Washington, Jan. 14.—President Roosevelt, in a brief message transmitting to congress the first annual report of the Panama canal commission, together with a letter from Secretary Taft relating to Panama affairs, recommends that he be given greater discretion, as he is charged with the responsibility of constructing the canal. The board of canal commissioners, he says, should be reduced to five or preferably three members, whose duties, powers and salaries should be assumed by the president.

Files Notice of Contest

Denver, Col., Jan. 13.—Notice of former Gov. James H. Peabody's contest against Gov. Alva Adams for the office of governor was filed with the legislature Thursday. The complaint sets forth the allegation that the majority of 9,774 for Adams on the face of the returns as finally canvassed was obtained by means of a conspiracy in Denver and several other counties.

Not Properly Constituted.

Reading, Pa., Jan. 14.—The ecclesiastical court of inquiry called to consider charges against Bishop Talbot, of central Pennsylvania, adjourned sine die Friday afternoon, the members having decided that the body was uncanonically constituted.

THE KOCH TRIAL.

The Defendant Testifies in His Own Behalf and Comes Out Well in the End.

New Ulm, Minn., Jan. 17.—Dr. Geo. R. Koch, whom the state charges with murdering Dr. L. A. Gebhardt, was on the witness stand nearly five hours yesterday, and at the conclusion of his cross-examination by Gen. Childs he returned to his seat near his attorneys. His bearing and his testimony was a source of satisfaction to his friends and a disappointment to some of his accusers.

The accused man proved to be the star witness for the defense, and while his testimony added nothing new in the way of facts, his appearance on the stand and his demeanor under fire of questions were strong points in establishing a conviction that he is innocent.

As a witness for the defense Dr. Koch was a conceded suscess. Carefully he was led over the ground by his lawyer and in testimony told minutely of his movements and whereabouts every moment of the day of the murder. If he did not kill Dr. Gebhardt, Dr. Koch may be portrayed as ordinay young man.

Dr. Koch's testimony was the feature of the day. There was a large crowd in attendance during the afternoon session and the stillness of the court room while the accused told his story was noteworthy.

After Dr. Koch left the stand half a dozen witnesses were put on by the defense.

Miss Ida Koch testified to having marked some of the defendant's handkerchiefs. She was given the bloody handkerchief to inspect and said it was not her brother's.

Prof. Fischer of Madison Wis., assisant professor of chemistry in the state university and state chemist of Wisconsin, testified concerning the poison bottle.

Dr. J. H. Vogel and Mr. Abbot identified an advertising pencil produced in court as the one laid away by Dr. Koch the morning after the murder.

Both the pencil and the box were placed in evidence without objection from the state.

FIRE AT ST. CLOUD.

Lives of 150 Girls in the Normal School were in Great Peril—Many Narrow Escapes.

St. Cloud, Minn., Jan. 16.—A fire at 4:30 Saturday afternoon, believed to have been caused by an overheated chimney in the attic, totally destroyed Lawrence Hall at the St. Cloud state normal school, together with the entire contents, and rendered homeless 150 girls rooming in the building. There were many narrow escapes from death in the panic that followed the announcement of fire. John Duncan, a fireman, leaped twenty-five feet to avoid being buried under a falling wall, and sustained a broken leg and other internal injuries.

When the alarm was sounded, there were four girls sick in their beds. Three were able to dress and and get out, but the fourth, Freda Giles of Verndale, Minn., had to be carried out and later was taken to a hospital in an unconscious condition. The janitor built a rousing fire about 3:30, and at 4:25 fire was discovered in the attic. President Shoemaker thinks it started from a defective flue, though there are stories that some of the girls were making fudge with an alcohol lamp, which tipped over accidentally.

Formal Entry of Japanese.

Headquarters of the Third Japanese Army at Port Arthur, Jan. 17.—The victorious Japanese army Friday formally entered Port Arthur. General Nogi with his staff entered first through the old town, and took his stand in the public square of the new town. The army was represented by one regiment from each brigade. The prosession, which was five miles long, was three hours passing the saluting base.

Nearly Burned to Death.

Minneapolis, Jan. 16.—A fire, probably caused by spontaneous combustion in rags saturated with turpentine, caused a loss of about $5,500 to the shoe store of John A. Sederberg, 1213 Washington avenue S. The building is a three-story brick structure and a dozen families occupy the two upper floors. It was with the greatest difficulty that these persons were awakened and taken safely to the ground.

Murder and Suicide.

Norfolk, Neb., Jan. 17.—Andrew Nelson, aged 20, a farm hand, murdered Miss Carrie Jacobson, 19 years old, and then killed himself, near Neligh, Neb. Nelson blew off the girl's head with a shotgun, and, turning the gun on himself, was instantly killed. Jealousy was the cause.

McKinley Monument.

Canton, O., Jan. 17.—Harold Van Buren Magonigle, architect of the McKinley monument to be erected in Canton, has announced that construction will begin about June 1. The shaft will require about two years for completion.

TWIN CITY MARKETS.

Business men say its the best school in the Northwest. Catalog free. F. L. WATKINS, Pres. FARGO, N. D.

Blame

No One But Yourself if You Don't Get Well When Sick.

All we can do is give advice.

Of course that's easy.

But our advice is really worth a little more to you than most people's, for we offer to give you the first bottle of our medicine free, if it fails to help you.

We could not afford to do this unless our medicine was good. Such an offer, on the wrong kind of medicine, would put a merchant prince in the poor house.

Dr. Miles' Nervine, however, as years of experience have proved, is a medicine that cures the sick.

Those whom it cannot benefit—less than one in ten thousand—we prefer to refund their money.

All we ask of you is to try Dr. Miles' Restorative Nervine for your complaint. If you suffer from sleeplessness, nervous exhaustion, dizziness, headache, muscular twitchings, melancholy, loss of memory, weak stomach, poor blood, bilious troubles, epilepsy, St. Vitus' Dance, etc., we will guarantee to benefit you or refund your money.

You are the doctor.

"My son Bert, when in his 17th year, became subject to attacks of epilepsy, so serious that we were compelled to take him out of school. After several physicians had failed to relieve him, we gave Dr. Miles' Nervine a trial. Ten months treatment with Nervine and Liver Pills restored our boy to perfect health."—MR. JOHN S. WILSON, Deputy Co. Clerk, Dallas Co., Mo.

FREE Write us and we will mail you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New, Scientific Remedy for Pain. Also Symptom Blank for our Specialist to diagnose your case and tell you what is wrong and how to right it. Absolutely Free. Address: DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

SURRENDER WAS NOT NECESSARY

REPORTS SAY STOESSEL COULD HAVE HELD CITY FOR MONTHS.

GENERAL HAD 31,000 TROOPS IN FORTRESS

Disgraceful Orgies Follow Capitulation—Buildings and Shipping Badly Damaged—Formal Entrance Into City Is Made.

Headquarters of the Third Japanese Army at Port Arthur, Jan. 14, via Tientstsin, Jan. 17.—The victorious Japanese army Thursday formally entered Port Arthur. Gen. Nogi with his staff entered first through the old town, and took his stand in the public square of the new town. The army was represented by one regiment from each brigade.

Procession Five Miles Long.

The procession, which was five miles long, was three hours passing the saluting base, after which the troops passed out of the city through the new town. The correspondents then visited the captured city for the first time. The old town buildings were badly smashed by shells, but in the new town the damage was slight. All the shipping in the harbor was badly damaged by shell fire, the warships being practically useless, owing to the injuries they had sustained by shells.

Proposals for the surrender of Port Arthur were first made December 29, at a council of war. Gen. Stoessel was in favor of surrender, but some of his general officers were bitterly opposed to it. The regimental officers and the troops were not consulted. The first news they had of the surrender was January 1, after Gen. Stoessel had communicated with the Japanese.

The scenes following the surrender were disgraceful. Drunken soldiers filled the streets and refused to obey their officers. Many of them destroyed the guns upon the positions they had defended and came into the city without permission. The infantry loudly protested that the fortress had been given away. They threw their rifles and ammunition into the harbor and proceeded to break into warehouses and loot and drink vodka until in a helpless condition.

Surrender Not Necessary.

It was evident that the surrender was not necessary, as there were 31,000 effective men in the fortress. The supply of ammunition was short, but it was not exhausted. Food was scarce, but private stores were not requisitioned by the military. There is no difficulty in getting good meals in the city, even now, from the stores in private possession. A portion of the fortress was capable of defense for months longer. It was the opinion of the noncombatants at Port Arthur that the surrender was unnecessary, as the troops were willing and able to fight to the bitter end. Gen. Stoessel was much blamed for what was characterized as a disgraceful conclusion of a splendid defense, which ended with the death of Maj. Gen. Kondratenko, who was loved by the soldiers, and was the life of the defense.

Ask Kind Treatment for Stoessel.

Tokio, Jan. 17.—Gen. Nogi has written to the governor of Nagasaki the following: "As to the treatment of Gen. Stoessel you will be advised by the proper authorities, but it may not be out of place to point out that Gen. Stoessel is now neither a prisoner of war nor an enemy, but a foreign gentleman, who meritoriously served his country, and, moreover, so honorably performed without unnecessary delay the complicated task of transferring the forts and munitions of Port Arthur that he deserves to be accorded full military honors, and I commend him to your consideration."

Invaded Neutral Territory.

Tokio, Jan. 17. — Later reports from Newchwang indicate that Gen. Mistchenko's Cossacks in their recent raiding southwest of Liaoyang deliberately invaded neutral teritorry and broke the limits of the war zone. The reported Russian note to the powers calling attention to China's nonenforcement of neutrality is regarded here in some quarters is absurd. It is felt that China's weakness and constant failure to enforce neutrality must release Japan from obligation to observe restrictions which Russia openly ignores. While the extension of belligerent territory is to be regretted it is felt that Japan must take steps to protect herself against the repetition of raiding expeditions whose success depends on the violation of neutral territory.

To Jail for Four Years.

Detroit, Mich., Jan. 17.—John T. Hoffman, ex-coroner of Wayne county, who was found guilty Saturday of the charge of obtaining money from the state by false pretenses, was Monday sentenced to four years' imprisonment in Jackson prison by Judge Murphy. Hoffman, who was elected sheriff of this county at the November election, collected illegally fees from the state by means of fictitious charges in connection with inquests.

Wisconsin Banker Dead.

Watertown, Wis., Jan. 17.—Col. Daniel Jones, organizer of and identified with many banks in Wisconsin, is dead here, aged 89 years. He was president of the Wisconsin national bank for 40 years, and in early days as head of the railroad board was instrumental in bringing railways into the state.

Iron Workers Strike.

St. Petersburg, Jan. 17.—Twelve thousand men at the Putiloff iron works struck Monday.

INDIA RUBBER.

The Second Voyage of Columbus Gave It Publicity.

The first notice of india rubber dates back 500 years, when Herrera, a Spanish historian, during the second voyage of Columbus, saw that "the natives of Haiti played with balls made of the gum of a tree, which were lighter and bounced better than the wind balls of Castile."

In a record published in Madrid, 1615, we are told: "There is a tree which the Indians call ulequahuiti, very high, with round, ashy gray leaves. It yields a milky substance, thick and gummy, in great abundance, which is collected and allowed to settle in calabashes and afterward softened in hot water or smeared over the body and rubbed off when sufficiently dry."

Even at that early date Spaniards used the juice of the ule tree to waterproof their cloaks.

The first accurate account of these gum elastic or caoutchouc trees was furnished by La Condamine, who was sent in 1735 by the French government to measure an arc of the meridian near Quito.

It was introduced into Europe as a drug about 1730, and some fifty years later was used commercially as rubber for pencil marks and to waterproof clothing.

THE WATER LOTUS.

A Plant That Has the Power of Purifying Standing Water.

There is a plant growing in the southern waters of the United States which possesses the singular property of being able to render the most impure standing water perfectly healthy. The people of Louisiana and Mississippi call it the water lotus.

It consists of leaves about the size of the head of a pin and roots so fine as to escape notice save under a microscopic inspection. Where it grows at all, it covers the water and to the casual observer looks like a coating of green scum. The flowers and seeds are microscopic, so that its appearance in any given locality is not readily accounted for, but wherever it does appear the water beneath is always fit to drink.

So marked is this property that families using the water from bayous where the lotus is abundant are known to have better general health than those taking their drinking water from places where the lotus is not found. It is often transplanted into ponds, bayous and lakes, spreads with wonderful rapidity and never fails to do its work well.—St. Louis Globe-Democrat.

HOMES OF HEALING.

The History of Hospitals Begins With the First Century.

The temple at Epidaurus was founded by Antoninus Pius at the end of the first century A. D. in honor of Æsculapius, Homer's blameless physician. Beyond the sacred inclosure was a building for the reception of the sick and dying, which Strabo describes as a place renowned for the cure of all diseases, always full of invalids and containing votive tablets descriptive of cures.

About 380 A. D. a hospital was founded by Valens and richly endowed by him at Cæsarea, and another at Rome by Fabiola, a wealthy Roman widow, for the reception of the sick poor.

Basil is said by Gregory, the presbyter, to have built a large hospital for lepers with money collected for the purpose. The Hotel Dieu in Paris, founded in the seventh century, and two founded in 1080 by Lanfranc, archbishop of Canterbury, were both connected with monastic establishments. Bartholomew's, 1547, and St. Thomas', 1553, are the oldest hospitals in London and were both originally religious foundations.

Omens In Tea.

When the tea is made and the lid of the teapot is forgotten for a minute or two it is a sure sign that some one will drop in for the meal. Two spoons put by chance into the saucer of a maid or a bachelor denote that he or she will be married within a year. Putting cream into your tea before you sweeten it will bring you love troubles. A tea stalk floating in a girl's teacup is a "beau." She should stir her tea briskly and then hold the spoon upright in the center. If the "beau" be attracted toward the spoon and cling to it a gentleman visitor may be expected some time that evening. If, however, the "beau" goes to the side of the cup the visitor will not come that day.

Messages of War.

Among the natives of Australia notched and carved sticks are used for messages. For instance, a piece of wood carried from one village to another with straight and curved lines cut upon it is a message of war and means: "There is a fight on hand. Fetch your spears and boomerangs."

The North American Indians utilized wampum belts from time immemorial for like purposes. The arrangement of the different colored beads conveyed the signification desired.

Playing Safe.

"Look here, sir! You have been calling on my daughter every night for the past six months!"

"But I can't afford to get married, sir, and if I call on any other girl I'm afraid I might fall in love with her."—Smart Set.

What Did She Mean?

Alice—Yes, I accepted George at once. I knew when he proposed to me he was wholly unselfish. Bertha—Oh, nobody could ever have any doubt about that!—Boston Transcript.

The easiest way to get along with some people is to let them think they are right.—Atchison Globe.

TWO LONG-LIVED WAITERS.

Living Contradiction of a Theory That Is Entertained by Some People.

One of New York's oldest waiters does much to contradict the theory that waiters are short lived, says the Sun.

A recent change in the management of a Broadway hotel has brought him to the Tenderloin, where for the first time he serves the patrons of a cafe. He has passed the greater part of the 30 years that he has worked here in the hotels on upper Fifth avenue.

Twenty-five years ago he was in the old Windsor, and used to look after the Columbia college men who frequented the hotel then. He was known to many classes of students, and his acquaintance made in the other hotels to which he afterward wandered is comprehensive.

There is scarcely an uptown hotel in which he has not been employed, and he was just as gray 20 years ago as he is to-day. He is quite as active now, too, as he ever was, and few younger men are able to get about so spryly as he.

One of the most popular waiters in a cafe on Broadway is the oldest man in the place. He was for many years in Delmonico's, an establishment which parts with its men more rarely than any other. But for some reason he did not get along with Phillippe, and took a place in the new French restaurant when it was opened two years ago.

Many men have come and gone in that time, but Paul finds his services always in demand. His clients wait until one of his tables is vacant in order that they may have his attention and skill in mixing a salad.

Both of these men are long past the age at which they might be thought to be most efficient. But they are able to earn more than their youthful colleagues.

Old waiters are not as a rule so capable, however, as younger men, mainly because they are likely to be bad tempered.

German Military Expert Finds That Russia Has Most Men While Japan Is Strongest in Artillery.

After a careful compilation and close investigation by German army experts, the Militar Wochenblatt, of Berlin, gives what is probably the nearest estimate yet printed of the strength of the Russian and Japanese land forces.

On the Russian side it is calculated that the active field army at the present moment consists of 154,850 men and 386 guns; en route from Siberia, 35,700 men and 64 guns; being mobilized in Europe, 57,900 men and 188 guns; total, 248,450 men and 638 guns.

On the Japanese side the active army in the field is given as 152,500 men and 702 guns; in reserve, 74,000 men and 78 guns; total, 226,500 [illegible] and 780 guns.

Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or Eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at all druggists.

Legal Blanks.

THE COURIER job department is printing a complete line of the standard forms in legal blanks, and has now in stock the following:

Warranty deeds,
Contract for deed,
Mortgage deed,
Quit-claim deed,
Tenement lease,
Chattel mortgage,
Chattel mortgage, (crop clause),
Satisfaction of real estate mortgage,
Farm contract, (on shares),
Chattel mortgage foreclosure sale,
Garnishee summons, (with notice to defendant),
Bill of sale,
Transcript of judgment,
Justice summons,
Certificate of judgment,
Notice of protest,
Notes, receipts, etc.

Any form not in stock will be printed to order, provided a reasonable number are taken.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.
Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.
Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers, R. R. fare refunded to purchaser of land. For maps and further particulars address UECKE'S LAND AGENCY, Cumberland, Wis.

DR. KOCH JURY STILL OUT

A special to THE COURIER at 4:30 this afternoon states that the jury in the Koch murder case at New Ulm is still out. The case went to the jury at 9:30 this morning.

At this writing a disagreement is anticipated.

THE STATE LIBRARIANSHIP

At the time of going to press the state senate had not acted upon the nomination of the editor of this paper as state librarian, which was sent to the senate last week along with the other nominations of Governor Johnson.

Last Thursday the nomination was temporarily held up on motion of Senator Hawkins, who claimed that the appointee had severely criticized Lieutenant Governor Jones during the campaign.

The lieutenant governor disavows any desire to defeat the confirmation and says that he would be glad to see all of Governor Johnson's appointments ratified, and that he will urge his senatorial friends to take such action.

Senator Hawkins has promised the Democratic leaders that he will call up the nomination the latter part of the present week, and it is the general belief that the appointment will be confirmed without serious opposition.

Greatly in Demand.

Nothing is more in demand than a medicine which meets modern requirements for a blood and system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach and liver troubles. Try them. At all druggists, 25c., guaranteed.

Teachers' Association Meeting.

The regular meeting of the Red Lake county Teachers' association will be held at Thief River Falls on Friday and Saturday, January 27 and 28. A good program will be rendered. Several noted educators will be present and address the meeting Friday evening. School boards are requested to allow teachers to close their respective schools on Friday, the 27th, in accordance with the custom of other counties having teachers' associations. Members of school boards are also requested to be present and take part in the proceedings. All persons interested in education are invited to attend and assist in making the meeting successful. H. T. MCANULTY, Co. Supt.

How to] Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in Pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. S. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Sold by A. L. Reichert.

The Main Traveled Line.

During the past fiscal year the famous North-Western Line carried 22,731,023 passengers. Standing shoulder to shouder this would make a line of humanity more than one-third the distance around the world. This is evidencee of the spendid service on this famous road.

TAKE WINE OF CARDUI AT HOME

Are you a sufferer?
Has your doctor been unsuccessful?
Wouldn't you prefer to treat yourself—AT HOME?

Nearly 1,500,000 women have bought Wine of Cardui from their druggists and have cured themselves at home, of such troubles as periodical, bearing down and ovarian pains, leucorrhœa, barrenness, nervousness, dizziness, nausea and despondency, caused by female weakness. These are not easy cases. Wine of Cardui cures when the doctor can't.

Wine of Cardui does not irritate the organs. There is no pain in the treatment. It is a soothing tonic of healing herbs, free from strong and drastic drugs. It is successful because it cures in a natural way.

Wine of Cardui can be bought from your druggist at $1.00 a bottle and you can begin this treatment today. Will you try it?

In cases requiring special directions, address, giving symptoms, The Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

Washington School Notes.

Carl Buseand Ottila Alstaed, reporters.

The fifth and sixth grades of the Washington school are going to give a program Feb. 2, 1905.

The pupils were very glad to receive their library books Friday night.

The third and fourth grade of Miss Norby's room lost their banners.

On account of the cold weather, many of the smaller pupils were absent from school the first part of the week.

Clara Bourdon and Frank Campbell were absent from school a few days.

The two weeks of vacation are over now and we are all glad of it.

Winter does not seem to stop the boys from playing football.

Some of the boys and girls of the fifth and sixth grades had their seats changed.

In the sixth grade geography class Mr. Healy bent a glass tube and filled it with mercury. This was a barometer and with it we found that we were about 3280 feet above sea level. The column of mercury was 26½ inches high.

Edward Beaulieau started school in the sixth grade after vacation.

The sixth grade history are in the period of discovery and exploration.

A week ago Monday Mr. Healy went home at 11:30 because he was sick and Miss Neilaad took the fifth and sixth grade spelling classes.

Tena Rewertz started to school Monday.

The fifth grade drew some maps Monday afternoon and some of the best ones will be shown on visiting day. We are saving some of our arithmetic papers for that day.

The sixth grade had to stay after school Monday night for their arithmetic.

All of our grades are working hard for the banners for January. You grades of the other school will have to watch out.

Mrs. Argue visited our [school last week.

Notice of Dissolution of Partnership.

Notice is hereby given that the partnership heretofore existing between Leo Steinert, Theo. Majeres, and C. F. Johnson, under the name of the Northern Minnesota Milling Company, at Red Lake Falls, Minnesota, has been dissolved, all property of the company including the name, good will, and accounts due them having been sold and disposed of to H. H. Zaiser, who will con the business. All liabilities of the firm will be paid by the aforesaid tormer members.

Dated Jan. 18th, 1905.

Northern Minnesota Milling Co.
Leo Steinert,
Theo. Majeres.

80 Years Old.

Mrs. Sina W. Platt, of Unity, Wis., a lady of 80 years, was recently cure of rheumatism by Gloria Tonic after many well-known remedies were previously used. This happy result ought to be a great encouragement to many of our readers. Sold by W. A. Schrieter.

Should Sit on it Hard!

Battle Lake Review: If the schemers try to get an appropriation through the legislature for an exhibit from Minnesota at the Portland show the legislature should sit down on the proposition hard. It's a nice soft berth for a few men and as usual the taxpayers foot the bill.

That Hollow Cough

can easily be cured by using Gloria Lung Balsam. It is sweet, pleasant and soothing preparation and even the worst cases can be relieved at once. It is made of healing and soothing balms and is best for children. Sold by W. A. Schreiter.

Money for Poor Lo.

Congressman Steenerson has been advised by the secretary of the interior at Washington that a per capital payment of $170,000 will be made on June 17 to the Red Lake Indians. This money comes from the first payment of settlers on lands opened in the reservation last summer.

Go To Sunny California

Far from the chills of wintry blasts. Boating, bathing and outdoor pleasures may be enjoyed during the winter months in California. Through tourist cars via the North-Western Line from Minneapolis and St. Paul on two days of each week make the journey comfortable and at a minimum of expense. For rates, literature on California or any information desired write T. W. Teasdale, G. P. A., St. Paul, Minn.

Homeseekers' Excursions.

The Chicago Great] Western Railway will on the first and third Tuesdays of each month sell tickets at one fare plus $2.00 for the round trip to points in Alabama, Florida, Georgia, Iowa, Kentucky, Louisianna, Michigan, Minnesota, Mississippi, Missouri, North Carolina, Tennessee, Virginia and Wisconsin. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. a18

Some men who would not steal a pocketbook do not hesitate to steal a state.

RUSSIA IS POWERFUL

CZAR TELLS HIS TROOPS NOT TO LET THE FALL OF PORT ARTHUR DISMAY THEM.

Says Russian Strength Grows With Adversity and Asserts the Empire Has Survived Still Heavier Trials. Believes Time Is Coming When God Will Assist Russian Army and Navy to Defeat the Enemy.

St. Petersburg, Jan. 14.—Emperor Nicholas has addressed the following rescript to the army and navy:

"Port Arthur has passed into the hands of the enemy. During eleven months the fight had been going on in its defense. More than seven months its noble defenders had been cut off from the rest of the world. Without any positive assurance of relief they continued to fight and did everything in their power to check the progress of the enemy, sparing neither life nor heart's blood to uphold the honor of the Russian people.

"Russia, with pride and admiration, followed each move in the contest. The whole world was astounded at their gallantry, but daily their ranks were thinned, their powers of resistance diminished and, under repeated attacks by the enemy, they were obliged to give way.

"Peace, honor and undying memory will be the portion of you Russians who have fallen in the defense of Port Arthur. Far from home you have laid your bodies upon alien soil—a sacrifice to the dictates of your own honor and the demands of your emperor.

"My gallant troops and sailors: Do not let this sorrow dismay you. Our enemy is strong and daring. This fight against them occurs 7,000 miles from our home, but Russia is powerful. In the thousand years of its existence there have been still heavier trials, worse and more threatening dangers, but Russia ever arose from trial with renewed force and strength. Do not let your souls be troubled by lack of success and heavy losses. Russian strength grows with adversity.

"With all Russia I join in the belief that the time is coming when God will give strength to our glorious army and navy to arise and break the forces of the enemy."

JAPS TAKE POSSESSION.

Victorious Army Formally Enters Port Arthur.

Port Arthur, Jan. 14, via Tientsin, Jan. 16.—The victorious Japanese army yesterday formally entered Port Arthur. General Nogi, with his staff, entered first through the old town and took his stand in the public square of the new town. The army was represented by one regiment from each brigade. The procession, which was five miles long, was three hours passing the saluting base, after which the troops passed out of the city through the new town. The correspondents then visited the captured city for the first time. The old town buildings were badly smashed by shells, but in the new town the damage was slight. All the shipping in the harbor was badly damaged by shell fire, the warships being practically useless owing to the injuries they had sustained by shells.

Proposals for the surrender of Port Arthur were first made Dec. 29 at a council of war. General Stoessel was in favor of surrender, but some of his general officers were bitterly opposed to it. The regimental officers and the troops were not consulted. The first news they had of the surrender was on Jan. 1, after General Stoessel had communicated with the Japanese.

GENERAL STOESSEL IN JAPAN.

Russian Commander at Port Arthur Arrives at Nagasaki.

Nagasaki, Jan. 14.—The Japanese transport Kamakuru, from Port Dainy Jan. 11, with General Stoessel and others on board, arrived here during the day. After a prolonged quarantine inspection Governor Arakawa, with the chief officials of the port, proceeded on board the Kamakuru and General and Madame Stoessel, two of the Russian commander's personal staff, seven other officers, two ladies and six orphan children were landed in three steam launches at the Inasa jetty, where they were received by a guard of fifty police and several officers. The Russian general was attired in a gray military overcoat and wore his sword. He looked well and walked with a stately step. Preceded by a few police officers and followed by his retinue General Stoessel slowly wended his way up the hill to a prettily situated bungalow on Inasa hill, where he will be quartered. Half way there some dozens of Russian officers, finding that their late chief was arriving, ran up from all directions and saluted in respectful silence. The party then entered the house.

JAPANESE LOSSES LIGHT.

Russian Casualties at Newchwang Estimated at Three Hundred.

Tokio, Jan. 14.—The Japanese casualties in the recent fighting at Newchwang and other places involved in the Russian raid are estimated at one killed and fifteen wounded, all noncommissioned officers or privates. The Russian total losses are estimated at over 300.

The Japanese report that the supplies of munitions stored at Newchwang and Niuchiatun were not damaged.

MINNESOTA NEWS.

The Concrete Industry.

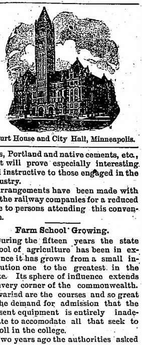
The first annual meeting of the Northwest Concrete Manufacturers' Aossociation, is to be held at Minneapolis, January 24th, 25th and 26th, 1905.

The object of the meeting is to bring together in a convention the manufacturers of cement products, contractors, engineers, architects and all persons interested in the progress and development of the concrete industry.

So many people have already signified their intention to be present at the meeting that the management has deemed it necessary to engage the entire fourth floor of the county side of the new court house and city hall.

There will be papers and discussions touching upon the various uses of Portland and native cements, covering the field of building blocks, fireproofing, sidewalks, sewer pipe, cement brick, etc., read by prominent prominent authorities on each specific issue.

It has been arranged to have a large exhibit in connection with the covention of concrete machinery of all descriptions, samples of finished products, Portland and native cements, etc., that will prove especially interesting and instructive to those engaged in the industry.



Court House and City Hall, Minneapolis.

Arrangements have been made with all the railway companies for a reduced rate to persons attending this convention.

Farm School Growing.

During the fifteen years the state school of agriculture has been in existence it has grown from a small institution one to the greatest in the state. Its sphere of influence extends to every corner of the commonwealth. So varied are the courses and so great is the demand for admission that the present equipment is entirely inadequate to accomodate all that seek to enroll in the college.

Two years ago the authorities asked the state to levy a tax sufficient to yield $250,000 in two years. This tax amounts to about a fifth mill and the last half of it will be due the first of next August. The present legislation will be asked to continue that tax two years longer.

Found.

After fifty years of a mildewed and hidden existence, the original draft of the constitution of Minnesota was inadvertently exhumed from a dusty pile of miscellaneous documents by George B. Brown, an assistant in the secretary of state's office. For the past thirty years every secretary of the state has had had nearly every year calls from persons who desired to see the original draft of the constitution.

Search after search has been instituted in the office and the records have been overhauled more times than could be counted on the fingers and toes, but still the historic document eluded and defied every search made.

Big Business.

The yearly report of the St. Paul Union Stock Yards company for 1904 shows that 389,300 cattle, 881,635 hogs, 772,766 sheep and 6,438 horses were received during the twelve months just closed. This live stock was shipped in 28,835 cars. Of these, 275,493 cattle, 71,654 hogs, 622,269 sheep and 6,205 horses were shipped out. There were slaughtered at South St. Paul during the last year 94,250 cattle, 17,573 calves, 810,151 hogs and 174,600 sheep. The comparative table shows a decided increase in every item during 1904 over the preceeding year, with the exception of horses, which fell off 1,305 head.

Agents Not Liable.

According to a ruling handed down by the supreme court, agents of wild cat fire insurance companies cannot be sued for loss under these worthless policies in the event the company itself refused to make settlement. The specific was that of M. Webster & Sons of Houston county, who brought suit against the agent, P. Ferguson, under the law of 1895. The majority of the justices held that collection could be made from the agent, but Justice Douglas presented a dissenting opinion on the ground that the assured was deceived and believed the policies valid.

News Notes.

William Goodman, living nine miles southeast of Winthrop, while driving, was killed by a Minneapolis & St. Louis passenger train.

Judge W. L. Windom, of Duluth, fined John Knutson, a wife beater, $50 and costs, with alternative of sixty days in jail.

W. A. Avery, of Detroit, has sold 7,000,000 feet of his pine tributary to the Duluth & Iron Range road, and gave an option to a prospective purchaser for 80,000,000 feet.

George Norman, an employe at the Great Northern shops, St. Paul, fell into a cinder pit in the shops and sustained several severe cuts and bruises about the head.

Somewhere in St. Paul or Minneapolis there lives a girl, Nellie Kerburn by name, to whom $3,000 has been left by C. C. Maxson, the young Frenchman who was killed at Kerkhoven.

FIVE MINERS KILLED.

Overcome by Smoke and Fire in Illinois Colliery.

Decatur, Ill., Jan. 17.—Emil Norr, August Yagusch and Charles Laschinsky and two unknown miners are known to be dead and a score or more of other miners are entombed by fire and smoke in a 600-foot coal mine shaft. Rescuing parties have gone into the mine, but have been unable to do anything on account of the dense smoke. The fire broke out Monday afternoon in the mule stable. Firemen were called out and they took a line of hose down the shaft 600 feet, but were unable to suppress the flames. A mile away is an escapement shaft, and to this most of the miners hastened. More than a score were cut off by the flames and held prisoners. They may be dead. Big crowds surrounded the mouth of the shaft amid intense excitement, but the onlookers were helpless to assist.

PEABODY OPENS FIGHT.

Files Notice of Contest for Governor of Colorado.

Denver, Jan. 12.—Notice of former Governor James H. Peabody's contest against Governor Alva Adams for the office of governor was filed with the legislature during the day.

The complaint sets forth the allegation that the majority of 9,774 for Adams on the face of the returns as finally canvassed was obtained by means of a conspiracy in Denver and several other counties. The legislature is petitioned to open the ballot boxes from a number of precincts in Denver, Adams, Las Animas, Boulder and Conejos counties. It is alleged the frauds in these precincts were so extensive and varied that it would be impossible to segregate the true from the false ballots and the legislature is asked to discard these precincts altogether.

MORE FIGHTING IN SAMAR.

Nine Constabulary Killed in Action Near Maslog.

Washington, Jan. 17.—Lieutenant General Chaffee, chief of staff, has received a cable message from General Corbin, commanding the Philippines division at Manila, saying that he has received the following dispatch from Brigadier General Carter, commanding the department of the Visayas, dated Tacloban, Jan. 14:

"Lieutenant Avery, one Philippine scout and two native employes were wounded in action at Dolores river Jan. 14. Private Austin, hospital corps, was wounded and nine constabulary were killed in action near Maslog, Samar, Jan. 8. Lieutenant Avery and Private Austin arrived here today."

The officer referred to in the above dispatch is First Lieutenant Morton I. Avery of the Philippine scouts.

SENATORS ARE EXPELLED.

Colorado Republicans Unseat Two Democratic Members.

Denver, Jan. 13.—The senate, by a party vote, seated James B. Dick in place of Senator Robert M. Born. Dick was unseated by the Democratic majority during the contest over election of United States senator two years ago.

The senate membership is now twenty Republicans and thirteen Democrats, with two vacancies.

Senator Born refused to give up his seat and was forcibly ejected by the sergeant-at-arms.

Senator Daniel Healy, who was seated two years ago in place of Jesse F. McDonald, now lieutenant governor, was also expelled by a vote of 18 to 15, the same as Born's case.

BIG STRIKE IN GERMANY.

That of the Coal Miners the Most Serious in Country's History.

Berlin, Jan. 17.—The strike of coal miners which broke out Monday is the most formidable affair of the kind that Germany has ever had. There had been no serious trouble in the coal industry since the strike of 1889, but this strike far eclipses the one alluded to, all labor organizations taking part, whereas in 1889 only the Socialist unions were concerned. The present movement has been largely engineered by the so-called Christian unions, which otherwise oppose the Socialist element.

The greatest system renovator. Restores vitality, regulates the kidneys, liver and stomach. If Hollister's Rocky Mountain Tea fails to cure get your money back. That's fair. 35 cents, Tea or Tablets. A. L. Reichert.

Good ideas and envy do not sprout from the same soil.

CASTORIA

The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

POSTMASTER General Wynne was once a newspaper correspondent at the capitol city. A good story concerning Mr. Wynne is going the rounds. It is related that President Roosevelt once asked Mr. Wynne: "How does it feel to attend a cabinet meeting after having spent so much time on the outside trying to find out what occurred at similar gatherings?" "Oh, it is not so much how he feels," said Secretary Wilson, "as how the rest of us feel." Wynne has Irish blood in his veins and ready wit at the tip of his tongue. He came back in this fashion: "That reminds me of what Secretary Foster said when he took charge of the treasury department. I was his private secretary. One day he remarked to me: "Wynne, when I first came to Washington as a member of the cabinet I gazed in awe at the distinguished men who were my colleagues and wondered how I got there. After I had been in the cabinet three months I wondered how my colleagues got there.'"

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of Kidney trouble, hoping it would wear away, he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys and was cured by Foley's Kidney Cure Sold by A. L. Reichert.

Settlers's Rates to Points in the Southeast.

On the first and third Tuesdays of each month, January to April inclusive, the Chicago Great Western Railway will sell one way tickets to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North and South Carolina, Tennessee and Virginia at very low rates. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. a18

Traveling Today.

Traveling nowadays is a pleasure. We loll back in fortable seats of luxuriously appointed cars, resplendent in mahogany, mirrors and dainty furnishings; dine from a menu the acme of culinary art and receive every attention from courteous attendants;—Buffet Cars with comforts of the Club, Cosy Compartment Cars, which the ladies especially appreciate and the finest of Pullman Sleeping Cars are all to be found on the famous North-Western Limited—every night—Minneapolts and St. Paul to Chicago.

Ayer's

Ayer's Cherry Pectoral quiets tickling throats, hacking coughs, pain in the lungs. It relieves congestion, subdues inflammation. It heals, strengthens. Your doctor will explain this to you. He knows all about this cough medicine.

Cherry Pectoral

"We have used Ayer's Cherry Pectoral in our family for 25 years for throat and lung troubles, and we think no medicine equals it."

A. O. LETVIG, Wylie, Minnesota.

HISTORICAL SOCIETY

RED LAKE COURIER.

VOL. VII—NO. 16. RED LAKE FALLS, MINNESOTA, THURSDAY, JANUARY 26, 1905. WHOLE NO. 328.

GAUNTLET IS THROWN DOWN

Thief River Falls Gives Notice of a Desire to be Seat of County Government.

Yesterday notices were posted over the county to the effect that the citizens of Thief River Falls would circulate a petition praying for the removal of the county-seat from Red Lake Falls to that place. This is the beginning of a struggle which for several years has seemed inevitable.

Red Lake Falls is not slow in upholding her end of the game, and in this issue is printed a notice of remonstrance to the proposed removal. A meeting will be held this evening at the city hall to devise ways and means of protecting the interests of Red Lake Falls, and a counter petition will be circulated as soon as the required time is passed after publication.

It is not an easy job to move a county-seat, as the people of Thief River will discover before they have progressed very far with the fight. We have in mind several instances in the southern part of ihe state, where efforts have been made time and again without avail—in some cases where the contesting city has seemingly a large advantage in point of location and population. Probably not more than one attempt in twenty is successful.

In order to move the county-seat Thief River Falls will be required to obtain a petition endorsed by sixty per cent. of the legal voters of the county. After this will come an election, at which that city would need 55 per cent. of the votes cast on the proposition. The five per cent. above a majority may not look to be material, but as Red Lake Falls would need only 45 per cent. to hold the seat of government it will be seen that on a probable vote of 3,000, Thief River would need 1650 to succeed, or 300 more than Red Lake Falls. To one acquainted with conditions in Red Lake county this would seem an impossible task.

More developments will probably take place in the near future, and the Courier will endeavor to keep its readers posted on all tne news relatove to the matter.

YARNS WITH A LAUGH.

Mark Twain tells a story that while traveling in Germany a man sitting next to him at a dinner in a hotel ordered a bottle of Johannesburg wine. When it was brought he saw on the bottle a label of Moselle, and called it to the attention of the manager, who exclaimed: "Ach! what a stupid donkey; I distinctly told him to put on the Johannesburg label."

A blushing and pretty Swedish girl just arrived from the old country attended evening service at a Duluth church. The minister, seeing she was a stranger, shook hands with her at the close of the meeting and said he would find pleasure in calling upon her soon. Whereupon the girl hung her head and bashfully murmured: "T'ank you, but ay have a fella."

Mr. Campbell, the Irish solicitor-general, speaking the other day upon delusions, told a story of a north of Ireland Protestant who was perfection save on one point. This staunch Protestant harbored the delusion that one of his legs belonged to a Roman Catholic and therefore when he went to bed every night he used to leave the Catholic leg outside the blanket by way of punishment.

There had been a railway collision near a Scottish country town, and an astute local attorney had hurried to the scene of disaster. Noticing an old man with a badly damaged head lying on the ground, he approached him with note book in hand. "How about damages, my man?" he began. The injured man waved him off with the remark: "Na, na; ye'll get nae damages fre me. It wasna me that hit yer bloomin' auld train."

Many years of hard work on the farm had made the old man round-shouldered and his coat fitted badly. His son in the city sent him a coat stretcher on which to hang the coat at night. On his next visit to the farm the young man asked how the coat stretcher worked. His father looked a little embarrassed and then confessed: "I can't stand it on," said he. "It was real good of you to send it. Your mother fastened it to my coat with tape, but I wasn't comfortable in it and I had to take it off."

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in Pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. S. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Sold by A. L. Reichert.

The Main Traveled Line.

During the past fiscal year the famous North-Western Line carried 22,731,023 passengers. Standing shoulder to shouder this would make a line of humanity more than one-third the distance around the world. This is evidencee of the spendid service on this famous road.

COURT HOUSE IS PURCHASED

Warrant Issued and Paid to Ernest Buse Tuesday Morning to Complete the Deal.

Red Lake county now has an official home, owned by the county. Tuesday morning of this week the order for the purchase of the building now used as a court house was issued by Auditor Ford and paid by Treasurer Hansen to Ernest Buse, and the deed for the property turned over to the county.

The purchase of this property by the board of county commissioners is generally commended. The saving in the item of rent will alone pay for the property in five or six years, and besides the building and lots will be worth all the county paid for them at the expiration of that period.

There seems to have been a disposition on the part of a portion of the people of Thief River Falls to enjoin the county officials from carrying out the instructions of the commissioners with regard to the purchase, and Attorney H. W. Lee was sent down Tuesday to serve an injunction on Auditor Ford, Treasurer Hansen, Ernest Buse and the board of county commissioners. The injunction was served, but it was too late. The warrant had been issued and paid several hours before Mr. Lee reached town, and we are not informed as to what further steps the upriver city intends taking. It would appear to be a legal and physical impossibility to compel Mr. Buse to return the money received from the sale of property made in good faith and strictly in accordance with law. The probabilities are that no further action will be taken. Thief River seems to have an idea that it is going to get the county-seat at some future date, and of course is interested from a purely selfish standpoint in preventing the county from acquiring more property in Red Lake Falls.

It is not an easy matter to change the location of a county-seat. It has been tried in counties where conditions were a dozen times more favorable to removal than in Red Lake county and failed. It is but the truth to say that Red Lake Falls is not alarmed at the prospect and it is not believed that Thief River will make the attempt.

Notice of Teachers' Examinations.

The semi-annual teachers' examination for Red Lake County will be held at Red Lake Falls, Thief River Falls and St. Hilaire in accordance with the following program:

THURSDAY, FEB. 2ND.
(First grade studies)
A. M.—8:30 Enrollment.
9:00 Physics.
10:30 Algebra.
P. M.—1:30 Geometry.
2:45 Civics
4:00 Physical geography or general history.

FRIDAY, FEB. 3RD.
(Second grade studies.)
A. M.—8:00 Enrollment.
8:30 Professional test.
9:30 Spelling.
P. M.—1:30 Geography.
3:00 Reading.
4:30 Composition and penmanship.

SATURDAY, FEB. 4TH.
(Second grade studies continued)
A. M.—8:00 U. S. History.
9:45 English grammar.
11:15 Music.
P. M.—1:30 Physiology-bygience.
2:45 Drawing.

Teachers, please notice that the examination begins at 8:00 a. m. Feb. 3rd and 4th.

"THE HEART OF A HERO."

High School Play at Opera House Tomorrow Evening.

"The Heart of a Hero" is the name of the play to be presented by the Spartan society of the high school at the opera house tomorrow (Friday) evening, January 27. It is sparkling with fun, and the incidents are exciting and interesting. The orchestra will furnish music between the acts, and a number of new athletic features have been worked up for the occasion. The proceeds will go to buying new books for the library. Come out and see the play, and enable the school to buy a nice lot of books. The cast of characters is as follows:

Gilbert Westover, Esq., owner of the mammoth mills	Harry Garceau
Seth Marlow, to self and honor true	Walter Johnson
Clarence Denton, an enemy in disguise	Ernest Toupin
Arnold Payne, from the city	Orson Doe
Cyrus Bodkin, a lone widower	Ewald Zaiser
Robert, office boy at mill	Herbert Findeisen
Caroline Westover, the Squire's sister	Margaret Kaus
Salina, his daughter, in love with Seth	Iza Tibbetts
Tillie Sloan, a village belle	Mayme Linnehan
Em, not much of anybody	Clara Marchand

Tickets are on sale at Anderson's jewelry store; 15c, 25c and 35c.

Washington School Notes.

Harry Anderson and Clara Bourdon reporters.

Austrid Kindseth is absent on account of sickness.

Lloyd Moran has returned to scool after a week's absent.

The second grade will study the Eskimo as a type of brown race.

Hurrah for another holiday! Don't forget George Washington birthday.

The "A" class of the second grade are reading "Aunt Martha's Corner Cup board."

All of the pupils of the "A" class in Miss Hennemuth's room had to stay after school Monday for their spelling.

While ringing the first bell on Monday the clapper of the bell broke and had to be immediately fixed in order to ring the last bell.

The schools are planning a visiting day, on which every one will be given a chance to visit and examine the work which will be displayed in the high school building.

The fifth and sixth grades are planning on selling $20. worth of tickets for the high school play on Friday night. We hope that you will take a ticket when asked.

Being that the eighth grade of the Lafayette school had a half holiday on Friday afternoon, Hazel Healy visited the Washington school's fifth and and sixth grades.

Last Friday the second grade pupils made chinamen. We wonder if "Yen" would know himself should we give him one of our chinamen. Doubtless he would feel hurt for in most most cases his eyes are much like the white man.

It may interest some people to know how many scholars there are attending the Washington school. The following is the number by grades: First grade, 29; second grade, 32; third grade, 25; fourth, 16; fifth, 25; sixth, 16. The total number in regular attendance is 143. Of this number 69 are girls and 74 are boys.

Constipation and piles are twins. They kill people inch by inch, sap life away every day. Hollister's Rocky Mountain Tea will positively cure you. No cure no pay. 35cents, Tea or tablets. A. L. Reichert.

KING CONFIRMED BY SENATE

Last Chapter in Holding Up of Appointment of Librarian Enacted This Forenoon.

St. Paul, Minn., January 26—Governor Johnson's appointment of John E. King, the Red Lake Falls editor, as state librarian, was confirmed this morning by the state senate by an unanimous vote. Senator Hawkins, who had the name of Mr. King excepted from the list of appointments two weeks ago, announced that while Mr. King's paper had made certain derogatory remarks with respect to Lieutenant Governor Jones both before and after election, in deference to the wishes of the lieutenant governor he had decided not to press the objection further and moved that the appointment be confirmed.

TO CONFIRM KING.

Lieutenant Governor Will Interceed for Man Who "Roasted" Him.

Yesterday's Minneapolis Journal says the appointment of John E King as state librarian is to be confirmed by the senate today, according to the program agreed on yesterday.

It is expected that some Democratic senator will bring King's name up today. Then Lieutenant Governor Jones, using his privilege of addressing the body over which he presides, will request the senators to drop their opposition and vote for King's confirmation.

The fight has been made on the lieutenant governor's account, and of course his intercession would result in unanimous confirmation. It would also, the senators feel, leave the strategic advantage with the men who have held King up.

The senators have been supplied with typewritten copies, giving extracts from King's paper, the Red Lake Falls Courier, showing that after election he made some statements very derogatory to the lieutenant governor.

Ambition and Happiness.

Ambition, enterprise, effort and success are largely states of mind; happiness is in no way dependent upon these. If you want to be happy, decide to be, don't wait for the future or for prosperity. The man with a good constitution and perfect health is happier than most millionaires. The money is hard to make, but health and happiness can be had through using golden grain belt beer. Don't take our word for it; try a case at home; use it regularly with your meals and convince yourself. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

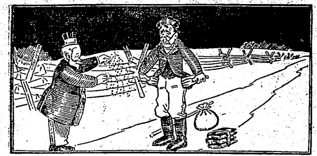
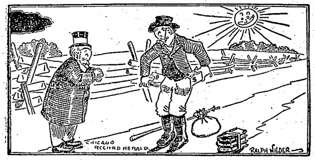
THE GOOD FAIRY.



Oberlin Student (Walking Home)—"It's No Use, Old Man. A Woman Came Down Here and Made Those Same Motions at the Bank President Who Had My Money, and the Bank Is Busted and So Am I."



Mr. Carnegie—"Andrewcarnegieprestochange! But You Seem to Have Something in Your Pockets!"

END OF STRIKE AT FALL RIVER

AFTER SIX MONTHS' IDLENESS COTTON OPERATIVES DECIDE TO ACCEPT REDUCTION.

Work in the Big Mills to Be Resumed at Once—Gov. Douglas to Adjust Minor Differences—Strike Has Cost About $5,000,000.

Boston, Jan. 19.—The strike of the cotton mill operatives at Fall River, which affected about 25,000 persons and has been in progress for six months, to the great hardship and suffering of Fall River's people, was settled Wednesday through the mediation of Gov. William L. Douglas. Under the terms of an agreement accepted by both manufacturers and operatives, at a conference held at the state house Wednesday, the strikers will return to work at once under the 12½ per cent. reduction, against which they struck last July, and with no discrimination because of the strike. No rate of wages was established, but it was agreed that Gov. Douglas shall investigate the matter of margins between the cost of cotton to the mill owners and the selling price of the cloth, and submit his conclusions as to an average margin upon which the manufacturers are to pay a dividend of five per cent. on wages earned from the present time to April 1. Both sides regard the outcome of the deliberations as a victory.

The mills affected by the strike have a combined capital of $25,000,000, and have 2,300,000 spindles. During the months the mills were shut down the operatives lost nearly $150,000 weekly, and the corporations about $23,000. The aggregate direct losses to all interests up to Wednesday are estimated at fully $5,000,000. The indirect losses were also considerable.

FOUR PERISH IN FIRE.

Terrible Result of Burning of a Farm Residence in Northern Wisconsin.

Iron River, Wis., Jan. 23.—The residence of George Barnes, one of the [illegible]st known farmers in north Wisconsin, was burned early Sunday morning. Four persons perished. The dead are: Mrs. George Barnes, Jennie May Barnes, aged seven; Virginia Barnes, aged fou[illegible]; Miss Elsie Miestner, of Washburn, [illegible] Wis., a school teacher.

[illegible]lly Elected.

Chicago, Jan. [illegible] 19.—Formal election of United States se[illegible]nators occurred on Wednesday as follow[illegible]: Indiana, Albert J. Beveridge, to su[illegible]cceed himself, and James A. Hemenway, to succeed Vice President-elect Fairba[illegible]nks; New York, Chauncey M. Depew; M[illegible]aine, Eugene Hale; Connecticut, Morg[illegible]an G. Bulkeley; Rhode Island, Nelson [illegible] W. Aldrich; Massachusetts, Henry Ca[illegible]bot Lodge, to succeed himself, and [illegible] V. Murray Crane, to fill out unexpired term of the late Senator Hoar.

Murder and Suicide.

Ellis, Kan., Jan. 20.—At Wilson, Kan., Thursday City Marshal Tillman shot and killed Sam Hutchinson, the postmaster and editor of a paper there, and then committed suicide. Several days ago Tillman whipped Hutchinson's boy and the latter scored the marshal in his paper. Thursday they met and quarreled.

Mi[illegible]ers Bar Saloon Men.

Indianapolis, Ind., Jan. 23.—A resolution barring membership to all saloonkeepers, owners of saloons or bartenders was adopted at the convention of the United Mineworkers Saturday.

Left Widow Aged 105.

Knobel, Ark., Jan. 23.—A man giving his name as Magar, who lately removed to this place from Howell county, Missouri, is dead, aged 125 years. His widow is 105 years old.

VOTES FOR IMPEACHMENT.

House Adopts Articles Providing for Removal of Accused United States Judge Swayne.

Washington, Jan. 18.—Senator Mitchell, of Oregon, made an impassioned statement before the senate Tuesday denouncing his indictment in connection with the Oregon land frauds.

The house listened to a five-hour debate on the Swayne impeachment case. The committee on post offices and post roads reported the post office appropriation bill. It carries $180,781,993.

Washington, Jan. 19.—The lower house of representatives on Wednesday adopted the 12 articles of impeachment against Judge Charles Swayne, of the district court of the northern district of Florida, which had been presented by its special committee of investigation. The speaker was authorized to appoint seven managers to present the case to the senate and conduct the impeachment proceedings before that body.

The charges of impropriety, made in connection with the campaigns of 1896 and 1904, were revived for a time in the senate by Senator Stone, who spoke in support of his resolution providing for an investigation of the charges.

Washington, Jan. 20.—The house of representatives on Thursday completed consideration of the army appropriation bill. A vigorous attack was made, but to no avail, on the army transport service by Mr. Humphrey, of Washington.

Consideration of the statehood bill was continued in the senate and Senator Stone spoke for two hours in opposition to it. The bill for the remuneration of American fur sealers who suffered losses because of their suppression was also debated.

Washington, Jan. 23.—In the senate Saturday a resolution accepting from the state of Kansas a statue of John J Ingalls was adopted. Notification of the appointment of the house managers to conduct the impeachment trial of Judge Swayne was received, and the response was made that the senate was ready to proceed with the case.

In the house the Indian appropriation bill was passed. Speaker Cannon announced the appointment of house managers to present the Swayne impeachment case to the senate as follows: Messrs. Palmer, of Pennsylvania; Powers, of Massachusetts; Olmstead, of Pennsylvania; Perkins, of New York; Clayton, of Alabama; De Armond, of Missouri, and Smith, of Kentucky.

Roosevelt to Receive Degree.

Troy, N. Y., Jan. 23.—President Roosevelt, who is stated to have accepted the invitation of Williams college to attend the commencement in June, will receive the degree of LL. D. The president will reach Williamstown on June 20 and 21, and remain a day or two as the guest of President Henry Hopkins. He will then go to Cambridge to attend commencement at Harvard and the twenty-fifth anniversary of the graduation of his class.

Dies Over Chess Game.

Osceola, Ia., Jan. 20.—His defense gone, Levi Taylor, business man and inventor, of Oscola, smiled defeat Wednesday night at his friend across the chess board, [illegible] then fell prostrate to the floor. He play[illegible]ed with death and lost. Apoplexy, du[illegible] to the excitement of the game, was the ca[illegible]use of the sudden demise.

[illegible] of Louise Michel.

Paris, Jan. 23.—The funeral of Louise Michel, the revol[illegible]utionary agitator, at Levallois Perret S[illegible]unday was the occasion of a large anar[illegible]chistic demonstration. The streets, how[illegible]ever, were heavily guarded by military [illegible] police and there was no serious disor[illegible]der.

Smoot Testifies.

Washington, Jan. 23.—Reed Smoot, United States senator from Uta[illegible]h, on the witness stand, declared his b[illegible]elief in revelations from God and said he would obey them, but in case they conflicted with the laws of the land he would leave the country.

Reflections of a Bachelor.

New York Press: There is more coal written on the bills than is put in the bins.

Some men are mean enough to want to deprive women of the joy of their sorrows.

It's queer that men object to swearing off drinking when there is so much fun swearing on again.

Every man has a pretty good opinion of himself till he gets in public office and reads what a scoundrel he is.

A girl has no end of self-control, when a man proposes, to be able to pretend she doesn't understand him when she really wants to yell with triumph.

Four Hundred Babies.

St. Vincent's Infant Asylum, Chicago, shelters homeless waifs awaiting adoption, and there are nearly 400 babies there. Sister Julia writes: "I cannot say too much in praise of Foley's Honey and Tar for coughs, colds, croup and whooping cough." Contains no opiates and is safe and sure. Ask for Foley's Honey and Tar and insist upon having it, as it is a safe remedy and certain in results Refuse substitutes. Sold by A. L. Reichert.

Ordinance No. 26.

AN ORDINANCE GRANTING TO THE ST. PAUL, MINNEAPOLIS & MANITOBA RAILWAY COMPANY, ITS SUCCESSORS AND ASSIGNS, THE RIGHT AND FRANCHISE TO LAY, MAINTAIN AND OPERATE RAILWAY TRACKS OVER AND ACROSS CERTAIN STREETS AND ALLEYS IN THE CITY OF RED LAKE FALLS, MINNESOTA.

The City Council of the city of Red Lake Falls do ordain as follows:

Section 1. There is hereby granted unto the St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, the right, privilege and franchise to lay, maintain and operate for and during the term of ninety-nine (99) years from and after the date of passage of this ordinance, a single or double track line of standard guage railway, over, upon and across the following described streets and alleys in said city of Red Lake Falls, to-wit:

Over and across Hamilton street, at the intersection of said Hamilton Street and Gieriet Avenue.

Over and across Harrison Street, approximately between Blocks eight (8) and fifteen (15) of Bottineau's Addition to Red Lake Falls.

Over and across St. Martha Street, between Blocks fifteen (15) and eighteen (18) of said Bottineau's Addition.

Over and across Main Street, between Blocks fifteen (15) and sixteen (16) in Buse and Canty's Addition to Red Lake Falls.

Over and across Eleventh Street opposite Block twenty-one (21) of said Buse and Canty's Addition.

Over and across First Street at the point near the northeast corner of Block two (2) in Champagne & Dow's Addition, where the tracks of said railway are already laid.

Over and across Seventh Street between Blocks seven (7) and eight (8) in Champagne, Dow & Gieriet's Addition.

The exact location of said tracks in and upon said streets being shown in red on the plat hereto annexed and hereby made a part hereof.

Section 2.—The rights, privileges and franchise hereby granted are granted upon condition of the full performance by the St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, of the following covenants and stipulations:

Said rights, privileges and franchise shall be used and exercised by the St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, in such manner as not to impair the usefulness of said streets above described, and said tracks shall be laid upon, over, and across said streets in such a manner as not to render said streets unsafe for public travel.

The said St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, shall construct and maintain under its tracks laid in said streets above described culverts sufficient to carry off all surface water which shall come to its roadbed and tracks in said streets by natural drainage, or by surface drainage of said streets and adjoining territory, as the grades of adjoining streets are now established and graded without substantial changes.

Said St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, shall and will maintain upon and over its tracks the present grade crossing on First Street, and shall construct and maintain over its tracks in Hamilton Street an overhead bridge at least twenty (20) feet wide, suitable for the accomodation of travel thereover, and shall and will from time to time as the said City Council may by resolution provide in the future construct suitable crossings, either grade or overhead, over its tracks on the rest of said streets above named; all such crossings to be constructed and maintained at the sole cost and expense of the said St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns.

The City of Red Lake Falls hereby reserves to itself the right, at its sole cost and expense, to excavate for, lay down and maintain under the roadbed and tracks of said St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, in said streets above described, public sewers, water and gas mains.

Section 3.—If said St. Paul, Minneapolis & Manitoba Railway Company, its successors or assigns, shall at any time fail, refuse or neglect to comply with any of the terms of this ordinance, or to do or perform, or permit to be done or performed, any of the things mentioned herein, the City Council of said City shall have power to declare and effect a forfeiture of all the rights, privileges and franchises herein and hereby granted said railway company, its successors or assigns, said declaration of forfeiture to be by resolution or ordinance duly passed. But no such forfeiture shall be declared or take effect if said railway company, its successors or assigns, shall fully comply with the terms of this ordinance within thirty (30) days after they shall receive notice of the intention of said City Council to declare such forfeiture. Such notice shall be by resolution duly passed by said City Council, stating wherein said railway company, its successors or assigns, is in default, and that said City Council will declare such forfeiture as aforesaid unless said default is made good within thirty days after notice served, and said resolution shall be published once in the official paper of said City and a copy of such resolution shall be served personally upon the acting ticket or freight agent in said City of said railway company, its successors or assigns, or of the railway company then in control of and operating the said line of tracks through said City; and with such service and publication, the service of such notice shall be complete.

And said Railway Company shall, when said City shall have laid, or caused to be laid, sidewalks upon any of said Streets up to the line of the right-of-way of said railroad Company, if ordered by resolution of said City Council, build, maintain and keep in good repair, sidewalks across the full width of said right-of-way, where said tracks cross said Streets, of the same kind and width as the sidewalks then already built up to said right of way along said streets, except that upon said bridge on Hamilton street, which shall be a wooden sidewalk four feet wide.

And said railway Company shall construct and maintain safe and suitable wing fences from the East end of said bridge on Hamilton Street at least as far as to the East sides of Gieriet and Sibley Avenues, and from the West end of said bridge at least as far as to the West sides of said Avenues, and extending to the South and North sides respectively of said Hamilton Street.

Section 4.—Said St. Paul, Minneapolis & Manitoba Railway Company, its successors and assigns, shall indemnify and save said City harmless from any damages arising from or resulting through the use of said streets herein before named by said Railway Company, its successors and assigns.

Section 5.—This ordinance shall not take effect or be in force until said Railway Company has duly filed its acceptance thereof with the City Clerk, duly signed and acknowledged by said Company, and thereupon and after compliance with this section, and passage, approval and publication hereof this ordinance shall take effect and be in force.

Passed first reading, Oct. 27, 1904.
Passed second reading, Jan. 5, 1905.
Passed third reading, Jan. 19, 1905.

FRED BORCHERS, President.

Approved this 25th day of January, A. D. 1905.

Attest: J. A. DUFFY, Mayor.
A. P. TOUPIN, City Clerk.

THE CITY COUNCIL.

Regular Meeting Held Thursday, January 19, 1905.

Regular meeting of the city council, held at the city hall, January 19th, 1905.

Meeting called to order by Fred Borchers, president.

Roll called: Aldermen all present except Brady.

Minutes of previous meeting read and approved.

On motion duly carried bills were allowed as follows:

Chas Patnode, cord wood	$ 6 00
Henry Hennemuth, street committee work	25 00
T A Crompe, do	25 00
Fred Borchers, committee work	6 00
M A Hatten, do	6 00
Peter Martell, blacksmith account	5 71
Anderson & Healy, rent of hall	10 00
Merchants State Bank, cash to Mrs. Gagnon, a pauper	10 00
Red Lake Falls Electric Light Co., bill of $112.56, allowed at	95 76

On motion duly carried Nick Grace was duly hired to clean the city well for the sum of $35.

An ordinance granting to the St. Paul, Minneapolis & Manitoba Railway company, its successors and assigns, the right and franchise to lay, maintain and operate railway tracks over and across certain streets and alleys in the city of Red Lake Falls, Minnesota, passed its third reading and was declared duly adopted.

The following resolution was offered by Alderman Hennemuth, which was seconded by Alderman Crompe:

Whereas, there has recently occurred several cases of hydrophobia in the city limits, and danger of further developments exists; therefore be it resolved, that all owners or possessors of dogs in the city of Red Lake Falls be and they are hereby ordered to muzzle and keep muzzled or keep confined all dogs in their possession or control for the period of two months from date hereof, under penalty of having said dogs confiscated by the city authorities, and the city police are instructed to enforce this order.

Upon roll call the following aldermen voted aye:

Hennemuth, Crompe, Hatten and Borchers.

Nays, none.

Whereupon the resolution was declared adopted.

The city clerk was duly instructed to advertise for sealed bids for city printing for the year 1905, bids to be received until Feb. 2, 1905, at 2 o'clock p. m.

An ordinance to regulate the hitching of teams in the streets passed its second reading.

On motion meeting adjourned.

FRED BORCHERS, President.

Approved this 25th day of January, A. D. 1905.

J. A. DUFFY, Mayor.

Attest. A. P. TOUPIN,
City Clerk.

I'll brave the storms of Chilkoot Pass,
I'll cross the plains of frozen glass,
I'd leave my wife with and cross the sea,
Rather than be without Rocky Mountain Tea. A. L. Reichert.

To Whom it May Concern:

NOTICE IS HEREBY GIVEN, THAT ON Saturday, the 11th day of February, A. D. 1905, the undersigned, along with other legal voters of the County of Red Lake and State of Minnesota, will begin the circulation of a petition among the legal voters of said County of Red Lake, addressed to the county commissioners thereof, the object and prayer of which will be that the county seat of said County of Red Lake be changed from the City of Red Lake Falls to the City of Thief River Falls, which is situated in Township 154 North of Range 43 West, in said County and State.

Dated, January 25th, 1905.

CHAS. M. EVENSON.
LARS BACKE.
D. N. WINTON.
JOHN MORGAN.
C. J. KNOX.
MATT BARZEN.
W. J. LaBREE.
ALEX A. SWEAAS.

Bids for Printing.

Sealed bids will be received by the city council until February 2, 1905, at 8 o'clock in the evening of said day, for the city pring of said city for the year 1905. A. P. TOUPIN, City Clerk.

Notice of Abatement.

WHEREAS, a duly signed and verified petition has been duly presented to the City Council of the City of Red Lake Falls, praying for the vacation of the streets, alleys and public grounds hereinafter described, which petition is accompanied by a plat showing in green color the streets, alleys and public grounds proposed to be vacated, which petition the said city council has ordered to be filed with the city clerk, and which petition prays for the vacation of said streets, alleys and public grounds upon the grounds that The Saint Paul, Minneapolis and Manitoba Railway Company is the owner of all the property abutting on the parts of said streets, alleys and public grounds to be vacated, and desires to use that part of said streets, alleys and public grounds proposed to be vacated for the construction of railway tracks thereover and thereon:

Now, Therefore, notice is hereby given, that said petition will be heard by the City Council of the City of Red Lake Falls at a regular meeting thereof, to be held in the city hall of said City of Red Lake Falls, on the 16th day of February, 1905, at 8 o'clock P. M., at which time and place all persons interested are notified to appear and be heard.

The streets, alleys and public grounds by said petition requested to be vacated are as follows:

All that part of Second street extending easterly from the easterly line of the alley in block two (2) of Champagne & Dow's addition to Red Lake Falls to the Clearwater river in said city.

All that part of Third street extending easterly from a line parallel with and twenty-five feet easterly from the easterly line of the alley running north and south in block eight (8) in said Champagne & Dow's addition to said Clearwater river in said city.

All that part of the alley in block nine (9) of said Champagne & Dow's addition easterly of the easterly line of lot nineteen (19) in said block.

All of the alley running east and west in the east half of block eight (8) of said Champagne & Dow's addition.

All that part of Saint John Avenue extending from the southerly line of First street to the northerly line of Fourth street in said city.

All that part of Fourth street extending easterly from the easterly line of St. John Avenue to said Clearwater river.

All that part of the alley between block seventeen (17) of said Champagne & Dow's addition and block four (4) of Champagne, Dow & Gieriet's addition extending from the northerly line of lot one [1] in said block four [4] southerly to the northerly line of Fifth street in said city.

All that part of Fifth street extending from the westerly line of block three [3] in said Champagne, Dow & Gieriet's addition easterly to the easterly line of Dow Avenue.

All that part of Dow Avenue in said city extending from the southerly line of Fifth street to the northerly line of Sixth street in said city.

All that part of Sixth street extending from the easterly line of Dow Avenue to the westerly line of the alley in block seven [7] of Champagne, Dow & Gieriet's addition.

All of the alley in block seven (7) in Champagne, Dow & Gieriet's addition.

All that part of Gieriet Avenue extending from the southerly line of Seventh street to the northerly line of Hamilton street.

All that part of of Sibley avenue extending from the southerly line of Hamilton street to the northerly line of Harrison street

Dated at the office of the City Clerk January 16th 1905.

A. P. TOUPIN
j19f9 City Clerk.

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 12, 1903, executed and delivered by Ben Gullick and Delia C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage,

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 507, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93, and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902; $12.00 on May 1, 1903, and a like amout annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $122.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903 at 2 o'clock p. m. in Book 15 of Mortgages, page 78.

And Whereas, the said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained; and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

PLUMMER.

(From the Pioneer.)

Frank Brady went to Red Lake Falls on Friday night for an over Sunday visit with the home folks.

Buttermaker wm. Lauritzon is busy nowadays puttings the creamery in shape for the coming season's work. He expects the ice house to be moved in next week and have it filled at once.

P. K. Olson has been taking a lay off from business for the past few days owing to a sore hand.

Fritz Gerke, who is digging the well for the new creamery, yesterday struck water at the depth of 27 feet,

Dr. Fletcher, the Red Lake Falls dentist, made his first professional visit to this town on Monday last and was well pleased with it. He will come regularly every month hereafters.

James Brady and Joseph Tschirhart were here from Red Lake Falls on Tuesday paying their respects to this town and its people for the first time. They were very much surprised to find such a good town here.

E. K. Gjernes was quite badly injured in a runaway while coming to town on Wednesday from his home in Garnes. His team started to run and in order to stop them he pulled into a patch of brush. He was thrown from the sled and his face and head were badly cut and bruised by coming in contact with the trees; He was in again yesterday and shows the marks of rough usage very plainly.

BADGER.

William St Yves accompanied by Rev. Father Bouchard, both of Crookston, called at the home of E. Quesnell,s on their way home from Terrebonne.

An eleborate supper was served at the home of Adelard Laurent Monday.

The Misses Alyce and Anna and Louis Quesnell arrived home last week from their visit at McIntosh and Fosston, and needless to say they enjoyed their visit.

Miss Rosana LaBissoniere is visiting friends and relatives here since last week.

August Morin and Joseph Lachance of Red Lake Falls and Charlie Charlebois of McIntosh have been working for E. Quesnell since Monday. Mr. Quesnell is having his home finished and no doubt they will find it a great deal pleasanter.

Joseph Ducharme, Evangelist Quesnell and Mitchel Quesnell and wives drove to the home of Joseph Prudhome, near Gentilly, Sunday afternoon, returning home after having eaten a hearty supper, and having a good time.

Homer Laurent of Terrebonne called on friends here Sunday.

Alphonse and Albert LaCombe, two popular young men of St. Hilaire, were guest at the home of E. Morinville last week.

Miss Maria Robillard of Red Lake Falls visited her cousin, Rosa Lachance, here last week.

Mrs. Mitchel Quesnell visited with friends and relatives at the Falls last week.

Ovila Robillard took the advantage of the nice roads last week and hauled several loads of hay to the Falls.

Miss Aurore Ducharme was a guest of the Misses Alyce and Anna Quesnell Monday.

Messrs. and Mesdames Louis St Yves, Dolphis Champeaux and Regis Gagnon were guests at the home of Joseph Champeaux of Terrebonne last Sunday.

Evangelist Quesnell and daughter, Bertha drove to the county seat Monday on business.

Masters Elie and Harvey St Yves, accompanied by their cousin, Horace Laurent, of Terrebonne visited friends and relatives at Crookston last week The boys report a very good time.

Misses Bertha and Zella Quesnell spent Sunday afternoon at M. Quesnell.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

LILLO.

Knute Lintwedt went to McIntosh last Tuesday.

John Raduiecki has taken up his residence on his claim on the other side of the Clearwater.

Osof Legwold came down from the lumber camps and returned last Wednesday with a big load of beef.

Lars Fore made a trip to Plummer last Saturday.

Miss Martha Kolstoe of Carnes called at Lillo last Monday.

August Lillo has moved himself and effects across the Clearwater into his homestead.

Our well known friend Ljot Sigurson is again carrying the mail after a month's vacation.

Mr. Con Short has been having his cellar plastered and cemented.

Several new arrivals in the community are reported. Mr. and Mrs. O. Nelson and Mr. and Mrs. S. Storaasli each welcome a new son and Mr. and Mrs. H. B. Reindal have another daughter.

Services were at the residence of O. Lintwedt last Sunday by Rev. Kolstoe.

The Clearwater ladies' aid held their annual meeting at Lillo Wednesday of last week and the following officers were elected: President Mrs. A. Rolandson; Secretary, Mrs. B. Langeli; Treasurer, Mrs. I. Lillo. The next meeting will be held at the residence of Mrs. O. Legwold the first Wednesday in February.

Brain Leaks.

He who wastes minutes wonders what becomes of the hours.

The best victories are won a long time ahead of the real conflict.

A man is often in bad company when he is alone with his thoughts.

"Good luck" is the term that the shiftless apply to the diligent.

The man who talks to himself always has an appreciative audience.

We have some doubts about the man who is always boasting of his reform.

Better meet trouble half way than to sit still and let it overwhelm you.

When a man is the slave of his stomach he can never be master of his mind.

A little today is better than waiting for tomorrow in the hope of getting more.

It beats the world how big a little house feels when the babies are away visiting.

The fellow who is in the wrong is usually the fellow who has "nothing to arbitrate."

It is a good thing for this old world that the people who growl about the weather do not have the making of it.

The funniest thing about the "comic sections" of the daily papers is the fact that they are called "comic sections."

But fine feathers do make fine birds, despite the old proverb. But fine feathers do not always make good or useful birds.

Opportunity knocks once at every man's door, but the trouble is that so many men are so busy grumbling at their fate that they can not hear the knock.

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and to-day she is well and strong." It kills the germs and of all diseases. One dose relieves. Guaranteed at 50c and $1.00 by All Druggists. Trial bottle free.

Button's Business College, Crookston, Minn., has more graduates working in that city as stenographers and book-keepers at a good salary than all other business colleges combined and offers $100 to anyone who will prove the contrary.

New line of correct fall stationery just received at THE COURIER stationery store.

MANNERS IN BUSINESS.

Brains and Good Deportment a Winning Combination.

The value of brains in business can not be overestimated, of course; but neither can the value of manners. Don't make the error of supposing that brains are everything. You may have the best set of brains in the town, but if you haven't the manners of a gentleman nobody is going to appreciate you. Your manner is the outward indication of what you are within in the estimate of most people, and if the manner is disagreeable few will take the trouble to examine into you any further.

The consensus of general opinion is that the man who goes about with porcupine quills as his manners hasn't any brains worth bothering about. Did you never notice that the men who employ large forces of intelligent people look at an applicant closely, ask a few seemingly unimportant questions and promptly employ or dismiss him? They don't sound his brain depth; they don't obtain his biography; they don't inquire into his social standing; they size him up from his manners, and if he is brass on the surface they don't look for gold within.

The employer knows that if an applicant's manner strikes him favorably it will also favorably strike people with whom he comes in contact in his work. And nobody knows better than a big business man that a favorable first impression means half the sale. People are apt to think that if there is any place where manners are of little consequence it is in business, where cold calculation so largely takes the place of feeling. But the truth is that nowhere else are manners of such importance as in everyday dealings. There is no capital and equipment any young man can have that will pay him better than good manners. There is no possible calling for which this does not better fit him. If he has brains the world owes him something, but unless he has good manners he will have a hard time collecting it.—Kansas City World.

A WHISTLER PICTURE.

The Dramatic Manner of Its Finish and an Anticlimax.

Whistler was one day visited by a foreign artist, an old acquaintance, with whom Whistler had not as yet quarreled. He was received with genuine cordiality, and, artist-like, he ran round the studio looking at everything. One small picture seemed to charm him especially, and he said, "Now that is one of your good ones." "Don't look at it, dear boy," said Whistler airily, "it's not finished." "Finished!" said the visitor. "Why, it is the most carefully finished picture of yours that I have ever seen." "Don't look at it!" persisted Whistler. "You are doing injustice to yourself, you are doing injustice to my picture, and you are doing injustice to me!" The visitor looked bewildered, when Whistler, in a theatrical tone, cried out: "Stop! I'll finish it now!" Then he procured a very small camel's hair brush, fixed it on a long and slender handle, mixed a little speck of paint on his palette, dipped the tip of his brush into it, and then, standing off from his picture and with the action of a fencer with his rapier, he lunged forward and touched the picture in one spot with his pigment. "Now it's finished," said he. "Now you may look at it." This was all highly dramatic, and indeed very well acted, but, as in the case of some stage plays, the final act of Whistler's performance proved to be an anticlimax. The foreign artist took his leave, but, finding that he had left his umbrella behind him, called for it next day. The servant, recognizing him, told him that Mr. Whistler had gone out for the day, but invited him to go to the studio and seek his umbrella. He went there and found it, but also took the opportunity of having one more look at the picture which had been "finished" for his special benefit the day before, and then he saw that the little dab of wet paint which Whistler had so dramatically put on he had afterward scrupulously wiped off again!—Frederick Keppel in The Reader.

Hidden Water Supply.

The investigation of a neglected spring or rivulet may bring to light a valuable supply of water for gardening or domestic purposes. A surprising quantity is often obtainable by installing a ram at some seemingly insignificant source. A ram is cheap, because the first expense is the last, there being no cost of maintenance, and it is satisfactory, because the ram requires no attention. Once started, it takes entire care of itself.—Country Life In America.

Twenty Shots In His Head.

At the present time there is a keeper on a Hertfordshire estate who has about twenty shots in his head. Nearly thirty years ago this man was accidentally shot by an under keeper, and there were twenty-two holes in the hat he wore, which is preserved to this day. The injured man never had the shots extracted, was long between life and death and completely lost his hearing.—London Standard.

Qualified Approval.

"How did you like the opera?"

"First rate," answered Mr. Cumrox. "I didn't care much about the tunes they played, but it was a great comfort to have enough noise to drown the vacuous conversation that was going on around me."—Washington Star.

A Looking Glass.

Mr. Crittick—Miss Artz tells me she does most of her painting now on glass.

Miss Spertz—I think she means with the aid of a glass.—Exchange.

A good name is rather to be chosen than great riches, and a loving favor rather than silver or gold.—Solomon.

A Handy Question.

Joseph Chamberlain was delivering a political speech in Birmingham, England. The hall was so packed that not another human being could have crowded in. The enthusiasm was tremendous, but suddenly a scowling man arose in the middle of the crowd.

"What did Mr. Gladstone say in 1872?" he howled.

"Shame!" "Put him out!" yelled the crowd.

Three sturdy men hurled the interrupter a few yards, and others helped hustle him to the street.

As he was picking himself up and brushing off the dust he grinned pleasantly at a man who had followed him from the hall and who asked, "What did Mr. Gladstone say in 1872?"

"I don't know," he replied, "and I don't care. I had a terrible toothache, and I couldn't butt my way through that crowd, and the only thing to do was to get thrown out."

In Case of Poison.

When any one is accidentally poisoned and you are not sure of the antidote give an emetic of some kind immediately. Mustard and salt are two things found in every household, but a bottle of ipecac costs little and is better than either and should always be kept in the house. If mustard is to be used put a dessertspoonful in a glass of lukewarm water and make the patient take two or three glasses. Then by tickling the throat with the finger vomiting is certain. The dose should be repeated in about ten minutes so that the stomach may be thoroughly emptied. No matter what the poison, remember, the thing you should do is to give an emetic.

Why He Paid.

Lord Alvanley in the first part of the last century had a duel with a political opponent, but nobody was hurt. His lordship was so pleased at returning without injury that he paid his hackney coachman with a liberality that surprised the latter, and on the man remarking that it was more than his due for driving him that distance Lord Alvanley replied, "It is not for carrying me there, but for bringing me back."

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate person. Sold by A. L. Reichert.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strenght by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

School tablets of all kinds at the Courier stationery store.

TORMENTING RHEUMATISM

Columbus, Ohio, May 20, 1903.

Six years ago I had a severe attack of Inflammatory Rheumatism. I was laid up in bed for six months, and the doctors I had did me no good. They changed medicines every week and nothing they prescribed seemed to help me. Finally I began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my joints were so swollen and painful that I could not close them when opened. I was so bad that I could not move knee or foot. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and to-day I am a sound well man and have never had a return of the disease. S. S. S. purified my blood and cured me of this severe case of Rheumatism after everything else had failed. I have recommended it to others with good results.

R. H. CHAPMAN.

1355 Mt. Vernon Ave.

The poisonous acids that produce the inflammation and pain are absorbed into the blood and Rheumatism can never be conquered till these are neutralized and filtered out of the blood and system. S. S. S. goes directly into the circulation and attacks the disease itself. It purifies and restores the blood to a healthy, vigorous condition. It contains no potash, alkali or other strong minerals, but is guaranteed entirely vegetable. Write us and our physicians will advise without any charge whatever. Our book on Rheumatism sent free.

M. SKALA

Northside, Red Lake Falls.

Red Lake Courier.

Printed Every Thursday Evening at Red Lake Falls, Minnesota.

By JOHN E. KING.

$1.00 Per Year, in Advance.

"LAY ON, MACDUFF!"

The gage of battle has been thrown and the capitol of Red Lake county is the high stake for which the people of Thief River Falls mean to play. Notice is given that on February 11 the citizens of that city will circulate a petition praying for the removal of the seat of county government from Red Lake Falls to Thief River Falls.

This matter is of great importance to the cities concerned in the fight. But it is of more importance to the farmers and tax-payers of the county, who will be compelled to foot a pretty bill if the scheme of Thief River Falls is successful. Red Lake county has property in Red Lake Falls in value aggregating more than $8,000. If the county-seat is moved this will of course be of little value and will mean practically a total loss to the tax-payers. The expenses of moving the county offices and the acquisition of new quarters will mean a good many thousand dollars of expense, and if the proposition wins farmer and business man alike will feel a twang at their purse-strings calculated to take the edge off of their enthusiasm for awhile.

The people of Red Lake Falls will of course fight to the bitter end for the retention of the county-seat, and the fact that they are in possession and that 55 per cent. of the vote of the county is required to move the county-seat gives the odds to them.

Perhaps it is just as well that the fight should come now. For some years it has seemed inevitable, and the vote—if it comes to that—will settle the question for all time.

THE most brittle thing in the world is a good resolution.

MANY a man wants the earth, but in the end the earth gets the man.

WE fight shy of all comers on our "busy days," but we're all at home to the world when the dollar rings.

THE report that the present legislature will establish a press censorship is probably incorrect.

IF the state press had the say-so it is evident that the editor of the COURIER would be confirmed as state librarian in a jiffy.

MINNEAPOLIS lays claim to the distinction of being the healthiest city in the world. This is all because she happens to be located in Minnesota.

THE Slayton Gazette, one of the strong Republican papers of Southern Minnesota declares that "Governor Johnson's start-out warrants the expectation that he will edit the business of the state in a decidedly satisfactory manner."

Now and then we hear a man say the public schools cost a lot of money, but he must be inordinately selfish as well as too ignorant to appreciate the value of an education if he does not believe they are worth every cent.

EDITOR JOHN C. WISE, of the Review, has been appointed resident director of the Mankato normal. The selection is especially fitting, and will please the people of Mankato and Mr. Wise's many friends elsewhere.

ALEX THOMPSON of Crookston has been appointed surveyor general of logs and lumber for the Red River district, succeeding James H. Maybury. Mr. Thompson is a Democratic wheelhorse in the valley, and his selection is generally satisfactory. The appointment takes effect in April.

GOVERNOR LAFOLLETTE will be the new senator from Wisconsin, the legislature yesterday electing him by a substantial majority. The fighting governor has had a stormy and strenuous career, but the people believe he is honest, courageous and capable. It would be well for the nation if we had more senators of LaFollette stripe.

EDITOR HUNTINGTON ought to come to Red Lake Falls where the ladies always remove their hats at public entertainments. He says in his Windom Reporter: "Now, if the legislature will pass a law forbidding the ladies wearing their hats in public places it will have done one worthy deed and won the hearty approval of the masculine population.'

P. M. KERST, who has been deputy public examiner for the past six years, will be appointed public examiner in a few days. Mr. Kerst is well equipped for his new post by years' of experience in public accounting, and no doubt his appointment will prove a popular one. Frank N. Stacy of Minneapolis, at present private secretary to Congressman Lind, will be his deputy.

THE report of the new statute revision committee is giving the legislators a great deal of trouble. Some of the laws of the state have been left out altogether and many others so emasculated that it is impossible to tell just where we would be if the new code was adopted without careful revision. It looks as though a new commission ought to be appointed to revise the revisionists.

RUSSIA is reaping the whirlwind. The revolutions in Moscow and St. Petersburg indicate the downfall of the autocratic government, and it is not improbable that a republic will be evolved out of the present chaotic condition. This will be the greatest stride in the world's progress to better things in more than half a century. Beaurocracy and monarchy cannot long survive the tendency of the age.

FRED T. LINCOLN, the journalistic genius who brought the Crookston Journal into prominence, now has editorial charge of the Crookston Times, and under his management we shall expect that paper to increase in prominence and popularity. Mr. Lincoln is one of the best all-around newspaper men ever coming to the Valley, and the Times is fortunate in securing his services.

THE Northfield News prints a list of twenty-three entries in the Republican gubernatorial race to succeed Governor Johnson. In the meantime it is not wise to pick a winner too early in the game. Governor Johnson himself is yet to be reckoned with. If he could be elected in a presidential year, why should he be defeated next year, when there will be no special reason for voting the ticket straight?

THE Princeton Union argues that "the stone and timber act should be repealed and give place to an act that might serve to better protect the public domain from speculators. Nine-tenths of all the land taken up under the stone and timber act passes into the hands of the lumber rings and thieves. Valuable timber land belonging to the nation going at $2.50 per acre. A great head, Uncle Sam, a great head!"

SENATOR ALLEY of Wright county has introduced a bill in the state senate to abolish the death penalty for murder except where the jury shall agree to bring in a verdict imposing that penalty. In all other cases the extreme penalty shall be thirty years' imprisonment. The new law would impose the direction of the sentence directly upon the jury instead of upon the court as at present, although under the present law the court has no discretion in cases of murder in the first degree, and the verdict of the jury in fact imposes the penalty, although not in terms.

THE annual meeting of the Minnesota Editorial association will be held in St. Paul, February 23 and 24. The session will be held in the parlors of the Commercial club. The executive committee of the association held a meeting last week and outlined plans for the 1905 meeting. The members of the executive committee are: C. C. Whitney, of Marshall, C. P. Stine, H. P. Hall, David Ramaley, of St. Paul, and F. J. Meyst, of Minneapolis. President C. F. McDonald of St. Cloud, met with the committee. A program of interest will be prepared and the editors will be hospitably entertained by the Commercial club and civic associations. The fraternity always looks foreward to these meetings with satisfaction for it is profitable to occasionally get away from one's self and exchange thoughts and ideas with our fellows in the profession.

THE GRAND JURY.

A strenuous effort will be made at the present session of the legislature to abolish the grand jury by urban members whose motives are not altogether clear. There is a shadow of truth in the argument that the abolition is demanded by the people, as witness the vote on the constitutional amendment proposition at the recent election. Since there is no crying demand for a change in the law it is only fair to presume that the amendment carried under a misapprehension in the minds of the voters. The Minnesota electorate has somehow got into the habit of voting "yes" on these propositions, and any question that is negatively stated can be assured of a majority, even though by this vote the people are signing away one of their most cherished rights and privileges.

The grand jury has its disadvantages and innocent people are not in frequently made to suffer injustice and mortification, but it is hard to determine wherein the new system of giving a public prosecutor full power in conducting criminal investigations would be an improvement. Representative Simons of this district is strongly opposed to a change in the law, and in a recent interview gives his views as follows:

"My reasons for opposing the abolition of the grand jury are that the matter of indictments for crime followed by trials are more likely to be attended to where the indicting power is part of the system and machinery of the court as is the grand jury. Abolish the grand jury and you put the initiative of the matter up to the county attorney to be subject to his whims, sense of duty, energy and prejudices.

"There would be a tendency to allow political offenses to go unpunished, such as bribery charges, malfeasance in office, violations of duty on the part of public officers, etc. Wealthy corporations and individuals might see an opportunity to presist in public offenses in the hope of fixing the matter right with county attorneys. I speak of these only as possibilities that might be realized under the new system. The chief reasons for abolishing the grand jury are that it is expensive and cumbersome. I think neither of these reasons have much weight against the alternative conditions just named. The grand jury system has had the test of centuries and should, in my judgement, be allowed to stand."

BOARD OF CONTROL SECRECY

Wheelock's Weekly: Mr. Jacobson of the board of control thinks the selection of L. A. Rosing as a member of that board is an excellent one, and adds: "He will undoubtedly, once he learns the situation from the inside, approve of the board's plan of secrecy in regard to contracts and other matters." We can agree cordially with Mr. Jacobson's opinion of Mr. Rosing's appointment, but as to believing that L. A. Rosing will ever approve of the czar-like methods which the board of control thinks so statesmanlike, that is beyond the bounds of possibility. It makes no difference how well the plan has worked up to the present time, there will come a time when the secret bid and secret contract will be a cloak to grafting of the worst description, and the picayunish savings of the previous boards will dwindle into nothingness in comparison with the sums that will be looted from the public treasury.

Moreover, the people are the bosses of the board of control, not its servants, and the people demand and have a right to know every detail about its conduct in office, its payments, bids, contracts, and all other matters connected with its official life. If the people are willing to pay the slightly higher price for commodities that the board says is saved by the secret system, it is not the board's province to refuse the people that privilege. It is a case of the sheerest bureaucracy, and must sooner or later give way to the weight of public displeasure with which it is viewed. Mr. Rosing probably cannot, single handed, make any reform of the board's methods, but he would not be L. A Rosing were he to desert his own belief in the supremacy of the people and approve the board's present course in this matter.

A Narrow Escape.

Mr. Henry St. George, of Elm Grove, Wis., thought that he was permanently crippled. Sciatica rheumatism had such an iron grip on him that he thought that he would never be able to walk again, but through the aid of Gloria Tonic he was completely cured, after high priced Doctors failed. Sold by W. A. Schreiter.

Notice of Dissolution of Partnership.

Notice is hereby given that the partnership heretofore existing between Leo Steinert, Theo. Majeres, and C. F. Johnson, under the name of the Northern Minnesota Milling Company, at Red Lake Falls, Minnesota, has been dissolved, all property of the company including the name, good will, and accounts due them having been sold and disposed of to H. H. Zaiser, who will con the business. All liabilities of the firm will be paid by the aforesaid former members.

Dated Jan. 18th, 1905.
Northern Minnesota Milling Co.

Theo. Majeres.

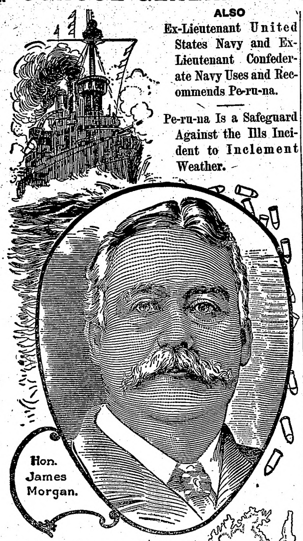
Go To Sunny California

Far from the chills of wintry blasts. Boating, bathing and outdoor pleasures may be enjoyed during the winter months in California. Through tourist cars via the North-Western Line from Minneapolis and St. Paul on two days of each week make the journey comfortable and at a minimum of expense. For rates, literature on California or any information desired write T. W. Teasdale, G. P. A. St. Paul, Minn.

Sickening Shivering Fits

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists. price 50c, guaranteed.

"Flinch," "Somerset, and all the new card games at THE COURIER stationery store.



Hon. James Morgan.

The Ex- CONSUL GENERAL TO AUSTRALIA

ALSO

Ex-Lieutenant United States Navy and Ex-Lieutenant Confederate Navy Uses and Recommends Pe-ru-na.

Pe-ru-na Is a Safeguard Against the Ills Incident to Inclement Weather.

HON JAMES M. MORGAN, 1735 Twentieth Street, Washington, D. C., Ex-Lieutenant U. S. Navy, Ex-Lieutenant Confederate Navy, and Ex-Consul General to Australia, writes:

Peruna Medicine Co., Columbus, Ohio:

Gentlemen:---"The use of your Peruna as a remedy or cure for catarrh by many of my friends who have been benefited by the same, as well as my own experience as to its efficacy and good tonic properties causes me to recommend it to all persons, and you are at liberty to use this endorsement and my photograph if it will give any force to same."---James M. Morgan.

Catarrh of the Head Which Affected Hearing Cured by Pe-ru-na.

Mr. J. Emile Tanguay, No. 232 John St., Quebec, is Secretary of the Jacques Curling Club of Quebec, one of the leading sporting clubs in the city. Its members are composed of young men of the best families. He writes:

"Last winter I caught a severe cold which developed into a severe case of catarrh of the head, affecting my hearing especially. My eyes ran, my system seemed to be generally clogged up. I was advised by a club friend to try Peruna, and did so at once. To my delight I found a change set in for the better within three days, and in eight days I was entirely well."J. Emile Tanguay.

Mr. Adolph Koehler, President of the North Side Turnerschaft, writes from Clark and Leland Ave., Chicago, Ill.:

"It is with pleasure that I endorse Peruna as a first-class medicine especially for catarrhal affections of the throat and lungs. I have used it with much benefit and several of my friends have been cured of catarrh entirely where Peruna was used."—Adolph Koehler.

"Nothing Better Than Pe-ru-na for Catarrhal Troubles," Says Congressman C. P. Dorr.

C. P. Dorr, Hotel Johnson, Washington, D. C., Ex-Congressman from West Virginia, writes:

"I can cheerfully recommend Peruna to anyone who wants a safe and permanent cure for catarrh. For throat, lung and catarrhal trouble there is nothing better than Peruna."—C. P. Dorr.

Colds Lead to Chronic Catarrh.

A common cold is acute catarrh, which quickly becomes chronic catarrh if allowed to remain.

Every cold snap leaves in its trail thousands of cases of catarrh, many of whom for want of an effective remedy, will suffer from this disease the rest of their lives.

Is there anything that can be done to prevent all this?

In the first place, Peruna used at the proper time will prevent taking cold. In the second place, Peruna will cure a cold in from two to five days.

Again, Peruna will cure catarrh quickly in the first stages, and finally Peruna will also cure chronic catarrh, if used properly and persistently.

Peruna kept in the house and properly used will therefore not only act as a safeguard against the ailments which result from sudden cold waves, but will also prove a sure remedy for this class of ailments.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Peruna can be purchased at any first-class drug store for $1.00 per bottle.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Ask Your Druggist for Free PERUNA ALMANAC for 1905.

DR. FENNER'S Kidney AND Backache Cure

ALSO PURIFIES THE BLOOD.

All Diseases of the kidneys, bladder, and urinary organs.

Also heart disease, rheumatism, backache, gravel, dropsy, female troubles.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations are FREE.

"This is to certify that I was laid up with Sciatic Rheumatism 16 months, being unable during that time to perform any labor and had paid out $480 to physicians without benefit. Being advised by a friend to try Dr. Fenner's Kidney and Backache Cure I did so and 4 bottles cured me. Since then I have recommended it to hundreds suffering with kidney troubles and the result has been a cure in every case. O. S. SPRAY, Bloomington, Ill."

Sold by Druggists, 50c. and $1. Ask for Dr. Fenner's Almanac or Cook Book—free.

ST. VITUS' DANCE. "We have sold many dozens of Dr. Fenner's St. Vitus Dance Specific and every case has been cured by it. It is a blessing. ALLEN-CLARK DRUG CO., Akron, O."

Sold by A. L. REICHERT, Red Lake Falls.

"The Heart of a Hero" by the Spartans, for the benefit of the school library at the opera house January 27.

Leo Erb went to Crookston last week to commence work in the job department of the Crookston Times office.

A meeting of the Royal Neighbors will be held on Friday evening of this week. A large attendance is desired.

Did you ever try to find out the secret of the miraculous growth of Button's Business College, Crookston, Minn?

John McIntyre, an employee of the J. I. Case company at Fargo, was the guest of his sister, Mrs. A. L. Reichert, over Sunday.

Owing to an unusual rush of work at this office this week the educational department is omitted. It will appear next week as usual.

"Queen Quality" shoes for women not only permit easy walking, but keep the foot well arched with narrow insole.—Garceau & Zaiser.

Dr. J. C. Wilkinson continues to improve and will be able to sit up in a few days. It will be several weeks, however, before he is strong enough to resume his work.

Mrs. F. E. Hunt will entertain the ladies' aid society of the Presbyterian church at her home next Wednesday afternoon, February 1. A ten cent lunch will be served.

After this week people in need of J. R. Watkins' remedies may call at the home of William Zaiser in Red Lake Falls. I will call on my customers in the country soon.—Theo. Zaiser.

Leo Spillane is at Crookston last week and is temporarily employed in the office of the Crookston Times. If he finds the work congenial he may conclude to take a permanent position there.

The M. B. A. basket social was well attended Monday evening and everybody had an excellent time. The M. B. A.'s are ospitable people and their social functions are always delightful occasions.

For popular-priced children's shoes see our Godman line. Misses' shoes at $1.00, $1.25 and $1.40. Children's shoes, 60c and 90c. Cheap but good. Every pair guaranteed for the price.—The Big Store.

The J. B. Cigar company this week installed a new pool table in their retail cigar store, and the public generally is invited to make use of it. This store is likely to prove a more popular place than ever for the young men.

Frank E. Hunt is expected home from Talapoosa, Georgia, the fore part of the week. Mr. Hunt must have improved in health more rapidly than anticipated, as he did not expect to return before April at the time he left Red Lake Falls.

The orchestra went to St. Hilaire last evening to furnish music for the masquerade ball. A number of Red Lake people accompanied them to enjoy the festivities of the evening. The affair is pronounced a great success by all in attendance.

See our new line of St. Cecilia shoes for women. These shoes have certainly merited the good will of the ladies of this town. We promise that our new line will still further ingratiate itself in the hearts of women who are dainty about shoes.—Theo. LaBissoniere.

The Sunday school of the Presbyterian church will give a rag ball social Frinay evening, February 3, at the church parlors. Every young lady is requested to bring her name securely wrapped in a rag ball. These will be auctioned to the highest bidders for partners to supper. Don't miss it.

E. E. Parke, representing the McGill-Warner company of St. Paul, was interviewing the county officials yesterday. Mr. Parke was formerly engaged in selling school supplies, but on the first of the year started out with the general line of printing and supplies for this house.

A newspaper may devote a column in the praise or commendation of a man and he will forget it in a couple of weeks, but a two-line item that is not altogether pleasing, will be remembered by the average reader for two years.

"Queen quality" reigns only as a shoe for particular women—for women who wish that certain gracefulness in walking which can only be attained by a perfect-fitting shoe. Prices very moderate—$3 and $3.50. For sale by Garceau & Zaiser.

Our new line of King Quality shoes for men will be here this week. These are no longer an experiment with us. They have proven to be just the shoe for stylish dressers. Quality and style is seen in every shoe.—The Big Store.

The annual financial statement of Red Lake county will appear in next week's issue of THE COURIER and continue for three weeks. The statement make a complete exhibit of the business of the county during the past year and shows that public affairs have been managed economically and intelligently.

Grand Forks Herald: Mrs. James Sullivan, who came here from Red Lake Falls on Sunday, was taken to the Deaconess hospital and an operation performed yesterday. Her case is considered quite a serious one. Mrs. Sullivan was formerly a resident of East Grand Forks and her husband died here a year ago.

The new code, if adopted as reported by the revision committee, would reduce the clerk hire in the county auditor's office 50 per cent. As the clerk hire allowance in the newer counties is already inadequate the new deal would work a manifest injustice. It is likely that the more glaring errors will be corrected before the code is adopted.

Rev. Father LaCrosse of Winnipeg will deliver a lecture at the Terrebonne church on Thursday evening, February 19. Father Lacrosse is a humorous and interesting talker, and the people having the pleasure of hearing him will receive a rare treat. Red Lake Falls people are extended a cordial invitation to attend the lecture.

A paper of more than usual interest was recorded at the office of the register of deeds this week. It is a mortgage filed by the Soo railway, and covers more than fifty pages of closely written typewriter matter. The fees for this one transaction are sufficient to keep the wolf from Register Jeffers' door for a day or two.

Instructions have been received by the postoffice authorities to discontinue the star route mail service from Red Lake Falls to Lost and from St. Hilaire to Wyandotte. The orders go into effect February 1, after which time both offices will be permanently closed. Lost and Wyandotte are in the vicinity of Plummer, which office will hereafter supply the patrons.

CHICAGO, ILL.

Parents should be careful that their children's feet do not become flat-footed or deformed by wearing poorly-made shoes. "Red School House" shoes are made correctly. School bags free with every pair of shoes sold.—Garceau & Zaiser.

Jens Nelson has purchased the interest of his partner, T. J. Thorkelson, in the Imperial Drug company at St. Hilaire. Mr. Thorkelson does not yet know where he will locate, but expects to leave St. Hilaire in the near future. THE COURIER wishes both of the boys unbounded success, for they are deserving of it.

Commissioner Daniel Shaw was down from Thief River Falls yesterday, enroute to Crookston, where he will take an examination before a committee of past master Masons before assuming the office of worshipful master of his home lodge, a position to which he was recently elected.

Dr. and Mrs. J. E. Argue, Mr. and Mrs. J. B. Armstrong, Misses Lillian Buse and Melvina Allard and Messrs. Harry Healy, Arthur Mercier, E. G. Buse, Sullivan Hall, Ernest Gerlach, Andrew Onstad, Adelard Lemieux, Ralph Healy and Roy Wilford attended the masquerade ball at St. Hilaire last evening nd report a most delightful time.

R. H. Green came in from Equality Monday to visit friends and look after business matters for a couple of days. Mr. Green says the farmers out his way have plenty of hay and feed this year, which is certainly fortunate since there is no market for cattle or horses just at present. Many farmers have surplus stock they would like to dispose of, but are unable to find buyers at any price.

Judge Tarrant was mad enough to swear yesterday. He remained at his office after his usual dinner hour in expectation of earning a fee for performing a marriage ceremony, but it turned out that a license could not be granted because the blushing prospective bride had not been divorced from her first husband the statutory six months. In this case the marriage bells did not ring.

Once upon a time a newspaper man went to church and after much deep reflection studied out the reasons that brought people to the house of worship as follows: Some go to weep, while others go to sleep; some go to tell their woes, others go to show their clothes; some go to hear the preacher, others like the solo screecher; [illegible] to reconnoiter, girls [illegible] they orter; some go for reflection, precious few to help the collection.

A meeting is called at the city hall to-night by Mayor Duffy to discuss the county-seat question and devise ways and means of promoting the remonstance to the proposed petition of Thief River Falls for the removal of the county-seat. The COURIER goes to press too early to report the meeting, but the business men and citizens generally are thoroughly alive to the situation, and no expense will be spared in protecting the interests of the city. A large crowd is in attendance at the meeting.

The first issue of the Thief River Press under the management of Frank Packard appeared last week. Mr. Packard is a good newspaper man and has some metropolitan ideas with regard to journalism which can doubtless be worked out satisfactorily in rural newspaper work. Mr Packard talks of establising a daily in March. At present Thief River is rather a small town, and the field for a daily newspaper is rather limited. However, if anybody can make a success of such a venture Mr. Packard can.

Crookston Journal: Marcus Johnson and S. M. Sivertson, the Red Lake Falls and Crookston mill men, who drove down from the Falls Friday evening report the country roads in bad shape and in some places hard to pass over because of the warm weather last week. The short thaw experienced throughout the northern portion of the state was disasterous to the country roads as well as loggers and as a result teamsters find driving rather hard work for their teams. Mr. Sivertson spent yesterday in Fargo and points on that line and Mr. Johnson proceeded below.

That Hollow Cough

can easily be cured by using Gloria Lung Balsam. It is sweet, pleasant and soothing preparation and even the worst cases can be relieved at once. It is made of healing and soothing balms and is best for children. Sold by W. A. Schreiter.

Garceau & Zaiser.

The Great Northern pile driver was tought to town Monday, and a force of men is now engaged in driving piles in the sliding earth along the Clearwater river bank. Much trouble is anticipated next spring, and it is not unlikely that a wall of masonry will be necessary to keep the restless soil from going into the river. The soapy substance of the banks of the Red Lake and Clearwater rivers has entailed a big bill of expense on the railroads at Grand Forks, Crookston and Red Lake Falls.

The Thief River Review charges that "Attorney Grady and a companion named McIntyre" got onto Attorney Lee's game at Crookston the other evening and telephoned Red Lake Falls parties to get the warrant for the court house purchase paid at once. Both the gentlemen disavow the soft impeachment, and deny that they held any telephone communication whatever with anybody from Red Lake Falls. They were at Judge Watts' chambers on legal business of their own and were not interested in Attorney Lee's troubles.

80 Years Old.

Mrs. Sina W. Platt, of Unity, Wis., a lady of 80 years, was recently cure of rheumatism by Gloria Tonic after many well-known remedies were previously used. This happy result ought to be a great encouragement to many of our readers. Sold by W. A. Schrieter.

Stone Wanted.

The undersigned will contract for stone to be delivered during winter at mill. Red Lake Falls Milling Co. tf

BAND CONCERT ON TUESDAY

A Program of More Than Usual Worth is Promised—Boys Should Have Good Patronage.

The next band concert of the Red Lake Falls band will take place at the opera house next Tuesday, and the boys promise that this will be one of the best of the year. Prices of admission will be 25c and 15c. Reserved seats, 50c. Season ticket holders will be admitted free as usual. It is hoped the boys will be given a generous patronage. The program is as follows:

1 March.................................Clark
"Belle of New York."
2 Caprice.................................Losey
"Dance of the Fireflies."
3 Recitation, "Sister and I"...............
Miss Lucy Hunt.
4 Selection from "Il Trovatore"...........Verdi
5 One act farce comedy......................
"Remember Benson."
6 "Pickinieles Patrol"...............Laurendeau

is "the cleanest, most stimulating, meatiest general magazine for the family," says one of the million who read it every month. It is without question

"The Best at any Price"

Great features are promised for next year—six or more wholesome interesting stories in every number continued stories, beautiful pictures in colors, and articles by such famous writers as Ida M. Tarbell, Lincoln Steffens, Ray Stannard Baker, John La Farge, William Allen White and Charles Wagner. Get all of it right into your home by taking advantage of this

Special Offer

Send $1.00 before January [illegible] 05 and we will send you free the November and December numbers of 1904—fourteen months for $100 or the price of twelve. Address McCLURE'S, 48-59 East 23d Street, New York City. Write for agent's terms.

CZAR'S ANSWER IS WRITTEN IN BLOOD

WORKINGMEN PETITION HIM TO APPEAR AND LISTEN TO GRIEVANCES.

Instead, He Sends Big Force of Troops, Who Charge Upon and Fire Volleys Into Mob in the Great Palace Square, Killing Hundreds.

St. Petersburg, Jan. 23.—Sunday was a day of unspeakable horror in St. Petersburg. The strikers of Saturday, goaded to desperation by a day of violence, fury and bloodshed, are in a state of open insurrection against the government. A condition almost bordering on civil war exists in the terror-stricken Russian capital. The city is under martial law, with Prince Vasilchikoff as commander of over 50,000 of the emperor's crack guards. Troops are bivouacking in the streets and at various places on the Nevsky Prospect, the main thoroughfare of the city. The empress dowager has hastily sought safety at Tsarskoe Selo, where Emperor Nicholas II. is living.

Men Met with Troops.

Minister of the Interior Sviatopolk-Mirsky presented to his majesty Saturday night the invitation of the workmen to appear at the winter palace Sunday afternoon and receive their petition; but the emperor's advisors already had taken a decision to show a firm and resolute front, and the emperor's answer to 100,000 workmen trying to make their way to the palace square on Sunday was a solid array of troops, who met them with rifle, bayonet and saber.

The Slaughter.

The latest estimates of the killed and wounded at the various points where the conflict raged are as follows:

	Killed.	Wounded.
At Narva gate......	300	500
At Morskaia gate....	1,000	1,500
At Nevsky gate.....	500	700
In Vassili district...	200	500
Scattering.........	100	1,700
Total	2,100	4,900

The priest Gopon, the leader and idol of the men, in his golden vestments, holding aloft the cross and marching at the head of thousands of workmen through the Narva gate, miraculously escaped a volley which laid low half a hundred persons.

Populace Infuriated.

The blood which crimsoned the snow has fired the brains and passions of the strikers and turned women as well as men into wild beasts and the cry of the infuriated populace is for vengeance. The sympathy of the middle classes is with the workmen.

The military authorities had a firm grip on every artery in the city. At daybreak guards, regiments, cavalry and infantry, held every bridge across the frozen Neva, the network of canals, which interlaces the city, and the gates leading from the industrial section, while in the palace square, at the storm center, were massed Dragoon regiments, infantry and Cossacks of the guards.

At the Palace Square.

When the correspondent arrived at the palace square early in the morning he found a considerable crowd of demonstrators already lining the railings of the admiralty garden and the boulevard. The square itself presented the appearance of a military encampment.

The crowd of strikers in and outside the admiralty gardens continued to grow hourly, swelled by arrivals from the Nevsky Prospect, which touches upon the boulevard skirting the gardens. The strikers manned and held a small edifice at the corner of the gardens and poured out constant objurgations and reproaches at the troops. It was in vain that officers requested them to disperse.

Bridge Cleared.

Every time the troops moved the strikers hissed them. Strikers also gathered at the entrance of the grand Norskaia and of the avenue leading to the Moika canal. The crowd at the latter place swelled to huge proportions, blocking the bridge across the canal. The order came at 1:30 p. m. to clear them off. The colonel commanding the horse guards uttered a short, sharp command: the troopers drew their swords and advanced at a quick trot, and then broke into a gallop, heading straight for the Moika, where they were lost in a cloud of snow. Shrieks from the wounded resounded. Then came a deadly silence, broken only by the galloping of ambulance horses.

Charge Ordered.

The next 20 minutes passed without incident. Nothing indicated the approach of the horrible butchery which was destined to stain the corner of the admiralty gardens with human blood. The crowd there persisted in refusing to move on clamoring for the emperor and continually hurling abuse at the troops, but attempted no violence. Two companies of the Proebranjensky guards, of which Emperor Nicholas himself was formerly colonel, which had been standing at ease in front of the palace, formed and marched at double quick towards the fatal corner. Events followed with awful swiftness.

Awful Butchery.

The commanding officer shouted: "Disperse! disperse! disperse!" Many in the crowd turned to flee, but it was too late. A bugle sounded and the men in the front ranks sank to their knees and both companies fired three volleys, the first two with blank cartridges and the last with ball. A hundred corpses strewed the sidewalk. Many women were pierced through the back as they were trying to escape. The correspondent, standing behind the troops, saw mangled corpses of persons of all ages and both sexes strewing the ground. One boy of 13 had his skull pierced and rent by bullets. Great splashes and streams of blood stained the snow. Only a few of the victims remained alive, for the fatal volley was fired at a distance of not more than 20 paces, and so the ambulances had little work to do. The police recruited a large number of droshkys (sleighs) to carry off the dead. Heartrending scenes were witnessed as wives, husbands and mothers came up to claim their dear ones, and were carried off with them in the sleighs. Meanwhile the crowd had drifted up the Nevsky Prospect yelling: "Murderers! murderers!" and the square resumed its calm aspect, the troops returning to their stations.

It was now the turn for the crowd stationed at the Morskaia entrance to the square, where the horse guards repeated the exploit with which they had cleared the Moika and drove the people pell mell down the thoroughfare. From thenceforward the palace square ceased to be the center of interest.

The troopers moved off down the street, the crowds shrieking, "murderous dogs," but quickly vanishing before them. A few who were wounded were picked up and conveyed to a drug store on the opposite corner of the Grand Morskaia and the Nevsky Prospect.

Officers Mobbed.

The wilder element in the crowd had now got the upper hand and proceeded to attack every officer in sight. A general, driving up the Nevsky Prospect, was mobbed with shouts of "murderer!" His sword was captured as a trophy, the crowd shouting "hurrah!" Another general was nearly dragged from his sleigh, but clutched the driver desperately, and in escaping was struck on the bald head by a glass bottle and stunned. Swords were wrenched from several passing officers and the crowd shouted: "Break their swords, but do not beat them."

The appearance of several companies of infantry restored order, but the crowd refused to disperse and several volleys were fired and a number of people killed.

Barricades Destroyed.

The correspondent was present when the first barricades were constructed on Vassil Ostrov island, where fighting occurred later, resulting in the killing of 30 of the defenders of the barricades.

HAY SAVES CHINA.

Secretary of State Sends Note to the Powers—Receives Satisfactory Answers.

Washington, Jan. 20.—Secretary Hay has secured positive assurances from the powers that there shall be no attempt made upon the integrity of Chinese territory. Recently it was reported that some of the powers contemplated extending the territorial possessions they already had in China at the conclusion of the war in order to maintain what they called the balance of power in the east, asserting that the outcome of the war would be a readjustment of Chinese territorial boundaries. A circular note was dispatched by Secretary Hay to the powers based on this information with the result that they have now all positively disclaimed any such intention.

A DEADLY AVALANCHE.

Mass of Rock Slides Into Lake in Norway Causing Death of Fifty-Nine Persons.

Christiana, Norway, Jan. 18.—Fifty-nine persons perished as the result of an avalanche of rocks at Naesdal, north of Bergen, Sunday. A mass of rock was suddenly precipitated into Loenvand lake from the neighboring hills, causing an immense wave 20 feet high, which swept the neighboring shores. Houses, people and cattle were swept away by the rush of water, and it is known that 59 persons perished. Thus far only four bodies have been recovered.

Death of a Noted Woman.

New York, Jan. 23.—Mrs. Clara C. Stranahan, founder of Barnard college for women, Columbia university and long identified otherwise with the higher education of women in this country, died at her home in Brooklyn Sunday of apoplexy, aged 73 years. Mrs. Stranahan was the widow of the late James S. T. Stranahan who from his benefactions and public spirit was known as "Brooklyn's first citizen." Mrs. Stranahan at one time was called "the best educated woman in the United States." She was a trustee, as well as the founder, of Barnard college and some years ago donated $25,000 to Michigan university as a memorial of her father, Seth Harrison.

Jealousy Causes Murder.

Charlotte, Mich., Jan. 19.—Charles Smith, a 21-year-old farmer, living near Eaton Rapids, shot and instantly killed Morton Kimes, aged 16 years, Tuesday night. Smith was married about ten months ago to a 15-year-old girl and it is said was jealous of Kimes. The shooting followed a scuffle in which Smith was the aggressor.

Barber's Deadly Revenge.

Cairo, Ill., Jan. 23.—George Carr, a colored barber and restaurant proprietor of this city, shot and killed Rev. Greer on Commercial avenue Sunday afternoon. Greer is the pastor of the colored "Do Right" church, and some time ago he eloped with Carr's wife. Carr had threatened to shoot Greer on sight.

Death of a Centenarian.

Cadillac, Mich., Jan. 18.—Ira Brown died at the home of his daughter here Tuesday, aged 100 years and eight months.

A large assortment of new Papetries have been received at The Courier Stationery Store during the past few days. 25c buys a box of elegant Stationery. Call and look over the goods.

Your Heart

May Be Weak. One Person in Four Has a Weak Heart.

One of the surest signs of a weak heart is shortness of breath after exercise.

Your heart is not able to pump the blood fast enough to your lungs.

Some of the other symptoms of Heart Trouble are: Pains in the Side, Back and Shoulder; Fainting or Weak Spells; Dry Cough; Swelling of Feet and Ankles; Cold Feet or Hands.

No one can afford to allow a weak heart to go without medicine, because weak heart means poor circulation, and poor circulation means weak lungs, stomach, liver, kidneys, etc.

If, therefore, you suspect heart trouble, begin taking Dr. Miles' New Heart Cure. The Heart Cure will do you good, as it is a splendid tonic for the blood and nerves, and will revitalize your entire system.

Finally, remember, Dr. Miles' New Heart Cure is sold under a guarantee that the first bottle will do you good. If it doesn't—your money back.

"I was afflicted with heart trouble for three years. I would be apparently all right, and without a moment's warning would fall as though shot. The attacks were frequent, and a terrible dread possessed me, as I never knew when or where, nor under what conditions I would be attacked, and whether I would survive them. I consulted and was treated by some of the most eminent physicians of the state. Not finding relief from this source, I began taking Dr. Miles' New Heart Cure, and began to improve at once. I used ten bottles, which entirely cured me, as I have not had an attack for five years."—MRS. JOHN DRESBACK, Leipsic, O.

SENATOR SMOOT TELLS OF PROPHETS

REPREHENSIBLE FOR CHURCH TO INTERFERE WITH POLITICS, HE SAYS.

REVELATIONS COME THROUGH PRESIDENT

Moses Thatcher's Difference with Mormons Explained — Witness Admits That Politics Was One of the Reasons.

Washington, Jan. 24.—Senator Reed Smoot resumed testimony in his own behalf Monday, Judge Tayler continuing the cross-examination.

Relative to the trial of Apostle Moses Thatcher, following his differences with the church over politics, Senator Smoot said he would not want to say politics was the principal cause of the differences, but was one of the reasons.

Judge Tayler asked if the fight against Thatcher was not led by the church, and the witness replied that the Deseret News, the church organ, charged Thatcher's candidacy was "anti-church."

Smoot Indorses Statements.

Judge Tayler took up the political manifesto, or the rule which required officials of the church to obtain a leave of absence, which Apostle Thatcher had disapproved and refused to obey.

As it was read, clause by clause, Senator Smoot indorsed the statements made by Thatcher.

Judge Tayler asked if Senator Smoot saw any criticism in the statement of Moses Thatcher that the church was getting out of its proper sphere in interfering in functions of the state.

"I do not think there was any charge that the church was trying to influence the action of the legislature," answered Senator Smoot. "That would be wrong and most reprehensible."

First President Supreme.

"The first presidency is supreme in everything pertaining to the church," said Senator Smoot in answer to a question by Chairman Burrows. He also said, in explanation: "Of course, when it comes to a question of revelation that is to be binding upon the people of the church, the president himself receives it and it must be accepted by the people."

"Do I understand you to say the apostles are not prophets?" asked Chairman Burrows.

"I say they are sustained as prophets, but I do not think a man is a prophet at any time unless he speaks by the spirit of prophecy. In other words, I do not believe that a man has always that spirit of prophecy with him."

"Do you think the president of the church communicates directly with God—has direct revelation?"

"If God desires to speak to his people it would be through the president of the church."

"Does God speak through the apostles in the same way?"

"Oh, not in the same way. An apostle has no more authority in a stake of Zion than its president has, unless sent by the head of the church to act in the stead of the stake president."

Senator Burrows interrogated Senator Smoot regarding the details of the endowment ceremony. The witness declared he believed them sacred and would never reveal them.

FOUR PERISH BY FIRE.

Terrible Result of Burning of a Farm Residence in Northern Wisconsin.

Iron River, Wis., Jan. 24.—The residence of George Barnes, one of the best known farmers in north Wisconsin, was burned early Sunday morning. Four persons perished. The dead are: Mrs. George Barnes, Jennie May Barnes, ager seven; Virginia Barnes, aged four; Miss Elsie Miestner, of Washburn, Wis., a school teacher.

Representative Stricken.

Washington, Jan. 24.—Representative Pearre, of Maryland, was stricken with epilepsy on the floor of the house Monday and was carried to the cloak room and attended by Dr. Godfrey Hunter, a member of the house from Kentucky. Owing to the confusion and excitement a recess of ten minutes was taken. Mr. Pearre revived rapidly and was taken to his home. Dr. Hunter later diagnosed Mr. Pearre's attack as nervous convulsions.

Trouble Amicably Settled.

Philadelphia, Jan. 24.—After a conference of less than an hour's duration Monday between General Manager Atterbury, of the Pennsylvania railroad, and Grand Master Morrissey, Vice Grand Master Lee and the board of adjustment of the Brotherhood of Railroad Trainmen, Mr. Morrissey announced that the differences between the company and the men have been amicably settled.

Bank Closed, Cashier Suicides.

Columbus, O., Jan. 24.—Charles M. Houseman, cashier of the East Side savings bank, shot himself Monday in his room. The suicide is said to be due to business worry. A run was started on the bank when the bank was closed by orders of the court.

Village Almost Wiped Out.

Milwaukee, Jan. 24.—The village of Brookfield, about 12 miles west of this city, was nearly wiped out by fire Monday. The approximate loss is estimated at $30,000, partly covered by insurance.

MINNESOTA NEWS.

State Fair Officers.

The three-day meeting of the state agricultural society closed with a business session, during which the election of officers took place. President C. N. Cosgrove of Le Sueur and First Vice President B. F. Nelson of Minneapolis were re-elected by acclamation and C. M. Griggs of St. Paul was elected second vice president.

The office of second vice president is the St. Paul office of the society, and has been filled during the past six years by Chester R. Smith. Mr. Smith was a candidate for another term and Mr. Griggs was presented as the representative of the jobbers and the manufacturers. Mr. Griggs was elected by a vote of 128 to 74.

Two new members of the board of managers were elected. G. W. Patterson of Worthington was chosen in place of J. C. Curryer of St. Paul, and D. S. Hall of Buffalo Lake was chosen to succeed N. S. Gordon of Crookston. Both will hold office for three years.

Pensions.

Excellent work has been done by the adjutant general's department in securing pensions for soldiers, their widows and families, according to the report on pensions for the last two years issued by the department. The work has been under the supervision of Maj. Oscar Seebach, assistant adjutant general.

During the last two years there were filed 1,382 new claims, of which 982 were granted and 394 rejected. A comparison with the reports of other years shows that this is the greatest number of pensions ever granted through the agency of the adjutant general's office in the history of the state.

The report shows an increase of 300 per cent over the work done in this division during the previous year. The claims granted during the last two years represent an aggregate annual income to the pensioners of $34,530.

Thieves at the Capitol.

Vandals and thieves are already getting in their work at the new capitol building. Among the crowds of people who have visited the structure in the past two weeks there have been some whose instinct for curios was stronger than conscience. The capitol commission employees have already missed several of the ornamental brass doorknobs with which the building is fitted.

Some bold persons seem to have actually walked away with handsome chairs. The new capitol is full of workmen and men are carrying furniture in and out every day, so almost any one can pick up a chair and walk out with it and not attract attention. Either some furniture has gone astray in delivery, or else some thief has taken chances by carrying chairs away in plain sight of hundreds of people.

His Face For a Label.

Gov. Johnson has been asked repeatedly since election that he allow his name and picture to be used upon cigar boxes as a label for a new brand of smokes.

More than one dozen applications of this nature have been received by Frank A. Day, private secretary, and like applications for office, they have been placed on file until the governor gets leisure to decide whether he wants to go down to posterity as the champion of the weed.

Gov. Johnson has been too busy to give them a thought, but it is intimated that the manufacturs will have to cast around for a new name for their products.

To Aid Reserves.

Two bills will be introduced to the present legislature relating to the Minnesota naval reserves. One will be a code bill for the government of the naval militia. It realy will be an amendment to the naval reserve bill of 1899, except that it will provide for an appriation of about $10,000 a year for maintenance. The reserves will have the United Sates ship Fern for a training ship on Lake Superior next season, and will have her or some other government vessel permanently. The naval reserves have spent $400 themseves, in addition to what the city of Duluth and the government has done and are doing.

Beet Sugar.

Eight and one-half million pounds of sugar is the estimated output of sugar at the Minnesota Beet Sugar company mill, St. Louis Park, for the season of 1904. The crushing period, which usually lasts about 100 days and ends about Jan. 1, will this year continue about ten days longer, marking the season as the most successful in the history of the industry. The per cent of sugar in last year's beets averaged 12.5, varying from 14 to 17.75. The quality of the sugar is "chemically pure," and has been pronounced by New York experts as the finest on the market.

News Notes.

New rules for the pardon board are made in a house bill.

State employment bureaus are provided for in a house bill.

Duluth national bank teller and $10,000 are missing and defalcation is charged.

Duluth citizens are engaged in a court house site war. The contention is between those who would like to have the new half-million-dollar court house built on the old court house site, and those who would have it on a site nearer the business center.

It has been definitely decided by the Standard Lumber company, of Bemidji, not to erect a saw mill on the reservation, as originally planned. All logs will be shipped by rail to Grand Rapids and floated down the Mississippi to the company's mills at Dubuque.

TWO LONG-LIVED WAITERS.

Living Contradiction of a Theory That Is Entertained by Some People.

One of New York's oldest waiters does much to contradict the theory that waiters are short lived, says the Sun.

A recent change in the management of a Broadway hotel has brought him to the Tenderloin, where for the first time he serves the patrons of a cafe. He has passed the greater part of the 30 years that he has worked here in the hotels on upper Fifth avenue.

Twenty-five years ago he was in the old Windsor, and used to look after the Columbia college men who frequented the hotel then. He was known to many classes of students, and his acquaintance made in the other hotels to which he afterward wandered is comprehensive.

There is scarcely an uptown hotel in which he has not been employed, and he was just as gray 20 years ago as he is to-day. He is quite as active now, too, as he ever was, and few younger men are able to get about so spryly as he.

One of the most popular waiters in a cafe on Broadway is the oldest man in the place. He was for many years in Delmonico's, an establishment which parts with its men more rarely than any other. But for some reason he did not get along with Phillippe, and took a place in the new French restaurant when it was opened two years ago.

Many men have come and gone in that time, but Paul finds his services always in demand. His clients wait until one of his tables is vacant in order that they may have his attention and skill in mixing a salad.

Both of these men are long past the age at which they might be thought to be most efficient. But they are able to earn more than their youthful colleagues.

Old waiters are not as a rule so capable, however, as younger men, mainly because they are likely to be bad tempered.

German Military Expert Finds That Russia Has Most Men While Japan Is Strongest in Artillery.

After a careful compilation and close investigation by German army experts, the Militar Wochenblatt, of Berlin, gives what is probably the nearest estimate yet printed of the strength of the Russian and Japanese land forces.

On the Russian side it is calculated that the active field army at the present moment consists of 154,850 men and 386 guns; en route from Siberia, 35,700 men and 64 guns; being mobilized in Europe, 57,900 men and 188 guns; total, 248,450 men and 638 guns.

On the Japanese side the active army in the field is given as 152,500 men and 702 guns; in reserve, 74,000 men and 78 guns; total, 226,500 men and 780 guns.

Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or Eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at all druggists.

Legal Blanks.

THE COURIER job department is printing a complete line of the standard forms in legal blanks, and has now in stock the following:

Warranty deeds,
Contract for deed,

THE HOME IN FRANCE.

It Is Mainly an Adjunct to Life on the Outside.

The father and mother in Paris eat at home when they do not eat out, but absolutely no informal social intercourse invades the apartment, which is more than anything else a sort of factory in which is produced whatever the family needs for life outside. A vast amount of sewing is done here. French girls of even wealthy parents, after they finish school, attend courses of dressmaking and millinery and to a great extent the industry which turns out the French woman as a model of good dressing, to be followed by the world, is carried on by the women of the family in what would be the home if the French knew the meaning of the word.

A reception day is rigorously kept, and much entertaining at dinner and dejeuner may be done, but always of a formal character. A person having the penetrating qualities of a book agent might venture to try "dropping in" on a French woman on a day when she is not regularly receiving, but in the natural course of ordinary social experience in Paris this would never happen, says Flora McDonald Thompson in Harper's Bazar.

Such order of living readily permits great economy. One has not to waste time, good clothes or house room in daily preparation for the unexpected guest. Six days of the week a French woman may run her sewing machine in the middle of her salon if she likes, secure from the interruption of chance callers. It is said that the chief function of the petit salon of a Paris apartment is to provide storage room for ball gowns which on reception days are taken down from the chandelier and locked up in a bedroom till the guests have departed.

THE PORCUPINE.

Only Known Creature That Eats the Foliage of the Hemlock.

"You don't have to skirmish around much to get feed to fatten one of these hemlock porcupines on," says an old woodsman. "Just sprinkle some salt on a stick of cordwood or saw log for that matter, and he'll eat the whole business and enjoy it as you would mince pie." The customary diet of these animals is hemlock browse. They make themselves a home in a hollow log or under the roots of some old tree, but always within reach of a big hemlock.

The hemlock is their pasture, and they make beaten paths going to and fro between the tree and their home. Once up in a tree the porcupine goes out on the big limbs and, pulling the small branches in with one paw, browses on the pungent leaves. In going through the woods you will find little piles of these fine leaves on the ground under hemlock trees. That means that a porcupine is feeding in the tree, the leaves on the ground being dropped from his feast.

Sometimes a porcupine will remain in a hemlock tree for a week at a time, hugging close to the trunk at night and feeding during the day. This curious little beast is the only known living thing that eats the foliage of the hemlock.

DANGER SPOTS IN A STORM.

Places to Avoid When the Lightning Is Flashing.

Out of doors trees should be avoided in a thunderstorm, and if from the rapidity with which the explosion follows the flash it is evident that electric clouds are near at hand a recumbent posture is the safest. It is seldom dangerous to take shelter under sheds, carts or low buildings or under the arch of a bridge, and a distance of twenty or thirty feet from tall trees or houses is an eligible situation, for should a discharge take place these elevated bodies are most likely to receive it.

It is well also to avoid water, for it is a good conductor, and the height of a human being near the stream may determine the direction of a discharge. Within doors we are tolerably safe in the middle of a carpeted room or when standing on a thick hearth rug. The chimney should be avoided on account of the conducting power of the carbon deposited in it, and gilt moldings or bell wires are sources of risk. In bed we are tolerably safe, since blankets and feathers are bad conductors.

It is injudicious to take refuge in a cellar, because the discharge is often from the earth to a cloud, and buildings frequently sustain the greatest injury in their basements.

Ayer's

Falling hair means weak hair. Then strengthen your hair; feed it with the only hair food, Ayer's Hair Vigor. It checks falling hair, makes the hair

Hair Vigor

grow, completely cures dandruff. And it always restores color to gray hair, all the rich, dark color of early life.

"My hair was falling out badly and I was afraid I would lose it all. Then I tried Ayer's Hair Vigor. It quickly stopped the falling and made my hair all I could wish it to be."

JIMMY MAGUIRE'S LAST JOB

[Copyright, 1903, by T. C. McClure.]

When Jimmy Maguire—by which name they knew him at McCoy's—came downstairs into the office carrying a suit case of considerable weight and wearing on his freckled face an air of virtue which was glaringly artificial, the clerk behind the desk looked him over carefully and then deliberately dropped one eyelid.

At McCoy's hotel, which is near the water front, the guests are very seldom questioned on any matter, but on this particular afternoon there was no one save the clerk in the office when Jimmy entered. It was because the clerk's acquaintance with Jimmy extended over a period of seven years that the gentleman behind the desk inquired casually:

"Anything on, Jimmy?"

"I'm getting my clothes pressed for Sunday," said Jimmy meekly.

The clerk laughed spasmodically.

"Anything funny in that?" Jimmy inquired peevishly. "Can't I get my clothes pressed for Sunday?"

"Course, Jimmy, course," the clerk tittered. "Going to get 'em pressed in town?"

"Maybe," said Jimmy, walking over to a rack of time tables and spreading out a folder.

Two hours later Jimmy Maguire and his suit case were speeding through the early evening gloom on a southbound train. The smoker was nearly deserted, and in the dim light of the lamps Jimmy was examining a plan crudely drawn on the back of an envelope. In one place on the rough map was a heavy cross, and near it was drawn an arrow, along whose shaft ran these words: "Alley here. Enter third window from this end."

Jimmy folded the envelope carefully and placed it in an inner pocket. Then he lay back and dozed until the brakeman called "Redpath!" Jimmy caught up the suit case and alighted.

He went down the dark street from the station, took the first left, then the second right, as the map had directed, and suddenly stopped before a squat brick building. In the dim light of a neighboring street lamp he read the tarnished gilt sign beneath the cornice, "Redpath County Loan and Construction Company." He went to the rear and found the alley indicated on the map. He also found the third window which was mentioned. He pulled out his watch.

"Quarter past 10," he mused. "Whole town's in bed probably. This is too easy!"

In a few moments Jimmy was inside and standing before the heavy door of a vault which he was examining critically.

"Dynamite nothing," he mused to himself. "'Twon't take me thirty minutes to open that."

Jimmy went swiftly and quietly to work. In just twenty-six minutes from the time he opened the suit case he swung open the door of the vault. He took one step forward and then staggered back, for out of the vault tottered a young woman, who stood beside him swaying to and fro. Jimmy sprang forward and caught her just as she fell.

He laid her gently on the floor, with his coat beneath her head. Then he brought water from a faucet he found in the inner office and deftly laved her wrists and temples. Presently she opened her eyes and sat up.

"Pretty narrow squeak that," said Jimmy cheerfully.

"Where—where are the rest?" she asked dazedly.

Jimmy brought a chair and lifted her into it.

"I know all about it," he said soothingly. "You work here, and some one accidentally locked you in the vault at closing time. I confess I didn't expect to find you in there when I opened it. I came of my own accord, you understand, for quite another purpose."

"Oh!" she gasped and regarded him with wide opened eyes. "It was just in time for me anyway. I couldn't have lived in there much longer."

Jimmy had risen and was putting his tools in his suit case, after which he shut the door of the vault.

"I have interrupted your—your business," she said.

Jimmy smiled. He noted she was a very pretty girl. There was something, too, in the way she accepted the situation that won his admiration.

"Really," he said, "I'm not in the mood for work tonight. If you feel able to stay alone here for a moment I'll call a carriage to take you home."

The girl gave him a grateful look.

"I didn't realize there were gentlemen in your—your profession," she said. "But I fear you'll run too much risk in getting the carriage. You'd better not go."

"Nonsense," laughed Jimmy and disappeared through the window.

It was two years from the night that Jimmy Maguire and his suit case left McCoy's that Mr. Andrew Rider—"Silent Andy," more commonly—opened a letter in the office of the same hotel and read as follows:

> Dear Andy—You remember that job you put me next to down in Redpath. Well, what do you think I got out of that vault? Old boy, it was a wife, the best and sweetest woman in the world. We were married here in Redpath last Tuesday. You see, she was accidentally locked in that vault I cracked, and I cracked it just in time to save her too.
>
> As I hope for peace and happiness the rest of my days, Andy, I've been an honest man from the moment I first looked into her eyes.
>
> This note is to let you know what has become of me and also to inform you that I have found the best way to live—straight. I wish you would meet me at Southport some day and take away that case of tools. My regards to all the boys.

SIDNEY H. COLE.

GROWTH OF SWEARING HABIT

Striking Phenomenon of the English Life of To-Day—Is Steadily Becoming More Pronounced.

One of the most striking phenomena of English life at the present day is the habitual use of bad language by many workingmen.

It is a habit which is daily becoming more pronounced, and an East End clergyman suggests that it is due to a desire on the part of the workingman to be picturesque and emphatic, and that it might be eradicated by a more thorough teaching of the English language in the elementary schools.

"There can be no doubt that the use of bad language is increasing, especially in towns," said Max Pemberton. "That may be due to the more crowded conditions of life. The man living in town has more experiences and sensations than the agricultural laborer. I think there is little doubt that England takes first place for bad language. The old swears used in Sheridan's plays—'Zounds,' 'oddsfish,' and so on—have fallen out of use, and stronger words have taken their place. One reason, probably, is that nothing has been done for the past 30 years to check the use of bad language, and it is the easiest habit to fall into, and one that grows. It ought to be stopped, and I think that a sharp campaign, with a fine of £1 for every offense, would strike the imagination of the workingman and induce him to leave out the bad words. The strangest feature of the phenomenon is the meaninglessness of many of the expressions used. Some one might draw up a new list of forcible but harmless expressions. The educated man, of course, has an advantage. A man with the latest edition of Murray's dictionary could knock the average bricklayer into fits."

NEW POWERFUL ANESTHETIC

Eucaine Renders Patient Unconscious to Pain, But Leaves Him Conscious During Its Use.

The recent discovery of eucaine, a powerful anesthetic, is looked upon as another scientific triumph.

It will make possible operations which might not otherwise take place owing to heart weakness, for the patient remains conscious during its use, although, of course, those parts of the body to which it is applied are insensible to pain. It will also give the surgeon more time for his work, and do away with certain people's conscientious objections to anesthetics.

Although it can be used for amputations, it will probably be most useful for treatment of the thyroid glands. In such operations the use of chloroform is often impracticable.

A successful operation of this kind which was recently performed with eucaine in a London hospital lasted nearly an hour and a half.

Eucaine is injected by a hypodermic needle under the skin at the place where the incision is to be made. After a few moments the skin may be cut without the patient feeling anything. As different and deeper parts are exposed the drug is dropped at intervals of a few minutes.

To the observer the operation appears similar to those of the days before chloroform, as the patient is conscious and now and again makes some remark. The eyes are covered with a cloth to minimize nervousness, and the patient is strapped to the operating table to prevent involuntary movements. He is conscious, but he cannot feel.

PEARL-FISHING IN SOUTH.

Amateur Divers Reap Rich Rewards in Tennessee River by Simple Method.

Fishing for pearls in Clinch river, in Tennessee, has begun. The river has been low, but the rains have caused the stream to swell and made fishing more difficult.

More fishing will be done this summer on Clinch river than ever before. Inexperienced fishers often destroy mussels which if untouched might produce valuable pearls. The industry has shown signs of waning on Clinch river, although one of the most valuable pearls ever found in this region was picked up last summer.

Fishers become expert in detecting the value of their finds. Small skiffs are sent out a short distance from the bank, and the pearl hunters dive for the gems. When the boat is loaded with mussels it is rowed to the bank and the finds are investigated.

The season opens with the coming of warm weather and continues until September, but the best of the season is in July, August and September. Some hunters have become wealthy, but the work is now overdone by inexperienced fishers. Knoxville jewelers make a business of handling the pearls found in East Tennessee.

Better Be Blind.

The Chicago minister who felt it was his bounden Christian duty to speak to the ladies of his congregation in a most confidential, heart-to-heart manner concerning their petty faults and foibles, has now had it made clear to him that he had better be listening for a call to some other pulpit. "Never be critical upon the ladies," was the maxim of an Irish peer, remarkable for his homage to the sex. "The only way that a gentleman should look at the faults of a pretty woman is—with his eyes shut."

Tibbles in the Wrong Camp.

We learn, remarks the Indianapolis Sentinel, that Tom Watson has been nominated for president by the populists. And a man named Tibbles goes along with him. Tibbles ought, in the eternal fitness of things, to be on the ticket with Swallow.

Two Through Tourist Cars to California.

The Chicago Great Western Railway offers choice of two through tourist cars every week to California, one leaving Minneapolis and St. Paul Tuesdays via Omaha and the Rock Island Route, arriving San Francisco 5:20 p. m., Saturday; the other leaving on Thursdays via Kansas City and the Santa Fe route, arriving at Los Angeles 8:25 a. m. Monday. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

Fast Tourist Car Service to California.

The Chicago Great Western Railway in connection with the C. R. I. & P. Railroad will run a through tourist sleeping car every week to San Francisco. Leaving Minneapolis at 8:00 p. m., St. Paul 8:30 p. m., Tuesday via Omaha, Colorado Springs and Ogdon. Arrive San Francisco Saturday 5:20 p. m. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A. Chicago, Ill. f28

Traveling Today.

Traveling nowadays is a pleasure. We loll back in fortable seats of luxuriously appointed cars, resplendent in mahogany, mirrors and dainty furnishings; dine from a menu the acme of culinary art and receive every attention from courteous attendants;—Buffet Cars with comforts of the Club, Cosy Compartment Cars, which the ladies especially appreciate and the finest of Pullman Sleeping Cars are all to be found on the famous North-Western Limited—every night—Minneapolis and St. Paul to Chicago.

Settlers's Rates to Points in the Southeast.

On the first and third Tuesdays of each month, January to April inclusive, the Chicago Great Western Railway will sell one way tickets to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North and South Carolina, Tennessee and Virginia at very low rates. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. a18

Button's Business College, Crookston, Minn., has more graduates working in that city as stenographers and book-keepers at a good salary than all other business colleges combined and offers $100 to anyone who will prove the contrary.

Notice of Contest of County Seat Removal.

To whom it may concern:

Whereas, a notice signed by Chas. M. Evenson, Lars Backe, D. N. Winton and others, dated January 25th, 1905, has been posted, published and given, in the county of Red Lake, stating that it is the intention of said signers and others to circulate a petition the object and prayer of which will be that the county seat of said county of Red Lake be changed from the City of Red Lake Falls to the City of Thief River Falls, which is situate in Township 154, North, of Range 43 West in said county and state; and proceedings have been begun to effect such change;

Now, therefore, notice is hereby given that the undersigned, legal voters of said county, with other legal voters thereof, desire to, and will, contest such proposed removal of the county seat of said county from its present location to said City of Thief River Falls, and to that effect, will, with other legal voters of said county, on Saturday, the 18th day of February, A. D. 1905, begin the circulation of a Remonstrance among the legal voters of said county, addressed to the Board of County Commissioners thereof, remonstrating against, and objecting to, the removal of the county seat of said county from the City of Red Lake Falls to the City of Thief River Falls aforesaid, and to any further proceedings in said matter; and will take such further steps as may be necessary in the premises.

Dated January 26th, 1905.

BLACK-DRAUGHT STOCK & POULTRY MEDICINE

This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in coarser form than Thedford's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock and poultry. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and roup and makes hens lay. It cures constipation, distemper and colds in horses, murrain in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial.

It costs 25c. a can and saves ten times its price in profit.

PITTSBURG, KAS., March 25, 1904.
I have been using your Black-Draught Stock and Poultry Medicine on my stock for some time. I have used all kinds of stock food but I have found that yours is the best for my purpose.

MINNESOTA HISTORICAL SOCIETY.

RED LAKE COURIER.

VOL. VII—NO. 17. RED LAKE FALLS, MINNESOTA, THURSDAY, FEBRUARY 2, 1905. WHOLE NO. 329.

INJUNCTION WOULDN'T HOLD

Thief River Falls Fails to Sustain Injunction Proceeding Brought Before Judge Watts.

Red Lake Falls has first blood. Tuesday evening Judge Watts in his chambers at Crookston dismissed the action brought by Thief River Falls for an injunction against the county commissioners and the county officials to prevent them from paying for the court house property purchased last month.

Attorney Charles E. Boughton and County Attorney Germo appeared for Red Lake Falls, and they moved that the case be dismissed on the grounds of the insuffciency of the affidavit upon which the complaint was made. The affidavit was verified upon information and belief rather than upon absolute truth and facts, and was held by the court to be insuffieient, hence the dismissal of the proceedings.

The next proceeding on the part of Thief River Falls cannot be guessed. So far they have been outwitted and outgeneraled at every turn, and there is danger that may tire of making a losing fight before many weeks.

A Million Messages a Day.

About a million measages a day are sent over the world's telegraph lines. Great Britain heads the list with 92,000,000 dispatches a year, with the United States a close second with 91,331,000 messages. It is only sixty years since the first message was sent by the Morse alphabet from Baltimore to Washington and yet this enormous development. In less time still golden grain belt beer has reached its present phoenomenal position as the leading beverage from the health stand-point as well as on account of its delicacy as a table beverage. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

Washington School Notes.

Harry Anderson and Clara Bourdon reporters.

On Thursday afternoon no one was tardy or absent. Wonderful!

The Sixth grade had an examination in geography Wednesday afternoon.

The Fifth grade is studying the northern states of the Mississippi valley in Geography.

Prof. Healy has started to read a new book entitled "Silent Pete" to the Fifth and Sixth grades.

In the Sixth grade history test some of the papers were very good and will be shown on visiting day.

The Fifth and Sixth grades did well in selling tickets for the high school play, disposing of $11.60 worth.

The Fifth and Sixth grades had an examination in Language Friday afternoon, covering three months' work.

The Third and Sixth grades won the banners for attendance last month, but the Fourth and Fifth grades lost theirs.

The boys who play foot-ball came in quite late Wednesday at recess so the teacher took away the ball for the last few days of the week.

Matthew Kotschever returned to the Sixth grade Monday morning. He left school the first week in October. We are glad to see him back again.

The Sixth grade received the geography examination papers Friday afternoon and were very much disappointed in the markings. The lowest was 16 and the highest 89. The papers will be kept for visiting day.

To My Patrons.

All bills contracted previous to February 1 will be paid by the undersigned. After that date the new firm of King & Chase will be responsible for bills contracted by THE COURIER.

JOHN E. KING.

Cures Sore Throat.

Sulphur and molasses are unpalatable remedies. Gloria Lung Balsam, a preparation of honey, wild cherry, tar, etc., is far ahead. Best for children. Sold by W. A. Schreiter.

INDIANS GET MONEY.

Coin for 1,365 Reds on Red Lake Reservation.

The first payment on account of the ceded eleven townships of the Red Lake reservation, adjacent to Thief River Falls, thrown open for settlement last fall, will be made at Red Lake agency Tuesday. The payment will amount to between $60,000 and $115,000, depending upon whether payment is made to adults only or to children as well. There are 1,365 Indians, including children, to participate in the payment, these Indians being the ones who were removed from the ceded eleven townships about a year ago.

Major Scott left Bemidji Monday morning to take charge of the payment. Checks will be issued directly to the Indians on the first National bank of Chicago.

The scene at an Indian payment is an extraordinary one. The Indians come from their homes across the lake to the agencies in a body and camp in tents and tepees during the payment and for several days afterwards. The money is drawn by the braves, and except for a trifling reservation for tobacco, is immediately turned over to the squaws, who at once began to buy. Many of them will sit on the floors of the stores all day long buying at intervals whatever catches their fancy. It is said to be not an infrequent sight to see little children enter the stores with a $5 bill and look about for something to buy. Entire families stay at the agency until tyeir money is spent.

About a dozen merchants left Bemidji this morning for the agency to display their wares and to obtain a share of the Indian trade. The bulk of the trading will be completed within a week.

A Menace to Health.

Kidney trouble is an insidious danger, and many people are victims of a serious malady before the symptoms are recognized. Foley's Kidney Cure, correct irregularities and strengthens and builds up the kidneys, and it should be taken at the first indication of kidney trouble, as it is impossible to have good health if the kidneys are deranged. Sold by A. L. Reichert.

WAS A SUCCESS.

Band Concert Tuesday Evening an Enjoyable Affair.

The band concert Tuesday evening at the opera house was a big success and was highly enjoyed by these present. The program was carried out as announced in a very creditable manner. and every number received hearty applause. The boys played well, handling the selections, as well as the lighter music, in a creditable manner.

Recitations by J. D. Marshall and Miss Lucy Hunt were features of the entertainment, and both numbers won the hearty approval of the audience. Prof. Onstad gave a clarinet solo by request of his numerous admirers, and his performance was up to his usual high standard. A one-act farce comedy entitled "Remember Hanson," in which Sam. S. Haislet, J. D. Marshall and Dan C. Johnson took part furnished the laughter for the occasion. A dancing party enjoyed themselves after the program was rendered.

PLUMMER.

(From the Pioneer.)

J. J. Kordahl was over from St. Hilaire on Thursday to transact some real estate business with Julius Pleth.

George Bender, of Equality, was here Thursday on his way home from Wisconsin where he has been visiting for some weeks.

The appointment of John E. King as state librarian was confirmed by the senate early this week. The confirmation was held up for awhile because he had said things about certain republicans. The opposition found out that he had only been practising upon vituperation preparatory to the county seat fight and withdrew their demand that he be not confirmed.

Ralph Green spent the begining of the week at Red Lake Falls transacting personal business and arranging for a physician to come to Plummer and examine a dozen or so of applicants for membership in the Plummer camp of the M. B. A. These new members are secured through Mr. Green's hustling qualities as camp deputy and he is not near through yet.

On last Monday evening at 8 o'clock Rev. Herman P. Fisher, of Crookston held divine service in the Adolph Nelson building. He was greeted by a large and attentive audience, and delivered an able sermon, pleasing all who heard him. This was Plummer's first church service in the English language. Rev. Fisher is an earnest and conscientious speaker and all who heard him on Monday evening hope to hear him again in the near future.

Notice.

Notice is hereby given that all outstanding warrants drawn against Ditch No. 21, Red Lake county, Minnesota, are now payable and interest will cease upon said warrants from date hereof.

Dated at Red Lake Falls, Minn., this 31st day of January, A. D. 1905.

KARL M. HANSEN, County Treasurer.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Cough and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies, all others are mere imitations, H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.

Good Roads.

In every part of the country good roads are a recognized necessity of progressive communities and gives them their standing. It is the excellence of the equipment and the finely ballasted roadbed that has given the North-Western Line its enviable position in the railroad world and attests its progressive spirit. The magnificent electric lighted North-Western Limited speed its way from Minneapolis and St. Paul to Chicago every night and comfort is assured by the even roadbed of this line and the perfect appointments of this famous train.

A Minister Testifies.

Rev. C. Sund, of Harrisville, Wis., writes that Gloria Tonic, the new rheumatism cure, in tablet form, cured two members of his congregation, one had suffered 16, the other 25 years. Sold by W. A. Schreiter.

INVESTIGATING RATES.

Senate and House Joint Committee Looking into the Matter.

The legislature has appointed a joint committee of the senate and house, of which Senator A. O. Eberhart is chairman, to investigate transportation and traffic rates in this state, with the view of ascertaining any unjust rates, or discrimination in rates, that may exist, and advising the enactment of such legislation as may be necessary to correct such evil, either by granting increased powers to the railroad and warehouse commission, or by other legislation.

This committee has now organized and is holding its sessions at the railroad committee room of the senate, at the new capitol. It requests that the people of this state who are interested in this matter shall cooperate with the committee in making this investigation thorough and effective. The committee proposes, so far as it is concerned, to thoroughly sift the charges made that transportation and express rates are excessive and that various parts of the state are unjustly discriminated against by these rates. To do this the committee must be furnished with the evidence, or at least with complaints put in such tangible shape that the committee can intelligently act upon them. The committee calls upon the shippers and others of this state who are interested in seeing this question of rates and unjust discrimination fully and fairly presented to the committee, to formulate their charges, making them as specific as possible and sending them to the chairman of the committee. The committee will then take the matter up and make a thorough, careful and complete investigation of each charge.

Bryan's Greatness.

Fairmont Sentinel: Bryan never showed his greatness to better advantage than in his recent call upon Democrats to support President Roosevelt in his fight for more just and equitable railway transportation rates. This is one of the things Democrats have for years been fighting for and only the peanut politician will hold back because someone in another party happens to be leading the fight.

Some colleges offer a life scholar ship and a situation at the end of that time. Button's Business College, Crookston, Minn., guarantees a good paying position in from three to four months or you pay nothing for your tuition.

Traveling Today.

Traveling nowadays is a pleasure. We loll back in fortable seats of luxuriously appointed, cars, resplendent in mahogany, mirrors and dainty furnishings; dine from a menu the acme of culinary art and receive every attention from courteous attendants;—Buffet Cars with comforts of the Club, Cosy Compartment Cars, which the ladies especially appreciate and the finest of Pullman Sleeping Cars are all to be found on the famous North-Western Limited—every night—Minneapolis and St. Paul to Chicago.

There's pretty girl in an Alpine hat,
A sweeter girl with a sailor brim.
But the handsomest girl you'll ever see,
Is the sensible who uses Rocky Mountain Tea. A. L. Reichert.

MEANS BUSINESS.

New Dairy Commissioner Tells of His Plans.

E. K. Slater, recently appointed dairy and food commissioner, recently announced the policy of the new dairy and food commission. The co-operation of every citizen in the state is asked in order that the laws may be impartially and rigidly enforced. He states:

"The policy of the new dairy and food commission is to be one of education, rather than prosecution. The intent of our dairy and food laws is to bring our food products up to the highest possible standard of perfection, and we believe this can be better accomplished by a campaign of education and co-operation than by the use of the "big stick." Every man who is interested in the work and who desires and strives honestly to co-operate with us on bringing about these results, which mean so much to the people of the state, will recieve every assistance and encouragement within our power. Those who wilfully violate the dairy and food laws, or who neglect to follow out their purport, with a view to private gain, will receive none of the consideration due those who aim to do what is right.

"A plan will be worked out in the pure food work whereby the consumer will become educated in regard to the different brands of food products and will also be enabled to acquaint himself with the requirements of the law in regard to the different articles. We hope to acquaint both consumer and producer with such requirements to such an extent that one will demand goods of high quality, and the other will not produce an article of inferior quality because of a lack demand, as well as on account of the laws which may govern its production.

"In the dairy work of the department we shall aim to co-operate with the other institutions and agencies working in this state for the education of the producer and manufacturer of our dairy products and with a view toward the further establishment of Minnesota as a dairy state and still further enhancing her reputation for purity and excellence in her dairy products.

"We shall expect such service from every member of the department as would be required in the business walks of life from any amply paid employe, and we shall have no sinecures.

"We ask for the hearty co-operation of every citizen interested in the further upholding of this important branch of the state government."

Feminine Philosophy.

Lots of women don't began to cry until they find their handkerchiefs.

Tell me who winds the clock and I will tell yon who regulates the household.

Some girls learn to operate the type writer because they can,t carry a tune on a piano.

A man and his wife may be one, but they can't wear the same pair of trousers.

It takes a woman to say "dear" in a tone that makes it sound like a cuss word.

The difference between a skin and a complection is that you can get the latter at a drug store.

Even the girl who cannot boil water without burning it, will not admit that she can't cook.

The woman who holds her skirt high on a rainy day usually has three good reasons for it. One of them is the mud.

If you don't notice each time your wife changes the style of wearing her hair, she begins to think that you no longer love her.

Men wear clothes for comfort, women for adornment. Men adjust their clothes to their figures; women adjust their figures to their clothes.

When a pretty girl is careful to pull her skirts down so that her feet won't show it is a sign that she has on an old pair of shoes.

There are lots of old bachelors who would charge at the belching cannon's mouth who will tremble at the approach of a baby.

For Years and Years,

The North-Western Line has been recognized as a most progressive road. It was the first to operate Pullman sleeping cars, dining cars. compartment cars, buffet library cars and parlor cars between Minneapolis, St. Paul and Chicago. The continuation of their progressive methods is evidenced by the elegance of the famous electric lighted North-Western Limited with its perfect equipment and the many conveniences to be enjoyed on this peer of all fine trains.

England's Postal Savings Banks.

One thousand million pounds or $5,000,000,000 is the estimated amount of money to the credit of the thrifty poor and the working classes in Europe which invested fund is backed up by the security of the government of each country. Of this sum no less than two hundred million pounds sterling, or $1,000,000,000 represent the amount invested in the Postoffice Savings Bank of Great Britain and Ireland, and savings banks with almost equally good security.

The history of the savings banks of England is one of the most beautiful chapters of English progress, and like the story of the Penny-Post is a triumph for the English people in setting an example to the rest of the civilized world which has been eagerly followed.

Taking the population of Great Britain and Ireland at slightly over 40,000,000, we find that one person in every four and one-half has deposits in the postoffice savings banks, and that the average amount desposited by each poor person is exactly £15 10s 10d. Statistics are generally dull, but these must be most interesting and gratifying to all who have the welfare of mankind at heart.—J. Hermiker Heaton, M. P., in Arena Magazine.

BOILS AND ERUPTIONS

Have been suffering from Impure Blood for many years, having Boils and other Eruptions. Having heard of S. S. S. I decided to try it, and am glad to say that it has done me a great deal of good. I intend to continue to use it, as I believe it to be the best Blood Medicine on the market.

Cleveland, Tenn. W. K. DETERS.

For over fifteen years I have suffered more or less from Impure Blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all Boils disappeared and I have not been troubled any since.

GEO. G. FERTIG.
114 W. Jefferson St., Louisville, Ky.

Newark, Ohio, May 23, 1903.

From childhood I had been bothered with bad blood, skin eruptions and boils. I had boils ranging from five to twenty in number each season. The burning accompanying the eruption was terrible. S. S. S. seemed to be just the medicine needed in my case. It drove out all impurities and bad blood, giving me permanent relief from the skin eruption and boils. This has been ten years ago, and I have never had a return of the disease.

Notice of Contest of County Seat Removal.

To whom it may concern:

Whereas, a notice signed by Chas. M. Evenson, Lars Backe, D. N. Winton and others, dated January 25th, 1905, has been posted, published and given, in the county of Red Lake, stating that it is the intention of said signers and others to circulate a petition the object and prayer of which will be that the county seat of said county of Red Lake be changed from the City of Red Lake Falls to the City of Thief River Falls, which is situate in Township 154, North. of Range 43 West in said county and state; and proceedings have been begun to effect such change;

Now, therefore, notice is hereby given that the undersigned, legal voters of said county, with other legal voters thereof, desire to, and will, contest such proposed removal of the county seat of said county from its present location to said City of Thief River Falls, and to that effect, will, with other legal voters of said county, on Saturday, the 18th day of February, A. D. 1905, begin the circulation of a Remonstrance among the legal voters of said county, addressed to the Board of County Commissioners thereof, remonstrating against, and objecting to, the removal of the county seat of said county from the City of Red Lake Falls to the City of Thief River Falls aforesaid, and to any further proceedings in said matter; and will take such further steps as may be necessary in the premises.

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 12, 1903, executed and delivered by Ben Gullick and Delia C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage,

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 507, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93, and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902; $12.00 on May 1, 1903, and a like amout annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $122.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903 at 2 o'clock p. m. in Book 15 of Mortgages, page 78.

And Whereas, The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained; and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors; to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 60 which said mortgage was thereafter assigned by Grant Van Sant, by written assignment dated November 19, 1903, and recorded in the said Register's office on the 20th day of November, 1903, at 2 o'clock p. m., in Book 15 of Mortgages page 78.

And Whereas The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained; and whereas, there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by said mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Northwest Quarter (nw¼) of Section Ten (10) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the City of Red Lake Falls in said County and State, on the 17th day of February, 1905, at 1 o'clock p. m. of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and the taxes, if any on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

For Pain

Take a Dr. Miles' Anti-Pain Pill, and the Pain will disappear Like Magic.

Not by paralyzing the nerves and glands, like opium, morphine, cocaine, and other dangerous drugs, but by increasing the natural secretions.

This action is obtained as a result of modern discoveries in medicine, making it possible to relieve pain without bad after-effects.

You can safely depend upon Dr. Miles' Anti-Pain Pills to relieve and cure such pains as Neuralgia, Headache, Stomach-ache, Menstrual Pains, Rheumatism, Backache, Toothache, etc.

They will also, by their calming action on the nerves, almost instantly relieve such distressing feelings as Dizziness, Car-Sickness, Indigestion, Irritability, Sleeplessness, Nervousness, etc.

Not merely do they relieve, but they also absolutely cure, because by persevering in their use, you do away with the cause.

Dr. Miles' Anti-Pain Pills are guaranteed that first package will benefit, or your money back. Never sold in bulk.

"I am thankful for the good Dr. Miles' Anti-Pain Pills have and are doing me. Ever since the war I have had spells of severe throbbing headache, caused by catarrh, until six years ago, I began taking Anti-Pain Pills, the only remedy that ever gave me relief. Since then I have not had one hard attack, because I take a Pill and it overcomes the difficulty."—GEO. SAUNDERS, Greensburg, Ind.

May His Tribe Increase.

We want to say a good word for the man who promptly pays all his small obligations. There are too few of them and the breed needs encouraging. Most men will pay sometime, but only a few pay promptly. Almost any business doing a credit business will testify that, counting time, postage, book-keeping, interest and the like, it costs all some accounts are worth to collect them, and still the man owing it to them is perfectly responsible in a financial way. It very often happens that the worst sinners in this particular are the men the best able to pay. We have known more than one case where a man having money on deposit in the bank drawing interest made a poor little shop keeper wait and wait for his pay nearly a year so that the debtor might get the benefit of the four per cent interest which his bank deposits drew. God bless the man who is uneasy just so long as he owes a dollar, and who will hunt up his creditors with as much energy as some creditors are forced to use in hunting up their debtors. The everyday business of any community would be immensely benefitted by the prompt payment of all of the small obligations, for a dollar can do a lot of business in twenty-four hours when it is on the road and traveling. The slackness of a few men in this particular in the community makes it much harder for all to carry this plan into effect. If you have been one of these slack ones turn over a new leaf.

Agonizing Burns

are instanly relieved, and perfectly healed, by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain, and healed it without a scar." Also heals all wounds and sores. 25c at All Druggists.

New Variety of Potato.

The new potato is purplish green in color and is said to be far superior to the common "Irish" tuber both in flavor and in yield that is destined to drive all competitors out of the market. It comes from the banks of the Mercedes river, in Uruguay, and is probably the result of a happy horticultural accident. Claim is made that it is immune to the diseases that ordinarily afflict potatoes, but whether or not it can resist the operations of the predatory potato bug is not stated.

There is no vegetable to the improvement of which more attention has been devoted than has been bestowed upon the potato. It has been mainly, however, for increasing the size of the tuber and to augment the yield. Flavor has been almost wholly ignored, and as a consequence the potatoes of today have less flavor than those which our grandfathers ate fifty years ago. Furthermore, all of the market varieties taste pretty much alike, where as formerly there were recognizable differences.

Failed.

All effort have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold by A. L. Reichert.

He Was Mad All Right.

Judge R. W. Clifford is proverbial for his original humorous stories, and one of his latest is told of a corpulent German who came rushing into the circuit court who one morning, before court was called, and said:

"I vant to git varrant for a man to kill a tog."

"Well, my man, you don't come to this court to get warrants in cases of that kind. If you want the dog killed, you should go to police court," said the judge.

The German started to leave, when the judge inquired in an interested manner:

"Did the dog bite you?"

"Yeas, he bit me."

"Well, was the dog mad?"

"Vas de tog madt? No, I vas madt."—Chicago Herald.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

Wholesome Advice.

Get interested in your town and stand by it. If a rich man starts a project, encourage him; or a poor man encourage him, says a contemporary. Don't be afraid to stick your hand in your pocket. If you have means, invest in something that will give employment to somebody. Do not kick on every proposed improvement simply because it is not at your door. Do all you can to beautify the town and your property also. Be friendly to every body and courteous to strangers, and never forget that you are a part of the town and that your own deportment does its share in giving to the town its character. Sell and buy all you can at home. Stand by all enterprising citizens and be ready to do some of the work yourself.

Grave Trouble Foreseen.

It need but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She said: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by All druggists, at 50c a bottle.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Submit us samples for grades, etc. COOPER COMMISSION CO., Minneapolis, Minn.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, **$5. to $15. Per Acre.**

Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.

Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers, R. R. fare refunded to purchaser of land. For maps and further particulars address **UECKE'S LAND AGENCY, Cumberland, Wis.**

OFFICIAL PAPER RED LAKE COUNTY

OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year, in Advance.

A WORD PERSONAL.

The removal of the editor of this paper to St. Paul necessitates something of a change in the management of THE COURIER, and in view of the fact that the office cannot have the personal supervision of the proprietor during the coming two years, a half interest in the business has been leased to Mr. Ed. H. Chase, an Iowa newspaper man, who comes to Red Lake Falls with the highest recommendations as a business man and as a citizen. Mr. Chase will have the entire business control of the paper and of the job printing department in connection therewith, and will be responsible for the local pages. It is the expectation that the editorial page will be conducted from St. Paul, and it is believed that it will be more readable than ever from the fact that St. Paul is the mecca of state politics and state news.

The writer hereof desires to commend Mr. Chase to the people of Red Lake county. He is a courteous, enterprising and aggressive young man, who will find a place in the business and social circles of the town and county. We trust the friends of THE COURIER will use him well, and in return we can promise that everyone will receive in return honorable and fair treatment.

The writer does not feel as though he is bidding the people of Red Lake Falls good-bye, because every cent of his material wealth is invested here, and he confidently expects in due course of time to return to the city. He will always feel that he is a resident of Red Lake county and the Red River valley, and if there is any way in which he can advance the interests of his town or county it will be done with a feeling that it is his home and abiding place, and deserving of the support and good will which every good citizen owes to his own locality.

Whenever the Red Lake county people get to St. Paul the latchstring of the state librarian's office will be found on the outside, and all of them are invited to call and ask the benefit of any information that can be tendered.

THERE is a lurking suspicion in certain quarters that Senator Hawkins does not consider a Democrat fit to hold a public office anyway.

REPRESENTATIVE W. I. NOLAN, the funny man, has introduced a bill providing a whipping-post for wife-beaters. This is no laughing matter.

FRANK EDDY says in his Sauk Center Herald that when his gasoline engine bucks he "gets madder than he has been since the civil war" but it doesn't do any good.

SINCE the fireman of the senate has nothing to do but draw his salary, the Minneapolis Tribune thinks the legislature might make the job heavier by increasing the amount.

HON. L. C. SIMONS has introduced a bill in the house providing for the abolishment of all fee offices. If passed the bill would make sheriffs, register of deeds and clerks of court salaried officials.

A. N. DARE, editor of the Elk River Star-News, has been re-appointed state printing expert by the commission composed of Governor Johnson, Secretary Hansen and Auditor Iverson.

THE Thief River papers have apologized for doing Commissioner Ole Johnson an injustice last week. The trouble is the papers up there go off half-cock on a lot of propositions they know very little about.

A FEW more country editors have landed berths in the oil inspection department of the state government. Among them are J. P. Coughlin of the Perham Enterprise, John L. King of the Jackson Pilot and James Keating of the Wabasha Herald.

A WRITER in Public Opinion is giving a series of articles to prove that Thomas W. Lawson is not a saint, but is made of ordinary flesh and blood. We knew this before, but it does not lessen the effect of Lawson's charges against the Wall Street gamblers.

THE prospective county-seat fight seems to have rejuvenated Editor Eastman of the Thief River News He has dipped his fountain pen in gall and writes with one hand on his pistol pocket. The days of the Arizona Kicker promise to be revived in the News sanctum.

THE Lakefield Standard has just passed its twenty-first milestone, and looks to be good for many more spins around the track. For the past fifteen years the Standard has been in charge of Crawford Bros., who have made it one of the leading newspapers of Southern Minnesota, and won an important niche in the journalistic history of the state.

THE LeSueur lyre should take to the woods. The Thief River correspondent to the Twin city dailies has him skinned to death and then some. We are told this week that sixteen hundred voters on the reservation are patiently awaiting the opportunity to vote for the county-seat removal. The density of population out on the reservation is actually incomprehensible.

SOME of the Democratic state-house officials are changing the order of things. Insurance Commissioner O'Brien turning the fees of his office over to the state treasury and labor Commissioner Williams has reorganized his bureau and established a number of reforms in the interest of economy and efficient service. It looks as though the Johnson administration will mean a large saving to the taxpayers.

ACCORDING to a bill introduced in the senate the work of taking the state census is to begin June 1 and end July 1 and will be under the direction of the secretary of state, who is the superintendent of the census. The pay of enumerators is to be $2 per hundred in cities of 5.-000 and over; $2.25 in cities between 500 and 5,000 inhabitants and in all other cities at the rate of 21-2 cents per person. The amount of the appropriation is $65,000.

THE new editor of the Thief River Falls Press is getting to be a charming prevaricator on short acquaintance. According to his story Red Lake county has been looted by unscrupulous officials. As a matter of fact no county in the state has more capable, conscientious or painstaking officials, and we are pleased to acknowledge that Thief River furnished three of them. The annual statement printed this week shows an economical and business-like administration of county affairs. There is not a shadow of truth in the wholesale indictment by the Press, and that paper should be heartily ashamed of its attempt to besmirch the good names and reputations of honorable men.

JUDGING from the report of the commission, as submitted to President Roosevelt by Secretary Taft, considerable progress was made in the Philippines last year. Peace reigns except in the disturbed Moro districts of Jolo and Mindanao and in the wild interior of Samar. A stringent civil-service law has improved the personnel of the government service. The new coinage is on a firm basis, the only danger being that the rise in the price of silver may make the peso actually worth more in bullion than as a coin. But there has been a falling-off in revenue which has unfortunately cut down by several hundred thousand dollars the expenditures for education, which last year reached a total of only $1,200,000. Secretary Taft asserts that without waste $5,-000,000 could be spent in education every year. Unless congress shows more graciousness, there are going to be great difficulties with the revenues of the islands. A relaxation from the Dingley tariff, insofar as it affects Philippine goods, is imperative.

LaGrippe and Pneumonia.

Pneumonia often follows LaGrippe but never follows the use of Foley's Honey and Tar. It cures lagrippe coughs and prevents pneumonia and comsumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Gsgood St., Chicago, writes "My wife had a severe case of lagrippe three year ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. Sold by A. L. Reicher.

Educational Column.

Conducted by E. W. Chamberlain, Superintendent Red Lake Falls Schools.

While Language is from the teacher's standpoint perhaps the most difficult subject, from the standpoint of the pupil History perhaps is the great bugbear. That this is so few will deny. That the fault is inherent in the subject some will claim but none should believe. Who or what, then, is to blame? The pupil? No. The teacher? In part. The books? Yes, largely. The system? Mostly.

What is History? Largely biographical norration. Did you ever see a child who was not interested in a story? Most certainly no. Then the pupil or the subject cannot be blamed. Let us look at the question from a psycological point of view. The education of the child should be conducted along a line that recognizes the group classification of the mental powers of man. The course of study should be so arranged as to be in harmony with the best development of the three classes of powers. That our courses of studies are not so arranged all will admit. Now courses of study create a demand for books. As the right kidd of books are not demanded they are not published. Herein do we find the cause of the dislike for History.

The three classes in which the mental powers may be put, are: Acquisitional, Assimilation and Expressional. The consideration of these three powers will show you that with a developing child they must be acquired before they can be assimilated. They must be assimilated and worked over into our own mental grasp before they can be expressed.

A study of the child mind shows that these powers do develop in the order named. It also shows that each power is most active and does its work most easily while it is in the stage of most rapid development. Now our greatest students of psychology declare that acquisitional faculty of the mind develops fastest between the ages of one and ten years; that the assimilative faculty develops most rapidly between the ages of ten and eighteen years, and that the expressional faculty develops most rapidly between the ages of eighteen ans thirty years. It will be impossible in the space at my disposal to discuss at length the needed changes in our curriculum. But if you will stop to think about the nature of History you will see that it is largely acquisitional in its character. Then if you will remember that the acquisitional faculty is most active before ten years you will see that History should be largely presented during those years. To do this would require a decided change in the manner in which we present the subject. Here the books become at fault.

The fault that most conscientious pupils find with History is that there is such a sameness in all of the books from the simplest to the highest. The complaint is a just one. Take any set of outline histories and you will find them taking up Columbus, Captain John Smith, George Washington, etc., etc., and in nearly the same order. During the use of the first book you find no one complaining, but when they take their second book and turn page after page, day after day, and come to the same men, do you wonder that they become disgusted? Not at all. The wonder is that we can keep them at work at all. You ask me what I would have. I answer, our history story told in simple child language and in large outline with simplest connecting incidents. Also the boyhood of our great men with just a simple statement of what made them famous. These books to be carefully arranged by a competent person, and graded to be used as supplementary reading for the second, third and fourth grades.

Then for the fifth, sixth and seventh grades a set of three outline histories, written by the same person or competent colabrators, each taking up the story with a different working theme, and each simply referring to the persons and incidents of the preceding books, and adding new persons and incidents necessary for the elaboration of the working theme. At the same time I would have the simplest story of English and French history told in supplementary readers for the fifth and sixth grades. This would bring the purely acquistional work at the time when that power of the mind is most active in its development, and it would also bring the elementary assimilative work at a time when the assimilative faculty of the mind is becoming active.

In the eight grade give a brief outline study of English history and ancient and modern history in the first and second years in high school. This would furnish a splendid foundation for a year's good solid work in United States history and civics in the third year of High School at a time when the assimilative faculty is strong and the expressional power of the mind is becoming active.

These changes in the system and books would, I feel certain, remove most objectionable features from the study of history, and at the same time make the work easier for the pupils and furnish better mental discipline.

Now what is there left for the teacher? I believe that the above mentioned changes will of themselves remove most of the faults now attributed to the teacher. But at the same time they will make possible nearly as many new faults. In this system the teacher must be the life and fountain-head of inspiration for the whole class. She must have a large and comprehensive grasp of the whole subject as it is treated in the books used by the pupils. She must have her work reduced to a decided spstem, so that she can easily discover and quickly refer to any former person or incident that is connected with the lesson in hand so closely as to constitute a cause for the present incident. If she do this carefully and systematically she will conduct the best review possible, while she keeps the interest of the child at a fever heat by causing him to be constantly meeting and renewing acquaintance with his old friends. How interesting it is to meet with old friends under such conditions. I fully believe that with proper preparation on the part of the teacher such a system and such books would make a new subject out of history, and make our pupils much better citizens. We cannot make the change at once but if we all set our faces towards the right we will win in the end.

AN APPEAL TO THE PEOPLE.

All public-spirited business men and farmers of the Red River valley who have seen the grand work done by the Agricultural school at St. Anthony Park and the benefits received by the young men and women who have attended the school one term or more and seen the improvements and benefits to the country surrounding the homes of the lucky ones having an agricultural education, know the value of such an institution, and many have asked us work unceasingly for the establishment of such a school at Crookston in connection with the Experimental Farm, which under the able management of Prof. Hoverstad and his assistants has done much for the northwestern farmers in the experiment of seed grains, grasses, corn, vegetables, small fruits, etc. They are at present conducting experiments in raising and feeding horses, cattle and poultry that will be of great value to the surrounding country. Since Representative B. S. Bennett has introduced a bill in the legislature asking an appropriation for the purpose of starting a branch agricultural school here, it becomes our duty to call the attention of all our representatives and senators to the need of this school by numerously signed petitions from all parts of the Red River valley. We should unite and use all honorable means to secure the early passage of this bill.

This school teaches the young people to farm for profit, creates an interest in farm work, and stimulates a desire to stay on the farm and live independently, instead of the trend which predominates the young people of the country to flow into the cities, there to become servants and menials. A school of agriculture is very much needed here, and we believe we are entitled to it. We have paid our share of the taxes to support the university and agricultural school in the southern part of the state and derived very little benefit therefrom, because of the fact that few of our farmers can afford to pay transportation to the Twin cities, and the high prices for board. On the other hand if we had a branch agricultural school at Crookston we could easily secure cheap board with friends who would take pride and interest in the education of our farmers' sons and daughters.

Such a school would be of untold benefit to the young generation of the farming communities of the Red River valley, and we hope that public-spirited men from every quarter of the valley will get up a petition, have it generously signed and mail to the representative or senator from their district. Such a showing will help our legislators materially.

REMI FORTIER, M. G. G.

State of Ohio, City of Toledo, } ss.
Lucas County }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

Sworn to before and subscribed in my presence, this 5th day of December, A. D., 1886. A. W. GLEASON, Notary Public [Seal]

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY & Co., Toledo, O.

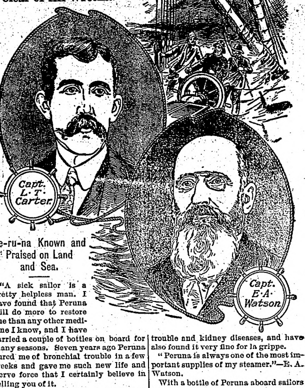
Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Settlers's Rates to Points in the Southeast.

On the first and third Tuesdays of each month, January to April inclusive, the Chicago Great Western Railway will sell one way tickets to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North and South Carolina, Tennessee and Virginia at very low rates. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A. Chicago, Ill. 4-18

CAPTAINS ON MANY SEAS NEVER WITHOUT PE-RU-NA.

"Give Me My Compass and Pe-ru-na and I Will Steer Clear of All Wrecks."



Pe-ru-na Known and Praised on Land and Sea.

"A sick sailor is a pretty helpless man. I have found that Peruna will do more to restore one than any other medicine I know, and I have carried a couple of bottles on board for many seasons. Seven years ago Peruna cured me of bronchial trouble in a few weeks and gave me such new life and nerve force that I certainly believe in telling you of it.

"Give me my compass and Peruna and I will steer clear of wrecks of all kinds and land in port safe and well with vessel and men."—Capt. L. T. Carter, 123 10th Avenue, Pensacola, Florida.

Capt. E. A. Watson, M. E., 48 Elizabeth street, Ottawa, Ont., writes:

"Peruna has my heartiest endorsement. If there is any place that you are helpless when ill it is on board a steamer, at sea, miles away from any assistance. Sometimes two or three of my men would be sick at one time and seriously cripple the force, but since we have learned of the value of Peruna, by taking a few doses they recuperate very quickly. We use it for colds, lung trouble and kidney diseases, and have also found it very fine for la grippe.

"Peruna is always one of the most important supplies of my steamer."—E. A. Watson.

With a bottle of Peruna aboard sailors have a remedy on which they can rely.

Commodore U. S. Navy.

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1837 R St., N. W., Washington, D. C., says:

"I unhesitatingly recommend Peruna to all persons suffering from catarrh."---S. Nicholson.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

ROYAL BAKING POWDER CO., NEW YORK.

NOTES IN MINOR CHORD.

Go to the Merchants State Bank for farm loans.

Ernest Buse made a business trip to Crookston this week.

Ladies' fur collarettes at half price at Garceau & Zaiser's

E. Sheldrup, of Plummer, was a county-seat visitor Tuesday.

Messrs. A. P. Toupin and Exerie Chatel were at Brooks Tuesday.

A son was born to Mr. and Mrs. Allier Pouliot, Tuesday, Jan. 31.

For dress making call upstairs in Rue's house on corner of Main St.

Zatique Bray, of Brooks, was a business caller at this place yesterday.

Cloaks! Cloaks! Cloaks for half price this week at Garceau & Zfaser's.

Hon. L. C. Simons was at home over Sunday looking after business matters.

Julius Pleth, the hustling land man of Plummer, was a Red Lake Falls visitor Monday.

Perl W. Mabey was down from Thief River Falls Saturday and Tuesday on legal business.

Mr. and Mrs. S. S. Haislet entertained a party of friends at cards last Saturday evening.

Miss Melina Alsteadt is here from Grand Forks for a visit with the home folks for a few days.

James E. Morrissey of Crookston has been named as boiler inspector for the Polk county district.

Ladies' and children's coats this week at half price—just half their real value at Garceau & Zaiser's

Big bargains offered this week in men's fur coats. Don't miss this opportunity.—Garceau & Zaiser.

Nels Otterness, of St. Hilaire, was in the city Tuesday. He reports the land business as being good.

Mrs. E. F. Marshall returned last Saturday from her visit with Miss Grace Moorhouse at Grand Forks.

H. H. Tompkins of Mankato was the city yesterday looking after his farms in Lake Pleasant township.

Perfect Safety

is combined with convenience in our certificates of disposit.

When you have any sum of money not wanted for immediate use, you can leave it here and we give you a written agreement to pay it back at any time you want it. If you wish to leave it for 6 months or more, we will pay interest upon it.

Yov can draw out a part of it, or all of it, at any time, or turn it over to some other party, if you wish.

5 per cent Interest paid on time deposits.

MERCHANTS STATE BANK

RED LAKE FALLS, MINN.

Directors:
A. P. TOUPIN, PRESIDENT; THEO. LABISSONIERE, VICE-PRESIDENT; J. A. DUFFY, CASHIER; P. F. POULIOT, ASST. CASHIER.

Safety Deposit Boxes for Rent.

Mrs. Henry Kaufer was at Thief River Falls over Sunday visiting her daughter, Mrs. W. A. Murphy.

10,000 yards of laces and embroideries just received at The Big Store. Direct importation therefor low prices.

A dancing party will be given at the K. of P. hall Saturday evening by the young people. Everybody invited.

Thief River Falls has a mayor now. At the last meeting of the city council D. B. Bakke was elected to that position.

Leo Spillane returned yesterday from Crookston, where he has been working in the Times office for a couple of weeks.

There will be a dance at Woodman hall next Tuesday evening. All Woodmen and Royal Neighbors are invited to attend.

Mrs. J. M. Bishop and Mrs. Sidney Bagley, of Thief River Falls, visited Red Lake Falls friends Tuesday between trains.

Our advertising is well put together, but still not so well as our Red School House shoes for children.—Garceau & Zaiser.

We are not saying much about dress goods and wash goods yet—but wait! We have surprises in store for you.—The Big Store.

The ladies of St. Mary's society will meet next Thursday, February 9, with Mrs. H. M. Kaus, from 4 to 6. All are invited to attend.

Ralph Wyer, assistant cashier of the First State Bank, made a business trip to Brooks and Lambert on business for the bank last Friday.

"Queen Quality" shoes for women not only permit easy walking, but keep the foot well arched with narrow insole.—Garceau & Zaiser.

Some of the farmers of the northwest corner of Gervais are petitioning the board of county commissioners for the organization of a new school district.

A number of our young people attended a dance at the residence of Eli Lasha, three miles west of town, Tuesday evening. Those present report a most pleasant time.

The next time you buy a corset just ask to see those new styles of Royal Worcesters at The Big Store. It will be a revelation to you. 60c up to $2.00.—The Big Store.

Mrs. J. L. Tracy will entertain the ladies of the Presbyterian church at her home next Wednesday afternoon, February 8. A ten cent lunch will be served and all are invited.

P. B. Gaass left Monday for Armstrong, Iowa, where he was called as a witness in the district court. He will remain a few days in that section visiting old acquaintances.

Remember the rag ball social Friday evening at the Presbyterian church parlors. Every lady is requested to bring her name wrapped in a rag ball. These will be auctioned off to the highest bidder for partners for supper. Come and have a good time.

Dr. J. C. Wilkinson was down town Tuesday for the first time in five weeks. Both he and Mrs. Wilkinsen are rapidly gaining strength and will soon be in their usual good health.

Mr. and Mrs. B. O. Wilkinsen, of Poplar River, were visitors at the home of Dr. J. C. Wilkinson the first of the week. Mrs. Wilkinson will remain with the doctor's family for a week or two.

Frank E. Hunt is expected home from his trip to Talopoosa, Georgia, today. Mr. Hunt arrivrd in Minneapolis last Saturday and has been looking after business matters in the city for a few days.

Mrs. Theo. LaBissoniere has been quite ill during the past week, but is now on the road to rapid recovery. Mrs. LaBissoniere's mother, Mrs. P. Martin, has been over from Crookston this week.

Rev. I. T. Aastad will hold services in the Scandinavian language at Zion's Evangelical Lutheran church next Sunday morning and evening. A cordial invitation to attend is extended to all.

Conductor A. G. Lockman of the Great Northern has a number of fine Plymouth Rock chickens, and says he can supply eggs to all who desire them. His price is $1.50 for a setting of thirteen eggs.

Mrs. John E. King has recovered from a long illness from blood poisoning. The poisoning was first noticed the latter part of December, and is thought to have been caused by eating canned mushrooms.

It will be of interest to our high school pupils to know that the Fergus Falls debating team was defeated last week by the team from Breckenridge. The latter team now holds the Ninth district championship.

The annual financial statement of Red Lake county will be found on the inside pages of this issue. The statement will be interesting to the taxpayers of Red Lake county who like to know where the money goes.

Thirty-six singers attended the meeting of the choral union last evening. Meetings are held Wednesday evening of each week at the parlors of the Presbyterian church. All who enjoy singing are invited to join the organization.

Fergus Falls is going to make an effort to induce the Soo road to build into that city, and now Aitkin is planning to make an effort to get the Soo to come into that town, it having been stated that the road is thinking of building toward Duluth.

The groundhog had no trouble in seeing his shadow today, and according to tradition he will go back in his hole for another six weeks. If he doesn't forget to wake up at that time the people of northern Minnesota will be satisfied.

Did you ever try to find out the secret of the miraculous growth of Button's Business College, Crookston, Minn?

My! My! My!

But that's good bread! Made with

YEAST FOAM

The Wonderful Yeast.

Try it once— use it forever.

Yeast Foam is the yeast that took the First Grand Prize at the St. Louis Exposition. Sold by all grocers at 5 cts. a package—enough for 40 loaves. Send a postal card for our new illustrated book "Good Bread: How to make It."

NORTHWESTERN YEAST CO., CHICAGO, ILL.

Rev. A. E. Driscoll, field agent of Macalester college, St. Paul, occupied the pulpit of the Presbyterian church Sunday morning and evening. Rev. Driscoll is a pleasing and forceful speaker, and audiences greatly enjoyed his sermons.

Parents should be careful that their children's feet do not become flat-footed or deformed by wearing poorly-made shoes. "Red School House" shoes are made correctly. School bags free with every pair of shoes sold.—Garceau & Zaiser.

"Queen quality" reigns only as a shoe for particular women—for women who wish that certain gracefulness in walking which can only be attained by a perfect-fitting shoe. Prices very moderate—$3 and $3.50. For sale by Garceau & Zaiser.

County Attorney Thomas Germo went to St. Paul Tuesday evening to attend the annual meeting of the county attorneys of the state. No doubt the gathering will prover very pleasant and profitable. Mr. Germo is expected home tomorrow.

The famous Kratka-Richardson mayoralty contest at Thief River Falis was decided last Friday by the supreme court in favor of Ira C. Richardson. The decision will have but little effect, since neither of the parties to the suit want the office now.

This morning was the coldest of the year, the thermometers registering 44 below zero. This does not nearly equal last year's record, however, as one morning in January showed a frigidity of 58 below. The winter on the whole has been exceptionally mild.

F. A. Argue, of Hamilton, North Dakota, visited his brother, Dr. J. M. Argue, of this place one day the first of the week. Mr. Argue was attending a meeting of the North Dakota hardware dealers at Fargo and took a day off to visit his brother here.

We are jnst opening up our line of St. Cecilia ($3.50), Nunaimo ($3.00) and Saranac ($2.50) shoes for women. Be sure to come in and see the finest line of shoes ever exhibited in this city. Glad to show you the goods even if you don't want to buy.—The Big Store.

Angus D. McKinnon, a Crookston young man employed in a grain house in Minneapolis, is suffering from a peculiar sort of poisoning. It is believed that he was poisoned by wheat rust which found its way into an abrasion on the skin of his nose while he was smelling the grain for grading.

The drama entitled "The Heart of a Hero" was presented at the opera house Friday evening by the Spartan society of the high school to a good sized audience. We are pleased to learn that a neat sum was realized. This money will be spent in securing new books for the school library.

County Auditor Ford wishes the COURIER to announce that he has some farm literature issued by the government that our farmer friends can have by calling at his office. The subjects are timely, relating to the farm and its products, and will no doubt prove beneficial to all who read the pamphlets.

L. E. Metzgar has resigned his position as manager of the Red Lake Falls Milling company, and left yesterday for Oregon, where he has another situation in view. Mr. Metzgar is popular with the people of Red Lake Falls and his many friends will hope that his lines are cast in pleasant places.

Work on the Great Northern connection at this place has not been progressing as rapidly as anticipated, and as a result the new train service will not be established before March 1. Several important changes affecting the main line and all of the branches are expected to go into effect at this time.

Mr. and Mrs. Geo. LaBissoniere, of North Yakima, Washington, arrived in Red Lake Falls Tuesday for a two or three weeks visit with their son, Theo. LaBissoniere. Mr. LaBissoniere was one of the pioneers of this section and has many friends who will be glad to see him and will enjoy talking over old experiences with him.

Rev. Father Fayolle is expected to return Saturday from a visit at Pass Christian, Miss. No services have been held during the past two Sundays because of the reverend gentleman's absence, but next Sunday the regular ceremonies will be resumed. The many friends of Father Fayolle hope that he had a pleasant vacation.

The residents of International Falls, the new town on the Canadian border, don't like the new name for their town, and they want their old name, Koochiching, back again. The settlement has been known by that name for many years, but a year ago was changed to International Falls. A special election will soon be held to vote upon the proposition.

The pile driver is making haste slowly at the Great Northern fill this week. The weather has been extremely cold, and the foreman says the piles are very hard to drive because of a substratum of hard soil beneath the clay subsoil. It requires 250 strokes of the hammer to get these piles in place, when ordinarily only 150 strokes are required.

T. L. Melgaard, cashier of the Citizens State Bank of Thief River Falls, has been in the city this week working diligently at the court house. He has been making out a list of taxes, both personal and real, for the territory tributary to Thief River Falls, and the people of that part of the county will be able to pay their taxes at his bank hereafter, saving them a trip to the county-seat.

Attorney Chas. E. Boughton and Thos. Germo went to Crookston Tuesday evening to present arguments in favor of Red Lake Falls in the injunction proceedings started by H. W. Lee to restrain the county commissioners from buying the court house property. By order of Judge Watts the injunction was dissolved, so that Red Lake Falls has first blood in the county-seat fight.

Members of the local lodge of Modern Woodmen are planning on a big time at Plummer, Saturday evening, Feb. 11. Several new members will be added to the Plummer lodge that night, and the Red Lake Falls boys will have charge of the work. Delegations from Thief River Falls, St. Hilaire and other towns will attend the meeting, and the occasion promises to be one of importance for the order in Red Lake county.

John J. Hegg, a well-known Wyandotte farmer, was in to pay his taxes yesterday. Mr. Hegg says practically every quarter section of the reservation adjacent Wyandotte has been filed upon, but that more than half of the purchasers will never make their second payments on the land. There are numerous bogs and swamps in that section, and many persons bought land without taking a look at it. This condition is in a measure true of other parts of the reservation.

Remi Fortier, one of the prominent farmers of Polk county, was in from Gentilly yesterday and made a pleasant call at this office. Mr. Fortier is greatly interested in securing a branch of the state agricultural school at Crookston, and in a communication elsewhere in this issue advises the farmers of the valley to send petitions to their member of the legislature in the interest of this project. There is no question but that this school would be of great benefit to the farmers of the Red River valley.

A petition to the state legislature praying for an appropriation to build a bridge over the Red Lake river in Louisville township is being circulated by the farmers of that locality. The petition has already upward of a thousand signatures, and if there is virtue in petitions this one ought to be effective. The bridge would be a great convenience to the farmers of the southwestern corner of the county and benefit the business men of Red Lake Falls. It is understood that Senator Stephens and Representative Simons will do all they can to secure the appropriation.

The Minneapolis Journal of Saturday has this bit of society news: "An interesting announcement of the week was that of the engagement of Miss Rebecca Van Cleve, daughter of Mr. and Mrs. Edward M. Van Cleve, and Rev. J. H. Nicholl of Thief River Falls. Miss Van Cleve is the granddaughter of Mrs. Charlotte O. Van Cleve, a famous Minnesota pioneer, and Mr. Nichol was formerly pastor of Andrew Presbyterian church. The wedding will take place in May and in the fall Mr. Nicholl will take his bride to Syria where they will serve as missionaries at Beirut."

A meeting of the Red Lake County Teacher's association was held at Thief River Falls last Friday and Saturday. About thirty of the rural teachers of the county were in attendance, and an interesting and profitable program was rendered. Prof. E. E. McIntyre of Crookston and Prof. C. S. Yaeger of Fosston attended the meeting and made excellent addresses. T. J. Krause of Terrebonne gave an address and and papers were read by Misses Grace Meehan, Mary McGinn, Florence Columbus and Katie McAnulty. County Superintendent McAnulty also made a talk relative to school work in Red Lake county and President Chas. Moller gave a cordial welcome to the teachers in his opening address. The next meeting will be held at St. Hilaire later in the year.

"Flinch," "Somerset, and all the new card games at THE COURIER stationery store.

A Convenience.

A checking account with a bank is a great convenience—not only to the business and professional man—but to the farmer as well. More people would keep such an account if they knew just how to go about it. We gladly assist those who need help in getting started, even tho the account be small.

FIRST STATE BANK.

SUCCESSFUL BUSINESS MEN.

Some of the Qualifications Necessary for the Highest Success

1. A good business education.
2. A good moral character.
3. Energy and self reliance.
4. Good judgment.

Persons seeking a practical business education in a very short time should attend some business college.

There is no college in the United States that places so large a percentage of its pupils in good paying positions as Button's Business College, Crookston, Minnesota. It positively guarantees situations to all graduates and asks no pay until it has fulfilled its agreement.

The college that offers the most gets the business.

Pupils take the time to investigate before entering a college these days.

They want to learn only by the best and quickest methods.

And they will go where they can get the most for their money.

Ninety-five per cent of the business men of Crookston will advise you to go to Button's Business College. Ask them and see.

FINANCIAL STATEMENT

—OF—

RED LAKE COUNTY. MINNESOTA.

For the Fiscal Year Ending December 31, 1904

OFFICE OF COUNTY AUDITOR, RED LAKE COUNTY,
Red Lake Falls, Minnesota, January 6, 1605.

To the Honorable Board of County Commissioners of Red Lake County, Minnesota:

GENTLEMEN: I submit to you herewith a statement of the financial condition of Red Lake County, Minnesota at the close of the fiscal year. December 31, 1904, showing the receipts and expenditures for the year, the cash balances in the different funds and the total amount to the County Treasury, together with a statement of the finances of the County at the end of the year, including all debts and liabilties, and the assets and other means of discharging the same.

Respectfully submitted,
JAMES E. FORD, County Auditor.

TWO LONG-LIVED WAITERS.

Living Contradiction of a Theory That Is Entertained by Some People.

One of New York's oldest waiters does much to contradict the theory that waiters are short lived, says the Sun.

A recent change in the management of a Broadway hotel has brought him to the Tenderloin, where for the first time he serves the patrons of a cafe. He has passed the greater part of the 30 years that he has worked here in the hotels on upper Fifth avenue.

Twenty-five years ago he was in the old Windsor, and used to look after the Columbia college men who frequented the hotel then. He was known to many classes of students, and his acquaintance made in the other hotels to which he afterward wandered is comprehensive.

There is scarcely an uptown hotel in which he has not been employed, and he was just as gray 20 years ago as he is to-day. He is quite as active now, too, as he ever was, and few younger men are able to get about so spryly as he.

One of the most popular waiters in a cafe on Broadway is the oldest man in the place. He was for many years in Delmonico's, an establishment which parts with its men more rarely than any other. But for some reason he did not get along with Phillippe, and took a place in the new French restaurant when it was opened two years ago.

Many men have come and gone in that time, but Paul finds his services always in demand. His clients wait until one of his tables is vacant in order that they may have his attention and skill in mixing a salad.

Both of these men are long past the age at which they might be thought to be most efficient. But they are able to earn more than their youthful colleagues.

Old waiters are not as a rule so capable, however, as younger men, mainly because they are likely to be bad tempered.

Suggestive Names.

The Coxcomb mountains of British Honduras, to some extent an unknown part of the famous Mahogany coast, are undergoing a process of christening which will identify them for all times with the begining of the twentieth century. One range has just been named the Queen Alexandra mountains, another range takes the name of the Prince of Wales, and a 4,000 foot peak has been named Mount Joseph Chamberlain.

Gloria Lung Balsam

AGAINST BEEF TRUST

UNITED STATES SUPREME COURT DECIDES PACKERS GUILTY OF CONSPIRACY.

Opinion is Handed Down by Justice Holmes and Concurred in by All the Associate Justices—Injunction Issued Against the Packers Under the Sherman Anti-Trust Law in the Trial Court Continues in Force.

Washington, Jan. 31.—The supreme court of the United States has decided the case of the United States vs. Swift & Co., known as the beef trust case, charging conspiracy among the packers to fix prices on fresh meats, etc. The opinion was handed down by Justice Holmes and affirmed the decision of the court below, which was against the packers.

In his opinion Justice Holmes discussed at length the various contentions of the packers and disposed of them individually. He admitted that some of the charges were less specific than desirable, but said this was necessarily true on account of the vast extent of the field covered. He added that sufficient had been shown to prove continuous offenses and offenses of such a nature to justify the proceedings. The opinion continues the injunction granted against the packers under the Sherman anti-trust law by the lower courts. The opinion was concurred in by all the members of the court.

Summarizing the bills Judge Holmes said:

"It charges a combination of a dominant proportion of the dealers in fresh meat throughout the United States not to bid against each other in the live stock markets of the different states; to bid up prices for a few days in order to induce the cattlemen to send their stock to the stockyards; to fix prices at which they will sell and to that end to restrict shipments of meat when necessary to establish a uniform rule of credit to dealers and to keep a black list; to make uniform and improper charges for cartage and, finally, to get less than lawful rates from the railroads to the exclusion of competitors."

The opinion continues the injunction granted against the packers under the Sherman anti-trust law by the lower courts. The opinion was concurred in by all members of the court.

A COMBINATION BILL

THAT TO BE REPORTED TO LOWER HOUSE BY COMMERCE COMMITTEE.

Washington, Jan. 31.—The house committee on interstate and foreign commerce by a party vote Monday authorized a favorable report to the house on a bill extending authority to the interstate commerce commission to fix rates, increasing the size of the commission from five to seven members and creating a "court of transportation." The bill is a combination of the Esch-Townsend measure with amendments taken from the Hepburn bill.

LOWER COURT SUSTAINED.

Machen, Lorenz and the Groffs Must Go to Prison.

Washington, Jan. 31.—The supreme court of the United States has denied the application of Machen, Lorenz and the Groffs for a writ of certiorari in the case against them charging conspiracy to defraud the government in connection with the postoffice department irregularities. The effect is to leave standing the decision of the court of appeals of the District of Columbia finding them guilty as charged.

Machen, Lorenz and the Groffs were sentenced to two years' imprisonment and to pay a fine of $10,000 each.

There will be no further effort to delay the execution of the sentence of the District supreme court, from which the defendants appealed, successively to the District court of appeals and then to the supreme court of the United States.

GRANTS HARRIMAN PETITION.

Supreme Court to Hear Case Involving Control of Northern Pacific.

Washington, Jan. 31.—The supreme court of the United States has granted the petition for a writ of certiorari in the case of E. H. Harriman and others vs. the Northern Securities company, growing out of the former decision of the court relative to the distribution of the stock of the Securities company.

The effect of granting the writ is to bring the case to the supreme court for review. The argument is set for Feb. 20.

IN CRITICAL CONDITION.

President of Oberlin (O.) Bank Will Not Live to Stand Trial.

Oberlin, O., Jan. 28.—President C. T. Beckwith of the defunct Citizens' National bank is reported to be in a very serious condition. Beckwith has been ill with heart trouble ever since the close of the bank and has gradually grown weaker. It is believed by his physician that he will not live to be tried on the charges against him.

CAPTURED IN NEW YORK.

Police Arrest Johann Hoch, Badly Wanted in Chicago.

New York, Jan. 31.—Johann Hoch, who it is alleged married twenty women, was arrested at a boarding house in West Forty-seventh street Monday night by central office detectives. He admitted his identity, although when first arrested he gave the name of Henry Bartels.

At the Forty-seventh street station, where he was taken, he said:

"I'm Hoch and a much abused man."

"How abused?" he was asked.

He had nothing to say. He gave his name of John Joseph Adolph Hoch, said he was forty-five years old, a machinist living at 6430 Union avenue, Chicago. He is arrested on a charge of bigamy and upon abandonment. Hoch is known under the names of Alfred Hecht, Albert Busetberg, Joseph Hoch, Jacob Hoch and Adolph Brumm.

Hoch stated that he had not been married twenty times. He said that he had been married only twice and that his first wife is still alive.

Mrs. Katherine Kimmerl, the landlady, said Hoch engaged board on Saturday and had not been in the house twenty minutes when he asked to be allowed to peel potatoes for her. Monday he proposed marriage and then she told the police. She said the man talked a great deal to her Sunday and became much interested in her, she thought. She reported the matter to the police and Hoch's arrest followed.

LOSS OVER HALF MILLION.

Fire Occurs in Wholesale District at Omaha.

Omaha, Jan. 30.—The fire which started in the wholesale district of this city late Saturday night was the most destructive in the history of Omaha. The total loss will exceed $500,000 at the most conservative estimate.

A half block was burned over, but the immense buildings contained great jobbing stocks, which is responsible for the enormous loss. The buildings, valued at $200,000, were owned respectively by the Mercer and Millard estates. No definite figures have yet been obtained on insurance, but the stocks of goods were generally covered by insurance up to the 90 per cent limit.

A more disastrous conflagration was only prevented by the heroic efforts of the entire fire department of Omaha, which was reinforced by several engines, hose wagons and other equipment from South Omaha and Council Bluffs.

DR. KOCH OUT ON BAIL.

Second Trial of Murder Case to Be Held at Mankato, Minn.

New Ulm, Minn., Jan. 28.—Dr. George R. Koch, charged with the murder of Dr. L. A. Gebhardt, has been released on bail, Judge Webber fixing the amount of his bond at $20,000, which was furnished and approved by the court.

The state objected to the release of the prisoner, but Judge Webber decided that in view of the excellence of Koch's conduct while in jail and of the fact that he made no attempt to escape, while he might easily have done so, it was entirely proper to admit him to bail.

The matter of a change of venue and a second trial was also arranged. The new trial will be held in Mankato in February. The term of court opens Feb. 7 and the Koch case will come up as soon as the regular calendar is disposed of.

ALONZO WHITEMAN ARRESTED.

Captured at His Mother's Home at Danville, N. Y.

Buffalo, Jan. 28.—Alonzo J. Whiteman, who made a sensational escape from Detective Sergeant Albert Solomon and Detective Field by jumping through the window of a moving train at Dunkirk on Sept. 27 last, was recaptured at the home of his mother in Danville during the day. He was taken after an exciting chase and only submitted to arrest when covered by revolvers. He is locked up at police headquarters here on the charge of forgery and grand larceny.

VALUED AT OVER $3,500,000.

Largest Diamond Ever Discovered Found Near Pretoria.

Johannesburg, Transvaal, Jan. 27.—The largest diamond ever discovered has been found near Pretoria. The stone weighs 3,032 carats and is said to be a pure white diamond of good quality. It is locally valued at $3,500,000 to $4,000,000. The famous Kohinoor, which is valued at $600,000, weighs 123 carats, though it is said to have weighed 900 before it was cut. There is immense excitement here and at Pretoria as a result of the discovery.

MAY SETTLE COAL STRIKE.

German Operators Agree to Accept Verdict of Commission.

Essen, Prussia, Jan. 27.—The coal mine owners have reached a decision that probably will result in a settlement of the strike. They determined to inform the government that they would accept any judgment a parliamentary commission might render after an inquiry into the grievances of the miners and that the owners immediately remove the grievances.

Record for Hundred Miles.

Ormond, Fla., Jan. 30.—A world's record for motor cars has been made for 100 miles. H. W. Fletcher, driving an 80-horsepower car, covered the distance in 1 hour 26 minutes and 38 seconds, an average of 48 2-5 seconds a mile, and beating all other contests by about 3 minutes.

RUSSIAN MOVE FAILS

ATTEMPT TO BREAK THROUGH THE JAPANESE LEFT WING IS FRUSTRATED.

Kuropatkin Defeated in His Effort to Capture Sandepas and His Proposed Offensive Movement Is Abandoned. No Official Estimate of Losses Has Been Given Out, but Thousands on Both Sides Were Killed or Wounded.

St. Petersburg, Jan. 31.—General Kuropatkin's attempt to break through the Japanese left wing and outflank Field Marshal Oyama's position on the Shakhe river, seems to have failed entirely. Few details, however, are available beyond the information contained in the official dispatches. Field Marshal Oyama, as at the battle of the Shakhe river, appears to have answered the Russian advance with a counter offensive movement, but no great disposition was shown to carry the war far into the territory held by the Russians.

At the war office there is an inclination to lay the chief blame for the failure of the movement to a sudden change of the weather to intense cold, 20 degrees below zero with a high wind, which drifted the snow and rendered it hazardous to expose the troops to camping in the open plain and also impeded the transportation of guns, supplies and the wounded.

Too Hard a Nut to Crack.

The operation entrusted to the Second army under General Grippenberg was the capture of Sandepas, which once in Russian hands would serve as a pivot for a flanking movement against Field Marshal Oyama, but Sandepas proved too hard a nut to crack and the Japanese, taking advantage of the repulse of the Russians, hurried up their reinforcements and assumed the offensive on the Hun river as well as along the railway and the Great Mandarin road.

The Russians, however, appear to have been completely successful on the defensive, repulsing all the Japanese attacks. Under the circumstances General Grippenberg decided not to undertake to storm Sandepas, which is situated in a flat country, therefore more difficult to take than a position in a hilly country.

Owing to flat trajectory and the enormous penetration of modern projectiles the capture of the outer lines of trenches on Thursday entailed heavy casualties. There is no official estimate of the losses, but it is expected that some thousands on both sides were killed or wounded.

DRIVEN ACROSS HUN RIVER.

Two Divisions of Japanese Defeat Four Divisions of Russians.

General Oku's Headquarters, Jan. 29, via Fusan, Jan. 31.—Two divisions of Japanese troops attacked Pehowski and drove four divisions of the Russians across the Hun river. Six hundred Russians were captured.

One Russian division made several attacks on Santanpu to the east, but was driven back with a loss of over 4,000.

The Japanese bombarded the entire Russian line. The Russians replied feebly, showing little activity.

CASUALTIES ARE HEAVY.

Total Losses in Recent Fighting Fifteen Thousand.

Tokio, Jan. 31.—The casualties during the fighting at Chenchiehpao and Heikoutai are estimated at 5,000 on the side of the Japanese and 10,000 on the Russian side.

WORSE AT WARSAW

STRIKE CONDITIONS IN THAT CITY SAID TO BE GROWING MORE SERIOUS.

St. Petersburg, Jan. 31.—While there seems to have been a complete restoration of order in St. Petersburg and Moscow conditions at Warsaw continue to go from bad to worse. Estimates of the killed and wounded in consequence of collisions between mobs and soldiers place the number at 160. The bakers being on strike, bread is at famine prices in Warsaw and attempts to break into stores there have caused numerous collisions with the military. The finding of revolvers of uniform make on many of the rioters arrested affords confirmation of recent reports that revolutionary agitators hve been smuggling arms in anticipation of an outbreak. It is asserted that the official report of the dead through the recent conflict between the strikers and troops at Riga is far short of the actuality, many having perished in an attempt to cross the river on the ice when the soldiers opened fire, the ice breaking and the water engulfing the fugitives.

QUIET AT ST. PETERSBURG.

Interest Transferred From That City to Warsaw.

St. Petersburg, Jan. 31.—The day here was passed in perfect quiet. Interest has been transferred to Warsaw, Lodz and Libau, where a state of siege has been proclaimed.

MARINETTE, WIS., Sept. 25, 1903.

I was all run down from nervousness and overwork and had to resign my position and take a rest. I found that I was not gaining my strength and health as fast as I could wish, and as your Wine of Cardui was recommended as such a good medicine for the ills of our sex, I bought a bottle and began using it. I was satisfied with the results from the use of the first bottle, and took three more and then found I was restored to good health and strength and able to take up my work with renewed vigor. I consider it a fine tonic and excellent for worn-out, nervous condition, and am pleased to endorse it.

MINNESOTA HISTORICAL SOCIETY

RED LAKE COURIER.

VOL. VII—NO. 18. RED LAKE FALLS, MINNESOTA, THURSDAY, FEBRUARY 9, 1905. WHOLE NO. 330.

THIEF RIVER BOOMERANG IS SADLY PUNCTURED

Irresponsible Critics of County Officials Hoist by Their Own Petard—Red Lake County is Economically Managed.

The Thief River Falls newspapers last week were filled to overflowing with a tissue of lies on county matters, seldom equalled in newspaper annals. The News man, especially, had a horrible nightmare, and awaking with a bad headache, wrote out his dream and published it as an impartial view on county-seat matters.

His statements on taxation, for instance, are reckless, ridiculous and untrue, intended no doubt to mislead the tax-payers.

The News states that in 1903 the county of Red Lake paid the highest rate of taxation in the state—46 mills—and would have you believe that this was all levied by the county officers under orders from Red Lake Falls. As a matter of fact this 46 mills is obtained by lumping all of the state, the county, and each town, city, township, village or school district in the county together, and averaging it. The county officers have nothing to do with levying the state, city, township, village or school district taxes. They are levied by the local authorities and only placed on the tax list by the auditor. And they constitute by far the greater part of the 46 mills mentioned. In 1903 the county commissioners levied for all county purposes only eight and three-fourths mills, instead of 46, as stated in the News. In 1902 their levy was only eight and four-tenths mills, instead of 42.6, as the News man dreamt.

The rate of county taxes is growing less instead of greater. Last year—1904—the county board levied only eight and seven-tenths mills for county purposes. This the county board could neither raise nor lower.

The LARGEST PART of that 46 mills tax which so worries the Thief River newspaper men was levied RIGHT IN THEIR OWN TOWN, by THEIR OWN CITY COUNCIL and SCHOOL BOARD. Their city council in 1903 levied a tax of FOURTEEN mills, and their school board levied THIRTY mills!

And this is what they want to lay on the shoulders of the county officers, and, incidentally, Red Lake Falls.

Now, what d'ye think of that?

The rate of taxation depends, of course, upon the amount of money necessary to raise as compared with the valuation of property in the county.

If the valuation is low, the rate is necessarily high.

In 1903 fifty-two counties in the state of Minnesota raised more money by taxation than Red Lake county, and there are only eigh-y-four counties in the state.

In 1902 fifty-seven counties in Minnesota raised more money by taxation than Red Lake county. These figures include all taxes paid into the county treasury and are absolutely correct.

Any statement made in this article can easily be verified from the official records, and the up-river editors are invited to come down and "get wise" before they indulge in any more pipe dreams.

Nineteen Settlers Affected.

Nineteen Beltrami county residents have prepared and forwarded to Washington their affidavits setting forth cause why they should not be ousted from lands obtained from the government at private land sale held at the Cass Lake and Crookston land office. The affidavits set forth their time of residence upon the land, the number of improvements and their nature, and other facts about the land, and it is thought that few of the settlers will be forced to give up their lands. The decision reaches to every part of United States where goverment lands are located and affects every land office where private sales have been made.

Twine Orders Coming In.

Warden Wolfer of the Minnesota state prison says that orders for binder twine are piling up rapidly at the prison. It has been necessary to call a halt on carload orders and only such carload orders will be filled as have already been accepted. The usual amount of twine for small case orders will be kept on hand.

A Menace to Health.

Kidney trouble is an insidious danger, and many people are victims of a serious malady before the symptoms are recognized. Foley's Kidney Cure correct irregularities and strengthens and builds up the kidneys, and it should be taken at the first indication of kidney trouble, as it is impossible to have good health if the kidneys are deranged. Sold by A. L. Reichert.

STATE TAX TABLE.

Iverson Issues Comparative List by Counties.

An abstract of the tax lists of the eighty-four counties of the state for the year 1904, just compiled by State Auditor S. G. Iverson, shows an increase in the taxable property of the state of $59,027,301 over 1903.

The total property value is placed at $845,897,110, as against $786,869,809 in 1903, an increase of $59,027,301. The table shows that the value has increased from $36,753,403 in 1860, when the records first became available. Of the total value of all property but $144,688,062 is found in personal property, the remainder being real estate.

The total taxes levied are shown [illegible] 061.05 is in state, $3,910,901.30 in county, $6,170,028.09 is city and village taxes, $1,719,215.17 in township taxes and $6,340,897.03 in school taxes.

The average rate of taxation in the state is found to be 24.77 mills, as against 25.32 mills for 1903.

The total value of Ramsey county property is given at $99,240,136. Ramsey county levied in taxes $2,687,312.52, its rate was 26.76. Hennepin, on its valuation of $147,979,941, levied $4,628,954.61. The Hennepin county tax rate was 26.9.

LaGrippe and Pneumonia.

Pneumonia often follows LaGrippe but never follows the use of Foley's Honey and Tar. It cures lagrippe coughs and prevents pneumonia and comsumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Osgood St., Chicago, writes "My wife had a severe case of lagrippe three year ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. Sold by A. L. Reichert.

Middle Aged Men Not Wanted.

It seems surprising that the discrimination against men past 40 is increasing both here and in England. Some of the railroads refuse to hire now men older then 25. The idea of putting youth and vigor ahead of experience is amusing when individual cases are considered, but it at least shows the need of golden grain belt beer to keep youthful vigor and enthusiasm through life. Getting too tired kills the reserve force fast and ages the man. When in this state a glass of golden grain belt beer will freshen you wonderfully—just try it. Order of your nearest dealer or be supplied by Alex. Thompson, Crookston.

It makes no difference how many medicines have failed to cure you, if you are troubled with headaches, constipation, kidney or liver troubles, Hollister's Rocky Mountain Tea will make you well. A. L. Reichert.

Traveling Today.

Traveling nowadays is a pleasure. We loll back in fortable seats of luxuriously appointed cars, resplendent in mahogany, mirrors and dainty furnishings; dine from a menu the acme of culinary art and receive every attention from courteous attendants;—Buffet Cars with comforts of the Club, Cosy Compartment Cars, which the ladies especially appreciate and the finest of Pullman Sleeping Cars are all to be found on the famous North-Western Limited—every night—Minneapolis and St. Paul to Chicago.

AS TO THE REMOVAL OF THE COUNTY SEAT.

Thief River Falls asks that you as a voter and tax payer consent and aid in removing the county seat from Red Lake Falls to Thief River, and WHY? Simply to aid in building up its town at the expense of the tax payers of the county, that is all. What does she offer you in return for signing her petition and for your support? NOTHING BUT INCREASED TAXES to pay for the special election, the cost of moving the records, fixtures, safes, etc., and the giving up and abandoning of *$10,000 worth* of county property now owned at Red Lake Falls. WILL IT PAY?

CONSIDER BEFORE YOU SIGN THE PETITION of Thief River Falls, that by signing the petition you are asking for a special election that will cost the taxpayers of the county not less than $2,500.00 besides the time lost. And then you are only beginning to pay the increased burden that your signature to the petition will call for. A CHANGE OF COUNTY SEAT IS NOT WISE,

BECAUSE; The county has *$10,000* invested in court house, vault, county jail, etc., at Red Lake Falls, which would have to be abandoned or sold at great loss if a change is made.

BECAUSE: Thief River is practically on the north line of the county, and all court expenses in the matter of mileage to jurors, witnesses, officers fees, etc., would be greatly increased if a change is made.

BECAUSE: Red Lake Falls alone bore the burden of the expense and work necessary to fight Polk county for eight long years, through elections, the legislature and the courts, that RED LAKE COUNTY MIGHT EXIST. And all the time the citizens of Red Lake Falls were struggling to form a county—in order that the tax payers of what is now Red Lake County might save the long journey to Crookston to pay their taxes, etc.—what was Thief River Falls doing to help you? The citizens of Thief River Falls were in league with Crookston seeking by every means, fair or foul, to keep you in Polk county. Yet bear in mind that these parties who worked against your interests in those years are the very same ones who ask you now to turn to them, and who ask you to rob Red Lake Falls of the honor of the county seat which her long fight with Polk county, in your behalf, entitles her to.

VOTER, BEFORE you sign Thief River Falls petition and cast your lot with that town, consider that it will not pay you from a BUSINESS STAND POINT, and further that RED LAKE FALLS is entitled to your support for her work in ESTABLISHING RED LAKE COUNTY.

A TAX PAYER.

CALUMET Baking Powder

complies with the pure food laws of all states. Food prepared with it is free from Rochelle salts, lime, alum and ammonia.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exorbitant price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

Gloria Lung Balsam

is a pleasant prepartion. Contains honey tar and other healing balms, it is unequalled for coughs, colds, bronchitis and other forms of lung and throat trouble. Sold by W. A. Schreiter.

QUEEN BEES.

Wonderful Provision of Nature by Which They Are Made.

A marvelous phase of bee life is the power which they possess to raise queens, or mother bees, from eggs or very young brood that would in the ordinary course produce workers, which are neuters, or undeveloped females.

If by any chance a queen is killed or lost the whole colony would perish were it not for this wonderful provision of nature. Much perturbed at first at their loss, the bees after some hours settle down and deliberately build a pear shaped structure known as a queen cell. This is much larger than an ordinary cell, rough, irregular and strong.

In this the selected eggs, or larvæ, are lavishly supplied with "royal jelly," which is highly stimulative and in which the baby queen literally floats during her period of growth. The result is that certain organs and ovaries which remain dormant in a worker bee are perfected, and the new queen hatches out in about fifteen days, or six days sooner than the workers.—London Answers.

Headdresses In Africa.

The married women and the men of the upper Mobangi wear their hair long and in braids, which are profusely adorned with colored beads woven in and out among the locks. This coiffure excites the astonishment of all travelers who see it. Coquetry is the privilege of the sex under the tropics as well as in civilized lands, and the women are very proud of their headdresses. The arrangement of their hair requires a number of days, and while it is in progress or when they fear that it will be disarranged they cover the hair with a finely woven net of wood fiber. Ivory needles handsomely carved keep the arrangement in position and give it a truly artistic aspect.

Curious Legal Custom.

A curious custom is in vogue in many parts of India. If a dispute arises between two landowners two holes are dug close together, in each of which defendant's and plaintiff's lawyers have to place a leg. They have to remain thus until either one of them is exhausted or complains of being bitten by insects, when he is judged to be defeated and his employer loses his case.

The Suburban Home.

The suburban house expresses freedom from restraint; it is the home of children; it means purer air; it means more room to move around in; it means gardens, and it implies a social life which years of city living may never engender. These are matters of first importance, and when to them is added the material advantage of lower rents the superiority of the suburban house over the city dwelling is established. There are long rides by trolley or train; there is the necessity of keeping early hours, there are difficulties with limited grocery, butcher and bakery service; there are other practical drawbacks. But over and beyond these is the abiding space of freedom of movement, of ample air and sunlight, of a place to live in.

And that is exactly what a house is for. It is neither to look at nor to serve as an ornament to a highway. That it should be ornamental and should be viewed with interest are matters of course that are extremely desirable, but after all it is the house within that counts; that makes suburban life bearable, adds to its joys, increases its advantages, cements its superiority to every other sort of living unless it be the country life pure and undefiled.—House Beautiful.

Beautiful eyes and handsome face are eloquent commendations. Bright eyes are windows to a woman's heart. Hollister's Rocky Mountain Tea makes bright eyes. 35cents, Tea or Tablets. A. L. Reichert.

DREAD OF HUMANITY

I am compelled by a sense of gratitude to tell you the great good your remedy has done me in a case of Contagious Blood Poison. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus. I lost in weight, was run down, had sore throat, eruptions, splotches and other evidences of the disease. I was truly in a bad shape when I began the use of S. S. S., but the persistent use of it brought me out of my trouble safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all blood-poison sufferers, sincerely believing if it is taken according to directions, and given a fair trial, it will thoroughly eliminate every particle of the virus. JAMES CURRAN.

Stark Hotel, Greensburg, Pa.

Painful swellings in the groins, red eruptions upon the skin, sores in the mouth and loss of hair and eyebrows, are some of the symptoms of this vile disease. S. S. S. is an antidote for the awful virus that attacks and destroys even the bones. S. S. S. contains no Mercury, Potash or other mineral ingredient. We offer $1,000 for proof that it is not absolutely vegetable. Home treatment book giving the symptoms and other interesting and valuable information about this disease, mailed free. Our physicians advise free those who write us.

Notice of Contest of County Seat Removal.

To whom it may concern:

Whereas, a notice signed by Chas. M. Evenson, Lars Backe, D. N. Winton and others, dated January 25th, 1905, has been posted, published and given in the county of Red Lake, stating that it is the intention of said signers and others to circulate a petition the object and prayer of which will be that the county seat of said county of Red Lake be changed from the City of Red Lake Falls to the City of Thief River Falls, which is situate in Township 154, North, of Range 43 West in said county and state; and proceedings have been begun to effect such change;

Now, therefore, notice is hereby given that the undersigned, legal voters of said county, with other legal voters thereof, desire to, and will, contest such proposed removal of the county seat of said county from its present location to said City of Thief River Falls, and to that effect, will, with other legal voters of said county, on Saturday, the 18th day of February, A. D. 1905, begin the circulation of a Remonstrance among the legal voters of said county, addressed to the Board of County Commissioners thereof, remonstrating against, and objecting to, the removal of the county seat of said county from the City of Red Lake Falls to the City of Thief River Falls aforesaid, and to any further proceedings in said matter; and will take such further steps as may be necessary in the premises.

Dated January 26th, 1905.

Notice of Abatement.

WHEREAS, a duly signed and verified petition has been duly presented to the City Council of the City of Red Lake Falls, praying for the vacation of the streets, alleys and public grounds hereinafter described, which petition is accompanied by a plat showing in green color the streets, alleys and public grounds proposed to be vacated, which petition the said city council has ordered to be filed with the city clerk, and which petition prays for the vacation of said streets, alleys and public grounds upon the grounds that The Saint Paul, Minneapolis and Manitoba Railway Company is the owner of all the property abutting on the parts of said streets, alleys and public grounds to be vacated, and desires to use that part of said streets, alleys and public grounds proposed to be vacated for the construction of railway tracks thereover and thereon:

Now, Therefore, notice is hereby given, that said petition will be heard by the City Council of the City of Red Lake Falls at a regular meeting thereof to be held in the city hall of said City of Red Lake Falls, on the 16th day of February, 1905, at 8 o'clock P. M., at which time and place all persons interested are notified to appear and be heard.

The streets, alleys and public grounds by said petition requested to be vacated are as follows:

All that part of Second street extending easterly from the easterly line of the alley in block two (2) of Champagne & Dow's addition to Red Lake Falls to the Clearwater river in said city.

All that part of Third street extending easterly from a line parallel with and twenty-five feet easterly from the easterly line of the alley running north and south in block eight (8) in said Champagne & Dow's addition to said Clearwater river in said city.

All that part of the alley in block nine (9) of said Champagne & Dow's addition easterly of the easterly line of lot nineteen (19) in said block.

All of the alley running east and west in the east half of block eight (8) of said Champagne & Dow's addition.

All that part of Saint John Avenue extending from the southerly line of [illegible] street to the northerly line of Fourth street in said city.

All that part of Fourth street extending easterly from the easterly line of St. John Avenue to said Clearwater river.

All that part of the alley between block seventeen (17) of said Champagne & Dow's addition and block four (4) of Champagne, Dow & Gieriet's addition extending from the northerly line of lot one [1] in said block four [4] southerly to the northerly line of Fifth street in said city.

All that part of Fifth street extending from the westerly line of block three [3] in said Champagne, Dow & Gieriet's addition easterly to the easterly line of Dow Avenue.

All that part of Dow Avenue in said city extending from the southerly line of Fifth street to the northerly line of Sixth street in said city.

All that part of Sixth street extending from the easterly line of Dow Avenue to the westerly line of the alley in block seven [7] of Champagne, Dow & Gieriet's addition.

All of the alley in block seven (7) in Champagne, Dow & Gieriet's addition.

All that part of Gieriet Avenue extending from the southerly line of Seventh street to the northerly line of Hamilton street.

All that part of of Sibley avenue extending from the southerly line of Hamilton street to the northerly line of Harrison street.

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 12, 1903, executed and delivered by Ben Gullick and Delia C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage;

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 507, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93, and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902; $12.00 on May 1, 1903, and a like amout annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $122.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee,
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903, at 2 o'clock p. m. in Book 15 of Mortgages, page 78.

And Whereas, The said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale [illegible] date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof.

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

Blame

No One But Yourself if You Don't Get Well When Sick.

All we can do is give advice.

Of course that's easy.

But our advice is really worth a little more to you than most people's, for we offer to give you the first bottle of our medicine free, if it fails to help you.

We could not afford to do this unless our medicine was good. Such an offer, on the wrong kind of medicine, would put a merchant prince in the poor house.

Dr. Miles' Nervine, however, as years of experience have proved, is a medicine that cures the sick.

Those whom it cannot benefit—less than one in ten thousand—we prefer to refund their money.

All we ask of you is to try Dr. Miles' Restorative Nervine for your complaint. If you suffer from sleeplessness, nervous exhaustion, dizziness, headache, muscular twitchings, melancholy, loss of memory, weak stomach, poor blood, bilious troubles, epilepsy, St. Vitus' Dance, etc., we will guarantee to benefit you or refund your money.

You are the doctor.

"My son Bert, when in his 17th year, became subject to attacks of epilepsy, so serious that we were compelled to take him out of school. After several physicians had failed to relieve him, we gave Dr. Miles' Nervine a trial. Ten months treatment with Nervine and Liver Pills restored our boy to perfect health."—MR. JOHN S. WILSON, Deputy Co. Clerk, Dallas Co., Mo.

FREE Write us and we will mail you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New, Scientific Remedy for Pain. Also Symptom Blank for our Specialist to diagnose your case and tell you what is wrong and how to right it. Absolutely Free. Address: DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

INDIA RUBBER.

The Second Voyage of Columbus Gave It Publicity.

The first notice of india rubber dates back 500 years, when Herrera, a Spanish historian, during the second voyage of Columbus, saw that "the natives of Haiti played with balls made of the gum of a tree, which were lighter and bounced better than the wind balls of Castile."

In a record published in Madrid, 1615, we are told: "There is a tree which the Indians call ulequahuitl, very high, with round, ashy gray leaves. It yields a milky substance, thick and gummy, in great abundance, which is collected and allowed to settle in calabashes and afterward softened in hot water or smeared over the body and rubbed off when sufficiently dry."

Even at that early date Spaniards used the juice of the ule tree to waterproof their cloaks.

The first accurate account of these gum elastic or caoutchong trees was furnished by La Condamine, who was sent in 1735 by the French government to measure an arc of the meridian near Quito.

It was introduced into Europe as a drug about 1730, and some fifty years later was used commercially as rubber for pencil marks and to waterproof clothing.

THE WATER LOTUS.

A Plant That Has the Power of Purifying Standing Water.

There is a plant growing in the southern waters of the United States which possesses the singular property of being able to render the most impure standing water perfectly healthy. The people of Louisiana and Mississippi call it the water lotus.

It consists of leaves about the size of the head of a pin and roots so fine as to escape notice save under a microscopic inspection. Where it grows at all, it covers the water and to the casual observer looks like a coating of green scum. The flowers and seeds are microscopic, so that its appearance in any given locality is not readily accounted for, but wherever it does appear the water beneath is always fit to drink.

So marked is this property that families using the water from bayous where the lotus is abundant are known to have better general health than those taking their drinking water from places where the lotus is not found. It is often transplanted into ponds, bayous and lakes, spreads with wonderful rapidity and never fails to do its work well.—St. Louis Globe-Democrat.

HOMES OF HEALING.

The History of Hospitals Begins With the First Century.

The temple at Epidaurus was founded by Antoninus Pius at the end of the first century A. D. in honor of Æsculapius, Homer's blameless physician. Beyond the sacred inclosure was a building for the reception of the sick and dying, which Strabo describes as a place renowned for the cure of all diseases, always full of invalids and containing votive tablets descriptive of cures.

About 380 A. D. a hospital was founded by Valens and richly endowed by him at Cæsarea, and another at Rome by Fabiola, a wealthy Roman widow, for the reception of the sick poor.

Basil is said by Gregory, the presbyter, to have built a large hospital for lepers with money collected for the purpose. The Hotel Dieu in Paris, founded in the seventh century, and two founded in 1080 by Lanfranc, archbishop of Canterbury, were both connected with monastic establishments. Bartholomew's, 1547, and St. Thomas', 1553, are the oldest hospitals in London and were both originally religious foundations.

Omens In Tea.

When the tea is made and the lid of the teapot is forgotten for a minute or two it is a sure sign that some one will drop in for the meal. Two spoons put by chance into the saucer of a maid or a bachelor denote that he or she will be married within a year. Putting cream into your tea before you sweeten it will bring you love troubles. A tea stalk floating in a girl's teacup is a "beau." She should stir her tea briskly and then hold the spoon upright in the center. If the "beau" be attracted toward the spoon and cling to it a gentleman visitor may be expected some time that evening. If, however, the "beau" goes to the side of the cup the visitor will not come that day.

Messages of War.

Among the natives of Australia notched and carved sticks are used for messages. For instance, a piece of wood carried from one village to another with straight and curved lines cut upon it is a message of war and means: "There is a fight on hand. Fetch your spears and boomerangs."

The North American Indians utilized wampum belts from time immemorial for like purposes. The arrangement of the different colored beads conveyed the signification desired.

Playing Safe.

"Look here, sir! You have been calling on my daughter every night for the past six months!"

"But I can't afford to get married, sir, and if I call on any other girl I'm afraid I might fall in love with her."—Smart Set.

What Did She Mean?

Alice—Yes, I accepted George at once. I knew when he proposed to me he was wholly unselfish. Bertha—Oh, nobody could ever have any doubt about that!—Boston Transcript.

The easiest way to get along with some people is to let them think they are right.—Atchison Globe.

BOSTON GOT ITS BEANS.

Absence of Favorite Dish Once Threatened City, But Striking Bakers Took Pity.

It has never been successfully disputed, says the Boston Watchman, that Bostonians are extremely addicted to baked beans (with their orthodox and inseparable companion, brown bread) and to pie. But no one has hitherto settled which of the two held the higher place, or, in other words, which is more necessary to the maintenance of truly Boston life at the proper point of culture and coldness. The decision of this delicate and difficult yet delightfully interesting question, which has successfully defied in the past both the literary skill and intellectual powers of the city, has been left for solution to the exigencies of the modern industrial problem. In the recent strike of 1,400 bakers Boston was compelled to go pie hungry for days. But when Saturday night approached and the dreadful possibility appeared of Boston being compelled to face a Sunday morning without baked beans, the hearts and consciences of the bakers were stirred, and they made a special and extraordinary effort to supply the city with its habitual Sunday morning breakfast, while no such emotion was elicited by the sufferings incident to the lack of pie.

Electricity not a Success.

Mr. F. Faerber, of Concordia Publ. House. St. Louis, Mo., writes: "Rheumatism cannot be cured by electricty. I have tried it for years. I used Gloria Tonic and it completely cured me." Sold by W. A. Schreiter.

Yet He Wasn't Tired of Her.

A certain English musician is a good story teller, according to a London journal, and has a fund of amusing personal experiences to draw upon. One of the great musician's best stories is about a provincial church organist who was once a pupil of his. The young man was appointed to an important church in the Midlands. In course of time he married. During his absence on his honeymoon his voluntaries were much missed by the congregation. They had always been appreciated and their renewal was looked forward to. "Imagine," says Sir Frederick Bridge, "the intense amusement of the people when the newly married organist gave as his first voluntary upon his return Handel's 'Waft Her, Angels, to the Skies.'"

Agonizing Burns

are instanly relieved, and perfectly healed, by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain, and healed it without a scar." Also heals all wounds and sores. 25c at All Druggists.

The Monocle Habit.

The single eyeglass, or monocle, never found many admirers in this country, and only a few transplanted Englishmen cling to it. An oculist, discussing the use of the monocle, said: "Dr. Kitchener back in 1824 thought it a good thing. He advised its alternate use, now in the right eye, now in the left one. He said in his book that he had cultivated the habit of picking up the glass each time he wanted to use it with a different hand. Of course picked up with the right hand it had to go into the right eye, and vice versa. As a matter of fact, the single eyeglass is injurious. It throws all the work on one eye. It destroys the harmony of the optic muscles and nerves. I know an Englishman who has worn for a myopic affection a monocle in his left eye for twelve years. The left eye is all right, but with the other the man can see practically nothing. The habit of the monocle continues to live among the English swells."

Failed.

All effort have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold by A. L. Reicnert.

A Marvelous Memory.

Cardinal Mezzofanti was possessed of a very wonderful memory, which he applied to the learning of a great number of languages. Lord Byron described him as "a walking polyglot, a monster of languages and a Briareus of parts of speech." He could learn a new language in the course of three weeks on occasion so as to be able to talk fluently with those whose tongue it was. At the age of fifty-four Mezzofanti knew fifty languages. Before his death he is said to have known seventy or eighty. More of these were European than most people would imagine to be the case. For instance, Wallachian, Illyrian, the Romani of the Alps, Lettish and Lappish figured among the twenties in his list, for the remainder of which he went to other continents. Mezzofanti's system of learning languages was simple enough where books were available. He read the grammar through, after which he was its master, for he never forgot what he had read. Many of his languages were learned from prisoners whom he visited in their affliction.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

German Military Expert Finds That Russia Has Most Men While Japan Is Strongest in Artillery.

After a careful compilation and close investigation by German army experts, the Militar Wochenblatt, of Berlin, gives what is probably the nearest estimate yet printed of the strength of the Russian and Japanese land forces.

On the Russian side it is calculated that the active field army at the present moment consists of 154,850 men and 386 guns; en route from Siberia, 35,700 men and 64 guns; being mobilized in Europe, 57,900 men and 188 guns; total, 248,450 men and 638 guns.

On the Japanese side the active army in the field is given as 152,500 men and 702 guns; in reserve, 74,000 men and 78 guns; total, 226,500 men and 780 guns.

Grave Trouble Foreseen.

It need but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She said: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under gunrantee by All druggists, at 50c a bottle.

"Flinch," "Somerset, and all the new card games at THE COURIER stationery store.

All Run Down

THIS is a common expression we hear on every side. Unless there is some organic trouble, the condition can doubtless be remedied. Your doctor is the best adviser. Do not dose yourself with all kinds of advertised remedies—get his opinion. More than likely you need a concentrated fat food to enrich your blood and tone up the system.

Scott's Emulsion of Cod Liver Oil

is just such a food in its best form. It will build up the weakened and wasted body when all other foods fail to nourish. If you are run down or emaciated, give it a trial; it cannot hurt you. It is essentially the best possible nourishment for delicate children and pale, anaemic girls. We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year, in Advance.

A FEW people seem to think it is all right for a newspaper to lie outrageously during a campaign, but that it is a crime to tell the truth after election.

OUR good friend of the St. Peter Free Press seems to think that every editorial utterance in the COURIER is dictated by the state administration. Bro. Miller seems to know what it means to wear a collar.

AN exchange remarks that the different percentage of voters who vote in the different cities and states is remarkable, and cites that in a recent election in Philadelphia only 45 per cent of the voters cast their ballots while in Colorado 145 per cent of the voters voted.

IT is said that when Benjamin Franklin first thought of starting a newspaper in Philadelphia his friends advised against it because there was a paper published at Boston. Some of them doubted that the country would be able to support two newspapers.

JOHANN HOCH, the bigamist and murderer, told some of the widows whom he married that he was a Bavarian count. Well, maybe he was. Anyway, it didn't take him long after the ceremony to count their money. He walked away with a St. Paul widow's $3,000 in two weeks and he never came back.

THE Thief River Press man is busy these days concocting bear stories and other imaginative, tales. According to the last issue the village up the river is to have 'steen new four-story brick blocks, seven new railroads and a league ball club. Sometimes a newspaper gets altogether too imaginative.

MISS ROSE MARIE SCHALLER, daughter of Hon. Albert Schaller, Democratic leader of the state senate, has been appointed to christen the new battle-ship Minnesota. Miss Schaller is from Hastings, and is reputed to be handsome and popular. Her selection by Governor Johnson will be pleasing to the people of the state.

HON. JOHN F. MCGOVERN, editor of the Wabasha Herald, mayor of his city, and a leading lawyer of southern Minnesota, died Sunday morning after an extended illness. McGovern was one of Nature's noblemen, and a talented man in the varied walks of life where duty called him. He was a loyal friend, and the members of the newspaper fraternity especially will miss his cheery voice and friendly counsel.

WHEN Red Lake county was organized nine years ago Thief River Falls did not want the county-seat. It did not even want Red Lake county. The leading business men of that place worked hand in glove with Crookston to prevent county division, and only thirteen votes were cast in that city in favor of division. It was worth a good deal for every resident of Red Lake county to be set off from Polk county. Are we now going to turn the county-seat over to those who were unfriendly to county division?

IN order to make a point in their favor the Thief River Falls papers have seen fit to wantonly insult every officer of Red Lake county, by charging that the county's affairs have not been economically or honestly managed. If this charge were true, why has it not been made before? It is not true, and the voters will not be duped. The voters are intelligent. They can read annual statements and get the figures for themselves. No county in the state is managed with better business tact and judgment.

AFTER a somewhat tempestuous career of a year and a half the Thief River Falls Review has decided to suspend publication, and the outfit and good-will of the defunct newspaper has been sold to F. E. Packard, publisher of the Thief River Press. The last issue of the Review will be made this week. The field at Thief River has been crowded with three newspapers, and the Review has never been a paying institution. Newspapers are generally considered a good thing, but there is such a thing as getting too much.

IF the average voter has the least idea of the cost of moving the county seat he will hesitate a good while before signing the petition to be circulated by Thief River Falls. Not only will the county property in Red Lake Falls be practically valueless, but practically every legal blank and every record book owned by the county will be useless in future. This item will mean the expenditure of nearly $10,000 to secure new books and supplies. Does the voter want to put the county $25,000 further in debt and increase his taxes in order to satiate the ambition of Thief River Falls? Is it worth the tremendous cost?

Two bills aimed at the railroad and other mergers have been introduced in senate by Senator George P. Wilson of Minneapolis. Both are similar to bills attemped two years ago. One provides that foreign corporations owning stock in corporations organized under the laws of Minnesota must appoint resident agents upon whom service of summons and other process can be had in this State. The other bill prohibits Minnesota corporations from holding stockholders meetings from the election of directors outside of the state. The penalty for violation of the charter of the offending corporations and a fine of $5,000 to $10,000 for each offense.

WHERE THE MONEY WENT.

Talk about raising high taxes, spending public money illegally, what about that twenty nine thousand dollars that the officials of Thief River Falls spent last year illegally, in buying "Soo" right-of-way? It was public money, and the law gave them no right to spend a dollar of it in the way they did.

Who got it?

Henry W. Lee, the great and good attorney who is now engaged in patching up second hand injunctions from an old Wisconsin stock, and advertising himself at the expense of the newspapers, got $150 of it March 24, 1904, in city order No. 3292, though he was then city attorney and knew or ought to have known he had no right to accept a cent of fees from the city outside his salary. Apparently he did not have the interests of the tax-payers as much at heart then as now.

The Thief River Falls Lumber company, managed by D. N. Winton, one of the city council, got $750 of it for a sale of right-of-way, though the law expressly says in section 51 of the city charter of Thief River Falls that no member of the city council shall make, vote for, or assist in making any contract between himself or any firm or corporation or company in which he is interested or an officer, and the city, and any such contract shall be void and the councilman forfeit his office.

D. N. Winton himself received $14 40 March 3, 1904, by city order No. 3282, for a trip to St. Paul.

C. L. Dobner received $30 of it on the same date in city order No. 3281, for the same purpose.

The rest of the $28,982.29 was spent in buying something they had no legal right to buy.

No wonder taxes are high in Thief River Falls, where public officials spend the people's money as recklessly as that.

No wonder they want to move the county-seat to Thief River Falls so that they can get a chance to spend the county's money, their own being all gone.

BETTER TO FORGET.

Sometimes a newspaper man will wander a long way from the truth to sustain a position which facts and circumstantial details make untenable. For instance the following squib is found in the Bemidji Pioneer of recent date:

"Now that he is safely confirmed state librarian, Brother King of the Red Lake COURIER finds courage to flay those who held up his appointment. He hasn't found time yet, however, to acknowledge the magnanimity of Lieutenant Governor Jones in making his confirmation possible."

This sort of criticism is unfair because the editor of THE COURIER has not "flayed" the senators who held up his appointment. On the contrary the affair has been treated just as any other news item of similar import would have been treated, and whatever of disappointment may have been felt personally because of the unnecessary and unjustifiable course pursued by two or three partisans in the state senate, this has not been reflected in the editorial columns of this paper.

Perhaps the editor of the Pioneer may not know it, but the editor of this paper is not now and never has been of a revengeful disposition. In the course of his duty as an editor of a newspaper he has criticised men and measures—severely, when the occasion seemed to him to demand it. But the Pioneer nor any other paper can truthfully assert that this paper has been guilty of using its columns to gratify a personal spite or a private grievance.

Another thing. If by reason of his course as editor of a newspaper the writer is disqualified to hold a position under the state government, then every Democratic editor of the state, and fully one-half of the Republican editors, are under the ban. Does the Pioneer wish to infer that three-fourths of the editors of the state are unworthy of public trust?

Lieutenant Governor Jones is deserving of credit for refusing to make a personal issue of a matter involving the appointment of an official by a Democratic governor. If he has been libelled by this paper he can secure redress or apology easily. If Mr. Jones or any of his friends will state wherein he has been unjustly assailed or persecuted by this he will receive generous treatment and sutiable apology. We do not believe that it would be either dignified or appropriate to offer fulsome praise to an official who has performed a public duty. We don't want an office badly enough to be subservient to the whim of any man. Furthermore, we do not believe Mr. Jones would ask it. The incident has been magnified beyond its deserts, and if the alleged friends of the presiding officer of the senate would follow the cue of Mr. Jones and forget the personal feeling involved it would be just as well for all concerned.

THE MOUNTAIN LABORED.

The Thief River Falls newspapers are making considerable noise over the fact that Auditor Ford and Treasurer Hansen issued and paid the warrants for the purchase of the court house property, and intimate that insofar as Auditor Ford is concerned at least the action was taken to deprive the Thief River people of the right of appeal.

A recital of the facts in the case shows that the entire proceeding was entirely within the law and in accordance with the ordinary business rules which govern the conduct of the county offices. At the January meeting of the board—or to be exact on Jan. 5—a bill was allowed to Ernest Buse in the sum of $2,370 in payment for the court house property. At the expiration of fifteen days this bill was payable by warrant, as were all other bills allowed at the last session of the board. Owing to the fact that Chairman Johnson was unable to come to Red Lake Falls to sign the warrants, Auditor Ford drove to Plummer on January 24—four days after the warrants were payable—to get the signature of the chairman to all of the warrants issued for bills allowed at this meeting. It was necessary, in compliance with the rules governing the payment of bills allowed, to have these warrants issued, and it was wholly within the right of Mr. Buse to demand payment for the property the county had bought. The fact that Mr. Lee had gone to Crookston to secure an injunction could have cut no figure one way or the other, but as a matter of fact Mr. Ford did not know such an injunction was contemplated.

Had the people of Thief River Falls wished to stop payment on these particular orders they could easily have done so by making formal protest to the auditor before the expiration of the fifteen days. This they did not do.

The entire proceeding is an exhibition of child's play on the part of Thief River Falls. The county officials know their duty, and they do not feel it incumbent upon them to wait five or six days after the expiration of the required time to pay warrants in order to give a Thief River lawyer time to enjoin them. And then the Thief River injunctions do not enjoin, anyway. The one brought by Mr. Lee was thrown out of court by Judge Watts, and would have been no bar to the payments of the warrants. The Thief River papers are making a mountain out of a mole hill.

Poisons in Food.

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at All druggists. try them.

CAUGHT BY THE GRIP. RELEASED BY PE-RU-NA.

MRS. FRED WEINBERGER.
MR. SILAS S. LINCOLN
HON. JAMES R. GUILL.
MISS ALICE DRESSLER
MISS JEAN COWGILL.
JUDGE HORATIO J. GOSS

"The world of medicine recognizes Grip as epidemic catarrh."—Medical Talk.

LA GRIPPE is epidemic catarrh. It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so a new word has been coined that exactly describes the case. As if some hideous giant with awful GRIP had clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

The following letters speak for themselves as to the efficacy of Peruna in cases of la grippe or its after effects.

After Effects of La Grippe Eradicated by Pe-ru-na.

Mrs. Fred Weinberger, Westerlo, Albany County, N. Y., writes:

"Several years ago I had an attack of la grippe which left my nerves in a prostrated condition. Then I had another attack of la grippe which left me worse. I had tried three good physicians but all in vain. I gave Peruna a trial. In a short time I was feeling better and now I am as well as anyone."—Mrs. Fred Weinberger.

Hon. James R. Guill of Omaha.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peruna in the following words:

"I am 68 years old, am hale and hearty, and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.

A Relative of Abraham Lincoln.

Mr. Silas S. Lincoln, who resides at 913 I. Street, N. W., Washington, D. C., has the honor of being third cousin to Abraham Lincoln. He writes:

"I had la grippe five times before using your medicine. Four years ago I began the use of Peruna, since which time I have not been troubled with that disease. I can now do as much work at my desk as I ever could in my life. I have gained more than ten pounds in weight."—S. S. Lincoln.

Pe-ru-na Not Only Cured La Grippe but Benefited the Whole System.

Miss Alice M. Dressler, 1313 N. Bryant Ave., Minneapolis, Minn., writes:

"Last spring I suffered from la grippe and was partially cured but the bad after effects remained through the summer and somehow I did not get strong as I was before. One of my college friends who was visiting me asked me to try Peruna and I did so and found it all and more than I had expected. It not only cured me of the catarrh but restored me to perfect health, built up the entire system and brought a happy feeling of buoyancy which I had not known for years."—Alice M. Dressler.

An Actress' Testimonial.

Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Stock Co. She writes the following:

"During the past winter of 1901, I suffered for several weeks from a severe attack of grippe, which left a serious catarrhal condition of the throat and head.

"Some one suggested Peruna. As a last resort, after wasting much time and money on physicians, I tried the remedy faithfully, and in a few weeks was as well as ever."—Jean Cowgill.

A Southern Judge Cured.

Judge Horatio J. Goss, Hartwell, Ga., writes:

"Some five or six years ago I had a very severe spell of grippe, which left me with systemic catarrh. A friend advised me to try your Peruna which I did, and was immediately benefited and cured. The third bottle completed the cure."—H. J. Goss.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

WHO "RUNS" THE COUNTY?

Our friends up the river came out last week in articles with flaring headlines on the "Red Lake Falls grafters" who "run" the county.

Does it not occur to you that the board of county commissioners control all county business, and that Red Lake Falls has never had a resident member on the board? On the other hand, one member of the board has always come from Thief River Falls. First K. M. Hansen, now county treasurer, then Louis Hanson, now ex-mayor of Thief River Falls, and then Dan Shaw, all from Thief River Falls, were respectively members of the county board. All the other members are farmers, and not one lived in either Red Lake Falls city or township. It is an unmerited insult to all these gentlemen to charge them with grafting, or with being controlled by Red Lake Falls, as the Thief River newspapers do. Of the other county officers, three—treasurer, judge of probate, and court commissioner—are from Thief River Falls, and the auditor formerly lived there.

It is true the coroner lives at Red Lake Falls, but we want to keep him to sit on the remains of the Thief Riverites when the voters have risen in their might and smote them hip and thigh.

State of Ohio, City of Toledo. } ss.
Lucas County

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

Sworn to before and subscribed in my presence, this 5th day of December, A. D., 1886. A. W. GLEASON, Notary Public [Seal]

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY & Co., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

NOTES IN MINOR CHORD.

Go to the Merchants State Bank for farm loans.

Get your valentines at Reichert's drug store.

For dress making call upstairs in Rue's house on corner of Main St.

Ralph Green is in from Equality township on a business visit today.

Call at Reichert's drug store and see the fine line of valentines displayed.

For Rent, I have three improved farms, near market, for rent. —P, B. Gaass.

V. M. Higinbotham and S. L. Lewis were at St. Hilaire on business Monday and Tuesday.

Graceful in instep and appearance is the chic style of "Queen Quality" shoes for women. $3.00.—Garceau & Zaiser.

The following letters remain unclaimed in the postoffice: Odilon Boissoneau, C. L. Clark, Geo. Hanson and Torger Hagen.

The secret of the good-will of many: They're made to wear—Red School House and W. L. Douglas shoes. See Garceau & Zaiser.

Editor Packard of the Thief River Press and Editor Iyes of the St. Hilaire Spectator were business visitors to Red Lake Falls last Saturday.

County Commissioner Louis Falardeau was in the city a few hours Monday enroute to his home in Lambert from a business trip to St. Paul and Crookston.

A popularity of the pool room in the J. B. Cigar company's store is so great that one table does not supply the demand and another will be installed next week.

The Woodmen lodge gave a dance party at their hall Tuesday evening. A large number of the members of the order and their ladies were present and a most enjoyable time is reported.

Theo. LaBissoniere left Monday on a business trip to Bemidji, Cass Lake and other points east of here. He will interest the merchants of those towns in the product of some of the Red Lake county cheese factorie's.

Dr. N. M. Watson was called to his old home at Williamston, Ont., Monday evening by a telegram announcing the death of his brother, Robert. The Doctor expected to get there in time to attend the funeral, which will be held Thursday, and hope to return home within ten days. The deceased has been ill for some little time and his death was not unexpected.

Perfect Safety

Is combined with convenience in our certificates of disposit.

When you have any sum of money not wanted for immediate use, you can leave it here and we give you a written agreement to pay it back at any time you want it. If you wish to leave it for 6 months or more, we will pay interest upon it.

Yov can draw out a part of it, or all of it, at any time, or turn it over to some other party, if you wish.

for Rent.

Fine line of fancy and cheap valentines at Reichert's drug store.

Treasurer Hansen visited with his family at Thief River Falls over Sunday.

The ladies of St. Mary's church will meet at the home of Mrs. Theo. Garceau Thursday afternoon, February 16.

P. B. Gaass returned Tuesday from a business trip to Armstrong and Estherville, Iowa. He was called there as a witness in a case in district court.

At the last meeting of the city council THE COURIER was again designated as the official paper of the city. All official publications will, however, be made in both papers.

The "rag ball" social at the Presbyterian church Friday evening proved a popular and profitable entertainment. A large crowd was in attendance and about $26 was netted by the ladies of the aid society.

Joseph Belair, the auctioneer, tells us that public sales are not very numerous this year. He is still in the business, however, and if anyone is looking for a competent auctioneer they should look him up.

A genuine blizzard is raging today, and the thermometer is getting down to a low point. The customary February thaw has not come along as yet, and at this writing there are no signs of its approach.

Mrs. I. D. Converse will entertain the ladies' aid society of the Presbyterian church next Wednesday afternoon, February 15, from 4 to 6 o'clock, at the home of Mrs. M. A. Converse. Lunch will be served, and all are invited.

H. H. Tompkins, state agent of the Citizens' Fire Insurance company of Mankato, has been in Red Lake Falls during the past week. His company has a large number of risks here, and has a splendid reputation for paying losses promptly.

H. H. Zaiser was a business visitor to St. Hilaire and Thief River Falls Tuesday. At the latter place he endeavored to interest the young ladies in the county-seat question, and it is rumored that one of them was persuaded that Red Lake Falls would be an ideal place to live.

The Nauman brothers, proprietors of the "Glen Oak" farm, secured six of the first prizes at the poultry show in Crookston last week. The boys are going into the chicken business quite extensively and are preparing to go after trade during the coming year.

Mrs. Chas. Kint will hold a public sale of all her live stock, farm machinery and household goods on the Dan Gerlach farm two miles south of Wylie on Thursday, February 16. It will be remembered that Mr. Kint died some three weeks ago and Mrs. Kint desires to dispose of all the property and return to the home of her parents near Doroty.

St. Hilaire Spectator: A petition was circulated last week asking the trustees of School District No. 102, St. Hilaire, to organize it into an independent school district. The trustees have the matter under advisement and will probably call an election for the near future. The state superintendent has been written to in regard to whether the change will affect the special law which gives one-half of the liquor license of the village to the school district. If this is not changed it is very probable the village will change to an independent district.

The Rebeckahs surprised their lords and masters of the I. O. O. F. lodge Saturday evening by marching in on them unawares with well-filled lunch baskets. Cards were played for several hours, after which luncheon was served and everybody went home satisfied that they had had a royal good time.

Teachers' examination was held Thursday, Friday and Saturday of last week at Red Lake Falls, St. Hilaire and Thief River Falls. Over a hundred persons wrote the examinations in the several places. At Red Lake Falls the examinations were in charge of County Superintendent McAnulty, at St. Hilaire Prof. J. B. O'Brien was in charge, and at Thief River Falls Prof. J. B. McGinnis.

The pile driver will have at least another month's work at the Great Northern fill in this city. Last week only 54 piles were driven, and the foreman says in good weather this many can be put in in a single day. The ground is frozen very hard, and it is necessary to use dynamite to get the piles started. The prospect of the train running by way of Dugdale by March 1 is not very promising.

A petition is being circulated among the business men at St Hilaire to raise money to hire a leader for the boys' band. J. G. Winkjer has had charge of the boys for the past six months and they will be without an instructor when leaves. It is understood that they will secure Prof. Onstad, of Red Lake Falls, one day a week. Prof. Onstad is a capable instructor and he would be a great help to them

E. M. Hoff, the well-known St. Hilaire merchant, was a business visitor to the county-seat Tuesday. In conversation with a COURIER representative Mr. Hoff says Red Lake Falls will get hearty support in his town on the county-seat proposition. He argues that the business men would pursue a very foolish business policy by enhancing the prospects of Thief River Falls, since that town is their nearest rival.

Julius Pleth, the Plummer land magnate, was in town on a business mission Monday. Mr. Pleth is greatly interested in the county-seat fight, and is championing the cause of Red Lake Falls industriously. Mr. Pleth figures that the removal of the county-seat to Thief River Falls would depreciate land values in his vicinity and in other ways be inadvisable. He says that everybody out that way is fighting for Red Lake Falls.

William Schwalen left yesterday for Stephen, Minn., where he will commence work for the Robertson Lumber company. Mr. Schwalen will be assistant at that place for a couple of months, but expects to be given a yard about April 1. He is well-posted on lumber grades and values and will make a valuable man for the company. The many friends of Mr. and Mrs. Schwalen will be sorry to learn of their prospective removal from Red Lake Falls.

Good
Bread
Sent
Free

Every woman who has a desire to make the best bread the family ever ate should send a postal card for our new illustrated booklet "Good Bread; How to Make It."

The Secret is in the Yeast.

It tells just how to use YEAST FOAM the wonderful compressed hop yeast that took the First Grand Prize at the St. Louis Exposition. Makes good bread from any flour.

NORTHWESTERN YEAST CO.
CHICAGO, ILL.

A. Goodrow is advertising a dance at Terrebonne next Saturday evening, February 11. The dance and supper will be free, but each participant is expected to take a chance on a raffle of Japanese fancy goods, and a charge of 50 cents will be made for the ticket. Some fancy dancing by a ten-year-old boy will be one of the features of the evening. A cordial invitation to attend is given to all.

Sometimes a man discontinues his local paper on the plea that he is not able to take it. When you come to consider it, the paper is about the cheapest thing you buy. It comes every week, rain or shine, and in the winter time one egg pays for it for a week. It costs less then a letter and if it is an honest paper it is your friend and help. It keeps you posted on many subjects of value to you and your friends.

Rev. Father Lacasse of Winnipeg is billed to deliver a lecture at St. Anthony's church in Terrebonne on Sunday evening, February 19. Father Lacasse is a humorous and interesting speaker, and his audience is sure to be pleased with the address. Tickets will be sold at 25 cents, and it is hoped that a large number of the Red Lake Falls people will take advantage of the opportunity to hear him. A feature of the evening will be the singing of a number of "Botell" songs.

It takes a hard blow at the pocketbook, such as a crop failure, to show some people the advantages of diversified farming. Every poor wheat year has been followed by greater attention to other crops in the localities where the failure was most felt. These experiences have taught the farmers that wheat land will do splendidly for other things besides wheat, and that some of the other crops bring more reliable returns.

Washington School Notes.

(Our reporters failed us this week.)

Edmund Porter has left school for a month.

The fifth grade has finished the study of the Plateau states.

Mr. Aiton, the state school inspector, made a visit to our building last week.

A large number of our pupils were absent a part of Thursday morning for church.

As long as there is snow on the hill nothing stops the small boy from sliding.

The school missed Laura Porier three days last week. She is very seldom absent.

The sixth grade geography class begin the study of the distribution plants this week.

Last Friday morning both the fifth and sixth grades were surprised with an arithmetic test.

The boy's week of recesses is now over and the foot ball is again being kicked about the grounds.

Fifth grade language papers have been received and some of us found out what we didn't know.

Our pupils are beginning preparations for a program to be given the day before Washington's birthday.

The fourth grade have been studying our country, taking up the locations of the new towns and railroads.

The fifth grade has dropped its history for the time being and spend that period of the afternoon with arithmetic.

Tuesday was so windy that it was hard to keep the building warm. It blew so strongly that the building fairly swayed.

This is the week of report cards and the faces of the pupils are smiling or scowling according as the marks are high or low.

Our second grade has become canoe builders and as a result of their handy work many very nice birch bark boats have been built.

The primary room which as a rule is filled to overflowing has dropped down to a very small number, during the cold months of the winter.

Our reporters failed to be wide awake enough this week to gather any news and the principal declares if it happens again the names of the lazy ones will be published.

Last Friday night was library night and many of the pupils stayed for books, more than there was books to supply. It is too bad our library for the Washington school is not larger.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Cough and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies, all others are mere imitations, H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.

Cures Sore Throat.

Sulphur and molasses are unpalatable remedies. [illegible] Balsam [illegible] preparation of honey, wild cherry, tar, [illegible] Best for children. Sold by [illegible]

FINANCIAL STATEMENT

—OF—

RED LAKE COUNTY. MINNESOTA.

For the Fiscal Year Ending December 31, 1904

OFFICE OF COUNTY AUDITOR, RED LAKE COUNTY,
Red Lake Falls, Minnesota, January 6, 1605.

To the Honorable Board of County Commissioners of Red Lake County, Minnesota.

GENTLEMEN: I submit to you herewith a statement of the financial condition of Red Lake County, Minnesota at the close of the fiscal year. December 31, 1904, showing the receipts and expenditures for the year, the cash balances in the different funds and the total amount to the County Treasury, together with a statement of the finances of the County at the end of the year, including all debts and liabilities, and the assets and other means of discharging the same.

Respectfully submitted,
JAMES E. FORD, County Auditor.

The foregoing statement prepared by the County Auditor is approved by this Board, and respectfully submitted to the taxpayers of Red Lake County.

Dated at Red Lake Falls, Minn., this 4th day of January, A. D. 1905.

O. J. JOHNSON,
JAMES SUTOR,
LOUIS FALARDEAU,
DANIEL SHAW,
WM. C. L. DEMANN,
Board of County Commissioners
of Red Lake County, Minn.
Attest: JAMES E. FORD,
County Auditor.

WITH OUR NEIGHBORS.

Water is a scarce article at Middle River.

An effort is being made to organize a brass band at Bemidji.

Wm. J. Bryan will lecture at Alexandria February 15th.

Typhoid fever recently wiped out a family of five living near Perham.

It is claimed a citizen of Fertile has discovered gold near that place.

Revival meetings just closed at Detroit were the means of adding fifty new members to the churches of the city.

The Warren fire company is making preparations to attend the fireman's tournament at Blackduck next summer.

A Polk county farmer recently killed seven wolves in one day and received $52.50 for his trouble. A good day's work.

Rev. Fulton, of Warren, and Rev. Nichol, of Thief River Falls, expect to go to India next summer to take up missionary work.

Crookston is now a recruiting station for Uncle Sam and those who desire to enter the service can be accommodated at that place.

Crookston business men have organized the American Biscuit company, with a $50,000 capital. A forty-barrel plant will be erected the coming spring.

February 27th the citizens of Thief River Falls will vote upon the proposition of the city issuing $28,000 worth of bonds for water works and sewerage system.

Fifty farmers living in the vicinity of Crookston have decided to open a co-operative meat market in that city so as to provide a market for their own produce.

A Bemidji lady recently took what she thought was cough medicine. It proved to be a remedy for neuralgia and contained poison. The prompt arrival of a physician saved her life.

County Surveyor Wood and Deputy Marshall E. Hays of St. Paul recently tramped around the state timber land near Middle River. It is thought they were on the track of parties appropriating state timber.

A seventeen-year-old boy living near Northland P. O., Polk county, recently purchased a money order at East Grand Forks for 33 cents. He raised the order to $85.33 and is now lodged in jail awaiting trial.

The famous Bessie Street artesian well at Crookston, recently completed, was dynamited one night last week and it is feared was completely wrecked. The outrage caused tremendous excitement and all the civil machinery has been started to land the miscreant.

The first annual convention of the Red River Valley Dairymen's association was held at Crookston last week. The meeting was largely attended and was a big success. The officers elected for the ensuing year were: President, T. A. Holestad, Crookston; Vice President, Geo. Gulmon, Thief River Falls; secretary and treasurer, Jas. W. Wilson, Thief River Falls.

A special to the twin city dailies dated Feb. 2 says that Albert Hyers, a farmer living near Carmel, was found dead in his yard last night, by Louis Kittleson, a neighbor. According to the story told by Kittleson he had been visiting with Hyers and had left for his home about 9 o'clock in the evening. Shortly after reaching home, he heard rifle shots in the direction of Hyers' place. Returning there he found Hyers' house in flames and the body of Hyers on the ground near a window of the house. The face was cut and blood was spattered on the snow near by. It is not thought that there was any foul play, the generally accepted theory being that after Kittleson left, Hyers filled up his stove and went to bed. The stove became overheated and set fire to the house. Hyers waking up, dazed and blinded by the flames and smoke threw himself through the window, and received the injuries which caused his death. He had a gun and cartridges in the house which were probably exploded by the heat. Hyers was a single man and quite well to do. His relatives reside in New York.

AMONG OUR EXCHANGES.

Windom Reporter: When a man steals a kiss from a pretty girl he considers it justifiable larceny. A newspaper that hasn't a "liar" on its staff is called a dull article, by the most scrupulous.

Lakefield Standard: That some people will not hesitate to get up in prayer meeting and tell what awful sinners they are, but if anybody else should tell them the same thing they would get terribly mad about it.

Crookston Times: According to a contemporary, an epidemic of old age is raging in the United States. Doctors disagree as to the species of the germ to which it is due; but even when that point is determined it is doubtful if there will be any prizes offered for an anti-toxin.

St. Peter Herald: If one did not know that Eb C. Huntington had gone to Arizona and Mexico on a trip to last some weeks, he would never suspect that a temporary change had been made in the editorial management of the Windom Reporter. The Misses Huntington take up the work without a tremor, but then they come naturally by their talents.

Slayton Gazette: Having suffered two defeats in one year, Jim Martin comes out victorious in his third attempt. As manager of Judge Collins' campaign he went down to defeat before the forces of Bob Dunn in the Judge's effort to capture the nomination for governor. Later he managed Bob Dunn's campaign for the governorship but again went down to defeat before John A. Johnson. All this time he was working for others. Recently he became a candidate for postmaster of St. Cloud, his home city, and has won out.

Adrian Democrat: The Pittsburg Gazette is hot against the paper trust, which has jerked up the price of white newsprint about 25 per cent in the last few years. The Gazette is hot because of the imposition upon the dear people, of course, and benevolently remarks "Every newspaper reader in the country is interested." Verily. But this same Gazette is a republican paper, and advocates the very thing which gives the paper trust its power—the tariff. It would revise the tariff in just the one point in which it hurts itself, but as to the others, why, let every fellow look out for himself.

St. Peter Herald: Labor Commissioner Williams finds that there is a deplorable lack of system in his department. Factory inspectors and other employes are not required to go to their chief for their salaries but draw their own warrants and have them cashed by the state auditor. In one instance, which is cited, an inspector has done nothing since election but draw his salary and it will be necessary to pay another man to do his work. The democratic appointee will ask for legislation that will give him the power to regulate the movements and salaries of his subordinates.

Albert Lea Standard: Representative Elmer E. Adams of Fergus Falls, has introduced a bill in the house making it unlawful to sell lumber which is not of the size and dimension which it purports to be. The bill is aimed to stop the present practice of sawing lumber from a quarter to a half an inch less than the size which it is sold and billed for. He contends that it is the regular practice to do this in this state and that inspectors call down a mill when it saws too thick. Mr. Adams takes the position that there is no more reason for allowing lumbermen to give short measure than there is for the milkman or grocer. The retail lumber dealers who meet the people that use the lumber would be glad to sell honest measure lumber if the mills would only saw it.

A Mean Man.

Sometimes we wonder what a mean man thinks when he goes to bed says an exchange. When he turns out the light and lays down. When the darkness closes in about him and he is alone, and compelled to be honest with himself. And not a bright thought, not a generous impulse, not a manly act, not a word of blessing, not a greateful look comes to bless him again. Not a penny dropped upon the outstretched hands of poverty, nor the balm of a loving word dropping into an aching heart; no sunbeam of encouragement cast upon a struggling life; the strong right hand of fellowship reaches out to help some fallen man to his feet—when none of these things come to him as the "God bless you" of the departed day, how he must hate himself. How he must try to roll away from himself and sleep on the other side of the bed. When the only victory he can think of is some mean victory, in which he wronged a neighbor. No wonder he always sneers when he tries to smile. How pure and fair and good all the rest of the world must look to him, and how cheerless and dusty must his own path appear. Why, even one isolated act of meanness is enough to scatter cracker crumbs in the bed of the average man, and what must be the feeling of a man whose whole life is given up to meanness.

There's pretty girl in an Alpine hat,
A sweeter girl with a sailor brim,
But the handsomest girl you'll ever see
Is the sensible [illegible] who uses Rocky Mountain Tea. A. L. Reichert.

KNOCK OUT CATALOGUES.

Home Merchants can do so by Publishing Price Lists.

This is the season of the year when the catalogue houses are getting in their work. Catalogues and price lists are sent broadcast over the country. They bring about a conditon that the local merchant must meet. On a page of articles enumerated in one of the catalogues, together with the price, we saw a comparison made upon the same artical in a home store. Upon the whole list the home merchants beat the catalogue price about a half a dollar. These figures were the retail prices of the home men. Upon some goods the catalogues was the cheapest but on the entire page list the home merchants were the cheaper.

We don't believe that any considerable number of people prefer to trade away from home unless they believe they can make money by doing it. It is of no use to roast the house that sends out the catalogues, nor the man who orders goods from it. What then can be done? Simply meet the condition The merchants must publish in the newspapers price list of their own. The catalogue prices can be met at home. If it is profitable for a foreign concern to advertise prices why should it not be profitable for the local merchant to do the same thing? Use the same weapon that is being used against you. It is, we believe, the solution of the problem. These people see these prices grouped in a way to make them look attractive. They don't know the home merchant's prices. They go to the store and perchance ask for an article that happens to be above the catalogue price and from that conclude that all things are dearer. Give the people the price of the article—not one but many—all if possible, and the catalogue business is killed.

THE CITY COUNCIL.

Regular Meeting Held February, 2, 1905.

Regular meeting of the City council held at the city hall, Feb'y 2nd 1905.

Meeting called to order by Fred Borchers, president.

Roll called. Aldermen all present except Crompe.

Minutes of previous meeting read and approved.

On motion duly carried the following bills were allowed:

I Lemieux, street work	$ 1 00
Joseph Salley, coal	14 30
Red Lake Courier, city printing	41 53
Sam Allard, tending to fire engine	3 00
James Brady, street committee work	25 00
Dr I Lemieux, ass't health officer	10 00
Nick Drees, cleaning city well	44 00
John Deforge, street and bridge work	8 25
Piere Cartier, street and bridge work	2 40

The joint bid of the Courier and Gazette for city printing for the year 1905 was on motion duly accepted.

The following resolution was offered by Alderman Hatten and seconded by Alderman Hennemuth:

Resolved that a reward of 510.00 be and the same is hereby offered and agreed to be paid to any person who shall furnish information resulting in the conviction of any person or persons for stealing lumber or timber from the saw mill in the city.

Upon roll call, the following aldermen voted aye:

Hatten, Hennemuth, Brady and Borchers.

Nays: None.

Whereupon the resolution was declared adopted.

On motion duly carried, Joseph Helm was allowed to set up a gasoline engine to pump water from the city well for one day on trial for the sum of $7 50.

On motion meeting adjourned.

FRED BORCHERS,
President.

Approved this 8th day of February, A. D. 1905.

J. A. DUFFY,
Mayor.

Attest:
A. P. TOUPIN,
City Clerk.

Wood For Sale.

I have for sale, cheap, a quantity of green poplar poles close to town. The poles are cut and piled up, a good load to a pile, and handy to get at. Do you want some? P. O. Floan at Bank of Red Lake Falls. 1

Fast Tourist Car Service to California.

The Chicago Great Western Railway in connection with the C. R. I. & P. Railroad will run a through tourist sleeping car every week to San Francisco. Leaving Minneapolis at 8:00 p. m., St. Paul 8:30 p. m., Tuesday via Omaha, Colorado Springs and Ogdon. Arrive San Francisco Saturday 5:20 p. m. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A. Chicago, Ill. f28

Good Roads.

In every part of the country good roads are a recognized necessity of progressive communities and gives them their standing. It is the excellence of the equipment and the finely ballasted roadbed that has given the North-Western Line its envyable position in the railroad world and attests its progressive spirit. The magnificent electric lighted North-Western Limited speeds its way from Minneapolis and St. Paul to Chicago every night and comfort is assured by the even roadbed of this line and the perfect appointments of this famous train.

BADGER.

Telesphore Ducharme drove to Red Lake Falls Monday.

Mr. Ovila Robillard drove to the Falls Monday on business.

Mrs. Ephraim Morinville is reported quite sick this week.

Mr. Delore Champeau drove to the Falls Saturday on business.

Mr. and Mrs. Damasse LaChance were callers at the Falls Monday.

Mrs. Elie Perrault of Terrebonne was a guest of Mrs. A. Laurent Monday.

The farmers around here are now busy hauling wood while the roads are good.

Mr. and Mrs. Adelard Laurent spent Monday evening with M. Quesnell.

Mr. and Mrs. Joseph Ducharme entertained a few of their friends Friday evening.

Miss Angeline Ducharme entertained quite a number of her friends Sunday afternoon.

Albert Ducharme, of Perrault Station, was a business caller here Monday morning.

Charlie Charebois one of E. Quesnell's carpenters visited at his home in McIntosh over Sunday.

Mr. and Mrs. Ovila Robillard were guest at the home of Dolphis Champeau Sunday evening.

Mr. and Mrs. A. Laurent and daughter Cora, were guest at the home of Xavier Sauve Sunday.

Mr. Willie St Yves of Crookston called on friends and relatives here on his way home from Terrebonne.

BILIOUSNESS AND CONSTIPATION CURED BY THEDFORD'S BLACK-DRAUGHT

Because the liver is neglected people suffer with constipation, biliousness, headaches and fevers. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown.

Thedford's Black-Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and virulent contagion results.

Timely treatment with Thedford's Black-Draught removes the dangers which lurk in constipation, liver and kidney troubles, and will positively forestall the inroads of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 25c. package of Thedford's Black-Draught.

HISTORICAL SOCIETY

RED LAKE COURIER.

VOL. VII—NO. 19. RED LAKE FALLS, MINNESOTA, THURSDAY, FEBRUARY 16, 1905. WHOLE NO. 331.

THIEF RIVER'S FAKE OFFER.

What it Really Means—A Court House Offer that will not Stand Investigation.

Thief River Falls people are spreading circulars throughout the county showing that their city council has offered to give the city hall to the county for ten years free, or for the nominal rent of one dollar per year.

This is an insult to the intelligence of Red Lake county voters. Do the Thief River Falls people believe that the voting class of our county are such an ignorant, gullible lot that they will swallow a fake of this kind as the truth and vote blindly for the crooked city up river?

Anybody knows, who is in the least acquainted with the law, that the city council could not give away public property of its tax-payers to the county if one single tax-payer or kicker should object—and Thief River Falls is full of kickers. Suppose the voters should believe in this fake, and on a vote the county seat should be changed to Thief River Falls. Then, when everything is going lovely, some one of the already overburdened tax-payers of Thief River Falls, or one of the cute ones who would like to see a fine new court house there, gets an injunction from the court preventing the city council making the gift to the county. At once the county is without a home. With a good enough court house at Red Lake Falls it has none at the new county seat! What happens? Why, the result will be Thief River Falls will induce the county to spend fifty thousand dollars of your money in building a new court house in that cute and crooked city.

Voters, can't you see the "nigger in the wood pile?"

Read their offer over. What does it amount to anyway? "Resolved that * * the city hall building, new jail building and offices WILL BE furnished to the county of Red Lake."

"Will be"---is there anything binding about it? Any lease, any bond, cash or security to the voters that this generous city council so willing to give away what does not belong to them, will not change its mind, or be compelled to by a court? What would they lose, if after you had voted the county seat to Thief River, they changed their minds and refused to make the gift? Nothing but a little sleep. Is there any way you could force them to make good? They could put on a sober face and tell you "We meant well, but we've just found out its illegal and can't be done."

Then you would have to build a court house.

Interests Lumbermen.

Senator Stephens of Crookston, has introduced a bill of importance to the lumbermen on the Red Lake river. The bill provides that logging and boom companies may acquire booms and dams in streams, shore rights, and right-of-way, and may improve streams for general logging, provided navigation is not interfered with.

It makes no difference how many medicines have failed to cure you, if you are troubled with headaches, constipation, kidney or liver troubles, Hollister's Rocky Mountain Tea will make you well. A. L. Reichert.

A NEW HOME.

Bank of Red Lake Falls moves into New Building.

The Bank of Red Lake Ralls moved from the old building they have been occupying near the court house into their new brick building on Main street Tuesday. The new home of the firm is a very complete one and has all the modern conveniences. The building is of brick and stone, is well located and will make a cheerful and commodious place of business. The first floor will be occupied by the bank and the Sortedahl Land & Loan Co. while the second floor will be used for offices, etc. The basement also contains two very comfortable rooms which will be leased. A hot water plant furnishes abundant heat for the occupants of the building, which, with the other pleasant features, makes the structure a most desirable office building.

A Pleasant Surprise.

A number of friends surprised H. J. Kaufer at his home Monday evening, the occasion being his fifty-first birthday. A most enjoyable evening was spent at cards, W. T. Spillane and Miss Tillie Kaufer winning the first prizes and Mrs. Wm. Findeisen the booby prize. A dainty luncheon was served, and before the party departed Mr. Kaufer was presented with a handsome cup and saucer of fine Japaneseware a reminder of the occasion. Those present were: Mr. and Mrs Wm. O'Brien, Mr. and Mrs. Wm. Findeisen, Mr. and Mrs. L. A. Kaufer, Mr. and Mrs. W. A. Schreiter, Mr. and Mrs. W. T. Spillane and Miss Tillie Kaufer.

A Menace to Health.

Kidney trouble is an insidious danger, and many people are victims of a serious malady before the symptoms are recognized. Foley's Kidney Cures correct irregularities and strengthen and builds up the kidneys, and it should be taken at the first indication of kidney trouble, as it is impossible to have good health if the kidneys are deranged. Sold by A. L. Reichert.

A NEW LODGE.

Red Lake Falls to Add Another Lodge to its List.

Arthur A. Fider, an organizer for the Modern Samaritans, has been in the city the past ten days and has succeeded in interesting a large number of our citizens in the order. It is said a local lodge will be organized this week or next, and that there will be between forty and fifty charter members. The order is comparatively new but has made wonderful progress and is daily adding new members. It is a Minnesota organization, originating at Duluth where the head officers reside.

New Law Firm.

Attorneys Thos. Germo and Fred L. Farley have joined forces and will hereafter do business under the firm name of Germo & Farley. The new firm has offices in the new building of the Bank of Red Lake Falls, where they will be glad to see their many friends and clients. Mr. Germo is county attorney and has made many friends since he cast his lot in Red Lake county five years ago. He has a large acquaintance, has the reputation of being thoroughly reliable, and enjoys a lucrative practice. Mr. Farley has been a citizen of Red Lake Falls since last July and has made many friends since his arrival. He has been practicing law the past twelve years in Minnesota, and his long experience and knowledge of law will add strength to the new firm.

Special Meetings.

Rev. Knox of the Presbyterian church announces that Miss Anna E. Smith and Miss Nellie Read, evangelists employed by the Minnesota Synod of the Presbyterian church, will hold revival services at his church beginning March 19. These young ladies have been very successful in their work, and have had a following wherever they have been. Miss Smith conducted very successful meetings at Thief River Falls last year and also at Crookston two years ago. She begins another union evangelistic campaign at Crookston next Sunday. The local church is very fortunate in securing these two talented evangelists, and their visit will no doubt be the means of doing much good for the church and the people generally. It is expected these special meetings will continue two weeks, and an early announcement is made that all may arrange to be present.

WANT A BRIDGE.

Red Lake and Polk Co. Farmers Want a Bridge at Huot.

Red Lake and Polk county farmers residing in the neighborhood of Huot are preparing petitions to the legislature asking that the state law makers appropriate a sum of money for the erection of a bridge at Huot to replace the ferry which is now employed in crossing the Red Lake river at that place. The farmers are enthusiastic over the matter and are signing petitions liberally and intend to push the matter through at the present session if possible. It was learned yesterday from farmers in the city from Huot that the support of Senator A. D. Stephens and representative L. C. Simons had been pledged to the proposition and that an appropriation was fully expected.

Should the deal go through it is quite likely that the old Jeromes addition structure now being stored in Crookston will be erected upon the sight of the present ferry.

WITH OUR NEIGHBORS.

Barnesville was nineteen years old last week.

Crookston sets out to make it 20,000 by 1920.

The Fosston creamery is being advertised for sale.

Wadena is having a lively fight over the saloon question.

Morrison county has outstanding orders to the amount of $42,000.

Several cases of smallpox are reported in a lumber camp near Blackduck.

Fertile people are all worked up over getting the Great Northern to build into their town.

Arrangements are being made to hold a farmers' institute at Fertile sometime next spring.

Middle River has gone dry but there is no cause for alarm as the river is referred to—not the town.

A number of Wadena people are contemplating moving to Oklahoma, Indian Territory and Texas next spring.

Henry Brown, a resident of Todd county for the past thirty-five years, died at his home in Long Prairie last week.

Mrs. Haugesland, an old lady seventy-five years old, living in eastern Marshall county, killed a large wild cat one night last week with a stick.

The Clearwater county commissioners at their last meeting decided to submit a proposition to the voters at the spring election to bond the county for $15,000.

A prominent lady of Crookston was caught shoplifting in the New York store the other day but owing to the prominence of her family no arrests will be made.

The historic "Irish farm" up in Marshall county, consisting of some 3,500 acres, has been sold to Illinois parties. It is rumored that the tract will be colonized by Dunkards.

The general store of L. Johnson & Co., at Tabor, Polk Co., was destroyed by fire Wednesday night of last week. The post office was located in the building and considerable mail matter was destroyed.

The clerk of courts down at Fergus Falls forgot and locked his vault door last Saturday night and as the directions for opening it were on the inside, business of the office was suspended the following Monday.

The Bemidji council has decided that public money cannot be used to reimburse citizens of that town who guaranteed $10,000 for terminals for the Red Lake and Manitoba railway which is going to build into Bemidji.

Dr. Oppliger, of Warroad, believes this section is admirably adapted for raising sugar beets. He says the summers are similiar to those of northern Germany, the birthplace of the beet sugar industry, and that the soil is of the same character. Farmers near Warroad will try the experiment in a small way the coming season.

For Rent—I have three improved farms, near market, for rent.—P. B. Gaass.

IS TEACHER AND FARMER.

Supt. of Red Lake Indian School a Busy Man.

Superintendent Norman of the Red Lake agency Indian school is a man of many responsibilities. He is not only the head of the school, but manages a farm of sixty acres which is worked by the children of the school, sees to the care of a dozen head of stock, manages a commisary department that is as large as a good sized general store, runs a laundry, keeps a wood yard and is captain of a steam boat.

Some ninety pupils are now enrolled at the school and there would be more were it not for the grandfathers who are the greatest obstacle in Indian education.

Each day in the school room is alternated with a day devoted to industrial work and results show that the children are making good progress in each line.

Washington School Notes.

Lemora Garceau and Henry Lundquist reporter.

Gisela Helm is absent on account of sickness.

Edward Hunt and Donald Marshall were sick the first of the week.

Walter Garceau visited the Washington school Monday morning.

Laura Poirier was absent last Tuesday on account of sickness.

The fifth grade will begin studing the United States dependencies this week.

Tuesday was valentine day and all the rooms had post offices. Many nice valentine were sent.

Lucy Mathias and Robert Poirier were absent a half a day last week, for the first time this year.

The A class of the second grade have begun to read the last story in "Martha's Corner Cupboard."

The second grade made Chinamen and some of them were kept for visiting day at the high school.

Last Wednesday the outside door blew shut and locked and a few of the boys were late at recess.

Inez Hansen could not see the valentine box in the second grade, We are sorry to hear that Inez is sick.

Last Friday was Library night, and Mr. Chamberlain sent us over some new books and so we had plenty to supply.

Freda Shultz has been absent for a few days on account of sickness. This is the first time she has been absent or tardy this year.

The fourth and fifth grades of the Washington school are going to work hard this month and try to get the banners away from the fourth and fifth grades of the LaFayette school.

Last Thursday Prof. Chamberlain visited our school and he and Mr. Healy {tried a new experiment in reading. The fifth and sixth grades all read at the same time the pupils were paired, or in twos, and they read aloud to one another. In this way every one had a chance to read about a half an hour where they usually have two minutes, It was a little like a chinese school but it worked well.

A Giant Cattle Buyer.

Iver Davidson of Zembrota, probably the biggest man in Minnesota, is purchasing cattle in this part of the state. Davidson stands six feet ten inches in his stocking feet and is proportionately large. He attracts considerable attention wherever he goes and traveled with Barnum's circus for a number of years.

The secret of the good-will of many; They're made to wear—Red School House and W. L. Douglas shoes. See Garceau & Zaiser.

O'Brien Bros.

The Popular Hardwear Dealers.

MANNERS IN BUSINESS.

Brains and Good Deportment a Winning Combination.

The value of brains in business cannot be overestimated, of course; but neither can the value of manners. Don't make the error of supposing that brains are everything. You may have the best set of brains in the town, but if you haven't the manners of a gentleman nobody is going to appreciate you. Your manner is the outward indication of what you are within in the estimate of most people, and if the manner is disagreeable few will take the trouble to examine into you any further.

The consensus of general opinion is that the man who goes about with porcupine quills as his manners hasn't any brains worth bothering about. Did you never notice that the men who employ large forces of intelligent people look at an applicant closely, ask a few seemingly unimportant questions and promptly employ or dismiss him? They don't sound his brain depth; they don't obtain his biography; they don't inquire into his social standing; they size him up from his manners, and if he is brass on the surface they don't look for gold within.

The employer knows that if an applicant's manner strikes him favorably it will also favorably strike people with whom he comes in contact in his work. And nobody knows better than a big business man that a favorable first impression means half the sale. People are apt to think that if there is any place where manners are of little consequence it is in business, where cold calculation so largely takes the place of feeling. But the truth is that nowhere else are manners of such importance as in everyday dealings. There is no capital and equipment any young man can have that will pay him better than good manners. There is no possible calling for which this does not better fit him. If he has brains the world owes him something, but unless he has good manners he will have a hard time collecting it.—Kansas City World.

A WHISTLER PICTURE.

The Dramatic Manner of Its Finish and an Anticlimax.

Whistler was one day visited by a foreign artist, an old acquaintance, with whom Whistler had not as yet quarreled. He was received with genuine cordiality, and, artist-like, he ran round the studio looking at everything. One small picture seemed to charm him especially, and he said, "Now that is one of your good ones." "Don't look at it, dear boy," said Whistler airily, "it's not finished." "Finished!" said the visitor. "Why, it is the most carefully finished picture of yours that I have ever seen." "Don't look at it!" persisted Whistler. "You are doing injustice to yourself, you are doing injustice to my picture, and you are doing injustice to me!" The visitor looked bewildered, when Whistler, in a theatrical tone, cried out: "Stop! I'll finish it now!" Then he procured a very small camel's hair brush, fixed it on a long and slender handle, mixed a little speck of paint on his palette, dipped the tip of his brush into it, and then, standing off from his picture and with the action of a fencer with his rapier, he lunged forward and touched the picture in one spot with his pigment. "Now it's finished," said he. "Now you may look at it." This was all highly dramatic, and indeed very well acted, but, as in the case of some stage plays, the final act of Whistler's performance proved to be an anticlimax. The foreign artist took his leave, but, finding that he had left his umbrella behind him, called for it next day. The servant, recognizing him, told him that Mr. Whistler had gone out for the day, but invited him to go to the studio and seek his umbrella. He went there and found it, but also took the opportunity of having one more look at the picture which had been "finished" for his special benefit the day before, and then he saw that the little dab of wet paint which Whistler had so dramatically put on he had afterward scrupulously wiped off again!—Frederick Keppel in The Reader.

Hidden Water Supply.

The investigation of a neglected spring or rivulet may bring to light a valuable supply of water for gardening or domestic purposes. A surprising quantity is often obtainable by installing a ram at some seemingly insignificant source. A ram is cheap, because the first expense is the last, there being no cost of maintenance, and it is satisfactory, because the ram requires no attention. Once started, it takes entire care of itself.—Country Life In America.

Twenty Shots In His Head.

At the present time there is a keeper on a Hertfordshire estate who has about twenty shots in his head. Nearly thirty years ago this man was accidentally shot by an under keeper, and there were twenty-two holes in the hat he wore, which is preserved to this day. The injured man never had the shots extracted, was long between life and death and completely lost his hearing.—London Standard.

Qualified Approval.

"How did you like the opera?"

"First rate," answered Mr. Cumrox. "I didn't care much about the tunes they played, but it was a great comfort to have enough noise to drown the vacuous conversation that was going on around me."—Washington Star.

A Looking Glass.

Mr. Crittick—Miss Artz tells me she does most of her painting now on glass.

Miss Spertz—I think she means with the aid of a glass.—Exchange.

A good name is rather to be chosen than great riches, and a loving favor rather than silver or gold.—Solomon.

Humor and Philosophy

By DUNCAN M. SMITH

Copyright, 1904, by Sampson-Hodges Co.

THE BOBSLED.

The old fashioned sleigh, with the box full of hay,
For runners a pair of rough, unpainted bobs;
A steady old team, with just enough steam
To jog down the highway and jolt over knobs,
And huddled together in crisp winter weather
A party of young folks warm, happy and bright—
Oh, that was a pleasure forever to treasure,
To talk about still on a cold winter night!

With blankets and wraps of buffalo perhaps
And plenty of comforts to keep out the frost
You sped down the road a live, joyous load,
Your laughter and shouts in the distant hills lost,
And then when the moon made midnight as noon
The horses turned homeward, the wind might be raw,
But who would complain when each country swain
Was nestled down close to a girl in the straw?

The bright modern sleigh is chipper and gay;
Its outline is graceful, its regular curve
Is pleasant to spy, and as it sweeps by
Behind a swift roadster you pause and observe.
A flash! It is gone, and then you jog on,
And as in the distance its form fades away,
Wherever you are your mind wanders far
To the old fashioned sled with the box full of hay.

Had the Evidence.

"Did you know that the Ables were among the first families in New York?"

"That is news to me. I never see their name in the society columns."

"No; but if you will look in the directory you will find them on the first page."

Knocks the Romance.

To take a trip aboard a ship
Across the broad Atlantic
And sail and sail through calm and gale
Is said to be romantic.
But when in pain with might and main
Seasickness you are fighting
And long for land on which to stand
The romance goes a-kiting.

Thinking of the Present.

"Johnny, what becomes of little boys who tell lies when they grow up?"

"I don't know, but when they are small they escape half of the lickings."

Its One Advantage.

Oh, love within a cottage
Is certainly all right,
But love within a humble flat
By some is rated to beat that;
There isn't room to fight.

Traded Laps.

She was raised in the lap of luxury
On a strictly modern plan,
But when she grew up she preferred to sit
In the lap of a nice young man.

He Had a Guess.

"Did he marry her for her money?"

"Well, I like to be charitable, and still I would hate to think that the young man was not bright."

Beautiful eyes and handsome face are eloquent commendations. Bright eyes are windows to a woman's heart. Hollister's Rocky Mountain Tea makes bright eyes. 35cents, Tea or Tablets. A. L. Reichert.

ITCHING ECZEMA

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair. I began S. S. S. doubtful of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. F. C. NORFOLK.

1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent.

SSS

S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.

Notice of Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a certain mortgage dated Dec. 22, 1903, executed and delivered by Ben Gullick and Della C. Gullick, his wife, as mortgagors, to Earle F. Andrus, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on January 4, 1904, in Book 14 of Mortgages, on pages 173 and 174, and

Whereas, the note described in said mortgage bore even date therewith, was made by said mortgagors, was for $88.60 and was payable to the order of said mortgagee in installments as follows, to-wit: $4.60 on May 1, 1904; $12.00 on May 1, 1905, and a like amount annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $4.60 payable on May 1, 1904, has not been paid, and by reason of said default said total amount of $88.60, with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $98.00 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage,

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and State of Minnesota, and are described as follows, to-wit: The West half of the Southeast quarter of Section thirteen and the North half of the Northeast quarter of Section twenty four, in Township one hundred and fifty North, Range forty-three West of 5th P. M.

Dated January 3, 1905.

J. M. HAWTHORNE,
Attorney for Mortgagee.
409 & 410 Court Block,
j5-f16 St. Paul, Minn.

Notice of Mortgage Foreclosure Sale.

Whereas, Default has been made in the conditions of a certain mortgage dated April 3, 1902, executed and delivered by H. H. Tompkins and Mary A. Tompkins, his wife, as mortgagors, to R. J. Malone, as mortgagee, which mortgage was recorded in the office of the Register of Deeds of Red Lake County, Minn., on July 19, 1902, in Book 19 of Mortgages, on page 507, and

Whereas, the note described in and secured by said mortgage bore even date therewith, was made by said mortgagors, was for $108.93, and was payable to the order of said mortgagee in installments as follows, to-wit: 93 cents on May 1, 1902: $12.00 on May 1, 1903, and a like amout annually thereafter until the whole sum was fully paid, without interest if each installment was paid when due, but if any of said installments should not be paid when due then all unpaid sums therein agreed to be paid should become due and payable at once and bear interest at the rate of ten per cent per annum from date of said note and mortgage until paid. That the installment of $12.00 payable May 1, 1904, has not been paid, and by reason of said default the total balance on said mortgage of $96.00 together with interest as aforesaid, is due and payable, and that the amount claimed to be due and which is due on said mortgage at the date hereof is $122.40 and no action or proceeding has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof, and

Whereas, said mortgage contained among other things an agreement on the part of said mortgagors that in the event of the foreclosure of said mortgage, they would pay a reasonable attorney's fee for the services of an attorney in the foreclosure of said mortgage, and that $25.00 is a reasonable attorney's fee for the services of the attorney for the mortgagee in this foreclosure of said mortgage.

Now, Therefore, Notice is hereby given that in pursuance of a Power of Sale contained in said mortgage, and of the statute in such case made and provided, said mortgage will be foreclosed and the premises hereinafter described, being the same premises described in said mortgage, or so much thereof as may be necessary, will be sold by the sheriff of said County of Red Lake, in his main office in the Court House, at Red Lake Falls, in the County of Red Lake, and State of Minnesota, on the 20th day of February, 1905, at 10 o'clock in the forenoon of said day, for the purpose of paying the amount which shall then be due on said mortgage, the costs of foreclosure, and an attorney's fee as aforesaid of $25.00.

The premises hereinbefore referred to are situate in the County of Red Lake and state of Minnesota, and are described as follows, to-wit: The Southeast quarter of Section seven, in Township one hundred and fifty, North, Range forty-four West of the 5th P. M.

Dated January 3, 1905.

Mortgage Foreclosure Sale.

Notice is Hereby Given, That default has been made in the conditions of that certain mortgage duly executed and delivered by William H. Reker and Emma M. Reker, his wife, and Hugh R. Spurr, single, Mortgagors, to Grant Van Sant Mortgagee, bearing date the 23rd day of April 1902, with power of sale therein contained, duly recorded in the Office of the Register of Deeds in and for the County of Red Lake State of Minnesota, on the 5th day of May, 1902, at 1:30 o'clock p. m., in Book 22 of Mortgages, on page 58, which said mortgage was thereafter assigned by said Grant Van Sant, by written assignment dated November 19th, 1903, and recorded in the said Register's office on the 20th day of November 1903, at 2 o'clock p. m. in Book 15 of Mortgages, page 78.

And Whereas, the said assignee of Mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage due and payable at the date of this notice, under the terms and conditions of said mortgage, and the power of sale therein contained, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and whereas, the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by mortgage, or any part thereof:

Now, Therefore, Notice is Hereby Given, That by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest Quarter (sw¼) of Section Eight (8) in Township One Hundred Fifty-three (153) Range Forty-five (45) in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the front door of the Court House in the city of Red Lake Falls in said county and state, on the 17th day of February 1905, at 1 o'clock p. m., of that day, at public vendue to the highest bidder for cash, to pay said debt of Fourteen Hundred Sixty-one and 71-100 ($1461.71) Dollars, and interest and taxes, if any, on said premises, and Fifty ($50) Dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated November 23rd A. D. 1904.

Your Heart

May Be Weak. One Person in Four Has a Weak Heart.

One of the surest signs of a weak heart is shortness of breath after exercise.

Your heart is not able to pump the blood fast enough to your lungs.

Some of the other symptoms of Heart Trouble are: Pains in the Side, Back and Shoulder; Fainting or Weak Spells; Dry Cough; Swelling of Feet and Ankles; Cold Feet or Hands.

No one can afford to allow a weak heart to go without medicine, because weak heart means poor circulation, and poor circulation means weak lungs, stomach, liver, kidneys, etc.

If, therefore, you suspect heart trouble, begin taking Dr. Miles' New Heart Cure. The Heart Cure will do you good, as it is a splendid tonic for the blood and nerves, and will revitalize your entire system.

Finally, remember, Dr. Miles' New Heart Cure is sold under a guarantee that the first bottle will do you good.

If it doesn't—your money back.

"I was afflicted with heart trouble for three years. I would be apparently all right, and without a moment's warning would fall as though shot. The attacks were frequent, and a terrible dread possessed me, as I never knew when or where, nor under what conditions I would be attacked, and whether I would survive them. I consulted and was treated by some of the most eminent physicians of the state. Not finding relief from this source, I began taking Dr. Miles' New Heart Cure, and began to improve at once. I used ten bottles, which entirely cured me, as I have not had an attack for five years."—MRS. JOHN DRESBACK, Leipsic, O.

GLASS VESSELS DISSOLVE.

They Are Materially Affected by Water and Other Liquids.

It is well known that glass has now almost completely replaced metal, horn and leather for the bottle or drinking cup, although it is not so very long ago that the leather bottle and horn drinking cup were extant. Whether this change could possibly have introduced any prejudice to the common health is an interesting matter for speculation. It is not true, though it is commonly supposed to be so, that glass is unattacked or completely undissolved by water and many other fluids in household use. On the contrary, the indelible marks which often appear on a water bottle arise from the action of the water upon the glass. Pure distilled water, showing neither an acid nor an alkaline reaction, which has been allowed to remain in a closed glass bottle for some time will gradually develop an alkaline reaction owing to the base of the mixed silicate of the glass dissolving in the water. At the same time a deposit of silica will generally be found at the bottom. This obviously shows a dissociation of constituents and the glass yields up its silica and its alkali to water.

With acid fluids the same action may be observed, and it is conceivable that with acid wines kept long in bottles some considerable action upon the glass may occur. Weak acid solutions cease to be acid after being kept in glass bottles for some time owing to the neutralization of the acids by the alkali of the glass, and at the same time a flocculent and generally iridescent deposit is found in the bottle consisting of silica. This deposit is a constant source of trouble to druggists. Though the glass dissolving power of most fluids in domestic use must be very small, yet, considering that these fluids are continually in contact with glass, either in the bottle or the tumbler, there can be little doubt that traces of the constituents of glass are ingested. It has even been suggested that the practically universal use of glass in this way in the place of the old drinking vessels of wood or horn or of the glass bottle for the leather or skin vessel has contributed a means of rendering the vermiform appendix easily liable to an inflammatory process by the irritation set up by siliceous particles. This ingenious theory of the increased prevalence of appendicitis being due to the universal use of glass for drinking vessels can hardly be seriously regarded when it is considered that silica is a frequent constituent of a number of foods. As is well known, silica is the support of the wheat stalk, as lime associated with phosphates is of the human frame.—Scientific American.

A Handy Question.

Joseph Chamberlain was delivering a political speech in Birmingham, England. The hall was so packed that not another human being could have crowded in. The enthusiasm was tremendous, but suddenly a scowling man arose in the middle of the crowd.

"What did Mr. Gladstone say in 1872?" he howled.

"Shame!" "Put him out!" yelled the crowd.

Three sturdy men hurled the interrupter a few yards, and others helped hustle him to the street.

As he was picking himself up and brushing off the dust he grinned pleasantly at a man who had followed him from the hall and who asked, "What did Mr. Gladstone say in 1872?"

"I don't know," he replied, "and I don't care. I had a terrible toothache, and I couldn't butt my way through that crowd, and the only thing to do was to get thrown out."

In Case of Poison.

When any one is accidentally poisoned and you are not sure of the antidote give an emetic of some kind immediately. Mustard and salt are two things found in every household, but a bottle of ipecac costs little and is better than either and should always be kept in the house. If mustard is to be used put a dessertspoonful in a glass of lukewarm water and make the patient take two or three glasses. Then by tickling the throat with the finger vomiting is certain. The dose should be repeated in about ten minutes so that the stomach may be thoroughly emptied. No matter what the poison, remember, the thing you should do is to give an emetic.

Why He Paid.

Lord Alvanley in the first part of the last century had a duel with a political opponent, but nobody was hurt. His lordship was so pleased at returning without injury that he paid his hackney coachman with a liberality that surprised the latter, and on the man remarking that it was more than his due for driving him that distance Lord Alvanley replied, "It is not for carrying me there, but for bringing me back."

Never Occurred to Him.

"I don't know why it is," said Mr. Glossup as he came downstairs red eyed and sleepy and greeted his guest, "but I never can get used to the striking of that clock in our room.

"It has such a loud, insistent 'bang' when it strikes the hours that it wakes me up nearly every time. We've had it in the house two or three years, but I can't become accustomed to it. We would have put it in the attic long ago only it's a present from my wife's mother, and that would never do. Good clock, too, aside from that, but it worries me nearly to death. I wish I knew what to do with it."

"Why don't you wind merely the timekeeping part of it," said his guest, "and let the striking part go unwound?"

"Johnson, you have saved my life!" exclaimed Mr. Glossup joyfully. "I never thought of that."

Electricity not a Success.

Mr. F. Faerber, of Concordia Publ. House, St. Louis, Mo., writes: "Rheumatism cannot be cured by electricty. I have tried it for years. I used Gloria Tonic and it completely cured me." Sold by W. A. Schreiter.

Yet He Wasn't Tired of Her.

A certain English musician is a good story teller, according to a London journal, and has a fund of amusing personal experiences to draw upon. One of the great musician's best stories is about a provincial church organist who was once a pupil of his. The young man was appointed to an important church in the Midlands. In course of time he married. During his absence on his honeymoon his voluntaries were much missed by the congregation. They had always been appreciated and their renewal was looked forward to. "Imagine," says Sir Frederick Bridge, "the intense amusement of the people when the newly married organist gave as his first voluntary upon his return Handel's 'Waft Her, Angels, to the Skies.'"

Agonizing Burns

are instanly relieved, and perfectly healed, by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain and healed it without a scar." Also heals all wounds, and sores. 25c at All Druggists.

Headdresses In Africa.

The married women and the men of the upper Mobangi wear their hair long and in braids, which are profusely adorned with colored beads woven in and out among the locks. This coiffure excites the astonishment of all travelers who see it. Coquetry is the privilege of the sex under the tropics as well as in civilized lands, and the women are very proud of their headdresses. The arrangement of their hair requires a number of days, and while it is in progress or when they fear that it will be disarranged they cover the hair with a finely woven net of wood fiber. Ivory needles handsomely carved keep the arrangement in position and give it a truly artistic aspect.

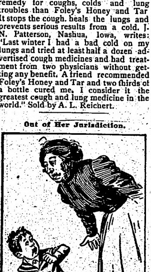
Curious Legal Custom.

A curious custom is in vogue in many parts of India. If a dispute arises between two landowners two holes are dug close together, in each of which defendant's and plaintiff's lawyers have to place a leg. They have to remain thus until either one of them is exhausted or complains of being bitten by insects, when he is judged to be defeated and his employer loses his case.

Failed.

All effort have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold by A. L. Reichert.

Out of Her Jurisdiction.



Little Paul — For heaven's sake, auntie, stop jawing at me. I'm not your husband.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

German Military Expert Finds That Russia Has Most Men While Japan Is Strongest in Artillery.

After a careful compilation and close investigation by German army experts, the Militar Wochenblatt, of Berlin, gives what is probably the nearest estimate yet printed of the strength of the Russian and Japanese land [illegible] is calculated [illegible] active [illegible] army at the present moment consists of 154,850 men and 386 guns; en route from Siberia, 35,700 men and 64 guns; being mobilized in Europe, 57,900 men and 188 guns; total, 248,450 men and 638 guns. On the Japanese side the active army in the field is given as 152,500 men and 702 guns; in reserve, 74,000 men and 78 guns; total, 226,500 men and 780 guns.

Grave Trouble Foreseen.

It need but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She said: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by All druggists, at 50c a bottle.

"Flinch," "Somerset, and all the new card games at THE COURIER stationery store.

SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need different handling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

The best time to remedy wasting conditions in the human body is before the evil is too deep rooted. At the first evidence of loss of flesh

Scott's Emulsion

should be taken immediately. There is nothing that will repair wasted tissue more quickly or replace lost flesh more abundantly than Scott's Emulsion. It nourishes and builds up the body when ordinary foods absolutely fail.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.

Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.

Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers, R. R. fare refunded to purchaser of land. For maps and further particulars address **UECKE'S LAND AGENCY, Cumberland, Wis.**

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year, in Advance.

THE Fairmont Sentinel heads an article "Frank Day Does Duluth." It is evident Duluth didn't see Frank first.

THE story that the populist party has practially disappeared from Kansas seems to be confirmed. Three car loads of barber chairs were shipped into that state in one day recently.

THE Duluth Herald observes that "the man with a piece of good land in Minnesota within reasonable distance of the markets, is in much better position to face the future than any other man who is compelled to earn his living by manual toil. The acquirement of a farm is the safest provision against old age and want. It is better than any life insurance policy ever devised."

THE St Peter Free Press does not exhibit broadgauged statemanship by refusing to endorse the proposition to lengthen the governor's term because the idea originated from a Democratic source. The Republican leaders ought to be convinced that they cannot forever ram down the throats of the voters measures or men bearing no other recommendation than the Republican label.

MARY MCFADDEN thinks the editors of northwest Minnesota have minds of their own, remarking casually that "the newspapors over in the Ninth are talking prettily about Congressman Steenerson just now, but that gentleman wil do well not to allow that fact to turn his head. Newspapers over in the Ninth have a way of being very outspoken even against their favorites, if their prejudices or ideas are jarred over the discharge of public duty."

F. D. COMERFORD has been expelled from the Illinois general assembly for making charges of corruption in the Illinois legislature. Mr. Comerford may be all wrong and he may be all right. It is a well known fact, however, that in some legislatures the corruptionists organize at the opening of the session with a view to expelling any member who makes charges against them, and they are able usually to carry out their plan and send a member home expelled, ridiculed and in disgrace, with his political career completely at an end. It looks as if Mr. Comerford may possibly have gotten againat a combination of that kind.

THE Minneapolis Journal calls attention to the fact that S. T. Johnson late public examiner, has been the means of collecting taxes from railroads to the amount of $190,039.62 during the past two years. The Journal adds that some other man might have been found who would have discovered that the railroad and sleeping-car and express and telephone companies were failing to report all their earnings to the state for taxation purpose, but we know that no other examiner did before Mr. Johnson came into that office. As a result of his inspection of the books of these companies and his refusal to accept their reports as they turned them in without checking up, as had been the rule heretofore, he found $6,504,586,30 in earnings which they had forgot to mention.

ARCHBISHOP IRELAND, in his toast at the Johnson banquet in St. Paul Saturday evening, gave expression to the following sentiment—a sentiment that ought to be a guiding string to every citizen, be he in public or private life: "The American, be he Democrat or Republican, knows that the will of the majority of the people is the supreme arbiter in political affairs. Whom the majority has honored, him every American honors; whom the majority has trusted, him every American trusts. Parties there are, and parties there will be in the politics of the country; it is well that it be so—well for the country, and well for each of the contending parties. But no party imagines that intelligence and moral dignity, patriotism and civic virtue thrive only within its borders, or that the commonwealth is in peril when the valaint knights of the opposing legion wear on their foreheads the laurels of triumph and of power."

THE DIVORCE EVIL.

The number of American divorces is now unofficially estimated at 50,000 annually, an increase of 100 per cent in the last 19 years, while populations has increased only about 50 per cent. Incomplete state reports prepare us for what to expect. Indiana, for example, in 1867, granted 1,096 divorces, 1,655 in 1886 and 4,609, or one to every 5.7 marriages, in 1900. Michigan's divorces increased from 449 in 1867 to 1,329 in 1886, and 2,418 in 1,900. Ohio granted 901 in 1867 and 3,217 in 1,900.

Taking the country as a whole, in 1900 it is estimated that there was one divorce to every 15 marriages.

Such figures as these, if officially shown to be true, cannot fail to arouse a public feeling that will result in radical efforts for a remedy.

The 1886 report did great good, marking practically the beginning of the anti-divorce agitation. Some reforms have been instituted in many states as a result. But there is still a woeful lack of harmony between the various states and statistics covering the whole ground are necessary for concerted action.

DOES IT PAY?

On the morning of the funeral of John F. McGovern, mayor of Wabasha, says the Duluth Herald, every business house in the city closed its doors, every school was closed, and every pastor in the city attended the funeral services. Several supreme court and other judges of other parts of the state were in attendance.

It is sometimes asked what benefit it is to a man to live an upright life, when the unscrupulous so often receive greater earthly rewards? It is safe to say that no man with a single taint to his name or his personal conduct would have been accorded such evidences of respect from the people of the state and his home city, as did John F. McGovern. In a beautiful tribute to the deceased appearing in the Wabasha Herald, written by Mr. McGovern's partner in that enterprise, it was stated that while the dead man was an able lawyer, he never used his talents to make money out of his clients, and he often refused to accept cases of doubtful character. The cause had to be a strong one indeed before he would consent to take it into court, and that he settled more outside of court than in.

It was because of this trait of honesty in his character that he was honored by his neighbors while living as well as after death, and there is no reward that can come to any man greater than this.

Of course, all men are not as gifted as he, and for that reason can not hope to reach the place of prominence in the public mind that he occupied; but in the end it is just as important to be remembered by the few as by the many, and no matter how lowly a man's position, he may count his life a failure unless he goes to his grave with a name untarnished and a conscience unafraid.

Had he succeeded in gaining all the wealth of the world, John F. McGovern could not have bequeathed his family and his friends a greater heritage.

What Outsiders Think.

Thief River Falls seems to be ready to profit by the labor done by Red Lake Falls, to get the county of Red Lake established, although they were knifing the proposition to set off Red Lake county, from Polk in 1893. At the time the bill was passed by the legislature in 1893 for the division of counties, we put in the best part of the winter, in company with J. T. Knight, of Red Lake Falls, lobbying for the passage of the bill. At that time, when the citizens of the present county seat were putting up their good hard cash to pay for the expenses of making the fight for county division, the citizens of Thief River Falls were sulking in their tents and doing what they could to assist Crookston to defeat the measure. Now after Red Lake Falls won the fight they are ready to step in and receive the benfits of another's labors. The voters of Red Lake county had ought to consider the justice of the claim of the two rivals for the county seat of that county, and give credit for the establishment of the county to Red Lake Falls and allow them to keep the county seat thereof.—Gully Sunbeam.

Educational Column.

Conducted by E. W. Chamberlain, Superintendent Red Lake Falls Schools.

How Can the Educational Column in the Local Paper Help the Rural Schools?

The above question was given to ten leading teachers in the rural schools of the county and they were asked to tell in about three hundred words how in their judgment this column could aid the rural schools. Eight of them promised to send in an article. Four responded, two with articles and two with an excuse.

The two articles sent show that the writers have studied their work found their difficuties, and reduced them to a basis sufficiently clear for expression.

I trust there are many others who have done the same thing and will in time respond to the question. If I may be allowed to remark these two are very suggestion but not quite defined enough.

From the first paper we find that the writer suggests that we might aid in interesting in the school work generally, but does not mention any special thing Now what is every body business is in body business, and what is asked for in general is not asked for at all. Tell us in just what you want the parents interested. If interest in reading or in providing reading matter or what difficulty do you meet with? Tell us then and we will try and find some one to answer your questions.

It is to be hoped that all who read the papers in this column will feel like responding to the query. Send us questions and we will answer at any time. We will not overlook them.

A problem which has long puzzled the teachers is how to interest the parents and secure their co-operation in school work. All parents are interested in school work to a certain extent but a great many send their children to school and there the matter ends. They do not even know what test books their children are using. If by means of this column in the local papers, we could get the parents more interested in school, we would have accomplished a great deal and the rural districts would be greatly helped.

Politicians believe that one sure way of reaching all the people is thru the newspaper. Why not then use the same means along educational lines. There is scarely a home in this vicinity or in the country that does not have at least one local paper and so we can in this way bring before notice new ideas and school necessities more emphaticly than in any other way.

Many of the rural teachers have not had Normal training and even the best of teachers meet with difficulties in their school work. If all the teachers would take part in writing for this column, and tell of their success, the teachers directly would be helped and the pupils indirectly. Some of the teachers are teaching in remote places where only the local paper reaches them and any new ideas or old ideas that have met with success will greatly help those teachers as well as the district.

Thru this column the rural teachers can better keep in touch with the work done by the city grades and so better prepare their pupils for high school when thru with the eighth grade in the country school.

No person can meet and converse with educated people without being helped, and so no school patron, teacher or student can read the good articles that have been and will be in the future published in this educational column, without being greatly helped.

In any profession each individual connected with it has his own ideas, his own thoughts, his own methods of securing certain results. Now he may have the best ones or someone else have better ones. In either case it is very essential to the progress of his profession that he should have an opportunity to exchange his views with others. In no other line of work perhaps is this of so much importance as in that of teaching. The successful teacher must keep up with the times. She must keep herself in close touch with the work and methods of other teachers in order to accomplish the best results. And here is where the city teacher has the advantage over most of the teachers in the rural schools. She can attend the teachers' meetings nearly every week and discuss questions and topics that may have presented themselves. Of course this affords the best opportunity for development. Next comes that derived from presenting her views or becoming acquainted with those of others thru the local paper. Now we do not mean that the country school teacher need to limit herself to the last method. Most counties, like ours, have teachers' organizations. So she can avail herself of both. For several reasons the meetings of these each year must be very limited. She could then in the meantime with great profit talk over topics of interest with others thru the local paper. Perhaps, if she has been afraid to give her opinion before, she would in this way discover that her ideas do not look bad in print, and gain enough confidence in herself to present her ideas at the next meeting. There are some who can express themself far better in this way than in appearing before and talking to an assembly. There are others who either thru modesty or fear [illegible] thoughts without revealing their identity These have a splendid chance offered them.

Not only should teachers, but trustees of schools, parents, and in fact everyon, having the subject of schools at heart, lend a hand by contributing something to this column. There should be a common understanding between teacher and parent. We should appreciate very much any help which anyone would give in carrying this column. If carried on in connection with the teachers' association it is certain to be of benefit.

AMONG OUR EXCHANGES.

Albert Lea Enterprise: Gov. Van Sant has organized a land company, and with his experience in steering the ship of state should be able to direct many home seekers to the haven of happy homes on the broad acres and rich soil of the new northwest, and no doubt many will be glad to avail themselves of his reliable service.

Owatonna Chronicle: The more one learns of the work of the little legislature, as the statute revision commission evidently constituted itself, the more apparent it is that the code of laws which it has presented for the legislature's approval should be examined with a microscope before being put into effect. It is becoming evident that the enactment of this code into law at this session of the legislature is an impossibility unless the members of the legislature are willing to take grave chances.

Northfield Independent: Someone is going to try and increase respect for law by requiring the justices of the supreme court to wear gowns, by legislative enactment. If gowns increase respect for the law, why not have everybody were them. The author of such a bill ought to be given thirty days.

Northfield News: Every business enterprise in a community is dependent upon every other business enterprise of that community and upon the inhabitants of that community. And the degree of prosperity which obtains in any community is dependent upon the support which every citizen gives to the business of his neighbor. It is simply but a small edition of the protective tariff which has made the prosperity of our country the greatest the world ever knew.

Austin Transcript: The supreme court has decided that the packing house combine is an illegal combination against the public. The most important and practical thing now remains to be done, the enforcement of the laws so that cattle raisers and consumers will get proper and just relief in the way of prices.

Fairmont Sentinel: It would not be at all strange if President Roosevelt's position on the railways, trusts and tariff resulted in a split in both political parties—the "safe and sane" Democrats lining up with the standpat Republicans and the progressive reform elements in both parties rallying around president. This might be the best thing for the country that could happen, as neither party seems capable of bringing about needed reforms as they are now divided on live issues.

St. Peter Herald: It is said that President Roosevelt will appeal to the people in the interests of railway rate regulation, hoping thereby to force favorable action from congress. His intentions are doubtless of the best, but he is attempting to frighten a body that is notorious for its disregard of the wishes of the people.

State of Ohio, City of Toledo, } ss.
Lucas County }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

Sworn to before and subscribed in my presence, this 5th day of December, A. D., 1886. A. W. GLEASON, Notary Public [Seal]

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY. & Co., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Settlers's Rates to Points in the Southeast.

On the first and third Tuesdays of each month, January to April inclusive, the Chicago Great Western Railway will sell one way tickets to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North and South Carolina, Tennessee and Virginia at very low rates. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. a18

Poisons in Food.

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at All druggists, try them.

Fast Tourist Car Service to California.

The Chicago Great Western Railway in connection with the C. R. I. & P. Railroad will run a through tourist sleeping car every week to San Francisco. Leaving Minneapolis at 8:00 p. m., St. Paul 8:30 p. m. Tuesday via Omaha, Colorado Springs and Ogden. Arrive San Francisco Saturday 5:20 p. m. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

A Minister Testifies.

Rev. C. Sund, of Harrisville, Wis., writes that Gloria Tonic, the new rheumatic cure, in tablet form, cured two members of his congregation. one had suffered 18; the other 25 years. Sold by W. A. Schreiter.

HAPPY AND HEALTHY.

A Beautiful Canadian Girl Saved From Catarrh of the Lungs by Pe-ru-na.

MISS FLORENCE KENAH.

Miss Florence E. Kenah, 434 Maria street, Ottawa, Ont., writes:

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently.

"I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since.

"I now have the greatest faith in Peruna." F. E. KENAH.

WOMEN should beware of contracting catarrh. The cold wind and rain, slush and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold Peruna should be taken. It fortifies the system against colds and catarrh.

The following letter gives one young woman's experience with Peruna:

Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following:

"Recently I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I considered this money well spent.

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rose Gerbing.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

"I couldn't keep House without it"

MASCOT FLOUR.

PLUMMER, MINN.

Reflections of a Bachelor.

New York Press: Forbidden fruit ripens early.

The hottest arguments are over things that neither side gives a rap about.

A girl has plenty of hair when she is willing to have a man pull it down fighting to kiss her.

A woman think it's awful funny to say she dosen't mind her husband being interested in other women till it happens.

Gloria Lung Balsam

its a pleasant prepartion. Contains honey ar and other healing balms. It is unequalled for coughs, colds, bronchitis and other forms of lung and throat trouble. Sold by W. A. Schreiter.

Satisfied Old Girl.

An old maid was once asked why she didn't marry: "It isn't necessary," she replied. "I've a parrot that swears; a cat that stops out all night, and a monkey that chews tobacco and spits all over the floor. I'm satisfied."

TRY THE COURIER a year.

Delinquent Tax List...

for Red Lake County, Minn.

STATE OF MINNESOTA, }
County of Red Lake. }

District Court,
Fourteenth Judicial District.

The State of Minnesota, to all persons, companies or corporations who have or claim any estate, right, title or interest in, claim to, or lien upon, any of the several pieces or parcels of land in the list hereto attached described:

The list of taxes and penalties on real property for the County of Red Lake remaining delinquent on the first Monday in January 1905, has been filed in the office of the Clerk of the District Court of the County of Red Lake of which that hereto attached is a copy. Therefore you, and each of you, are hereby required to file in the office of said clerk, on or before the twentieth day after the publication of this notice and list, your answer in writing, setting forth any objection or defense you may have to the taxes, or any part thereof, upon any piece or parcel of land described in said list, in, to, or on which you have or claim any estate, right, title, interest, claim or lien, and in default thereof judgment will be entered against such piece or parcel of land for the taxes on said list appearing against it, and for all penalties, interest and costs.

JOSEPH PERRAULT,
Clerk of the District Court
of the County of Red Lake.

A List of Real Property, for the County of Red Lake, State of Minnesota, on which Taxes remained Delinquent on the First Monday in January, A. D., 1905:

STATE OF MINNESOTA, } ss
County of Red Lake }

James E. Ford, being by me first duly sworn, deposes and says, that he is the County Auditor of the county of Red Lake, state of Minnesota; that he has examined the foregoing list and knows the contents thereof, and that the same is a correct list of taxes delinquent for the years therein appearing upon real estate in said county.

JAMES E. FORD.

Subscribed and sworn to before me this 1st day of February, A. D. 1905.

[NOTARIAL SEAL] T. L. MELGAARD,
Notary Public, Red Lake County, Minn.

District Court, Red Lake County, Minn.
Filed this 1st day of February, 1905.
JOSEPH PERRAULT,
Clerk District Court.

STATE OF MINNESOTA, } ss
County of Red Lake }

I, James E. Ford, County Auditor in and for the county of Red Lake, state of Minnesota, do hereby certify that the foregoing copy of the list of real estate taxes remaining delinquent on the first Monday in January, 1905, was this day received from the Clerk of the District Court in and for said county of Red Lake.

Witness my hand and official seal this 4th day of February, A. D. 1905.

[SEAL] JAMES E. FORD,
County Auditor,
Red Lake Co., Minn

THE PORCUPINE.

Only Known Creature That Eats the Foliage of the Hemlock.

"You don't have to skirmish around much to get feed to fatten one of these hemlock porcupines on," says an old woodsman. "Just sprinkle some salt over a stick of cordwood or saw log for that matter, and he'll eat the whole business and enjoy it as you would mince pie." The customary diet of these animals is hemlock browse. They make themselves a home in a hollow log or under the roots of some old tree, but always within reach of a big hemlock.

The hemlock is their pasture, and they make beaten paths going to and fro between the tree and their home. Once up in a tree the porcupine goes out on the big limbs and, pulling the small branches in with one paw, browses on the pungent leaves. In going through the woods you will find little piles of these fine leaves on the ground under hemlock trees. That means that a porcupine is feeding in the tree, the leaves on the ground being dropped from his feast.

Sometimes a porcupine will remain in a hemlock tree for a week at a time, hugging close to the trunk at night and feeding during the day. This curious little beast is the only known living thing that eats the foliage of the hemlock.

DANGER SPOTS IN A STORM.

Places to Avoid When the Lightning Is Flashing.

Out of doors trees should be avoided in a thunderstorm, and if from the rapidity with which the explosion follows the flash it is evident that electric clouds are near at hand a recumbent posture is the safest. It is seldom dangerous to take shelter under sheds, carts or low buildings or under the arch of a bridge, and a distance of twenty or thirty feet from tall trees or houses is an eligible situation, for should a discharge take place these elevated bodies are most likely to receive it.

It is well also to avoid water, for it is a good conductor, and the height of a human being near the stream may determine the direction of a discharge. Within doors we are tolerably safe in the middle of a carpeted room or when standing on a thick hearth rug. The chimney should be avoided on account of the conducting power of the carbon deposited in it, and gilt moldings or bell wires are sources of risk. In bed we are tolerably safe, since blankets and feathers are bad conductors.

It is injudicious to take refuge in a cellar, because the discharge is often from the earth to a cloud, and buildings frequently sustain the greatest injury in their basements.

THE FIRE CROWD.

As a Rule It Likes a Big Blaze and Crashing Walls.

"There is one curious thing connected with fires," said a thoughtful man, "and that is the fact that while the fireman is always a hero in the public estimate and while men and women have all kinds of admiration for these brave fellows they yet want to see them get the worst of it in the fight against the flames. It is an interesting fact that the average man and woman are not at all anxious to see the firemen get the fire under control. They would much rather see the flames spread until the affair developed into an immense conflagration. Mind you, the trait is not at all vicious. There is no malice in it. It is simply the love of excitement and adventure, things that are so deep rooted in human nature that we may not control them at will. Besides, we want to develop our heroes to the limit. We want our firemen to fight a good fight against long odds and under great difficulties. We cannot quarrel with this feeling in the human makeup. After all, it is what one may call the poetry of human nature, and without it this old system of ours would be dull and prosaic indeed. Of course, you will always find a few persons around a fire who are directly concerned in the fight the firemen are making. They want to see the flames put out. In the case of some of the spectators it means bread and meat. It means the loss of a position or maybe the loss of home. But I was speaking of the vast majority of men and women who gather to witness a fire. The fire is the thing with them. They want to see a big blaze and hear the crash of the walls and all that sort of thing. Did you ever take the trouble to analyze a fire crowd? In the first place an alarm of fire will draw a crowd quicker than anything in the world. Whenever the bells begin to clang and the engines go rushing down the street you will see men, women and children rushing this way and that in order to see as much as may be seen of the fire and fire fighters. The hour of day or night does not make so much difference. The crowd will get there in some way and for some reason, though the great majority of the persons have no sort of interest other than idle curiosity. Once on hand, they want to see a good fire, and that's why I say they want to see the flames get the best of the firemen. They will go away and talk about what a game fight the fire laddies made. Human nature is a curious thing, is it not?—New Orleans Times-Democrat.

A LITTLE DECEPTION

IT WAS only after the death of her mother that Hermance Desriguy thought it well to consider in earnest the possibility of marriage and vowed not to die a spinster. She was now 29, possessed in her own right of a modest competence, and had a heart full of warm and generous impulses, but she was deformed—in short, a humpback.

Seated alone in her quiet home at Chatillon with pleasant surroundings about her, she considered her lonely future with a shudder. But where to seek for a husband? Whom might she address?

She knew she did not possess the physical attractions of a young and more perfect beauty; she must confess that one shoulder was higher than the other, and from some words she overheard, she knew herself considered a little angular. But what of this in so loyal a heart?

One evening in her daily paper she found this advertisement, which immediately engrossed her attention.

The Matrimonial Institute of France, founded by Madame de Saint Elme. This institute has for its object the promotion of honorable marriages, between members of families best fitted both in a physiological and social point of view.

Dowries from 2,000 to 2000,000 fraces. Office hours, one to five p. m. Correspondence solicited.

And the address followed.

Hermance considered this matter that day and again the following day. Finally she said to herself:

"I will write to that woman."

And she wrote at once.

By return post she received a magnificently printed prospectus, beautifully lithographed on rose colored paper, which in a great many words explained, magnified and praised "the moral purpose of the Matrimonial Institute of France."

In conclusion Mme. de St. Elme invited her correspondent to send her the modest sum of two dollars as subscription to the Nuptial Veil, in which would be found a large list of candidates for matrimony, all guaranteed of good social rank, regularly registered and submitted to the choice of readers of both sexes. To be thus registered or to make choice of any name in these lists the further sum of five dollars must be remitted in advance.

Hermance sent, in conformity with the above conditions, the double fee, adding also, as advised in the prospectus, one of her photographs, a little portrait taken the year before, in which there appeared her fine head and neck, full of expression and grace, but showing her only as far as the shoulders.

As she glanced at the long list of possible husbands named in the Nuptial Veil she was embarrassed, there were so many. Marking out 20, these she reduced to 15, and then to 10, and 8. She paused, and then tired of the attempt, she finished by placing her pencil where it would fall, which happened to be No. 12,818, reading thus:

Employment, public; salary 3,500 fracs, with advancement assured; aged 38 years, good health; simple tastes; desires to marry young lady of age and fortune, excellent habits and character.

"Simple tastes," of course it was impossible to tell what these words might mean, but trusting to the maternal character of the lady at the head of the institute, and, forwarding a new check for the additional $10 required, she received a photograph of No. 12,818, with a note giving the name, residence, etc., of the candidate.

His name was Adrien Bastide, and he was a public officer in the little town of Kernoveu, in Brittany. In the picture, which represented him at full length, he appeared a man full of good humor and good will, with a full, open countenance, and a long beard, flowing down his breast. But how tall he was! You might have taken him for a drum major. What a contrast to poor little humpback Hermance!

"Ah, but he is a very good man for me," whispered she to herself.

At the same time that the photograph was sent to Hermance, Mme. de Saint Elme, always attentive to the interests of her clients, advised No. 12,818 of the distinction which had befallen him, and for a consideration, forwarded the note and portrait of Mlle. Desriguy, who straightway received the following letter:

Mademoiselle: While not having the honor of being personally known to you, yet I cannot resist the deep emotion which only one look at your photograph has aroused in me, and to tell you by what all powerful, almost providential, sympathy I am turned to you.

Yes, it seems as if I hear a voice from heaven guiding and leading me to you. It is impossible to look upon a countenance so pure, so open, so frank, on eyes so full of spirit and impossible to deceit, and not to know you have a generous, loving heart.

And the writer of the letters prayed for the opening of a correspondence between them preparatory, if mutually agreeable, to a meeting at some future time.

An exchange of letters now ensued. Each day becoming more and more intimate, they confided to one another the stories of their youth, their hopes for the future and how and why they had had recourse to Mme. de Saint Elme.

The interview between the two could no longer be delayed. Adrien Bastide announced his intention to visit Chatillon in a fortnight, and the affair was readily and easily arranged.

Mlle. Desriguy would advise with some old friends of the family who would be glad to assist her. There would be nothing [illegible] in acquainting them how matters were a few days in advance of the coming of her fiance. "Her fiance!" Ah, how sweet that word was to pronounce, how deliciously it made her heart throb

Finally the great day came and Hermance was notified that M. Bastide would present himself at her house at two o'clock.

Everything in and around the house had been put in perfect order, and all was ready. Hermance kept repeating to her servant:

"I hear some one coming, Ionette."

"Mademoiselle has said that very often."

"Well, don't go to sleep in the porch, and be sure to bring him in—that person—to the parlor."

"Surely, mademoiselle. Don't you fear. I will hide myself in the corridor and run at the first sound of the bell."

The bell rang. The visitor, the tall drum major with the long beard, appeared, but limping with one foot, and walking with a cane.

"Mademoiselle Desriguy?" said he.

"It is I, Monsieur Bastide," tremblingly answered the little humpback, dropping the book in which she seemed to have been reading.

"You! But! Mademoiselle Hermance Desriguy who wrote to me?"

"Yes."

And both stood thunderstruck, facing each other, stupidly gazing without a word.

"But, mademoiselle, you have never—you ought to have told me." And Hermance replied, her cheeks now grown scarlet:

"Yes I know, I ought to perhaps, but you, you also, monsieur. I was born so—me—no—oh, no. Adieu, monsieur."

And our poor little heroine, wholly confused, her eyes filled with tears, fled away, leaving the room to her visitor, her exfiance.

The great giant stood still some minutes. What was there to do? Finally he opened a door into the hall and shuffled back to his hotel. There he seated himself on one of the soft banks of grass, and with eyes mechanically fixed upon the windings of the valley, tried to meditate over the occurrences of the afternoon, and gave himself up to the strange thoughts to which they gave rise.

Humpbacked! She was a humpback, and she had said nothing about it. This was the game, a shallow trick, and that maternal directress of the Matrimonial Institute of France, whose only object was to enable her children to make a better acquaintance and to shield them in marriage—charlatan, cheat.

But how about himself? What had he said about his infirmity?

He had been very careful in not speaking of that. He he tried to trick her? No, truly, that was not his object. He had not wished to hurry.

And she—oh, without doubt, it was her timidity; perhaps in her case also she felt ashamed. He had no reason to be proud.

Adrien Bastide had been tenderly brought up by a mother who idolized him. Jealous of every woman who approached him, yet she had had an intention certainly of seeing him married, and she truly meant not to disappoint him. But years passed on and she discovered no one worthy of him, and finally she died without placing her hand upon the fine pearl sought for.

Adrien at the age of 22, on account of a fall from a horse, had lost the free use of his right leg. After his mother's death he said to himself that now was the time to replace her. But how?

Providentially, as he then thought, he saw the advertisement of the marriage institute and paying his subscription and enrollment fee he received a photograph and communication in which Hermance, No. 19724, was described:

Orphan, 29 years, musician, dowry 40,000 francs, living in a neat cottage with garden and running stream of water, would espouse man of honor, in preference official.

This exactly suited him; perhaps even the 40,000 francs no less than the garden and stream full of fish attracted him.

Alas, some points had been omitted in the advertisement in the Nuptial Veil and also in the letters from Mme. de St. Elme—yet how full of sweetness and spirituality her letters had been.

Well, he was not coming 200 miles for nothing; he would go and explain himself at least.

Hermance during this time was reflecting on the situation. It was not so easy to find a husband at 29, she well knew.

He was a cripple, yet, but she was—well a little peaked.

"Nothing," she thought, "will make M. Bastide return to the house. There are three trains to Paris, two in the morning and one in the afternoon at 4:30.

"He will do nothing until train time. I might at least try to meet him, as it were by accident, at the station."

So with hat and mantle she quickly set out. But two steps from her house she ran into the good giant.

"Monsieur Adrien, must you leave town at once?" she asked.

And she had a look so contrite, and eyes so ready to fill with tears that the giant bent over her and took her hand respectfully.

"I ask your pardon," he said, "for all I did. You were much excited; so was I. But I do not wish to return without seeing you again. Permit me to enter with you. Now we know each other, and we can speak more quietly."

There were two happy persons in that little house and they are now happy, those two who had not told the truth.—From the French in N. Y. Sun.

Character and Laws.

How ridiculous it would seem, writes Annie Payson Call in Leslie's Monthly Magazine, if a man tried to make water run up hill without providing that it should do so by reaching its own level, and then got indignant because he did not succeed, and wondered if there was not some "cure" by means of which his object might be accomplished. And yet it is no more [illegible]

A Matter of Health

There is a quality in Royal Baking Powder which makes the food more digestible and wholesome. This peculiarity of Royal has been noted by physicians, and they accordingly endorse and recommend it.

ROYAL BAKING POWDER CO., NEW YORK.

NOTES IN MINOR CHORD.

Go to the Merchants State Bank for farm loans.

Samuol Allard was a business visitor at Crookston Monday.

S. L. Lewis was at Crookston several days this week on business.

City Clerk Toupin was at Crookston on business the first of the week.

Dr. J. C. Wilkinson was at Thief River Falls on business over Monday night.

A woman can't made a monkey of every man she meets; sometimes she is too late.

Theo. LaBissoniere has been confined to his home with an attack of grippe this week.

Remi Lafaivre, one of Brooks business men, was a county seat business caller yesterday.

Miss Grace Iddings went to Grand Forks last Friday and visited over Sunday with friends there.

Hon. L. C. Simons came up from St. Paul Sunday to look after business matters for a few days.

P. K. Olson, of Plummer, was a Red Lake Falls visitor Monday. He reports Mrs. Olson as being quite sick.

Mrs. N. J. St. Aubin was taken suddenly sick on Saturdav but is recovering from the attack verv nicely.

Graceful in instep and appearance is the chic style of "Queen Quality" shoes for women. $3.00.—Garceau & Zaiser.

The following letters remain unclaimed in the postoffice: Mrs. Joseph Gagnon, Jno Allo and Wm. Schumacher 2.

Miss Mollie Allard returned last evening from Grand Forks where she visited a week with her sister, Mrs. Dan Paul.

Jacob Thill and E. W. Brouillet came in from Wylle Saturday evening and remained over Sunday with relatives and old friends.

Viegel & Tillman wish to announce that those desiring a nice drink of "Tom and Jerry" can be accommodated at their place of business next Saturday.

Paul Berthon is expected home from Pass Christian, Miss., about March 1. Mr. Berthon is the guest of his aunt, Mrs. Dr. Pinault, who has a winter home at that place, and from letters received we judge he is having a good time in the land of sunshine and flowers.

Ayer's

Take cold easily? Throat tender? Lungs weak? Any relatives have consumption? Then a cough means a great deal to you. Follow your doctor's advice and take Ayer's Cherry Pectoral. It heals, strengthens, prevents.

Cherry Pectoral

"For 40 years I have depended on Ayer's Cherry Pectoral for coughs and colds. I know it greatly strengthens weak lungs." MRS. F. A. ROBINSON, Saline, Mich.

for Weak Lungs

Ayer's Pills increase the activity of the liver, and thus aid recovery.

Adam Zah was a Thief River Falls visitor the first of the week.

A dancing party was held at the K. of P. hall Friday evening.

Geo. Brown, of Plummer, called on friends at this plaee Wednesday.

Dr, J. C. Wilkinson was called to Brooks Sunday on professional business.

Hon. William J. Bryan will deliver a lecture at Grand Forks this evening.

Joseph Fortier went over to Crookston last evening on a business mission.

The "Merry Crew" club was entertained Friday afternoon bv Miss Dollie Matthies.

It is good to marry and settle down but it is better to remain single and settle up.

Mrs. R. Peble returned Saturday evening from an extended visit with relatives at Grand Forks.

Mrs. Samuel Nauman arrived home yesterday after a two months visit with relatives in Illinois.

Station Agent Tracy of the Great Northern was laid up a couple of days last week with the grippe.

A baby boy was born to Mr. and Mrs. Mose Ducharma, who live at Perrault station, on Friday, Feb. 10th.

Mrs. H. M. Knox suffered a slight attack of appendicitis the first part of the week, but is recovering very rapidly.

Conductor Steve Withey is once more on this run. He has been laid up with the grippe for a couple of weeks.

About 200 bushels of good succotash for sale, also some wood to trade for milk cows. Call on Swan Aakenson.

Probate Judge Tarrant reports business as being quiet these days and is yearning for a wedding to brighten up the office.

Clerk of Courts Perrault issued a license to wed last Saturday to Victor St. Martin and Miss Exclia Payment, both of St. Hilaire.

St. Valantine's day was celebrated by onr young people in the usual way, and the youngsteres were very busy receiving and mailing the messages of cupid.

The ladies of St. Mary's church will meet with Mrs. Wm. O'Brien Thursday, Feb. 23. A ten cent lunch will be served and all are invited to attend.

H. W. Anderson, our popular jeweler, is at work making a small steam engine. It is being made of brass and "Andy" is certainly doing a nice job.

Holidays are numerous at present. Monday was Lincoln's birthday, Tuesday was St. Valentine's day, and Washington's birthday comes next Wednesday.

The Shakespeare club held their regular weekly meeting at the home of Rev. and Mrs. Knox Tuesday evening. The study of King Lear was taken up at this meeting.

The young folks weekly dancing party was held on Friday evening last week instead of Saturday as usual. A large attendance is reported and a good time enjoyed by all.

County Treasurer Hanson will have a more commodious office when the repairs now being made are completed. A partition is being removed, and with the other improvements contemplated it will make a more comfortable place in which to transact business.

The next band concert will be given Friday evening, Feb. 24th. A fine program is being prepared and will be one of the best entertainments given by the band the past year.

John E. King is at St. Paul this week attending the annual meeting of the state editorial association and looking after affairs preliminary to assuming his position as state librarian.

Prof. A. Onstad now has charge of the St. Hilaire band and was at that place Monday evening. He will make weekly visits to the town, and St. Hilaire will find him a competent instructor.

The cold weather has delayed work on the Great Northern bridge the past week, there being several days the men were unable to work. It is expected the structure will be completed next week.

Mrs. E. F. Marshall will entertain the ladies aid society of the Presbyterian church next Wednesday, Feb. 22. A 10 cent lunch will be served from 4 to 6 o'clock p. m. All are invited to attend.

The Red Lake County Teachers' Assn. will hold its next meeting at St. Hilaire, May 5 and 6. Preparations are being made for a great meeting, particulars of which will be given in next week's Courier.

We are glad to announce to the ladies of this community that we have received our new line of St. Cecilia shoes. All styles, all widths. Come and look at them even if you don't want to buy.—The Big Store.

S. M. Severtson left last evening for Neillsville to look after an elevator the Red Lake Falls Milling Co. recently purchased. From that place he goes to Greenbush on business connected with his firm.

For those who do not care to pay $3.50 for a shoe we have recommended our Nanaimo ($3.00) and our Saranad ($2.50) These shoes will show as much style and quality as many so called $3.50 shoes show.—The Big Store.

Mr. and Mrs. Joe Salley were called to Thief River Falls the first of the week. Mrs. Salley's brother-in-law, Joseph Holzknecht, of that place. was operated upon for appendicitis and is said to be in a dangerous condition.

St. Hilaire Spectator: Ed. H. Chase has leased a half interest in the Red Lake Falls Courier and will have charge during Editor King's absence at St. Paul as state librarian. Mr. Chase is recognized as a newspaper man of ability.

Messrs. Leo Steinert and Theo. Majeres desire to annonnce to their friends and patrons that they have purchased the stock and outfit formerly owned by the Northern Minnesota Milling Company, and will continue the business under that name. All accounts due the company should be paid to them.

You will never Taste Better Bread than that which any woman can make with Yeast Foam

The Wonderful Yeast that took the First Grand Prize at the St. Louis Exposition.

Yeast Foam is sold by all grocers at 5c a package—enough for 40 loaves. Send a postal card for our new illustrated book "Good Bread: How to Make It."

NORTHWESTERN YEAST CO. CHICAGO, ILL.

Louis Parenteau has moved his cheese factory which was located about three miles north of Mentor onto his farm in the town of Terrebonne and intends to open up for business as soon as spring sets in.

Representive Simons has introduced a bill in the legislature appropriating $500 for a bridge across the Clearwater near Plummer, and another bill appropriating $400 for a bridge across Hill river near Brooks.

The pile driver at work on the Great Northern cut-off has been idle most of the past week, owing to the cold weather and the breakdown of their engine. New flues have been ordered for the engine and work will be resumed in a few days.

There will be a dance at the Metropolitan opera house next Tuesday evening which promises to be the biggest affair of the kind of the season. The orchestra will furnish the music and a large crowd is expected to be present.

Thief River News: Robert McGinn last Saturday sold his saloon business in this city to Joe Halda. Mr, McGinn in the future will devote his time in the hardware business with the firm of Jackson & Co., of which he is a member, and to the looking after his other property interests in town which are quite extensive.

The preachers will have to work over time in 1905. The reason for this is that there is an extra Sunday in the year, fifty-three Sabbath's instead of the usual-fifty two. The year begins and ends on Sunday. The pulpit pounders should not complain however, for they will not have to preach an extra Sunday again until 2015.

Aime Latandresse is to be deputy County Auditor after March 1st. Mr. Latandresse has been at Cass Lake the past two years, but is an old resident of this place and has many friends here who will be glad to welcome his return, He is a first class accountant, a stanuch democrat, and has all the qualifications to make him a popular official.

The Red Lake Falls Milling Co. recently added another elevator to their already large list. The new possession is located at Neillsville. It had been run by a farmers co-operative company but owing to mismanagement it proved a losing venture and was recently sold at Sheriff's sale. S. M. Sivertson attended the sale and was the successful bidder.

There i$ a little matter to which The Courier begs to call the attention to $ome of it$ ubcriber$. We really hate to $peak of it, but $ome have $eemingly allowed it to $lip their mind$. To u$ thi$ i$ a very important i$$ue; in fact it i$ nece$$ary in our bu$ine$$. We won't $peak further on the $ubject; perhap$ you have already gue$$ed the drift of our remark$. We hope $o at lea$t.

A cold wave swept over the entire country last week and intense suffering and loss of life is reported from all quarters. While it has been cold in this section we have been more fortunate than the people to the south of us. Iowa reports an immense amount of snow and extreme cold weather. Train service has been badly crippled and stock has suffered greatly.

THE COURIER is starting a new department this week for the benefit of our farmer readers under the head of "Our Rural Friends." We have a large number of rural readers and think it no more than right that they shonld have all the benefits possible of their favorite home paper. The column will appear weekly and will be found to contain original and interesting reading.

George L. Austin, formerly manager of the Red Lake Falls creamery, has succeeded Joel G. Winbjer as manager of the St. Hilaire creamery. Mr. Austin has the reputation of being a first-class creamery man, and is one of the best fellows on earth. His Red Lake Falls friends will hope that his new work will prove satisfactory to the patrons of the creamery.

The K. of P. friends of Mr. and Mrs. John E. King gave a card party in their honor Tuesday evening at the lodge rooms. Thirty-two friends gathered for the occasion, and a most delightful time was had by all. Mrs. King won first honor at the game and was awared a beautiful prize. Refreshments were served and the guests departed wishing Mr. and Mrs. King good luck in their new home at St. Paul.

A man in a neighboring town who secured his wife through a matrimonial agency is trying to secure a divorce. Just another instance of finding that mail order bargains are not just as represented and that a much better grade of the same article could have been obtained at home. Good enough for him; he ought to patronize home industry. The home grown article is usually the best.

In Sunday's Minneapolis Tribune is a double column picture of the seven children of Mr. and Mrs. Joseph A. Bray of Blackduck, formerly of Red Lake Falls. It seems that some time ago Mr. Bray sent the picture to President Roosevelt and that he has received in return a photograph of the president together with a letter of congratulation and best wishes for the health and happiness of the family. The picture printed in the Tribune is a good one and the children are a bright intelligent looking seven.

An Iowa judge recently related an amusing incident that occurred in his court when a colored man was brought up for some petty offense. The charge was read and as the statement, "The State of Iowa against John Jones," was read in a loud voice the colored man's eyes bulged nearly out of their sockets, and he seemed overcome with terror and astonishment. When he was asked if he had anything to say or pleaded guilty or not guilty he gasped out: "Well yo' honah, if de whole State o' Iowa is ag'in dis one pore niggah I'ze wine to give up right now!"

Plummer Pioneer: Post master Finrow has received advices from the post office department to the effect that on March 6th the Soo line will commence carrying mail on this line between Detroit and the boundary line. On that date our old tri-weekly mail service from Red Lake Falls will be discontinued and we will have a daily railroad mail service instead. It is expected that the mail for the conntry postoffices east of here will shortly be distributed from here which, in addition to the daily mail service, will mean much to the busiuess interests of Plummer.

About thirty members of the Woodman camp went to Plummer Saturday evening to initiate a class of thirteen candidates in the lodge at that place. The camp at Garnes has been transferred to Plummer, and all of the paraphernalia and equipment moved to the latter place. The degree work was performed by the team from this city, and about thirty members from Thief River Falls and a few from St. Hilaire were down to assist in the exercises. About midnight a banquet was spread at the Iverson hotel, and the Plummer boys did everything possible to make the occasion enjoyable for their visitors. Ralph Green was at the head of the entertainment committee, which in itself is evidence that everything went smoothly. The Plummer lodge starts out under favorable auspices, and it is confidently claimed that fifty new members will be secured this winter.

J. B. Labree, an old settler of this section, died at his home in Crookston on Tuesday. Mr. Labree was one of the early settlers of Polk county, having taken a homestead in 1881 where Thief River Falls is now located. Many citizens of Red Lake county will mourn his death.

The champion man hated lives in Dearborn county, Indiana. Miss Sarah Jackson is said to have been crossed in love more then forty years ago, and she has never spoken to a man since that time. Living on a little farm she has transacted all her business through a female friend. She had lived a hermite life for many years. Recently she made a will, and a peculiar document it is. She provided that there shall be no man employed in any capacity at her funeral. The driver of the hearse, the pall bearers, even those who fill up the grave after the coffin in lowered into it are to be women.

Plummer is Incorporated.

Plummer Pioneer: On last Tuesday Plummer's incorporation election was held in the Adolph Nelson building. The weather was decidedly stormy but a fair sized vote was polled. The result was that incorporation carried by a vote of 27 to 3.

The date of the election of officers will be fixed by commissioner O. J. Johnson, who will designate Tuesday March 14th the date for regular town and village election. The officers to be elected will be: A president, three trustees, recorder, treasure, all for one year terms, two justices and two constable each for two years terms. All other officers will be appointed by the council when organized.

Cures Sore Throat.

Sulphur and molasses are unpalatable remedies. Gloria Lung Balsam, a preparation of honey, wild cherry, tar, etc., is far ahead. Best for children. Sold by W. A. Schreiter.

This weather is calculated to make one sigh for the merry springtide.

THE GUARANTEED APPLE

Out From the Northwest it has Come at Last
THE GUARANTEED APPLE!
"THE MINNETONKA,"
which for the first time in the history of Horticulture Bears a Nursery Guarantee, is propagated, owned and controlled by L. L. MAY & CO., whose Mayfield Nurseries, distinguished for exclusive productions, are the most Northern in America. This latest triumph of apple culture, the pride of the State of Minnesota, is named after one of her beautiful silvery lakes, "Minnetonka." "The Minnetonka" thrives luxuriantly and yields prolifically in the most rigorous climate where all others fail. The fruit is very large; flesh tender, crisp, sub-acid; the ideal cooking and choicest dessert apple. Season late, keeping two months longer than the well known "Wealthy." Hardy as an Oak.

We Guarantee every tree of "The Minnetonka," to produce a bushel of fruit, and will replace tree free of charge, every tree that dies before this result is obtained.

Prices—4 to 5 foot trees, 75 cents each; 3 for $2; 6 for $3; 12 for $5, by express or freight. Mail order size—one year old, 40 cents each; 3 for $1; 6 for $1.75; 12 for $3, postpaid. Every owner of a home should have one or more of "The Minnetonka," pride of the Northwest. Order to-day.

Free Catalogue of SEEDS Plants, Trees, Shrubs, Fruits, etc.

Mayfield Nurseries—Most Northern in America

Our Minnetonka Guarantee—A Bushel of Fruit from Every Tree

A Convenience.

A checking account with a bank is a great convenience—not only to the business and professional man—but to the farmer as well. More people would keep such an account if they knew just how to go about it. We gladly assist those who need help in getting started, even tho the account be small.

FINANCIAL STATEMENT

—OF—

RED LAKE COUNTY. MINNESOTA.

For the Fiscal Year Ending December 31, 1904

OFFICE OF COUNTY AUDITOR, RED LAKE COUNTY,
Red Lake Falls, Minnesota, January 6, 1605.

To the Honorable Board of County Commissioners of Red Lake County, Minnesota:

GENTLEMEN: I submit to you herewith a statement of the financial condition of Red Lake County, Minnesota at the close of the fiscal year. December 31, 1904, showing the receipts and expenditures for the year, the cash balances in the different funds and the total amount to the County Treasury, together with a statement of the finances of the County at the end of the year, including all debts and liabilities, and the assets and other means of discharging the same.

Respectfully submitted,
JAMES E. FORD, County Auditor.

The foregoing statement prepared by the County Auditor is approved by this Board, and respectfully submitted to the taxpayers of Red Lake County.

Dated at Red Lake Falls, Minn., this 4th day of January, A. D. 1905.

O. J. JOHNSON,
JAMES SUTOR,
LOUIS FALARDEAU,
DANIEL SHAW,
WM. C. L. DEMANN,
Board of County Commissioners of Red Lake County, Minn.

Attest: JAMES E. FORD,
County Auditor.

OUR RURAL FRIENDS.

It won't do to keep animals that don't pay their board.

The richest part of manure is the part which rain will wash out.

Twelve Angora goats can be kept upon the food consumed by one cow.

The best breed of hogs is the one that will weigh 200 pounds the quickest.

The underbush on a farm is "done for" when a flock of Angora goats is turned into it.

Chinese farmers are beginning to demand modern tools, especially such as are useful for intensive farming.

The boards of trade acknowledge that it is harder this year for them to manage products then ever before in history.

Isn't it queer how abundant everything is when the farmers own it, and how scarce it gets as soon as the farmers have sold it?

In Webster county, Mo., there is an apple orchard of 86,000 trees. This is probably the largest orchard of the kind in the world.

A Kansas farmer, being asked what he did to get rid of the weeds on his farm, said that he sold most of them as mutton, at three and one-half to four cents a pound.

Why not make every station worker or agricultural scientist show the test of success before he is given a position at puplic pay? Make him prove that he has run a farm or garden at a fair profit.

The children of the future will wonder how the farmers make a living without being allowed to put a value on their products, just as we now wonder how they made a living with the reap hook and the flail.

And now the farmer is having an electric bell placed in connection with the rural mail box where the box is located some distance from the house, the mail carrier rings the bell when he delivers the mail. What next?

The area of the United States, exclusive of Alaska and insular possessions, is 3,000,000 square miles. Census returns gives 650,000 square miles of this as "improved farm" land. An interesting illustration lies in assuming a segragation of the principal farm products within specific areas of familiar boundary.

The feeding of 100,000,000 people will be the biggest problem in this country inside of twenty-five years. A standard of living has been developed under American condition which demands much to eat and a very great variety. The teeming millions of the old world are content to live on the plainest and coarsest of food.

According to an article in the book-lover's Magazine, there is no farmer in the world like the Japanese farmer. Progressive experts now admit that there is nothing in all the annals of agriculture that every approached the sciectific skill of Japanese husbandry. If all the tillable acres of Japan were merged into one field, a man in an automobile, traveling at the rate of fifty miles an hour, could circle arable Japan in eleven hours.

A curious fact in regard to the drug trade is that we are today importing in considerable quantites ordinary medical plants which may be found growing wild in America on farms and are destroyed by farmers who condemn them as nuisances and an eye-sore that destroy the beauty of a well-kept farm. Among this class of despised drug plants are a common may weed, danderlion, burdock, couchgrass and curlydock, and these might all be a source of income with a small effort to members of the farmer's family.

Pawnee Bill, the showman, has a buffalo ranch south of Pawnee, Oklahoma, and has at the present time a bunch of fat young buffalo, which he will kill and ship to the East for the trade. He expects to realize close to $30,000 from his sale this season, and the average price will be $1.25 per pound. The hide will bring him $75 to $150, according to size. His ranch lies in the heart of buffalo range of the 70s, where the growth of the buffalo grass is the heaviest. He proposes to try the experiment of crossing the buffalo with Galloway cattle. If successful he expects to have an animal of a much more kindly disposition then the buffalo.

An enormous cattle range, said to be the largest in the world, is that of Don Luis Terrazas, in the state of Chihuahua, Mexico. It comprises eight million acres and upon its vast prairies, mesas and mountains, there roam one million cattle, seven hundred sheep and one hundred thousand horses. The "farmhouse" is undoudtedly the finest in the world, for upon it were spent $2,000,000 in Mexican money, and it is one of the richly finished and furnished castles in the republic. The marble with which it is embelished was brought from Italy and European workmen and artists were brought over to exert all their skill on this princely mansion.

Perfect Safety

is combined with convenience in our certificates of disposit.

When you have any sum of money not wanted for immediate use, you can leave it here and we give you a written agreement to pay it back at any time you want it. If you wish to leave it for 6 months or more, we will pay interest upon it.

Yov can draw out a part of it, or all of it, at any time, or turn it over to some other party, if you wish.

5 per cent Interest paid on time deposits.

Safety Deposit Boxes for Rent.

Roasts Drawback Plan.

The millers are to have their own way. Every demand of theirs is either granted or in process of concession by the authorities at Washington. Already they are empowered to sell the by-products of imported wheat without payment of duty. Now it is announced that they are also to be permitted to mix imported wheat with the domestic product and export the flour this made without any duty charge. This covers the whole ground. Practically, the miller has absolutely free wheat. We should have no quarrel with this did it not run on all fours with the rankest hypocricy and injust. If the farmer wants wheat for seed, he must pay duty on it. The miller is the only favored party. If the farmer wants lumber or hardware or any other article at a lower price through a lowered duty. he is told that he ought to pay cheerfully the added cost because he shares in the advantage of to tariff system by reason of the duty on wheat. Yet that duty is utterly abolished where it is supposed to favor him by Republican rulings. If it ever had any practical effect, if even the poor protense that it protects the farmer were honest, still it would be completely negatived and nullified by the action of the government. Free wheat for the goose is not free wheat for the gander. Will the farmers of the northwest be made sport of indefinitely in this fashion without remonstrance?—Kittson County Enterprise.

To Save the Western Forests.

Wireless telegraphy is to be employed to aid in saving the forests of the west. At regular intervals throughout the Rocky mountains in the forest regions where fires frequently occor, stations are to be established where observers will give notice of any fire and call help to assist in extinguishing it. If we could pay a man in every home in America is an expert observer we wager that every home would be found to need a case of golden grain belt beer. This tonic is so necessary to our lives as we live them today, in a hurry, that is the poorest economy to get along without it. Order of your nearest dealer or be supplied by Alex. Thompson, Crookston.

Brain Leaks.

There is no honor among thieves.

Honor is easier retained than found after once being lost.

The longest way round the bar room is the shorest way home.

We would rather have the reputation of some men than their character.

There is a vast difference between being a cross bear and a cross bearer.

Some politicians who think they are fooling the people are merely fooling themselves.

The wise merchant believes in signs—and uses them in the shape of advertisements.

A man may be sure that he is growing old when he begins wondering if he looks his age.

Those who work hardest to get something to eat are the ones who most enjoy eating.

It has been said that the great poets are all dead—and the others are having a hard time making a living.

Not all the funny sayings attributed to children have their origin with the funny papers. A Lincoln little girl sat down to the breakfast table the other morning and plaintively remarked: "O, mamma, I'm getting so tired of these milkweed cakes."

LaGrippe and Pneumonia.

Pneumonia often follows LaGrippe but never follows the use of Foley's Honey and Tar. It cures lagrippe coughs and prevents pneumonia and comsumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Gsgood St., Chicago, writes "My wife had a severe case of lagrippe three year ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. Sold by A. L. Reichert.

From the Foolish Dictionary.

Ice—A substance frequently associated with a tumble in winter, a tumble in summer and a skate the year around.

Infant—A disturber of peace.

Hug—A round about way of expressing effection.

Accident—A condition of affairs in which presence of mind is good but absence of body better.

The Devil—An old rascal mentioned in the bible and always found in the choir.

Mitten—Something a tenderhearted girl gives a young man when she knows she is going to make it chilly for him.

Moon—The only lighting monopoly that never made money.

Obesity—A surplus gone to waist.

Miracle—A woman who won't talk.

Orchard—The small boy's Eden of today in which the apple again occasions the fall.

Prune—A plum that has seen better days; the boarding-house veteran and the landlady pet; badly wrink'led, yet well preserved.

Pointers for Men.

Sauk Center Herald: The whipping post for wife beaters has no terror for most men. They know the lash don't hurt a corpse.

A girl would rather be kissed by a man with a beard. When she wants to kiss a smooth face she can kiss another girl.

The prettiest girl at masquerades is always the one that unmasks first.

When a boy calls his father "the old man" it is generally the father's fault.

Every woman likes to pet a great, big, burly man, and it suits the man.

If every woman was as considerate of her husband as she was of her lover there would be few divorces.

Every women thinks her own child would be better in school if it wasent discriminated against.

Men who think they are smart compliment a woman's baby. Men who are really smart, compliment her on the way she is bringing it up.

An unnatural mother is one that does not think her own baby the cutest in the world.

A girl that doesn't like to be hugged is likely to develope into a criminal.

The trimmest waist is the one that gets compressed the most frequently.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Cough and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies, all others are mere imitations, H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.

There's pretty girl in an Alp'ne hat,
A sweeter girl with a sailor brim.
But the handsomest girl you'll ever see,
Is the sensible who uses Rocky Mountain Tea. A. L. Reichert.

Notice for Application for Liquor License.

STATE OF MINNESOTA, COUNTY OF RED Lake, City of Red Lake Falls, ss.

Notice is Hereby Given, That application has been made in writing to the City Council of said City of Red Fake Falls, and filed in my office, praying for Licence to Sell Intoxicating Liquors for term commencing on March 25th, 1905, and terminating on March 24th, 1906, by the following person, and at the following place, as stated in said application to-wit:

W. H. KRUEGER

in that certain frame building situated on lot 14 of block 7, in Champagne & Dow's addition to Red Lake Falls, Minn. Said application will be heard and determined by said City Council of the City of Red Lake Falls at the City Hall in the City of Red Lake Falls in Red Lake County, and State of Minnesota, on Thursday the 2nd day of March A. D. 1905, at 8 o'clock P. M.

Witness my hand and seal of the City of Red Lake Falls this 16th day of February, A. D. 1905.

f16 A. P. TOUPIN, City Clerk

Russia Dominates Asia.

There can be no doubt that Russia has been holding the "whip hand" over China and in general the whole of central Asia as far south as the Indian border—ruler in substance, if not in name—quietly pushing forward to consummation her gigantic schemes for political and commercial dominance in Asia. Already her traders, her spies, her military officials and diplomatists have threaded the wilds of Turkestan and even Tibet and hitherto other inaccessible regions of central Asia, sowing sedition in one spot, conciliating the native tribes in another, blinding the Chinese government and the world at large as to her real intent, each and every step a part of a carefully thought out and prearranged plan, formulated years ago in Russian chancelleries, to undermine British influence, which is the only barrier liable to obstruct Russian policy.—W. C. Jameson Reid in Gunton's Magazine.

The Latest Trick.

Some time ago a rumor went round that astute publishers had in their pay a large number of the most attractive diners out. Your neighbor at table would lead the conversation to the latest novel, quite the easiest of conversational openings between strangers who lay their heads together over the menu and have to entertain each other for an hour. You are interested in the description of the book of the hour, you are a little ashamed of not having read it, and, going home, you sit down and order the book—from the circulating library. Every publisher, every theater manager, every deviser of a patent medicine, knows that the advice of a friend is a more concentrated and personal pull than the opinion of a critic from the empyrean. And if the idea was ever carried out it deserved to succeed. But no one ever spotted the paid diner out. There was the artistry of the thing.—London Daily Chronicle.

Venice.

At least one of the most famous cities of the world never suffers from drought. Not long ago the waters rose so high in the realm of the Queen of the Adriatic that gondolas moved to and fro with freedom in the great square of St. Mark, and those wonderful bronze horses which Napoleon took to Paris, but which were afterward taken back to Venice, became sea horses for the nonce. Fortunately, however, the dominion of the doges and the council of ten is in no peril of ever suffering a calamity like that which overwhelmed Galveston.

Two Through Tourist Cars to California.

The Chicago Great Western Railway offers choice of two through tourist cars every week to California, one leaving Minneapolis and St. Paul Tuesdays via Omaha and the Rock Island Route, arriving San Francisco 5:20 p. m., Saturday, the other leaving on Thursdays via Kansas City and the Santa Fe route, arriving at Los Angeles 8:25 a. m. Monday. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

Order to Examine Accounts.

STATE OF MINNESOTA, COUNTY OF RED LAKE, ss:

In Probate Court,
Special Lerm, February 8, 1905.

In the Matter of the Estate of Noe Lefebvre, deceased:

On reading and filing the petition of Rock Lefebvre, the administrator of the estate of Noe Lefebvre, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law:

It is Ordered, That said account be examined, and petition heard by this Court, on Thursday, the 9th day of March, A. D. 1905, at one o'clock p. m., at the Probate Office in the city of Red Lake Falls, in said county.

And it is Further Ordered, That notice thereof be given to all persons interested by publishing a copy of this order once in each week for three successive weeks, prior to said day of hearing, in the RED LAKE COURIER, a weekly newspaper printed and published at Red Lake Falls, in said county.

Dated at Red Lake Falls, the 8th day of February, A. D. 1905.

By the Court,
N. W. TARRANT,
f923 Judge of Probate.

Order for Hearing on Claims, Etc.

STATE OF MINNESOTA, COUNTY OF RED LAKE, ss:

In Probate Court,
Special Term, February 8, 1904.

In the Matter of the Estate of John C. Malmquist, deceased.

Letters of administration on the estate of John C. Malmquist, deceasek, late of the County of Red Lake, and State of Minnesota, being granted to Ernest J. Akerlund,

It is Ordered, That six months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the Probate Court of said County, for examination and allowance, or be forever barred.

It is Further Ordered, That the 8th day of August, 1905, at ten o'clock A. M., at a special term of said Probate Court, to be held at the Probate Office in the Court House in the City of Red Lake Falls in said County, be and the same hereby is appointed as the time and place when and where the said Probate Court will examine and adjust said claims and demands.

And it is Further Ordered, That notice of such hearing be given to all creditors and persons interested in said estate by forthwith publishing this order once in each week for three successive weeks in the RED LAKE COURIER a weekly newspaper printed and published in said County.

Dated at Red Lake Falls, the 8th day of February A. D. 1902.

By the Court,
N. W. TARRANT,
f923 Judge of Probate.

VOL. VII—NO. 20. RED LAKE FALLS, MINNESOTA, THURSDAY, FEBRUARY 23, 1905. WHOLE NO. 332.

NELS OTTERNESS SUICIDES

Prominent St. Hilaire Business Man Kills Himself in Minneapolis Hotel.

Supposedly despondent over business affairs and worried over matters of a private nature, Nels Otterness, the well-known and supposedly well-to-do St. Hilaire land man, Tuesday evening entered the Beauford hotel at Minneapolis, paid for his night's lodging, went to his room, turned on the gas and after locking the door deliberately laid down upon the bed to die of the deadly fumes.

The body was found yesterday by the clerk of the hotel who became suspicious at the continued silence in the room and by the strong smell of gas. The door was broken open and Otterness found cold in death. His relatives and business acquaintances at St. Hilaire were immediately notified of the terrible affair, and an investigation of the dead man's business interests brings to light much which substantiates the suicide theory.

Otterness last fall succeeded Julius Pleth in his large land business at St. Hilaire and has done what was presumed by his friends to be a very thriving business. He was interested in a large hardware and furniture store at St. Hilaire with A. M. Enstrom and also had a half interest in a general store at Hazel. A young man of exceptional habits and marked ability in business, Mr. Otterness is the last man in the world whom his friends would believe the victim of his own rash destructive hand. Events are as they are however and no other solution of the case is possible.

Otterness when found dead in his room had not a penny upon his person or in his grips; his grips and bags had not been opened after his entry into the room and from the fact that no burned matches were found, it is evident that he did not light the gas and then blow it out, a procedure which might have made death accidental.

At St. Hilaire last evening the general conceusus of opinion was that Otterness had killed himself, while temporarily deranged because of financial reverses. He has a host of friends at the Saintly village who deplore his rash act and sympathize with his friends and relatives. A prominent young lady of St. Hilaire it is understood was engaged to be married to Mr. Otterness during the coming summer.

COMES LATE THIS YEAR.

The Latest Easter since 1886—A Rare Occurence.

Only nine times in two and quarter centuries has Easter fallen as late as it does this year. Only five times in this period has it come later in the spring than it does during 1905, and it is never possible for it to fall more than two days later than April 25, and only twice does it come on this day of the month. During this period it comes three times on April 24, and four times on the 23.

This year Easter Sunday will be celebrated on April 23. This is the latest date since 1886, when it came April 25, the latest date possible.

As a result of a late Easter, Lent of course falls correspondingly late, and this means a very long winter social season, which will last until March. Lent can come as early as February, thus cutting the gaiety of the social season.

In the Love League.

Clerk of Court Perrault issued marriage licenses last week to the following parties: Joe J. Berglund and Miss Bertha L. Christianson, Thief River Falls; R. E. Sotheran and Miss Tina Graham, Thief River Falls; John A. Perreault and Miss Luzia Landry, Terrebonne; Fred Lehrer and Miss Augusta Gerlach, Wylie.

WAS A SOCIAL SUCCESS

Dance at Opera House Tuesday Evening was a Delightful Affair.—Large Crowd Present.

The Metropolitan opera house last Tuesday evening was the scene of one of the most brilliant social events of the season, when the gentlemen of the town gave a dancing party to the ladies in return for the favors shown by members of the gentler sex during leap year. It was a large gathering, there being about one hundred twenty-five present. The company assembled in the early evening and the last number was not reached until the wee small hours.

The house was tastily decorated and was provided with parlor furniture and the scene presented was one of comfort and enjoyment. Each lady was presented with carnations upon entering the ball room, and every thing was done to make the occasion a brilliant and pleasing success. The Red Lake Falls band orchestra furnished the music and it was up to their usual high standard. Everyone in the large crowd entered into the spirit of the occasion, and as a result the affair was pronounced by many as being the most enjoyable of the season. Good cheer and mirth added much to the evening's enjoyment and the occasion will long be remembered by those present.

At 12 o'clock supper was announced as being ready at the Grand View hotel. Landlord Krueger and his estimable wife were repeatedly complimented on the fine spread, and the repast certainly justified all the nice things said about it. It is no small task to take care of so large a crowd of people, but the Grand View management handled the crowd in a most satisfactory manner and are deserving of great credit for their efforts.

BAND CONCERT.

Monthly Event Tomorrow evening to be a pleasing one.

The regular monthly band concert will be presented at the Metropolitan opera house tomorrow (Friday) evening. A first class entertainment is assured. A fine program has been prepared. and the boys have worked faithfully to make the entertainment one of enjoyment. A glance at the program below will convince music-loving people that the evening's entertainment will be a most delightful one. Show your appreciation of a good band and its efforts to please by being present. The program:

PART I.

March.......................W. P. Chambers
"The Boys of the Old Brigade."
Overture............................Keler-Bela
"Lustspiel."
Baritone Solo.......................J. Hartmann
Grand Fantasia—"Pretty Jane."
J. B. Armstrong.
Declamation.....................The Polish Boy
Miss Ina Linnehan.

PART II.

Polka..................................A. Parlow
"The Anvil."
Grand Selection.........................Wallace
"Maritana."
Quartette...................Within a Litte Wood
Misses Margeret Kaus, Iza Tibbetts, Jessie Carver and Clara Marchand.
Waltz...............................E. Waldecnfel
"L'Estudiantina."
March................................F. von Blon
"Dirch Kampf zum Seig."

TEACHERS' MEETING.

To Be Held at St. Hilaire on May 5 and 6, 1905.

The next regular meeting of the Red Lake County Teachers' Protective association will be held at St. Hilaire, May 5 and 6. The principal feature of the meeting will be a spelling contest. A list of about 1,200 words will be sent to all of the common schools of the county, and the winner of each common school contest will be sent as a delegate to the teachers' meeting, where there will be an old-fashioned "spelling down" contest. An appropriate banner will be awarded to the school winning the contest, and also a prize to the pupil. The names of all the contestants will be published in the various county papers. "Teachers' Wages," "Rural School Consolidation" and "Ventilation" will be discussed, and papers on "Spelling" and other topics will be prepared by members of the association. School trustees will be invited to attend the meeting and expected to take part in the program. This will undoubtedly be the most interesting meeting ever held by the teachers of the county, and it is hoped there will be a large attendance. A complete program will be published later, and a leading feature will be an address by some prominent Minnesota educator.

TERMS NOT EXTENDED.

Attorny General Interprets Law as to Town Chairmen.

Attorny General Young has rendered an opinion which settled a mooty question is whether under the statute relating to the election of supervisors, the members of the board designated as chairmen on the ballot of the election of 1904, holds the chairmanship of the board for three years.

The attorney general rules are as follows in an opinion sent today to S. D. Payne, town clerk, Kasota Minn.:

"That statue extended the office of supervisor from a one-year to a three-year term: and provided that at the election of 1904 one supervisor should be elected for one year, one for two years, and one for three years, and that thereafter each supervisor should serve for three years. It also provides that one of those elected should be designated chairman."

"The chairman chosen at the last election would hold the chairmanship for the length of time for which he was elected, which would be one, two or three years, according to the desgnation of the length of his term on the ballot. Hearafter the chairman will serve as such for three years. And no 'chairman' need be designated on the ballot, except in years when there is a vacancy in that office."

New line of correct fall stationery just received at THE COURIER stationery store.

SHOOTING WAS JUSTIFIBLE

Deputy Sheriff Jarman of Thief River Falls Says Cernousek Is Not a Murderer.

"John Danielson was not murdered. He was shot by Night Policeman Cernousek because he was resisting arrest and had made a vicious and dangerous attack upon the officier. Cernousek's life was in danger, and he shot justifiably in self-defensd."

George Jarman of Thief River Falls, and chief deputy sheriff of Red Lake county made this statement to a Minneapolis newspaper reporter Tuesday. He disputes entirely the story told by Private Detective Coleman upon his return from Thief River Falls a few days ago. Mr. Coleman said that the shooting of Danielson last November was utterly unjustifible and that Cernousek will have to stand trial.

"I was the first man on the ground after the shooting occurred," said Deputy Sheriff Jarman Tuesday, "and I know the case thoroughly and from the beginning. Danielson came to Thief River Falls with two boon companions and they were drunk for a day or two. The night the shooting occurred Danielson was in an ugly mood and threatened several people. Late in the night he was thrown out of the backdoor of a saloon and crawled into a woodshed and went to sleep.

"Cernousek came through the alley, in the course of his duty as night policeman, found Danielson, woke him up and told him he must get out of there. Danielson immediately attacked him, and Cernousek drew his revolver and told him to march ahead of him.

"After going in this fashion for some time Danielson again turned and attacked Cernousek, but even then the latter did not shoot until Danielson, who was a powerful fellow, had thrown him to the ground and was grappling with him.

"Then Cernousek shot. The bullet entered the face, and so close was the gun that the flash blistered the skin. Coleman says the men were eight feet apart when the shot was fired. That is not true. They were grappling on the ground.

"As soon as he had shot Danielson Cernousek telephoned me and I was on the ground within a few minutes. Cernousek wanted to give himself up, but I told him to go home and report next morning.

"It is not true, as stated by Mr. Coleman, that Cernousek was dismissed from the police force. He served two months after the shooting and then resigned.

"He has the good will of all the better people of Thief River Falls. The tough class do not like him as he has always been after them."

"Bill Had a Bill Board."

"Bill had a bill board," says an exchange. "Bill also had a board bill. The board bill bored Bill so that Bill sold the bill board to pay his board bill, then the board bill no longer bored Bill." Another exchange suggested in line with the tale of Bill's board bill and Bill's bill board that if Bill's board bill bored Bill, why not "board" Bill with a board from Bill's bill board and throw Bill's bill board overboard.

Reflections of a Bachelor.

New York Press: A fool and his honey are soon married.

A woman considers she is large minded when she judges a railroad president's abilities by the necktie he wears.

Some girls are so immodest that they can't help blushing when they hear a man got his legs cut off in a railroad accident.

You can never make a woman believe that cutting bread up into nice pretty shapes won't make sandwiches out of things that aren't.

ASSASSIN KILLS NOTED RUSSIAN

THROWS BOMB UNDER CARRIAGE CONTAINING GRAND DUKE SERGIUS.

His Victim Is Instantly Killed—Head Is Torn from Body—Coachman Fatally Injured—Murderer Caught—Horror Occurs in Moscow.

Moscow, Feb. 18.—Within the walls of the far-famed Kremlin palace, and almost underneath the historical tower from which Ivan the Terrible watched the heads of his enemies falling beneath the ax on the famous Red Square, and within a stone's throw of the great bell of Moscow, Grand Duke Sergius, uncle and brother-in-law of Emperor Nicholas and the chief of the reactionaries, met a terrible deatn shortly before three o'clock Friday. The deed was committed by a single terrorist, who threw beneath the carriage of the grand duke a bomb charged with the same high-power explosive which wrought Minister Von Plehve's death. The missile was packed with nails and fragments of iron, and its explosion tore the imperial victim's body to ghastly fragments, which strewed the snow for yards around. Every window in the great lofty facade of the palace of justice was shattered and bits of iron were imbedded deeply in the walls of the arsenal, a hundred yards away.

The Assassination.

According to late details, Grand Duke Sergius, who generally was accompanied by his wife when out driving, was on this occasion going to his private Russian bath in his old official residence in Tverskaia street. The vehicle in which he rode was a plain, shabby, closed carriage, such as would not be likely to attract attention. It was followed by detectives in a couple of cabs. The grand duke was driven rapidly and was half way across the square between the great bell tower and the Nicholas gate when the bomb was thrown beneath his carriage, where it exploded, literally demolishing the vehicle, killing the grand duke and fatally injuring his driver. The assassin, badly wounded, was captured. He refuses to give his name and glories in his deed.

Head Blown Off.

The grand duke was instantly killed. His head was blown off, actually being separated from his body, which was frightfully mangled.

Grand Duchess Elizabeth, who has been engaged daily in the task of preparing comforts for the sick and wounded Russian soldiers in Manchuria, was about to drive to the palace to join her husband. When she heard of what had befallen the grand duke she was driven in haste to the scene of the tragedy and knelt hatless and coatless on the blood-stained snow and murmured prayers for the welfare of the soul of her slain consort.

The only actaul witnesses of the assassination were a couple of policemen on beat in the vicinity. It still appears to be uncertain whether the assassin was in a sleigh or hiding in the tunnel beneath the Nicholas tower.

Was Intesely Unpopular.

Grand Duke Sergius, who was a brother-in-law as well as uncle of the emperor, and who had exercised immense influence at court, was regarded as the most reactionary of the grand dukes. As governor general of Moscow he was intensely unpopular. His advent as governor general of Moscow was followed by expulsion of the Jews from the central provinces and throughout his administration his rigorous and harsh measures aroused the greatest hostility, especially among the students.

News Prostrates Czar.

St. Petersburg, Feb. 18.—The news of the assassination of the grand duke reached Tsarskoe-Selo while the imperial family were entertaining Prince Frederick Leopold of Prussia. It created the greatest consternation. The emperor is reported to have been completely prostrated.

In Great Fear.

St. Petersburg, Feb. 20.—Panic prevails among the aristocrats of Russia, who display a growing desire to send their capital abroad in view of the increasing possibility of a reign of terror. The apprehension has cowed even the royal family. All the grand dukes wanted to go at once to Moscow when the news of the assassination of Sergius was known, but the czar promptly forbade them to do so. He feared the danger into which they would be plunged. Other terrorist crimes are generally anticipated. According to reports, many cities and towns are in a condition of political ferment, and several officials have been assassinated in southern Russia.

May End War.

St. Petersburg, Feb. 20.—In diplomatic circles the opinion is quite generally expressed that Friday's tragedy may be followed by the decision of the government to conclude peace.

May Have Fortune Hidden.

Cleveland, O., Feb. 20.—One million dollars is the amount believed to be securely hidden by Mrs. Cassie L. Chadwick. Collector of Customs Leach has so minutely traced the operations of this woman during the last four years that he is in a position to know that the item saved from her many financial transactions is $1,000,000 in cold cash. In addition to this sum, the woman has just as safely placed $150,000 worth of jewelry.

Made Bad Nickels.

Celina, O., Feb. 20.—Elijah Lynch, aged 36, and Fred Harmon, 17 years old, have been arrested on the charge of making counterfeit five-cent pieces.

DEATH OF JAY COOKE.

Well-Known Financier Suddenly Passes Away in a Philadelphia Suburb.

Philadelphia, Feb. 17.—Jay Cooke, whose fame as a financier is worldwide, died Thursday night at the home of his son-in-law, Charles D. Barney, at Ogontz, a suburb of this city. Mr. Cooke was 83 years of age.

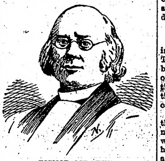
Mr. Cooke was known the world over as the famous financier who, through his financial failure in 1873, pulled the United States down with him and caused the great panic of that year. Mr. Cooke founded the firm of Jay Cooke & Co. before the civil war and it raised the money necessary to carry on the operations of the government in the rebellion. In one year, during which it was the sole financial agent of the government, the house of Jay Cooke & Co. transacted a business of $3,000,000,000. This was in the year in which the great 7-30 government loans were floated. Within less than five months of that year Jay Cooke & Co. paid to the United States government $830,000,000 in gold.

After the war his firm became the agents of the Northern Pacific railroad, but misfortunes overtook it in 1873, and its suspension caused the panic of that year. In the crash the firm failed for $4,000,000. When Mr. Cooke closed the doors of his banking house he was practically stripped of every dollar that he had gained in 30 years of an extraordinary career. To use his own words: "I lost $5,000,000 in one day." He went into a small office and started life anew as a broker. Before 1900 all his firm's debts had been paid and Mr. Cooke was again a millionaire.

GONE TO HIS REWARD.

Death of Rt. Rev. William E. McLaren, Protestant Episcopal Bishop of Chicago.

New York, Feb. 20.—Rt. Rev. William E. McLaren, Protestant Episcopal bishop of Chicago, died here Sunday night. Death was due to heart failure. The bishop had been ill for a month, during the greater part of which time he was confined to his bed. The members of the bishop's family, with a few friends, were at the bedside when the end came. Besides a widow, the deceased is survived by one son and two daughters. Bishop McLaren was born in Geneva, N. Y., in 1831. In 1860 he entered the Presbyterian ministry, and 11 years later embraced the Episcopal faith and was ordained in Detroit in 1872. He was consecrated bishop in 1875. Bishop McLaren founded the Western theological seminary in Chicago in 1883, and was the author of many religious works.



BISHOP M'LAREN.

NOBLE WOMAN HONORED.

Statue of the Late Frances E. Willard Placed in Statuary Hall.

Washington, Feb. 18.—Appropriate exercises were held in the senate in acceptance of the statue of Frances E. Willard, the distinguished temperance advocate, which has been placed in Statuary hall in the national capitol by the state of Illinois. Notwithstanding there are about 40 pedestals in the hall, the statue of Miss Willard is the first of a woman to find a place there, and the members of her sex showed their appreciation of the compliment by turning out in large numbers to listen to the eulogistic addresses made in connection with the ceremony. Addresses eulogistic of Miss Willard were made by Senators Cullom, Beveridge, Dolliver and Hopkins. On motion of Senator Cullom the statue was accepted—"the statue of one of the most eminent women of the United States"—as the resolution expressed it. At the close of the ceremony at 4:32 p. m. the senate as a further mark of respect to Miss Willard's memory adjourned.

Similar exercises were held in the house. The proceedings were opened by the reading of a lettter from Gov. Deneen of Illinois, presenting the statue to the United States. Mr. Foss (Ill.) offered a resolution of acceptance. Pending its adoption speeches extolling the life and deeds of Miss Willard were delivered by Messrs. Foss Graff and Rainey, of Illinois, and Littlefield, of Maine.

Fine Block Destroyed.

Denver, Col., Feb. 20.—The Symnes block, a three-story structure occupied by stores and offices, was destroyed by fire Sunday, entailing a loss estimated at $300,000. The cause of the fire has not been determined. The heaviest losers are: The Great Leader department store, $125,000, and Symnes estate, owning the building, $100,000.

Defended His Mother.

Cleveland, O., Feb. 20.—Will Avis, a farmer, was shot and instantly killed by his 16-year-old stepson at his home at Wickliffe, a few miles east of Cleveland, on Sunday. Avis and the boy's mother had been quarreling and the boy took his mother's part.

MINNESOTA NEWS.

Tame Wild Cats.

Domestic cats running wild, and their descendants born in the timber threaten to overrun the forests of Lake county, on the north shore of Lake Superior.

Several years ago a lumber company operating in that division of the state distributed about fifty cats among its camps and at the headquarters for supplies to kill off the rats, which were doing much damage. When the camps broke up most of the cats were left to shift for themselves, and the result has been that they are now running wild, with their hundreds of decendants, and the feline population of the county has already reached astonishing proportions.

To all intents and puposes the animals have been transformed from domestic to wild cats. The kitten born to the wild conditions are much larger and fiercer than the old Duluth mousers that bred them. As a rule the kittens grow nearly a third larger than the old tabbies and their fur is longer and finer than that of cats raised in the domestic state. The animals are more active and better conditioned.

The new race of wild cats has no difficulty in making a good living in Lake county, which abounds in rabbits, wild mice and birds.

Prison Report.

The report of Warden Henry Wolfer of the state prison for two years ending July 31, 1904, states that during that time 180 have been committed to the prison, of whom twenty-two have died, thirty-nine were pardoned, and seven were transfered to asylums.

The income from visitors' fees was $6,619, most of which has been turned into the fund for the amusement and education for the prisoners.

The total number of prisoners is 581, of whom 346 are bachelors, 170 married, 23 divorced and 42 widowers. Grand larceny is the most common offense in the state.

Laborers are most tempted to commit crime, as the prison contains 180 who have been in that occupation; 55 have been farmers, and bookkeepers come next with 20 representatives.

As to nativity of the prisoners, Minnesota comes first, New York next and Canada third. As to habits, only 28 are total abstainers, 254 are heavy drinkers, and 319 drink moderately.

Almost Deserted.

The state supreme court has moved into its quarters at the new capitol. The office of the clerk and the chambers of the judges are now ready for occupancy. The court room is not entirely finished, but it will be in condition to hold the next session of the court.

George N. Lamphere, secretary of the soldiers' home board, has received notice that his rooms in the north wing of the basement are ready for him. He expects to move soon. The adjutant general's department will also move into its new quarters in a few days.

This will leave the old capitol deserted, with the exception of the department of public instruction, historical library, the laboratory of the dairy and food commission and the live stock sanitary board.

Sponser for Battleship.

Miss Rose Marie Schaller of Hastings will act as sponsor for the battleship Minnesota, which will be launched April 6 at Newport News, Va. The appointment of Miss Schaller was made by Gov. Johnson, following a telegram received from Paul Morton, secretary of the navy, asking the governor to name a girl to christen the ship.

It was not known definitely until this dispatch was received yesterday, when the launching would take place or whether Gov. Johnson would be called upon to name a sponsor. Coupled with a request to name a sponsor is an invitation for Gov. Johnson to be present at the launching.

Miss Schaller is a daughter of Senator A. Schaller of Hastings. She is a sophomore at the Minnesota State University.

Binding Twine.

The production of the state prison of all the binding twine used by Minnesota farmers was advocated by J. F. Jacobson of the state board of control, before the house committee on binding twine. The output he said should be increased from 10,000,000 to 15,000,000 pounds per year, so that clubs of the poorer farmers could order state twine through dealers who guaranteed payment and were allowed a profit of 1 cent a pound, the same as if they bought the twine outright. The farmer would still have a considerable saving.

News Notes.

The North Star Implement company has been incorporated at Cottonwood.

Bena is exceedingly lively as a result of logging. Three camps are being operated just outside of town.

The Twin City automobile dealers are making plans for an automobile day at the state fair.

Christian Lind, of St. Paul, was sentenced to ten days in the workhouse for the larceny of a meal at a restaurant.

Judge Austin Hill Young, for 18 years a judge of the Hennepin county district bench, died at his residence in Minneapolis, after an illness of several months.

Dr. Bracken, of the St. Paul board of health, says sand filters are cheap and effective in purifying the water supply of a small city.

Good seed will be preached to the farmers along the line of the Milwaukee railroad the latter part of this month. The railroad company is to co-operate with several professors of the state farm school in a missionary campaign.

RUSSIA WANTS REFORM.

The Czar Appoints a Commission to Investigate the Needed Reforms of Empire.

St. Petersburg, Feb. 21.—Senator Shidlovski, president of the commission appointed by Emperor Nicholas to ascertain the causes of discontent among the working classes of St. Petersburg, in a note, issued yesterday, invites the employers and workmen to elect representatives to sit on the commission.

Factory owners and contractors employing not less than 100 persons are entitled to elect fifteen representatives of the different industries, while the workmen of the various establishments can choose electors, who, on March 3, will elect forty-five delegates to serve on the commission.

Each establishment employing 100 to 500 persons is entitled to choose one elector, and those employing 300 to 1,000 persons, two electors.

Concerns employing over 1,000 persons are entitled to an elector for each 300 employes.

Both men and women are entitled to vote, but delegates must be men who have worked at least a year in their respective factories, and must be freely elected by the workers themselves, without interference on the part of the employers.

The note issued by Senator Shidlovski guarantees the personal safety of the delegates.

105 MINERS ARE ENTOMBED

Explosion at Birmingham, Ala., Brings Grief-Stricken Relatives to the Mine.

Birmingham, Ala., Feb. 21.—One hundred and five miners, some white and some colored, are entombed in the coal shafts of the Alabama Steel and Wire company at the Virginia mines, six miles south of Bessemer, and a large force of men is engaged in a heroic effort to rescue them, but the odds are fearful, and the chances seem against the entrapped miners.

An explosion occurred in the mine at 4 o'clock yesterday, which brought down a mass of timbers, silt, coal and earth near the entrance, completely closing up the mine. The explosion was the result of what is known in mining vernacular as a "dry shot." The men at work in the mine were on the sixth lift far under ground and beyond the sound of human voice.

The noise of the explosion aroused the entire camp and soon a great concourse of people had gathered at the mouth of the mine. When the wives and children of the entombed saw the result of the explosion, the complete closing up of the mine, they cried out in anguish, quickly realizing that unless strenuous and almost superhuman efforts were made their loved ones were doomed to death.

Arrested.

Grand Forks, N. D., Feb. 21.—A message received from Regina, N. W. T., announces the arrest of J. E. Lewis, who left here about two weeks ago, and whose accounts in the Grand Forks Merchantile company were alleged to be short $36,000. He was manager for several years.

Lewis has agreed to return without requisition papers. Sheriff A. F. Turner left for Regina to bring the prisoner back. Since the departure of Lewis, efforts have been made to have been made to have his wife turn over the property left by him. Negotiations are still pending.

Lewis is said to have expended a great deal of money in a farm located near Mohall, N. D.

Gloria Lung Balsam
its a pleasant prepartion. Contains honey tar and other healing balms. It is unequalled for coughs colds, bronchitis and other forms of lung and throat trouble. Sold by W. A. Schreiter.

OFFENSIVE CATARRH

I suffered for a long time with a bad case of Catarrh, and took a great deal of medicine without any benefit.

I had a continual headache, my cheeks had grown purple, my nose was always stopped up, my breath had a sickening and disgusting odor, and I coughed incessantly.

I heard of your S. S. S. and wrote you. I commenced to use it, and after taking several bottles I was cured and have never since had the slightest symptom of the disease. MISS MARY L. STORM, Cor. 7th & Felix Sts., St. Joseph, Mo.

Wheeling, W. Va., May 29, 1903.
I had Nasal Catarrh for years for which I used S. S. S. with very gratifying results. I tried local applications for some time, and getting no permanent relief I came to the conclusion that the seat of the trouble was in the blood. Knowing S. S. S. to be a good blood medicine I began its use, and after using it for some little while it did away entirely with the offensive mucus in the nostrils, and I did not have to hawk and spit, especially in the morning, to dislodge the catarrhal matter.
1627 South St. FRED H. PRESSY.

The filthy secretions and foul mucus that are continually dropping back into the throat, find their way into the stomach and are absorbed into the blood. Catarrh then becomes constitutional, and the only way to get rid of it is through the blood. Write us if you have Catarrh, and our physicians will advise you without charge.

Headache

Can be Cured with Dr. Miles' Anti-Pain Pills.

If your nerves are subject to disturbances, such as Headaches, Neuralgia, Backache, Rheumatism, Menstrual Pains, Sleeplessness, etc., their jarring and jangling can be quickly ended with a Dr. Miles' Anti-Pain Pill.

Dr. Miles' Anti-Pain Pills are pleasant little pink tablets, which do not act on the bowels, nor do they have any disagreeable weakening or habit-forming effect on the system.

They are the result of the latest scientific knowledge on the subject of Pain, and bring relief safely and quickly to the greatest sufferer.

You should always keep a box of Dr. Miles' Anti-Pain Pills in the house, since you never know when pain may attack you, and it is wrong to suffer when your suffering can be so quickly relieved.

Dr. Miles' Anti-Pain Pills contain no opium, chloral, cocaine, morphine, or similar drugs, and are sold by druggists under a guarantee to relieve you, or pay your money back.

By relieving Pain, Dr. Miles' Anti-Pain Pills shorten suffering, and lengthen life. 25 cents. Never sold in bulk.

"I have used Dr. Miles' Anti-Pain Pills when troubled with headache, and find that one pill infallibly effects relief in a very short time. I also use Dr. Miles' Nerve and Liver Pills when necessary. I am considerably afflicted with neuralgia of the head and find these pills of much benefit to me. They are all that is claimed for them."—GEORGE COLGATE, 219 Oakland St., San Antonio, Tex.

FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank. Our Specialist will diagnose your case, tell you what is wrong, and how to right it, Free. DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

Prison Statistics.

The report of Warden Wolfer, of the Stillwater state prison, for the two years ending July 31, 1904, has been filed. It shows that during that time 180 prisoners were committed, 22 died 7 were transferred to asylums; $6,619 were received from visitor's fees. The total number of prisoners is 581. Of these 346 are bachelors, 23 divorced and 42 widowers. Grand larceny is the most common offense. The largest representation is from the laborers there being 183 of this class. The farmers are represented by 55 men and the bookkeepers by 23. Of the prisoners 234 are heavy drinkers and only 8 are total abstainers. The nativity classification shows Minnesota first, New York second and Canada third.

Rules for Woodmen.

The head officers of the Modern Woodman of America are instructing the camps throughout the country to "cut out" of their initiation work all unauthorized "horseplay." Some of the "stunts" which over ambitious teams have been taking upon themselves to introduce, are ordered to be hereafter omitted.

It is understood that every camp of the order has been advised that any deviation from the ritual will be followed by a revocation of the offending camp's charter and the suspension of every member of the camp from the order.

The practice of some camps to introduce side degrees has resulted in injury to candidates and consequent suits for damages against both local camps and the head camp. It is hoped to put a stop to injury to condidates by the use of unauthorized paraphernalia.

A man who was initiated into a camp a small northwestern Iowa town alleged in a damage suit that he had been burned in a branding act which it developed was outside the regular initiation work.

This case and others roused the head camp to act in the matter.

A Monster Engine.

The Burlington engine, which was on exhibition at the World's fair in St. Louis, hauled the flyer through the city Friday afternoon, and came back attached to the night train. The engine is No. 2707, and is one of the largest and latest style engines built. Its driving wheels are seven feet in diamater, or, nearly a foot larger then the big drive wheels on the regular flyer engines, but it has only two on each side instead of three. It was sent here to test its carrying capacity and coal consumption on a track with heavy grades, as the Burlington track is generally more level then the Great Northern.—Fergus Falls Journal.

Agonizing Burns

are instanly relieved, and perfectly healed, by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain and healed it without a scar." Also heals all wounds, and sores. 25c at All Druggists.

Horse Crosses Soo Bridge.

Thief River Press: Yesterday afternoon the horse belonging to J. J. Crowe hitched to a sleigh succeded in breaking away and ran at high speed across the Soo bridge. A number of spectators watched the event with interest expecting to see the horse go through and at least break a leg. When about the center of the bridge, the horse stumbled, breaking loose from the cutter which caused the latter to tumble over the side of the bridge and down onto the ice below. Aside from a few scratches the horse escaped unhurt but the sleigh was badly damaged.

Failed.

All effort have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold by A. L. Reichert.

Gymnastic Stunts.

Last Friday afternoon the caboose attached to the freight train enroute from St. Hilaire to Crookston jumped the track near the little station of Ives, and the Crookston Journal says it turned three summersaults in the air before reaching terra firma.

Conductor C. P. Keeley was in charge of the train, John Berge and George Stilz were the brakemen, all of them were in the caboose when it left the track. No one was hurt seriously, although the conductor [illegible] was shook up and bruised a little more then the brakemen.

How the car could leave the track turn three distinct summersaults in the air and then light without demolishing the car entirely and killing the occupants is puzzling the heads of the many railroad boys in the city.

The track was in perfect condition as the rest of the trains passed safely over the spot of the accident. The caboose used was what is known among the railroad boys as a "dinky" the lightest that are put on the road and this, it is thought, was the cause of the sudden departure from the rails. There are very few of the small cars used in this section now as they are generally considered too light for the hard service. A heavier one had been used on this run up to about two weeks ago then a lighter one was substitutad.

Electricity not a Success.

Mr. F. Faerber, of Concordia Publ. House, St. Louis, Mo., writes: "Rheumatism cannot be cured by electricty. I have tried it for years. I used Gloria Tonic and it completely cured me." Sold by W. A. Schreiter.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

Martial Law.

St. Petersburg, Feb. 21.—Martial law has been declared at Tsarkoe Selo, owing to numerous threatening letters being received at the palace.

The chief of the secret police has ordered special precautions to prevent any outrage on the imperial family.

Peasants of two communities in the province of Norenesch in southwest Russia have taken the unprecepented step of telegraphing direct to Emperor Nicholas asking that their wishes be consulted in the settlement of the grievances in the matter of rents under which they labor.

Stole a House.

Bonesteel, S. D., Feb. 21.—As one result of the claim jumping and general lawlessness that have prevailed among settlers on the Rosebud Indian agency lands, recently thrown open to settlement, a house was picked up, put on bobsleds, and hauled several miles across the prarie last night, while its owner, Hans Oleson, and his family were asleep in the structure.

The house movers intended to appropriate the building to their own use. They had thought it was unoccupied, but when they opened the door they found Oleson and his family at home.

Four Killed.

St. Clairsville, Ohio, Feb. 21.—Four men are dead and fourteen injured as the result of an explosion yesterday of a stationary boiler at a mine of the Provident Coal company.

German Military Expert Finds That Russia Has Most Men While Japan Is Strongest in Artillery.

After a careful compilation and close investigation by German army experts, the Militar Wochenblatt, of Berlin, gives what is probably the nearest estimate yet printed of the strength of the Russian and Japanese land forces.

On the Russian side it is calculated that the active [illegible] army at the present moment consists of 154,850 men and 386 guns; en route from Siberia, 35,700 men and 64 guns; being mobilized in Europe, 57,900 men and 188 guns; total, 248,450 men and 638 guns.

On the Japanese side the active army in the field is given as 152,500 men and 702 guns; in reserve, 74,000 men and 78 guns; total, 226,500 men and 780 guns.

Grave Trouble Foreseen.

It need but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She said: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by All druggists, at 50c a bottle.

"Flinch," "Somerset, and all the new card games, at THE COURIER stationery store.

Consumption

¶ There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

¶ From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They *can* take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

¶ We will send you a sample free.

¶ Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SHIP YOUR GRAIN. We are the only firm in this city, dealing exclusively with the farmer. All Millers know that our cars are of one grade and not elevator mixed, which explains why our service is more satisfactory than any other concern. Submit us samples for grades, etc.
COOPER COMMISSION CO., Minneapolis, Minn.

IMPROVED FARMS.
Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.
Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.
SAW MILLS WANTED
to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.

JOHN E. KING ED. H. CHASE
KING & CHASE, Publishers

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year, in Advance.

IT'S a far cry from congressman to country editor, but Frank Eddy is showing signs of a genuine reformation.

IT requires something more than bluff and bluster to move a county seat. Birds are not caught with chaff.

AN engrossed copy of Frank Eddy's address on the paper trust should be forwarded to Minnesota's senators and representatives in congress.

THE arguments pro and con on the drawback proposition proves that General Hancock's theory that the tariff question is a local issue was well grounded.

SENATOR ALDRICH has gone to Europe for a vacation, but it is under- that the house of lords will not take advantage of his absence to censure the Standard Oil company.

THERE'S nothing the matter with Kansas so far as its fight on Standard Oil is concerned. And some Minnesota patriot can make a record in the legislature by introducing the Kansas oil law.

THERE are no honest people in Red Lake Falls, but the woods at Thief River Falls are full of them. If you don't believe it we can give the evidence of such eminent authority as the Thief River Falls News.

IT is possible that Jim Martin wanted a post-office in order that he need not again endanger his reputation as a political manager. This widely-advertised reputation has recently had a couple of severe jolts.

THE banking business ought to be as safe and profitable as any legitmate mercantile pursuit, and it is. When a bank gets into trouble it is invariably because of outside speculations, as witness the Faribault failure.

THE people are becoming educated on the railroad question. High rates are bad enough, but discrimination and rebates can do more damage to the country town than all other evils of the present railroad situation.

WONDER whom Mary NcFadden was looking for? She says: "A visitor to the splendid new state capitol must be accompained by an acute sense of direction or a competent guide if there is any special office he cares to visit."

REPRESENTATIVE WARE'S bill looking to an investigation of the rates charged by fire insurance companies in the state should receive the earnest consideration of the legislature. There is no question but that the smaller towns and cities of the state are paying to much for fire protection.

FRANK EDDY does not believe in the Republican doctrine that there are good and bad trusts. He asserts that a trust is un-American and indefensible on any ground. The word trust implies a control of the market, and this is contrary to the American principle of a fair field and no favor. We fear very much that Frank's philosophy would not be countenanced in the United senate.

IN his biennial report to the governor, S. T. Johnson, retiring public examiner, recommends an extension of county officers' terms to four years. He would provide, however, that all should not retire in the same year. He would have the county treasurer and county attorney retire one year, and the remaining county officers two years later. This would obviate the troubles caused by a general change of administration.

MANY of the really brilliant men in the Minnesota editorial association are neither office-holders nor ex-congressman. One of the ablest papers ever presented to the society was read at the meeting of the association last week by John C. Applegate, editor of the Cannon Falls Beacon, on the railroad rate question. The speaker shows a familiarity with the subject that equips him for a leader in the fight rapidly approaching in Minnesota.

WE hasten to beg the pardon of our good friend of the St. Peter Free Press. THE COURIER did not mean to do Bro. Miller an intentional injustice. The hurried perusal of a recent editorial in that paper led us to believe that THE COURIER was charged with being the mouthpiece of the state administration. This was an undeserved compliment, and we do not wish either to embarrass the administration or circumscribe the usefulness of THE COURIER.

REFERRING to the delay of the legislature in acting decisively upon the revised code, the Minneapolis Journal says: "Some people look upon this delay as a disadvantage to the state, and perhaps it is. Perhaps we [illegible] revised code right away; [illegible] revised code they are not doing anything else."

THE newspaper situation at Thief River Falls has accomplished another sudden transformation. Two weeks ago Frank Packard bought out the Review and consolidated it with his own paper. Last week McDonald Bros., former publishers of the Review, bought both plants and will continue publication of the Press. All of the parties to the transaction have our best wishes for success. The Thief River Falls people are at least to be congratulated upon getting rid of an unnecessary third newspaper.

WILLIAM J. BRYAN, it is said, tells of his position at present by the following story: A certain young man in the south, where Cupid shoots hard, had fallen desperately in love with a beautiful young woman. So one evening he told her his love. To his intense delight she returned his love and they had one of those soul-satisfying interviews. And as the young man slipped out into the starlight, after an evening of bliss, he raised his hands above his head and said "O, Lord, I ain't got nothing agin nobody."

RED LAKE county has turned out a number of prominent citizens of state, but none has reached a greater degree of success than Mart Adson. Twenty years ago he worked on a farm near Red Lake Falls, and later was employed in Frank E. Hunt's hardware store. He is now railroad passenger agent of the Duluth & South Shore railway, and one of the prominent men in the transportation world. Mr. Adson was not a very good farmer, nor did he show more than mediocre ability in the hardware field. He found his avocation in life in railroad work. Mr. Adson's success proves that a man of genuine worth and ability will somehow and somewhere reach his goal even under the most adverse circumstances of early life.

GOVERNOR JOHNSON addressed the business men of Chicago last Saturday evening on "Commercial and Political Integrity," and embodied in his address some new ideas relative to the demand of the people for cleaner politics and better officials. The Governor prophecies a new alignment of political parties in the near future and believes that the great Mississippi valley will soon come into it own, instead of continuing to worship at the shrine of Wall Street. Throughout his address there is an implied endorsement of the advanced ground taken by President Roosevelt and Governors Douglas, LaFollette, Cummins and Folk. There is one thing most needful in American political life—honesty. Equal rights and exact justice to all are promises often made but seldom redeemed by the guardians of the public weal.

GETTING NEW SETTLERS.

Northern Minnesota is greatly interested in securing new settlers, and the most powerful aid in this will be the state immigration society, recently organized at St. Paul. This society is asking an appropriation from the legislature for the purpose of advertising the manifold advantages of the state, and the Red River valley people should be, especially interested in forwarding this great work. At the recent meeting of the editorial association at St. Paul, Judge John W. Willis, president of society, spoke in part as follows:

"We do not believe that Minnesota is not making progress, but it is not progressing as fast as it might. Great efforts are being made in the countries to the northwest of us to attract immigration. What we want is more folks, more people of the kind that have made this state what [illegible] and has decreased from 8,000,000 to 4,000,000 and a similar decrease is making itself felt in other parts of Europe, and in proportion as they suffer, we gain.

"France, when in the height of her military glory, had a population equal to the total of Great Britain and Germany, and when her population decreased her military prestige declined. It is estimated that Scandinavia loses $1,000 for every emigrant, but every one of them who comes over here is worth $5,000 to us. Until recently Minnesota was most favorably known among the immigrants, but now the government of Manitoba and the other provinces as well as the Dominion government is doing what it can to advertise Canada over the entire world.

"The railroads to the South are trying to divert the immigration thither. The Southern states have advanced slower than the North because immigration has not been turned that way. The population of the South is the old, conservative Americans who do not desire strangers to come among them. Now they are waking up and spending great sums advertising their lands. The activity of the Southern states and of Canada is not the only [illegible]

OUR RURAL FRIENDS.

The duck has no crop.

Don't let the discouragement get the best of you.

Farming is a poor business when the farmer is poor.

Irrigation is said to be lowering the temperature of Egypt appreciably.

Is there in this bright country a single home on the farm where reading is unknown?

Last year nearly 14,000,000 pounds of butter were haulted over the Minneapolis & St. Louis railroad.

The Canadian authorities are increasing their efforts to encourage immigaration to the Dominion.

Now plan what you are going to do this year. Have something to work for and the work will be lighter.

A pig is usually in every stable in Persia; it is thought its presence is beneficial to the health of the horses.

Do not neglect to examine the horse's mouth frequently. A sore mouth is the cause of many unpleasant habits.

Farmers who have kept right along growing draft horses through good times and thrhoug bad have been money ahead.

The Missouri supreme court says a farmer is not a hawker or peddler consequently needs no license to retail his products in town.

In Cuba they cut off the timber and brush, then punch holes in the ground and plant corn. It is never cultivated but grows to the height of sixteen feet and has to be husked by a man on a mule.

Georgia has held the lead in the production of peaches for the Eastern market since 1902 and for years to come is likely to be the leading peach state in Union. She had more than 7,000,000 trees.

A piously inclined schoolboy in Liverpool wrote a religious essay, in which appeared this striking passage: "So he sed upon Moses Come forth; but he came fifth and lost the job. Moral, get np early, and avoid the rush."

A Colorado farmer writes: "We are now raising mules and one very good thing about the business is that buyers come around after them and pay the price we ask, so that we do not have to hunt them up. If a farmer is not a very good rustler for a customer this is a big object."

It costs about one cent a week up to the age of ten weeks to feed a young chick, at which age if properly cared for, it should weigh two pounds. This is equivalent to five cent, as the cost for each pound of chick. To this must be added, of course, the cost of the egg and the labor and trouble of hatching.

A Cullom Ill., woman gets up in the morning, puts on her husband's trousers, builds the fires, milks the cows and does the chores—all before the old man wakes from his slumbers. There would not be so many broken-down husbands, who believe that marriage is a failure if more wives would follow the Cullom woman's example.

If we were unfortunate enough to be among the class of renters, if we had not a foot of land we could call our own, we would make a desperate effort to have the move made this year the last one. We know it is easier to say this than it is to do it, but by this time next year we would at least be found trying to hold down a small farm of our own.

Hit-or-miss farming, as a rule, doesn't pay, but it hurts no man to try an experiment now and then. One or two in a year is enough for the average farmer who farms because he makes his money that way, but to turn the whole farm into a sort of an experimental station, trying a little of this and a little of that, but not enough of one thing to make it pay, is the wrong idea altogether.

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886. A. W. GLEASON, Notary Public. (Seal)

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. [illegible]

The Legal Holiday.

An amendment to the General Statuter relating to "Holiday" shall include New Year's Day, being January 1st; Lincoln's Birthday, Februery 22nd; Good Friday; Memorial Day May 30th; Independent Day, July 4th; Labor Day, first Monday in November, of the even numbered years; such day as may be set apart for Thanksgiving by the proclamation of the governor, and Christmas Day. No public business shall be transacted on these days except in cases of neccessity, nor shall any civil process be served thereon.

Poisons in Food.

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at All druggists. try them.

Fast Tourist Car Service to California.

The Chicago Great Western Railway in connection with the C. R. I. & P. Railroad will run a through tourist sleeping car every week ts San Francisco. Leaving Minneapolis at 8:00 p. m., St. Paul 8:30 p. m., Tuesday yia Omaha, Colorado Springs and Ogden. Arrive San Francisco Saturday 5:20 p. m. COMMODORE NICHOLSON OF OUR NAVY
Recommends Pe-ru-na—Other Prominent Men Testify.

COMMODORE
Nicholson

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1837 R St., N. W., Washington, D. C., says:

"Your Peruna has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities and I unhesitatingly recommend it to all persons suffering from that complaint."—S. Nicholson.

The highest men in our nation have given Peruna a strong endorsement. Men of all classes and stations are equally represented.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

ROYAL
Baking Powder
Saves Health

The use of Royal Baking Powder is essential to the healthfulness of the family food.

Yeast ferments the food.
Alum baking powders are injurious.

Royal Baking Powder saves health.

ROYAL BAKING POWDER CO., NEW YORK.

NOTES IN MINOR CHORD.

Go to the Merchants State Bank for farm loans.

Mr. and Mrs. C. N. Bourdon went to Crookston last evenig,

J. E. Bray has been laid up the past week with an attack of rheumatism.

County Attorney Germo was called to Crookston Monday on legal business.

E. G. Storaasli was a business visitor at Grand Forks the first of the week.

The Royal Neighbors will hold their regular meeting tomorrow (Friday) evening-

Dr. D. G. Mugg, eye specialist, will be at the Grand View Hotel, Tuesday, March 14.

Angus Campbell went to Crookston Tuesday where he will work for a railroad contractor.

The choral union did not meet this week but will meet next Wednesday evening as usnal.

Mrs. G. H. Tibbetts visited over Sunday with her daughter, Mrs. A. O. Davison, at Wylie.

A bright baby girl made the acquaintance of Mr. and Mrs. Dan Linnehan last Friday.

Jacob Thill, one of the Wylie's enterprising grain men, was a Red Lake Falls visitor Monday.

W. A. Schreiter has been confined to his home the past week, wrestling with an attack of the grippe.

Mr. and Mrs. Miller are at Grand Forks visiting Mrs. Miller's parents, Mr. and Mrs. Mose Verboncer.

Mrs. B. Zaiser returned Tuesday from a month's visit with her daughters at St. Paul and Minneapolis.

John Powers, one of Wylie's progressive farmers, was a pleasing caller at this office yesterday.

Attorney Henry W. Lee, of Thief River Falls, he who objects, was a county seat visitor last Saturday.

The ladies of the "Gilt Edge" club will meet with Mrs. William Zaiser next Thursday afternoon, March 2nd.

Banker K. O. Gigstad and Mike McAndress were down from St. Hilaire yesterday on a business mission.

A. C. Eddy, chief engineer of the Great Northern, was in the city yesterday looking over the work at the cut-off.

About 200 bushels of good succotash for sale, also some wood to trade for milk cows. Call on Swan Askenson.

Ayer's

Feed your hair; nourish it; give it something to live on. Then it will stop falling, and will grow long and heavy. Ayer's Hair Vigor is the only

Hair Vigor

hair food you can buy. For 60 years it has been doing just what we claim it will do. It will not disappoint you.

"My hair used to be very short. But after using Ayer's Hair Vigor a short time it began to grow, and now it is fourteen inches long. This seems a splendid result to me after being almost without any hair."

Mr. and Mrs. W. A. McIntyre are the guests of Perl W. Mabey and family at Thief River for a few days.

Perl W. Mabey, one of Thief River's attorneys, transacted business at the court house on Monnay.

Auditor Ford informs us that the county commissioners will hold their next session beginning Wednesday, March 1st.

M. O. Sortedahl left today on a week's visit to Goodhue county and other portions of the southern part of the state.

So dainty 'twould make the daintiest foot daintier—an ideal kid patent Queen quality shoe for women. —Garceau & Zaiser.

Dr. J. C. Wilkinson and V. M. Higinbotham were at Wylie Sunday evening, where the doctor was called on professional business.

W. H. Krueger was at St. Paul over Sunday where he went to purchase fixtures for the new saloon to be opened next month.

A gentlemen's shoe built of firmness and up-to-datedness for particular wearers—the W. L. Douglas shoe. At Garceau & Zaiser's

Dr. N. M. Watson returned today from his trip to Williamsport, Ont., where he was called two weeks ago by the death of his brother.

E. G. Froehlich, living near Badger, received a telegram Monday conveying the sad news of the death of his father at Tauton, Minn.

Miss Dora Marchand was in from Dorothy Tuesday evening and attended the dance. She returned to her school duties the next day.

Mr. and Mrs. Jacob Thill, of Wylie, are the proud parents of an eight pound baby boy who arrived at their home Sunday evening.

Garceau & Zaiser have an announcement of a special sale of a lot of seasonable mid-winter goods this week. It will pay you to read it.

Superintendent of schools McAnulty will occupy the building recently vacated by the Bank of Red Lake Falls as an office in the near future.

Washington's birthday was generally observed in the city yesterday, the schools, banks, postoffice and most of the business houses being closed.

A pleasant dancing party was given by the members of the M. B. A. lodge last Friday evening at the lodge room. A most enjoyable occasion is reported.

Now is the time the farmers should have their plows put in shape for the spring work. Don't wait until you want to use it before finding out if it needs repairing.

Prof. and Mrs. E. W. Chamberlain are victims of the grippe this week. The professor is able to look after his school work today, but not entirely recovered as yet.

Sam Allard is quiet a fancier of guinea pigs and has been successful in raising them. Sunday night he had the misfortune to lose one of the young animals.

Three candidates were initiated into the mysteries of the Modern Woodmen lodge last evening. New members are being constantly added to the order of this place.

An item in the daily newspaper states that I. D. Converse is to start a daily at Red Lake Falls. The reports seem to be largely fiction. Mr. Converse says he is not wealthy enough to finance such an uncertain proposition and there seems to be no crying demand from the business men for a luxury of that description.

Woman folks, THINK. Since children are the hardest on shoes, why not get them the strongest? Red School House shoe are built firmly. School bag free. At Garceau & Zaiser's.

H. W. Anderson, our popular jeweler, has a new fire and burglar proof safe at the N. P. depot. It is a large one and will better meet the requirements of the place than the old one.

The Great Northern bridge crew finished its work today and left for Grand Forks on the afternoon train. The big new steel bridge across the Red Lake river is now practically completed.

S. M. Sivertson left Monday for a visit at his old home at Atwater. From that place he will go to Willmar, St. Paul and other points, and expected to be away about a week when he left.

Nels K. Anderson, who was the Republican candidate for judge of probate at the recent election, was a visitor to the city Wednesday to pay his taxes and look after other business matters.

This week will be one of activity for our society people. Tuesday evening, a dance, Wednesday, high school party, to-night a dance at the M. B. A. hall, and Friday the band concert. Can you keep the pace?

The ladies of the Presbyterian society will be entertained next Wednesday afternoon at the home of Mrs. John E. King. Lunch will be served from 4 to 6. A cordial invitation to attend is extended to all.

The pile driver has about completed its work the at Great Northern cut-off, and the track-layeres are expected to go to work immediately. It is now thought trains will being running over the new road about Aqril 1st.

The following St. Hilaire people attended the dance at the opera house Tuesday evening: Messrs. Grace, Nelson, Foss, Hannay; Mrs. Nelson and Misses Pirath, Hoff, Petingill, Jahr, Hannay, Johnson and Hughes.

Miss Edna Ridgway, of Helena, Mon., is a guest at the home of her neice, Mrs. John E. King, for a few days this week. Miss Ridgway is east for an extended visit with her many friends at Grand Forks, her former home.

Plummer Pioneer: Ed L. Healy, the Red Lake Falls land man, was a business visitor here on Monday. He had with him the carcass of a big wolf which he had killed while driving through the country a few miles from here.

Sam E. Hunt left Tuesday for Duluth, where he will attend the meeting of the state hardware association. The program this year is quite elaborate and it goes without saying that the Zenith city will entertain its visitors handsomely.

Saturday, March 11, is to be visiting day at the schools, and at that time the work of the different grades will be displayed in all of the rooms of the school. Parents and patrons are requested to visit the schools on this day ane inspect the work of the pupils.

Mr. and Mrs. Simon Paul entertained a large number of friends at the Paul hotel last Saturday evening. Dancing was the feature of the evening and refreshments were served before the guests departed. A most enjoyable time is reported by those present.

John E. King returned Monday from St. Paul, where he attended the meeting of the state editorial association and looked after business matters preliminary to assuming his duties at the state capital. He expects to leave tonight for St. Paul and will take the reins of office on March 1.

Joseph Salley came down from Thief River Monday, after a visit at the home of his brother-in-law, Joseph Holzknecht, who recently underwent a serious operation for gall-stone. Mr. Holzknecht is now convalescent and in a fair way to recovery. Mrs. Salley is still at Thief River and will remain for some days.

The following from an exchange is worthy of the appreciation of every one who is loyal to his home community: "The sorrowest fellow on earth is the fellow who will sit around and cuss his own town. If I lived astride the north pole, I would call it home and be ready to boost it up. If I couldn't say anything nice about it I would say my ice didn't come high. I would not stay in a town I had to cuss—not while the world is as big as it is now."

GARCEAU & ZAISER

Ward D. Williams, an advertising representative of the Minneapolis Journal, was here Tuesday endeavoring to interest our land men in an advertising compaign in several dailies. A advertisement is to be run simultanously in the Minneapolis Journal, Chicago Inter Ocean, Des Moines Capital and Indianapolis News, settling forth the advantages of the Red Lake valley.

The Southside Club held one of their meetings Saturday afternoon at the home of Mrs. J. P. Harren, a large number of the members being present. It was decided to give the "wurser halves" of the members a party Saturday evening at the Harren home. Of late the club has given a number of these parties and they have been highly successful from a social standpoint.

About thirty friends walked in on Miss Almeda Gonigan last Friday evening and gave her a pleasant surprise, the occasion being a birthday. A jolly good time was had playing flinch and other games until a late hour. Dainty refreshments were served and before departing the members of the party presented Miss Almeda with a beautiful clock as a token of esteem and respect.

Mrs. Karen Sandmoen of St. Hilaire has been granted a decree of absolute divorce from her husband. The complaint of the wife alleged that the husband had deserted her and had not crossed the family doorstep in fifteen months. Mrs. Sandmoen is the proprietress of the Scandia hotel at St. Hilaire and owns considerable property and is able to take care of herself. She has several grown up children.

Ida Fangstorm, who formerly resided with her parents between Red Lake Falls and St. Hilaire, was sent to the training school at Red Wing last week, convicted of stealing $15 from Bertha Pederson at Thief Biver Falls. The girl is only fifteen years of age, but for the past year she has wondered from the straight and narrow path, and adjudged incorrigible by Judge Bishop of the Thief River municipal court.

A recently married Crookston man threw down a piece of bread at the table the other evening and said to his wife: "I wish you could make such bread as mother used to make." The young wife smiled and a voice that did not quiver remarked: "Well, John, I wish you could make the dough that father used to make." Then there was a silence as deep in their home as there is in a print shop when a subscriber pays a seven year old subscription account.

Mrs. James Sullivan died Tuesday at the hospital in Grand Forks after a long illness from cancer. Mrs. Sullivan was formerly Miss Mary McAndress, and lived with her parents near St. Hilaire until she was married some years ago. Her husband was for a number of years chief of police at East Grand Forks. He died about two years ago. The funeral of Mrs. Sullivan will be held today at Grand Forks, and many of her Red Lake county relatives and friends will be in attendance at the obsequies. The deceased is one of twelve children in the McAndress family, and her death makes the first break in the family circle.

Three dairy meetings will be held in Red Lake Falls county next month as follows: Red Lake Fall, March 2; Wylie, March 3, and St. Hilaire, March 4. These meetings will be under the auspices of the state dairy associattion and will be worth attending. Prominent dairymen will discuss subjects interest to all interested in the bettrment and welfear of the dairy, and it is to be hoped our farmers will take advantage of this opportunity to give valuble information. The meetings at Red Lake Falls and St. Hilaire are to be colled at 10:30 a. m. while the Wylie meeting convene at 1 o'clock p. m.

Monday was the banner day for tax receipts at the county treasurer's office so far this year. An even $800 was deposited by the tax-payers of the county. Treasurer Hansen says not more than one-third of the taxpayers of the nearby townships have as yet responded, the reason probably being that they think that they live close to headquarters and drop in the last minute to save the 10 per cent penalty. Next Tuesday is the last day of grace and it might be a wise move not to wait until the last day as you may be obliged to stand in line and wait your turn for hours. Mr Hansen is alone in the office and will have to wait upon each one individually. Do not put it off any longer.

Prof. and Mrs. E. W. Chamberlain and Misses Tambling and Iddings entertained the pupils of the high school at a Washington's birthday function at the school building last evening. A number of games and features appropriate to the occasion lent enjoyment to the evening. J. D. Marshall and Miss Margaret Kaus representing George and Martha Washington, led the grand march. In the search for hidden cherries Miss Rose Sutter won the first prize, a box of chocolate bonbons, and Miss Lizzie Cassidy carried off the booby honor. Sherbet and cake were served for lunch, and the high school brass band made its first public appearance. The high school apartments were brilliantly lighted by electricity, J. D. Marshall having done the wiring and the light company furnishing the light free of charge. On the whole the party was one of the social successes of the year, and everybody went home happy.

Out From the Northwest it has Come at Last
THE GUARANTEED APPLE!
"THE MINNETONKA,"
which for the first time in the history of Horticulture bears a Nursery Guarantee, is propagated, owned and controlled by
L. L. MAY & CO., whose Mayfield Nurseries, distinguished for exclusive productions, are the most Northern in America. This latest triumph of apple culture, the pride of the State of Minnesota, is named after one of her beautiful silvery lakes, "Minnetonka." The fruit is very large; flesh tender, crisp, sub-acid; the ideal cooking and choicest dessert apple. "The Minnetonka" thrives luxuriantly and yields prolifically in the most rigorous climate where all others fail. Season late, keeping two months longer than the well-known "Wealthy." Hardy as an Oak.
We Guarantee every tree of "The Minnetonka," to produce a bushel of fruit, and will replace free of charge, every tree that dies before this result is obtained.
Prices—4 to 5 foot trees, 75 cents each; 3 for $2; 6 for $3; 12 for $5, by express or freight. Mail order size—one year old, 40 cents each; 3 for $1; 6 for $1.75; 12 for $3, postpaid.
Every owner of a home should have one or more of "The Minnetonka," pride of the Northwest. Order to-day.
Free Catalogue of SEEDS Plants, Trees, Shrubs, Fruits, etc.

RED LAKE FALLS, MINN.

Delinquent Tax List...

for Red Lake County, Minn.

STATE OF MINNESOTA, }
County of Red Lake. }

District Court,
Fourteenth Judicial District.

The State of Minnesota, to all persons, companies or corporations who have or claim any estate, right, title or interest in, claim to, or lien upon, any of the several pieces or parcels of land in the list hereto attached described:

The list of taxes and penalties on real property for the County of Red Lake remaining delinquent on the first Monday in January 1905, has been filed in the office of the Clerk of the District Court of the County of Red Lake of which that hereto attached is a copy. Therefore you, and each of you, are hereby required to file in the office of said clerk, on or before the twentieth day after the publication of this notice and list, your answer in writing, setting forth any objection or defense you may have to the taxes, or any part thereof, upon any piece or parcel of land described in said list, in, to, or on which you have or claim any estate, right, title, interest, claim or lien, and in default thereof judgment will be entered against such piece or parcel of land for the taxes on said list appearing against it, and for all penalties, interest and costs.

JOSEPH PERRAULT,
Clerk of the District Court
of the County of Red Lake.

A List of Real Property, for the County of Red Lake, State of Minnesota, on which Taxes remained Delinquent on the First Monday in January, A. D., 1905:

STATE OF MINNESOTA } ss
County of Red Lake

James E. Ford, being by me first duly sworn, deposes and says, that he is the County Auditor of the county of Red Lake, state of Minnesota; that he has examined the foregoing list and knows the contents thereof, and that the same is a correct list of taxes delinquent for the years therein appearing upon real estate in said county.

JAMES E. FORD.

Subscribed and sworn to before me this 1st day of February, A. D, 1905.

[NOTARIAL SEAL] T. L. MELGAARD, Notary Public, Red Lake County, Minn.

District Court, Red Lake County, Minn.
Filed this 1st day of February, 1905.
JOSEPH PERRAULT,
Clerk District Court.

STATE OF MINNESOTA } ss
County of Red Lake

I, James E. Ford, County Auditor in and for the county of Red Lake, state of Minnesota, do hereby certify that the foregoing copy of the list of real estate taxes remaining delinquent on the first Monday in January, 1905, was this day received from the Clerk of the District Court in and for said county of Red Lake.

Witness my hand and official seal this 4th day of February, A. D, 1905.

[SEAL] JAMES E. FORD,
County Auditor,
Red Lake Co., Minn

THE PORCUPINE.

Only Known Creature That Eats the Foliage of the Hemlock.

"You don't have to skirmish around much to get feed to fatten one of these hemlock porcupines on," says an old woodsman. "Just sprinkle some salt over a stick of cordwood or saw log for that matter, and he'll eat the whole business and enjoy it as you would mince pie." The customary diet of these animals is hemlock browse. They make themselves a home in a hollow log or under the roots of some old tree, but always within reach of a big hemlock.

The hemlock is their pasture, and they make beaten paths going to and fro between the tree and their home. Once up in a tree the porcupine goes out on the big limbs and, pulling the small branches in with one paw, browses on the pungent leaves. In going through the woods you will find little piles of these fine leaves on the ground under hemlock trees. That means that a porcupine is feeding in the tree, the leaves on the ground being dropped from his feast.

Sometimes a porcupine will remain in a hemlock tree for a week at a time, hugging close to the trunk at night and feeding during the day. This curious little beast is the only known living thing that eats the foliage of the hemlock.

DANGER SPOTS IN A STORM.

Places to Avoid When the Lightning Is Flashing.

Out of doors trees should be avoided in a thunderstorm, and if from the rapidity with which the explosion follows the flash it is evident that electric clouds are near at hand a recumbent posture is the safest. It is seldom dangerous to take shelter under sheds, carts or low buildings or under the arch of a bridge, and a distance of twenty or thirty feet from tall trees or houses is an eligible situation, for should a discharge take place these elevated bodies are most likely to receive it.

It is well also to avoid water, for it is a good conductor, and the height of a human being near the stream may determine the direction of a discharge. Within doors we are tolerably safe in the middle of a carpeted room or when standing on a thick hearth rug. The chimney should be avoided on account of the conducting power of the carbon deposited in it, and gilt moldings or bell wires are sources of risk. In bed we are tolerably safe, since blankets and feathers are bad conductors.

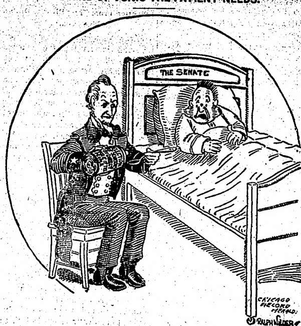
It is injudicious to take refuge in a cellar, because the discharge is often from the earth to a cloud, and buildings frequently sustain the greatest injury in their basements.

THE FIRE CROWD.

As a Rule It Likes a Big Blaze and Crashing Walls.

"There is one curious thing connected with fires," said a thoughtful man, "and that is the fact that while the fireman is always a hero in the public estimate and while men and women have all kinds of admiration for these brave fellows they yet want to see them get the worst of it in the fight against the flames. It is an interesting fact that the average man and woman are not at all anxious to see the firemen get the fire under control. They would much rather see the flames spread until the affair developed into an immense conflagration. Mind you, the trait is not at all vicious. There is no malice in it. It is simply the love of excitement and adventure, things that are so deep rooted in human nature that we may not control them at will. Besides, we want to develop our heroes to the limit. We want our firemen to fight a good fight against long odds and under great difficulties. We cannot quarrel with this feeling in the human makeup. After all, it is what one may call the poetry of human nature, and without it this old system of ours would be dull and prosaic indeed. Of course, you will always find a few persons around a fire who are directly concerned in the fight the firemen are making. They want to see the flames put out. In the case of some of the spectators it means bread and meat. It means the loss of a position or maybe the loss of home. But I was speaking of the vast majority of men and women who gather to witness a fire. The fire is the thing with them. They want to see a big blaze and hear the crash of the walls and all that sort of thing. Did you ever take the trouble to analyze a fire crowd? In the first place an alarm of fire will draw a crowd quicker than anything in the world. Whenever the bells begin to clang and the engines go rushing down the street you will see men, women and children rushing this way and that in order to see as much as may be seen of the fire and fire fighters. The hour of day or night does not make so much difference. The crowd will get there in some way and for some reason, though the great majority of the persons have no sort of interest other than idle curiosity. Once on hand, they want to see a good fire, and that's why I say they want to see the flames get the best of the firemen. They will go away and talk about what a game fight the fire laddies made. Human nature is a curious thing, is it not?"—New Orleans Times-Democrat.

THE KIND OF TONIC THE PATIENT NEEDS.



STANDARD OIL TO FEEL PROBE

PRESIDENT ORDERS COMMISSIONER GARFIELD TO BEGIN INVESTIGATION.

Action Follows Adoption of Resolution by the House—Kansas' Fight on Trusts May Result in Calling of a Constitutional Convention.

Washington, Feb. 17. — President Roosevelt has directed James R. Garfield, commissioner of corporations of the department of commerce and labor, to begin immediately the oil investigation requested by the house of representatives Wednesday in a resolution adopted unanimously. The investigation, by direction of the president, will be rigid and comprehensive. The president has directed a letter to Commissioner Garfield, in which he has given his directions and presented in outline his views.

Action to Be Pressed.

The inquiry will be pressed as rapidly as possible. The scope of the investigation and the time it will occupy cannot be indicated at this time. Representative Campbell, of Kansas, the author of the resolution adopted by the house, had a conference with President Roosevelt Thursday. Mr. Campbell's idea is that the investigation should concern particularly the situation in the Kansas field, but he expressed to the president his belief that the inquiry, once begun, would extend to the operations of the Standard Oil company in the Beaumont field of Texas and perhaps to other fields.

State Refinery Assured.

Topeka, Kan., Feb. 18.—Gov. Hoch at noon Friday signed the bill passed on Wednesday, appropriating $200,000 for the erection and maintenance by the state of an oil refinery, with a capacity of 2,000 barrels a day. The signing of this measure will make it possible for Kansas to begin in earnest the fight against the Standard Oil company. In signing the bill, Gov. Hoch sent a lengthy message urging the legislature to supplement the refinery bill with railroad legislation which will prevent the trust from defeating the purpose of the act.

War on Trusts in Kansas.

Topeka, Kan., Feb. 17.—To successfully fight the trusts within its borders, a constitutional convention may be called to broaden the powers of the Kansas legislature. The bills striking at trusts, particularly those dealing with oil, have met with so many objections on constitutional grounds that a sentiment in favor of a new constitution meeting the situation has sprung up. To this end, a resolution submitting the question of calling a constitutional convention to a vote of the people in 1906 has been prepared and will, it is stated, be presented in the senate shortly.

CHILDREN DIE IN FIRE.

Three Little Ones Meet Death at Edwards, Ill.—Mother and Father Are Seriously Burned.

Peoria, Ill., Feb. 17.—Fire of a mysterious origin in the house of Manning Harris, a coal miner living at Edwards, 15 miles from this city, burned the bodies of three small children to a crisp early Thursday. The mother was taken from the burning house so badly burned that the flesh hung from her body in strips. Harris himself was horribly burned.

Date Set for New Trial.

New York, Feb. 18.—District Attorney Jerome Friday sent a notification to counsel for Nan Patterson, accused of murdering Caesar Young, that a new trial of her case will be begun on March 6, in the criminal branch of the supreme court.

Flames in a Texan Town.

Dallas, Tex., Feb. 20.—A special to the News from Tyler, Tex., says that a disastrous fire raged there at an early hour Sunday morning. Seven business houses were consumed, entailing a loss estimated at $150,000.

IN CONGRESS.

Resume of the Proceedings Day by Day in the Senate and House.

Washington, Feb. 16.—The question of what the policy of the government should be with respect to the upbuilding of the navy was again threshed out in the house Wednesday during the consideration of the naval appropriation bill, the debate developing much opposition to the proposed addition of two battleships to the naval establishment.

The senate continued, but did not conclude, consideration of the bill making appropriations for the support of the government of the District of Columbia.

Washington, Feb. 17.—In the house on Thursday the Mann bill, to provide a government for the canal zone, was passed without further discussion. The bill gives all the right of government of the canal zone to the president until the end of the next congress, but provides that the government shall be so exercised as to protect the inhabitants in the free enjoyment of their liberty, prosperity and religion. It abolishes the isthmian canal commission and places the work of the construction of the canal in the hands of the president and such persons as he may appoint and employ.

Aside from two hours spent in routine business the senate on Thursday gave its entire attention to the Swayne impeachment trial.

Washingtton, Feb. 18.—The senate on Friday passed the bill appropriating $9,940,000 for the District of Columbia, and the diplomatic and consular appropriation bill, carrying $2,156,000. The district bill had been before the senate for several days and had been much debated. The diplomatic bill received the attention of the senate for only 12 minutes and was passed without discussion.

In order to facilitate action at this session on the statehood bill the house passed a resolution sending that measure as amended by the senate directly into conference without an opportunity being afforded to debate it.

Washington, Feb. 19.—The house passed the pensions appropriation bill, carrying $138,250,700, on Saturday. Under a special rule the house passed about 25 private bills.

The request of the house for a conference on the statehood bill was received in the senate and a sharp debate ensued over an effort to have the conference committee appointed immediately. The opponents of joint statehood succeeded in securing a postponement until Monday.

Washington, Feb. 20.—Sitting in special session, the house of representatives on Sunday conducted memorial services in tribute to the memory of the late Senator Mathew Stanley Quay, of Pennsylvania. Mr. Dalzell presided. Seven members eulogized Senator Quay's life and character.

GREAT FIRE RAGED.

Property Worth Over $1,500,000 Is Destroyed in City of Indianapolis.

Indianapolis, Ind., Feb. 20.—For four hours Sunday night the wholesale district, bounded by Georgia and Meridian streets, Jackson place and the union depot sheds, was menaced by a fire which started in the wholesale warerooms of the Fahnley & McCrea Millinery company. At 9:30 o'clock three general alarms brought into action every department in the city and suburbs. When the fire was brought under control eight buildings, among which were three hotels, had been completely destroyed, causing a loss estimated at $1,100,000. One fireman was hurt by falling walls.

Declared Insane.

Des Moines, Ia., Feb. 20.—A special from Decorah, Ia., says: After a trial consuming 17 days, Prof. T. I. Gifford, accused of the crime of murder in this place, was pronounced by the jury not guilty, but insane. Prof. Gifford killed his neighbor, S. A. Bigelow, with a blow from a potato digger on November 5, 1904. He was a prominent educator of Decorah and a leading member of the Methodist church. He will be taken to the asylum.

Twenty Perish.

Baku, Feb. 20.—An explosion on board a naphtha barge set fire to several other barges and a landing stage. It is reported that 20 people perished.

Washington School Notes.

Preston Hall and Laura Poirier, reporters

Mary Smidt has left school for a couple of months.

Tena Rewertz and Matthew Kotschevar have left school.

Mamie Mayhew has returned to school. She was absent two months.

The fifth grade won the banner for attendance during the month of January.

Ella Jackson was absent Friday afterroon for the first time since she started school.

Helen Sivertson, of the fifth grade, has returned to school after a two weeks absence.

Last week Lenora Garceau was absent for the first time this year on account of sickness.

Two hundred and twenty valentines passed through our valentine box St. Valentine's day.

The fifth and sixth grades are going to read Chinese fashion twice a week, Wednesdays and Fridays.

Gisela Helm and Freda Shultz have returned to school after an absence of several days on account of sickness.

Some of the boys came in tardy Friday morning at recess, and the football has been taken away for another week.

Lucy Mathias is absent on account of sickness. We hope all the sickness is not on our side, as we want all the banners for Ferruary.

Last Wednesday the fifth grade had to write all the states and capitals of the United States. The best papers will be saved for visiting day.

The following pupils of Washington school have been neither tardy nor absent since school started in September: Millie Blomgren and Marie Kaus of the first grade, Delia Barrett of the second grade, Fredrick Shultz of the third grade, Preston Hall and Olive Zaiser of the fifth grade and Edith Hansen of the sixth grade. These pupils are to be congratulated on their good work.

Printers' Commandments.

Never sendest thou an article for publication without giving the editor thy name, for the name oft-times secures publications to worthless articles,

Thou shouldest not rap at the door of a printing office, for he that answereth the rap sneereth in his sleeves and loseth time.

Neither do thou loaf about, ask questions or knock down type or the boy will love thee like they do the shade trees—when thou leaveth.

Thou shouldest never read the copy on the printer's case (or the sharp and hocked container thereof, or he may knock thee down.

Never inquire thou of the editor for the news, for behold it is his business, at the appointed time, to give thee without asking.

When thou dost enter into his office, take heed onto thyself that thou doest not look at what may be lying open and concerning thee not for it is not meeting in the sight of good breeding.

Never examine thou the proof sheet for it is not ready to meet thine eye that thou mayest understand.

Prefer thine home paper to any other and subscribe for it immediately.

Pay for it in advance and it shall be well with thine.—Ex.

A Menace to Health.

Kidney trouble is an insidious danger, and many people are victims of a serious malady before the symptoms are recognized. Foley's Kidney Cures correct irregularities and strengthen and builds up the kidneys, and it should be taken at the first indication of kidney trouble, as it is impossible to have good health if the kidneys are deranged. Sold by A. L. Reichert.

Perfect Safety

is combined with convenience in our certificates of disposit.

When you have any sum of money not wanted for immediate use, you can leave it here and we give you a written agreement to pay it back at any time you want it. If you wish to leave it for 6 months or more, we will pay interest upon it.

Yov can draw out a part of it, or all of it, at any time, or turn it over to some other party, if you wish.

5 per cent Interest paid on time deposits.

MERCHANTS STATE BANK

RED LAKE FALLS, MINN.

Directors:

A. P. TOUPIN, PRESIDENT, THEO. LABISSONIERE, VICE-PRESIDENT; J. A. DUFFY, CASHIER; P. F. POULIOT, ASST. CASHIER.

Safety Deposit Boxes for Rent.

SOO WILL NOT BUILD

Extention From Thief River to Duluth a Pipe Dream.

It can be stated upon the very best of authority that the reported building of the Soo line through from Thief River Falls to Duluth is naught but newspaper talk, and although surveyors have been at work south of Red Lake for some time past the road will not be built. The general manager of the Soo line has been asked regarding the matter, but he has positively denied that any such intention exists in the minds of the railway officials, and states that such a move has not even been contemplated.

The extension of the Minnesota & International from Northome to Ripple, however, is now certain. The company officials have given out a statement to a prominent gentleman from St. Paul to the effect that the line would be extended the coming season and that the work would be commenced as soon as possible.

The report to the effect that the Duluth, South Shore & Atlantic intended to run trains from Duluth to Crookston over the tracks of the Great Northern is also declared to be false. The company holds a franchise which allows it to run trains over the Great Northern's tracks between Duluth and Crookston, but the officials can see no way in which the expenses of a train service over this line could be made to pay, as it would be necessery to make arrangements for the use of the telegraph line and depots of the Great Northern, and this would without a doubt make the expenses so heavy that it would be impossible to make the proposition a paying one.

LaGrippe and Pneumonia.

Pneumonia often follows LaGrippe but never follows the use of Foley's Honey and Tar. It cures lagrippe conghs and prevents pneumonia and comsumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Gsgood St., Chicago, writes "My wife had a severe case of lagrippe three year ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. Sold by A. L. Reichert.

A Western Enterprise.

One thing more than anything else that impresses the spirit of Western energy and push is the construction of the Lewis and Clark Centennial exposition to be held at Portland, Oregon, beginning June 1 and continuing until October 15, 1905. With more than three months intervening before the opening of the exposition. all of the main buildings are practically ready for the installation of exhibits, typifying the manner in which Western people carry out any proposition presented to them. We doubt if there has been an exposition in the Uuited States that can show a record such as the Lewis and Clark exposition has made. The visitor to the exposition can be assured that when it opens on June 1, he will find it completed in every detail and it should be a source of great gratification to every resident of the northwest that such is the case.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Cough and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies, all others are mere imitations, H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.

The Freak Man.

There is a young man in England, 24 years of age, who is exactly like a boy of six in size, appearance and mental development. He had just learned to count up to ten. He eats three meals a week, he sleeps twenty-four hours and plays twenty-four hours regularly for the last nineteen years, He has grown naturally except that it has been just one sixth as fast as he should have been. Golden grain belt beer wouldent make him grow any faster, but capable of doing a day's work without undue fatigue. Order of your nearest dealer or be supplied by Alex. Thompson Crookston.

It makes no difference how many medicines have failed to cure you, if you are troubled with headaches, constipation, kidney or liver troubles, Hollister's Rocky Mountain Tea will make you well. A. L. Reichert.

Cures Sore Throat.

Sulphur and molasses are unpalatable remedies. Gloria Lung Balsam, a preparation of honey, wild cherry, tar, etc., is far ahead. Best for children. Sold by W. A. Schreiter.

WITH OUR NEIGHBORS.

Warroad wants a brick yard.

The Bemidji jail has fourteen boarders.

Clearwater county is to have a fine new court house.

A firm at Wabasha is feeding 8,000 sheep for the market.

Perham is aggitating the question of organizing a commercial club.

Mad dogs are reported as being numerous in the southern part of the state.

Ada socialists will present a complete ticket at the municipal election this spring.

The M. & I. Ry. is making preparations to extend its line to International Falls in the spring.

Dr. George R. Koch, the alleged murderer of Dr. Gebhardt of New Ulm, is to have his second trial at Mankato April 19th.

Blackduck business men are making an effort to reopen the Teepeetonka hotel at that place which has been closed for some time past.

A Le Sueur couple were united in marriage recently after a courtship of twenty years. The groom probably won his suit on the grounds of adverse possession.

The Soo management says there is no foundation to the rumor that their road will build from Thief River Falls to Duluth. They have never thought of such a thing.

Both sides in the celebrated Koch murder trial at New Ulm claim to have unearthed considerable new evidence to be presented at the coming trial at Mankato.

The railroads in southern Minnesota and Iowa experienced great difficulty last week in getting their trains through on account of the large amount of snow.

A young man about 30 years old, named Sam Sands, suicided at East Grand Forks recently. He was out work, had no money, and had grown despondent over the fact.

A switchman in the Carman yards was on a switch engine the other night when it ran into a caboose standing on a sidetrack. One of the man's legs was caught between the engine and the caboose and so terribly mangled that it may have to be amputated.

Thirteen horses belonging to the Nicholas-Chisholm Lumber Co., which is operating lumber camps in Hubbard county, were shot last Friday by order of State Veterinarian M. S. Whitcomb, who visited the camp and found that the animals were affected with glanders.

A most daring and bold robbery was committed at Alexandria one day last week. During the absence of the family, thieves entered the home of Mrs. Chris. McCabe, and after ransacking the house from top to bottom, discovered and made off with $4,000 in currency, the property of Miss Comeford, an aged spinster who has resided with the McCabe family since last summer.

Word comes from Bemidji to the effect that a plan is being made to boycott the Bemidji Brewing company because it will not allow a proposed new railroad to cross its property, The citizens of that city are very indignant over the matter and say that if the brewing company does not let the railroad company have a right of way across their land they will boycott them. They think that the railroad will be a good thing for them and want to see it built.

The Chicago, Milwaukee & St. Paul railway, co-operating with the Tri-state Grain Dealers association, will run a "Good Seed Special" through Minnesota, South Dakota and part of North Dakota. The train will leave Minneapolis February 20th, and will be upon the road two weeks. Stops will be made at the different stations and expert advice will be given the farmers in regard to the cultivation of crops. A similar movement was inaugrated down in Iowa a couple of years ago and it was the means of adding thousands of bushels of corn to that state's acreage.

At the coming spring election the citizens of Wadena will vote on "license or no license." It is claimed that the saloon men themselves are back of the proposition and will strive to made the town "dry." There are nine saloons in Wadena, paying an annual revenue of $4,500 to the city, and the saloon men assert that the municipal government there does not appreciate them but throws so many restrictions around them that their business is made unprofitable. The saloonists are willing to take a year off and see how the financiers of the municipality like it.

The application of Attorney Henry W. Lee for a writ restraining the collection of taxes in Red Lake Falls county was denied by Judge Watts Monday evening. The Judge took the position that there was nothing irregular in the levy of taxes insofar as the county commissioners were concerned, and it is probable that the same position will be taken relative to the auditor and treasurer, if the question is ever again raised. The county was represented in the case by County Attorney Germo. Attorney Lee apparently is getting little satisfaction out of his suit against the county officials.

A Minister Testifies.

Rev. C. Sund, of Harrisville, wis., writes that Gloria Tonic, the new rhuematism cure, in tablet form, cured the members of his congregation. one had suffered 18; the other 25 years. Sold by W. A. Schreiter.

The Suburban Home.

The suburban house expresses freedom from restraint; it is the home of children; it means purer air; it means more room to move around in; it means gardens, and it implies a social life which years of city living may never engender. These are matters of first importance, and when to them is added the material advantage of lower rents the superiority of the suburban house over the city dwelling is established. There are long rides by trolley or train; there is the necessity of keeping early hours; there are difficulties with limited grocery, butcher and bakery service; there are other practical drawbacks. But over and beyond these is the abiding space of freedom of movement, of ample air and sunlight, of a place to live in.

And that is exactly what a house is for. It is neither to look at nor to serve as an ornament to a highway. That it should be ornamental and should be viewed with interest are matters of course that are extremely desirable, but after all it is the house within that counts; that makes suburban life bearable, adds to its joys, increases its advantages, cements its superiority to every other sort of living unless it be the country life pure and undefiled.—House Beautiful.

Two Through Tourist Cars to California.

The Chicago Great Western Railway offers choice of two through tourist cars every week to California, one leaving Minneapolis and St. Paul Tuesdays via Omaha and the Rock Island Route, arriving San Francisco 5:20 p. m., Saturday, the other leaving on Thursdays via Kansas City and the Santa Fe route, arriving at Los Angeles 8:25 a. m. Monday. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

There's pretty girl in an Alpine hat,
A sweeter girl with a sailor brim.
But the handsomest girl you'll ever see,
Is the sensible who uses Rocky Mountain Tea, A. L. Reichert.

Notice for Application for Liquor License.

STATE OF MINNESOTA, COUNTY OF RED Lake, City of Red Lake Falls, ss.

Notice is Hereby Given, That application has been made in writing to the City Council of said City of Red Fake Falls, and filed in my office, praying for Licence to Sell Intoxicating Liquors for term commencing on March 25th, 1905, and terminating on March 24th, 1906, by the following person, and at the following place, as stated in said application to-wit:

W. H. KRUEGER

in that certain frame building situated on lot 14 of block 7, in Champagne & Dow's addition to Red Lake Falls, Minn. Said application will be heard and determined by said City Council of the City of Red Lake Falls at the City Hall in the City of Red Lake Falls in Red Lake County, and State of Minnesota, on Thursday the 2nd day of March A. D. 1905, at 8 o'clock P. M.

Witness my hand and seal of the City of Red Lake Falls this 16th day of February, A. D. 1905.

f16 A. P. TOUPIN, City Clerk

Order to Examine Accounts.

STATE OF MINNESOTA, COUNTY OF RED LAKE, ss:

In Probate Court,
Special Lerm, February 8, 1905.

In the Matter of the Estate of Noe Lefebvre, deceased:

On reading and filing the petition of Rock Lefebvre, the administrator of the estate of Noe Lefebvre, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is Ordered, That said account be examined, and petition heard by this Court, on Thursday, the 9th day of March, A. D. 1905, at one o'clock p. m., at the Probate Office in the city of Red Lake Falls, in said county.

And it is Further Ordered, That notice thereof be given to all persons interested by publishing a copy of this order once in each week for three successive weeks, prior to said day of hearing, in the RED LAKE COURIER, a weekly newspaper printed and published at Red Lake Falls, in said county.

Dated at Red Lake Falls, the 8th day of February, A. D. 1905.

By the Court,
N. W. TARRANT,
f9-23 Judge of Probate.

Order for Hearing on Claims, Etc.

STATE OF MINNESOTA, COUNTY OF RED LAKE, ss:

In Probate Court,
Special Term, February 8, 1904.

In the Matter of the Estate of John C. Malmquist, deceased.

Letters of administration on the estate of John C. Malmquist, deceasek, late of the County of Red Lake, and State of Minnesota, being granted to Ernest J. Akerlund,

It is Ordered, That six months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the Probate Court of said County, for examination and allowance, or be forever barred.

It is Further Ordered, That the 8th day of August, 1905, at ten o'clock A. M., at a special term of said Probate Court, to be held at the Probate Office in the Court House in the City of Red Lake Falls in said County, be and the same, hereby is appointed as the time and place when and where the said Probate Court will examine and adjust said claims and demands.

And it is Further Ordered, That notice of such hearing be given to all creditors and persons interested in said estate by forthwith publishing this order once in each week for three successive weeks in the RED LAKE COURIER a weekly newspaper printed and published in said County.

Dated at Red Lake Falls the 8th day of February A. D. 1902.

By the Court,
N. W. TARRANT,
f9-23 Judge of Probate.

DAKOTA BUSINESS COLLEGE

Educated and placed 150 students in good positions last year. Can do so for you.

People from farms, common schools and stores prepared for business life in the shortest possible time.

Business men say its the best school in the Northwest. Catalog free.

F. L. WATKINS, Prest.

Button's Business College, Crookston, Minn., has more graduates working in that city as stenographers and book-keepers at a good salary than all other business colleges combined and offers $100 to anyone who will prove the contrary.

CURES STOMACH TROUBLES

THE body gets its life from food properly digested. Healthy digestion means pure blood for the body, but stomach troubles arise from carelessness in eating and stomach disorders upset the entire system. Improperly masticated food sours on the stomach, causing distressing pains, belching and nausea. When over-eating is persisted in the stomach becomes weakened and worn out and dyspepsia claims the victim.

Thedford's Black-Draught cures dyspepsia. It frees the stomach and bowels of congested matter and gives the stomach new life. The stomach is quickly invigorated and the natural stimulation results in a good appetite, with the power to thoroughly digest food.

You can build up your stomach with this mild and natural remedy. Try Thedford's Black-Draught today. You can buy a package from your dealer for 25c. If he does not keep it, send the money to The Chattanooga Medicine Co., Chattanooga, Tenn., and a package will be mailed you.

VOL. VII—NO. 21. RED LAKE FALLS, MINNESOTA, THURSDAY, MARCH 2, 1905. WHOLE NO. 333.

COUNTY MONEY COMING FAST

Red Lake County Tax-Payers Keep Treasurer Hanson Busy Taking Care of Money.

The tax-payers of Red Lake county have been keeping County Treasurer Hansen on the jump the past week, and hundreds of dollars have found their way into the county's strong box. It was all caused by the people wanting to escape the penalty on their personal property tax.

Saturday's receipts amounted to $4,416.46, while on Monday $4,000 passed over the counter and Tuesday's receipts were a trifle over $5,000. Mr. Hanson was so busy on these days waiting upon the multitude he did not have time to open his mail, which was unusually heavy. Every letter contained a draft for the payment of taxes, and the sight was one to make a country editor feel right at home. Mr. Hansen says the personal property tax is fairly well paid up, but that there are a number who will have to "dig up" the penalty as is required by law.

The Love League.

The following marriage licenses were isssued by Clerk of Court Perrault the past week:

John Swedin and Miss Martha Hougstole, Thief River Falls; Christian K. Drager, and Miss Kari Stende, Thief River Falls; Wm. Douville of Grand Forks and Miss Heneritta Poessel, Red Lake Falls; Nels B. Swenson and Miss Ida Lovness of Sanders township.

Something to think of.

When you are traveling you fell more comfortable if you know that every precautions is taken for your protection. The famous North-Western Limited from Minneapolis and St. Paul to Chicago is operated by the block system, the best known method for the safe handling of trains.

CONCERT A SUCCESS.

February Entertainment by the Band a Pleasing One.

The February concert by the band was give last Friday evening to a large audience. The band numbers were rendered in a very creditable manner, aud won the hearty appause of the listeners.

A baritone solo by J. B. Armstrong was one of the features of the evening's entertainment, and was an especially strong number. Mr. Armstrong is an accomplished player, and has few equals on his instrument.

Miss Ina Linnehan gave a recitation that was warmly received and she was obliged to respond to an encore. The young lady has an easy and captivating manner while before an audience, and her many friends are predicting a bright future for her as an elocutionist.

A ladies quartette composed of Misses Margeret Kaus, Iza Tibbitts, Jessie Carver and Clara Marchand, rendered a most charming selection entitled "Within a Little Wood." The young ladies sing well, and the public hopes to hear them again in the near future.

An impromtu dance was given after the concert which proved to be an enjoyable affair. The band boys work hard to make their concerts a success and it is gratifying to know that our citizens appreciate their efforts and give them the encouragement they are justly entitled to. The next concert will be given during lent and for that reason the program will be composed of sacred music.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of Consumption, Pneumonia, etc., you are lost, if you don,t get help from Dr. King's New Discovery for Consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with Pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me." Sure cure for sore throat, bronchitis, coughs and colds. Guaranteed at all druggists price 50c and $1.00. Trial bottle free.

TO SERVE THEIR COUNTRY

List of Petit Jurors Drawn to Serve at the March Term of Court.

Monday morning Clerk Perreault drew the petit jurors for the next term of the district court which convenes in this city, Monday, March 27. Following is the list:

Jacob Borry, Thief River Falls
Elie Perreault, Terrebonne
M. P. Dargan, Polk Centre
A. M. Anderson, Red Lake Falls
P. O. Mykleby, Emardville
Louis Peroult, Gervais
John Hedlund, River Falls
B. H. Costello, Equality
George Bender, Equality
C. M. Wilson, Thief River Falls
Fred Zaiser, Red Lake Falls
Ernest Gerlach, Red Lake Falls
Anton Lee, Wyandotte
John Toulouse, Poplar River
Joseph Lang, Thief River Falls
Heury Busse, Black River
Nels Knutson, North
Gilbert Hovey, North
Elick Halvorson, Garnes
C. C. Bergen, Wyandotte
Frank Shirrick, Polk Centre
Thomas Glinn, Black River
Herman Wolf, R. L. Falls Twp
H. H. Finrow, Emardville.

The Sly Dog.

Fertile is putting on cosmopolitan airs these days, as the following "Personal" in last week's Journal will testify: Will the young lady with brown hair and eyes, and fur collarette, who smiled on gentleman in postoffice last evening, please meet him at the opera house Thursday evening, March 2d, and occupy seat on left side in row five.—A. S. J.

Why not get it

when you get sure relief from a violent cough? Gloria Lung Balsam will do this every time. It is made of honey, tar, wild cherry, etc., and is the best for children. Sold by W. A. Schreiter.

BREED WOLVES TO GET BOUNTY.

Officials Are Suspicious of "Farm" in State.

It is believed that "farms" for the propagation of wolves are being conducted in Minnesota. From the number of applications for wolf bounties which came from localities comparatively well settled, it is reasoned that in some portions of the state wolves arebeing raised simply for the purpose of killing them after they had become full grown in order to get the $7.50 bounty which the state give for each pelt,

"I am convinced," said a state official, "that wolf farms are being conducted in Minnesota for no other purpose than to secure the bounty from the state. It pays to raise wolves at $7.50 a head, and in some countries where the state bounty is raised to $12 by the board of county commissioners, wolf raising becomes more profitable.

"Then there are the Indians in the northern counties who understand the value of a wolf's carcass as well as does his pale-faced brother. There is no doubt that they raise wolves for the bounty. A few years ago a man was discovered in Lyon county raising wolves for the bounty he could get for their carcasses. They raise them until they get out of the cub class, when they only bring a dollar a head, and become full-grown wolves. I have not the least doubt but that the Indians are very cunning in this line."

A Pretty Home Wedding.

At the home of the bride's mother last Saturday occured the marriage of Wm. J. Douville of Grand Forks, to Miss. Henerietta Poessel of this place, Judge Tarrant performing the ceremony. After the ceremony the guests sat down to a bountious wedding breakfast wishing the new man and wife all the good things of life.

Mr. Douville is an employee of he Great Northern railroad company, and has the reputation of being an honest and industrious young man. Miss Poessel was raised to womanhood inthis vicinity and won many friends by her winning ways and ladylike demeanor.

Hosts of friends will join the COURIER in wishing the young couple happiness and prosperity, tnd a bonny voyage on life's voyage.

Mr. and Mrs. Douville left Saturday for Grand Forks where they will make their home in the future.

A Deer Story.

A mail clerk living at Bemidji came home the other day and told one of the greatest deer stories of the year. His run is from Grand Forks to Duluth on the Great Northern and he says last Sunday the fireman of his train had to alight from the engine and forcible drag a young deer from the track and push it down an embankment in order to let the train past.

The train stoped at a blind siding at Feeley in Itasca county and while it was standing still a young deer evidently about eight months old walked from the bush at one side and started and walked down the track ahead of the engine. The train started and the engineer tooted for the animal to get out of the way, but the animal simply started runing down the track. The engineer followed it closely and whistled vigorously but the animal kept straight on its course till it came to the long trestle over the Swan River. Here it turned shortly and faced the train refusing to budge.

The fireman got off after the train had stopped and running ahead tried to "shoo" the animal off, but even then it would not move a step and he was forced to take it by the horns and drag it from the track and over the edge of the enbankment down which it rolled and arrived at the bottom shook itself vigorously and started across the country into the woods through the deep snow.

In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by W. A. Schreiter.

MUSICIAN AND COMPOSER

W. H. Scouton, Bandmaster and Composer, Visits Red Lake Falls.

W. H. Scouton, one of the leading bandmasters and musicians of the country, was a visitor at this place the first of the week. He was here in the interest of Lyon & Healy, the Chicago musical instrument dealers, and endeavored to interest our boys in his company's line of instruments. Mr. Scouton is also the composer of a large amount of band music and his marches are a favorite of all lovers of band music.' While here he presented the band with one of his compositions which no doubt our people will have a chance to hear at an early date.

"You've got to play ragtime," said Mr. Scouton. "Personally I don't like ragtime; no musician does. There is nothing artistic about it; there is nothing pleasing about it; but it appeals to the masses. The human frame seems to be set upon a syncepated pedestal. They want raggy revels, and you can't stop it. Why, the Chicago Marine Band—now known as Tom Brooke's band—set aside one whole concert evening for ragtime each week, and that night the Coliseum is crowded to the doors.

"The march field in composition is pretty well worked over. There are hundreds of marches written and published in piano score which, if orchestrated and arranged for band, would catch instantly. But hit is not made by system. It is made by chance favoring merit. In songs, there is a wide open opportunity for something exceptionally good in the sentimental line. The coon song is done to death, and the stars and stripes pattern of song, although calculated to enthuse an audience, has been worn to tatters. On general principals a good song is needed. To exactly indicate the kind of song would be a hard job for the best musical prophet. The music business is just like political campaigning. You can never tell what issue is going to make a hit.

RUSTED WHEAT STANDS TEST.

New Experiments Prove that it will Germinate,

C. C. Dalrymple the Dakota bonanza farmer has just finished experimenting with rusted wheat as seed, at a number of stations on the Dalrymple farms in North Dakota. The results bear out the tests of the Jewell people of Lake City and other experimenters and prove that seed wheat from rusted fields may be used satisfactory results as to the germination.

With the first of the good seed wheat train on the road today from Minneapolis, and three other tratns soon to follow, the question of the possibilty of using the rusted wheat for seed becomes important.

The Dalrymple tests were more extensive than any other heretofore. At Gardener, N. D. sixty kernels were sown. Up to yesterday fifty-five had appeared and this morning a wire to Mr. Dalrymple reporting four more coming about ground. Thus only one of the sixty failed to germinate.

At Casselton, out of fifty kernels sown, forty-eight appeared, and at Kelson forty-nine came up out of 50.

The Gardner, Casselton and Kelson tests represent various stages of the rust damages as it appeared on the different farms that make up the extensive Dalrymple holdings.

In every case the rusted wheat before being used for seed was put through a fanning mill.

How this rusted wheat will stand up against other wheat through the weather extremes and general crop hardships of an ordinary growing season, still remains to be seen, but that it will come up and start off as well as any cannot be donbted.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flanndery, of 14 Custom House Place, Chicago, says: "They have no equal for Constipation and biliousness." 25c at all druggists.

LAW IS NOT CLEAR.

Attorney General Settles County Supervisor Tangle.

The Minnesota law of 1903, providing for extending terms of township supervisors in office, is so ambiguous in its terms that Attorney General E. T. Young has received as many as five or six inquiries in one day for an explanation of its meaning. The usual question propounded to the attorney general is whether the member of the board designated as "chairman" on the official ballot serves as chairman for three years or not. The attorney general has written a letter to a Kasota man in which he cleared up the matter by deciding that the chairman would serve simply for the term to which he was elected. The letter also points out that hereafter, except in years when there is a vacancy, no chairman need be elected. The letter says:

"The statute extended the office of supervisor from a one-year to a three-year term; and provided that at the election of 1904 one supervisor should be elected for one year, one for two years and one for three years. It also provided that one of those elected should be designated as 'chairman.'

"The chairman chosen at the last election would hold the chairmanship for the length of time for which he was elected, which would be one, two or three years—according to the designation of the length of his term on the ballot. Hereafter the chairman will serve as such for three years, and no 'chairman' need be designated on the ballot except in years when there is a vacancy in that office."

Continuous Photography.

A new camera has just been perfected which will take 2,000 photographic impressions one second. This is expected to revolutionize the the study of insect life where movements are very rapid, as well as forms of motion now but partly understood on account of their rapidity. Everything is growing faster, and life becomes more and more uneasy. That's why golden grain belt beer should mean so much to each of us. It brings peace of mind body and calm contentment that adds years to our lives and great happiness to life. Order of your nearest dealer or be supplied by Alex. Thompson, Crookston.

Beating the Devil with Corn.

The new sweet corn happily named Peep O'Day is creating a great sensation in all parts of the country from the fact that it is ten days to two weeks earlier than any other variety, and is the sweetest of all sweet corn. Rev. A. L. Struthers, of Alfred, Maine, wrote last July as follows to Norterup, King & Co., the seedsmen of Minneapolis, originators of this wonderful corn:

"We are eating corn from the early Peep O'Day Sweet purchased of you last spring. I told an old farmer the other day that I had green corn for dinner. He looked at me in astonishment then said, 'Out of a can?' I said "No, off the cob." "Come from the South?" "No, out of my garden." He looked at me a minute and then said 'That beats the devil."' While my occupation as a minister is fighting the devil, I never thought before of competing with him by raising corn. I could not possibly have succeeded with any variety but Peep O'Day."

For 16 cents Northrup, King & Co. are offering to mail 300 seeds (sufficient to plant 60 hills) of Peep O'Day corn and to send their pictured catalogue of Northern grown seeds. Wrlte Northrup, King & Co., Seedsmen, 38 Northrup King Bldg., Minneapolis, Minn., and sending 16 cents, you will receive a sealed package of this wonderful corn and their useful catalogue.

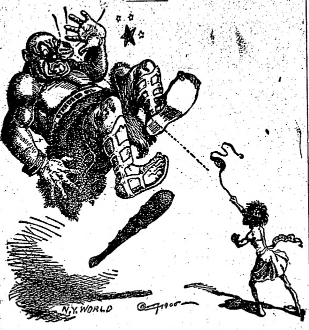
HISTORY REPEATS ITSELF.



N.Y. WORLD

BLAME IS PLACED ON THE RUSSIANS

BOARD OF INQUIRY MAKES ITS REPORT ON THE NORTH SEA AFFAIR.

Declares Rojestvensky Was Not Justified in Firing on Fishing Boats, But Finds Extenuating Circumstances—Decision a Compromise.

London, Feb. 27.—A decision in the controversy between Great Britain and Russia arising from the firing on the Gamecock fishing fleet the night of October 21-22, by the Russian second Pacific squadron commanded by Vice Admiral Rojestvensky was officially announced Saturday by the international commission of inquiry which sat at Paris to investigate the affair. The commissioners as a whole found that the fishing fleet made no hostile demonstration and a majority of them that there were no torpedo boats among the fishermen or in the vicinity, and that the opening of fire by Rojestvensky was not justified. The commissioners were unanimously of the opinion that Rojestvensky did all he could personally to prevent the trawlers being fired on, and on the question of his proceeding without giving assisstance to the damaged trawlers it was agreed that there was such uncertainty concerning danger to the Russian squadron as to warrant Rojestvensky continuing his route.

Rear Admiral Charles H. Davis, the American representative on the commission, is of the opinion that the general results of the findings are favorable to Great Britain, as they sustain the statements of fact as presented by that country. He thinks the decision will have a salutary effect in the interest of the general principles of arbitration. The general impression among those who heard Admiral Fournier, the president of the commission, read the decision was that it was a compromise, Great Britain's contention that there were no torpedo boats in the vicinity and that Rojestvensky was not justified in firing having been approved, and that of Russia that Rojestvensky acted according to his belief, even though mistaken, and that his action did not reflect upon his military valor or sentiments of humanity likewise having been agreed to.

MINERS PERISH.

Explosion Occurs in Shaft in West Virginia—Fifteen Dead Bodies Recovered.

Bluefield, W. Va., Feb. 27.—As a result of an explosion in shaft No. 1 of the United States Coal & Coke company at Wilcoe on Sunday 23 miners are supposed to have lost their lives and it is possible that the number will exceed this. Up to eight p. m., 15 dead bodies had been taken from the shaft. A large rescuing party is in the mines. It is barely possible, but not likely, that some of the remaining entombed miners will be rescued alive. The explosion was of terrific force and shattered glass windows a mile distant.

Hoch Held for Murder.

Chicago, Feb. 25.—Johann Hoch, self-confessed bigamist, was held to the grand jury by a coroner's jury, charged with poisoning Mrs. Marie Welker Hoch, who died January 12, shortly after having gone through a marriage ceremony with the prisoner.

Sensational Suicide.

Chicago, Feb. 27.—With the strains of a song ringing in his ears, L. W. Baynes, committed suicide by shooting himself during a performance in the Chicago opera house, causing several women to faint.

Ten Jews Slain.

London, Feb. 27.—A dispatch to a news agency from Odessa says it is reported there that ten Jews have been killed and 30 wounded in an anti-Jewish riot at Theodosia.

Dies of Paralysis.

Bedford, Ind., Feb. 25.—Maj. James C. Carlton, president of the National Mexican War Veterans' association, is dead as the result of a stroke of paralysis. He was 73 years old.

HARPER DOOMED.

Operation on Noted Educator Reveals Cancer Which Cannot Be Removed.

Chicago, Feb. 23.—Death has set its seal upon President Harper. When the head of the University of Chicago was operated on at the Presbyterian hospital Wednesday the surgeons discovered that he was suffering from a malignant cancer, which is fast eating away his life. The disease had spread so far that no attempt was made to remove the cancerous growth. The wound was closed and during the remainder of the great teacher's life the X-ray treatment will be used to stay the ravages of the disease. At the utmost Dr. Harper's life cannot span more than a year, and one of the operating surgeons declared that six months is the more likely period of his existence. Wednesday night Dr. Harper suffered great pain, though he slept at times. The surgeons who attended him did not believe it best to impart to the patient the sentence of death they had read at the operation. Dr. Charles McBurney, the famous New York surgeon, who operated on President McKinley when he was shot at Buffalo, wielded the knife at the operation. He was aided by Drs. Frank Billings, Nicholas Senn, and A. D. Bevans, the Chicago physicians and surgeons who have had the case in hand since shortly after Dr. Harper's late operation for appendicitis.

BIG TUNNEL COMPLETED.

Two Boring Parties Finally Pierce the Alps in a Tunnel Twelve Miles Long.

Gondo, Switzerland, Feb. 25.—Piercing of the Simplon tunnel through the Alps was completed at 7:20 o'clock Friday morning. The work was commenced in 1898. The meeting of the two boring parties (Swiss and Italian) was signaled throughout Switzerland by ringing of church bells and salutes by cannon. The work of preparing the tunnel for a permanent way will be pushed as rapidly as possible, and it is hoped to inaugurate the tunnel about March 20. The length of the tunnel from Briga, in Switzerland, to Iselle, on the Italian side of the mountain, is about 12 miles. Work was begun over seven years ago, and according to contract the tunnel must be ready for traffic on May 15 next. The Swiss and Italian governments jointly financed the undertaking, share and share alike, at the cost of $15,000,000.

SLAUGHTER AT A DANCE.

Girl Snubs Uninvited Guest—Fight Follows in Which Two Men Are Killed.

Greensburg, Pa., Feb. 27.—Anna Onnafrey's refusal to dance with George Lukesz, an unbidden guest at a wedding celebration, started a riot which converted the house where the dance was being held, into a slaughterhouse. A fierce hand-to-hand fight ensued, lasting for nearly an hour, but when the police, who had been summoned from Greensbug, arrived, it was over. Two men were killed and six others wounded. Twenty-seven arrests were made. Seven of the prisoners are charged with murder and 20 are held as witnesses.

A Remarkable Revival.

Louisville, Ky., Feb. 27.—Meetings in 24 churches, theaters and halls Sunday concluded the main effort of one of the most remarkable religious revivals seen in America during the past 50 years. During the two weeks just closed 6,500 persons confessed Christianity. As about 60,000 of Louisville's 220,000 population had no church affiliation before the revival began the two weeks resulted in the conversion of ten per cent. of the unchurched.

Earl of Morley Dead.

London, Feb. 27.—Albert Edmund Parker, earl of Morley, chairman of committees and deputy speaker of the house of lords, is dead, aged 62 years.

Man and Wife Convicted.

Chicago, Feb. 27.—Philip Burke and his wife Eliza were convicted of the murder of Andrew Larson and given 18 years each in the penitentiary.

Opera House Burned.

Akron, O., Feb. 27.—The Grand opera house, the second oldest playhouse in the city, was destroyed by fire Sunday, entailing a loss of $30,000.

KILLED WHILE AT A FUNERAL.

PORTION OF THE FLOOR OF A BROOKLYN CHURCH GOES DOWN AT FUNERAL.

The Pastor and 300 Colored People were Awaiting Services when the Crash Came Killing Eleven and Injuring Many More.

New York, Feb. 28.—Eleven persons were killed and upwards of fifty injured, some probably fatally, by the collapse of the flooring of the Fleet Street African Methodist Episcopal church in Brooklyn last night. Of those killed eight were women, two men and one a child.

The building was an ancient, ramshackle, frame structure, erected sixty years ago in the heart of the colored section of Brooklyn, in Fleet street near Myrtle avenue. Arrangements had been made yesterday to hold funeral services over Sidney L. Painter, one of the oldest members of the church, and auditorium, which is on the second floor of the building, the ground floor being used by the Sunday school, was crowded with an audience of upwards of 300 persons, of whom the majority were women.

The congregation was waiting in silence for the arrival of the body, and Pastor Jacobs was standing at the altar awaiting the summons to meet the funeral procession at the door, when a splintering of timbers was heard, and in an instant half of the auditorium nearest the door collapsed, carrying down more than a hundred persons, who were crushed in the wreckage of the flooring and pews.

A great volume of dust for a few moments hid the victims. The remainder of the audience, finding themselves cut off from the door, and expecting every instant that the rest of the flooring would collapse under them, fought madly to reach the windows, and in some instances leaped from them and sustained serious injuries.

A BAD POLICEMAN.

S. M. Lindahl, a Minneapolis Policeman Arrested on Charge of Larceny.

Minneapolis, Feb. 28.—Charged with arson and with burglary, Swan M. Lindahl, a South side patrolman, occupied a cell in the South Side station.

By his arrest, made at the order of Superintenden of Police Doyle, a police scandal has been started.

The specific charges against Lindahl are that he robbed the till in Branch B, Library building on Franklin avenue, and later, to cover his tracks, set fire to the building he had robbed.

The burglary and the crime of arson were committed late Sunday night and within sight of two watchmen, Hallman Askeland, 3226 Fifteenth avenue south, and Andrew S. Peterson, 1101 East Twenty-fourth street.

Lindhal has not attempted to deny the charges, neither has he given any explanations for his strange conduct.

Not only is it claimed that the officer robbed the branch library building, but it is alleged that twice before this month he has robbed the same building.

Hon. Boutwell Dead.

Groton, Mass., Feb. 28.—After an illness of a few days, George Sewell Boutwell, formerly governor of Massachusetts and formerly United States secretary of the treasury, died at his home here yesterday, aged 87 years. He was stricken with pneumonia last Friday night, and owing to his old age was unable to rally.

For more than sixty years Mr. Boutwell had been in public life, beginning his career as a lecturer at the age of 19. At 24 he was elected to the Massachusetts legislature, and at 33 he was chosen governor of the state. Although elected to these offices as a democrat, Mr. Boutwell became active in the organization of the republican party. He was a personal friend of President Lincoln.

Judge Swain Not Guilty.

Washington, Feb. 28.—The voting on the impeachment case of Judge Swayne began at 10:30 Monday on the first article which charged Swayne with certifying a false claim for expenses. The vote was guilty, 33; not guilty, 49. The vote on the other charges was practically the same.

Must Show Sweden.

Washington, Feb. 28.—Notice has been sent to the Swedish legation at Washington that hereafter all Swedes who marry in any foreign country must get permission from their diplomatic representative if they wish their marriages to be legally recognized in Sweden.

Sultan Orders Gunboats.

Paris, Feb. 28.—A dispatch from Constantinople to the Temps says that the sultan of Turkey has directed that 30 gunboats be ordered at various European shipyards.

TWIN CITY MARKETS.

Cattle—Steers, $3.50@4.00; cows, $3.00@3.50. Hogs—$4.50@4.75. Sheep—Muttons, $5.00; lambs, $6.75.

THE TERM "IDIOT."

In the Original Greek It Simply Meant a Private Person.

The word idiot is itself of interesting history. Its primary Greek significance was that of a private as distinguished from a public person. Our words idiom, idiosyncrasy, etc., are from the same root. The idiot in Greek was simply one not engaged in public affairs. The beginnings of the degradation of the word are shown in its application soon to the common people as distinguished from the upper classes. It was then applied to unprofessional and lay people and soon became the slurring title of the unskillful and awkward. By slow degrees it became applicable to the stupid and at last to the imbecile and idiot. As late as the sixteenth and seventeenth centuries the word was still used in its earlier senses. This long sad history speaks indirectly of the pathetic history of the imbecile. If he was not killed or starved to death by neglect, etc., he was usually reduced to the condition of a beast either about the house or fields or was actually driven into the woods and forced to live in caves, among wild animals, etc. In 1799 Itard took a "wild boy" found in the forests of Aveyron and tried to teach him. The ability of the wild boys and wolf children to live and the number that did so shows that idiocy, as we have later learned, is of all degrees and that a mind may be variously defective in some ways, even idiotic, but in others with capabilities well preserved. Blind Tom, the pianist, and the large number of mathematic idiots are examples that show how far we are from understanding the real nature of idiocy, and they more than suggest the partial retention of sound mentality of the defective, the possibility of seizing upon the one or few normal or even highly developed faculties and perhaps bringing others into co-ordination with them and to normality. The court fools and jesters of the olden times were often such partial idiots and defectives, and they truly lived upon their "wits," which were often better than those of their masters.—American Medicine.

THE VALUE OF EXAMPLE.

To have your child truthful, be truthful.

To have him temperate, be temperate in all things.

To have him kind to others, be yourself kind to others.

Prescribe healthful amusements and so far as you can take part in them.

Prove to him by your life that a good name is to be chosen before great riches.

Teach him that riches are not to be despised, but should never be got by doing harm to others; that when acquired should be treated as a trust, not as a hoard.

To have him honest, present to him in yourself a living example of honesty. The chief part of a child's knowledge comes through observation. Acts mean more to him than speech.—Philadelphia Inquirer.

A Demonstration.

Tommy and his little brother had been playing together most peacefully for some time when suddenly the baby gave a howl, followed by a series of shrieks. The mother rushed in and, while soothing the crying child, sought to find out what had hurt him. Tommy resisted her cross examination for a time, but finally admitted that he was guilty.

"What did you do to him?" she asked.

"I stuck him with a safety pin."

"What in the world did you do that for?"

"Nurse said you couldn't hurt yourself with a safety pin, and I wanted to see if it was so."

All Mothers Know

the great danger to babies in bad fits of coughing. Gloria Lung Balsam will stop it almost instantly, so don't be without it. Sold by W. A. Schreiter.

CHRONIC SORES

Wheeling, W. Va., May 28, 1903.

Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were healed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated, nor have the sores ever broke out again. Some 12 years have elapsed since what I have decribed occurred. Having been so signally benefitted by its use I can heartily recommend it as the one great blood purifier.

JOHN W. FUNDIS,
Care Schmulback Brewing Co.

Chronic sores start often from a pimple, scratch, bruise or boil, and while salves, washes and powders are beneficial, the unhealthy matter in the blood must be driven out or the sore will continue to eat and spread. S. S. S. reaches these old sores through the blood, removes all impurities and poisons, builds up the entire system and strengthens the circulation. S. S. S. is a blood purifier and tonic combined. Contains no mineral whatever but is guaranteed purely vegetable. If you have an old sore write us and our physicians will advise without charge. Book on diseases of the Blood free.

Not Fatal.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz.: (1) Weakness or Debility; (2) Rheumatism or Neuralgia; (3) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to Indigestion, Liver Complaint, etc.

Here are some of the symptoms: Shortness of breath after exercise. Smothering Spells. Pain in Chest, left Shoulder and arm. Discomfort in Lying on one side. Fainting Spells. Nervous Cough. Swelling of Feet and Ankles. Paleness of Face and Lips. Palpitation. Nightmare. Irregular Pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity presents. I can now go up and down stairs with ease, where three weeks ago I could hardly walk one block." One year later.—"I am still in good health; the Heart Cure did so much for me, that I find it a far greater medicine than you claimed it to be."—S. D. YOUNG, D. D., 697 North Pine St., Natchez, Miss.

THE CITY COUNCIL.

Regular Meeting Held February 16, 1905.

Meeting called to order by Fred Borchers, president.

Roll called, aldermen all present.

Minutes of the last regular meeting read and approved.

On motion, duly carried, the following bills were allowed:

J. C. Wilkinson, services health officer	$ 5 00
O. Lacourssiere, water	60
R. L. F. Elec. L. Co., street light for January, 1905	112 31
John Berry, sawing wood	3 40
John Deforge, street work	4 05
American Furnace Co., grates	8 00

The applicaton of H. Cardinal for abatement of taxes was, on motion, rejected.

The following resolution was offered by Alderman Hemmemuth and seconded by Alderman Hatten:

A resolution vacating certain streets, alleys and public grounds in the city of Red Lake Falls, and granting the same to the Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns.

BE IT RESOLVED by the City Council of the City of Red Lake Falls:

1. That the streets, alleys and public places hereinafter described are hereby vacated, and the use thereof as highways discontinued, and the same are hereby granted to The Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns, forever:

Said streets, alleys and public grounds hereby vacated are the following to-wit:

All that part of Second street extending easterly from the easterly line of the alley in block two (2) of Champagne and Dow's Addition to Red Lake Falls to the Clearwater river in said city.

All that part of Third street extending easterly from a line parallel with and twenty-five (25) feet easterly from the easterly line of the alley running north and south in block eight (8) in said Champagne & Dow's Addition to said Clearwater river in said city.

All that part of the alley in block nine (9) in said Champage and Dow's Addition easterly to the easterly line of lot nineteen (19) in said block.

All of the alley running east and west in the east half of block eight (8) of said Champagne and Dow's Addition.

All that part of Saint John Avenue extending from the southerly line of First street to the northerly line of Fourth street in said city.

All that part of Fourth street extending easterly from the easterly line of Saint John avenue to said Clearwater river.

All that part of the alley between block seventeen (17) of said Champagne and Dow's Addition and block [4] of Champagne, Dow and Gieriet's Addition extending from the northerly line of lot one [1] in said block four [4] southerly to the northerly line of Fifth street in said city.

All that part of Fifth street extending from the westerly line of block three [3] in said Champagne, Dow and Gieriet's Addition easterly to the easterly line of Dow avenue.

All that part of Dow avenue in said city extending from the southerly line of Fifth street to the northerly line of Sixth street in said city,

All that part of Sixth street extending from the easterly line of Dow avenue to the westerly line of the alley in block seven [7] of said Champagne, Dow and Gieriet's Addition.

All of the alley in block seven [7] of said Champagne, Dow and Gieriet's Addition.

All that part of Gieriet avenue extending from the southerly line of Seventh street to the northerly line of Hamilton street.

All that part of Sibley avenue extending from the southerly line of Hamilton street to the northerly line of Harrison street.

The said streets, alleys and public grounds hereby vacated are shown in green color on the plat hereto annexed, which is made a part of this resolution.

2. The vacation of the streets herein described shall take effect and be in force only upon the payment by the Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns, of the value of said property, which said value is fixed and determined at one hundred and eighty-two dollars and thirty-three cents [$182.33.]

3. The city of Red Lake Falls hereby reserves to itself the right, at its own cost and expense, to lay down in and under any of the streets, alleys and public grounds hereby vacated public sewers and water mains.

4. The said Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns, shall construct and maintain in and under its tracks and road-bed upon the streets, alleys and public grounds hereby vacated sufficient culverts to take care of all surface-water coming to its road-bed and tracks upon said vacated premises through natural drainage, or through the surface drainage of the streets of said city, as the grades are now established, or as they may be hereafter without substantial changes in said grades.

5. The said The Saint Paul, Minneapolis and Manitoba Railway Company shall indemnify and save harmless the said city of Red Lake Falls from any and all liability for damages on account of the vacation of the streets, alleys and public grounds hereby vacated.

6. The vacation of said streets and alleys herein provided for shall not take effect until said railway company shall have filed with the city clerk of said city its written acceptance, duly witnessed and acknowledged, of the provisions of this resolution.

Upon roll call the following Alderman voted Aye: Hennemuth, Crompe Hatten, Brady and Borchers.

Nays, none.

Whereupon the resolution was declared adopted.

On motion the council adjourned.

FRED BORCHER, Pres.

Approved this 28th day of Feburary, A. D. 1905. J. A. DUFFY, Mayor.

Attest: A. P. TOUPIN, Clerk.

Women's Kidneys.

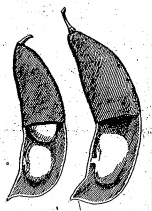
Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculair to their sex, while in reality the kidneys are deranged. Nervousness, headaches, puffy or dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. Sold by A. L. Reichert.

FARM AND GARDEN

NEW THINGS IN NEW JERSEY

The Jersey Belle Eggplant Is One of the Season's Taking Novelties.

As might be expected in a state famous for its gardening industry, the New Jersey experiment station has been doing some unique work in the breeding of truck crops. As a result of this a new variety of sweet corn, the Voorhees Red, was sent out last spring. This season four new things are announced—the Station Bush Lima bean, the Kelsey Bush Lima bean, the Station Yellow tomato and the Jersey Belle eggplant.



THE KELSEY. THE STATION BUSH.

Since 1900 work has progressed upon the crosses of bush or dwarf lima beans secured between the Henderson as the male and the Burpee as the female parent. Out of the crosses two have been selected. One, nearer the Burpee, is named the Station Bush Lima, and the other, approaching the Henderson type, is called the Kelsey. One of the chief valuable characteristics of these crosses is their remarkable productiveness. Crossed plants often show this tendency, and here there has been a striking example of vigor and fruitfulness.

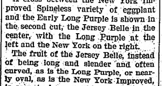
The quality of the crosses is said to compare favorably with that of the Burpee, a variety of high grade. The yield has been fully double that of either parent under similar circumstances.

The Station Yellow tomato, a cross of Golden Sunrise upon Dwarf Champion, gets its fine color, between that of a ripe lemon and orange, from the male parent (Golden Sunrise) and the upright or dwarfed habit of vine from the female or Champion ancestor. The plant and fruit are somewhat larger than the Champion and the foliage less "curled." Thickness of the wall of the fruit, with firmness of flesh, renders them desirable for marketing and adds to the percentage of edible flesh for the table.

A cross between the New York Improved Spineless variety of eggplant and the Early Long Purple is shown in the second cut, the Jersey Belle in the center, with the Long Purple at the left and the New York on the right.

The fruit of the Jersey Belle, instead of being long and slender and often curved, as is the Long Purple, or nearly oval, as is the New York Improved, is seen to be a combination of these two extremes. No change in color has developed. It is the handsome deep purple so popular with consumers of this vegetable.

The slices from a good sized New York Improved fruit are too large and not well suited for the frying pan or for serving upon the table, while the cross is a decided improvement in this respect. In the Long Purple the fruit is too slender, but the small and nearly seedless slices are superior in quality.



A CROSS IN EGGPLANTS.

The Jersey Belle retains the good qualities of its slender fruited parent and at the same time yields abundantly of fruits, with two-thirds of their flesh free from seeds, or nearly twice as much as in the New York Improved variety.

Fall and Early Winter Lambs.

Remember the term "hothouse" lamb does not mean that you must grow your animal in a semi-incubator. The feeding barn should never be kept hot. The feeder should exercise care that his lambs do not get in a draft and are well sheltered, but see that they have air. It will not hurt them once in awhile to go out in the snow. Our fall and winter lambs often weigh forty to fifty pounds early in the spring and bring from $7 to $10 per head, according to the market. All lamb feeders who can grow alfalfa should not fail to be without this wonderful hay. I attribute most of my success with lambs to alfalfa. The past season I raised 350 tons on my farm and use it freely. Also I grow 2,000 bushels of oats and barley, 4,000 bushels of shelled corn and 300 bushels of soy beans on my place, much of which was fed to sheep, handling about a thousand head per year, said Joseph E. Wing before the Connecticut board of agriculture.

If taken this month, keeps you well all summer. It makes the little ones eat, sleep and grow. A spring tonic for the whole family. Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets, A. L. Reichert.

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

COOPER COMMISSION CO., Minneapolis, Minn.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.

Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.

Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers; R. R. fare refunded to purchasers of 160 acres. For maps and further particulars address UECKE'S LAND AGENCY, Cumberland, Wis.

THE CITY COUNCIL.

Regular Meeting Held February [illegible], 1905.

Meeting called to order by Fred Borcher, president.

Roll called, aldermen all present.

Minutes of the last regular meeting read and approved.

On motion, duly carried, the following bills were allowed:

J. C. Wilkinson, services health officer	$ 5 00
O. L. Fougrassier, water	60
R. L. F. Elec. L. Co. street light for January, 1905	112 50
John Berry, sawing wood	3 40
John Deforge, street work	4 95
American Furnace Co., grates	8 00

The application of H. Cardinal for abatement of taxes was, on motion, rejected.

The following resolution was offered by Alderman Hemmemuth and seconded by Alderman Hatten:

A resolution vacating certain streets, alleys and public grounds in the city of Red Lake Falls, and granting the same to the Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns.

BE IT RESOLVED by the City Council of the City of Red Lake Falls:

1. That the streets, alleys, and public places hereinafter described are hereby vacated, and the use thereof as highways discontinued, and the same are hereby granted to The Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns, forever.

Said streets, alleys and public grounds hereby vacated are the following to-wit:

All that part of Second street extending easterly from the easterly line of the alley in block two (2) of Champagne and Dow's Addition to Red Lake Falls, to the Clearwater river in said city.

All that part of Third street extending easterly from a line parallel with and twenty-five (25) feet easterly from the easterly line of the alley running north and south in block eight (8) in said Champagne & Dow's Addition to said Clearwater river in said city.

All that part of the alley in block nine (9) in said Champage and Dow's Addition easterly to the easterly line of lot nineteen (19) in said block.

All of the alley running east and west in the east half of block eight (8) of said Champagne and Dow's Addition.

All that part of Saint John Avenue extending from the southerly line of First street to the northerly line of Fourth street in said city.

All that part of Fourth street extending easterly from the easterly line of Saint John avenue to said Clearwater river.

All that part of the alley between block seventeen (17) of said Champagne and Dow's Addition and block [4] of Champagne, Dow and Gieriet's Addition extending from the northerly line of lot one [1] in said block four [4] southerly to the northerly line of Fifth street in said city.

All that part of Fifth street extending from the westerly line of block three [3] in said Champagne, Dow and Gieriet's Addition easterly to the easterly line of Dow avenue.

All that part of Dow avenue in said city extending from the southerly line of Fifth street to the northerly line of Sixth street in said city,

All that part of Sixth street extending from the easterly line of Dow avenue to the westerly line of the alley in block seven [7] of said Champagne, Dow and Gieriet's Addition.

All of the alley in block seven [7] of said Champagne, Dow and Gieriet's Addition.

All that part of Gieriet avenue extending from the southerly line of Seventh street to the northerly line of Hamilton street.

All that part of Sibley avenue extending from the southerly line of Hamilton street to the northerly line of Harrison street.

The said streets, alleys and public grounds hereby vacated are shown in green color on the plat hereto annexed, which is made a part of this resolution.

2. The vacation of the streets herein described shall take effect and be in force only upon the payment by the Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns, of the value of said property, which said value is fixed and determined at one hundred and eighty-two dollars and thirty-three cents [$182.33.]

3. The city of Red Lake Falls hereby reserves to itself the right, at its own cost and expense, to lay down in and under any of the streets, alleys and public grounds hereby vacated public sewers and water mains.

4. The said Saint Paul, Minneapolis and Manitoba Railway Company, its successors and assigns, shall construct and maintain in and under its tracks and road-bed upon the streets, alleys and public grounds hereby vacated sufficient culverts to take care of all surface water coming to its road bed and tracks upon said vacated premises, through natural drainage or through the surface drainage of the streets of said city as the grades are now established, or as the same may be hereafter, without any material changes in said grades.

5. The said The Saint Paul, Minneapolis and Manitoba [illegible] shall indemnify and [illegible]

[illegible] until said railway company shall have filed with the city clerk of said city its written acceptance, duly executed and acknowledged, of the provisions of this resolution.

Upon roll call the following Aldermen voted Aye: Hemmemuth, Crompe, Hatten, Brault and Borchers.

Nays, none.

Whereupon the resolution was declared adopted.

On motion the council adjourned.

FRED BORCHER, Pres.

Approved this [illegible] day of Feburary, A. D. 1905.

J. A. DUFFY, Mayor.

Attest: A. P. TOUPIN, Clerk.

Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculair to their sex, while in reality the kidneys are deranged. Nervousness, headaches, puffy or dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. Sold by A. L. Reichert.

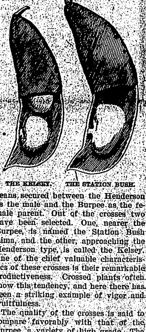
FARM AND GARDEN

NEW THINGS IN NEW JERSEY

The Jersey Belle Eggplant Is One of the Season's Taking Novelties.

As might be expected in a state famous for its gardening industry, the New Jersey experiment station has been doing some unique work in the breeding of truck crops. As a result of this a new variety of sweet corn, the Voorhees Red, was sent out last spring. This season four new things are announced—the Station Bush Lima bean, the Kelsey Bush Lima bean, the Station Yellow tomato and the Jersey Belle eggplant.

Since 1900 work has progressed upon the crosses of bush or dwarf lima beans, secured between the Henderson as the male and the Burpee as the female parent. Out of the crosses two have been selected. One, nearer the Burpee, is named the Station Bush Lima, and the other, approaching the Henderson type, is called the Kelsey. One of the chief valuable characteristics of these crosses is their remarkable productiveness. Crossed plants often show this tendency, and here there has been a striking example of vigor and fruitfulness.



THE KELSEY. THE STATION BUSH.

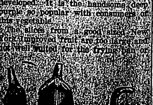
The quality of the crosses is said to compare favorably with that of the Burpee, a variety of high grade. The yield has been fully double that of either parent under similar circumstances.

The Station Yellow tomato, a cross of Golden Sunrise upon Dwarf Champion, gets its fine color, between that of a ripe lemon and orange, from the male parent (Golden Sunrise) and the upright or dwarfed habit of vine from the female, or Champion ancestor. The plant and fruit are somewhat larger than the Champion and the foliage less "curled." Thickness of the wall of the fruit, with firmness of flesh, renders them desirable for marketing and adds to the percentage of edible flesh for the table.

A cross between the New York Improved Spineless variety of eggplant and the Early Long Purple is shown in the second cut, the Jersey Belle in the center, with the Long Purple at the left and the New York on the right.

The fruit of the Jersey Belle, instead of being long and slender and often curved, as is the Long Purple, or nearly oval, as is the New York Improved, is seen to be a combination of these two extremes. No change in color has developed. It is the handsome deep purple so popular with consumers of this vegetable.

The slices from a good sized New York Improved fruit are too large and not well suited for the frying pan or



[illegible] quality [illegible] fruited parent and at the same time yields abundantly of fruits, with two-thirds of their flesh free from seeds, or nearly twice as much as in the New York Improved variety.

Fall and Early Winter Lambs.

Remember the term "hothouse" lamb does not mean that you must grow your animal in a semi-incubator. The feeding barn should never be kept hot. The feeder should exercise care that his lambs do not get in a draft and are well sheltered, but see that they have air. It will not hurt them once in awhile to go out in the snow. Our fall and winter lambs often weigh forty to fifty pounds early in the spring and bring from $7 to $10 per head, according to the market. All lamb feeders who can grow alfalfa should not fail to be without this wonderful hay. I attribute most of my success with lambs to alfalfa. The past season I raised 350 tons on my farm and use it freely. Also I grow 2,000 bushels of oats and barley, 4,000 bushels of shelled corn and 800 bushels of soy beans on my place, much of which was fed to sheep, handling about a thousand head per year, said Joseph E. Wing before the Connecticut board of agriculture.

If taken this month, keeps you well all summer. It makes the little ones eat, sleep and grow. A spring tonic for the whole family. Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. A. L. Reichert.

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SHIP YOUR GRAIN. We are the only firm in this city dealing exclusively with the farmer. All Millers know that our cars are of one grade and not elevator mixed, which explains why our sales is more satisfactory than any other concern. Submit us samples for grades, etc. COOPER COMMISSION CO., Minneapolis, Minn.

IMPROVED FARMS.
Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 70,000 acres of hardwood timber land. The timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5 to $15 Per Acre.
Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.
SAW MILLS WANTED
to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.
Buy your tickets to Cable on C. St. P. M. & O. Ry. [illegible] refunded to purchaser of land. For maps and further particulars address

$1.00 Per Year, in Advance.

THE present legislature will not go down in history as accomplishing much for the good of the state.

DR. OSLER should bear in mind that a whole lot of men under 40 could be chloroformed without loss to the public.

Gas Addicks seens to have reached the end of his rope at last. Shorn of his fortune, there is naught to commend him even to the boodlers and grafters.

FOR the year 1904 the per capita expenses for the state prison convicts was $179.82 and the per capita earnings of $321.34, a clear profit per capita of $141,52. There are few factories that makes as mnch profit from each employe as that.

THE Princeton Union is alarmed ecause some of the Chicago raiload magnates and millionaires were present at the banquet addressed by Governor Johnson two week ago. It is noticeable, however, that none of them patted the Governor on the back and said: "Go it, John, we're with you."

THE legisature has so far accomplished but little at this session, and the new code is given the burden of the blame. Nobody wants to have a law passed until the code is out of the way, since it cannot be known whether or not the adoption of the code would leave the new measure on dry land. It is expected that the judiciary committees of the senate and house will report the code in a few days and some action will be taken at once.

JULIUS PLETH's latest contribution to county-seat literature does not seem to meet with a cordial reception. It seems that after Mr. Pleth wrote a letter some weeks ago expressing his honest convictions in favor of Red Lake Falls certain railroad and other influences induced him to revise his opinions. Now Mr. Pleth either was right when he favored Red Lake Falls or he is right now, after recanting his earlier views. The average voter will believe that he was right at the time when no foreign corporation dictated his attitude on this particular question. We had always believed that Mr. Pleth was too fair-minded and broadguaged to allow a railroad company to control his attitude on a local question.

A WALL-street banker, who is said to be the head of the largest financial institutions of New York, is credited with the statement that the fortune of John D. Rockefeller will in a few years amount to $1,000.-000,000. There are many estimates current of Mr. Rockefellow's wealth, estimates ranging all the way from $400,000,000 to $600,000,000., but the Wall street authorities add that all estimates of the Rockefellow fortune have been too low. Years ago, Mr. Gladstone was one of the guests at a dinner in England where the oldest member of the Vanderbilt family was also present. Somebody whispered to the Euglish premier that the rich American had $100,000,000, and Mr. Gladstone commented, after looking curiously at Mr. Vanderbilt: "Then I should say that he constitutes a peril to the American republic."

JOE TRIGG'S NEW WOMAN.

We saw a woman, a farmer's daughter, one day last fall seated on a sulky plow driving a team of three fine horses and doing as nice a job of plowing as we have seen done in many a day, doing her work in far better shape that was a man with a similar outfit in an adjoining field. "No business to be doing this sort of work," you say. Well, we don't know about that. She might far better be driving that team and doing that nice plowing than fooling her time away on some novel, or be pounding a piano when she had no more music in her makeup than an old goose, or be working green storks on yellow card-board and calling it art, or be living a useless, idle existence, primping and posing to get some fellow to marry her. There's a whole lot of mush about modern ideas of woman and her sphere. If more of this beautiful outdoor work was done by American women they would not have to buy bottles or hire wet nurses for their babies and there would be more and healthier children raised. We know of a farmer to whom the Lord sent a whole lot of girls and no boys. He was fairly well to do, and three of them did not want to teach school, work in a millinery store and that sort, and the old man would not let them lay around and do nothing; so he made a deal with then to help him on the farm, and they milked the cows, fed the calves, took care of the garden and orchard' helped to do the seeding, corn plowing, haying, harvesting, and when we saw them they were none the less refined, and ladylike because of so doing; and my, but what pretty, healthful girls, they were—competent, resourceful energetic, and each one of them had a nice young fellow who was wrestling with the problem of getting a farm and a home of his own, who found in these girls just the right sort of a woman to help him do it. Woman may from choice do this sort of outdoor work without degredation or lose of womanly refinement and grace, but she should not be compelled to do it.—Iowa State Regirter.

Cured Hemorrhages of the Lung.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. Sold by A. L. Reichert.

The Grip Leaves Thousands in its Path Weak, Nervous, Dyspeptic, Catarrh Wrecks.

THE GRIP LEAVES THOUSANDS IN ITS PATH WEAK, NERVOUS, DYSPEPTIC, CATARRH WRECKS

From New York Journal. "During the recent Grip epidemic, claiming a million victims or more, the efficiency of Peruna in quickly relieving this malady and its after-effects has been the talk of the continent."

LIKE A DEMON grip has crossed our country, leaving behind scores of physical wrecks.

Victims of catarrh of the head, catarrh of the throat, catarrh of the lungs, catarrh of the stomach, catarrh of the kidneys, catarrh of the pelvic organs, are to be counted by hundreds of thousands. Grip is epidemic catarrh, and sows the seed of chronic catarrh within the system.

This is so true that few grip sufferers are able to make a complete recovery until they have used Peruna.

Never in the history of medicine has a remedy received such unqualified and universal eulogies as Peruna.

A New York Alderman's Experience.

Hon. Joseph A. Flinn, alderman Fifth District, writes from 104 Christopher street, New York City, as follows:

"When a pestilence overtakes our people we take precaution as a nation to preserve the citizens against the dread disease.

"La grippe has entered thousands of our homes this fall, and I noticed that the people who used Peruna were quickly restored, while those who depended on doctor's prescriptions, spent weeks in recovering, leaving them weak and emaciated.

"I had a slight attack of la grippe and at once took Peruna, which drove the disease out of my system in a few days and did not hinder me from pursuing my daily work.

"I should like to see our Board of Health give it official recognition and have it used generally among our poor sick people in Greater New York."—Joseph A. Flinn.

D. L. Wallace, a charter member of the International Barber's Union, writes from 15 Western avenue, Minneapolis, Minn.:

"Following a severe attack of la grippe I seemed to be affected badly all over. I suffered with a severe backache, indigestion and numerous ills, so I could neither eat nor sleep, and I thought I would give up my work, which I could not afford to do.

"One of my customers who was greatly helped by Peruna advised me to try it, and I procured a bottle the same day. I used it faithfully and felt a marked improvement. During the next two months I took five bottles, and then felt splendid. Now my head is clear, my nerves steady, I enjoy food, and rest well. Peruna has been worth a dollar a dose to me."—D. L. Wallace.

Mr. O. H. Perry, Atchison, Kansas, writes:

"Again, after repeated trials of your medicines, Peruna and Manalin, I give this as my expression of the wonderful results of your very valuable medicine in its effects in my case after repeated trials.

"First, it cured me of chronic bronchitis of fifteen years' standing by using two bottles of Peruna in January, 1894, and no return of it.

"After I was cured of bronchitis I had la grippe every winter for several winters. But, through the use of Peruna, it got gradually weaker in its severity, until it dwindled down to a mere stupor for two or three days. Now the stupor does not trouble me any more."—O. H. Perry.

A Congressman's Experience.

House of Representatives,
Washington, D. C.

Peruna Medicine Co., Columbus, Ohio.

Gentlemen—"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."

Very respectfully,
George H. White.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

New Game Laws.

The various amendments of the game laws introduced in the house and favored by the game and fish committee will be incorporated in an entirely new game law, which S. F. Fullerton, execution agent of the game and fish commission is now drafting.

The new law will reduce the game bag from three to two deer, the number of aquatic fowls that a person may possess at any time from 100 to 50, the number of land game birds from 50 to 25, and the number of birds that may be shot in one day from 25 to 15. The bill will also reduce the number of fish that may be caught in one day from 50 to 25.

Seining for buffalo, red horse, suckers and other rough fish will be allowed in the Mississippi and St. Croix rivers. and Lake Pepin, by licensed persons furnishing a bond.

It is also proposed to provide a gun license, to be required of any one carring a gun. The farmers object to this, and the gun license will probably not be required of hunters in the county which they reside, which will meet their objections.

Pheasants of practically all varieties are protected until Jan. 1, 1915, by a bill introdued last week by Representative Carl Wallace of Minneapolis and passed by the house under suspension of the rules.

Mr. Wallace said the law protecting pheasants expired Jan. 1. 1905. People interested in the propagation of game. Mr. Wallace said, had freed many pairs of various varieties in the state. They had become acclimated, and are increasing rapidly, but are not plentiful enough to be considered a game bird. Since the protective law expired, many have been killed. There was no opposition to the bill.

The varieties of pheasants named in the bill are: Mongalian, English, Golden, Reeves, Japanese, Tenmincks, Trapopan and Ringneck or China Torquatus. A fine of from $25 to $100 is imposed for each bird killed, or imprisonment for not more than sixty days.

Not for their Health.

Sear, Roebuck & Co., the big mail order firm in Chicago, are putting up a two million dollar building out of the profits made off their customers in the past two or three years. That doesn't look as if the proprietors are in business for their health.

Death rate in Chicago and New York.

During November and December, 1903, one fifth of the deaths in New York and Chicago were from pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs and prevents pneumonia, so do not take chances on a cold wearing away when Foley's Honey and Tar will cure you quickly and prevent serious results. Sold by A. L. Reichert.

Brain Leaks.

A starving man isn't worrying about his soul.

Optimism is not "taking things as they come."

The young man who "accepts a position" usually winds up playing second fiddle to the young man who hustles for a job.

If it's worth having it is worth striving for.

"Killing time" is the wilful murder of opportunites.

The church that does it duty never needs a revival.

The value of a gift is measured by the heart of the giver.

The fellow who is too good for his job is no good to an employer.

The man who does his level best has very little time to worry about results.

Did you ever hear of a man being dragged down because he stooped over to lift up?

A man who does his whole duty never lacks appreciation, even though nobody ever hears of him.

The man who doesn't like children will be out of place in heaven, for adults will be in the minority up there.

Kind words are so cheap that it is a wonder anybody will take the trouble to think up unkind ones.

There is a world of difference between asking God to help and asking God to do it all.

Some men never look up to save when they toss back their heads to make sure of getting the last drop in the glass.

We incline to the belief that the mother who keeps the "cookie jar" well filled seldom has any trouble with her boys.

The Orignal.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

Any Woman can make

Better Bread

from *Any Flour* with

YEAST FOAM

Yeast Foam is the yeast that took the First Grand Prize at the St. Louis Exposition, and is sold by all grocers at 5 cts. a package—enough for 40 loaves. Send a postal card for our new illustrated book "Good Bread: How to Make It."

NORTHWESTERN YEAST CO.
CHICAGO, ILL.

Home Made

Have your cake, muffins, and tea biscuit home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the house wife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

Royal is the greatest of bake-day helps.

ROYAL BAKING POWDER CO., NEW YORK.

NOTES IN MINOR CHORD.

Go to the Merchants State Bank for farm loans.

The county commissioners are in session.

Mr. and Mrs. Chas. Bourdon were at Brooks Tuesday.

S. A. Swanson has been a Twin city visitor this week.

O'Brien Bros. give a talk on fire arms in this week's paper.

P. B. Gaass is planting his garden today. How's that for climate?

Wm. O'Brien was a business caller at Crookston one day last week.

P. K. Olson, of Plummer, visited friends at this place over Sunday.

Fred Burgdorf was laid up the first of the week with the grippe.

An Ada man has captured the boiler inspectorship for this district.

Deputy Sheriff George Jarman was down from Thief River Falls Monday.

Theo. Garceau has been at his home the past week wrestling with the grippe.

Mrs. Otto Kankel of Fertile, was the guest of Red Lake Falls relatives over Sunday.

One dozen small plotos for 60c at Riechel's gallery. For particulars see hand bills.

You are invited to attend the Woodmen dance at their hall next Monday evening.

Dr. J. C. Wilkinson was called to Dugdale Monday evening on professional business.

A. A. Latandresse, the new deputy at the Auditor's office, assumed his duties yesterday.

Wm. Erb came in from the reservation Saturday and remained over Sunday with relatives.

Miss Gigstad and Miss Pirath, of St. Hilaire, visited at the home of P. E. Pirath one day last week.

Mrs. R. Peble left this morning for Grand Forks where she was called by the sickness of a daughter.

Berthon & Armstrong have a new adv. on the first page of this week's paper. It will pay you to look it up.

Miss Grace Iddings has been compelled to give up her school duties for a time on account of sickness.

Ayer's

Give nature three helps, and nearly every case of consumption will recover. Fresh air, most important of all.

Cherry Pectoral

Nourishing food comes next. Then, a medicine to control the cough and heal the lungs. Ask any good doctor.

"I first used Ayer's Cherry Pectoral 53 years ago. I have seen terrible cases of lung diseases cured by it. I am never without it."
ALBERT G. HAMILTON, Marietta, Ohio.

25c., 50c., $1.00. All druggists.
J. C. AYER CO., Lowell, Mass.

for Consumption

Health demands daily action of the bowels. Aid nature with Ayer's Pills.

M. A. Hatten and family expect to move to Washington in the near future to make that section their home.

The Woodmen will give a public dance at their hall next Monday evening. Everybody is invited to attend.

The N. P. is getting ready to put their track between this place and Fertile in first class shape the coming summer.

Mrs. Adolphus Beausoliel was taken suddenly ill yesterday and has been in a very dangerous condition since.

Prof. A. Onstad was at St. Hilaire Monday evening. He reports the band at that place as making satisfactory progress.

The Big Store calls your attention to their line of rubbers and dress goods this week. Look up the adv. on page four.

Some of our young men have started a gymnasium in the building formerly occupied by the Coe Commission company.

So dainty 'twould make the daintiest foot daintier—an ideal kid patent Queen quality shoe for women. —Garceau & Zaiser.

Mrs. Joseph Tsicheart will entertain the ladies of St. Mary's church, Thursday, March 9. All are cordially invited to attend.

A gentlemen's shoe built of firmness and up-to-datedness for particular wearers—the W. L. Douglas shoe. At Garceau & Zaiser's

A number of young people surprised Albert Nauman at the home of his father, west of town, last Saturday evening. A most enjoyable time is reported by those present.

The raffle at the M. B. A. hall last Tuesday was largely attended and a good time was had by those present. We have not learned who held the lucky numbers.

Lost—Between this city and the Nauman home, west of the city, a black fur robe. Finder will kindly leave the same at the Grand View hotel and receive reward.

Mark Groves, of Adrian, Minn., is in the city this week. Mr. Groves is the owner of a piece of land in Lambert township and he is here looking after the property.

Assistant Superintendent R. C. St. John and Roadmaster J. L. Laughlin, of the Great Northern railway, were here one day last week, looking over the work at the new cut-off.

C. J. Knox, of Thief River Falls, was a visitor of the court house Monday where he filed a plat of a new addition to his town. He had sold six lots in the new territory before he reached this city.

Mrs. K. M. Hansen came down from Thief River Falls Saturday and remained over Sunday, the guest of Mrs. E. F. Marshall. Mrs. Hansen will receive a warm welcome in Red Lake Falls society when she comes here to reside.

The Probate Judge's office was the scene of a very pretty wedding cermoney Monday morning, when Judge Tarrant united in wedlock Nels B. Swanson and Miss Ida Lovness. The young couple are residents of Sanders township and have hosts of friends who wish them happiness and good luck in their new relation.

A number of the members of the M. B. A. lodge of this place were at Brooks Saturday night and helped institute a lodge at that place. It proved an all-night session and the visitors were royaly entertained by the Brooks people.

There was an office safe moving bee Monday. H. W. Anderson receiving his new safe, his old one was moved into Lewis & Higinbotham's office, while the old one that was in that office was transferred to the law office of Germo & Farley.

The N. P. Ry. settled their difference with John Doyea the first of the week. Mr. Doyea was injured some time ago while in the company's employ and had brought suit against them to recover damages with the above result.

Ovide Broulotte left Wednesday night for his home in Washington after visiting relatives here for several weeks. He was accompanied by Eli Noel who will probably make his home in that section of the country in the future.

Mr. and Mrs. Geo. LaBissoniere left last evening for their home at North Yakima, Wash., after a visit here of about a month with their relatives and numerous friends. They will always be sure of a hearty welcome in Red Lake Falls.

The young ladies' Merry Crew Club met at the home of Mrs. Henry Hennemuth Monday evening. Some of the young fellows about town "swiped" the young ladies' ice cream. but it did not interfere with the enjoyment of the evening.

The year and a half old son of Mrs. Susie Olen died Saturday of congestion of the lungs after a very short illness. The funeral was held Monday. Mrs. Olen has many friends who deeply symathize with her in her hour of bereavement.

Ladies Aid Society of the Presbyterian church will hold their annual business meeting and elections of officers next Monday at 3 p. m. at the home of Mrs. Henry Hennemuth. All ladies of the congregation are invited to be present.

Anthony Reng, of Bagley, and Miss Pauline Quesnelle, of this city, were united in marriage Tuesday at the home of the bride's parents, Rev. Father Fayolle performing the ceremony. The young couple have the best wishes of a large circle of friends.

It is reported that the Soo has abandoned the idea of building west from Thief River Falls, as the route has been found impractible. It is now thought they will connect with the main line at Plummer, running west to St. Hilaire, Hazel, and on to Warren.

Ed. L. Healy has a fine collection of grasses that were grown in Red Lake county at his real estate office. It is a wonderful dis play and the most sceptical would soon be convinced that this section is one of the best grass districts in the country.

The young daughter of Mr. and Mrs. Ed. Moran broke the wrist of the left arm Monday while playing with some other children. The little lady displayed courage and nerve in walking alone to Dr. Watson's office and having the injury adjusted.

Nels Benoit returned last Friday from North Yakima, Washington, where he visited friends for two months. He likes that country very much. Mr. Benoit will leave next Monday for Grand Forks where he has acceped his old position, yard foreman for the St. Hilaire Lumber Co.

How's this? Mr. Huot, of Louisville township, seeded a patch of ground to wheat Tuesday of this week. As the gronnd was in first class shape for grain Mr. Huot concluded to try the experiment, but only put in a bushel of the grain. This weather is certainly a record breaker.

Several ladies composed a surprise party that called on Mrs. Wm. Schwalen Monday afternoon at the home of Mrs. Robt. Bourdon. The object of the party was to show the respect and friendship Mrs. Schwalen has of the entire community, and also to wish her a happy time in her new home in North Dakota.

The ladies of the Southside Club entertained their husbands Saturday evening at the J. P. Harren home. Card playing was indulged in, Wm. Findeisen winning first honors and Wm. Schwalen winning the booby prize. Refreshments were served and a most enjoyable time is reported by those present.

GARCEAU & ZAISER

Sam E. Hunt is expected home to-day from his trip to Duluth where he attended the hardware dealers meeting last week. Sam was elected a member of the auditing committee, one of the most important committes of the organization. He remained at Duluth over Sunday and visited at Cass Lake, Bemidji and other northern towns this week.

Ralph Green and Chris. Lindberg, of Equality township, have been in the city this week. The gentlemen presented a petition to the county commissioners for a bridge on the section line between section 31 and 32, Equality twp., over the Clearwater river. It is the general opinion that a bridge is badly needed at this point and it would accommodate a large number of people living in that section.

The mistakes the "tenderfoot" makes about advertising, says the Fargo Forum, is that he gets his eyes glued on the prospective expense and it acts so terribly on the nerves as to cause heart failure. If you have not the nerve to follow a well blazed trail, even through you have never been over it yourself, you were never cut out to be a merchant prince and bad better stay out of the game.

While the crowd was enjoying itself at the M. B. A. ball last Tuesday evening a stranger helped himself to a overcoat that did not belong to him. He was arrested and tried before Justice S. L. Lewis and was found guilty. Rather than board him at county expense until next April it was decided to make him leave the county, and the last seen of him he was started for Thief River Falls on a dead run.

A school teacher in one of our nearby districts received the following by the hand of a pupil the other day: "Deer teacher:" For wy you shall yerk mine boy so hard he brakt him suppenders and volk home holding him pants ved him hands? If him dont mine you skall lik him yus so much lik you vant to, but I dond vant you skall taree hims cloths off. He dond vas dressed fer feetball game.—Ex.

Section foremen in the service of the Northern Pacific railway have received notification from headquarters that their usual monthly rent bills for the section house will in future not have to be paid. This action on part of the company is taken in order to allow the section men more pay. The houses along the entire line of the road are owned by the company and the rent has heretofore been withheld from the checks of the foremen. The increase in pay will amount to quit a neat sum and is making the "bosses" feel good.

Wm. Schwalen was home last week and packed his household goods and shipped them to Webster, North Dakota, where he will have charge of Robertson & Co's lumber businens. Mr. Schwalen has already left for his new field of labor, but Mrs. Schwalen will not go until about March 10. Mr. and Mrs. Schwalen have a host of friends here who will regret their departure, but will wish them happiness and prosperity in their new home.

An exchange contains the following bit of philosophy. When a hog gets an ear of corn every other hog will trot along behind and squeal and beg and is ready for a bite, but just let a hog get his head fast in a crack and every other hog will jump onto him and tear him to pieces. Just so with men. As long as a man is prosperious and has plenty of money he can't keep his friends off with a ballbat. The moment he is unfortunate and his wealth is all gone he is not only snubbed by his former associates but they will do him all harm possible. When a man starts down grade the world steps aside and greases the track.

A number of friends gathered at the home of Francis LaBissionere Monday evening in honor of Mr. and Mrs. Geo. LaBissionere of North Yakima Washington. Much enjoyment was derived from a session of cards, and the evening was enlivened by songs and other music. The winners of the prizes were Mrs. Geo. LaBissionere, ladies first prize, and Mr. Adelare Laurent, gentleman's first prize, while Mrs. Leon Laurent and Mr. Peter Martell walked off with the booby prizes. Refreshments were served about midnight and the guests departed at a late hour wishing Mr. and Mrs. LaBissioner continued success in their western home.

A. M. Anderson met with rather peculair accident Tuesday afternoon which he is unable to account for. In some manner he fell to the floor very hard, causing injuries to his face and body which rendered him unconscious for some time. He was alone in the rear room of his place of business at the time of the accident and has no recollections of the manner in which the accident occurred, but it is supposed he was standing upon a stool reaching for goods on a high shelf, and becoming overbalanced fell to the floor, causing severe injuries. He was removed to his home in an unconscious condition but has been rapidly recovering from his injuries and will soon be about again in his usual good health.

If a man ever wasted time and good nerve matter totally and most miserably it was while working to get even with a man who had done him a mean trick. There isn't any strictly mental passion that will wear a man's physical machinery out faster than hate. Hate is pure waste. It hasn't even a trace of saving radium in it. Worse than that, it taints pretty near everything it can use up in a man. Show me a man who has a lump of hate lying around in his constitution for a season or two and I'll show you a man who wouldn't ask advice on any social or moral topic from the printing of a program to your soul's salvation. Nobody likes to get next to a man of hate. Even dogs don't wag their tails at him.

Settlers's Rates to Points in the Southeast.

On the first and third Tuesdays of each month, January to April inclusive the Chicago Great Western Railway will sell one way tickets to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North and South Carolina, Tennessee and Virginia at very low rates. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. a18

Fast Tourist Car Service to California.

The Chicago Great Western Railway in connection with the C. R. I. & P. Railroad will run a through tourist sleeping car every week to San Francisco. Leaving Minneapolis at 8:00 p. m., St. Paul 8:30 p. m., Tuesday via Omaha, Colorado Springs and Ogdon. Arrive San Francisco Saturday 5:20 p. m. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

A Convenience.

A checking account with a bank is a great convenience—not only to the business and professional man—but to the farmer as well. More people would keep such an account if they knew just how to go about it. We gladly assist those who need help in getting started, even tho the account be small.

SECURE VICTORY AT FEARFUL COST

JAPANESE CHARGE OVER HEAPS OF THEIR DEAD AND CAPTURE BERESNEFF HILL.

Slaughter Is Said to Have Been Enormous—Believing Ultimate Victory for His Forces Certain, the Czar's Voice Is Still for War.

St. Petersburg, Feb. 27.—Official reports from the front show that the Japanese capture of Tsinkhetchen and Beresneff hill was effected by two bloody engagements. Gen. Kuroki's men, said to have been 60,000 strong, advanced from Saimatze, against the Russian left flank at Tsinghetchen, which is 55 miles southeast of Mukden, and after a hard struggle drove the Russians back on their base at Beresneff hill. They followed up the victory with a rush, but the Russians put up a strong resistance with their 40,000 men. The Japanese repeatedly charged the Russian trenches and in the final attacks advanced over heaps of their own dead to reach the Russian lines. They captured Beresneff hill February 24. Although the Russian losses in the Beresneff engagement are not obtainable, yet, it is feared, they were immense, in view of the fact that the Japanese overwhelmed Gen. Kuropatkin's flank and forced it to abandon its base.

The sceene of the operations is 50 miles southeast of Mukden, beyond Da pass, an important defile commanding the road to Fushan. Both armies occupying apparently impregnable positions on the centers, Gen. Kuropatkin evidently planned to inaugurate widely sweeping operations on both flanks, but the Japanese countered hard.

Russia's Final Word.

St. Petersburg, Feb. 27.—"Peace cannot be considered until Russia has achieved a signal success with honor." Such is the flat from the highest quarters. Gen. Kuropatkin assures the government that victory is imminent. This must be taken as the final word of Russia in the peace controversy.

Czar's Voice Still for War.

Berlin, Feb. 24.—The emperor of Russia has elected to continue the war. His position is absolutely firm, and the German court has been advised in that sense. The war will be pressed with the utmost energy, the domestic situation being now within the control of the authorities. Those who have advised peace and suggested inquiries for Japan's terms, the French and British governments, are for the present silent and are likely to remain so unless events of an extraordinary character shake the Russian emperor's resolution.

Can't Defeat Kuropatkin.

The considerations that led to the emperor's decision as understood here are:

First.—The judgment of the chiefs of the army that Field Marshal Oyama not only cannot defeat Gen. Kuropatkin but stands in danger of defeat himself. How cowardly, therefore, for Russia to ask for mercy with all the men and money essential to a successful war.

Second.—All the forces of criticism now directed against the government for having fought rather than yield to legitimate interests and for having failed to win victories would be continued with added fury against the government that accepted war and then betrayed the country. A government that would crave peace of Russia's enemy while still capable of winning victory would be giving the party of change genuine grounds for a revolution.

The facts of the military situation, love of country and arguments of expediency were all against peace and for pressing the war hopefully.

BERTH FOR QUARLES.

President Makes Outgoing Wisconsin Senator a Federal District Judge.

Washington, Feb. 27.—The president Saturday sent to the senate the following nominations: United States circuit judge for the Seventh circuit (Illinois, Indiana and Wisconsin), Wililam H. Seaman, of Wisconsin, to succeed Judge Jenkins, who had resigned. United States district judge for eastern district of Wisconsin, Joseph Very Quarles, of Wisconsin, whose term as United States senator expires March 4 next, to succeed Judge Seaman.

Judge William H. Seaman, who succeeds Judge Jenkins, has been judge of the eastern district of Wisconsin for a long period, having received the appointment during the Cleveland administration.

Senator Quarles was identified with the "stalwarts" in the recent factional contest in Wisconsin, and, as the followers of Gov. La Follette were victorious, Mr. Quarles was not returned to the senate. For many years Senator Quarles has been identified prominently with the Milwaukee bar.

Preparing for Inauguration.

Washington, Feb. 25.—Washington has begun to assume holiday attire in honor of the approaching inaugural ceremonies. Flags and buntings are being flung from the fronts of buildings, especially along historic Pennsylvania avenue, over which the parade is to pass. Reviewing stands are rapidly rising along the avenue, covering the entire line of march from Seventeenth street to the capitol.

Passed Away.

Erie, Pa., Feb. 27.—Maj. Robert Clark, who officiated at the laying of the corner stone of the Washington monument in 1848, died Sunday, aged 89 years.

SPECIAL SESSION CALLED

President Orders Senate to Assemble at Noon on Saturday March 4.

Washington, Feb. 24.—The president Thursday issued a proclamation convening the senate in special session at 12 o'clock noon on March 4 next to "receive such communications as may be made by the executive."

Washington, Feb. 25.—As a result of several conferences at the white house President Roosevelt allowed it to be understood that he proposed to call an extra session of congress about October 1, and he did not believe anything was to be gained by attempting to have a session earlier than that time.

Washington, Feb. 22.—The house on Tuesday passed the Philippine tariff bill, practically as it came from committee, and with but little discussion. There was no especial opposition to it.

The senate passed the military academy appropriation bill and began consideration of the Indian appropriation bill. Early in the day, in response to a question, Senator Elkins, chairman of the committee on interstate commerce, expressed the opinion that it would be impossible to secure railroad rate legislation during the present session of congress.

Washington, Feb. 23.—After a brief but spirited debate, the house on Wednesday sent back to conference the army appropriation bill. All senate amendments again were disagreed to, with the single exception of one appropriating $95,000 for continuing the cable from Valdes to Seward, Alaska. The balance of the day was devoted to consideration of the river and harbor appropriation bill.

The senate considered at some length the bill providing a civil government for the Panama canal zone. Washington's farewell address was read by Senator Perkins at the beginning of the session.

Washington, Feb. 24.—Without a dollar being added or subtracted, the river and harbor appropriation bill passed the house Thursday, after the session had run well into the evening. The total amount carried by the bill is $17,234,657. The military academy appropriation bill was sent to conference.

The last of the testimony in the interest of Judge Swayne, in the impeachment proceeding against him, was presented to the senate. The bill providing a form of government for the Panama canal zone was passed.

Washington, Feb. 25.—In the house of representatives Friday the fight of many years waged against the appropriation of $130,600 for rental of the old New York custom house, resulted in a victory for its opponents.

The time of the senate was divided between the Swayne impeachment trial and the motion of Senator Beveridge to appoint conferees on the joint statehood bill. No action was taken on the latter.

Washington, Feb. 27.—The senate on Saturday sent to conference the statehood and Panama canal government bills. A large number of private bills, including 365 pension bills, were passed.

The sundry civil bill occupied most of the time of the house, action being taken on a number of minor amendments.

Washington, Feb. 27.—The house held a memorial session on Sunday at which eloquent tributes were offered to the memory of the late Mr. Mahoney, of Illinois; the late Mr. Croft, of South Carolina, and the late Mr. Otis, of New York.

MRS. CHADWICK DEFIANT.

Refuses to Answer Questions in Bankruptcy Proceedings at Cleveland.

Cleveland, O., Feb. 25.—Smiling and thoroughly self-possessed throughout the proceedings, Mrs. Cassie L. Chadwick on Friday defied the authority of the United States as vested in Referee Remington in the bankruptcy courts. J. P. Dawley, her attorney, at first stubbornly refused to allow Mrs. Chadwick to be sworn, though the court peremptorily ordered her to rise and take the oath. It was only after a conference that she finally took the witness stand. Even then she practically refused to answer all questions, the only statement of consequence obtained from her being one that she had no personal property in New York. Finally the court and counsel on all sides agreed to a postponement of the examination to March 13, with the understanding that Mrs. Chadwick would testify freely on that date if the criminal cases against her had been disposed of by that time.

Electrocuted at Telephone.

Detroit, Mich., Feb. 27.—Charles Holton, aged 28, night foreman at the Woodward avenue carhouse of the Detroit United railway, was electrocuted while using the railway company's private telephone line. It was evident that the telephone current had become crossed with the current used for operating the cars.

Boy Boiled in Creosote.

Grand Marais, Mich., Feb. 25.—In a rush to get lunch, Walter Nettleton, aged ten and one-half years, fell into a vat of boiling logs in creosote. With weather below zero and his body literally cooked from the waist down, he ran home one mile and died.

Killed Her Sweetheart.

Ardmore, I. T., Feb. 27.—On Sunday Miss Bessie Irby, the 18-year-old daughter of Marshal J. P. Irby, accidentally shot and killed Clarence Morgan, her sweetheart. They were playing with a gun which was supposed not to be loaded.

Shows Great Activity.

Honolulu, Feb. 27.—The crater of Kilauea, which became active February 21, is now reported to be showing the greatest activity that it has exhi[illegible]

MINNESOTA HAPPENINGS.

Short Items Showing What has Happened Throughout Confines of North Star State.

State Art society plans a permanent exhibition at the new capitol.

Emerson D. Dyar a prominent citizen and capitalist, died at his home in Winona from heart failure.

The largest lumber sale of the present year has been made by the Tower Lumber company to Chicago parties. consists of 35,000,000 feet of lumber, involving $650,000.

The school board at South St. Paul decided to issue bonds to the amount of $25,000 for the erection of a new school building. The city attorney was instruceed to have the council to fix a date for a special election for the purpose.

A $10,000 block of Austin (Minn.) bonds, offered on the Boston market by N. W. Harris & Co., within the last few weeks has been nearly cleared up by investors, who are rapidly buying at advance prices all the gilt edge municipal sureties they can obtain.

Joseph Swanlund, 900 E Cook street, St. Paul, committed suicide in the bathroom at his home, by cutting his throat with a penknife. His wife found him dead. He was 40 years of age and a contractor.

The amount of white pine timber standing in Minnesota at present is somewhere between 10,000,000,000 and 30,000,000,000 feet. In Wisconsin estimates place the number of feet of standing pine at about 10,000,000,000 feet.

J. D. Cope was appointed posmaster at Kenneth, Rock county, vice James L. Hogan, resigned; William F. Roche at Lakeville, Dakota county, vice Owen A. Perkins, removed, and A. Rothhouse at Renova, Mower county, vice James F. Powers, resigned.

E. K. Slater, state dairy and food commissioner, has secured the conviction of a box car merchant at Montevideo on a charge of selling illegal baking powder. The man was fined $25 and costs. He refused to pay the fine and will appeal the case.

FELTER'S VACATION.

The Story of a Visit to Germany With High Honors.

Once upon a time the senate restaurant at Washington was managed by a German-American named Felter, who was a renowned caterer to senatorial appetites and of course was popular.

In one of the nine months' congressional vacations Felter concluded to visit his old home in Germany, so he applied to Jim Christy, deputy sergeant at arms, for ocean transportation, which in due time was produced, and Felter started in high glee. He did not know how Christy procured the passes, nor did he care.

When he embarked the captain of the German line received him cordially, but with great dignity assigned him to one of the best staterooms and adorned his cabin with flowers. He had the post of honor at table and was treated as a hero or as a great personage might be treated.

Felter the cook could not understand, but he took all that was offered and made the best of the situation. When the vessel finally reached her destination and the passengers were landed the captain of the ship introduced Felter to the mayor, who awaited his coming and insisted that he make his home in the mayor's residence during his visit. His astonishment increased, but he accepted all of these attentions without asking any questions.

The following day he was banqueted as the guest of the city and was called upon for a speech. To the best of his ability he complied and explained the complex workings of the great republic of which he was a naturalized part, and every utterance was applauded. But Felter was unhappy, anxious to get away and find some old friends who might explain the reason for all this adulation. When the banquet was over an old schoolmate managed to get hold of his hand and begged him to go to his house for the night. This Felter gladly did, although the mayor gave reluctant permission, indicating that it was the next thing to discourteous for Felter to abandon the mayor's home while he was the guest of the city.

As soon as they were alone the friend inquired in German, "Felter, what sort of a game is this you have come over here to play on the folks of the fatherland?"

"I don't understand the game myself, and I wish that you could explain it to me. I am the keeper of the restaurant of the senate and am earning a good living at it—in fact, saving money. But that is no position of high honor, and I don't know what these people are doing all this entertaining for. It is away beyond me."

"Why, the steamship people issued your pass for Senator Felter and announced the coming of the senator on their line, and that's the reason you are thus received—in honor of your alleged rank and station."

"Let's look at the passes," said Felter. And there, sure enough, although he had not noticed it before, Jim Christy had secured passes for "Senator Felter," because in no other way could he have secured them.

Felter left the town early the next day and never re-entered it until he had concluded his visit to relatives, and then he came back just in time to catch the returning steamer before she left her dock. When he returned to Washington the things that he said to Jim Christy were too numerous and too strenuous for publication.—St. Louis Republic.

The Baby Camel.

The baby camel is a curious looking little creature, but one which you would hardly select as a household pet. Like all young beasts, it is playful, in a modified, solemn sort of way, and is as clumsy as it is odd to look upon.

Some one has said that if a camel were rid of its deformity it would be quite a respectable appearing beast. But the hump is in nowise a deformity, and a camel who possessed pride of race would die of shame if such a thing were to happen to him. In other words, he would be a camel freak. And with a baby camel, as his hump grows apace, he, too, becomes unusually proud and consequential.

Odd Russian Custom.

Eight days after a baby is born in Russia its hair is shaved by a priest. This is snipped off in four places on the top of the head to form a cross. The baby's godfather collects the shorn down, pinching it up with wax from the tapers. It is then thrown into the baptismal font. If the little pellet sinks there is great sadness in the baby's home, for the Russians believe that the child will die before a year has passed.

Mutually Beneficial.

"Will you keep my daughter in the style to which she has been accustomed?"

"No, sir; I'll keep her in a style to which she has not been accustomed."

"All right, my boy. Take her and be happy. Now her mother and myself will be able to put on a little style to which we have not been accustomed."—Houston Post.

What They Seek Here.

"What is the chief product of the United States?" asked the teacher in a European school.

And without hesitation the bright pupil replied:

"Money."—Washington Star.

The Cynic.

"Let me see, a cynic is a man who is tired of the world, is he not?" the young student of language asked.

"No, no, my child," replied the knowing tutor. "A cynic is a man of whom the world is tired."—Pick-Me-Up.

The miserablest day we live there is many a better thing to do than die.—Dailey.

SECURE VICTORY AT FEARFUL COST

JAPANESE CHARGE OVER HEAPS OF THEIR DEAD AND CAPTURE BERESNEFF HILL.

Slaughter Is Said to Have Been Enormous—Believing Ultimate Victory for His Forces Certain, the Czar's Voice Is Still for War.

St. Petersburg, Feb. 27.—Official reports from the front show that the Japanese capture of Tsinkhetchen and Beresneff hill was effected by two bloody engagements. Gen. Kuroki's men, said to have been 60,000 strong, advanced from Saimatze, against the Russian left flank at Tsinghetchen, which is 55 miles southeast of Mukden, and after a hard struggle drove the Russians back on their base at Beresneff hill. They followed up the victory with a rush, but the Russians put up a strong resistance with their 40,000 men. The Japanese repeatedly charged the Russian trenches and in the final attacks advanced over heaps of their own dead to reach the Russian lines. They captured Beresneff hill February 24. Although the Russian losses in the Beresneff engagement are not obtainable, yet, it is feared, they were immense, in view of the fact that the Japanese overwhelmed Gen. Kuropatkin's flank and forced it to abandon its base.

The sceene of the operations is 50 miles southeast of Mukden, beyond Da pass, an important defile commanding the road to Fushan. Both armies occupying apparently impregnable positions on the centers, Gen. Kuropatkin evidently planned to inaugurate widely sweeping operations on both flanks, but the Japanese countered hard.

Russia's Final Word.

St. Petersburg, Feb. 27.—"Peace cannot be considered until Russia has achieved a signal success with honor." Such is the fiat from the highest quarters. Gen. Kuropatkin assures the government that victory is imminent. This must be taken as the final word of Russia in the peace controversy.

Czar's Voice Still for War.

Berlin, Feb. 24.—The emperor of Russia has elected to continue the war. His position is absolutely firm, and the German court has been advised in that sense. The war will be pressed with the utmost energy, the domestic situation being now within the control of the authorities. Those who have advised peace and suggested inquiries for Japan's terms, the French and British governments, are for the present silent and are likely to remain so unless events of an extraordinary character shake the Russian emperor's resolution.

Can't Defeat Kuropatkin.

The considerations that led to the emperor's decision as understood here are:

First.—The judgment of the chiefs of the army that Field Marshal Oyama not only cannot defeat Gen. Kuropatkin but stands in danger of defeat himself. How cowardly, therefore, for Russia to ask for mercy with all the men and money essential to a successful war.

Second.—All the forces of criticism now directed against the government for having fought rather than yield to legitimate interests and for having failed to win victories would be continued with added fury against the government that accepted war and then betrayed the country. A government that would crave peace of Russia's enemy while still capable of winning victory would be giving the party of change genuine grounds for a revolution.

The facts of the military situation, love of country and the dictates of expediency were all against peace and for prosecuting the war hopefully.

BERTH FOR QUARLES.

President Makes Outgoing Wisconsin Senator a Federal District Judge.

Washington, Feb. 27.—The president Saturday sent to the senate the following nominations: United States circuit judge for the Seventh circuit (Illinois, Indiana and Wisconsin), William H. Seaman, of Wisconsin, to succeed Judge Jenkins, who had resigned. United States district judge for eastern district of Wisconsin, Joseph Very Quarles, of Wisconsin, whose term as United States senator expires March 4 next, to succeed Judge Seaman.

Judge William H. Seaman, who succeeds Judge Jenkins, has been judge of the eastern district of Wisconsin for a long period, having received the appointment during the Cleveland administration.

Senator Quarles was identified with the "stalwarts" in the recent factional contest in Wisconsin, and, as the followers of Gov. La Follette were victorious, Mr. Quarles was not returned to the senate. For many years Senator Quarles has been identified prominently with the Milwaukee bar.

Preparing for Inauguration.

Washington, Feb. 25.—Washington has begun to assume holiday attire in honor of the approaching inaugural ceremonies. Flags and buntings are being flung from the fronts of buildings, especially along historic Pennsylvania avenue, over which the parade is to pass. Reviewing stands are rapidly rising along the avenue, covering the entire line of march from Seventeenth street to the capitol.

Passed Away.

Erie, Pa., Feb. 27.—Maj. Robert Clark, who officiated at the laying of the corner stone of the Washington monument in 1848, died Sunday, aged 89 years.

SPECIAL SESSION CALLED

President Orders Senate to Assemble at Noon on Saturday March 4.

Washington, Feb. 24.—The president Thursday issued a proclamation convening the senate in special session at 12 o'clock noon on March 4 next to "receive such communications as may be made by the executive."

Washington, Feb. 25.—As a result of several conferences at the white house President Roosevelt allowed it to be understood that he proposed to call an extra session of congress about October 1, and he did not believe anything was to be gained by attempting to have a session earlier than that time.

Washington, Feb. 22.—The house on Tuesday passed the Philippine tariff bill, practically as it came from committee, and with but little discussion. There was no especial opposition to it.

The senate passed the military academy appropriation bill and began consideration of the Indian appropriation bill. Early in the day, in response to a question, Senator Elkins, chairman of the committee on interstate commerce, expressed the opinion that it would be impossible to secure railroad rate legislation during the present session of congress.

Washington, Feb. 23.—After a brief but spirited debate, the house on Wednesday sent back to conference the army appropriation bill. All senate amendments again were disagreed to, with the single exception of one appropriating $95,000 for continuing the cable from Valdes to Seward, Alaska. The balance of the day was devoted to consideration of the river and harbor appropriation bill.

The senate considered at some length the bill providing a civil government for the Panama canal zone. Washington's farewell address was read by Senator Perkins at the beginning of the session.

Washington, Feb. 24.—Without a dollar being added or subtracted, the river and harbor appropriation bill passed the house Thursday, after the session had run well into the evening. The total amount carried by the bill is $17,234,657. The military academy appropriation bill was sent to conference.

The last of the testimony in the interest of Judge Swayne, in the impeachment proceeding against him, was presented to the senate. The bill providing a form of government for the Panama canal zone was passed.

Washington, Feb. 25.—In the house of representatives Friday the fight of many years waged against the appropriation of $130,600 for rental of the old New York custom house, resulted in a victory for its opponents.

The time of the senate was divided between the Swayne impeachment trial and the motion of Senator Beveridge to appoint conferees on the joint statehood bill. No action was taken on the latter.

Washington, Feb. 27.—The senate on Saturday sent to conference the statehood and Panama canal government bills. A large number of private bills, including 365 pension bills, were passed.

The sundry civil bill occupied most of the time of the house, action being taken on a number of minor amendments.

Washington, Feb. 27.—The house held a memorial session on Sunday at which eloquent tributes were offered to the memory of the late Mr. Mahoney, of Illinois; the late Mr. Croft, of South Carolina, and the late Mr. Otis, of New York.

MRS. CHADWICK DEFIANT.

Refuses to Answer Questions in Bankruptcy Proceedings at Cleveland.

Cleveland, O., Feb. 25.—Smiling and thoroughly self-possessed throughout the proceedings, Mrs. Cassie L. Chadwick on Friday defied the authority of the United States as vested in Referee Remington in the bankruptcy courts. J. P. Dawley, her attorney, at first stubbornly refused to allow Mrs. Chadwick to be sworn, though the court peremptorily ordered her to rise and take the oath. It was only after a conference that she finally took the witness stand. Even then she practically refused to answer all questions, the only statement of consequence obtained from her being one that she had no personal property in New York. Finally the court and counsel on all sides agreed to a postponement of the examination to March 13, with the understanding that Mrs. Chadwick would testify freely on that date if the criminal cases against her had been disposed of by that time.

Electrocuted at Telephone.

Detroit, Mich., Feb. 27.—Charles Holton, aged 28, night foreman at the Woodward avenue carhouse of the Detroit United railway, was electrocuted while using the railway company's private telephone line. It was evident that the telephone current had become crossed with the current used for operating the cars.

Boy Boiled in Creosote.

Grand Marais, Mich., Feb. 25.—In a rush to get lunch, Walter Nettleton, aged ten and one-half years, fell into a vat of boiling logs in creosote. With weather below zero and his body literally cooked from the waist down, he ran home one mile and died.

Killed Her Sweetheart.

Ardmore, I. T., Feb. 27.—On Sunday Miss Bessie Irby, the 18-year-old daughter of Marshal J. P. Irby, accidentally shot and killed Clarence Morgan, her sweetheart. They were playing with a gun which was supposed not to be loaded.

Shows Great Activity.

Honolulu, Feb. 27.—The crater of Kilmuea, which became active February 21, is now reported to be showing the greatest activity that it has exhibited since [illegible].

MINNESOTA HAPPENINGS.

Short Items Showing What has Happened Throughout Confines of North Star State.

State Art society plans a permanent exhibition at the new capitol.

A vaudeville performance is the holiday treat at the state prison.

A Representative Cole offers a bill providing for improving state lands.

Labor Commissioner Williams will not enforce the Sunday law.

The state supreme court hands down decisions in seven cases.

A prisoner and his guard disappear from Fort Snelling.

M. J. Wiley says that the inspection of oil in Minnesota is a farce.

D. J. Price is appointed postmaster at Lake Crystal.

J. F. Jacobson says board of control recommendations provide amply for state university.

The Crookston Milling company has bought the St. Anthony & Dakota elevator in that city.

M. A. Gedney, founder and president of the M. A. Gedney Pickling company of Minneapolis, died at his home.

The soldiers at Fort Snelling celebrate Washington's birthday by holding an athletic meet.

The report of the building inspector shows that $7,033,110 was spent for building improvements in St. Paul last year.

The receipts from the state institutions for January amounted to $15,412.94. The state prison turned over $8,671.30 and the University of Minnesota $1,832.85.

In the city election at Moorhead, Hon. C. A. Nye was re-elected mayor. He is the first mayor to be elected with no opposition.

S. F. Fullerton says the proposed law permitting hunters to kill female moose and caribou would mean the extermination of big game in Minnesota.

Discouraged over business reverses Nels Otterness of St. Hilaire, Minn., committed suicide at the Beaufort hotel, Minneapolis, by asphyxiation.

M. B. Campbell and Fred Grody were arrested at St. Paul on a charge of prize fighting.

Christ Hanson, five miles west of Vernon Center, in the accidental discharge of a shotgun, blew off his left hand and destroyed his left eye.

The Young Men's Christian association at the Minnesota Transfer will celebrate the first anniversary of its organization on March 10.

Three small boys caught under a falling snowhouse at the rear of Anthony Sherman's residence, Minneapolis, are nearly smothered to death before rescued.

The board of directors of of Gustavus Adolphus college at St. Peter has accepted the new auditorium, which has been in course of construction for several months and which was erected at a cost of $30,000.

The Novelty Rattan and Toy company of Faribault filed a petition of bankruptcy in the United States court, St. Paul.

Staggering into the Central police station, Minneapolis, John Anderson, an old man from Salt Lake City, Utah, fainted dead away from hunger and privation. He had literally been starving to death in the midst of plenty.

Fire at the plant of the Zenith Paper company at Duluth, caused a damage of $25,000.

Ed Johnson, living at Minneapolis, awoke to find his roommate and bedfellow, John Olson, dead.

The electric line connecting Minneapolis and the village of Excelsior is a go. It will be built by the Twin City Rapid Transit company and will be in operation by July 15.

Canadian steamers on the Lake of the Woods, which have made regular trips to American points gathering fish from the local fisheries, will be restricted to Canadian ports.

Emerson D Dyar a prominent citizen and capitalist, died at his home in Winona from heart failure.

The largest lumber sale of the present year has been made by the Tower Lumber company to Chicago parties, consists of 35,000,000 feet of lumber, involving $650,000.

The school board at South St. Paul decided to issue bonds to the amount of $25,000 for the erection of a new school building. The city attorney was instructed to have the council to fix a date for a special election for the purpose.

A $10,000 block of Austin (Minn.) bonds, offered on the Boston market by N. W. Harris & Co., within the last few weeks has been nearly cleared up by investors, who are rapidly buying at advance prices all the gilt edge municipal sureties they can obtain.

Joseph Swanlund, 900 E Cook street, St. Paul, committed suicide in the bathroom at his home, by cutting his throat with a penknife. His wife found him dead. He was 40 years of age and a contractor.

The amount of white pine timber standing in Minnesota at present is somewhere between 10,000,000,000 and 30,000,000,000 feet. In Wisconsin estimates place the number of feet of standing pine at about 10,000,000,000 feet.

J. D. Cope was appointed posmaster at Kenneth, Rock county, vice James L. Hogan, resigned; William F. Roche at Lakeville, Dakota county, vice Owen A. Perkins, removed, and A. Rothhouse at Renova, Mower county, vice James F. Powers, resigned.

E. K. Slater, state dairy and food commissioner, has secured the conviction of a box car merchant at Montevideo on a charge of selling illegal baking powder. The man was fined $25 and costs. He refused to pay the fine and will appeal the case.

FELTER'S VACATION.

The Story of a Visit to Germany With High Honors.

Once upon a time the senate restaurant at Washington was managed by a German-American named Felter, who was a renowned caterer to senatorial appetites and of course was popular.

In one of the nine months' congressional vacations Felter concluded to visit his old home in Germany, so he applied to Jim Christy, deputy sergeant at arms, for ocean transportation, which in due time was produced, and Felter started in high glee. He did not know how Christy procured the passes, nor did he care.

When he embarked the captain of the German line received him cordially, but with great dignity assigned him to one of the best staterooms and adorned his cabin with flowers. He had the post of honor at table and was treated as a hero or as a great personage might be treated.

Felter the cook could not understand, but he took all that was offered and made the best of the situation. When the vessel finally reached her destination and the passengers were landed the captain of the ship introduced Felter to the mayor, who awaited his coming and insisted that he make his home in the mayor's residence during his visit. His astonishment increased, but he accepted all of these attentions without asking any questions.

The following day he was banqueted as the guest of the city and was called upon for a speech. To the best of his ability he complied and explained the complex workings of the great republic of which he was a naturalized part, and every utterance was applauded. But Felter was unhappy, anxious to get away and find some old friends who might explain the reason for all this adulation. When the banquet was over an old schoolmate managed to get hold of his hand and begged him to go to his house for the night. This Felter gladly did, although the mayor gave reluctant permission, indicating that it was the next thing to discourteous for Felter to abandon the mayor's home while he was the guest of the city.

As soon as they were alone the friend inquired in German, "Felter, what sort of a game is this you have come over here to play on the folks of the fatherland?"

"I don't understand the game myself, and I wish that you could explain it to me. I am the keeper of the restaurant of the senate and am earning a good living at it—in fact, saving money. But that is no position of high honor, and I don't know what these people are doing all this entertaining for. It is away beyond me."

"Why, the steamship people issued your pass for Senator Felter and announced the coming of the senator on their line, and that's the reason you are thus received—in honor of your alleged rank and station."

"Let's look at the passes," said Felter. And there, sure enough, although he had not noticed it before, Jim Christy had secured passes for "Senator Felter," because in no other way could he have secured them.

Felter left the town early the next day and never re-entered it until he had concluded his visit to relatives, and then he came back just in time to catch the returning steamer before she left her dock. When he returned to Washington the things that he said to Jim Christy were too numerous and too strenuous for publication.—St. Louis Republic.

The Baby Camel.

The baby camel is a curious looking little creature, but one which you would hardly select as a household pet. Like all young beasts, it is playful, in a modified, solemn sort of way, and is as clumsy as it is odd to look upon.

Some one has said that if a camel were rid of its deformity it would be quite a respectable appearing beast. But the hump is in nowise a deformity, and a camel who possessed pride of race would die of shame if such a thing were to happen to him. In other words, he would be a camel freak. And with a baby camel, as his hump grows apace, he, too, becomes unusually proud and consequential.

Odd Russian Custom.

Eight days after a baby is born in Russia its hair is shaved by a priest. This is snipped off in four places on the top of the head to form a cross. The baby's godfather collects the shorn down, pinching it up with wax from the tapers. It is then thrown into the baptismal font. If the little pellet sinks there is great sadness in the baby's home, for the Russians believe that the child will die before a year has passed.

Mutually Beneficial.

"Will you keep my daughter in the style to which she has been accustomed?"

"No, sir; I'll keep her in a style to which she has not been accustomed."

"All right, my boy. Take her and be happy. Now her mother and myself will be able to put on a little style to which we have not been accustomed."—Houston Post.

What They Seek Here.

"What is the chief product of the United States?" asked the teacher in a European school.

And without hesitation the bright pupil replied:

"Money."—Washington Star.

The Cynic.

"Let me see, a cynic is a man who is tired of the world, is he not?" the young student of language asked.

"No, no, my child," replied the knowing tutor. "A cynic is a man of whom the world is tired."—Pick-Me-Up.

INTENTIONAL DUPLICATE EXPOSURE

SECURE VICTORY AT FEARFUL COST

[illegible] OF THEIR [illegible] BERESNEFF HILL.

[illegible] Is Said to Have Been [illegible]—Believing Ultimate Victory for His Forces Certain, the Czar's Voice Is Still for War.

St. Petersburg, Feb. 27.—Official reports from the front show that the Japanese capture of Tsinkhetchen and Beresneff hill was effected by two bloody engagements. Gen. Kuroki's men, said to have been 60,000 strong, advanced from Saimatze against the Russian left flank at Tsinghetchen, which is 55 miles southeast of Mukden, and after a hard struggle drove the Russians back on their base at Beresneff hill. They followed up the victory with a rush but the Russians put up a strong resistance with their 40,000 men. The Japanese repeatedly charged the Russian trenches and in the final attacks advanced over heaps of their own dead to reach the Russian lines. They captured Beresneff hill February 24. Although the Russian losses in the Beresneff engagement are not obtainable, yet it is feared they were immense, in view of the fact that the Japanese overwhelmed Gen. Kuropatkin's flank and forced it to abandon its base.

The sceene of the operations is 50 miles southeast of Mukden, beyond Da pass, an important defile commanding the road to Fushan. Both armies occupying apparently impregnable positions on the centers, Gen. Kuropatkin evidently planned to inaugurate widely sweeping operations on both flanks, but the Japanese countered hard.

Russia's Final Word.

St. Petersburg, Feb. 27.—"Peace cannot be considered until Russia has achieved a signal success with honor." Such is the fiat from the highest quarters. Gen. Kuropatkin assures the government that victory is imminent. This must be taken as the final word of Russia in the peace controversy.

Czar's Voice Still for War.

Berlin, Feb. 24.—The emperor of Russia has elected to continue the war. His position is absolutely firm, and the German court has been advised in that sense. The war will be pressed with the utmost energy, the domestic situation being now within the control of the authorities. Those who have advised peace and suggested inquiries for Japan's terms, the French and British governments, are for the present silent and are likely to remain so unless events of an extraordinary character shake the Russian emperor's resolution.

Can't Defeat Kuropatkin.

The considerations that led to the emperor's decision as understood here are:

First.—The judgment of the chiefs of the army that Field Marshal Oyama not only cannot defeat Gen. Kuropatkin but stands in danger of defeat himself. How cowardly, therefore, for Russia to ask for mercy with all the men and money essential to a successful war.

Second.—All the forces of criticism now directed against the government for having fought rather than yield to legitimate interests and for having failed to win victories would be continued with added fury against the government that accepted war and then betrayed the country. A government that would crave peace of Russia's enemy while still capable of winning victory would be giving the party of change genuine grounds for a revolution.

The facts of the military situation, love of country and arguments of expediency were all against peace and for pressing the war hopefully.

BERTH FOR QUARLES.

President Makes Outgoing Wisconsin Senator a Federal District Judge.

Washington, Feb. 27.—The president Saturday sent to the senate the following nominations: United States circuit judge for the Seventh circuit (Illinois, Indiana and Wisconsin), William H. Seaman, of Wisconsin, to succeed Judge Jenkins, who had resigned; United States district judge for eastern district of Wisconsin, Joseph Very Quarles, of Wisconsin, whose term as United States senator expires March 4 next, to succeed Judge Seaman.

MRS. CHADWICK DEFIANT.

Refuses to Answer Questions in Bankruptcy Proceedings at Cleveland.

Cleveland, O., Feb. 25.—Smiling and thoroughly self-possessed throughout the proceedings, Mrs. Cassie L. Chadwick on Friday defied the authority of the United States as vested in Referee Remington in the bankruptcy court. J. P. Dawley, her attorney, at first stubbornly refused to allow Mrs. Chadwick to be sworn, though the court peremptorily ordered her to rise and take the oath. It was only after a conference that she finally took the witness stand. Even then she practically refused to answer all questions, the only statement of consequence obtained from her being one that she had no personal property in New York. Finally the court and counsel on all sides agreed to a postponement of the examination to March 1[illegible], with the understanding that Mrs. Chadwick would testify freely on that date [illegible] final cases against her [illegible] posed of by that time.

[illegible]

[illegible] the vessel finally reached her destination and the passengers [illegible] the captain of the ship introduced Felter to the mayor, who awaited his coming and insisted that he make his home in the mayor's residence during his visit. His astonishment increased, but he accepted all of these attentions without asking any questions.

The following day he was banqueted as the guest of the city and was called upon for a speech. To the best of his ability he compiled and explained the complex workings of the great republic of which he was a naturalized part, and every utterance was applauded. But Felter was unhappy, anxious to get away and find some old friends who might explain the reason for all this adulation. When the banquet was over an old schoolmate managed to get hold of his hand and begged him to go to his house for the night. This Felter gladly did, although the mayor gave reluctant permission, indicating that it was the next thing to discourteous for Felter to abandon the mayor's home while he was the guest of the city.

As soon as they were alone the friend inquired in German: "Felter, what sort of a game is this you have come over here to play on the folks of the fatherland?"

"I don't understand the game myself, and I wish that you could explain it to me. I am the keeper of the restaurant of the senate and am earning a good living at it—in fact, saving money. But that is no position of high honor, and I don't know what these people are doing all this entertaining for. It is away beyond me."

"Why, the steamship people issued your pass for Senator Felter and announced the coming of the senator on their line, and that's the reason you are thus received—in honor of your alleged rank and station."

"Let's look at the passes," said Felter. And there, sure enough, although he had not noticed it before, Jim Christy had secured passes for "Senator Felter," because in no other way could he have secured them.

Felter left the town early the next day and never re-entered it until he had concluded his visit to relatives, and then he came back just in time to catch the returning steamer before she left her dock. When he returned to Washington the things that he said to Jim Christy were too numerous and too strenuous for publication.—St. Louis Republic.

The Baby Camel.

The baby camel is a curious looking little creature, but one which you would hardly select as a household pet. Like all young beasts, it is playful in a modified solemn sort of way, and is as clumsy as it is odd to look upon.

Some one has said that if a camel were rid of its deformity it would be quite a respectable appearing beast. But the hump is in nowise a deformity, and a camel who possessed none [illegible] race would die of shame if such a thing were to happen to him; in other words, he would be a camel freak. And with a baby camel as his hump grows [illegible] he too becomes [illegible] and consequential.

COURAGE THAT WON

......By Frank H. Sweet

Copyright, 1904, by Frank H. Sweet

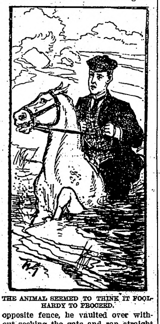
Judge Pauls went down the office steps briskly, his face, which a few moments before had been creased into a frown, now beaming with the satisfaction of duty well done. He had forbidden the new doctor, who had no prospects and no faculty for money making, to visit his house any more. From what he knew of Edith and what he had seen in the young doctor's eyes he felt that he need apprehend no further trouble, and the affair had not gone far enough for either of the young people to suffer any heartache.

Dr. Phil was standing in front of an open window in his office, his hands thrust deep into his pockets, gazing out at the judge as he crossed the street and passed on through the field opposite toward the river, probably to see if the swollen torrent was doing any damage to his lands. Then, with the same strong, self contained look which the judge had seen and, against his will, admired, the young doctor turned back into his office.

There was no despondency in his clear gray eyes, no weakening of his square chin. He had fought his way from almost absolute ignorance at twelve in the depths of a coal mine through various situations to one school after another, through college and medical school and hospital practice, until now he was here in an office of his own waiting for the first patient.

There was a large back region of farm and mountain people here, and once he could gain their confidence it would offer him such a field as he loved, a life of hard, continuous work, with much of it in long journeyings under the open sky. The horror of his early boyhood in the black depths of the mine could never leave him; to be in the open air was to be in God's own world. The matter of recompense in money never troubled him.

As he turned from the window a man came hurrying across a field from the direction of the river. Reaching the opposite fence, he vaulted over without seeking the gate and ran straight to Dr. Phil's office.



THE ANIMAL SEEMED TO THINK IT FOOLHARDY TO PROCEED.

"Hello, doctor!" he called sharply. "You got a telephone?"

"Yes."

"Well, you call down to Dr. Peters at the Ferry road an' tell him to hurry to Dan Sims' house, on t'other side the river—tell him Lonesome valley. Dan jest hollered across to me an' said his wife'd cut herself with an ax, bad, an' they was holdin' back the bleedin' well's they could. The bridge is down to the Ferry road."

"But it's nearly twenty miles to the Ferry bridge. It will take Dr. Peters hours to reach her."

"Can't help that. No man could get across the river this side the bridge, an' Dr. Peters is the nearest. You'd have to go forty miles."

Dr. Phil was hurriedly gathering up some things from his table.

"There's the branch that runs into the river from the mountains," he called over his shoulder. "After this freshet it must be a torrent, as dangerous as the river itself. Dr. Peters could never cross it. He is too old."

The man's countenance fell. "That's so," he admitted. "I'd forgot all about the branch. I s'pose it's jest tearin' now. Well, I'll holler back to Dan an' tell him a doctor'll be over jest as soon's the water goes down a little an' that they must do the best they can."

"You'll do nothing of the sort. Hurry round to the stable behind the office and bring my horse. You'll find the bridle hanging on a peg. Never mind a saddle; that will be too much weight."

"But why"—

"Hurry, I tell you!" thundered Dr. Phil. "The woman may be bleeding to death. I'll be ready by the time you are back."

When the man appeared Dr. Phil was at the corner of the office, and he threw himself instantly upon the horse's back.

"You can't go"— the man tried to say, but Dr. Phil did not hear him. He was tearing across the street, and when they came to the fence the horse took it at a bound. A few minutes later they were at the river.

Several men were working in the edge of the water, trying to rescue lumber and other floating wreckage from the torrent. Judge Pauls was standing on the bank watching them. As the horse dashed down the bank the men threw up their hands warningly.

"You can't cross here!" one of them yelled. "It's sure death!"

"A woman's on the other side dying," was Dr. Phil's only answer.

He did not even attempt to check the horse, but plunged into the water at full speed.

This horse was the only piece of property that Dr. Phil owned, and he had been able to make the purchase because the ugliness and viciousness and small size of the animal had made the price very low. But the horse was apparently afraid of nothing in the world and had strong staying powers, and these were qualities which soon convinced the young doctor that he had obtained the very animal he needed without regard to price.

However, with that rushing, roaring torrent before him, the animal seemed to think it foolhardy to proceed, for before he had gone a dozen feet from shore he tried to turn and swim back. But now the firm, masterful hand of the rider was controlling his head, the calm, inflexible voice was sounding encouragingly in his ears, and after a few ineffectual attempts to turn the horse directed his gaze toward the opposite shore and did what Dr. Phil was doing—his best.

But no living thing could stem or cross that mad rush of water, and this Dr. Phil well knew. He must reach the other side, but he was not foolhardy.

The torrent was winding in its course. Dr. Phil's gaze had swept keenly from bank to bank; then he forced his horse into a current which approached the opposite shore nearly a half mile down. To the horrified spectators it looked as though they were being swept away, powerless to help themselves, as, indeed, they were for the time being. All Dr. Phil did was to guide the horse, and all the horse could do was to keep them above water. But as the current approached its nearest point to the other shore, not more than ten feet distant, Dr. Phil suddenly slipped into the water, with his hand twisted in the horse's mane, and in that position, freed from his weight and with the strong right arm assisting by quick, powerful strokes, the horse threw himself forward with a desperate effort which brought his feet upon the bottom. A few minutes later they emerged from the water and staggered up the bank.

Dr. Phil did not hesitate. Lonesome valley was two miles away, and he could reach it more quickly on foot than he could on the horse in its present exhausted condition. So he turned the animal loose; perhaps he could recover him again when he returned.

He found the woman weak from loss of blood and lack of proper attention. Another hour's delay might have been fatal. He remained with her two days, until she was out of danger, and then returned to the river. Contrary to his expectation, he found the horse grazing quietly within a few rods of where he had left him, and the animal greeted him with an unmistakable whinny of pleasure and relief. Perhaps the common danger in the river and the manner of escape had won the horse's respect and dependence; possibly the animal was already becoming fond of him. Dr. Phil had not received a fee for his services, but the family's gratitude and the way the horse trotted toward him, whinnying, were enough, and he recrossed the river with buoyant heart.

In his desk he found a letter which read:

My Dear Doctor—I was a little hasty the other day, and I realized it when I saw you crossing the river. Will you overlook it by taking dinner with us Sunday? HENRY PAULS.

Slaves of the Orient.

"In Zanzibar and Pemba slaves are very slow to take advantage of the regulations that give them the right to claim their freedom," says a traveler. "They realize that so long as they are well used their position is superior to that of the man whose freedom is his sole asset. I have found the same attitude in north Africa. From Morocco to Tripoli one sees most of the slaves well content and flourishing. The famine, the locusts, the drought and the tax collector have no terror for them. Work keeps them healthy, they have enough to eat and drink, and the future has no meaning at all. There is promotion, there are confidential missions to governors and friends that elevate a slave, if only in the eyes of his fellows, and there is always a chance of manumission when the owner dies and wishes to have some good deeds recorded in the books of Islam's recording angels. The sorry truth of the matter is that slaves under Mohammedan rule are much better off than they ever were under the rule of white men in America and elsewhere."

The Permanent Novel.

"The novel that has inherent and permanent value that will secure for it a place in literature," said a well known author a few days ago, "rarely exceeds an edition of ten or fifteen thousand copies, and more often the limit is 5,000, while the one that is ephemeral, but catches the public fancy, may have a sale of fifty or a hundred thousand. Books of the latter class put money into the pockets of both author and publisher, but it does not come from the most discriminating readers. Of the class in question the field is limited, and, while they establish the reputation and permanent value of the really literary production, they are not included in the clientele of the author who is willing to sacrifice quality and style to increase his revenues from royalties. The novel that attains a wide but brief popularity does not appeal to the literary class."

HOMES OF THE SWISS.

Pretty and Distinct In Style, but Have a Lonely Appearance.

Swiss houses impress one almost invariably with a sense of loneliness. Probably this may be attributed to the contrast they present to their surroundings. They are commonly dwarfed into insignificance by the gigantic scenery in which they have been placed. But near at hand they are decidedly pretty, although their architectural style is distinct from any other.

They are rarely painted and seldom ornamented or embellished, save that the boards and shingles are not infrequently cut and scalloped into odd shapes. Sometimes the front of a chalet bears the owner's or builder's name in large letters, followed by a sentiment, a benediction or a prayer.

These chalets are provided with overhanging roofs, on which flat stones have been laid to keep the fierce winds from tearing them off and not because—as an animated tailor's sign, with a monocle, once informed an old lady in my presence—the natives wished to effect a saving in nails.

Various fruits and vegetables are hung under the projecting eaves for shelter, and the firewood is piled high without for future use. The ground floor is generally given up to a stable, where the cattle are housed in the winter, in delightful proximity to the family overhead.

The household treasures are contained in the living room, or gute stube. Here, too, you will find the large porcelain stove that is the center of the family gatherings on the long winter evenings. In the kitchen, of course, the furniture is of the plainest description, usually consisting of a rude loom, a huge fireplace, a table and a few chairs.—Pilgrim.

BEES IN WAR.

Two Instances In Which the Insects Were Used as Weapons.

The beekeeper, holding a number of bees in his hand, said as he led the way through the apiary: "Bees in the past were used as weapons of war. In the siege of Themiscrya, for instance, they played a very important part. The Romans in this siege made mines in the ground, and the enemy, opening the mines from above, threw in upon the Romans bears and other wild animals, together with swarms of bees. That caused the Romans to flee howling.

"Here in my notebook is another account of the use of bees in war. It is an extract from an Irish manuscript in the Bibliotheque Royale at Brussels, and it tells how the Danes and Norwegians attacked Chester and were repulsed, thanks to the use of bees by the Saxons and their allies in the town.

"'The Norwegians,'" read the beekeeper, "'sheltered by hurdles, tried to pierce the walls. Then what the Saxons and the Gaedhil did was to throw down large rocks, by which they broke down the hurdles over their heads. What the others did to check this was to place large posts under the hurdles. What the Saxons did next was to put all the beer and water of the town into the caldrons of the town, to boil them and spill them down upon those who were under the hurdles, so that their skins were peeled off. The remedy which the Lochlans applied to this was to place hides on the outside of the hurdles. What the Saxons did next was to throw down all the beehives in the town upon the besiegers, which prevented them from moving their hands or legs from the number of bees which stung them. They afterward deserted and left the city.'"—Chicago Chronicle.

The Squirrel.

A squirrel's natural term of life is from fifteen to twenty years, and in localities where they are little disturbed they multiply with extreme rapidity. Indeed, in the early history of the United States they were so numerous in certain localities as to be almost a plague, and large sums were annually paid in bounty for the scalps. In the west large hunts were organized by the early settlers in order to try to reduce their numbers, as now it is found necessary to do to prevent the jack rabbits from becoming a scourge to the farmers. On these hunts thousands of squirrels wer killed, and yet from all accounts their numbers were not greatly reduced.

A Quick Witted Waiter.

A western congressman says that while he and certain friends were studying the bill of fare in a hotel on the New Jersey coast a mosquito alighted on the card. It instantly lost its life by a quick blow from the man holding the card, its little carcass remaining on the bill. With a smile the man pointed to the remains and said to the waiter:

"Do you serve these on toast here?"

"They're on the bill, sir!" was the witty retort of the waiter.

The Great Difficulty.

"One-half of the world's happiness is solved when a person learns to mind his own business."

"Yes, but it's the other half that causes the most trouble."

"What's that?"

"Getting other people to mind theirs!" —Detroit Free Press.

His Peril.

"Is your husband a criminal lawyer?"

"Mercy, no! But he has to associate so much with those awful men he defends that really I'm sometimes afraid he soon will be."—Cleveland Leader.

Good Preventive Anyway.

"Doctor, isn't there anything I can do for this seasickness?"

"Why, yes. Try farming."—Life.

Credulity is the man's weakness, but the child's strength.—Lamb.

THE VALUE OF OPALS.

It Mainly Depends on the Colors Shown In the Stones.

Veins of opals are usually met with in soft formations where nothing above ground indicates their presence. The search for them, therefore, often requires considerable time. But it is not extremely difficult, for opals are generally found near the surface. Indeed, it was thought for a long time that they were not to be found as deep as twelve feet below the surface. This opinion has, however, given way in the light of evidence, because opals of great value have been discovered at a depth of fifty feet.

The value of opals depends upon several considerations, of which the principal one is the color. It is important that they should be bright and not present streaks or spots alternating with uncolored substance. The most valuable are those which have red fires or mixtures of red and yellow, blue and green. Opals of a single tint are of little value unless the tint is particularly striking and the figure beautiful. Indeed one of the essential qualities of the opal is the arrangement of the figure, which sets off strikingly the hue of the stone.

When the figure is quite regular and distinct it is the more valuable, much less so when the grain is quite small and irregular. Sometimes the color appears as a single blaze or with figures regularly spaced. It may then be of a fine ruby red and is much sought after, but oftenest the uniform tint is only green or reddish and has but little brilliancy.

The cutting is very important for the opal. Thus a thick stone will be much less beautiful than a thin stone, which, on losing part of its volume, loses also the figure. The foundation tint contributes much to the beauty. It ought to be transparent, slightly milky and harmonize fully with the different reflections of the opal, which, when it is really beautiful, presents a variety of hues infinitely pleasing to the eye.—Jewelers' Circular-Weekly.

HE HATED MUSEUMS.

Thoreau Catalogued Them as the Catacombs of Nature.

I hate museums. There is nothing so weighs upon my spirits. They are the catacombs of nature. One green bud of spring, one willow catkin, one faint thrill from a migrating sparrow, would set the world on its legs again. The life that is in a single green weed is of more worth than all this death. They are dead nature collected by dead men. I know not whether I muse most at the bodies stuffed with cotton and sawdust or those stuffed with bowels and fleshy fiber outside the cases.

Where is the proper herbarium, the true cabinet of shells and museum of skeletons, but in the meadow where the flower bloomed, by the seaside where the tide cast up the fish, and on the hills and in the valleys where the beast laid down its life and the skeleton of the traveler reposes on the grass? What right have mortals to parade these things on their legs again, with their wires, and, when heaven has decreed that they shall return to dust again, to return them to sawdust? Would you have a dried specimen of a world or a pickled one?

Embalming is a sin against heaven and earth—against heaven, who has recalled the soul and set free the servile elements, and against the earth, which is thus robbed of her dust. I have had my right perceiving senses so disturbed in these haunts as to mistake a veritable living man for a stuffed specimen and surveyed him with dumb wonder as the strangest of the whole collection, for the strangest is that which, being in many particulars most like, is in some essential particular most unlike.—Thoreau's Journal in Atlantic.

Robert Burns' Muse.

Robert Burns, though he had the choice of such works as the Spectator, "Locke on the Human Understanding" and Pope, together with odd plays of Shakespeare, which formed the staple reading of his home, nevertheless owed most to an old collection of songs. "This," he says, "was my vade mecum! I pored over them during my rest or walking to labor, song by song, verse by verse, carefully noting the true, tender and sublime from affectation and fustian. I am convinced I owe to this practice much of my critic craft, such as it is!"—All the Year Round.

Robert Louis Stevenson.

Here is a pen portrait of Robert Louis Stevenson, written by Dr. Alexander H. Japp: "Not so tall probably as he seems at first sight from his extreme thinness, but the pose and air could not be otherwise described than as distinguished. Head of fine type, carried well on the shoulders, and, in walking, with the impression of being a little thrown back; long brown hair, falling from under a broadish brimmed Spanish form of soft felt hat, Rembrandtesque; loose kind of Iverness cape when walking and invariable velvet jacket inside the house."

The Gain From Others.

A man is strong in proportion to the quantity, the quality and the variety of forces which he absorbs from others. He is a power in proportion to the extent of his contact—socially, mentally and morally—with his kind and a weakling just in proportion as he cuts himself off from others.—Success.

After the Defalcation.

Junior Partner—I never suspected him at all. Senior Partner—Neither did I, although it did seem a little singular to me that he should be able to pay $2,000 a year rent out of a salary of $1,500.—New York Press.

No man will be found who does not sometimes hope or fear beyond the limits of sober probability.—Johnson.

BERT'S STRATEGY

By RUTH SANTELLE

Copyright, 1904, by K. M. Whitehead

Bertie Temple came hurriedly up the steps with a purposeful look in his usually dreamy eyes that elicited a murmur of surprised comment from the nearest groups on the hotel piazza. He made straight for the corner where Dorothy Vane was holding merry court. Mayhap it was rude to interrupt Upright's best story, but the fair lady lifted questioning eyes, and Bertie plunged into the hostile masculine circle.

"If you please, Miss Dorothy, I should like to beg a few moments' conversation—private, if I may make so bold."

Perhaps it was for the reason that this frank request, made with such apparent confidence in its being granted, sounded so unlike diffident, self deprecatory Bertie that her woman's curiosity was aroused. At any rate, the furious swains received a gracious but aggregate smile for their kindness, and Miss Dorothy was borne away down the moonlit piazza on the arm of that vandal, Temple.

"I'm in a deuce of a hole, Dollie," began Bertie, low and hurriedly. "I can't tell anybody else, but I know you'll help a fellow out. It's that Miss Simpkins—oh, I suppose it sounds frightfully caddish—but I should think you must have seen! Encouraged by my childlike countenance to take advantage, like all the others"—

"Most unhappy infant!" interrupted Dorothy, with a sympathetic pat on his white flanneled sleeve. "You have had our united commiserations for a week. If that amiable spinster harbors no design upon your innocent head appearances are indeed misleading. Only don't, I beseech you, ask me to abuse a faithful conscience by hiding her false front or anything like that."

"No, Dollie, I have my plan—amazingly simple and, I think you'll admit, rather clever." Then he added, with a sharp glance from the corners of his eyes, unobserved by the smiling maiden, "And if you'll only say yes, Dollie, we ought to be able to get some fun out of it thrown in."

"Unveil your mystery," came the animated command.

"It's just this: The old, old bore buttonholed me after dinner tonight and whispered laughingly that she'd discovered the music room window behind the portieres was the most heavenly place to watch the moonlight on the waves and that she was going to feast her soul there this evening and—oh, you know the sort of stuff! Of course it would be the most natural thing in the world for me to forget it if I had persuaded my fiancee to sit with me just outside the window." He stopped suddenly as they reached the corner of the east piazza, caught both the girl's hands and held them for an instant. "Dollie, will you be engaged to me for an hour, just to save a fellow from the clutches?"

Dorothy's head went high, the scent of battle in her delicate nostrils. During the barely perceptible hesitation her mind held the picture of a recent day when she had been cheated out of an afternoon's sailing with the adorable Freddie Burton by Miss Simpkins' meddling.

"I'll do it, Freddie," she whispered in gay excitement.

A moment later Mr. Temple was seating his fiancee pro tem. beneath the wide, dark music room window.

"Ah, Dollie mine," he breathed in admirably loverlike tones, while the young lady thus possessively addressed half suppressed hysterical giggles, "at last I have you to myself and away from all those smirking cads that cluster around you as if they had the right. The right is mine now, isn't it, sweetheart?"

"Ye-es," very faintly.

Thus encouraged, the happy lover drew nearer and availed himself of two tempting white hands. Miss Dorothy removed them from his tender clasp with vehemence. "Now, Bertie, how many times have I to tell you"—

There was just the tiniest rustling within the window.

"Dollie," he whispered, "you mustn't forget we're engaged!"

The hands resigned themselves limply to the inevitable.

"I hope you realize, dearest"—the voice became audible again, and Dorothy was surprised to notice how pleasantly caressing Bertie's voice could be—"that you have made me the happiest man alive. I've never wanted anything as I have wanted this, and now—oh, girlie, it's almost unbelievable yet! Tell me again that it's so; that you truly love me!"

Dorothy's eyes opened wide in the darkness. Bertie Temple making love in this magnificent fashion! It was almost thrilling.

"Why, of course I do, silly. You know it without my repeating it over and over as if I had nothing else to say."

"Do what, sweetheart?" mischievously.

Again a suggestion of movement on the other side of the window.

Bertie pressed the captive hands warningly. "Please," he whispered. "She's there, listening. You promised. We'll both be in for it if you fail now."

"Well, then behave!" she retorted under her breath. "Just this once, mind." Then a little louder, but unsteadily, "Do I-I-love you, Bertie," she said.

"Oh, my little girl, my little girl!" he said huskily, holding the hands tighter than ever. "I said I was happy before, but I've never been absolutely so until this minute. Why, Dollie! You remember we were interrupted last night, and you've never let me kiss you. It's 'Yes,' isn't it, dear?" leaning very close.

"Why, Bertie Temple, I should say not! Of all the mean, deceiving advantage taking tricks"— She paused breathless, her voice quivering wrathfully.

But Bertie clung desperately to her hands. "Dollie, don't spoil it all!" in a beseeching whisper. "We'll never hear the last of it."

She sank back weakly.

"Oh! I—I—it's so very new, you know. I'm not accustomed to it yet. You—you are not angry with me, d-dear?"

"Angry with you? Never as long as I"—

"Of course I didn't mean that. But anyway you mustn't surprise me so violently. It might make me l-l-like you less. No, I guess I'd better not let you tonight, just for punishment. No—I—well! If you're going to feel so heartbroken, just one ve-ry tiny one right here," indicating the tip of a rosy ear.

The elaborate performance was hardly concluded when a small, agitated voice came very close to Mr. Temple's own auditory member.

"Bertie! I'm positive I smell fresh cigar smoke! Do you suppose any one is listening round the corner? I shall simply die."

The answer came from an unexpected quarter. Out of the dusk of the low music room window stepped the youthful, immaculate figure of Miss Dorothy's brother Bob.

"Hello, you two!" he greeted genially, but with carefully modulated voice. "I didn't mean to listen more than a minute, but it was too good a chance to learn how. I knew you'd not mind so much, being all in the family. But, seriously, old man, I'm no end glad! Rather have you for a brother than any fellow I know—though I had a suspicion that Dot made a practice of refusing you about once a week. And here's my most brotherly kiss for the maiden—not on the ear, either!" And Bob beamed gleefully on one and then the other, a man who had risen to accept his felicitations with quiet dignity and a girl who stood with both hands pressed to a palpitating breast.

"This will just about sign your release on the Simpkins' question, won't it, Bertie?" continued the garrulous Bob. "By the bye, that cheerful skeleton came tiptoeing into the music room just before you two obscured my outlook and left with obvious reluctance on discovering me. I suppose it's registered to my discredit, but I hadn't the moral courage to resign the window seat in her favor."

Dorothy's hands suddenly covered her face, but not in time to quench a little gasping sound that was not more than half laughter.

Bertie took one step to her side and threw a protecting arm across the bent shoulders. Under that shelter a fluttering little heart was proclaiming: "She did come! It was the truth and not a joke to make me wretched! I could never have married a man who would lie to me!"

"Dot must be weeping to think how cut up old lady Simpkins will be," ventured Bob, "and nervous, I suppose, at being interrupted so suddenly. Never mind, little girl. I'll go right away and never tell a soul. Only she might show brother her new ring—or is it all so very new that the ring hasn't arrived yet?"

"So new that the ring was about to be produced when you appeared," replied Bertie in a very deep voice, taking Dollie's left hand and slipping something very quickly on to her finger.

"Oh!" she cried, with a quaver of delight; then she sat down very abruptly, leaning forward to let the moonlight sparkle on the beautiful stone.

For once in his life Bob showed sufficient discretion to steal noiselessly away.

She sat very still, absently turning the circlet this way and that, watching the flash of changing colors; then, with a shaky little sigh, she slipped it off and held it toward him. "It's very lovely, Bertie. I guess the girl you bought it for won't mind my having it on for a few minutes. Aren't you going to tell me who she is, Bertie? We've been pretty good friends, you know."

Straight and tall he stood before her. "Yes, Dollie, I am going to tell you who she is," he answered slowly, then dropped on one knee and slipped the ring back on the finger from which she had removed it. "She is you, you, you," he whispered, "and no one else in the wide world. May it stay there, my Dollie?"

"Bertie," and her eyes grew luminous with wonder, "do you mean that you still care after I have refused you—oh, I don't like to think how many times? But I never knew how nice you could be."

"You never gave me the chance," he answered happily, "so I had to try strategy."

Not In His Line.

The sexton of a certain parish church would brook no interference with what he was pleased to call his "special duties."

"Every mon to his trade, sez I," he would remark. "Let the passon do the praichin' an' I'll do the rest."

On one occasion the vicar was of the opinion that John was neglecting his duties.

John, who was not wanting in wit, strenuously denied the charge and said that he was 'not goin' to stand no medllin'" with his affairs.

"But, John," said the vicar, "it behooves everybody to mind his p's and q's."

"Everybody but me," retorted John, refusing to be cornered. "P's an' q's is nowt i' my line. I've enough to do to mind the keys and pews."—London Telegraph.

HIGH SCHOOL NOTES.

Harry Garceau, Ema Allard and Clara Marchand Spartan Reporters.)

Miss Iddings has been absent this week on account of sickness.

Don't forget the Spartan program Friday as every visitor counts one point.

We may obtain a half holiday if as good attendance as we have had this week keeps on.

Some of the boys have been practicing for field meet in the way of leap frog and running.

One of the Senior girls, while out walking Sunday, shot a rabbit with a revolver, of which she is quite proud.

Last Saturday night the seniors read over their class play, "The Silent Detective', at Mr. Chamberlain's home.

Walter Buse taught the elementary algebra class on Monday and Ralph Healy on Tuesday on account of Miss Iddings' absence.

The juniors held a meeting Monday night after school to decide what would be done in the way of a banquet but nothing was decided upon.

All the members of the chemistry class but two were entertained by Professor Chamberlain after school Wednesday night by reciting their lessons.

From now on the "dignified" seniors will be excused from the literary programs because they have all they can do in the way of lessons, etc.

The members of the "Lesher Burn" club were treated to a gallon freezer of ice cream by the "Merry Crew" sewing club, Monday night. Thanks, girls.

One of the "freshie" boys was quite elated(?) last Tuesday when one of the teachers told him that he so resembled one of the "worthy sophs" that it was very hard to tell them apart.

Washington School Notes.

Judith Rue and Gisela Helm reporters.

Henry Lundquist was absent most of last week.

There are many absent now on account of sicnkess.

The second grade have a new set of readers this week.

When the girls begin to jump rope it is a sure sign of spring.

Nickie Helm of the second grade is absent on account of sickness.

Olive Zaiser was absent this week for the first time since school started.

The sixth grade are all anxious to know who got the banner for January.

The boys are playing marbles now and the foot-ball will have a rest.

Lenora Garceau was taken sick again and had to remain out of school.

The boys have their football back again but the grounds are too muddy to play.

The sixth grade have begun the study of the French and Indian war in history.

Frank Campbell, you come to school or we will get after you. We want the banner this month.

Washington's birthday came on Wednesday thus giving us a holiday, and we are sure every one enjoyed the vacation.

Monday while playing pull-away Grace Moran of the second grade fell and broke her fore-arm. She was taken to the doctor and the bone was set. We hope she will recover soon so as to be back at school.

Mr. Healy has started reading the fifth book to the 5th and 6th grades, It is entitled "Wrecked on Spider Island" and is written by James Otis. Three other books were read and written by the same author and the pupils like his books very much.

Perfect Safety

Is combined with convenience in our certificates of disposit.

When you have any sum of money not wanted for immediate use, you can leave it here and we give you a written agreement to pay it back at any time you want it. If you wish to leave it for 6 months or more, we will pay interest upon it.

Yov can draw out a part of it. or all of it, at any time, or turn it over to some other party, if you wish.

5 per cent Interest paid on time deposits.

Safety Deposit Boxes for Rent.

BADGER.

Miss Cerissa Trudeau is visiting here this week.

Homer and Henry Laurent drove out here Monday on business.

William St. Yves, of Crookston, was a business caller here Saturday.

Adelard Champagne drove to the county seat Friday on business.

Mr. and Mr. A. Laurent spent Sunday evening with Mr. and Mrs. O. Robillard.

Mrs. D. Champoux and Mrs. Joseph Ducharme are on the sick list this week.

Miss Anna Robillard of Red Lake Falls, is visiting here with relatives this week.

Telephore Cote, son of Francis Cote, of Penetanguishene, Canada, is visiting friends here this week.

Mr. and Mrs. Adelard Laurent and daughter were the guests at home of of Dolphis Clements Sunday.

Edward St. Yves and Onezime Robillard are expected home this week after an absence of several months.

Miss Annie Duscharme, who has been visiting at the home of her cousin, Rudolph Duscharme for the past two weeks returned home Saturday.

Mr. and Mrs. Damasse LaChance, Mr. and Mrs. Oyila Robiilstn and Misses Cerissa Trudeau, Alyce and Anna Quesnell attended the Forester dance at Red Lake Falls Tuesday evening.

A birthday party was held at the home of O. Robillard in honor of Miss Cerissa Trudeau, of Gentilly, it being her nineteenth birthday. Refreshments were served and a most enjoyable time was reported by all.

Among those who attended the card party at the home of Francis LaBissoniere, in Red Lake Falls, Monday evening, were: Messrs. and Madames A. Laurent, O. Robillard, M. Quesnell, E. Quesneli, L. St. Yves, T. La Bissoniere, and Misses Cerissa Trudeau, Alyce and Anna Quesnell, and Desire Robillard.

Incredible Brutality.

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye. Good for burns and ulcers too. Only 25c at all druggists.

WITH OUR NEIGHBORS.

Warran wants a normal school.

Moorhead invested $243,049 in new buildings last year.

Little Falls people has become interested in roller skating.

Wadena has been made a recuiting station for Uncle Sam.

Otter Tail county paid out $2,127 last year for wolf bounties.

Eight "vags" appeared in Bemidji's police court Monday morning,

Itasca county's delinquent tax list is a large one, 8,000 descriptions.

Fertile demands a vote on the license question. They have been dry for a year,

Perham is to have a catholic church to cost about $30,000, with a seating capacity of 800

Prof. J. A. Button of Crookston, will start a business college at Wadena in the near future.

Marshall is already planning on having the best base ball team in the country the coming season.

J. A, Ross, of Bemidji, caught a large martin in a trap one day last week. Its fur is said to be worth $18

Ole Halgeson, living at Flom, Norman county, was accidently killed last week by a load of hay tipping over him.

Fergus Falls citizens have organized a company and will hunt for oil and gas near that place. They claim to have a second Beaumont in sight.

A homesteader named Olenberg was burned to death in his cabin near Jelle postoffice, Beltrami county, last week. The cabin caught fire while he was asleep.

The board of county commissioners in Aitkin county will open their sessions with prayer and have appointed one of their members as chaplain whose duties will be to admonish the board to live up to the ten commandments.

A schoolboy down in Otter Tail county left the following note on his teacher's desk one noon: Dear teacher: Please may I be excused from my recitations this afternoon because I tore my trousers on the woodpile this noon. Your truly, Percy. And please may I sit in my seat during recitations and also after they have all gone."

M. H. Novotny, editor of the Marshall County Banner, at Argyle, died at his home last Friday, after a protracted illness. The deceased was one of the best know newspaper men in Northern Minnesota, and had been at the helm of the Banner for a score of years conducting a very creditable paper. He had scores of friends among the fraternity, and was very popular with his home people.

Farmers in the vicinity of Crookston are the victims of a professional swindler. He professed to be a medical specialist, and after examination, assured his patients that he could cure them, stating that if he could not no money would be required. He drew up contracts to that effect, which the victims willingly signed. These contracts have since proven to be notes which are maturing in one of the local banks.

The contract for the grading for the extension of the Minnesota and International road to the Blackduck river in northern Itasca county, has been let to Guthrie & Co., of St. Paul. The road is headed for Koochiching and the moves thus far made indicate that it will be the first road to enter that promising city. The Minnesota and International is controlled by the Northern Pacific and extends from Brainerd through Bemidji to Northome, a distance of about 150 miles. Its equipment includes eighteen engines and 473 cars.

The Colonel's Waterloo.

Colonel john M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure, Dyspepsia, Biliousness and Kidney disease, by all druggists, at 50c per bottle.

OUR RURAL FRIENDS.

Pluck beats luck.

Hitch hope and vim to the farm.

Ventilate the cellar. That's what!

Think success—talk success—win success.

A bird of freedom—the hen that pays the mortgage.

Inculate some spot on the farm with strawberries this year.

There's a vast difference between a poor man and a poor sort of a man.

Don't think you are an old man at sixty; that's all fudge! Keep your grip.

Greater New York consumes 1,388,000 quarts of milk a day, and the people never see a cow.

Carriage manufacturers are worrying over the fact that the supply of hickory wood is fast diminishing.

Yes, farming "does pay" notwithstanding there are those even ready to disparage and argue to the contrary.

The horse commands a better price now then he did before the bicycle and the automobile came upon the scene.

The Atlanta Constitution estimates the potato crop of the United States at 288,700,000 bushels, the largest on record.

Not how much ground is covered but how well the work is done, is what counts in time and in profit margin.

The man behind the gun is spoken of in these days with interest and pride, but how can he compare with the man behind the plow?

Regular hours of labor, suitable food, a comfortrble bedroom and prompt payment of wages, is the right of the farm hands.

The hired man who is temperate, honest and careful and cheaper at higher wages then the one who abuses farm animals or gets tipsy.

Argentina has millions more sheep than the United States has, and half as many grazing cattle. Its egricultural area is 250,000,000 acres.

A coal-oil barrel cut in two makes first class drinking tubs. Being saturated with oil, also well hopped, the halves prove very durable, indeed.

The man who never makes repairs on his buildings and fences is likely to have the same experience the deacon had with his "one-hoss shay": the outfit will go "all at once and nothing first."

Farmers ought to be the most greatful class of people in all the world. Every drop of dew, every shower, every ray of sunshine, brings a blessing. What we need most of all are hearts to appreciate our mercies.

Every horse has its notions, same as man. You can not break a horse of his peculiarities. Give it up and turn them to advantage. Learn what all of these notions are, and treat the horses as you would like to be treated under similar circumstances.

The Chinese believe that ginseng contains properties which prevent disease and lengthen life. Sad to relate, however, the ginseng plant does not seem to be able to take its own medicine. Cultivated plants will, rot and blight just the same as ordinarly vegetation.

A horse, in getting up, puts his fore feet up in front of him, raises on them and plunges forward; a cow raises on her hind feet, doubles the front feet under, raises on her knees, plunges backward. In helping a horse up pull his front feet out and help him to plung forward.

In the address of Master Morris of the N. Y. State Grange occurs this except: "The cultivator of the soil are the most valuable citizens. They are the most vigorous, the most indenpendent, the most virtuous and are tied to their country and its liberty by the most lasting bonds."

Sometimes farmer get it into their heads that they can carry on three or four kinds of business at the same time, on the same farm. Takes a pretty strong man to do this, and thousands have found this out only when their pocketbooks were empty and their health and strength gone.

Every farmer should be shy of the stove men who are all the time traveling about the country. They charge twice as much as their stoves are worth. Not one farm out of a dozen but regrets his purchase, if he should be wheeled into buying one of the stoves. The best way is to buy of men at home who are responsible.

We have bought a large lot of the

13 Years of Intense Suffering.

Thirteen years I suffered intensely from rheumatism writes Mrs. Mina Schott, of Marion, Ohio, but Gloria Tonic cured me after using morphine and other worthless drugs for years. Sold by W. A. Schreiter.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from a reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonial free. Sold by Druggists. Price 75c. per bottle. Take Hall's Family Pills for constipation.

Wine of Cardui Cured Her.

213 South Prior Street,
ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

MINNESOTA HISTORICAL SOCIETY.

RED LAKE COURIER.

VOL. VII—NO. 22. RED LAKE FALLS, MINNESOTA, THURSDAY, MARCH 9, 1905. WHOLE NO. 334.

CHANGE OF ROUTE.

The Soo said to be Contemplating Building from Plummer.

Last week the COURIER printed a short item to the effect that, there was a rumor that the Soo line would be built from Plummer west, instead of from Thief River Falls. Editor Latta of the Plummer Pioneer came out last week and said the rumor was started at Red Lake Falls for county seat campaign purposes.

We wish to inform the wise man of the Pioneer that we gave the rumor what it is was worth and had no idea of misleading anyone. Our information came from a state official who heard it at the capitol, and the following item which appeared in the Twin City dailies of Monday would indicate that our rumor was well founded:

"Soo line surveyors, it is reported, have found a change necessary in the route of the extension westward to Kenmare, N. D. The country is too swampy west of Thief River Falls and it will be necessary to leave the Winnipeg line at Plummer, south of Thief River Falls, and thence westward from St. Hilaire."

The Love League.

License to marry was issued to the following parties the past week: Edwin O. Reindill and Miss Laura Moen, Equality; Wm. Quesnell and Miss Ida Houle, Terrebonne; Thos. Thibodeau and Miss Rosena Chatel Red Lake Falls.

Cosy Compartments.

The privacy of the home will be enjoyed in the cosy compartments on the NORTH-WESTERN Limited. Ladies especially will appreciate the many little conveniences provided on this famous train,—every night Minneapolis and St. Paul to Chicago.

CELEBRATES BIRTHDAY.

Sam Allard gives Big Party in Honor of Birthday.

Last Friday being Sam Allard's birthday he decided to celebrate the occasion in befitting style, and he succeeded admirably as numerous friends will testify.

About two hundred fifty friends enjoyed Sam's hospitality that evening. The M. W. A. and M. B. A. halls were both used for the festivities, dancing at the former place and the supper being served at the latter hall. Fruend's orchestra furnished the music for the dancers and every one present joined in making the occasion one of merriment and good cheer. Mr. Allard was the recipient of many costly and beautiful presents, a large silver dish being one of the gifts. A large birthday cake, presented by Mr. Allard's five sisters, was one of the presents highly appreciated by the host of the evening.

It was Sam's forty-fourth birthday and it was the first time he has ever been able to properly celebrate the occasion as it generally comes during the lenten season. As it will be years to come before it occurs again he felt he must make the most of it this year. His many friends will long remember the occasion with pleasure. and all will join THE COURIER in wishing him many years of happiness and sunshine to come.

13 Years of Intense Suffering.

Thirteen years I suffered intensely from rheumatism writes Mrs. Mina Schott, of Marion, Ohio, but Gloria Tonic cured me after using morphine and other worthless drugs for years. Sold by W. A. Schreiter.

BUSTED BUCKETSHOP

Coe Commission Company Goes to the Wall.

The Coe Commission company of Minneapolis has gone bump with liabilities of over $200,000 and assets unknown. Ex-Judge Harrison of Minneapolis has been appointed receiver for the concern.

The Coe company was the largest bucketshop in the country, having branch offices in nearly every town in the north and west. Geo. H. Hammond was the controlling genius of the concern. Hammoud for nearly three years fought the regular grain exchanges single-handed, and had built up a great and extensive business, but the market itself, remorseful and erratic, at last crushed him in its grasp, thus accomplishing what the organizations of the legitimate grain trading concerns have been unable to do.

The liabilities are unknown, being estimated at from $200,000 to $1,000,000. A merchant at Redwood Falls started the end of Hammond's business by bringing action against him for a large amount he claimed the branch office at that place owed him. Hundreds of plungers in the Northwest will suffer losses by the company's failure.

The Same Old Story.

Judge Grindeland was here last week and heard what Atty. Henry W. Lee, of Thief River Falls, had to say in regard to the county commissioners and other county officers making a levy of taxes that was illegal. As usual with Lee's objections there was "nothing doin," the judge after hearing the case deciding the officers had acted within the law and he refused to grant the injunction.

County Attorney Germo appeared for the county and had no difficulty in showing up the flimsy and weak case Lee was trying to made capital out of. If Thief River Falls is posing as a friend of the people they have a very poor way of demonstrating the fact. These law suits cost money and the tax-payers of the county have to foot the bill.

Washington School Notes.

Lizzie Schlesinger reporter.

Frank Campbell is back to school again.

Nickie Helm is still unable to attend school.

Bessie Nelson and Clara Bourdon were absent Monday.

Let all remember that Friday evening is library night.

The fifth and sixth grades are getting along nicely in their Chinese it.

The fifth grade have taken up their history again after a months rest.

The A class of the first grade will finish their reading books this week.

In geography the sixth grade began the study of North America last week.

Thursday the sixth grade had a test in history on the French and Indian War.

Grace Moran is still absent on account of her arm but she is getting along nicely.

The fifth and sixth grade boys are practicing in their athletics and are beating some of last years records.

Friday the sixth and fifth grade pupils had a test in writing and the marks are going to be put on the report cards.

Because of the change in teachers there has been a change in the program of room 4. Arithmetic, which formerly came in the forenoon, has been changed with geography which came in the afternoon.

Mrs. Chamberlain is teaching the fifth and sixth grades in the morning. Mr. Healy is taking Miss Iddings place in the high school during her sickness for the forenoon but he comes back to the Washington building in the afternoon.

In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by W. A. Schreiter.

PUPILS OUT OF SCHOOL.

Records Show 58,173 in State Do Not Attend Forty Days.

In preparing the semi-annual apportionment of state aid to the different schools it was discovered by the state superintendent that 58,173 children between the ages of eight and sixteen years attend school less than forty days a year. The apportionment is based on the enrollment at the first of the year and there is every reason to believe that it has not changed materially since then.

There are 365,460 pupils entitled to share in the per capita apportionment of $547,635. The apportionment for each pupil who attended forty days or more is $1.50. When the last apportionment was made the per capita amount was $2.20. The total enrollment of school children is 423,663, which compared with the total number entitled to the apportionment shows that there are many children who do not attend school even forty days a year.

Red Lake county has 3,338 pupils entitled to an apportionment of $5,007.00; Polk, 8,278 pupils, entitled to $12,417.00; Marshall, 4,208 pupils, entitled to $6,312.00,

BADGER.

E. Quesnell drove to the Falls Saturday on business.

Rudolph Ducharme, of Perrault Station, called on friends here Monday.

Miss Zelia Quesnell and Rosabla Lachance visited at Terreboene last week.

Messrs. Homer and Henry Laurent of Terrebonne were visitors here Saturday.

The Misses Anna and Aurore Ducharme spent Monday at Charley Mentruil's.

Mr. and Mrs. Dolphus Champagne spent Saturday evening at the home of Louis St Ives.

Mrs. E. Morinvill is reported quite sick this week. Her many friends hope for an early recovery.

The Misses Alice, Zelia and Anna Quesnell called at Miss Katie McAnulty's school Monday afternoon.

Mr. and Mrs. O. Rue, of Red Lake Falls, visited at the homes of Mitchell and Evangelist Quesnell Sunday and Monday.

Messrs. and Mesdames Thomas LaBissionier and Frederick Dubuque visited at the home of O. Robillard Sunday.

Mr. and Mrs. I. Dubuque took advantage of the nice roads and weather Saturday and drove out here to visit relatives and friends.

Startling Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills; M. Flanndery, of 14 Custom House Place, Chicago, says: "They have no equal for Constipation and biliousness." 25c at all druggists.

GOOD SEED.

Experiments Show that it is Unsafe to Plant Light Grain.

The state experiment station has come to the conclusion that three-fourths of the crop of 1904 is not fit for seed purposes.

Experiments made by the state agricultural college shows beyond a doubt the folly of planting attenuated kernels of wheat struck by rust. Dean Liggett, of the state agricultural school, declares that rusted wheat that will not "wheat up" fifty-five pounds to the bushel should be left severely alone. Very little of the wheat crop in the rusted wheat belt will meet the requirement. It is better to go outside of the region effected by rust than take any chances, the crop experts say.

Under the direction of Prof. Snyder, of the state school of agriculture, three samples of rusted wheat were planted three weeks ago. Pots of equal size were used, and the conditions since have been exactly the same since the planting of the grain. In the first, wheat weighing forty pounds to the bushel was planted. In the second, forty-seven pound wheat was used, and in the third wheat weighing fifty-five pounds was employed. While some of the grains in the pots contains the inferior seed germinated and grew, there is a noticeable difference in the vigor of the plants. The stalks in No. 3, grown from the larger, sounder and plumper seeds picked from the samples of rusted wheat furnished by a farmer at the station, are strong and more vigorous than those grown from the other seeds. All came up at about the same time, but after the grain from the better wheat easily outstripped its inferior neighbors.

Dean Liggett declares that the plants in No. 1 would not produce a crop at all except under most favorable circumstances, and even then it would be nowhere equal in quality and quantity to the grain in No. 3.

"Plant none but good wheat as seed this season," should be the slogan of every Minnesota wheat producer this year," said Dean Liggett, in discussing the results of the experiments at the agricultural station. "I do not say absolutely that no rusted wheat should be used, but if it is planted, I urge upon our farmers a very careful fanning and cleaing process. This should be so thorough that no wheat that will not come up to the fifty-five pounds to the bushel should be planted by our farmers."

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure, Dyspepsia, Biliousness and Kidney disease, by all druggists, at 50c per bottle.

PRESIDENT ROOSEVELT TAKING THE OATH OF OFFICE.

MRS. STANFORD SUDDENLY DIES

WIDOW OF LATE UNITED STATES SENATOR FROM CALIFORNIA EXPIRES IN HONOLULU.

Indication at First That She Had Been Poisoned Gives Way to Belief That Her Death Was Due to Natural Causes.

Honolulu, March 2.—Mrs. Jane Lathrop Stanford, of San Francisco, widow of United States Senator Leland Stanford, died at 11:40 o'clock Tuesday night, 40 minutes after she was taken ill, at the Moana hotel here, under suspicious circumstances, pointing, in the opinion of the physicians who attended her in her dying hour, and seemingly in that of the others, to poisoning by the administration of strychnine in a vial of bicarbonate of soda.

Mrs. Stanford, when found by a guest of the hotel, who had heard her groaning in her agony and suffering from convulsions, declared: "I have been poisoned," and her last words were: "This is a horrible death to die."

The physicians say that between convulsions Mrs. Stanford repeated the assertion that she had been poisoned, and said it was the second time the attempt had been made, the first time being in January, at her San Francisco home, and that it was this attempt that caused her to come to Honolulu.

Strychnine Found.

San Francisco, March 3.—The receipt on Thursday by the acting chief of police of a cablegram from High Sheriff Henry, of Honolulu, stating that there were no less than 662 grains of strychnine in the bottle of bicarbonate of soda from which Mrs. Jane Stanford took a dose shortly before her death has aroused the detective force of this city, and every effort is being made to discover who placed the poison in the medicine. The police believe that the bi-carbonate of soda and the strychnine were purchased here and secretly dropped into the bottle by a person connected with the Stanford household.

Dr. W. G. Stevens, a medical expert, makes this positive statement: "Six hundred and sixty-two grains of strychnine easily would kill 622 persons. The maximum dose administered is only one-fifteenth of a grain, while the average is one-fortieth of a grain."

No Motive Known.

Not one motive can be ascribed for the supposed murder of Mrs. Stanford, but her sudden death came after she had appeared in perfect health and following an equally mysterious poisoning of the philanthropist in her San Francisco palace.

No Poison Found.

Honolulu, March 6.—High Sheriff Henry declared positively that so far there had not been discovered any trace of strychnine either in the stomach or medicine of Mrs. Jane L. Stanford. Sheriff Henry further said that he had questioned Drs. Shorey and Duncan regarding the progress of their experiments and had been informed by them that they had found no trace of strychnine. This statement tends to confirm the theory of many relatives and friends that Mrs. Stanford was not poisoned, but died from natural causes, yet believed herself the victim of a plot. The inquest may establish more clearly that the aged woman was the victim of hallucination.

Reindicted for Iroquois Horror.

Chicago, March 6.—Will J. Davis, manager of the Illinois theater, Building Commissioner George Williams and Building Inspector William Laughlin were reindicted Saturday in connection with the Iroquois theater fire, which cost nearly 600 lives. Davis is charged with involuntary manslaughter and the others with neglect of official duty.

ADJOURNMENT OF CONGRESS

For the First Time in Many years Body Completes Work with Time to Spare.

Washington, March 4.—The Fifty-eight congress was declared adjourned sine die at noon to-day. Instead of the all-night sessions that were freely predicted congress had time to spare for the closing business of the session. Contrary to expectations, an entirely satisfactory agrement on the river and harbor bill, the last of the supply measures to receive final consideration, was reached after a brief conference Friday night, and before midnight both houses had dissolved to meet at ten a. m. to close out the session's business. It has been many years since congress finished business with so much time to spare and with none of the great supply measures still in dispute. Usually some agreements are not reached until the morning of March 4.

The statehood bill died at 9:30 o'clock Friday night. At that time the conferees on the bill parted, not to meet again during the Fifty-eight congress. There was persistent effort on the part of the senate conferees to get a disagreement reported to the two houses, but the house conferees made the positive declaration that no disagreement report would be signed.

DISASTROUS WRECK.

Excursion Trains Collide Near Pittsburg—Seven Killed—Many Injured.

Pittsburg, March 4.—Seven persons were killed and probably 50 injured in a terrific rear-end collision on the Pittsburg, Fort Wayne & Chicago railroad at Clifton Station, eight miles from this city, at 7:05 o'clock Friday evening. One special, containing a battalion of the Ohio national guard, with ladies and officers, en route to the inaugural ceremonies at Washington, stopped on account of a hot box. Before a flagman could be sent back a special following, containing the members of the Tippecanoe club, their wives, sisters and sweethearts, crashed into the first train. The second train was running about 50 miles an hour and the impact was terrific. The locomotive plowed right through the rear Pullman and into the forward cars, leaving death and terrible injury in its wake. While the cries of the injured and dying rent the air, the wreck took fire and three of the cars of the first train and two of the second were consumed.

DIES ABROAD.

Ex-Senator Wolcott, of Colorado, Expires in a Monte Carlo Hotel.

Monte Carlo, March 3.—Former United States Senator Edward O. Wolcott, of Colorado, died at the Hotel de Paris Wednesday night. His brother and Dr. Guigliumetti alone were present. When Mr. Wolcott arrived at Monte Carlo, at the beginning of February, he looked strong and well, and there was nothing to lead to the belief that he was ailing. Several days later he fell ill, and became worse last week. The body is to be conveyed to Paris for cremation at Pere la Chaise on Monday. The ashes will be forwarded on Tuesday or Wednesday to Havre, and thence transported to New York.

Guilty of Girl's Murder.

Des Moines, Ia., March 6.—Charles Thomas, accused of the murder of Mabel Scofield, was Saturday found guilty after one of the most sensational trials of the crime annals of Iowa.

Eight Hundred Were Nilled.

Berlin, March 4.—The Lokal Anzeiger's Baku correspondent gives the number killed in the riots between Armenians and Tartars as 800.

Four Senators Expelled.

Sacramento, Cal., Feb. 28.—Senators Emmons, Bunkers, Wright and French were expelled from the senate Monday for receiving bribes.

CRISIS DUE IN AWFUL CONFLICT

MUKDEN BATTLE, GREATEST OF MODERN TIMES, IS NEARING ITS END.

GIGANTIC ARMIES LOCKED IN DEATH STRUGGLE

Military Critics Believe That Overwhelming Disaster Threatens One Side or the Other — Oyama's Strategy Apparent.

St. Petersburg, March 7. — The result of the greatest battle of modern times is expected to be determined within the course of a day or two. Two of the largest armies of recent times, both in men and guns, are now locked in a death struggle, and although Gen. Kuropatkin has evidently made every preparation to cover his retreat by removing his accumulated stores and munitions northward it is now the opinion of military men here that one side or the other cannot escape an overwhelming disaster.

With both wings bent backward Kuropatkin's position appears to be desperate, but the issue is still in the balance. News of a victory for him is only regarded as possible by his breaking through the enveloping lines and news of a concentrated offensive is hourly awaited. Unless Kuropatkin can strike and strike hard it is realized that he must lose.

Oyama's Plan Revealed.

Field Marshal Oyama's strategy in this battle is now clear. He startled and amazed the war office by the marvelous daring of Gen. Kuroki's advance against the extreme Russian left and the series of blows delivered at the center, where no less than 13 separate attacks have been launched by the imperial guards ten miles east of Poutiloff hill. But it is now realized that the heavy blows at the left were intended to mask the real turning movement which came like a bolt from a clear sky out of the west. Kuropatkin fell into the trap.

The situation seemed an exact duplicate of that at Liaoyang and the Russian commander in chief hastened to mass forces to meet Kuroki. Friday the whole situation was suddenly reversed when, with lightning rapidity, the Japanese turning operation began on the plain between the Hun and Liao rivers. In order to succeed Oyama threw the neutrality of China to the winds. Gen. Nogi with his Port Arthur veterans moved up the right bank of the Hun and fell like an avalanche upon the weakened Russian right, doubling it back in confusion, the Japanese advance being coordinated with the advance straight from the west of a Japanese column of 40,000 men which circled around or through Chinese neutral territory.

Kuropatkin Surprised.

Although rumors of the presence of the latter column westward of Mukden were circulated as long ago as Tuesday Kuropatkin evidently was taken by surprise, possibly refusing to believe that the Japanese would thus openly fling Chinese neutrality to the winds. At any rate it was not until Saturday night that he was able to shift sufficient reinforcements west to stem the tide when the Japanese were within sight of Mukden.

But the latest advices are to the effect that the Japanese, exhausted by their tremendous efforts, have everywhere stopped, and now if ever Kuropatkin's hour has come. The Japanese lines are extended over 60 miles, while Kuropatkin's are constantly contracting. Besides he has the advantage for the offensive of operating in the interior of his lines. Military critics declare Oyama has not great enough superiority to take risks.

According to the war office Oyama has not over 70,000 men in excess of Kuropatkin, whose forces total about 340,000. Should Oyama succeed the critics declare that he will prove himself to be a master of military science and establish a reputation for military genius of the first magnitude. But unless he can completely crush Kuropatkin's right, they say, Oyama is in imminent danger of having his left cut off and destroyed. Kuropatkin's chance, the war office says, is an opportune offensive, as passive resistance would be fatal.

Losses Already Enormous.

Gen. Kuropatkin has launched a blow at Field Marshal Oyama's left center just west of the railroad. The fighting is desperate along almost the entire line. Kuropatkin's losses in killed and wounded up to Sunday night are placed at 23,500. Oyama is believed to have already lost fully 40,000 men. The Japanese army, according to the prisoners, is greatly exhausted. They repeat the statement that some of Gen. Nogi's men have not had any food for two days.

Russians Routed.

Gen. Oku's Headquarters in the Field, March 4 via Fusan (delayed in transmission).—Since last (Friday) night the Japanese left, which is now extending north and south, has advanced several miles. The Russians are retreating in great disorder. The Japanese extreme left is now 15 miles northwest of Mukden and is advancing rapidly. The escape of the main Russian forces seems impossible. It is already estimated that the Russians have lost over 10,000 men. The Russians are throwing away their arms and clothing in order to facilitate their escape.

Oyama's Steady Advance.

Tokio, March .—Field Marshal Oyama is continuing his great drives around both flanks of the Rusisan army. His front is now a huge bow, the base on the Shakhe river

THE TERM "IDIOT."

In the Original Greek It Simply Meant a Private Person.

The word idiot is itself of interesting history. Its primary Greek significance was that of a private as distinguished from a public person. Our words idiom, idiosyncrasy, etc., are from the same root. The idiot in Greek was simply one not engaged in public affairs. The beginnings of the degradation of the word are shown in its application soon to the common people as distinguished from the upper classes. It was then applied to unprofessional and lay people and soon became the slurring title of the unskillful and awkward. By slow degrees it became applicable to the stupid and at last to the imbecile and idiot. As late as the sixteenth and seventeenth centuries the word was still used in its earlier senses. This long sad history speaks indirectly of the pathetic history of the imbecile. If he was not killed or starved to death by neglect, etc., he was usually reduced to the condition of a beast either about the house or fields or was actually driven into the woods and forced to live in caves, among wild animals, etc. In 1790 Itard took a "wild boy" found in the forests of Aveyron and tried to teach him. The ability of the wild boys and wolf children to live and the number that did so shows that idiocy, as we have later learned, is of all degrees and that a mind may be variously defective in some ways, even idiotic, but in others with capabilities well preserved. Blind Tom, the pianist, and the large number of mathematic idiots are examples that show how far we are from understanding the real nature of idiocy, and they more than suggest the partial retention of sound mentality of the defective, the possibility of seizing upon the one or few normal or even highly developed faculties and perhaps bringing others into co-ordination with them and to normality. The court fools and jesters of the olden times were often such partial idiots and defectives, and they truly lived upon their "wits," which were often better than those of their masters.—American Medicine.

THE VALUE OF EXAMPLE.

To have your child truthful, be truthful.

To have him temperate, be temperate in all things.

To have him kind to others, be yourself kind to others.

Prescribe healthful amusements and so far as you can take part in them.

Prove to him by your life that a good name is to be chosen before great riches.

Teach him that riches are not to be despised, but should never be got by doing harm to others; that when acquired should be treated as a trust, not as a hoard.

To have him honest, present to him in yourself a living example of honesty. The chief part of a child's knowledge comes through observation. Acts mean more to him than speech.—Philadelphia Inquirer.

A Demonstration.

Tommy and his little brother had been playing together most peacefully for some time when suddenly the baby gave a howl, followed by a series of shrieks. The mother rushed in and, while soothing the crying child, sought to find out what had hurt him. Tommy resisted her cross examination for a time, but finally admitted that he was guilty.

"What did you do to him?" she asked.

"I stuck him with a safety pin."

"What in the world did you do that for?"

"Nurse said you couldn't hurt yourself with a safety pin, and I wanted to see if it was so."

All Mothers Know
the great danger to babies in bad fits of coughing. Gloria Lung Balsam will stop it almost instantly, so don't be without it. Sold by W. A. Schreiter.

NAGGING PAINS

Newport News, Va., July 22, 1903.

Last summer while recovering from illness of fever, I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I cheerfully recommend S. S. S. to any one suffering from Rheumatism.

613 32d St. CHAS. E. GILDERSLEEVE.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles and joints, produce the stiffness, cutting pains and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and filtered out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the remedy. Write for our special book on Rheumatism, which is sent free. Our physicians will advise without charge all who will write us about their case.

Suffering

Will Not Help Your Disease, but Will Weaken Your Nerves.

Folks who think it is better to bear pain than soothe it—are wrong.

Old-fashioned doctors used to say it was better, because they had nothing with which to ease pain but dangerous, heart-paralyzing drugs.

But now, that a safe remedy has been found, Dr. Miles' Anti-Pain Pills, it is wrong to suffer, for nothing can be gained but weakened nerves.

A safe rule to remember is: When in pain, take an Anti-Pain Pill.

This will soothe your quivering nerves.

Dr. Miles' Anti-Pain Pills relieve pain by restoring the natural secretions, in which they differ from opium and similar narcotic drugs, which relieve pain by checking the action of the glands.

They are sure and harmless, and are the latest medical treatment for the cure of Headache, Neuralgia, Backache, Rheumatism, Dizziness, Toothache, Stomachache, Menstrual (Monthly) Pains. Also nerve irritations like Sea-Sickness, Car-Sickness, Sleeplessness, Indigestion, etc.

Pleasant to take, quick in results.

"I have used Dr. Miles' Anti-Pain Pills for sick, nervous headache, and have received the best results. I heartily recommend their curative properties, for they are successful."—REV. RAY A. WATROS, D. D., Iowa City, Ia.

Sold by druggists, at 25c. Money back if first box does not help. Never sold in bulk.

FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank. Our Specialist will diagnose your case, tell you what is wrong, and how to right it. Free. DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

THE CITY COUNCIL.

Regular Meeting Held Thursday, March 2, 1905.

Regular meeting of the city council held at the city hall, March 2nd 1905

Meeting called to order by Fred Borchers, president.

Roll called. Aldermen all present.

Minutes of last regular meeting read and approved.

On motion duly carried the following bills were allowed:

John Berry, sawing wood	$ 4 40
O. Lacoursiere, street work	1 50
Eli Mayhew, do	3 00
John Deforge do	11 55
King & Chase, city printing	2 87
A. P. Toupin, cord of wood	7 00
Joseph Salley, coal	14 35
M. A. Hatten, salary as Alderman	8 25
John Deforge, sixty cords of stone	300 00

The application of Wm. H. Krueger for liquor license was on motion duly granted.

Borchers, Hennemuth, Crompe and Brady were appointed a committee to purchase a gasoline engine.

The following resolution was offered by Alderman Hatten which was seconded by Alderman Crompe.

Resolved that the petition of A. O. Sindorf and Joseph Helm as trustees of the church of St. Mary's of Red Lake Falls, Minnesota, asking the city council to proceed towards vacating certain streets and alleys in the city of Red Lake Falls to wit:

Twenty feet of Main street between fourth street and fifth street in E. & O. Buse's addition which twenty feet is next abjacent to the west line of block one (1) also to vacate the alley in said block one (1) in said E. & O. Buse's addition all in the city of Red Lake Falls, Minn., be filed of record with the city clerk, and ordered that the council meet at the city hall of the said city of Red Lake Falls, on the 13th day of April 1904 at 8 o'clock p. m. to hear and consider said petition and that the city clerk cause notice of the filing of said petition and the said time and place of hearing be published in the official papers of the city for four weeks at least once each week the first publication to be March 16, 1905.

Upon roll called the following aldermen voted aye.

Borchers, Hatten, Crompe and Brady.

Nays, None.

Whereupon the resolution was declared adopted.

M. A. Hatten tendered his resignation as alderman of the city, and on motion duly carried the resignation was duly accepted.

On motion meeting adjourned.

President.

Approved this 8th day of March, A. D. 1905.

J. A. DUFFY,
Mayor.

Attest.
A. P. TOUPIN,
City Clerk.

PLUMMER.

(From the Pioneer.)

J. St Kotschafer was here from Red Lake Falls on Wednesday looking after some collections.

Ole J. Johnson went to Red Lake Falls on Tuesday evening to preside over a special meeting of the county board which convened there on Wednesday.

Miss Ida Poessel returned last Saturday after three weeks visiting at her home in Red Lake Falls.

John Padden was out from Red Lake Falls on Wednesday with some prospective purchasers for some of Marcus Johnson's land in this vicinity.

Martin Johnson went to Fertile on Saturday night for an over Sunday visit with his family.

Mr. and Mrs. C. Bourdon were out from Red Lake Falls on Monday on a combined business and pleasure trip.

Fritz and Otto Zaiser were among the number who came out from Red Lake Falls to attend the dance on Wednesday evening.

J. E. Buskirk returned on Wednesday from Red Lake Falls where he had been confined to his home for some days with a bad attack of the grippe.

Roy Green was in from Equality to take in the dance on Wednesday evening.

J. J. Alrick came over from McIntosh on Monday to take a position as assistant in the Bovey Shute Lumber Co's yard here.

Mr. and Mrs. Con Short called on friends here Friday while on their way home to Equality from a business trip to Red Lake Falls.

Sheriff Linnihan and John Grady were out from Red Lake Falls last night. The Sheriff was engaged in serving subpoenas on jurors for the coming term of the district court which opens at Red Lake Falls on the 27th inst.

Con Short left last evening for Alaska and will be absent for about six months during which time he will work his mining claims along the Dominion Creek. Mr. Short has successfully operated these mines during the summer months for about ten years spending his winters at home on his fine farm in Equality township.

ST. HILAIRE.

[From the Spectator.]

R. H. Duntley was a county seat visitor last Monday.

Frank A. Grady the Red Lake Falls attorney was a visitor here last week.

Prof. A. Onstad, of Red Lake Falls, was here Monday evening giving instructions to the band.

Ed. H. Chase, of the Red Lake Falls Courier, was here on last Thursday bound for St. Paul where he will meet his family.

W. A. Arthur went out to look over his claim on the reservation last Tuesday. He says it is still there and all above water.

A. M. Edstrom returned from Canon Falls last Wednesday, where he had been to attend the funeral of Nels G. Otterness, which occurred on Monday.

G. B. Grace was down to Red Lake Falls last Saturday and left a good-sized check with the county treasurer for the lumber company's personal property taxes.

Dr. V. Pleth, of Crookston, has been up here a couple of times the past week on professional business.

Ole Opperud has tendered his resignation as treasurer of the Bray Mutual Fire Insurance Co. Ed. A. Aubol will probably be his successor.

Julius Pleth and wife came over from Plummer last Tuesday and have been spending the week here. Mr. Pleth has been assisting in straightening the affairs of Nels G. Otterness, and Mrs. Pleth has been visiting her many friends here.

The planer in the sawmill closed down Wednesday and will not resume again until Monday. Lack of orders is the cause.

Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculair to their sex, while in reality the kidneys are deranged. Nervousness, headaches, puffy or dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. Sold by A. L. Reichert.

THE VALUE OF OPALS.

It Mainly Depends on the Colors Shown In the Stones.

Veins of opals are usually met with in soft formations where nothing above ground indicates their presence. The search for them, therefore, often requires considerable time. But it is not extremely difficult, for opals are generally found near the surface. Indeed, it was thought for a long time that they were not to be found as deep as twelve feet below the surface. This opinion has, however, given way in the light of evidence, because opals of great value have been discovered at a depth of fifty feet.

The value of opals depends upon several considerations, of which the principal one is the color. It is important that they should be bright and not present streaks or spots alternating with uncolored substance. The most valuable are those which have red fires or mixtures of red and yellow, blue and green. Opals of a single tint are of little value unless the tint is particularly striking and the figure beautiful. Indeed one of the essential qualities of the opal is the arrangement of the figure, which sets off strikingly the hue of the stone.

When the figure is quite regular and distinct it is the more valuable, much less so when the grain is quite small and irregular. Sometimes the color appears as a single blaze or with figures regularly spaced. It may then be of a fine ruby red and is much sought after, but oftenest the uniform tint is only green or reddish and has but little brilliancy.

The cutting is very important for the opal. Thus a thick stone will be much less beautiful than a thin stone, which, on losing part of its volume, loses also the figure. The foundation tint contributes much to the beauty. It ought to be transparent, slightly milky and harmonize fully with the different reflections of the opal, which, when it is really beautiful, presents a variety of hues infinitely pleasing to the eye.—Jewelers' Circular-Weekly.

HE HATED MUSEUMS.

Thoreau Catalogued Them as the Catacombs of Nature.

I hate museums. There is nothing so weighs upon my spirits. They are the catacombs of nature. One green bud of spring, one willow catkin, one faint thrill from a migrating sparrow, would set the world on its legs again. The life that is in a single green weed is of more worth than all this death. They are dead nature collected by dead men. I know not whether I muse most at the bodies stuffed with cotton and sawdust or those stuffed with bowels and fleshy fiber outside the cases.

Where is the proper herbarium, the true cabinet of shells and museum of skeletons, but in the meadow where the flower bloomed, by the seaside where the tide cast up the fish, and on the hills and in the valleys where the beast laid down its life and the skeleton of the traveler reposes on the grass? What right have mortals to parade these things on their legs again, with their wires, and, when heaven has decreed that they shall return to dust again, to return them to sawdust? Would you have a dried specimen of a world or a pickled one?

Embalming is a sin against heaven and earth—against heaven, who has recalled the soul and set free the servile elements, and against the earth, which is thus robbed of her dust. I have had my right perceiving senses so disturbed in these haunts as to mistake a veritable living man for a stuffed specimen and surveyed him with dumb wonder as the strangest of the whole collection, for the strangest is that which, being in many particulars most like, is in some essential particular most unlike.—Thoreau's Journal in Atlantic.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of Consumption, Pneumonia, etc., you are lost, if you don,t get help from Dr. King's New Discovery for Consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with Pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave relief. and one bottle cured me." Sure cure for sore throat, bronchitis, coughs and colds. Guaranteed at all druggists price 50c and $1.00. Trial bottle free.

Why not get it

when you get sure relief from a violent cough? Gloria Lung Balsam will do this every time. It is made of honey, tar, wild cherry, etc., and is the best for children. Sold by W. A. Schreiter.

If taken this month, keeps you well all summer. It makes the little ones eat, sleep and grow. A spring tonic for the whole family. Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets, A. L. Reichert.

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year, in Advance.

ACCORDING to the report of Commissioner Garfield the beef trust has actually been losing money. Maybe the stock-raiser and laboring man have been getting all of the profits.

SOME of the southern papers refuse to believe that we have been seeding in Red River valley. They're jealous. and afraid we're going into the orange and banana business next.

THE Adrian Democrat advises us that "there is no truth in the rumor that the members of the Minnesota members of the Minnesota legislature repeat the Lord's prayer in chorus at the opening session every day."

As a matter of political history it is interesting to note that in the Republican state convention of 1888, T. B. Clement, the Fairbault bank defaulter, received eight votes for nomination for governor, and 1881 he had 28 votes for the same office.

A BILL has been introduced in the legislature prohibiting the retailing of cigarettes or cigarette papers in the state of Minnesota. We have never believed in sumptuary laws, but here is one that would do way with a prevalent evil, and it ought to pass.

BEFORE a legislative investigating committee the supply men admit that they expect a large profit on goods sold to the state than when dealing with a private individual. It is imfortunately true that most people consider federal, state, county or city government legitimate prey.

THE bill appropriating $40,000 for a Minnesota exhibit at the Portland show will probably be considerably pruned by the legislature. It's all right to advertise, but the exposition and fairs have been pretty numerous during the past few years and it is question whether we have had value received for the lavish expenditures.

THE law-making bodies of the United States are slow in heeding to the demands of the people. Probably nineteen-twentieths voters believe in the election of the United States senators by popular vote, and yet this reform is only a remote possibility—it will not become an actuality with the next twenty-five years.

EDITOR VERITY of the Wadena Tribune, who holds a $10 legislative sinecure, is very bitter in his attack upon well-know Minnesota men. The latest to fall under the ban is H. J. Miller of the Luverne Herald. Verity is a bright fellow, but he altogether too jealous in serving his masters, and he cannot regain his lost political prestige by carping criticism of good men.

THEODORE ROOSEVELT is now president in his own right, and he wants the people to "look out." The people have a great deal of confidence in the president's integrity and aggressiveness, but a few more reports like that of Jimmy Garfield on the beef trust will force them to question his enthusiasm on the trust-busting proposition.

THE most conspicous candidate for governor on the Republican ticket around the state capitol is Peter E. Hanson, secretary of state. Mr. Hanson figures that he comes from the right section of the state, is of the right nationality, and has several times shown his ability as a vote-getter. Mr. Hanson may be lacking in some of other requisites of a first-class executive, but as these have often been minor considerations with state conventions. he may at the present time be termed the "leading candidate."

CORPORATIONS are prohibited from contributing to political campaign funds in any manner, by a bill introduced in the house by Representative J. H. Dorsey of Glencoe. The bill prohibits corporations from contributing funds or any other thing of value to any political campaign committee or to any person to aid in the political canvass for the election to office of any person. The broad wording of the bill would prohibit railroads from furnishing campaign committees with transportation for campaign speakers or workers. Officers, stockholders, agents or employes of corporations violating the act are to be guilty of felony, punishable by a fine of $1,000 or imprisonment for one year, or both.

for Hard Coughs

One of Ayer's Pills at bedtime will hasten recovery. Gently laxative.

A PERIL TO THE REPUBLIC.

A Wall street banker, who is said to be the head of the largest financial institution of New York, is credited with the statement that the fortune of John D. Rockefeller will in a few years amount to $1,000,000,000, says the St. Cloud Times. There are many estimates current of Mr. Rockefeller's wealth, estimates ranging all the way from $400,000,000 to $600,000,000, but the Wall street authorities add that all estimates of the Rockefeller fortune have been too low. Years ago, Mr. Gladstone was a guests at a dinner in England where the oldest member of the Vanberbilt family was also present. Somebody whispered to the English premier that the rich American had $100,000,000, and Mr. Gladstone commented after looking curiously at Mr. Vanderbilt: "Then I should say that he constitutes a peril to the American republic."

Just Among Ourselves

Edited by the New Boss and an Ax

"Did I show him?" Ask Happy.

You can't help the world with a scowl.

Shyness in maidens fair has long been a darling of the poets.

Milliners are busy making straw hats and dressmakers are engaged in building thin flocks.

Remember that a little learning is not a dangerous thing unless it gives you a swelled head.

A man is not going to get a crown of righteousness just because he gives some poor fellow his old straw hat in the winter time.

Women are generally better than men, but when they forget to be good they forget so hard that they usually go to the bottom of the pit.

One of our bachelors told us that he found out a couple of weeks ago that carving a turkey was just like courting his girl—he was sure to get both of them into his lap before he got through.

One of Red Lake Falls fair women was scolding her husband for not going to church and trying to be good. "Oh, I don't know that I care to be an angel," said he, "I would have trouble getting my clothes on over my wings." She suggested that she thought what he needed to be worried about most was how he would get his hat on over his horns.

He was from Thief River Falls and didn't know that in cities the church bells ring at 6 o'clock a. m. While peacefully sleeping at the Grand View hotel the other morning he was awakened by the bells of our city. Noticing it was not yet day he came to the conclusion there must be a big fire in town, and the speed he displayed in getting dressed and reaching the office was a caution. Needless to say he returned to bed a disgusted but wiser man.

Did you ever ride in one of those Great Northern "dinky" cabooses? If you haven't just take our advice and don't try the experiment. We came down from St. Hilaire the other day in one, and we promise never to miss the passenger train again. By actual count that caboose was on the rails three times during our ride. The balance of the trip was taken up in exploring the country outside of the right-of-way. It was an exciting trip but its too hard on the nerves and entirely unfits one for business for several days. No siree, we will walk next time.

Say, you folks ought to go down and see John King in that new office he occupies. Blamest place for a country editor we ever saw. Got carpets a foot thick on the floor, and you have to spit in cuspidors. You bet, and you have got to rap when you land at his private office. We didn't know that and bolted right in. Say, we caught John off his guard. He had his coat off, his feet upon the mahogany desk and was smoking one of "Plank's" best. He was looking off here to the northwest and dreaming of heavy editorials. He was powerful glad to see someone from home and asked more questions in a minute than we could answer in an hour. His is a great shebang, Books galore—55,000 of them. We didn't count them but John said they were there. He's in an aristocratic neighborhood to. The Supreme Court room adjoins his suite of rooms and that's the reason he has to look so pious all the time. Well, its a great joint anyway, and if you want one of the best times of your life just go down and look him up. He will do the rest.

WITH OUR NEIGHBORS.

Ada will vote on license.

Base ball is on at Bagley.

Bemidji is to have a pulp mill.

Bridgie is happy over a new large saw mill.

Brainard citizens are making an effort to secure a brick yard.

Morrison county's road and bridgefund amount to $5,000 a year.

The Gem saloon at Blackduck was distroyed by fire last week. The loss is $1,800.

Sanator Clapp has a crocodile on his hands. A Perham gentleman gave it to him.

Thief River Falls is minus a fire department, the fire boys throwing up the sponge and disbanding last week.

Clearwater county papers are scraping over the proposed bond issue of that county for court house purposes.

A Fertile miller lost a valuable diamond ring in a big batch of flour he was preparing for shipment. Maybe he was unfortinate—and maby he is just a clever advertiser.

According to Mr. Higgins, the lumberjacks' sky pilot, services were held every two weeks in fifty lumber camps in the state, and five tons of reading matter was distributed in the camps during the winter.

Henry Falk, living over in Baltrami county, recently received $145 from a black fox hide. A perfect pelt is worth more, but a bullet hole in this hide somewhat spoiled it. This is the second black fox that has been killed in that vicinity the past year and others have been seen. Several of the silver-gray variety has been seen but none captured.

J. R. Branson, living in Battle River township, Baltrami county, took up a homestead four years ago, giving up a valuable law practice in Minneapolis to become a tiller of the soil. During the time he has been in the northern country he has explored the entire northern part of Baltrami and Itasca counties and has spent months in the willderness with ou tseeing a living person.

Bemidji is threatened with genuine hydrohobia epidemic. The local police the last week has been kept unusally busy guarding against the attacks of mad dogs upon people on the streets and there has been at least a dozen dogs afflicted with the disease dispatched in the past seven days. At the present time it is hardly safe to walk the streets, especially where the canines are numerious.

It is said the warm weather of late greatly retards logging operations in Northern Minnesota. The weather the last three weeks has been anything but satisfactory to loggers. Already the roads are in almost an impassible condition, and are likely to become worse. Loggers who have not yet completed their hauling will experiencco considerable trouble unless the weather man sonds snow and cold weather.

Some time ago Nels. Halvorson an aged hermit living in a small log cabin near Glenwood, died suddenly. At that time no relatives could be found and Halvorson himself declared before his death he had none. Later on, however, when a considerable amount of money and valuable papers were found in his cabin by the authorities, "relatives" begun to appear. The latest is a woman who thinks Halvorson was her long lost father. She may be given an opportunity to prove her case in court.

WOMEN WHO SUFFER

Listen to What Dr. Hartman Proposes to Do for You Without Charge.

Doubtless hundreds of thousands of women all over the United States have seen Dr. Hartman's offer in the papers—how he has undertaken to treat every woman suffering with any form of female disease who will write to him, free of charge.

To those who have not heard of this it may be said that Dr. Hartman is a physician and surgeon of great renown in medical circles, especially in the treatment of those diseases which women alone have to bear.

He has arranged to answer all letters that are sent to him from women troubled with any form of female weakness, free of charge, giving the benefit of knowledge which has cost him forty years to accumulate.

The medicines he prescribes are within the reach of any woman, and she can get them at any drug store.

All she is required to do is to send her name and address, together with her symptoms, duration of sickness and age.

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Mrs. Senator Roach, of Larimore, N. Dak.; Mrs. Senator Warren, of Cheyenne, Wyo.; Belva Lockwood and Mrs. General Longstreet, of Washington, D. C., are among the prominent ladies who indorse Peruna.

Miss Helen Rolof, Kaukauna, Wis., writes:

"Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Peruna has been of great help in building up the system, restoring my appetite and securing restful sleep."—Helen Rolof.

Miss Muriel Armitage, 36 Greenwood Ave., Detroit, Mich., District Organizer of the Royal Templars of Temperance, writes as follows:

"I suffered for five years with uterine irregularities, which brought on hysteria and made me a physical wreck. I tried doctors from the different schools of medicine, but without any perceptible change in my condition. In my despair I called on an old nurse, who advised me to try Peruna, and promised good results if I would persist and take it regularly. I kept this up for six months, and steadily gained strength and health, and when I had used fifteen bottles I considered myself entirely cured. I am a grateful, happy woman to-day."—Miss Muriel Armitage.

Miss Lucy M. Riley, 83 Davenport St., Cleveland, Ohio, writes:

"I wish to add my indorsement to thousands of other women who have been cured through the use of Peruna. I suffered for five years with severe backache, and when weary or worried in the least I had prolonged headache. I am now in perfect health, enjoy life and have neither an ache or pain, thanks to Peruna."—Lucy M. Riley.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Death rate in Chicago and New York.

During November and December, 1903, one fifth of the deaths in New York and Chicago were from pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs and prevents pneumonia, so do not take chances on a cold wearing away when Foley's Honey and Tar will cure you quickly and prevent serious results. Sold by A. L. Reichert.

Brain Leaks.

The joys of tomorrow must be earned today.

Self-help does not necessarily mean selfish help.

Man made money is better than a money made man.

The crosses we elect to bear are not the crosses that win the brightest crowns.

It is possible to borrow and be the gainer by the interest. A good book, for instance.

Speaking of investments, what brings greater returns then a word of cheer spoken at the right time?

The man who takes his business troubles home with him seldom has any home enjoyment to lighten his office hours.

After you have put yourself in the other man's place for a short time you may have a reason for changing your place.

Strange how some erroneous ideas cling to the minds of some people. The real poets we have seen look to us like reasonable prosperious business men. The poorest poets we have seen usually affected long hair slouch dress idea we have been taught to associate with poets.

It will bring rich, red blood, firm flesh and muscle. That what Hollister's Rocky Mountain Tea will do. Taken this month, keeps you well all summer. 35 cents, Tea or tablets. A. L. Reichert.

A New Swindle.

An ingenious fraud was revealed to the postoffice authorities recently. The swindlers have their headquarters in the twin cities.

The plan is to secure the names of old persons as soon as they die and then send a letter and a pair of spectacles by mail to the address of the dead person. The letter says that the spectacles have been forwarded as per order and the bill is $7. The sentiment of the situation immediately appeals to the dead one's relatives. They look upon the spectacles as a memento of the dead, something ordered and never worn. The package is paid for and kept as a remembrance. The spectacles are worth about 75 cents.

Boat Race Across Mediterranean.

An auto-boat race across the Mediterranean has awakened a great deal of enthusiasm among sportsmen. This trip will serve as an example for those who are to enter the race across the Atlantic for which there will be a first prize of $10,000. The test of speed and cleverness of piloting. If you find your health wanting in any test put upon it, try golden grain belt beer. It makes good nerves and quick strength. You can't afford to be without it any more then your neighbors can. Order of your nearest dealer or be supplied by Alex. Thompson, Crookston.

Dr. Hall's Don'ts.

Dr. Hall, the city health officer of Minneapolis, states that the present mild weather is ideal weather for the developement of pneumonia, and has issued the following calendar of "dont's" for everybody:

Don't leave off your winter coats and wraps.

Don't discard your mufflers.

Don't leave off your rubbers.

Don't go out bare-headed.

Don't stand around long on the corners.

Don't put on light clothing.

Fast Tourist Car Service to California.

The Chicago Great Western Railway in connection with the C. R. I. & P. Railroad will run a through tourist sleeping car every week to San Francisco. Leaving Minneapolis at 8:00 p. m., St. Paul 8:30 p. m., Tuesday via Omaha, Colorado Springs and Ogdon. Arrive San Francisco Saturday 5:20 p. m. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

The Orignal.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

HEALTH
is the
Most
Important

The manufacturers of Royal Baking Powder have had 40 years of scientific experience.

Every method of bread-and-cake raising has been exhaustively studied in this country and abroad.

The result is a perfect product in Royal Baking Powder. There is no substitute for it. The purity and efficiency of Royal Baking Powder have been commended by the highest authorities of the world.

These facts mean two important things to all housekeepers:

First: that Royal Baking Powder is healthful and makes wholesome food.

Second: that Royal Baking Powder makes food good to taste.

I. B. Nicklas, of Sleepy Eye, has been in the city the past week. He is looking over the country with a view of locating here.

The Royal Neighbors will meet tomorrow (Friday) evening at the Odd Fellows hall. All members are requested to be present.

The infant son of Mr. and Mrs. V. Higinbotham was sick the first of the week but is reported as improving at the present time.

W. H. Scribner, formerly a resident of this place but now living in Northwest Canada, visited old friends here over Sunday.

Women's fashion leaders for spring are Queen Quality shoes, their styles are distinctive and exclusive.—Garceau & Zaiser.

The younger crowd held a dancing party at the K. P. hall last Friday evening in honor of Miss Elsie Kratka, of Thief River Falls.

Pat. Morin accompanied M. A. Hattan's car of household goods to Washington, and may conclude to live in that country hereafter.

H. Kaufer went to Thief River Falls yesterday afternoon. Henry says that new grandson sent word for him to come up and see him.

Most men have "shoe troubles." W. L. Douglas shoes for men are eliminators, giving perfect shoe satisfaction.—Garceau & Zaiser.

The county officers enjoyed a young banquet Monday afternoon. Auditor Ford was the host and the boys say they had a great spread.

Theo. Zaiser has been wrestling with an abcess on his jaw the past few days and has been compelled to remain home. He is on the mend.

Atty. Fred. L. Farley and M. O. Sortedahl expect to drive to Crookston tomorrow morning where they will try a suit in the district court.

The young daughter of Mr. and Mrs. Albert St. Mars has been on the sick list this week. She is rapidly recovering her usual health.

The Busy Store has a new advertisement in this week's paper. If you are looking for bargains it will be to your interest to look up this adv.

Mrs. Henry Kaufer went to Thief River Falls Monday to make the acquaintance of a grandson that recently arrived at the Murphy home.

Parents should buy for their children the Independent School District and the Little Gaint shoes. Warranted in every respect.—The Big Store.

Mrs Jas. Ford entertained her relatives and a few friends Sunday evening at dinner. A most enjoyable time is reported by the members of the party.

We understand there was a fight at Plummer recently over the county seat question. Of course the Red Lake Falls advocate won. We claim first blood.

The Southside Club gave a card party at the home of Mr. and Mrs. L. A. Dautremont last Thursday evening. A delightful time was enjoyed by those present.

The apron and necktie social at the Presbyterian church parlors Tuesday evening was well attended and a pleasant time was had by those in attendance.

The Kruger building next to the Grand View hotel is being overhauled and put in shape, and will be occupied about March 25th by Wm. Kruger's saloon.

Lost—Between this city and the Nauman home, west of the city, a black fur robe. Finder will kindly leave the same at the Grand View hotel and receive reward.

The Persons confectionery store has been moved into the Blake & Groshon building on the east side of Main street. It will make fine quarters for Mr. Persons.

Dr. E. Argue was at St. Hilaire several days last week on professional business. Mrs. Argue joined him Saturday and remained over Sunday visiting friends.

The year of 1905 is a year full of Sundays. It starts and ends with a Sunday; it has more Sundays than any other week day, and has five months with five Sundays each.

Mrs. Geo. L. Austin, of St. Hilair, was a visitor at this place Saturday. Mr. and Mrs. Austin formerly lived here and have numerious friends who will be glad to see them often.

Mrs. M. A. Hennings will entertain the ladies aid society of the Presbyterian church, Wednesday, March 15. A ten cent lunch will be served from 4 to 6 o'clock. All are invited.

Mr. and Mrs. M. A. Hattan left Wednesday evening for Ceney, Washington, where they intend making their home in the futnre. Their many friends in this city wish them good luck and happiness.

Red Lake Falls township has a new citizen in the person of Samual Handley, who is moving on the northwest quarter of section 32 this week. Mr. Handley and family arrived from Marshall Tuesday.

Robt. Eitel, Rev. B. C. Gillis and T. J. Parker, of Marshall, have been in this section this week looking over the fertile lands of Red Lake county. The gentlemen are in charge of a party of land seekers.

M. O. Sortedahl returned Tuesday from a two week's trip in Otter Tail and Goodhue counties where he was transacting business in the interests of the Sortedalh Land & Loan Co. He sold two farms while on the trip.

Herman Lindner while at work on the ice a few days ago scratched his hand in some manner and as a result blood poison set in. He has been confined to his home for some days but is improving nicely and will soon be about again.

County Attorney Germo was at Crookston the first of the week on business connected with the Lee injunction proceedings. Mr. Germo's motion of a dismissal of the case was granted by Judge Watts. Thus endeth another of Lee's pipe dreams.

Miss Ethel Bourdon gave a party last Saturday evening in honor of Miss Ina Phillips, of Crookston, who was a guest of Bourdon home several days. The evening was a most enjoyable one for the young people. Games were played and a dainty luncheon served.

A. C. Schreiter, of Appleton, Wis., were here the first of the week visiting W. A. Schreiter and family. The couple were returning home from a trip to the coast country where they spent the winter, and took this occasion to visit their brother. They left Tuesday for their Wisconsin home.

The Woodman gave a dance at their hall Monday evening that proved to be one of the social successes of the season. A large number of people were present and a most enjoyable time is reported, The band orchestra furnished the music for the occasion, and it goes without saying it was good.

E. F. Ward General Manager, and A. H. Hogeland, Chief Engineer, of the Great Northern Ry., were here yesterday looking over the improvements being made at this place. One hundred piling and bulwarks will be placed just south of the water tank, and it is expected it will take three or four weeks to do the work.

Miss Iza Tibbitts entertained the "Lusher Burns" and "Merry Crew" clubs last Saturday evening. The evening was spent at cards, Ralph Haely winning the first prize, while Miss Margaret Peble walked away with the booby prize. Dainty refreshments were served and a most pleasant time is reported by the young folks.

At the annual meeting of the ladies aid society of the Presbyterian church Monday afternoon the following officers were elected for the ensuing year: President, Mrs. N. A. Henning; First vice president, Mrs. F. E. Hunt; Second vice president, Mrs. B. Zaiser; Secretary, Mrs. C. N. Bourdon: Treasurer, Mrs. H. Hennemuth.

Monday at 5 o'clock Father Fayolle at St. Joseph's church pronounced the words that made Thoe. Thibadeau and Miss Rosene Chatel man and wife. In the evening the event was celebrated at the home of the bride's parents by a large number of friends. The COURIER joins the newly married couple's many friends in wishing them much joy and happiness in their new relation.

The following item from a Minneapolis daily relates to the death of a former teacher in the Terrebonne schools: "Ira C. Pickard, manual training teacher at Madison school, died yesterday at St. Barnabas hospital at the age of 29. About four weeks ago he was stricken with paralysis and forced to give up his work. His mother from London, Ont., attended him and the remains have been taken to his former home for interment."

Rev. K. Bjorgo, president of the Minnesota district of the Norwegian Lutheran Synod of America, residing at Red Wing, will be here next Sunday and will deliver a sermon in the Norwegian church at 10:30 a. m. Rev. Bjorgo is a very able talker and is prominent in the affairs of the Norwegian Lutheran church of this country. All who understand the Norwegian language are cordially invited to attend. Rev. I. T. Aastad, of Thief River Falls, will preach in the evening at 7:30.

Members of the Rebeckah and Odd Fellow lodge gave a farewell party to Mr. and Mrs. Hatten, Mr. and Mrs. Sivigny, Mr. and Mrs. Wm. Schwalen and Mr. and Mrs. Anthony Quesnell at the Odd Fellow lodge rooms Tuesday evening. A large number of friends were present to enjoy the evening's amusements and a most delightful time is reported. Cards were the order of the evening and refreshments were served. The parties the occasion was in honor of have hosts of friends in Red Lake Falls who will be loath to have them leave, but all join in wishing them success and happiness in their western home. Messrs. Hatten, Sivigny and Quesnell expect to move soon to Washington. while Mr. and Mrs. Schwalen go to Webster, North Dakota.

Oh, the grip is in the air, have you got it? It is on a grippe tear; have you got it? It has run from rocky Maine to the great Sierrian chain, and then double back again; have you got it? If your nose burns when you sneeze, you have got it; If you're wobble in the knees, yon have got it; If your mouth assumes a tast that can mentally be traced to a slaughter house's waste, you have got it; if your eyes seem dull as lead, you have got it; if they look post-jaggy red, you have got it; if the pan that holds your brain seems to house a mass of pain, and from oaths you cant refrain, you have got it; if your joints are turned to stone, you have got it; if your friends all seem your foes and you wake from out a doze with a bondfire on your nose, you have got it; if your back is filled with pain, you have got it; if you think that life is vain, you have got it; if your stomach's in a plight, and is looking for a fight when your food is flashing in sight, you have got it. But you musen't worry so, 'cause you've got it; there are others, don't ye know, who have got it; you are not the only one keeping doctors on the run, keeping druggists counting [illegible]

When the catalogue comes from your mail order house, draw an easy chair to the table where the light will shine full on the page and put on your glasses that no bargains may escape your eye. What a wonderful book it is to be sure—wonderful for what it does not contain, as well as what it does, We miss some things we would be glad to see. Where is their offer to pay cash or exchange goods for your wheat, oats, corn, beans, butter, eggs or hay? How much do they pay for cattle, sheep and hogs f. o. b. at your depot? How much tax will they pay to support your schools and educate your children? For improving roads and bridges, for the support of the poor of the county; for the expenses of running the business of the township, county or state? On what page is their offer to contribute money to the support of the church? What line of credit will they extend to you when your crops are poor and money gone, when through misfortune or illness you are not able to send "cash with the order" for your groceries, clothing, farm tools and crockery? Where is their offer to contribute to your entertainment next Fourth of July? What did they do last Fourth? In short, will they do anything to provide a market for what you have to sell and thereby keep up the value of your estate? Will they do anything for social, church, school or government support; or do they take vour dollars out of the community with no returns except the goods you buy?—Nora Springs (Ia,) Telephone.

Should Aim High.

In an address before the Y. M. C. A. a few days since, Gov. Johnson gave some good and wholesome advice to young men that should be heeded and appreciated. Among other things the governor said: "You must have a higher aim than to sit around a billiard table, standing upon a sawdust-covered floor, or to sit at a card table and shuffle the read and white chips across the table. I can look back a t times in my life that makes me blush with shame. A man who plays cards for money cannot rise up from the table and feel that he has done a square, honorable thing. The proudest moments in my life were when I went to Sunday school and sang in the church choir, and if my voice were good now, I suppose I would still be singing in the choir."

Cured Hemorrhages of the Lung.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. Sold by A. L. Reichert.

"Flinch," "Somerset, and all the new card games at THE COURIER stationery store.

A Convenience.

A checking account with a bank is a great convenience—not only to the business and professional man—but to the farmer as well. More people would keep such an account if they knew just how to go about it. We gladly assist those who need help in getting started, even tho the account be small.

SWEARS TO DEFEND THE CONSTITUTION

PRESIDENT ROOSEVELT TAKES THE OATH OF OFFICE AT WASHINGTON.

Begins His Second Term as Chief Magistrate—Scenes at the Inauguration—Fairbanks Inducted Into Office as Vice President.

Washington, March 4.—Theodore Roosevelt, president of the United States for the past three years, was to-day inaugurated for another term to the highest office which it is the privilege of an American citizen to attain. The oath was administered by Chief Justice Fuller. Hardly had the president finished his inaugural address and disappeared within the capitol building than the hush which had fallen upon the spectators when he raised his hand preparatory to taking the oath was broken by the deafening roar of 21 guns in official salute to the executive, just entering upon his second term as president.

Cheered the Troops.

The rendezvousing of the troops, committees and civic societies entertained the crowd throughout the long wait incident to the schedule. The various organizations arriving by different routes, passed into the narrow defiles which the police kept open. As rapidly as the troops arrived they took the positions assigned them. The military escort stretched far to the left and consisted of all branches of the service—horse, foot and artillery. To the right were grouped division after division of state troops, and in different places of honor the other organizations took their stand to await the signal to move.

Shortly after noon, just following the induction into office of Vice President Fairbanks, the monster stand, decorated with plants, flowers, flags and bunting, began to fill with the people who had just finished witnessing the ceremonies in the senate chamber, and scarcely a half hour passed before this coign of vantage was filled to overflowing.

Official Party Arrives.

Several minutes before one o'clock an extra loud burst of cheers from the multitude just in front of the main capitol door called the attention from the brilliant parade of uniforms in the street to the official party, which had just come through the main door. The official entrance was dramatic. All except those who were participating in the ceremony were seated. When the justices of the supreme court, with the exception of Chief Justice Fuller, emerged from between the Corinthian pillars and marched down the sloping carpeted aisle to their station they were greeter with applause. The justices wore their robes and skull-caps. Then came the members of the diplomatic corps, in their gorgeous uniforms, and they evoked thunderous applause. Led by Count Cassini, the Russian ambassador and dean of the corps, and followed by the others in order of precedence, they took seats on the right of the stand. Strolling in after them came members of the cabinet, senators and representatives in congress. Following on the heels of the official party came Mrs. Roosevelt and a party of friends; then, but a moment later, the new vice president, Mr. Fairbanks, and his escort arrived and were greeted by tremendous bursts of applause. As soon as Vice President Fairbanks seated himself the cheers ceased, the military presented arms, every hat in the committees came off and the great ocean of people set up a perfect roar of cheers, fairly shouting itself hoarse.

The President Appears.

Quick as a flash every sound was stilled and President Roosevelt, quiet and composed of demeanor, came from between the gigantic pillars, escorted by Chief Justice Fuller. A random burst of cheers came from the front of the crowd, as, with measured tread, in harmony with the dignified step of the chief justice, the president advanced in state down the long aisle of distinguished guests. By this time all were standing and nothing could be heard above the roar of thunderous welcome.

Oath Is Administered.

Chief Justice Fuller stepped to the front of the pavilion constructed especially for the use of the president during the ceremonies, and his clerk came forward bearing a Bible. A hush, followed by absolute silence, fell over the crowd, which but a moment before was cheering itself hoarse. President Roosevelt raised his right hand and took the oath which binds him in supporting the laws and constitution of the United States, with great reverence and amid deep silence. So great was the awe of the assembled multitude that not the semblance of a demonstration followed. Then the president began his inaugural address, and as soon as he had finished and disappeared within the capitol the signal was flashed to the navy yard and the salute of 21 guns told the end of the ceremonies and the initial step of the president's entrance into his second term of office.

Fairbanks Inaugurated.

Second only in importance to the inauguration of the president, on the calendar of events for the day, was the induction of Senator Fairbanks, of Indiana, into the office of the vice president of the United States in the senate chamber. The ceremony was brief and simple to the extent of being severe. Immediately following the address and oath of Vice President Fairbanks came the final adjournment of the Fifty-eighth congress and the beginning of the special session.

HANGS IN THE BALANCE.

Fate of Kuropatkin's Army Depends on Result of Fighting at Mukden.

St. Petersburg, March 6.—The fate of Gen. Kuropatkin and his army hangs in the balance, depending on the result of the fighting almost in the outskirts of Mukden. Reports from Japanese sources claim that the Russian right flank, southwest to south of Mukden, and contiguous to the railway, has been completely turned by the Japanese forces under the immediate command of Gen. Oku. To the eastward Gen. Kuroki is directing a vigorous attack with heavy artillery against strongly fortified Russian positions. Gen. Kuropatkin is said to be concentrating a strong force in front of Gens. Kuroki and Nogi. It still seems probable that Gen. Kuropatkin will find it difficult to retire to Tie pass, which appears to be a necessary move. St. Petersburg has word that affairs latterly have taken a turn for the better for Russian arms and the tactics of Field Marshal Oyama in sacrificing many of his soldiers in an attack on impregnable positions on the center as a mere diversion, while the real blows were being struck on the flanks, is criticised by Russian military officers.

A feature of all accounts of the fighting reaching St. Petersburg is the emphasis laid on the awful carnage. There is reference after reference to the dead piled high on the ground over which an attack was delivered, strewing breastworks, almost hiding abatis from sight and even being used by the Japanese to construct hasty entrenchments. The Russian losses on both flanks are conceded to be enormous. Already one of the Russian correspondents places the Russian losses at 30,000 men and those of the Japanese at 40,000.

Estimates of Gen. Kuropatkin's force between Shakie and Tie pass, prepared here, give a total of slightly more than 400,000, composed of 335,000 infantry, 33,000 cavalry and 35,000 artillery, with 1,504 guns.

Berlin, March 6.—A dispatch to the Tageblatt from St. Petersburg says: "Gen. Kuropatkin, in a telegram which arrived here Friday evening, said 260,000 Japanese had broken through the Russian left wing and that it was cut off from the remainder of the army. The Japanese are marching on Mukden. My position is extremely dangerous."

St. Petersburg, March 6.—The advance guard of the Japanese left army was within five and a half miles of Mukden station Saturday, according to a telegram from Gen. Kuropatkin. Japanese captured Suchudzia and Lanschanpa the same day, while their attacks on Putiloff hill and 13 fierce assaults on Kandolesan were repulsed.

FAVORS PACKERS.

Report of Commissioner Garfield on Result of Investigation of Beef Trust.

Washington, March 4.—The president has transmitted to congress the report of Mr. Garfield, commissioner of corporations, on the result of his inquiries into the business of Armour & Co., Swift & Co., Nelson Morris & Co., the National Packing company, the Schwarzschild & Sulzberger company, and the Cudahy Packing company. He says these six concerns in 1903 slaughtered about 45 per cent. of the total indicated slaughter in the United States; that for three of the companies in 1903 the average net profit was 99 cents per head; that the year 1902 instead of being one of exorbitant profits was less profitable than usual; that during the months when prices of beef were the highest some at least of the leading packers were actually losing money on every head slaughtered. Mr. Garfield, after reviewing prices and conditions for 1902, 1903 and 1904, concludes that the six companies above named apparently are not overcapitalized and the percentage profit on the gross volume of business is compartively small. He finds that in 1902, 1903 and 1904 the profits of Swift & Co. did not exceed two per cent.. of the total sales. Private car lines are shown to be sources of profit, a net return of 14 to 17 per cent. being indicated.

Commissioner Garfield reports his inability to find any general interownership of stock among the six concerns which he specially discusses, and avers that there is lively competition among them for business.

DYNAMITE KILLS FOUR.

Awful Result of Explosion of the Deadly Stuff in Railroad Camp in Kentucky.

Pikeville, Ky., March 4.—At the railroad camp of A. H. Calligan, a C. & O. contractor, at the mouth of Greasy creek, ten miles south of here, Friday four men were instantly killed, two fatally and four dangerously injured by exploding dynamite. The men were heating dynamite in powder cans when the explosion occurred.

Russia Will Pay.

London, March 4.—The British claims as a result of the North sea incident, as finally submitted to Russia, total $325,000. This amount, it is understood, will be paid in a few days without demur.

To Probe the Oil Trust.

Washington, March 6.—Commissioner James R. Garfield, of the bureau of corporations, has instituted a rigid investigation of the operations of the oil industry in Kansas and contiguous states.

STRONG PLEA FOR HIGH CITIZENSHIP

GOVERNOR JOHNSON OF MINNESOTA CALLS FOR NON-PARTISAN SUPPORT OF PRESIDENT IN HIS FIGHT FOR THE PEOPLE.

BUSINESS AND POLITICAL INTEGRITY ADVOCATED

ADDRESS BEFORE MERCHANTS' CLUB OF CHICAGO ON PROBLEMS THAT CONFRONT AND ARE VITAL TO AMERICAN PUBLIC.

At the banquet of the Merchants' club at Chicago Governor John A. Johnson of Minnesota spoke on "Commercial and Political Integrity," dealing largely with the subject of railroad transportation. His speech follows:

Not since the days leading up to the abolition of slavery has there been such a political awakening in city, state and nation as at the present time. For a half century the republic had been lulled to a sense of security and rest. Weary after four years of civil war the nation slumbered in peace. Reconstruction was undertaken and accomplished. The people prospered and the republic grew. The great ship of state drifted on the tide of prosperity. Suddenly, through the mist, officers, crew and passengers heard the warning sound of breakers on the reefs—reefs of political graft, reefs of commercialism, reefs of public control for private ends. On the night of Nov. 8 the order went ringing to the man at the wheel: "Change your course, mind the compass of the Constitution and public conscience; the heartbeat of the people is running this craft."

For the first time in a half century the nation is startled by the news that a political revolution has taken place and that it is without a parallel in American history. The old Bay state, casting its vote for the presidential candidate of one party, elects for its governor a champion of the people, nominated by the opposition party. Missouri elects Folk and then casts its presidential vote for a man of different political complexion. In your own state a champion of human rights is chosen as the chief executive. In my own beloved state the anomaly appears of the people choosing a Democrat as governor in a presidential year, when they give a 100,000 plurality or more to President Theodore Roosevelt.

You ask the cause of these anomalies, of this revolution for independence. There comes the answer, the people are smarting under the lash of real or fancied wrongs. They have arisen in their might to correct the abuses of a system of political and commercial dishonesty which has reached a climax. Wherein lies the dishonesty? For fifty years the people of this nation have been voluntary slaves of a political and partisan system which has been the means of almost wrecking the very foundations of our government.

DEFEAT ENDS OF JUSTICE THROUGH CONGRESS.

Three months ago the voice of the people was lifted for the president of the republic and he was swept into the presidential chair by a tidal wave that was almost equivalent to a unanimous choice. Today the great captains of industry, who did so much to bring about the result, are arrayed in solid phalanx for the control of the national congress to defeat the very ends of justice as he understands them, and as the American people understand them in him. The people stand amazed as they behold the conflict. The press teems with praises for the one and condemnation of the other. In the Middle West and in the Northwest we watch the fight with interest; for our people, controlled for years by unwholesome influences, have awakened to their sense of responsibility. They are engaged in solving the problem of popular control, of realizing good citizenship, decent politics and honest administration, of punishing and preventing criminal interference with the sovereign right of the people to honest government for and by themselves. Their cry for justice and equal rights is not the roar of the anarchist or the wail of the agitator. It is the intelligent and patriotic demand of a sober people too long accustomed to endure a situation as un-American as it is unjust.

But yesterday a prosecuting attorney in the city of St. Louis brought to bay a long line of corrupt officials who had put up the honor and fair name of a state to barter and sale. Your own state legislature has been pictured as a public auction, where the rights of the people are sold as wheat in the pit or options on change. The governor of Indiana brings his state before the court of public opinion with the charge of bribery and corruption. In Minnesota the people arise in revolt to resent the interference of the corporation and of the army of trespassers in the selection of public officials. From everywhere we hear the same story: Privileged interests are in control; legislative bodies are corrupt; executive officials are untrue to the trusts reposed in them.

For years we have deliberately stultified ourselves. The great Northwest, under the lash of the party whip, has subscribed to a tariff doctrine wholly inconsistent with its needs and interests. Candidates for congress, elected on the promise of tariff revision and reform, have gone to the nation's capital to aid the friends of high tariff to revise the schedules upward and still higher on the royal highway of trust paternalism. The Middle West has conceded the right of its commercial competitor, the East, to fix every economic policy of government. It has surrendered to the East the control of congress and centered in the grasp of the great special interests of New York, New Jersey and Pennsylvania the powers and prerogatives which the Constitution guaranteed to the people, and all the people, as the American bill of rights.

SYSTEM TAKES ALL AND GIVES LITTLE IN RETURN.

The Republican and the Democrat has been equally blind in his partisanship. A splendid example of obedient stupidity was illustrated in the Democracy of the nation bending the pregnant hinges of its knee to the great juggernaut of the East; waiting for the car to pass over its prostrate form and then back up and practically complete the party's annihilation. The Western Republican rejoices over the misfortune of his neighbor, not realizing that in different form he has been equally the victim of the calamity of a political system which has taken all and given him little in return. He, too, for years has been the victim of a conspiracy which has yielded him the rare and gracious privilege of subscribing to his own undoing. He has delighted himself with the thought that he was saving the country; while he was voting faithfully and prayerfully, early and often, year after year, for a party policy of special privilege, devised by Pennsylvania, whose every congressional representative is controlled by the Pennsylvania and Standard Oil; revised by New Jersey, the nursery of trust incorporation, and finally drafted into party platforms and law by New York, where the trust managers live, move and have their places of business.

The public mind is aroused. It is learning its lesson. The process of disillusionment may be slow, but it will be sure. The voter is beginning to realize that there has been too much partisanship and too little intelligence; too much partisanship, too little independence; too much partisanship, too little patriotism; too much politics, too little love of country.

Today the congress of the United States is in the absolute control and domination of a section and the other sections sit supinely by and tolerate the condition. Why should the city of Chicago be the political servant of its great commercial rivals, New York and Philadelphia? The balance of power should rest in that great central empire of our domain, the principal metropolis of which is Chicago. There must evidently, and possibly very soon, be a new political alignment; but even under the old alignment the great center of political power should be close to the population center and industrial center of the nation. It should be in the Mississippi valley instead of the Atlantic coast. The star of political power, following the westward course of population and industrial achievement, will yet rest over the great empire of the interior, with the Father of Waters and the Great Lakes as its outlet to the ocean, and with Chicago as its main depot. New York, with its vice, and New England, with its virtue to balance the ledger, today control the economic policy of the nation. The time has come to transfer the seat of empire across the Adirondacks to Illinois, Indiana, Michigan, Ohio, Kentucky, Iowa, Minnesota, Wisconsin, Nebraska, Missouri and the Dakotas. The best brain and the surest brawn of the nation is found here and it should be organized into one mighty, moral, material and patriotic force to overthrow paternalism and plunder and regenerate politics and the republic.

THE REPUBLIC RESTS ON MEN, NOT MONEY.

As Americans we are proud of the fact that the bank clearings of New York are today one-half greater than those of London and that the cash reserve of the New York clearinghouse banks is double that of the Bank of England. But the location of the countinghouse in Wall street does not justify the transfer of the power of the ballot there. Rather let the ballot follow population and industry. The republic rests on men, not money. This Central West of ours, where the Mississippi flows to the sea, is settled by the best class of inhabitants the world has ever brought together, a people rugged in their honesty, loyal in the love of country, intelligent and progressive and to them must come, sooner or later, that power for good which is the nation's hope.

The great central basin lying between the Adirondacks and the Rockies produces three-fourths of the necessaries and comforts which sustain the nation's life. It contains over half of the working and voting population and more than one-half of the mills and factories and three-fifths of the farms and railways. The internal commerce, the product of the labor and capital of this central empire, is many times

CALUMET
Baking Powder

The only high grade Baking Powder sold at a moderate price. Complies with the pure food laws of all states.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exorbitant price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

STATIONERY

WE do all kinds of Printing in a neat and satisfactory manner. See us, before ordering that job if you are particular and want neat work

Red Lake Falls
Minnesota

our total foreign trade. Through the "Soo" canal passes a freight tonnage nearly double that of the Suez canal and not far short of that of all our Atlantic ports. The lake port of Duluth-Superior alone handles a tonnage one-third that of all the ocean tonnage of the United States. The so-called "agricultural state" of Minnesota, which leads the world in bread and butter, besides standing first in the manufacture of flour, produced last year one-half of the iron ore of the United States and one-fourth that of the globe. The star of empire is westward. The other day the steamship Minnesota—product of the transportation genius of the North Star state—steamed out of Seattle for the Orient carrying the greatest cargo ever shipped within the holds of a single vessel in the world's maritime history. To the resources, the energies and genius of the West the nation looks not only to build up its commercial and industrial greatness, but its moral and political strength.

SUBORNATION TO LAWS NATION'S GRAVEST PERIL.

I am not among those who believe the nation is tottering, but among those who behold grave danger and have faith that this danger will be averted. The greatest peril lies in the obliviousness of the many to the existence of disease and one of contagion and infection. In Shakespeare's time "Foul subornation was dominant." Today it is rampant in almost every state in the Union. It shows itself in legislation and administration, in commerce and finance. Lawson tells us an appalling story of financial chicanery and ruin; good men at the head of vast industries appropriate the money of the people to their own uses. Steffins tells us of municipal corruption that makes the story of Nero and Rome seem cheap. And all this time the man of affairs will allow "business interests" to corrupt men in places of authority, while he shudders and stands aghast at the wrongdoing of an ordinary criminal. We boast today of a commercial reign unequaled in the world's history. It almost equals the Bourbon splendor which preceded the French revolution and which Carlyle designated as the rainbow over Niagara. It may be that our era of commercial splendor is but a rainbow over our own Niagara. In this city are scores of multimillionaires. In it are 100,000 who cloy the hungry edge of appetite by the bare imagination of a feast. Not all this is due to our political or commercial system, but in a measure to lack of personal effort. But there is much on which the hungry can predicate his complaint. Our political system and our commercial system are out of tune. The tendency of the great to crush the small, with the indifference of the elephant to the worm, is too common.

False capitalization is one of the great causes that has brought a shock to the faith of the people. Watered stock is the mirage in the desert of our commercial life. The billion dollar steel trust, quoted at 75 cents on the dollar today and at 8 cents tomorrow, typifies the class. Watered stock has become a common phase of legalized larceny. If the mad race is to stop before the runner falls corporate business must be reorganized on a rational basis. No corporation should be permitted by law to issue a share of stock that does not stand for paid in cash and certified to by state examination. Every dollar invested in a commercial enterprise should earn a fair profit and every investor is entitled to a fair rate of interest on his investment. But it is not entitled to a rate of interest and profit on stock which has no capital basis. Public service corporations, railway corporations and other corporations fix a charge altogether out of proportion to the investment.

PROFITS COLLECTED ON WATERED CAPITALIZATION.

I have in mind an electric railway company with 250 miles of track, and with an equipment to correspond, which earns 5 to 7 per cent interest and dividends on stocks and bonds amounting to $30,000,000. If it cost to equip and build the road as high as $30,000 per mile, or a total of $7,500,000, we have a corporation charging the public and collecting profits on an inflation or franchise value four times actual cost. This practice is common to steam railway companies in too great a degree and yet more common to the industrial trusts. Added to the gross misuse of franchise privileges railways are guilty of the still worse crime of discrimination. Is it a wonder that the president has taken up the war of the people to regulate transportation charges? Is it a wonder that governors of states and legislatures are stirring themselves to correct the evil? The corporation based on an inflated value complains of confiscation when the matter of governmental control is suggested. Governmental control is coming and the people who oppose it want to remember that the pendulum has been too long on the one side. Railway interests want to bear in mind that if governmental control is too earnestly resisted, government ownership is apt to follow, which would be still more undesirable, at least from their standpoint.

The railroad problem specially appeals to the great Middle West. Chicago is the greatest railway hub and the center of the greatest internal commerce on the globe. What London is to ocean commerce, what New York is to the world's bank clearings, that is Chicago to internal commerce carried by rail. The United States has over one-half the rail mileage of the globe and the lion's share of it has a terminal in Chicago. Your city is the transcontinental gateway of Atlantic-Pacific trafic. The gross earnings of the railroads which enter Chicago were enough last year to pay off 75 per cent of the national debt and greater than those of all the railroads of the United Kingdom by over $100,000,000. Three Chicago railroads running into Minnesota carry alone a freight tonnage greater than the total ocean tonnage of the United States; while the total freight tonnage of all roads entering Chicago approximates the ocean tonnage of the world. The Western trend of industrial production is told by the signficant comparison that in 1903 railroads doing business in Massachusetts showed for entire lines gross earnings under $100,000,000, in New York something over $300,000,000 and in Illinois close upon $700,000,000. At the same time, by reason of greater volume of traffic, the average rate per ton per mile was 40 per cent lower in Illinois than in Massachusetts. In the settlement of the great railway problem of America it is plain that this nation must look, not to the Atlantic coast, which now controls our stock markets and national legislation, but to the great valley of the Mississippi, which already supports as many people as Great Britain, with a farm product equal to that of France and Germany combined and a railway mileage which approximates that of the entire continent of Europe.

BEEF TRUST ROBS BOTH THE PRODUCER AND CONSUMER.

Railroad discrimination, namely, the rebate and the private car, has brought into existence, with headquarters in Chicago, one of the most powerful trusts on the globe, the great beef trust, which by control of the refrigerator car service of America fixes both the purchase and selling prices, not only of live stock and meat, but of fruit and dairy produce, vegetables and game, robbing producer and consumer alike and forcing the retail dealers of the land to become its army of obedient agents.

Rail rebate, plus special tariff privilege and monopoly of natural resources, have created Standard Oil and the coal combine, which levy upon American homes and business a volume of tolls sufficient to yield 20 to 40 per cent dividends upon a colossal capitalization.

Rail rebates and control, plus special tariff privilege and monopoly of natural resources, have produced the United States Steel corporation, which declares dividends upon a three-fold watering of the capital of the constituent companies by doubling the price of iron and steel to the American consumer while selling its product abroad at one-third less than the American price.

You wonder at the unrest of the people. In a county in my state are the greatest iron mines in the world. On the Mesaba nature has been so lavish of her wealth that great open pits a half mile to a mile in diameter are mined with steam shovels and railroad trains, as you would mine earth from a gravel pit; a single steam shovel loading 800 tons an hour and sending three to four trainloads of high grade ore to the Lake Superior docks in a day. In twenty-four hours last summer one of the Mesaba mines loaded 440 cars with 19,000 long tons, or ten trainloads of forty-four cars to the train. The soft ore of the Mesaba is mined as easily and cheaply as sand. The labor cost is about 10 cents per ton; while the great steel trust which operates the mines is protected by a tariff of 25 cents per ton from "the pauper labor of Europe."

STEEL TRUST AND CONTROL OF ORE CARRYING ROADS.

But the steel trust owns the two principal ore carrying roads and the rate for hauling the ore seventy-five miles to the lake for shipment to Eastern furnaces has been fixed so high that the independent mine owner is either robbed of the profits of mining or compelled to sell his mine to the hungry syndicate which controls both the mining industry and transportation. One of these iron range roads, which operates only 210 miles of track, voted itself last year a dividend of $4,500,000, or over 150 per cent, upon its common stock; and the other, operating 169 miles of track, distributed a dividend of $3,657,750, or 149 per cent, upon its stock outstanding. The two non-competing, parallel roads, operating an aggregate of thirty-seven miles of track, issued a dividend total of more than $8,000,000, or upwards of $20,000 per mile, which is more than twice the gross earnings, nearly eight times the net earnings and close upon twenty times the dividends per mile of the average American railroad. And yet this same billion dollar corporation, with all its extortionate charges, with its dividends upon an ocean of watered stock and its control of the iron and steel industry of the nation, adds insult to injury by demanding national bounty and protection and has actually secured at the hands of congress for the protection of its practices more pages of American tariff schedules than perhaps all the infant industries of the United States combined.

Is it not time that the law of the land was invoked for the protection of the common citizen instead of such a corporation and such practices? Is it not time that the functions of government were employed for more legitimate uses? Is it not time the authority of the nation is exercised to prevent, instead of to protect, such discrimination and special privilege? Rate discrimination, monopoly of natural resources, fictitious capitalization, special tariff bounties and transportation rebates have been promoted under the cloak of law until the public conscience is in revolt. Surrender of government functions to private corporations under guise of protecting the national welfare cannot much longer receive the sanction of an intelligent people, who believe the government was instituted for the protection of life, liberty and the pursuit of happiness.

PUBLIC SERVANTS PRIVATE AGENTS FOR CORPORATIONS.

As long as government is the fountain of special privileges powerful interests will dominate legislation, law will be dictated by the corrupt lobby, corporations will control legislators and even judges and executives will betray their trusts. As long as the law of the land is made the source of corporate dividends the campaign contributions of corporate interests will control political conventions and the party machine for the nomination and election of its candidates and our so-called "public servants" will be private agents for the public undoing. There is just one remedy for official bribery and campaign corruption and that is to remove the motive by cutting off all government grants of special privilege. The enforced guaranty of equal rights to all will free the party organization from corporate grasp and restore it to the common people.

The Republican is no more and no less to blame than the Democrat. Francis of Assissi was as honest and as reliable as Luther. The Bernardine monk was as sincere as Knox. The hope is not in the Democrat or Republican as a follower of the party of his choice, but in the man who believes his country is greater than his party and is not afraid of the charge of heresy—the man in the office, shop and field, whose patriotism and moral fiber respond to the nation's need. The republic is in no danger from the man who, following the plow, hums, "My Country, 'Tis of Thee." He does not understand the awful harmony of Wagner, but he knows and feels the melody of the folk song, the tunes which soften the heart and make men good and great. This man may be slow, but a lion when aroused. Today he is enlisting in the nation's struggle for honest government and he will win. The republic is in no danger of ruin or decay. The tax dodger, the boodler, the assassin of state and national honor may strike at the public welfare; the nation will grow in glory and power because of the manhood of its common citizenship. The country will survive, through the courage and loyalty of voters regardless of party, who will uplift the hands of a president in his desire to do right and uphold the majesty of the law. Through the very robbery of the citizen by the corporate trust the nation may be aroused and clothed with power. The mountain hunter may send an eagle fluttering down the crags, but the nestling brood in the eerie will rise to greater heights. The bounding doe may be arrested in her race for life, but the Matterhorn will still lift its cap of snow to a peace beyond the clouds.

POLITICAL TREACHERY COST US THE TRADE OF CANADA.

We are confronted with vast opportunities and responsibilities and with lost ground to recover. A bad economic policy and political treachery cost us the benefits of commercial freedom with Canada. Had we been fair and decent with our sister country across the boundary the trade of Canada would have been ours and commercially, if not politically, the two countries would have been one. We are told it is now too late. Canada has grown away from us instead of toward us. A false policy has robbed us of our own. Congressmen elected to represent our interests in reciprocity with Canada have gone to Washington in the interests of a pine land combine and worked to make reciprocity impossible. The American flag ought now to float over all North America; but that union, either politically or commercially, can never take place until a larger patriotism can rise above political cant and private greed.

Forsaking the old ideals we are confronted with a centralized commercialism more than feudal in its power. The principles of Washington, Jefferson and Lincoln are supplanted by the influences of Harriman, Armour and Rockefeller. The Constitution no longer goes with the flag; the Declaration of Independence is pictured as a relic of the past. The great commoner from the Sangamon broke the chain of the millions and released them from slavery to grow into a condition of humiliation. Washington founded a nation and his people submit to commercial serfdom. Our republic rests on the freedom and purity of the ballot; and Montana boasts the election of a delegate to a national convention at the cost of $10,000. The governor of Wisconsin declares that corporate wealth owned his state; and Standard Oil appears in the troubled waters of Chicago. In the kremlin fear of revolution blanches the cheek of the czar; in our country there is a smoke that might be fanned into flame. Our duty is to prevent conflagration by stopping the manufacture of inflammable material. The price of good government is good citizenship, even in the sacrifice of party affiliation. Will you do your share and will I do mine?

Let us here dedicate ourselves to the republic's upbuilding, to the reconstruction of party and of national policy on broader and bigger plans. Let us demand leadership consecrated to the public weal by the strong and simple ties of common honesty, equality and manhood. Let us consecrate our efforts to uphold the majesty of the law by enforcing its observance upon the most powerful as upon the humble. Political parties will survive, but let it be a survival of the fittest. I care not for the name of the party I choose so long as it stands for the rights of the people.

AMERICA A POLITICAL AND INDUSTRIAL WORLD POWER.

Politically the name of America is a world power—the power of justice, equality and freedom. Industrially America is a world power—with manufactures and agriculture greater than those of any other two nations and supplying food and machines to all peoples. Commercially the United States is a world power—with an internal commerce developed under freedom of trade between the states to a volume many times greater than the foreign commerce of all nations. At this hour we stand in possession of the gateways to the great trade of the Pacific ocean, which in half a century may rival that of the Atlantic. The construction of the isthmian canal will place America in control of the trade channel between Europe and Asia. For commercial expansion north and south we have the Dominion at our northern doors and South and Central America at the mouth of the Mississippi. The commercial federation of America is our opportunity and duty. The isthmian canal may serve as an invaluable regulator of transcontinental railroad rates. The chief engineer of the government war department estimates that the "Soo" canal and lake transportation save the shippers of America $30,000,000 per annum as compared with rail rates. What then may be the effect of the Panama canal in reducing rates between the Atlantic and Pacific seaboards?

The world is undergoing transformation. In the Far East there are 800,000,000 people waking from centuries of lethargy to become a world power. On the steppes of Russia the toiling millions are rising with dreams of constitutional liberty. In America the patriotism and intelligence of the greatest people on earth demand the divorce of government from plutocracy and paternalism. The pessimist finds much in the present situation on which to base his lack of faith in our institutions, but the conditions which afford him opportunity for exultation will be dissipated by future events. The turn of the optimist is near at hand. The tempest is raging now, but when the winds have spent their force the troubled waters will again be smooth. Ours is a new country. Our West has been created within the memory of men still living. Our development knows no parallel in history. Out of the present industrial and political chaos will come order. The yeomanry of the land struck for liberty at Bunker Hill. They brought the ship of state through the awful night of civil war. They are responding to a new call of duty and through them will come the reclamation and regeneration of the nation. It will not come from the extremist who does not believe in government—it will not come from the theorist who believes commercial progress is wrong—it will not come from those who deny the property rights of others—but it will come through the sober common sense of those toilers who create the wealth so essential to our prosperity as a nation and as individuals. It will come, not through excitement, anger or hate, but after a calm study of the true conditions and a fearless determination to arrive at what is best for all the people. The true grandeur of the nation will assert itself; if not today, then tomorrow. An enlightened and quickened conscience has issued the American doctrine—equal rights to all; special privileges to none.

Transcontinental Travel.

This year promises to be the record year for travel into California from the east, says the Philadelphia Public Ledger. It is estimated by the officials of the railroads interested in this movement that 50,000 tourists have visited California this winter. The total revenue of the railroads transporting the visitors is estimated at not less than $5,000,000. The conclusion is drawn that California will derive the snug sum of $15,000,000 from the season's tourist business.

The Czar's Answer.

They called him "father," and they wrung their hands
Before his palace gate from all his lands,
Standing in suppliance as the beggar stands,
Until he answer made
In his own way to all their needs demands—
The fusillade.

The vast cathedral raised its lofty spires
Above them toward the skies, and altar fires
Sent incense wreathing upward as aspires
The soul man, God made,
When came responsive to that soul's desires
The fusillade.

Within the palace jewels flashed and shone
Upon the breast of beauty as the moan
Rose from ten thousand hearts to reach the throne
Where sat, secure, and weighed
Man's cause, the arbiter whose will made known
The fusillade.

A thousand stains upon the trampled snow
Are witness of his will that all may know
As he has ordered it must still be so,
Though all man's hopes should fade,
While rending sword strokes follow, blow on blow,
The fusillade.

So it has been, and so it still must be
When suppliant hands are stretched for liberty,
As justice cringes low on bended knee
Where, still in threat arrayed,
The volleying lines make ready for her plea
The fusillade.

But in the sky above that blood stained square
A mighty host is gathering, taught to dare
By all the pain they learned on earth to bear,
Set free at last and made
Earth's judges by the power that sent them there—
The fusillade.

And on the earth, though still earth's czars are blind,
Moves on, resistless, man's own sovereign mind,
By death unawed, by shackles unconfined,
Supreme and still obeyed,
Though murder makes its answer to mankind—
The fusillade.

—William Vincent Byars in St. Louis Globe-Democrat.

OUR RURAL FRIENDS.

Farming is a good business when the farmer is poor.

The crocodile, the chicken and the ostrich take pebbles in their food to aid ginding it.

The qualification for a successful poultryman are patience, perseverance, pluck, enterprise, and capital.

The farmers are anxious for the trust-buster to hurry and get around to the implement and binding twine trusts.

Are you the owner of the horse? Are you ashamed of his keeping? Can you not improve in your method? These are only questions.

The wasted corn fadder of the state of Iowa, if economically used, would pay all the taxes of the state and would build a lot of macadamized highway each year.

It is predicted that the greatest agricultural development in the next ten years will be the irrigated lands of the West, and that in time to come these will be the highest type of civilization on this continent.

A crop of potatoes was grown in England which netted its producers more then its weight in gold. From one pound of the seed of the Eldorado variety he raised 3,633 plants, many of which he sold for $50 each.

Never store oily cloths in any unventilated place, as such things sometimes cause spontaneous combustion. First in machine shops have often been traced to the cotton waste filed with oil from polishing machinery.

In a recent report of the departmeut of Agriculture the relative merits of irrigated and unirrigated fruits are discussed. The general conclusion is that irrigated fruits are superior in quailty, are better for canning and drying.

It makes everybody happy to here a farmer say "Good-morning" when you meet him, as if it really were the very best morning that the sun eyer shone on. It lifts up to catch the tone of his voice, and makes us think life is worth living, after all.

In your plants for the next crop, do not let your mind run too much to acres. Big field farming is going out and "the little field well tilled" is coming into favor. Better cultivation, better fertilization, better and easier handling and, above all, better marketing—these are what must give the farmers a bank account.

The census bureau has issued a report on the condition of irrigation in the United States in 1902, showing that 3,415 systems, with 59,311 miles of main canals and ditches, where irrigating 9,486,077 acres on 134,036 arms. The amount expended in constructing all these systems was $93,320, 452. The average construction cost per acre in the arid region was $89.14, and average per irrigation system $2,710.

Rye bread in Germany is being superseded by American corn bread. In Berlin alone more then 800 bakeries are making bread of corn and wheat flavor and are selling it less then rye bread. "Corn" Murphy who introduced our corn into Germany declares that the preparation of corn flour can be infinitely more varied than that of wheat and that America has never taken a proper pride in their great native cereal.

Dampen a piece of clean, rather thick cloth, and place it upon a plate or saucer. Count out one hundred average seeds for the lot to be tested, and scatter them on the cloth. Now place another piece of damp cloth over the seeds, and cover all with a piece of glass. Keep the saucer in a moderately-heated room for ten days; moisten the cloth occasionally if dry; then connt the sprouted seeds. At least seventy per cent, of them should sprout vigorously.

The man who is the possessor of a piece of land has the game in his own hands, There is no prompter or stock gambler who can jeopardize his investment. Where it is purchased with judgement, land is always worth the money paid for it and it is bound to increase in value. It can not be destroyed or carried away. It requires only industry to make it profitable and productive. It constitutes a source of independence in any condition of the money market and amid all the mutations of speculative enterprises.

What a blessing it would have been to this country if the vast acres of the public land that has been legislated away to railroad corporations or parted with for a song to alien land-owner, could have been reserved for homestead for many of the people now crowded to the large cities, There is nothing so preservtive of purity, patriotism, and elevation of thought as in the township of country home. There is much in the very air, the wide expanse of fields, the budding and unfolding of nature, the waiving grain, the meadow rich with glazing grasses, the pasture land with grazing herds, that fills one with a larger hope, higher aspirations, and a desire for he better life; than is impossible to obtain in the motley, rushing, restless selfish, brutal tide of a great city. The atmesphere of a country home, mentally and morally, is pure and brings more of real content and happiness. The home-makers country and town, make the best citizens; they are the wealth producers and upbuilders and protectors of the nation.

Perfect Safety

Is combined with convenience in our certificates of disposit.

When you have any sum of money not wanted for immediate use, you can leave it here and we give you a written agreement to pay it back at any time you want it. If you wish to leave it for 6 months or more, we will pay interest upon it.

Yov can draw out a part of it, or all of it, at any time, or turn it over to some other party, if you wish.

5 per cent Interest paid on time deposits.

COUNTY COMMISSIONERS MEET.

Proceedings of the County Commissioners at March Meeting.

Pursuant to call, the Board of County Commissioners of Red Lake County, Minnesota met in special session at the Court House at one o'clock p. m. Present, Commissioners Johnson, Sutor, Demann, Shaw and Falardeau.

The application of Denis Conely for correction of assessment and abatement of taxes on certain lands in the Town of North and City of Thief River Falls, was on motion rejected.

On motion duly carried the bonds of N. W. Tarrant as Judge of Probate, in the sum of $1000, and J. C. Wood as County Surveyor in the sum of $500, were approved.

The application of A. J. Lillo and others for an appropriation from the County Road & Bridge Fund to aid in the construction of a bridge across Clearwater river on the north line of the Town of Garnes in Red Lake County was laid before the Board. On motion duly carried same was referred to the Road and Bridge Committee with instructions to report at the next meeting of the Board.

The application of Hubert Cardinal for correction of assessment and abatement of personal property in the City of Red Lake Falls for the year 1904, was granted subject to the approval of the State Auditor.

The application of Rev. I. T. Aastad for correction of assessment and abatement of his personal property taxes in the City of Thief River Falls for the year 1904, was on motion rejected.

On motion duly carried, Auctioneer's licenses were granted to C. M. Evenson and Joseph Belair, the proper bonds having been filed with the County Treasurer.

On motion duly carried a recess was taken to March, 2, 1905.

March 2, 1905, Board reconvened at 9 o'clock a. m. with all members present.

The petition of Hans. G. Skogstad and others for the organization of Township 154 North, of Range 42 West in Red Lake County was placed before the Board and after due consideration of same, on motion made by Commissioner Shaw, the following order organizing said Township was made:

State of Minnesota, }
County of Red Lake. } ss.

Upon receiving a petition of a majority of the legal voters of Congressional Township Number One Hundred Fifty-four (154), North, of Range Forty two (42), west in said County, asking that the same be organized as a new town under the Township organization law, to be named SILVERTON, we, the County Commissioners of said County, did on the 2nd day of March, A. D. 1905, proceed to fix and determine the boundaries of such new Town and to name SILVERTON in accordance with the said petition, and designated the residence of Hans G. Skogstad situate on the South-east quarter of Section 22 in said Township 154, range 42 as the place for holding the first town meeting in such town, to be held on Tuesday the twenty-first day of March, 1905, for the purpose of electing one Chairman of Supervisors, two Supervisors, one Town Clerk, one Treasurer, one Assessor, two Justices of the Peace and two Constables to serve until the next annual town Meeting; and designated Gust Perggren, Ole L. Ottum and Hans G. Skogstad as the Judges of said election.

The boundaries of said Town of SILVERTON as fixed and established by us are as follows:

Beginning at the North-east corner of the South-east quarter of Section 12 in Township 154, Range 42, thence west on the quarter section line to the North-west corner of the South-west quarter of section 7, and Range aforesaid; thence south on the town line to the South-west corner of section 31 in said town and range; thence East on the town line to the south-east corner of section 36 in said town and range; thence north to the place of beginning; containing all that territory lying and being within said Red Lake County in township 154, North of Range 42 West.

By order of the Board of County Commissioners.

Dated the 2nd day of March, A. D. 1905.

O. J. Johnson,
Chairman, Board of County Commissioners.
(Seal)

Attest: James E. Ford,
County Auditor and Ex-officio Clerk of Board.

Petitions of O. N. Olson and others; M. T. Wold and others, H. A. Helgeson and others, A. B. Newton and others, and Ole L. Ottum and others praying for the establishment of new school districts in Red Lake County were presented to the Board and on motion duly carried a hearing was granted on said petitions to be had on Monday, May 1, 1905 and notices of such hearing were ordered to be issued accordingly.

The petitions of Carl Eagnell and others praying for the establishment of a new school district in Twp. 152, Range 41, and that of Peter Lefaivre and others praying for the establishment of a new school district to be composed of part of school dastricts "79", "7" and "36", were presented to the Board on motion duly carried a hearing was granted on same to be had on Tuesday, May 2, 1905, and notices of hearing were ordered to be issued accordingly.

The annual reports of County Officers for the year ending Dec. 31, 1904 were examined by the Board, approved and ordered filed.

A petition was presented to the Board, asking that the portion of Twp. 154, North of Range 43, West, lying east of Thief River and the old Red Lake Indian Reservation line, be attached to and made a part of the existing organized Town of North in Red Lake county, and on motion made by Commissioner Shaw and carried unanimously the following order was made:

STATE OF MINNESOTA, }
County of Red Lake, } ss

Upon receiving a petition signed by a majority of the legal voters residing with the unorganized territory in Township 154, North, of Range 43 West in said Red Lake county and a majority of the legal voters residing in the organized Town of North in said county, accompanied by the proper affidavits as required by law, asking that the said unorganized territory, described, as follows, to-wit: All that part of Township 154, Range 43 aforesaid, lying east of Thief River and the old Red Lake Indian Reservation line, be annexed and attached to the said Town of North, the same being an adjoining Town.

We, the Board of County Commissioners of said county, did on the 2d day of March A. D. 1905, after a careful consideration of the matter, grant the request contained in said petitions, and the said unorganized territory herein described is hereby attached to and made a part of said Town of North.

The boundaries of the said Town of North as hereby fixed and established by us are as follows, to-wit:

Beginning at the northeast corner of the southeast quarter of Section 12 in Twp. 154, Range 43 in said county, running thence west along the quarter section line to the northwest corner of the southwest quarter of Section 7, Town and Range as aforesaid, thence south along the Town line to the southwest corner of Section 31 in said Town and Range, thence east along the Town line to the southeast corner of Section 36 in said Town and Range, thence north along the Town line to the place of beginning; being all the territory lying and being within said Red Lake county in Township 154 North of Range 43 West.

By order of the Board of County Commissioners.

Dated the 2d day of March, A. D. 1905.

O. J. Johnson,
[SEAL] Chairman, Board of County Commissioners

Attest: James E. Ford,
County Auditor and Ex-Offico Clerk of Board

The application of Julius John for correction of assessment and abatement of personal property taxes in the village of St Hilaire for the year 1904, was on motion granted subject to the approval of the state Auditor.

The application of Clearwater lodge, I. O. O. F. No. 133 for correction of assessment and abatement of taxes for the year 1904 on property claimed to be exempt in the city of Red Lake Falls, was on motion granted subject to the approval of the State Auditor.

The application of D. Conely for correction of assessment and abatement of personal property taxes in the town of North for the year 1904, was on motion granted subject to the approval of the State Auditor.

No action was taken on the application of M. W. A. Camp No. 3436 for cancellatiou of taxes for the year 1904 on real estate claimed to be exempt.

On motion duly carried a recess was taken to March 3.

March 3, 1905, Board reconvened at 9 a. m. with all members present.

The following resolution offered by Commissioner Sutor was unanimously adopted:

WHEBEAS, A demand has been made and presented to this Board by the Auditor of Polk county, Minnesota, for the payment by Red Lake county of the interest at the rate of 6 per cent per annum on the sum of $1905.95 from the 2nd day of January, A. D. 1902 to date, the said $1905.95 being the pro rata share to be paid by said Red Lake county of a certain bond issue of Polk county, Minnesota, dated Jan. 2, 1882 and due Jan. 2, 1902, and it appearing to this Board that the said sum of $1905.95 was paid by Polk county, Jan. 2, 1902 and that sum was refunded to Polk County Minn., until the 12th day of December, 1904, and it appearing that said Polk county is entitled to interest on $1905.95 from the 2nd day of January, 1902 to the 12th day of December, 1904 at the rate 6 per cent annum.

Therfore Be It Resolved, That the County Auditor is hereby authorized and instructed to draw his warrant on the Bond & Interest Fund of this County in the sum of $333.55 in favor of County Treasurer of said Polk County in payment of the above sum.

On motion carried unanimously the following bills were audited and allowed:

Wine of Cardui Cured Her.

213 South Prior Street,
ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

RED LAKE COURIER.

VOL. VII—NO. 23. RED LAKE FALLS, MINNESOTA, THURSDAY, MARCH 16, 1905. WHOLE NO. 335.

ARE LAYING THEIR TRACK

Great Northern Railway Company has Large Force of Men at Work in this City.

The Great Northern railway company began laying the track on thier new-cut off at this place Monday. Forty men are employed at the work and it will be a matter of but a few days before the track is all in place. The work is in charge of F. Casey, of Barnesville, and section foreman Kehoe of this place. The work will be pushed to completion as fast as possible and it is now thought trains will be running over the new track in three or four weeks.

The roadbed wi'l be ballasted immediately with gravel from the Ives pit, the graval train being expected to commence operations immediately. It is thought when the new track is completed that the train from Crookston will arrive here at about nine o'clock in the morning, and will make the return trip at about five in the afternoon.

HAS GREAT POWER

Engineer says 10,000 Horse Power lies Dormant in Red Lake River.

In the Red Lake river between this city aud Crookston lies dormant 10,000 horse power of water power, according to the ideas of State Ditch Engineer Ralph of Crookston. Mr. Ralph, who is a hydraulic expert of unusual talent, says the cost of building and equipping six power stations between this city and Crookston would be a mere bagetele compared with the power that wonld be derived from the undertaking. The river has a fall of over a hundred feet in the twenty-two miles journey across prairie, and at various places traverses tracts of deep gullies which would make ideal sites for dams if properly handled. "All the light and power needed in the valley for all time to come may be arranged for by the erection of power stations along the Red Lake river, and the cost of producing the current will be far less than it is in some of tne largest power plants in the world." The Red Lake river in years to come will solve the power question as far as the valley is concerned and will be the means of bring into the territory a vast amount of manufacting industry which is at the present time barred because of the excessive cost of power.

HOME FROM SUNNY SOUTH

L. P. Berthon Returns from Southern Trip and is Given a Royal Reception.

L. P. Berthon returned this morning from his two months trip in the sunny south. He reports a most delightful time in the land of sunshine and flowers, but says he is glad to be home again among his friends. Mr. Berthon took in the Mardi Gras, an event of merriment and entertainment of yearly occurrence at New Oleans, and says it is a great show and a splendid time to see the city at its best. His trip was a continuous round of pleasure and he will always remember his vacation as one of the brightest times of his life.

Mr. Berthon was royally welcomed upon his arrival in the city this morning. The band met him at the N. P. depot and escorted him to his home. The band boys are loyal friends of Paul's and nothing is too good for him in their estimation. His friends are not confined to the band members as he has hosts of friends throughout this section of the country who are glad of his return and who will wish him many more such delightful vacations.

MANY FAIL TO PASS.

There May Be a Dearth of First Grade Teachers.

Has the standard of the Minnesota teacher advanced during the last year? is the question which some of the educators of the state are trying to determine from figures issued yesterday by the state department of instruction showing the number which passed at the recent teachers' examination, held all over the state last month.

More than 60 per cent of the applicants taking the examination failed to pass and will have to wait another year before trying again for certificates of a higher grade. While some of the applicants taking the examination were only students, a great number of them were country teachers who desired to get up a few notches in their profession. Only a few over 40 per cent were so fortunate.

There were 5.473 who took the examination. Of that number only 1983 passed and 3,490 failed. There were 195 who received first grade certificates, 868 second grade, 89 conditional firsts, 412 conditional seconds and 422 limited seconds. The number making applications for grade 2,041, limited certificates 2,868, renewal 50, and exchange 59.

History, grammer and arithmetic were the rocks upon which most of the applicants floundered, and some floundered very badly. In history 1,452 passed and 2,155 failed, a percentage of 40.2 passed and 59.8 failed: grammar plucked 1,917 and passed 1,535, a percentage of failures of 55.6; in arithmetic 1,863 failed and 2,208 passed, which makes the percentage of failures 46.1.

There were many who failed to "make good" in reading. Of those taking an examination in this subject, 2320 passed and 1,244 failed, making a percentage of those passing 65.1 per cent and those failing 35.9. Spelling was little better; 1,382 failed to receive a passing average in this subject and the percentage of failures was 35.9. Penmanship was high; only forty-two failed to pass, so that the percentage of failures was only 1.3.

One of the singular features about the figures issued by Supt. Olsen are those issued in the subject known as composition. In this subject 3,183 passed and only 97 failed, while in grammar, and allied subjects taken by all, 1,917 failed.

The papers with corrections have been sent back to the counties and certificates will be issued to those that have passed. First grade teachers may be scarce in Minnesota this year.

STATE CENSUS BILL.

Measure Goes Through Legislature Without Debate.

The legislature has recommended Senator R. B. Browers's bill providing for a state census to pass. The bill carries an appropriation of $65 000 for the purpose of defraying the cost of enumeration and tabulation.

The bill was recommended without debate. It had been referred on its introduction to the finance committee, of which Senator Brower is the chairman, and had come back with a favorable report. It will cover the taking of the fifth decennial census.

The bill establishes a census bureau, with Secretary of State P. E. Hanson as its chief. He is given $500 for his supervision, but is allowed an assistant superintendent by law whose compensation is fixed at $1,800. He is authorized to name enumerators, and is to give preference to discharged soldiers and sailors. The enumerations is to begin June 1, shall be completed on or before July 1, and returns are to be in hands of the superintendent not later than July 10, 1905. A graduated remuneration is provided. In cities of 5,000 and over $2 for each 100 inhabitants is to be paid, in cities, villages and towns of less than 5,000 persons, enumerators are to receive $2.25 for each 100 persons, and in all other districts, excepting certain sparsely settled districts, a fee of 2½ cent a person is provided.

In districts where the population is widely scatttered the superintendent is authorized on his judgment to allow from $2 to $3 a day for the work of enumeration. No claam for traveling expenses is to be recognized. The census is to specifically include the names of soldiers or sailors of the civil and Spanish war residing in the state. Data is to include the sex, age, color, nativity, occupation, parentage and period of residence of the people enumerated. Authority is given the superintendent to occupy rooms in either the old or new capitol for the census bureau. It is expected that quarters will be provided in the old state capitol for the compilation of the work.

Opening Mail by Mistake.

Very few know that there is a penalty of $200 fine on any person taking mail out of the post office other than their own. All postmasters are liable to make mistakes and get the mail in the wrong boxes, and the law says people must examine their mail before leaving the office, and should they receive a piece which is not addressed to them it must be returned at once. That it is the fault of the postmaster makes no difference. The law includes newspaper as well as first class mail.

It will bring rich, red blood, firm flesh and muscle. That what Hollister's Rocky Mountain Tea will do. Taken this month, keeps you well all summer 35 cents, Tea or tablets. A. L. Reichert

TOWN ELECTION RETURNS

Results of Tuesday's Election in Neighboring Towns—Lively Time at St. Hilaire.

The township election was held at the Central House in this city Tuesday. It was a quiet affair, the only contest being for office of assessor. Mr. Lasha, who proved to be the winner, won by the narrow margin of five votes. Thirty-six votes were cast and the following candidates were chosen for the different offices:

For supervisor—three years—Paul Cyr received 27 votes;

Town clerk, Ildaige Baril, 28;

Treasurer, Simon Sutter, 27;

Assessor, Jules H. Lasha, 16; L. O. Westphal, 11; C. P. Mercier, 6;

Justice of the Peace—two elected—C. P. Mercier, 9; Em Engelbretson, 4;

Constable—two elected— E. S. Dufault, 9; Herman Wolf, 4.

ST. HILAIRE.

A lively time is reported at St. Hilaire, a spirited contest for president of the council between J. B. O'Brien and Harry E. Ives taking place. Mr. O'Brien was elected by the small margin of six votes, but the councilmen and other officers on the Ives ticket were successful. Following is ticket the elected: President of council, J. B. O'Brien; Supervisors, Carl Johnson, C. H. Martz, R. H. Duntley; Recorder, K. O. Gigstad; Treasurer, Leonard Holmes; Constables, C. H. Renington; Justice, A. Wilson.

The successful candidates in other townships follow:

TERREBONNE.

Supervisor, Stephen Quesnelle;

Town Clerk, George Dupont;

Treasurer, S. C. Cadieux;

Constables, J. J. Guard, Stephen Quesnell;

Assessor, Louis Perreault;

Highway Overseers, District No. 1, L. C. Cadieux; No. 2, Joseph Champorix; No. 3, John Beaudry; No. 4, Joseph Toupin.

LAMBERT.

Supervisor, Adolphe Cloutier;

Clerk, Louis Doucet;

Treasurer, Louis Falardeau;

Assessor, Maximillian Perras;

Justice of the Peace, I. H. Leblane, two years; Moise Riel, one year;

Constable, Joseph Lefebre;

Highway Overseers, district No. 1, Antoine Lambert; No. 2, Isidore Lefebre; No. 3, Joseph Beland; No. 4, Alexis Bergeson.

POPLAR RIVER.

Supervisor, Thomas Moreau;

Clerk, Arthur Laniel;

Treasurer, Cyrille Lussier;

Constables, F. X. Lambert, B. O. Wilkinson;

Assessor, John B. Hebert;

Highway Overseers, district No. 1, Maxine Champagne; No. 2, Zephire Fontaine; No. 3, Clyde Childs; No. 4, John B. Hebert.

DECLARES DEATH IS DUE TO POISON

CORONER'S JURY AT HONOLULU RETURNS A VERDICT IN THE STANFORD INQUEST.

Finds That Strychnine Was Placed in Bottle by Unknown Persons with Felonious Intent—No Motive Yet Known for the Awful Deed.

Honolulu, March 11.—The coroner's jury Thursday night returned a verdict that Mrs. Jane L. Stanford died an unnatural death. The verdict says that death was due to strychnine poisoning, the poison having been introduced into a bottle of bicarbonate of soda with felonious intent by some person or persons to the jury unknown. The end of the inquest with a positive verdict of murder leaves the police of Honolulu as much without a clew as when Mrs. Stanford died. The jury returned their verdict after about two minutes' deliberation.

Subject of Adverse Criticism.

The verdict of the coroner's jury to the effect that the death of Mrs. Stanford was due to strychnine poisoning is the subject of much adverse criticism here. Many persons declare that the evidence was lacking to sustain the conclusion of the jury as to a felonious intent. The verdict was written out with the knowledge and assistance of Deputy Hight Sheriff Rawlins and the jurors, who took less than two minutes to arrive at the verdict, immediately signed their names.

To Be Thoroughly Probed.

San Francisco, March 11.—The fact that the coroner's jury at Honolulu decided that Mrs. Jane Stanford was murdered by means of strychnine has added interest to the mysterious case. A conference was held here Friday between District Attorney Byington and Mountford Wilson, attorney for the late Mrs. Stanford, at which all the phases of the situation were discussed and it was determined to probe the matter to the bottom. No intimation of the proposed course of action has yet been given ou.

No Motive Yet Discovered.

"We will not make any arrests today," declared Capt. Burnett, "and perhaps not for several days. We simply do not know whom we can justly accuse and hold. Of course we are satisfied now that a crime has been committed. The one gap in the case lies in the Honolulu end of the story. Detective Reynolds, of this department, and Capt. Callundan will work to bridge it over. It is not true as published that the police have arrived at a conclusion as regards the motive behind this crime. We are as much in the dark relative to this important phase as we were earlier in our investigation. Neither is it true that the detectives have been sent to Honolulu to bring Miss Berner back. So far as our investigation goes there is less evidence against Miss Berner than any of those who occupied the Stanford residence on January 14, the date of the first attempt made to poison Mrs. Stanford."

Prisoner Burned to Death.

Memphis, Tenn., March 13.—A Commercial Appeal special from Felsenthal, Ark., says the jail two miles from that town was destroyed by fire Sunday, cremating its only occupant, John Creasy, a log scaler, held for a minor offense.

Gen. Booth in Jerusalem.

Jerusalem, March 9.—Gen. Booth, of the Salvation Army, has arrived here. He intends to hold a series of meetings. The porte has directed the local authorities to prohibit Turkish subjects from attending these meetings.

Signed Many Bills.

Washington, March 13.—During the session of congress which closed on the 4th inst., President Roosevelt signed 1,842 measures passed by the senate and house of representatives.

Anti-Cigarette Bill a Law.

Madison, Wis., March 8.—The legislature Tuesday, by a vote of 76 to 1, passed a bill absolutely prohibiting the sale or manufacture of cigarettes or cigarette paper.

MRS. CHADWICK GUILTY

Verdict May Mean Sentence to Long Term in Prison and Fine of $70,000.

Cleveland, O., March 13.—Mrs. Cassie L. Chadwick Saturday night was found guilty on every count on which the jury was allowed to judge her—seven in all. The general charge was conspiracy to defraud the United States by plotting to procure the certification of checks on a national bank when there were no funds in the bank to her credit The woman can be imprisoned two years on each count, or fined not more than $10,000 on each, or both fined and imprisoned. If the maximum penalties allowed by law are imposed Mrs. Chadwick will be sentenced to 14 years' imprisonment and fined $70,000. The jury reached its verdict in two hours. On learning the result Mrs. Chadwick became hysterical, shouting that she was innocent, and begging the officers to let her go. She was returned to jail.

The next step in the Chadwick case will doubtless be the trial of Dr. Leroy S. Chadwick, Mrs. Chadwick's husband, in common pleas court on the indictment in which he and his wife are jointly charged with the forgery of the $5,000,000 "Carnegie" note which was held as security by Iri Reynolds. He may be tried alone, and Mrs. Chadwick may be a witness. Andrew Carnegie will probably be called as a witness.

DEADLY REVENGE.

Man in Wichita Kills Head of Firm Through Whose Failure He Suffered Loss.

Wichita, Kan., March 11.—J. C. Casey, head of the Casey Wholesale Mercantile company, was shot through the head and instantly killed by James Oliver Friday. Oliver lost $23,000 in the failure of the Casey & Garst Mercantile company a few months ago, and the misfortune preyed on his mind. He demanded the money when the firm was reorganized, and had several heated arguments with Casey over the loss. Friday, while Casey was seated at his desk, Oliver slipped up behind him and fired three times without warning. Oliver walked to police headquarters and gave himself up. Casey was prominent in church and society circles.

Respite Granted.

Jefferson City, Mo., March 11.—Following the decision of the supreme court refusing to grant a rehearing to William Rudolph, convicted of the murder of Detective Charles Schumacher, at Union, Mo., Gov. Folk granted a respite of 30 days. Rudolph was sentenced to be hanged on March 17, and the petition for the respite was signed by a large number of Irish Catholics, who claimed that an execution in St. Louis on the morning of St. Patrick's day would cast a gloom over the celebration planned in honor of Ireland's patron saint.

President Entertains Novelist.

Washington, March 13.—President and Mrs. Roosevelt entertained at luncheon Saturday H. Rider Haggard, the eminent novelist and writer on economic and sociological subjects, and his daughter, Miss Haggard, who is accompanying him on his tour of this country.

Four Miners Killed.

Charleston, W. Va., March 9.—At Shrewsbury, a mining village 16 miles above here, a mine car loaded with coal and carrying ten workmen who were coming from the mine, dashed 1,000 feet down the 45-foot incline, killing four of the miners and injuring four others.

Civil War Veteran Dead.

Pawtucket, R. I., March 13.—Gen. William R. Walker, a civil war veteran, and for 20 years prominent in state military affairs, died Saturday aged 75 years. He also was a past grand commander of the masonicorder in the Rhode Island and Massachusetts jurisdiction.

Russia Pays North Sea Claims.

London, March 10.—Count Benckendorff, the Russian ambassador to Great Britain, Thursday paid $325,000 to Foreign Secretary Lansdowne in settlement of the North sea claims, and the incident was thus closed.

Drygoods Store Burned.

Iowa City, Ia., March 13.—Fire Sunday gutted C. Yetter's drygoods store. The loss is $78,000.

THE JAPANESE WIN A GREAT VICTORY

RUSSIAN ARMY SUFFERS COMPLETE ROUT AND CITY OF MUKDEN FALLS.

Kuropatkin Executes a Masterly Retreat and Reaches Tie Pass with But a Remnant of His Army—Losses on Both Sides Enormous.

Tokio, March 11.—Mukden fell at ten o'clock Friday morning. The Russians are panic-stricken. Thousands of prisoners and enormous quantities of stores and guns have been captured.

Fushun was occupied by the Japanese Thursday night. The fighting continues on the heights north of Fushun.

Oyama Tells of Capture.

Field Marshal Oyama telegraphs as follows under Friday's date: "We occupied Mukden at ten o'clock this morning. Our surrounding movement, in which we have been engaged for some days past, has now completely succeeded. The fiercest fighting continues at several places in the vicinity of Mukden. We captured a great number of prisoners, enormous quantities of arms, ammunition, provisions and other war supplies. There is at present no time to investigate the number of these."

Will Raise New Army.

St. Petersburg, March 13.—Official information from the Russian headquarters in the field, supplemented by dispatches from correspondents with the army of the Russian emperor, show that Gen. Kuropatkin, after suffering by far the most severe defeat of the war, has succeeded, as he did after the battle of Liaoyang, in extricating the remnants of his army from a position which military experts 24 hours before believed would result in its annihilation or surrender. The retreat from Liaoyang has been considered the most masterly ever executed, but it is far overshadowed by this latest feat of the Russian general, who has taken personal command of the troops. After fighting for nearly three weeks, losing in killed, wounded and missing probably a third of his army, or nearly 100,000 men, and a fourth of his artillery, Kuropatkin gathered what was left together north of Mukden and is taking them towards Tie Pass through a rain of shrapnel, which is being thrown on them from both right and left.

Their Fate Unknown.

What part of his army the Russian general has saved is apparently not known at the Russian headquarters. All dispatches indicate that part of his force has been cut off. Gen. Kaulbars seems to have extricated his corps, likewise Bilderling, but not so Linevitch. A correspondent says the Japanese separated the first and fourth Russian corps, and adds that help could not be sent them. Their fate is not recorded and the inference is that they have suffered defeat with capture. The censor no doubt took out of the dispatch what really happened to these corps. The first is Stackleberg's old corps, which has borne the brunt of every battle since Vafangow, and the fourth, under Gen. Zaroubaieff, has also been in the thick of all the battles. Remenkampff's fate is still in the balance.

Gen. Kuropatkin admits that 1,190 officers and 46,931 men are not responding to roll calls. This is rather vague. It may or may not include the thousands of wounded who have been sent north and again it may not include the losses suffered by the third army, with which the commander-in-chief was not in communication for some time. The figures given by the Japanese war office appear more reasonable, namely, 40,000 prisoners, 26,500 dead left on the field and 90,000 killed or wounded, the latter figure of course including the dead found by the Japanese. The Russian losses, therefore, total over 100,000 men, or more than one-third of the whole army. The fact that the Japanese report the capture of only 60 guns indicates that Kuropatkin at the last moment succeeded in sending a considerable portion of his artillery northward on the railway. The Japanese losses up to this morning were reported as 41,222, not including the army which pushed north between Mukden and Fushun.

May Fall Back to Harbin.

While a small portion of Kuropatkin's army has reached Tie Pass, the greater part of those who escaped from the battle of Mukden are still struggling onward, being at last accounts between 12 and 16 miles from their goal, with the Japanese, flushed with victory and reenforced by fresh men, harassing them from all sides. Even should the remnant of the army reach Tie Pass it is hardly possible for it to make a stand there against the overwhelming force opposing it, especially as the Russians must be worn out and weakened by the loss of men, guns and ammunition. It is more likely that Kuropatkin will fall right back to Harbin with what he can save and wait there for the reenforcements that St. Petersburg already has promised him.

Will Raise New Army.

St. Petersburg, March 13.—The immediate answer of the Russian government to the defeat at Mukden is the announcement that a new army will be raised and the forces in the far east reorganized; that Vice Admiral Rojestvensky will be ordered to sail on and try conclusions with Togo, and that the war will be prosecuted to the bitter end.

Kuropatkin Must Go.

Gen. Kuropatkin has telegraphed to Emperor Nicholas, assuming himself all the responsibility for his defeat, making no excuses except that the strength of the Japanese was miscalculated, and refusing to place any of the blame upon the council of generals upon whose advice he determined to give battle. This manly course and the general's personal exertions in directing the retreat will, however, hardly save him. His reputation as an offensive strategist is gone, and though the emperor's military advisors know not where to look for a better general, his resignation will be accepted.

Wants to Resign.

London, March 13.—The St. Petersburg correspondent of the Times says: "Gen. Kuropatkin has asked the emperor's gracious permission to hand over his command, alleging that he is in urgent need of physical and mental rest.

"I learn on the best authority that Japan twice has approached Russia through informal channels on the subject of peace negotiations, but that in each case the proposal failed because Japan demanded an indemnity and a pledge that Russia would not keep warships in the Pacific for 25 years. The Japanese insistence on indemnity convinces the Russian government that her pecuniary resources are exhausted and that by continuing the war only a few months longer Russia will get better terms."

DEATH OF SENATOR BATE.

Attack of Pneumonia Ends the Career of Well-Known Tennessee Statesman.

Washington, March 10.—United States Senator William Brimage Bate, of Tennessee, twice governor of his state, a veteran of both the Mexican and civil wars, rising from private to major general in the confederate army in the latter and for 18 years a conspicuous member of the upper house of congress, died at his hotel apartments in this city Thursday, aged 78 years. Death was due to pneumonia and defective heart. Senator Bate attended the inauguration ceremonies on March 4 and his death is believed to be due primarily to exposure on that occasion.

Senator Bate took his seat in the senate in 1887 and was sworn in last Saturday for another term of six years. He was the ranking minority member of the committee on territories, military affairs and agriculture and forestry; also a member of several minor committees and chairman of one of the minority committees.

NOTED WOMAN GONE.

Death of Mrs. Hailmann Who Opened First Kindergarten Training School in United States.

Laporte, Ind., March 11.—Mrs. Eudora E. Hailmann, of this city, who with Elizabeth E. Peabody, opened the first kindergarten training school in the United States, died at North Reading, Mass., Friday. She was 55 years old. Mrs. Hailmann was born at Evansville, Ind. She wrote several books on kindergarten subjects and had been at the head of kindergarten training schools at Laporte, Ind., Washington, D. C., Boston, Mass., and Dayton, O. Her husband, Dr. William N. Hailmann, was commissioner of Indian schools during the second administration of President Cleveland.

Will Not Affect Investigation.

Washington, March 9.—Although the attorney general declines to discuss the subject, it is known that the report of the department of commerce and labor on the beef industry, published last week, will have no effect upon the investigation now being conducted by the department of justice to ascertain whether the injunction issued against the "Beef combine" in Chicago is being observed. This investigation will proceed as originally planned.

MALARIA IN THE SYSTEM

Holly Springs, Miss., March 24, 1903.
While building railroads in Tennessee some twelve years ago a number of hands contracted fever and various forms of blood and skin diseases. I carried S. S. S. in my commissary and gave it to my hands with most gratifying results. I can recommend S. S. S. as the finest preparation for Malaria, chills and fever, as well as all blood and skin diseases. W. I. McGOWAN.

I suffered greatly from Boils, which would break out on different parts of my body. I saw S. S. S. advertised and after using about three bottles I was cured, and for the last three years have had no trouble whatever. A. W. ZEBER.
217 Read St., Evansville, Ind.

I began using your S. S. S. probably ten years ago for Malaria and blood troubles, and it proved so good that I have continued ever since using it as a family remedy. It is a pleasure for me to recommend S. S. S. for the benefit of others who are needing a first rate blood purifier, tonic and cure for Malaria.
Arkansas City, Ark. C. C. HEMINGWAY.

Boils, abscesses, sores, dark or yellow splotches and debility are some of the symptoms of this miserable disease. S. S. S. counteracts and removes from the blood all impurities and poisons and builds up the entire system. It is guaranteed a purely vegetable remedy. Write for medical advice or any special information about case.

We Risk It

Druggists Who Sell Dr. Miles' Nervine Agree, If It Fails, To Refund Cost.

Of course we reimburse the druggist. You know him, and trust him.

Dr. Miles' Nervine is medicine for your nerves.

It cures diseases of the internal organs, by giving tone to the nerves which make these organs work.

It is a novel theory—not of anatomy, but of treatment; first discovered by Dr. Miles, and since made use of by many wide-awake physicians, who appreciate its value in treating the sick.

If you are sick, we offer you a way to be made well—Dr. Miles' Nervine.

This medicine is a scientific cure for nerve disorders, such as Neuralgia, Headache, Loss of Memory, Sleeplessness, Spasms, Backache, St. Vitus' Dance, Epilepsy or Fits, Nervous Prostration, etc.

By toning up the nerves, Dr. Miles' Restorative Nervine will also cure those diseases of the internal organs due to a disordered nervous system.

Some of these are: Indigestion, Bilious Headache, Kidney Trouble, Chronic Constipation, Dropsy, Catarrh, Rheumatism, etc.

"My brother had nervous prostration, and was not expected to live. I prevailed upon him to try Dr. Miles' Restorative Nervine, and now he has fully recovered. You remember I wrote you how it saved my life a few years ago, when I had nervous trouble. I preach its merits to everyone."—REV. M. D. MYERS, Correctionville, Iowa.

FREE Write us and we will mail you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank for our Specialist to diagnose your case and tell you what is wrong and how to right it. Absolutely Free. Address: DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

OUR RURAL FRIENDS.

More than half of Russia's profits from export came from the sale of grain.

About 40,000,000 bushels of corn are used annually in the making of corn starch.

The crop of cotton for 1904 is found to be 12,162,600 bales, produced on 20,500,700 acres.

The boy on the farm today must not be satisfied to simply know as much about agriculture as his father. He has got to know more and will.

Honey is shipped from Cuba to Germany, the United States, France and other countries. The amount gathered last year exceeds $600,000.

Do not kill the duck in spring time. Let them alone. Allow them to rear their young and then in the fall there will be more and better hunting.

John B. Guyton of Missouri, signed a contract at Seattle the other day, with Japanese officers agreeing to deliver 100,000 horses for the Japanese army.

In Denmark the farmers have a large co-operative egg marketing concern, and every member working off a bad egg is fined $1.25. If such a rule were in vogue in this country it would bankrupt the farmers paying the fines.

We do not think that the average farmer need to know how to make more money so much as he does to know how to make it easier and in a more profitable way—make fewer acres do the work of the many now run over.

The boy brings back $2 where he costs a cent. If you don't believe it, just wait until he is gone and see what a hole it makes in running the farm. Instead of figuring how much the boy costs, I think it is a great deal better to think how much he saves.

According to figures compiled by the Union Pacific railroad the alfalfa crop of Nebraska for 1904 was 908,242 tons. Ten years ago it was stated no alfalfa existed in Nebraska. Every man who raises alfalfa, it was pointed out, can raise cattle, sheep, horses and hogs.

Pennsylvania should step more rapidly, she appropriates only $1,000 a year for the Agriculture Experiment Station. Ohio gives $61,000; New York, $99,000; New Jersey, $27,000; Connecticut, $17,000; Montana, 24,000, and so on. We feel quite lonesome when we contemplate these figures. Pennsylvania ought to do better.

We want to say another word to the farmer boy. It won't be long till you'll be out working for yourself. You have been thinking and dreaming about that already, and wondering when the time will come. It will come and come quickly. What are you going to do then? Something honorable, of course; something that will benefit the world and give you a fair name. Such is the purpose of every good, ambitious and honorable boy.

If the 1904 crop were equally divided every man, woman and child in United States would receive one barrel of flour, 200 eggs, 140 quarts of milk, more then half of which goes into butter; one bushel of apples and two one-half bushels of other fruits and berries; three bushels of potatoes two bushels of carrots; beets, parsnips and turnips; eleven head of cabbage and half as much lettuce, cucumbers and cauliflower; twenty-eight bushels of corn, usually in the shape of beef, pork and poultry, besides seventy pounds of cotton, six pounds of wool for clothes and enough leather for two pair of shoes.

No Time For Leisure.

One of the real characteristics of this modern world is the decline of leisure. The present pace men set, compared with that of a generation ago, it is an automobile compared to a "one-hoss shay." The reasolute idlers even have to toil to idleness, for the present forms of amusement demand more and more energy for their pursuits. The natural conclusion is that men turn to golden grain belt beer as a rest and relief from this constant rush and worry. It quiets mind and body and allows one to rest perfectly when a minuet's let-up does come. We need its help more and more as the years go on. Order of your nearest dealer or be supplied by Alex. Thompson, Crookston.

Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculair to their sex, while in reality the kidneys are deranged. Nervousness, heacaches, puffy or dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. Sold by A. L. Reichert.

Pointers for Men.

The wise girl never takes along a muff when she goes sleigh riding.

Sometimes you can tell a blond is really a brunette by her forgetfulness in sitting near a pink lamp shade.

What a woman likes to believe is that her friends suspect some man wrecked her life becase she coulden't love him.

A man thinks he is a natural-born wit when his family are afraid not to laugh at his jokes because it will make him mad.

If taken this month, keeps you well all summer. It makes the little ones eat, sleep and grow. A spring tonic for the whole family. Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets, A. L. Reichert.

Order to Examine Accounts.

STATE OF MINNESOTA, COUNTY OF RED LAKE, ss:

In Probate Court,
Special Term, March 11th 1905.

In the Matter of the Estate of John Clement deceased:

On reading and filing the petition of Napoleon Clement the Executor of the estate of John Clement deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is Ordered, That said account be examined, and petition heard by this Court, on Saturday, the 8th day of April, A. D. 1905, at one o'clock p. m., at the Probate Office in the city of Red Lake Falls, in said county.

And it is Further Ordered, That notice thereof be given to all persons interested by publishing a copy of this order once in each week for three successive weeks, prior to said day of hearing, in the RED LAKE COURIER, a weekly newspaper printed and published at Red Lake Falls, in said county.

Dated at Red Lake Falls, the 11th day of March A. D. 1905.

By the Court,
N. W. TARRANT,
Judge of Probate.

Special Term, March 6th 1905.

In the Matter of the Estate of Mathilda A. Hall deceased.

Letters of administration on the estate of Mathilda A. Hall deceased, late of the County of Red Lake, and State of Minnesota, being granted to Andrew P. Hanson.

It is Ordered, That six months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the Probate Court of said County, for examination and allowance, or be forever barred.

It is Further Ordered, That the 7th day of September, 1905, at one o'clock P. M., at a special term of said Probate Court, to be held at the Probate Office in the Court House in the City of Red Lake Falls in said County, be and the same hereby is appointed as the time and place when and where the said Probate Court will examine and adjust said claims and demands.

And it is Further Ordered, That notice of such hearing be given to all creditors and persons interested in said estate by forthwith publishing this order once in each week for three successive weeks in the RED LAKE COURIER a weekly newspaper printed and published in said County.

Dated at Red Lake Falls the 6th day of March, A. D. 1905.

By the Court,
N. W. TARRANT
Judge of Probate
m9-23

Cured Hemorrhages of the Lung.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. Sold by A. L. Reichert.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SHIP YOUR GRAIN. We are the only firm in this city dealing exclusively with the farmer. All Millers know that our cars are of one grade and not elevator mixed, which explains why our service is more satisfactory than any other concern. Submit us samples for grades, etc.
COOPER COMMISSION CO., Minneapolis, Minn.

IMPROVED FARMS.

Improved farm homes at prices and terms in reach of all. We have just purchased another tract of 76,000 acres of hardwood timber land, timber consists of maple, basswood, birch and hemlock, no pine slashings or sand. Land are all within 1 to 5 miles of railroad, near good market town, schools, churches and creameries, good wagon roads to all of our lands. With every purchase of land we build a good log house 18 ft. wide, 26 ft. long, 12 ft. high, with good roof, floor, windows and doors all complete, ready to move into at prices with house complete, $5. to $15. Per Acre.

Terms, ¼ cash, balance in 5 equal annual payments, at 6 per cent interest.

SAW MILLS WANTED

to cut one hundred million feet hardwood timber. Here is a chance for a man with a small portable mill to buy a small tract of timber and do custom sawing for his neighbors. We own several thousand acres of timber that will cut from 7 to 10 thousand feet per acre.

Buy your tickets to Cable, on C. & N. W. Ry. Low rates to land seekers, R. R. fare refunded to purchaser of land. For maps and further particulars address **UECKE'S LAND AGENCY, Cumberland, Wis.**

KING & CHASE, Publishers

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year, in Advance.

So many odes to spring were printed two weeks ago that it is not strange Boreas should give a vigorous dying kick.

The Fairmont Sentinel suggests that if some preacher was only smart enough to put a side door in his church he would have it filled with men who would go in from force of habit.

Mary McFadden declares "there are a few nice men, and so many of us." This hardly excuses Mary, for she can have her pick of those whose affections are not already mortgaged.

Mankato is to have an agricultural journal, which is to be published by the Free Press Printing company. W. W. P. McConnell, former state dairy commissioner, will be the editor.

There will be no abolishment of the grand jury this year. It is hardly likely the house will favor the proposition, and if it should a veto from Governor Johnson can confidently be expected.

Editor Pease of the Anoka Union, life-long, unadulterated and blown-in-the-bottle Republican, says: "Hardly believe those Republicans who suppotred John A. Jonnson are sorry. On the other hand, they seem to be mighty pleased, for he's making good at every turn. At the editorial meet in St. Paul, he associated with the boys, just as he used to do, and acted as throngh he enjoyed being with them. He put on no airs, and greeted each just as pleasantly as he ever did. Went down to Chicago and made a rattling good speech before a gathering of business men, and told them that the west was the only place and some other good things. The people are fast learning that at last they have a level headed, entertaining, loyal, talented governor, and one who proposes to look out for their interests. I don't know what more they want."

A WASTE OF EFFORT.

There are some things connected even with good cause so puerile that a sensible man, when they are imposed upon his time and consideration, feels that he wants to just lie down and die, and so get rid altogether of a world with so much foolery in it. One of these is the agitation, now become a feature whenever a new ship is christened, about using water instead of wine in the ceremony, says the St. Paul Globe.

The mind of man or woman never conceived anything so utterly imbecile as this. While we do not in the least agree with the prohibition theory, we respect the sincerity of those who hold it. We are willing to argue with them, meet them on their own grounds if necessary and grant that they are animated by a desire to save humankind from an immense evil. Dissenting entirely from their method as one incapable of producing good results we are in perfect harmony with their hopes.

But whether the contents of the bottle that is shattered on a vessel's prow when first she glides into the water are water or wine or sulphuric acid or any other fluid can make no difference to any human being. The sea into which this falls is too big to get drunk. Even if it should fall into the mouth of a river, that is probably too far distant for its head to get swelled. The ceremony is a mere form of ancient standing, graceful, proper to be preserved, but not symbolic of anything in the remotest degree related to temperance or intoxication. It would be about as sensible to propose a change in the flag of the United States and strike out the crimscn stripes because when a man gets full he is apt to paint the town red.

In the name of common sense, let us have no more of this foolishness. If the advocates of temperance only knew it, they disgust thousands of people and turn them toward the flowing bowl in the reaction against any such extreme as this by even raising the question. There are innumerable little ceremonies and customs preserved from ages gone, have perhaps departed from their original meaning, but that it is pleasant to preserve, just as it is to save in some hidden drawer or cupboard heirlooms which we should no longer think of wearing. The method of christening a vessel is one of them. Let common sense prevail and this inane discussion be stamped out as it deserves.

Keep the bowels open with one of Ayer's Pills at bedtime. Just one.

IN JOINT DEBATE.

For that vague feeling of unrest—take a long walk and a brace.—Duluth News-Tribune.

A good many of them cut out the walk and take a couple bracers.

The appropriation bill providing for a new federal building suffered the fate of the mileage graft bill and Alexandria must wait for it new postoffice.—Alexandria Post-News.

It is to be hoped that the appropriation measure was more meritorious than the mileage graft. It will be of political interest to note that Congressmen McCleary, Tawney and Stevens voted for the graft, while only John Lind voted against it. The other Minnesota congressmen were conveniently absent when the vote was taken.

Rumor has it that the Dunn faction will bring Loren Fletcher forward as the Republican gubernatorial candidate next year. It is not recorded, however, that the Barkis has consented.—St. Peter Herald.

If "Uncle Loren" is to remain in politics he will be obliged to find a new opening. The people of Minneapolis will hardly consent to a further extension of his congressional career.

If free Canadian wheat is a good thing for the Minneapolis millers then why not try free Canadian lumber for the Minnesota farmers?—Vesta Censor. Because it would destroy the stand-pat shibboleth of the trust serving partizan. Fairmont Sentinel.

Another reason why the farmer cannot get free lumber or any other tariff concession is the fact that the farmers' lobby in congress is ineffective. The special interests are always carefully guarded by paid representatives—and some of them have seats in the halls of congress.

EXCHANGE ECHOES.

The "mileage raid," which passed the lower house of congress, and which the Minneapolis Tribune denounced as a "monstrous blunder," if it had not been knocked out by the senate, would have profited congressmen from Minnesota from $480 to $550 each. Tawney and McCleary voted for it and, of course, John Lind against it. It was just such a grab that forced Mark H. Dunnell out of politics and retired him to private life.—Albert Lea Standard.

A bill has been introduced in the state senate by Senator Wood of Long Prairie, which in fact is an act to do justice to the wives, widows and mothers of old soldiers. Its defeat would be a disgrace to the legislature, and would be regretted by the generous and warm hearted people of Minnesota.—Crookston Times.

Chattel mortgages should be handled in precisely the same way that real estate mortgages are handled. They should be filed in a county office instead of a town clerk's office and the sales under them should be published. There is no reason in equity or common sense in treating these two forms of obligatian on a different plane or method. —Wheelock's Weekly.

As a sample of diplomacy please consider for a moment the findings of the commission appointed to investigate the North sea incident. The commission finds that Admiral Rojestvensky was fully justified in sinking the English fishing boats, but that Russia must pay for them. —Ortonville Herald-Star.

While the legislature is at work on the full measure standards it might tackle the strawberry box. A howling constituency wants a full box that will fill a full stomach, and cream on the side. Let us have what is coming to us along the line. —Princeton Union.

LETTER FROM ST. PAUL.

The Senior Courier Editor Gives a Few Notes From the Capitol.

St. Paul, March 14.—Dear Courier Readers: It had been my purpose to write you every week, giving a few of my impressions of things about the state capitol, but since coming to St. Paul I have been pretty busy with affairs connected with the administration of my department of the state government. Hereafter I hope to have sufficient leisure to prepare a little "copy."

* *

The capitol building is still a mecca for visitors. I presume several thousand people are here daily to see the "marble pile." Few are disappointed with the building. They all declare it to be an architectural triumph, poetic in in conception and design, and magnificent in its arrangement. The Red Lake county people coming to the city should not neglect the opportunity to visit one of the world's great buildings, and they may be assured that whatever information or courtesy can be given from the state library will be fully extended.

* *

Red Lake Falls people are, of course, interested in Governor Johnson for a two-fold reason. He is the governor of our state, and again one of his last days prior to achieving national fame was spent in Red Lake Falls, where he delivered a notable address on the Fourth of July. I meet the governor frequently in the course of my work, and there is no apparent change in his demeanor or actions. Of course he appreciates the added dignity and responsibility of the high office to which he has been called, and he conducts himself accordingly, but to his friends and associates he is the same genial, affable personality as in the former role of country editor. It proves that Governor Johnson is not "swelled up" over his new job, and that power and popularity does not bring the vanity and self-importance that has often been the ruin of a bright mind and able official.

* * *

The legislature will be in session another month. So far little has been accomplished owing to the new code. The house last Saturday adopted the code—first making some 1,500 amendments, and now the senate judidiary committee is wrestling with the proposition. It will be reported to the senate in a few days, and the prevailing opinion is that the code will be adopted, although the time for it to go into effect is a matter of conjecture.

* *

The Democrats in the state senate are not numerous, but most of them are able speakers, good parliamentarians, and in all respects competent to hold their own. Senator Schaller, the leader of the minority, is endowed with a well-rounded legal training and long legislative experience. Senator Fitzpatrick, the Winona celt, is probably the readiest wit in either house, if we except that professional funny man, W. I. Nolan. At a recent function given by the St. Paul Elks in honor of the legislature, the governor and other state officials, Mr. Fitzpatrick was called on for a speech, and there wasn't a dull line in his discourse. He closed by saying that "the legislature was a necessary incident of government," and that in Minnesota it was "convened for the purpose of passing laws for Minneapolis and affording temporary relief to St. Paul."

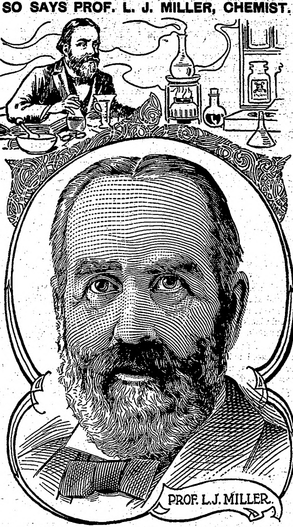
* *

I see some of the Red Lake Falls people occasionally. The other day Ed. Townsend and Miss Mabel Wyer, accompained by a party of Minneapolis friends, were callers at the library. One of the party was Miss Mary Swisher, who was a guest at the home of Frank E. Hunt last summer. Another was Miss Richardson, formerly a teacher in the Thief River school, and a frequent visitor to Red Lake Falls. Ned Taylor, who is clerking in a drug store on the east side, was a caller today. Last Sunday I saw Mr. and Mrs. J. A. H. Lemieux, whom the Red Lake Falls people will remember. Mr. Lemieux has had charge of the dry good department at Mannheimer's for the past year, but last week resigned to go the road for a St. Paul notion house.

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to Tone up the System, Restore the Functions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.



PROF. L.J. MILLER.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School of Ypsilanti, Mich., writes from 3327 N. Clark Street, Chicago, Ill., as follows:

"As several of my friends have spoken to me of the favorable results obtained through the use of Peruna, especially in cases of catarrh, I examined it most thoroughly to learn its contents.

"I found it composed of extracts of herbs and barks of most valuable medicinal qualities combined with other ingredients, delicately balanced, calculated to tone up the system, restore the functions and procure health.

"I consider Peruna one of the most skillfully and scientifically prepared medicines, which the public can use with safety and success."—PROF. L. J. MILLER.

"Builds up the System."

Hon. Joseph H. Ridgeway, Secretary of the American Anti-Treat Society, writes the following letter from the Grand Central Hotel, St. Paul, Minn.:

Joseph Ridgeway.

"It is with great pleasure that I endorse Peruna as an honest medicine, competent to do all it claims. I have used it several times and know of nothing that cures so completely, and at the same time builds up the system.

"I have recommended it to a number of my friends and always feel that I do them a service for I know how satisfactory the results invariably are. I only wish every family had a bottle—it would save much sickness and doctor bills."—Joseph H. Ridgeway.

"Feel Better Than for Five Years."

Mr. James B. Taylor, Roberts, Ind., writes:

"I am at the present time entirely well. I can eat anything I ever could. I took five bottles of Peruna, and feel better now than I have for five years. I have doctored with other doctors off and on for fifteen years, so I can recommend your medicine very highly for stomach troubles. I take great pleasure in thanking you for your free advice and Peruna."—James B. Taylor.

"I Enjoy my Meals as I Used to."

Mr. J. W. Pritchard, Wolf Lake, Ind., writes:

"I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. Before I would get half through my meal my stomach would fill with gas causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine, Peruna.

"It has been one year since I was cured, and I am all O. K. yet, so I know I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of summer catarrh. A remedy that will cure catarrh of one location will cure it anywhere. Peruna cures catarrh wherever located. That it is a prompt and permanent cure for catarrh of the stomach the above letters testify.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

How They Lost Their Home.

Through the gambling instinct.

They let their insurance run out.

They bought things they did not need because they were cheap.

They did not use good judgment or right proportion in their expenditures.

They subscribed for everything they could pay on the installment plan.

Money enough went down in drink and up the smoke to have saved the home.

The father always intends to get his life insured but died without doing so.

They did not realize how easy it is to get into debt and hard it is to get out.

They tried hard to do what others expected of them rather than what they could afford.

They thought it small to insist on having an agreement or understanding put in writing.

They could not say "No" and they could not afford to tell their friends "I cannot afford it."

The sons thought they must "sow their wild oats" as well as the other "fellew of their set."

The daughters thought it beneath them to work for a living, but were bound to dress.

They drew their money out of the savings bank to put into some "wild cat" scheme and lost it.

They did not do business in a business way because they were dealing with friends and relatives.

The doctrine, "Each for himself and they devil take the hindmost," was, in effect, the family creed.

They never formed the habit of putting in the saving bank money which they did not immeadiately need.

They did not know that giving full power of attorney to an agent or lawyer put their property at his mercy,

They thought they could not afford to take their home paper and keep posted on matters of most vital interest to them.

They put off payments on everything possible because it would be much easier to pay tomorrow than to-day.

They signed important papers with-out knowing their contests just because they were asked to do so.

If you cannot eat, sleep or work, feel mean, cross and ugly, take Hollister's Rocky Mountain Tea this month. A tonic for the sick. There is no remedy equal to it. 35 cents, Tea or tablets. A. L. Reichert.

Cosy Compartments.

The privacy of the home will be enjoyed in the cosy compartments on the NORTH-WESTERN Limited. Ladies especially will appreciate the many little conveniences provided on this famous train,—every night Minneapolis and St. Paul to Chicago.

Death rate in Chicago and New York.

During November and December, 1903, one fifth of the deaths in New York and Chicago were from pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs and prevents pneumonia, so do not take chances on a cold wearing away when Foley's Honey and Tar will cure you quickly and prevent serious results. Sold by A. L. Reichert.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure, Dyspepsia, Biliousness and Kidney disease, by all druggists, at 50c per bottle.

In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by W. A. Schreiter.

Startling Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flanndery, of 14 Custom House Place, Chicago, says: "They have no equal for Constipation and biliousness." 25c at all druggists.

8:30 p. m., Tuesday via Omaha, Colorado Springs and Ogden. Arrive San Francisco Saturday 5:20 p. m. For further information apply to any Great Western Agent or J. P. Elmer, G. P. A., Chicago, Ill. f28

The Orignal.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by A. L. Reichert.

Yeast Foam

is the Strong Sweet Yeast that makes the Strong Sweet Bread that makes a Strong Sweet Tempered People

Yeast Foam is the yeast that took the First Grand Prize at the St. Louis Exposition, and is sold by all grocers at 5c a package—enough for 40 loaves. Send a postal card for our new illustrated book, "Good Bread: How to Make It."

NORTHWESTERN YEAST CO.
CHICAGO, ILL.

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

ROYAL BAKING POWDER CO., NEW YORK.

NOTES IN MINOR CHORD.

The city council meets this evening.

Go to the Merchants State Bank for farm loans.

Mr. and Mrs. Sam Allard are still numbered with the sick.

P. K. Olson was over from Plummer several days this week.

Miss Alice Boyd has been a victim to the grippe the past week.

R. E. Wyer was at Thief River Falls over Sunday visiting friends.

An enjoyable dance was held at the K. P. hall last Friday evening.

Teles Roblilliard and George Sauer were Fertile visitors Tuesday night.

Joseph Laundry, of Brooks, was a business caller at this place Monday.

A son was born to Mr. and Mrs. Ildaige Baril on the 7th of this month.

Editor Hasilet of the Gazette will move his family in the Duffy house this week.

Mrs. E. F. Marshall will entertain Friday afternoon in honor of Mrs. J. E. King.

Mrs. J. P. Harren has been suffering from an attack of the grippe the past few days.

M. O. Sortedahl was confined to his home the first of the week by an attack of the grippe.

Mrs. P. O. Floan has been sick the past few days but is improving nicely at this writing.

Herman Harren left Wednesday morning for Bisbee, N. D., where he will make his home.

Read Theo. LaBissoniere's adv. in this paper. He tells you all about house-cleaning necessities.

Joseph Schusser returned home Monday. He has been on the Soo survey the past few months.

Mrs. P. B. Gaass entertained a number of her lady friends Monday afternoon in honor of her birthday.

Men who are careful of purse and style will find the Lanpher hat to be all that we claim of it.—Garceau & Zaiser.

Lewis Noel left yesteaday for the West and if he likes the country he may deside to make Washington his home in the future.

Miss Grace Iddings is recovering rapidly from her illness and will soon be able to resume her duties at the school house.

Farmers are invited to call and see those Acme harrows that have so many friends throughout the country.—S. A. Swanson.

Dr. J. C. Wilkinson was at Grand Forks the first of the week where he went on business connected with the hospital of that place.

The newest novelties in dress goods, the "Panamas" the "Eolinme," have made their appearance at Garceau & Zaiser's.

D. C. McIntyre left Tuesday for Hickson, N. D., after spending the winter at the home of his son, Atty. McIntyre, in this city.

Mrs. Joseph Salley will entertain the St. Mary's society Thursday afternoon. March 23. All are invited to attend.

Miss Lulu Fletcher returned to her school duties at Moorhead yesterday after a visit here with her parents for a week.

Albany Deforge went to Fosston Tuesday where he will receive treatment at the hospital for an ailment of one of his legs.

C. W. Cress has moved in from Lake Pleasent township and will hereafter make this city his home. The family occupy the Z. Bray house.

Wm. Knight, who has been working in the woods this winter, came home last week and remained over Sunday with his family and friends.

Its about time to be thinking about that wind mill. I handle the Goodhue mill, guaranteed first class in every particular.—S. A. Swanson.

Clerk of Court Perrault issued a marriage license the first of the week to Evind Gustenson of Garnes, and Miss Torbjorg S. Dale. of Equality.

You would never regret buying a Goodhue wind mill. Easy running, simply constructed, and will last a life time. For sale by S. A. Swanson.

S. A. Swanson was at Wylie Wednesday where he purchased two cars of oats. He will ship one car to Montana and the other goes to Duluth.

Sam E. Hunt has been laid up the past few days with a slight attack of appendicitis. Sam's many friends hope he will soon recover his usual good health.

Relatives have received word that Miss Mary Erb is sick in Minneapolis with typhoid fever. Her many Red Lake Falls friends hope she will soon recover.

Mrs. A. B. Turdy, of Joliet, and Mrs. Ernest Turdy, of Bathgate, N. D., arrived in the city last Friday for a visit with their brothers, Frank and Ed. Brouillet.

Z. Bregier will move his pool room to St. Hilaire this month. He has rented buildings at that place and expects to do a flourishing business in the saintly city.

Agent Tracy of the Great Northern has a new assistant in the person of Wm. Eikstein who began his duties last week. Mr. Eikstein hailes from Wylie.

A. Brouillet, of Joliet, N. D., who has been sick at the home of his son Frank in this city, is improving rapidly and expects to return to his home in a few days.

Fertile went dry again at their election Tuesday, the probitionists winning by a margin of seven votes. Fosston, McIntosh and Mentor all voted against license.

Joe and Nap Miller have purchased a pool table and will occupy the building one door south of their present location. They expect to move in the near future.

Remarkable, but meritful, isn't it style and workmanship has made a friend of every woman who has worn the queen quality shoe? Price $3.00—Garceau & Zaiser.

Robert Bourdon, who has been in the employ of the Soo serveying crew all winter. returned home Saturday evening, the surveyors having finished their work.

Mrs. Kate Spillane, mother of W. T. Spillane, has been quite sick this week with pneumonia but is improving and hopes are entertained that she will soon fully recover.

P. B. Gaass entertained a number of his gentlemen friends Saturday evening in honor of T. W. Doughty, of Armstrong, Iowa, who was his guest for a number of days.

Ed. Brouilliet, who has been in charge of an elevator at Wylie for some months there has returned to Red Lake Falls and will make this place his home in the future.

S. A. Swanson uses a good-size piece of the COURIER this week announcing the opening of the agricultural implement season. Look up his adv. on the last page.

E. L. Norton, of Minneapolis, was here over Sunday the guest of his friend, H. H. Zaiser. Mr. Norton is the traveling contracting freight agent for the Burlington railroad.

Mr. and Mrs. J. P. Harren returned from Grand Forks Monday evening. Mr. Harren was there on a business mission while Mrs. Harren visited relatives and friends.

Beathon & Armstrong announce the arrival of new spring and summer clothes on the first page of this paper. It will pay you to investigate their offerings before buying.

Garceau and Zaiser's store is to be equipped with a cash-carrier system in the near future. A new cashier's desk will also be among the improvement contempled for the store.

Ed. Mayer and family have moved on the Cress farm in Lake Pleasant, Mr. Mayers came from Illinois and will make a valuable addition to the neighborhood in which he has moved.

The "Merry Crew" club met at the home of Miss Florence Dautremont Monday evening. The party was given in honor of Miss Rose Harren who was celebrating her birthday that day.

The blasting by the pile driver crew on the Great Northern work has been hard on the windows about town the past few days. The contractors have already paid for several window lights.

There will be a basket social at the Patenode school house, four miles east of Red Lake Falls. Saturday evening, March 25. A literary and musical program will be given and all are invited to attend.

Commissioners Demann and Sutter and Frank E. Hunt were out in Equality Sunday looking over the proposed sites for a bridge. Csmmissioner Johnson, of Plummer, was also a member of the party.

Prof. Onstad was at St. Hilaire Monday evening drilling the band at that place. He says the youngsters are taking much interest in the organization and that they are making rapid advancement.

The Acme harrow is head shoulders above all competitors. An investigation will convince the most sceptical that all we say about them can be verified. See the Acme before buying.—S. A. Swanson.

Get ready to clean up your back yard as soon as the weather will permit. Strangers visiting a town are easily influenced by the appearance of the streets and yards, and a nice clean city appeals to all.

Hector St. Maries last week for Crookston for a visit with his parents. After spending a few days at that place he intends to go to Washington and may conclude to make his home in the west.

Mrs. Theresa Bischoff was here a couple of days last week looking after business matters and visiting old friends. She is teaching school near Englund, Marshall county, and returned to her duties on Saturday.

Mrs. Frank Persons is visiting friends at Marshall and from that place she will go to St. Charles where the family expect to make their home in the future. Mr. Person expects to go to that place within a month.

T. W. Doughty, of Armstrong, Iowa, was in this section over Sunday looking at land and visiting friends. Mr. Douyhty thinks this section has a great future and may conclude to invest heavily in Red Lake county land.

Yours for Business———

THE BIG STORE

THEO. LaBISSONIERE, Prop.

Miss Emma A. Smith and Miss Nellie Read, the evangelists, will arrive in Red Lake Falls the 25th of this month and will begin their meetings Saturday, March 26. Particulars of the meeting will be given in next week's paper.

Thos. LaBissoniere is holding an auction sale at his farm south of the city to-day. He expects to move to Idaho in a few weeks where he will form a partnership with T. Teasiea, a former resident of Red Lake county, in a billiard and pool room.

The building recently vacated by the Sortedahl Land & Loan Co. is being put in shape this week and will be occupied by L. E. Erickson's tailor shop. The building belongs to Red Lake county and will bring in a handsome income for rent.

At a meeting of the K. P. lodge Monday evening a resolution was passed favoring the meeting of the lodge every two weeks hereafter instead of every week as has been the custom. The matter has been referred to the Grand Lodge for its consideration.

The next band concert will be given at the opera house, Friday evening, March 31st. All lovers of good music should attend this concert as the program will be an especially strong one, being made up of some of the very best selections in print. You will miss a musical treat if you fail to attend this concert.

A. L. La Freniere, a former Red Lake Falls boy, has purshased the Grand Rapids Independent and will assume editorial and business charge of the paper at once. Authorny is making rapid strides in newspaper work, and his many friends in Red Lake county will hope this latest acquisition will win him fame and fortune.

Town Clerk Baril was re-elected at Tuesday's election without opposition. Mr. Baril has held the office since 1891, the year he become of age. He does not particularly care for the position but he makes such a good official that his neighbors and friends throughout the township intend to keep him there as long as possible.

Rev. K. Bjorgo, of Red Wing, and Rev. I. T. Aastad, of Thief River Falls, conducted services at the Norwegian Lutheren church last Sunday, Rev, Bjorgo preaching in the morning and Rev. Aastad having charge of the service in the evening. The gentlemen are good talkers and the congregation greatly enjoyed their efforts.

The town of Climax, over in Polk county, is said to have had a warm time last Tuesday when the question of license came up for settlement. The town went "wet" by one vote but the "dry" advocates have filed notice of a contest, and the end is not yet. Much hard feeling has been developed and both sides are claming fraud.

The lateness of Easter gives the milliners plenty of time to prepare for the event. Speaking of milliners reminds us of the young married man in Crookston who was seen hurrying along the street carrying a big paper bag. Someone asked why he was in such a hurry. "I've just bought a hat for my wife," he replied, "and I want to get home before the style changes."

F. Lecuyer and family arrived from Cottonwood this week and have moved on the old Noel homestead, six and one-half miles southwest of the city. Mr. Lecuyer has purchased 205 acres of land and has one of the best farms in the country. He is thorough farmer, has a large amount of machinery, stock, etc., and will make a valuable addition to the community.

There will be a meeting at the town hall Saturday evening for the purpose of inducing new members to join the band. The band management desire to start several members and make a band of thirty-five pieces this summer if possible. A class of beginners will be started, and all who are interested in music are requested to attend the meeting Saturday evening and help the cause along.

While here Monday Engineer McMilligan, who has pulled the passenger on this division of the Great Northern for some time past, received a telegram from Mason City, Iowa, announcing the death of his father. It was a great shock to Mr. McMilligan as he had not been advised that his father was sick. He left that evening for Iowa and will not resume his work again for a couple of weeks at least.

Pin this in your machine shed. A good mixiure for use as a slush to prevent rusting of machinery is made by dissolving one ounce of camphor in one pound of melted lard; skim off the impurities and add enough black lead to give the mixture an iron color. After cleaning the machinery carefully, smeer on the mixture. It can be left indefinitely, or if wiped off after twenty four hours will prevent rust for some time. When removed the metal should be polished with a soft cloth.

When tired, go home. When you want consolation, go home. When you want fun, go home. When you want to show others you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at the very best, go home and do the act there. When you feel like being extra liberal, go home and practice on your wife and children first. When you want to shine with more brillaincy then usual, go home and light the whole household. Home is the best place of all, if we would but make it so.

Wine of Cardui Cured Her.

213 South Prior Street,
ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite, I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

OLIVE JOSEPH,
[illegible]

Secure a Dollar Bottle of Wine of Cardui Today.

THERE IS TALK OF PEACE NOW.

THE CZAR CALLS A COUNCIL MINISTERS TO DISCUSS THE SITUATION.

Cessation of Hostilities May be Considered by Russia. Kuropatkin's Losses Enormous.

St. Petersburg, March 14.—The Russian general staff reports that "the main body has already completed its retreat and the rear guard are falling back slowly."

What either the "main body" or the "rear guard" consists of has not been definitely fixed, but from the dispatches from the Associated Press correspondents with the Japanese and Russians, the two combined must be but a small portion of the army which Gen. Kuropatkin had gathered along the banks of the Shakhe and Hun rivers.

And yet those who have reached Tie Pass, worn out from days of fighting and retreating, are not out of danger, the Japanese it is reported, having already started another turning movement which will force the Russian3 on to the plains north of Tie Pass, where, in their disorganized state, they would be easy prey for the victory-flushed soldiers of the Mikado.

Washington, March 14.—When the czar calls his war council to-day he will be able to inform them that Japan will welcome peace on reasonable terms and will promptly name conditions provided she is given assurances that they will be seriously considered.

This the emperor has learned from friendly chancellories in Europe as well as the general terms acceptable to Japan.

These, it is said, include the retention by Japan of Port Arthur, a Japanese protectorate over Korea and an indemnity.

REVOLT IS WIDESPREAD.

Russian Peasants Pillage Granaries and Ransack State Buildings.

St. Petersburg, March 14.—Revolt is already widespread in the provinces of Orland Kursk, where the agitation began openly a fortnight ago, since which time it has been daily increasing in magnitude.

The districts of Dmitrieff and Seosk are pillaged nightly by large masses of peasantry. The graneries are plundered and state buildings ransacked and forests cut down. More than a dozen leading estates have been totally devasted.

The magnates are panic-stricken and have telegraphed to M. Bouligine, minister of the interior for more troops, but he has been able to send only a few companies, showing how desperate, from the authorities' point of view, is the internal situation of Russia.

Lucky Policeman.

New York, March 14.—Jeremiah Barber, a policeman, who has served the city four years, has it is reported, fallen heir to two fortunes aggregating nearly $300,000.

The first notice of his good fortune was from Oakland, Cal., where the policeman's uncle, James Elgar, died recently. Barber was on strike duty, and had not been home in four days, when his wife hurried to the station with a letter announcing that her husband had been willed the bulk of his uncle's estate.

Spotted Fever.

New York, March 14.—That cerebro-meningitis "spotted fever" is killing about forty persons a week in this city, was asserted last night, by Commissioner Bartington of the health department, and reports received from cities and towns in Connecticut, New Jeesey and Pennsylvania show that New York is not alone in fighting against the ravages of this dread disease, which kills about 50 per cent of all those attacked by it.

Fire at Mankato.

Mankato, March 14.—The most disastrous fire in the history of the city occurred last evening, lasting from 9 o'clock until almost midnight. When the flames were finally under control, the beautiful Glass Block at the southwest corner of Front and Jackson streets were in ruins, and Richard Bros' big dry goods establishment, the Northwestern Telephone exchange and a dozen physicians had been burned out of house and home. The total loss will be $150,000, on which there is partial insurance.

Killed by Grief.

Peoria, Ill., March 14.—Declaring that he had nothing more to live for, Isaac G. Reynolds, a pioneer merchant, took to his bed after the funeral of Mrs. E. A. Havens, last week, and never arose. He passed away at the Cottage hospital yesterday.

TWIN CITY MARKETS.

Minneapolis, March 13

Wheat—No. 1 northern, $1.10; No. 2 northern, $1.06; May, $1.09. Oats—No. 3 white, 28c. Corn—No. 3, 41. Rye—No. 2, 77c. Barley—No. 2, 49c. Flax—$1.30. Butter—Creamery, extras, 27@28c; firsts, 24@25c; dairy, fancy, 22@24c. Poultry—Turkeys, 9@10c; chickens, 7@8c.

St. Paul, March 13

Cattle—Steers, $3.50@4.00; cows, $3.00@3.50. Hogs—$4.40@4.75. Sheep—Muttons, $[illegible]; lambs, $[illegible].

MINNESOTA HAPPENINGS.

Short Items Showing What has Happened Throughout Confines of North Star State.

The state will start a hatchery for pheasants.

The state board of control resents attacks upon it.

The semi-annual apportionment of state aid to schools amounts to $547,635.

St. Paul federal employes to get no more pay, but are lucky to keep their jobs.

Two Soudan doctors are indicted on a charge of exposing a smallpox patient.

The Sportsmen's League of Minnesota is organized with a membership of 200.

George A. Ralph reports that the state has dug 200 miles of drainage ditches.

It is proposed to spend $400,000 for a new main building at the state university.

The Omaha and the Minneapolis & St. Louis roads will send out good seed trains.

A daring attempt is made at robbing the safe of the Crescent Creamery company.

H. J. Justus was appointed deputy oil inspector for Carver county by Governor Johnson.

The city adopts a new plan to head off damage suits on account of defective sidewalks.

It is estimated that more than 15,000 people visited the new capitol during the afternoon.

The biennial report of the state dairy commissioner shows rapid growth of dairy industry.

One man is killed and four are injured in collapse of approach to Missabe ore dock at Duluth.

Three little runaway boys were found sleeping in the railway station at Wayzata, Lake Minnetonka.

While working on a log jam at Enterprise, Minn., Conrad Helms fell into the river and was drowned.

Bemidji is enjoying a mad dog scare, and a good many of the dogs in town have been slaughtered.

The school in District No. 28, four miles north of Sunrise, has been closed on account of diphtheria.

A $15,000 clubhouse is to be built at Southshore, Mille Lacs lake, by the Eastern Minnesota Land company of Milaca.

Positions were obtained for 106 men and 22 women by the Minneapolis Union City Mission during the month of February.

The estate live stock sanitary board reports a prevalence of glanders among the horses in the timber lands of Northern Minnesota.

The state historical society's archaeological collection of 400,000 specimens is being catalogued and made ready for exhibition.

The state railroad and warehouse commission has been appealed to by shippers to secure them a rebate on coal shipments from Duluth.

The Great Northern railway company yesterday paid $50,000 into the state treasury on the 1904 gross earnings tax of that company.

Two hundred sportsmen from all parts of the state went on record as favoring a law making the forest reserves of the state game preserves.

The work of logging in the Minnesota woods is over. The cut has been small, the mild weather having interfered with hauling operations.

The report of the state oil inspector shows that a total of 199,724 barrels of oil were inspected in the state during the year ending July 31 last.

Henry Klenitz, a prisoner at the Ramsey county jail, dies in great agony, and it is believed that he swallowed pieces of a broken mirror.

Germans of the twin cities propose to commemorate the one hundredth anniversary of the death of Frederick Schiller, the great German poet, on May 9.

The will of Reuben Warner, St. Paul's pioneer jobber, who died last week, was filed yesterday for probate. It values the estate at $400,000, of which $50,000 is in personalty.

Fire broke out in the rear of Green's saloon at Campbell, and before it was under control several of the town's largest buildings were in ruins and the loss is estimated at close to $20,000.

Deputy United States Marshal W. E. Grimshaw will take five Chinese to Seattle for deportation. Three will go from Duluth, Hor Leong, Jim Ginn and Fung Jin, and two from Ashland, Wis., Lee Lung and Lee Quong Yok.

The weekly smallpox report of the state board of health shows that there are twenty-eight new cases in the state. The two counties having the largest number are Otter Tail with eight, and McLeod with five.

Henry Beumer, John Hurly, John Milz and Louis Steinbauer, all residents of St. Augusta, had a narrow escape from drowning while attempting to cross the Mississippi near Clear Lake. The horses owned by Beumer were drowned.

CALUMET Baking Powder

The only high grade Baking Powder sold at a moderate price. Complies with the pure food laws of all states.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exorbitant price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

BERT'S STRATEGY

By RUTH SANTELLE

Copyright, 1904, by K. M. Whitehead

Bertie Temple came hurriedly up the steps with a purposeful look in his usually dreamy eyes that elicited a murmur of surprised comment from the nearest groups on the hotel piazza. He made straight for the corner where Dorothy Vane was holding merry court. Mayhap it was rude to interrupt Upright's best story, but the fair lady lifted questioning eyes, and Bertie plunged into the hostile masculine circle.

"If you please, Miss Dorothy, I should like to beg a few moments' conversation—private, if I may make so bold."

Perhaps it was for the reason that this frank request, made with such apparent confidence in its being granted, sounded so unlike diffident, self deprecatory Bertie that her woman's curiosity was aroused. At any rate, the furious swains received a gracious but aggregate smile for their kindness, and Miss Dorothy was borne away down the moonlit piazza on the arm of that vandal, Temple.

"I'm in a deuce of a hole, Dollie," began Bertie, low and hurriedly. "I can't tell anybody else, but I know you'll help a fellow out. It's that Miss Simpkins—oh, I suppose it sounds frightfully caddish—but I should think you must have seen! Encouraged by my childlike countenance to take advantage, like all the others"—

"Most unhappy infant!" interrupted Dorothy, with a sympathetic pat on his white flanneled sleeve. "You have had our united commiserations for a week. If that amiable spinster harbors no design upon your innocent head appearances are indeed misleading. Only don't, I beseech you, ask me to abuse a faithful conscience by hiding her false front or anything like that."

"No, Dollie, I have my plan—amazingly simple and, I think you'll admit, rather clever." Then he added, with a sharp glance from the corners of his eyes, unobserved by the smiling maiden, "And if you'll only say yes, Dollie, we ought to be able to get some fun out of it thrown in."

"Unveil your mystery," came the animated command.

"It's just this: The old, old bore buttonholed me after dinner tonight and whispered laughingly that she'd discovered the music room window behind the portieres was the most heavenly place to watch the moonlight on the waves and that she was going to feast her soul there this evening and—oh, you know the sort of stuff! Of course it would be the most natural thing in the world for me to forget it if I had persuaded my fiancee to sit with me just outside the window." He stopped suddenly as they reached the corner of the east piazza, caught both the girl's hands and held them for an instant. "Dollie, will you be engaged to me for an hour, just to save a fellow from the clutches?"

Dorothy's head went high, the scent of battle in her delicate nostrils. During the barely perceptible hesitation her mind held the picture of a recent day when she had been cheated out of an afternoon's sailing with the adorable Freddie Burton by Miss Simpkins' meddling.

"I'll do it, Freddie," she whispered in gay excitement.

A moment later Mr. Temple was seating his fiancee pro tem. beneath the wide, dark music room window.

"Ah, Dollie, mine," he breathed in admirably loverlike tones, while the young lady thus possessively addressed half suppressed hysterical giggles, "at last I have you to myself and away from all those smirking cads that cluster around you as if they had the right. The right is mine now, isn't it, sweetheart?"

"Ye-es," very faintly.

Thus encouraged, the happy lover drew nearer and availed himself of two tempting white hands. Miss Dorothy removed them from his tender clasp with vehemence. "Now, Bertie, how many times have I to tell you"—

There was just the tiniest rustling within the window.

"Dollie," he whispered, "you mustn't forget we're engaged!"

The hands resigned themselves limply to the inevitable.

"I hope you realize, dearest"—the voice became audible again, and Dorothy was surprised to notice how pleasantly caressing Bertie's voice could be—"that you have made me the happiest man alive. I've never wanted anything as I have wanted this, and now—oh, girlie, it's almost unbelievable yet! Tell me again that it's so; that you truly love me!"

Dorothy's eyes opened wide in the darkness. Bertie Temple making love in this magnificent fashion! It was almost thrilling.

"Why, of course I do, silly. You know it without my repeating it over and over as if I had nothing else to say."

"Do what, sweetheart?" mischievously.

Again a suggestion of movement on the other side of the window.

Bertie pressed the captive hands warningly. "Please," he whispered. "She's there, listening. You promised. We'll both be in for it if you fail now."

"Well, then behave!" she retorted under her breath. "Just this once, mind." Then a little louder, but unsteadily, "Do I-I-love you, Bertie," she said.

"Oh, my little girl, my little girl!" he said huskily, holding the hands tighter than ever. "I said I was happy before, but I've never been absolutely so until this minute. Why, Dollie! You remember we were interrupted last night, and you've never let me kiss you. It's 'Yes,' isn't it, dear?" leaning very close.

"Why, Bertie Temple, I should say not! Of all the mean, deceiving advantage taking tricks"— She paused breathless, her voice quivering wrathfully.

But Bertie clung desperately to her hands. "Dollie, don't spoil it all!" in a beseeching whisper. "We'll never hear the last of it."

She sank back weakly.

"Oh! I—I—it's so very new, you know. I'm not accustomed to it yet. You—you are not angry with me, d-dear?"

"Angry with you? Never as long as I"—

"Of course I didn't mean that. But anyway you mustn't surprise me so violently. It might make me l-l-like you less. No, I guess I'd better not let you tonight, just for punishment. No—I—well! If you're going to feel so heartbroken, just one ve-ry tiny one right here," indicating the tip of a rosy ear.

The elaborate performance was hardly concluded when a small, agitated voice came very close to Mr. Temple's own auditory member.

"Bertie! I'm positive I smell fresh cigar smoke! Do you suppose any one is listening round the corner? I shall simply die."

The answer came from an unexpected quarter. Out of the dusk of the low music room window stepped the youthful, immaculate figure of Miss Dorothy's brother Bob.

"Hello, you two!" he greeted genially, but with carefully modulated voice. "I didn't mean to listen more than a minute, but it was too good a chance to learn how. I knew you'd not mind so much, being all in the family. But, seriously, old man, I'm no end glad! Rather have you for a brother than any fellow I know—though I had a suspicion that Dot made a practice of refusing you about once a week. And here's my most brotherly kiss for the maiden—not on the ear, either!" And Bob beamed gleefully on one and then the other, a man who had risen to accept his felicitations with quiet dignity and a girl who stood with both hands pressed to a palpitating breast.

"This will just about sign your release on the Simpkins' question, won't it, Bertie?" continued the garrulous Bob. "By the bye, that cheerful skeleton came tiptoeing into the music room just before you two obscured my outlook and left with obvious reluctance on discovering me. I suppose it's registered to my discredit, but I hadn't the moral courage to resign the window seat in her favor."

Dorothy's hands suddenly covered her face, but not in time to quench a little gasping sound that was not more than half laughter.

Bertie took one step to her side and threw a protecting arm across the bent shoulders. Under that shelter a fluttering little heart was proclaiming: "She did come! It was the truth and not a joke to make me wretched! I could never have married a man who would lie to me!"

"Dot must be weeping to think how cut up old lady Simpkins will be," ventured Bob, "and nervous, I suppose, at being interrupted so suddenly. Never mind, little girl. I'll go right away and never tell a soul. Only she might show brother her new ring—or is it all so very new that the ring hasn't arrived yet?"

"So new that the ring was about to be produced when you appeared," replied Bertie in a very deep voice, taking Dollie's left hand and slipping something very quickly on to her finger.

"Oh!" she cried, with a quaver of delight; then she sat down very abruptly, leaning forward to let the moonlight sparkle on the beautiful stone.

For once in his life Bob showed sufficient discretion to steal noiselessly away.

She sat very still, absently turning the circlet this way and that, watching the flash of changing colors; then, with a shaky little sigh, she slipped it off and held it toward him. "It's very lovely, Bertie. I guess the girl you bought it for won't mind my having it on for a few minutes. Aren't you going to tell me who she is, Bertie? We've been pretty good friends, you know."

Straight and tall he stood before her. "Yes, Dollie, I am going to tell you who she is," he answered slowly, then dropped on one knee and slipped the ring back on the finger from which she had removed it. "She is you, you, you," he whispered, "and no one else in the wide world. May it stay there, my Dollie?"

"Bertie," and her eyes grew luminous with wonder, "do you mean that you still care after I have refused you—oh, I don't like to think how many times? But I never knew how nice you could be."

"You never gave me the chance," he answered happily, "so I had to try strategy."

Not In His Line.

The sexton of a certain parish church would brook no interference with what he was pleased to call his "special duties."

"Every mon to his trade, sez I," he would remark. "Let the passon do the praichin' an' I'll do the rest."

On one occasion the vicar was of the opinion that John was neglecting his duties.

John, who was not wanting in wit, strenuously denied the charge and said that he was 'not goin' to stand no meddlin'" with his affairs.

"But, John," said the vicar, "it behooves everybody to mind his p's and q's."

"Everybody but me," retorted John, refusing to be cornered. "P's an' q's is nowt i' my line. I've enough to do to mind the keys and pews."—London Telegraph.

FELTER'S VACATION.

The Story of a Visit to Germany With High Honors.

Once upon a time the senate restaurant at Washington was managed by a German-American named Felter, who was a renowned caterer to senatorial appetites and of course was popular.

In one of the nine months' congressional vacations Felter concluded to visit his old home in Germany, so he applied to Jim Christy, deputy sergeant at arms, for ocean transportation, which in due time was produced, and Felter started in high glee. He did not know how Christy procured the passes, nor did he care.

When he embarked the captain of the German line received him cordially, but with great dignity assigned him to one of the best staterooms and adorned his cabin with flowers. He had the post of honor at table and was treated as a hero or as a great personage might be treated.

Felter the cook could not understand, but he took all that was offered and made the best of the situation. When the vessel finally reached her destination and the passengers were landed the captain of the ship introduced Felter to the mayor, who awaited his coming and insisted that he make his home in the mayor's residence during his visit. His astonishment increased, but he accepted all of these attentions without asking any questions.

The following day he was banqueted as the guest of the city and was called upon for a speech. To the best of his ability he complied and explained the complex workings of the great republic of which he was a naturalized part, and every utterance was applauded. But Felter was unhappy, anxious to get away and find some old friends who might explain the reason for all this adulation. When the banquet was over an old schoolmate managed to get hold of his hand and begged him to go to his house for the night. This Felter gladly did, although the mayor gave reluctant permission, indicating that it was the next thing to discourteous for Felter to abandon the mayor's home while he was the guest of the city.

As soon as they were alone the friend inquired in German, "Felter, what sort of a game is this you have come over here to play on the folks of the fatherland?"

"I don't understand the game myself, and I wish that you could explain it to me. I am the keeper of the restaurant of the senate and am earning a good living at it—in fact, saving money. But that is no position of high honor, and I don't know what these people are doing all this entertaining for. It is away beyond me."

"Why, the steamship people issued your pass for Senator Felter and announced the coming of the senator on their line, and that's the reason you are thus received—in honor of your alleged rank and station."

"Let's look at the passes," said Felter. And there, sure enough, although he had not noticed it before, Jim Christy had secured passes for "Senator Felter," because in no other way could he have secured them.

Felter left the town early the next day and never re-entered it until he had concluded his visit to relatives, and then he came back just in time to catch the returning steamer before she left her dock. When he returned to Washington the things that he said to Jim Christy were too numerous and too strenuous for publication.—St. Louis Republic.

The Baby Camel.

The baby camel is a curious looking little creature, but one which you would hardly select as a household pet. Like all young beasts, it is playful, in a modified, solemn sort of way, and is as clumsy as it is odd to look upon.

Some one has said that if a camel were rid of its deformity it would be quite a respectable appearing beast. But the hump is in nowise a deformity, and a camel who possessed pride of race would die of shame if such a thing were to happen to him. In other words, he would be a camel freak. And with a baby camel, as his hump grows apace, he, too, becomes unusually proud and consequential.

Odd Russian Custom.

Eight days after a baby is born in Russia its hair is shaved by a priest. This is snipped off in four places on the top of the head to form a cross. The baby's godfather collects the shorn down, pinching it up with wax from the tapers. It is then thrown into the baptismal font. If the little pellet sinks there is great sadness in the baby's home, for the Russians believe that the child will die before a year has passed.

Mutually Beneficial.

"Will you keep my daughter in the style to which she has been accustomed?"

"No, sir; I'll keep her in a style to which she has not been accustomed."

"All right, my boy. Take her and be happy. Now her mother and myself will be able to put on a little style to which we have not been accustomed."—Houston Post.

What They Seek Here.

"What is the chief product of the United States?" asked the teacher in a European school.

And without hesitation the bright pupil replied:

"Money."—Washington Star.

The Cynic.

"Let me see, a cynic is a man who is tired of the world, is he not?" the young student of language asked.

"No, no, my child," replied the knowing tutor. "A cynic is a man of whom the world is tired."—Pick-Me-Up.

The miserablest day we live there is many a better thing to do than die.—Dalley.

HOMES OF THE SWISS.

Pretty and Distinct In Style, but Have a Lonely Appearance.

Swiss houses impress one almost invariably with a sense of loneliness. Probably this may be attributed to the contrast they present to their surroundings. They are commonly dwarfed into insignificance by the gigantic scenery in which they have been placed. But near at hand they are decidedly pretty, although their architectural style is distinct from any other.

They are rarely painted and seldom ornamented or embellished, save that the boards and shingles are not infrequently cut and scalloped into odd shapes. Sometimes the front of a chalet bears the owner's or builder's name in large letters, followed by a sentiment, a benediction or a prayer.

These chalets are provided with overhanging roofs, on which flat stones have been laid to keep the fierce winds from tearing them off and not because—as an animated tailor's sign, with a monocle, once informed an old lady in my presence—the natives wished to effect a saving in nails.

Various fruits and vegetables are hung under the projecting eaves for shelter, and the firewood is piled high without for future use. The ground floor is generally given up to a stable, where the cattle are housed in the winter, in delightful proximity to the family overhead.

The household treasures are contained in the living room, or gute stube. Here, too, you will find the large porcelain stove that is the center of the family gatherings on the long winter evenings. In the kitchen, of course, the furniture is of the plainest description, usually consisting of a rude loom, a huge fireplace, a table and a few chairs.—Pilgrim.

BEES IN WAR.

Two Instances In Which the Insects Were Used as Weapons.

The beekeeper, holding a number of bees in his hand, said as he led the way through the apiary: "Bees in the past were used as weapons of war. In the siege of Themiscrya, for instance, they played a very important part. The Romans in this siege made mines in the ground, and the enemy, opening the mines from above, threw in upon the Romans bears and other wild animals, together with swarms of bees. That caused the Romans to flee howling.

"Here in my notebook is another account of the use of bees in war. It is an extract from an Irish manuscript in the Bibliotheque Royale at Brussels, and it tells how the Danes and Norwegians attacked Chester and were repulsed, thanks to the use of bees by the Saxons and their allies in the town.
